Applicant requests authorization (1) to render a transportation service for 14 pipeline and distribution companies which are shareholders of Boundary Gas, Inc. (Boundary Gas customers) in the New England area and in New York and New Jersey, 13 of which are existing customers of Applicant, and (2) to construct and operate certain pipeline loop, compression, measurement and

other related facilities which would be required to enable Applicant (a) to render such transportation services for the Boundary Gas customers and (b) to receive into its system up to 300,000 Mcf of natural gas per day to be purchased by Applicant from TransCanada Pipelines Limited (TransCanada) and imported on a firm basis for Applicant's own general system supply plus any excess volumes available for purchases on a best efforts basis.

Applicant states that Boundary Gas proposes to import up to $185,000 Mcf of gas per day purchased from TransCanada at the existing interconnection between the facilities of Applicant and TransCanada on the international border near Niagara Falls, New York, for resale to the Boundary Gas customers and that Applicant would simultaneously receive such gas at that point for the accounts of each of the Boundary Gas customers. After deducting certain volumes for fuel and use requirements, Applicant proposes to redeliver up to the following daily volumes to each customer:

Customer	Maximum quantity (Mcf)
Redelivered in Applicant's Canadian Gas Transportation Niagara Spur Rate Zone	
National Fuel Gas Supply Co	9,000
Redelivered in Applicant's Canadian Gas Transportation New York Rate Zone	
The Brooklyn Union Gas Co	40,000
Consolidated Edison Co. of New York, Inc	40,000
Long Island Lighting Co	23,000
New Jersey Natural Gas Co	14,000
Subtotal, New York rate zone	117,000
Redelivered in Applicant's Canadian Gas Transportation New England Rate Zone	
Bay State Gas Co	18,000
The Berkshire Gas Co	2,000
Boston Gas Co	13,156
The Connecticut Gas Co	9,000
Fitchburg Gas & Electric Light Co	1,000
Gas Service, Inc	1,000
Haverhill Gas Co	3,044
Manchester Gas Co	2,029
Valley Gas Co	2,012
Subtotal, New England rate zone	51,241
Total daily transportation volume	177,241

Applicant states that the proposed transportation services would be rendered in accordance with the terms of the *pro forma* Canadian gas transportation contract and *pro forma* Rate Schedule CGT. The proposed transportation services would be rendered for ten years and may be provided for an additional period of up to one year to enable the Boundary Gas customers to receive make-up gas.

Applicant states that the Boundary Gas customers have agreed that Applicant should be permitted to charge rates sufficient to enable it to recover from those customers its full annual cost of service applicable to that portion of Applicant's facilities required to be constructed to render such service from the date deliveries commence, including a fair return and a depreciation rate that would ensure recovery by Applicant of its investment in these facilities by the end of the ten-year term.

Applicant asserts that there is both a national and regional need for the gas proposed to be imported by Boundary Gas and that without such additional gas supply, the Boundary Gas customers would be unable to meet their customer requirements during the 1980's. Additionally, Applicant asserts that the proposed facilities are also required to permit Applicant to import and make available for its general system supply additional volumes of up to 300,000 Mcf of gas per day plus any available excess volumes. It is said that these additional volumes would be purchased pursuant to the terms of the precedent agreement and *pro forma* gas purchase contract between Applicant and TransCanada, dated November 5, 1980, as amended, providing for the sale and purchase of up to 100,000 Mcf per day plus any available excess volumes and precedent agreement and *pro forma* gas purchase contract, dated January 9, 1981, providing for the sale and purchase of up 200,000 Mcf per day plus any available excess volumes.

It is proposed that Applicant would construct and operate facilities consisting of approximately 1979.1 miles of 30-inch mainline loop and approximately 82.3 miles of various sized lateral loop line in New York, Pennsylvania and New Jersey and in the New England area, together with 30,465 horsepower of compression, measurement and other related facilities as well as certain modifications required to be made to existing facilities.

The total cost of the proposed facilities is estimated to be $372,571,000 which cost would be financed initially with funds on hand, funds generated internally, borrowings under revolving credit agreements or short term financing.

Any person desiring to be heard or to make any protest with reference to said application should on or before June 12, 1981, file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, a petition to intervene or ■ protest in accordance with the requirements of the Commission's Rules of Practice and Procedure 18 CFR 1.8 or 1.10) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to jurisdiction conferred upon the Federal Energy Regulatory Commission by sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission or its designee on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

Kenneth F. Plumb,

Secretary.

[FR Doc. 81-16248 Filed 5-29-81; 8:45 am]

BILLING CODE 6450-85-M

[Docket No. CP81-322-000]

Texas Gas Transmission Corp.; Application

May 26, 1981.

Take notice that on May 5, 1981, Texas Gas Transmission Corporation (Texas Gas), 3800 Federica Street, Owensboro, Kentucky 42301, filed in Docket No. CP81-322-000 an application pursuant to Section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the transportation of up to 50,000 Mcf of natural gas per day on a best efforts basis for the account of Natural Gas Pipeline Company of America (Natural); the construction and operation of certain pipeline facilities; and the operation of certain measuring facilities, all as more fully set forth in the application on file with the Commission and open to public inspection.

The application states that Dow Chemical Company (DOW) has contracted to purchase, on a best efforts basis, up to 15,000,000 Mcf of gas from Natural pursuant to the terms of a gas sales agreement dated March 30, 1981,

between Natural and DOW,[1] which gas is remote from DOW's existing pipeline system. In order that DOW may be able to receive the gas into its pipeline system, Natural and Texas Gas have entered into a transportation agreement dated April 24, 1981, whereby Natural would cause up to 50,000 Mcf of natural gas per day to be delivered to Texas Gas at the outlet of the Texaco Henry Plant in Vermilion Parish, Louisiana, it is said. At said point, Texas states that it would receive the gas and proposes to transport and deliver the gas to Dow Intrastate Gas Company (Dow Intrastate) at a point of interconnection of the systems of Texas Gas and Dow Intrastate in Lafayette Parish, Louisiana. Texas Gas states that Dow Intrastate would transport and deliver the gas it receives from Texas Gas to DOW at the interconnection of the facilities of DOW and Dow Intrastate at DOW's Plaquemine Plant near Plaquemine, Iberville Parish, Louisiana.

Texas Gas also requests authorization to install, own and operate a side valve assembly on its pipeline at the proposed interconnection of its pipeline with Dow Intrastate in Lafayette Parish. Texas Gas indicates that it would be reimbursed by Natural for all costs associated with the installation of the side valve assembly. Additionally, Texas Gas requests authorization to operate measurement and other related facilities which Dow Intrastate would design, install and own at the aforementioned point of interconnection in Lafayette Parish.

It is stated that Natural would pay Texas Gas 7.64 cents per Mcf (at 14.73 psia) for all quantities of natural gas transported hereunder. Such rate is said to be the present legally effective rate for such service as contained in Texas Gas's Rate Schedule T/SL on file with the Commission.

Any person desiring to be heard or to make any protest with reference to said application should on or before June 12, 1981, file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practive and Procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to jurisdiction conferred upon the Federal Energy Regulatory Commission by Sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission or its designee on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

Kenneth F. Plumb,

Secretary.

[FR Doc. 81-16256 Filed 5-29-81; 8:45 am]

BILLING CODE 6450-85-M

[1] Natural has filed for authorization in Docket No. CP81-302 to make the sale of gas to DOW, it is said.

[Docket No. CP81-324-000]

United Gas Pipe Line Co.; Application

May 26, 1981.

Take notice that on May 7, 1981, United Gas Pipe Line Company (Applicant), P.O. Box 1478, Houston, Texas 77001, filed in Docket No. CP81-324-000 an application pursuant to Section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the operation of facilities for the transportation of natural gas in interstate commerce, all as more fully set forth in the application on file with the Commission and open to public inspection.

Applicant states that certain portions of its system are so constructed and have been operated that gas entering them cannot leave the state in which the facilities are located. One of such segments is located in Covington, Jones, Jasper, Clarke, Lauderdale, Wayne, Forrest, Jefferson Davis, Marion, Lamar, Smith, Simpson, Rankin, Hinds, and Madison Counties, Mississippi (the Jackson Area). The gas supplies that are consumed on this segment enter it from Applicant's general interstate system and from purchases from producers located along the segment itself. The application states that most of Applicant's facilities on the segment have been subject to the Commission's jurisdiction inasmuch as such facilities are used to transport and sell gas in interstate commerce, i.e., to deliver to customers on the segment gas from outside the state of Mississippi or gas that has been commingled with such gas; however, other facilities on the segment are not certificated because heretofore they have not been used to perform any jurisdictional service, i.e., neither does gas flow from such facilities into interstate commerce nor does gas from outside Mississippi or gas commingled with such gas flow into the facilities. Specifically, the uncertificated facilities are said to be gas supply facilities that are used to transport gas from points of purchase from producers on the segment to Applicant's certificated facilities.

Applicant states that due to its gas purchase activities and the decreased demand for gas by certain customers on this segment, the operational requirements in this area have changed. Applicant represents that it is now engaged in negotiations that it anticipates will lead to the acquisition of significant new gas supplies to be connected to this segment which may exceed demand there. Moreover, fuel switching by customers on this segment and temporary plant closings for maintenance purposes produce periods of substantially decreased demand. In order to make gas from all portions of the Jackson area available outside this segment, Applicant proposes to change its method of operations on the segment so that any gas purchased there can be delivered from the segment into Applicant's general pipeline system.

Applicant requests authorization to operate gas supply facilities, other than gathering facilities, for the transportation of natural gas in interstate commerce. The facilities are identified as those used to receive gas in the following purchases:

Field purchase point and seller	Gas purchase contract No.
Pachuta Creek—The Nueces Co	4958-01
Goodwater—Shell Oil Co	4979
Stringer—J. E. Stack, Jr	6328

Applicant states that it is unable to state with certainty when it will be necessary to change the operation of the Jackson segment to permit gas from such segment to flow in interstate commerce, since precise information on the timing and flows of its new purchases and on future demand on the segment is not currently available.

Any person desiring to be heard or to make any protest with reference to said application should on or before June 12, 1981, file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to jurisdiction conferred upon the Federal Energy Regulatory Commission by Sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission or its designee on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

Kenneth F. Plumb,

Secretary.

BILLING CODE 6450-85-M

[Docket No. ES81-47-000]

Upper Peninsula Generating Co.; Application

May 26, 1981.

Take notice that on May 18, 1981, Upper Peninsula Generating Company (Applicant) filed an application with the Federal Energy Regulatory Commission seeking authority, pursuant to Section 204(a) of the Federal Power Act, to issue short-term notes and bankers' acceptances of an aggregate principal amount of up to $45,000,000. The notes and bankers' acceptances will be issued on or before July 1, 1983, and will have a final maturity date not later than July 1, 1984.

Any person desiring to be heard or to make any protest with reference to said application should on or before June 17, 1981, file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, petitions to intervene or protests in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10). The application is on file with the Commission and available for public inspection.

BILLING CODE 6450-85-M

[Project No. 4573-000]

Vidler Tunnel Water Co.; Application for Preliminary Permit

May 28, 1981.

Take notice that Vidler Tunnel Water Company (Applicant) filed on April 22, 1981, an application for preliminary permit [pursuant to the Federal Power Act, 16 U.S.C. 791(a)-825(r)] for proposed Project No. 4573 to be known as Chihuahua Creek located on Chihuahua Creek, a tributary to Peru Creek, in Summit County, Colorado. The application is on file with the Commission and is available for public inspection. Correspondence with the Applicant should be directed to: Mr. Herbert C. Young, 75 Manhattan Drive, Suite 201, Boulder, Colorado 80303. Any person who wishes to file a response to this notice should read the entire notice and must comply with the requirements specified for the particular kind of response that person wishes to file.

Project Description—The proposed unconstructed project would affect lands of the United States within the Arapahoe National Forest and would consist of: (1) a 10-foot long and 4-foot high diversion dam with crest elevation 10,840 m.s.l.; (2) a 24-inch diameter 2,000-foot long penstock; (3) a powerhouse containing a generating unit having a rated capacity of 394 kW at a head of 400 feet; (4) a short tailrace; (5) a 2-mile long 14.4-kV transmission line; and (5) appurtenant facilities. The Applicant estimates that the average annual energy output would be 1,630,480 kWh.

Purpose of Project—Project energy would be sold to several small municipalities or to The Public Service Company of Colorado.

Proposed Scope and Cost of Studies Under Permit—Applicant seeks issuance of a preliminary permit for a period of three years, during which time it would complete feasibility, engineering, and hydrologic studies, conduct field surveys, prepare environmental reports and detailed plans, consult with Federal, State, and local agencies, and would prepare an application for an FERC license. Applicant estimates the cost of the work under the permit would be $80,000.

Purpose of Preliminary Permit—A preliminary permit does not authorize construction. A permit, if issued, gives the Permittee, during the term of the permit, the right of priority of application for license while the Permittee undertakes the necessary studies and examinations to determine the engineering, economic, and environmental feasibility of the proposed project, the market for power, and all other information necessary for inclusion in an application for a license.

Agency Comments—Federal, State, and local agencies that receive this notice through direct mailing from the Commission are invited to submit comments on the described application for preliminary permit. (A copy of the application may be obtained directly from the Applicant.) Comments should be confined to substantive issues relevant to the issuance of a permit and consistent with the purpose of a permit

as described in this notice. No other formal request for comments will be made. If an agency does not file comments within the time set below, it will be presumed to have no comments.

Competing Applications—Anyone desiring to file a competing application must submit to the Commission, on or before August 10, 1981, either the competing application itself or a notice of intent to file a competing application. Submission of a timely notice of intent allows an interested person to file the competing application no later than October 9, 1981. A notice of intent must conform with the requirements of 18 CFR 4.33 (b) and (c) (1980). A competing application must conform with the requirements of 18 CFR 4.33 (a) and (d) (1980).

Comments, Protests, or Petitions To Intervene—Anyone desiring to be heard or to make any protests about this application should file a petition to intervene or a protest with the Commission, in accordance with the requirements of its Rules of Practice and Procedure, 18 CFR 1.8 or 1.10 (1980). Comments not in the nature of a protest may also be submitted by conforming to the procedures specified in 1.10 for protests. In determining the appropriate action to take, the Commission will consider all protests or other comments filed, but a person who merely files a protests or comments does not become a party to the proceeding. To become a party, or to participate in any hearing, a person must file a petition to intervene in accordance with the Commission's Rules. Any comments, protest, or petition to intervene must be received on or before August 10, 1981.

Filing and Service of Responsive Documents—Any comments, notices of intent, competing applications, protests, or petitions to intervene must bear in all capital letters the title "COMMENTS", "NOTICE OF INTENT TO FILE COMPETING APPLICATION", "COMPETING APPLICATION", "PROTEST", or "PETITION TO INTERVENE", as applicable. Any of these filings must also state that it is made in response to this notice of application for preliminary permit for Project No. 4573. Any comments, notices of intent, competing applications, protests, or petitions to intervene must be filed by providing the original and those copies required by the Commission's regulations to: Kenneth F. Plumb, Secretary, Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, D.C. 20426. An additional copy must be sent to: Fred E. Springer, Chief, Applications Branch, Division of Hydropower Licensing, Federal Energy Regulatory Commission, Room 208, 400 First Street, N.W., Washington, D.C. 20426. A copy of any notice of intent, competing application, or petition to intervene must also be served upon each representative of the Applicant specified in the first paragraph of this notice.

Kenneth F. Plumb,

Secretary.

[FR Doc. 81-16289 Filed 5-29-81; 8:45 am]

BILLING CODE 6450-85-M

[Project No. 4291-000]

W. M. Lewis & Associates, Inc.; Application for Preliminary Permit

May 27, 1981.

Take notice that W. M. Lewis & Associates, Inc. (Applicant) filed on March 4, 1981, an application for preliminary permit [pursuant to the Federal Power Act, 16 U.S.C. 791(a)—825(r)] for proposed Project No. 4291 to be known as Lowell Lock and Dam No. 3, Hydroelectric Project located on the Muskingum River in Washington County near Lowell, Ohio. The application is on file with the Commission and is available for public inspection. Correspondence with the Applicant should be directed to: W. M. Lewis & Associates, Inc., Box 1383, Portsmouth, Ohio 45662. Any person who wishes to file a response to this notice should read the entire notice and must comply with the requirements specified for the particular kind of response that person wishes to file.

Project Description—The proposed run-of-the-river project would consist of: (1) the existing Lowell Lock and Dam No. 3 which includes a rockfill crib and concrete capped dam 20 feet high and 900 feet long and a lock structure 30 feet wide and 20 feet high, the Lock and Dam are owned by the State of Ohio; (2) an existing canal 5,400 feet long, 75 feet wide, and 4 feet deep; (3) an impoundment extending upstream approximately 10 miles at surface elevation 607.64 feet m.s.l.; (4) a new powerhouse below the south (right) abutment of Lowell Dam No. 3 having units with an installed capacity of 5 MW; and (5) other appurtenances.

The Applicant estimates that the average annual energy output would be 32,800,000 kWh.

Purpose of Project—Project energy would be sold to American Municipal Power-Ohio, Inc.

Proposed Scope and Cost of Studies Under Permit—Applicant seeks issuance of a preliminary permit for a period of 24 months, during which time it would perform hydraulic, construction planning, economic, environmental, historic, and recreational studies, and if the proposed project is determined feasible, prepare and application for a FERC license. Applicant estimates cost of studies under the permit would be $60,000.

Purpose of Preliminary Permit—A preliminary permit does not authorize construction. A permit, if issued, gives the Permittee, during the term of the permit, the right of priority of application for license while the Permittee undertakes the necessary studies and examinations to determine the engineering, economic, and environmental feasibility of the proposed project, the market for power, and all other information necessary for inclusion in an application for a license.

Agency Comments—Federal, State, and local agencies that receive this notice through direct mailing from the Commission are invited to submit comments on the described application for preliminary permit. (A copy of the application may be obtained directly from the applicant.) Comments should be confined to substantive issues relevant to the issuance of a permit and consistent with the purpose of a permit as described in this notice. No other formal request for comments will be made. If an agency does not file comments within the time set below, it will be presumed to have no comments.

Competing Applications—Anyone desiring to file a competing application must submit to the Commission, on or before August 5, 1981, either the competing application itself or a notice of intent to file a competing application. Submission of a timely notice of intent allows an interested person to file the competing application no later than October 5, 1981. A notice of intent must conform with the requirements of 18 CFR 4.33 (b) and (c) (1980). A competing application must conform with the requirements of 18 CFR 4.33 (a) and (d) (1980).

Comments, Protests, or Petitions To Intervene—Anyone desiring to be heard or to make any protests about this application should file a petition to intervene or a protest with the Commission, in accordance with the requirements of its Rules of Practice and Procedure, 18 CFR 1.8 or 1.10 (1980). Comments not in the nature of a protest may also be submitted by conforming to the procedures specified in § 1.10 for protests. In determining the appropriate action to take, the Commission will consider all protests or other comments filed, but a person who merely files a protest or comments does not become a party to the proceeding. To become a

party, or to participate in any hearing, a person must file a petition to intervene in accordance with the Commission's Rules. Any comments, protest, or petition to intervene must be received on or before August 5, 1981.

Filing and Service of Responsive Documents—Any comments, notices of intent, competing applications, protests, or petitions to intervene must bear in all capital letters the title "COMMENTS", "NOTICE OF INTENT TO FILE COMPETING APPLICATION", "COMPETING APPLICATION", "PROTEST", or "PETITION TO INTERVENE", as applicable. Any of these filings must also state that it is made in response to this notice of application for preliminary permit for Project No. 4291. Any comments, notices of intent, competing applications, protests, or petitions to intervene must be filed by providing the original and those copies required by the Commission's regulations to: Kenneth F. Plumb, Secretary, Federal Energy Regulatory Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426. An additional copy must be sent to: Fred E. Springer, Chief, Applications Branch, Division of Hydropower Licensing, Federal Energy Regulatory Commission, Room 208, 400 First Street, N.W., Washington, D.C. 20426. A copy of any notice of intent, competing application, or petition to intervene must also be served upon each representative of the Applicant specified in the first paragraph of this notice.

Kenneth F. Plumb,

Secretary.

BILLING CODE 6450-85-M

[Docket Nos. CS72-195, et al.]

Wintergreen Energy Corp. et al.; Applications for "Small Producer" Certificates [1]

May 26, 1981.

Take notice that each of the Applicants listed herein has filed an application pursuant to section 7(c) of the Natural Gas Act and § 157.40 of the Regulation thereunder for a "small producer" certificate of public convenience and necessity authorizing the sale for resale and delivery of natural gas in interstate commerce, all as more fully set forth in the applications which are on file with the Commission and open to public inspection.

Any person desiring to be heard or to make any protest with reference to said applications should on or before June 10, 1981, file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, petitions to intervene or protests in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Persons wishing to become parties to a proceeding or to participate as a party in any hearing therein must file petitions to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Energy Regulatory Commission by sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will held without further notice before the Commission on all applications in which no petition to intervene is filed within the time required herein if the Commission on its own review of the matter believes that a grant of the certificates is required by the public convenience and necessity. Where a petition for leave to intervene is timely filed, or where the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicants to appear or be represented at the hearing.

Kenneth F. Plumb,

Secretary.

BILLING CODE 6450-85-M

Office of Hearings and Appeals

Issuance of Proposed Decisions and Orders; Week of April 27 Through May 1, 1981

During the week of April 27 through May 1, 1981, the proposed decisions and orders summarized below were issued by the Office of Hearings and Appeals of the Department of Energy with regard to applications for exception.

Under the procedural regulations that apply to exception proceedings (10 CFR Part 205, Subpart D), any person who will be aggrieved by the issuance of a proposed decision and order in final form may file a written notice of objection within ten days of service. For purposes of the procedural regulations, the date of service of notice is deemed to be the date of publication of this Notice or the date an aggrieved person receives actual notice, whichever occurs first.

The procedural regulations provide that an aggrieved party who fails to file a Notice of Objection within the time period specified in the regulations will

be deemed to consent to the issuance of the proposed decision and order in final form. An aggrieved party who wishes to contest a determination made in a proposed decision and order must also file a detailed statement of objections within 30 days of the date of service of the proposed decision and order. In the statement of objections, the aggrieved party must specify each issue of fact or law that it intends to contest in any further proceeding involving the exception matter.

Copies of the full text of these proposed decisions and orders available in the Public Docket Room of the Office of Hearings and Appeals, Room B–120, 2000 M Street, N.W., Washington, D.C. 20461, Monday through Friday, between the hours of 1:00 p.m. and 5:00 p.m., except federal holidays.

George B. Breznay,

Director, Office of Hearings and Appeals.

May 26, 1981.

Proposed Decision and Order

Chevron, U.S.A., Inc., San Francisco, California, BEE–1632, crude oil

Chevron U.S.A., Inc. filed and Application for Exception from the provisions of 10 CFR 212.84(h). The exception request, if granted, would permit Chevron U.S.A., Inc. to consider the costs of crude oil imported from the Persian Gulf, Libya, and Nigeria during the period May 15, 1980 through January 28, 1981 to have been incurred when such crude oil was "loaded" rather than when it was "landed" in the United States. On April 29, 1981, the Department of Energy issued a Proposed Decision and Order which determined that the exception request be denied.

Proposed Decision and Order

Clark Oil & Refining Corp., Milwaukee, Wisconsin, BEE–1582, crude oil

Clark Oil & Refining Corp. filed an Application for Exception from the provisions of 10 CFR Part 211. The exception request, if granted, would permit the applicant to pass through on a retroactive basis all increases in its non-product marketing costs. On April 29, 1981, the Department of Energy issued a Proposed Decision and Order which determined that the exception request should be denied.

Proposed Decision and Order

Greene Oil, Inc., Letcher, South Dakota, BEE–1484, propane

Greene Oil, Inc. filed an Application for Exception from the provisions of 10 CFR 212.93. The exception request, if granted, would permit Greene to retroactively raise the maximum lawful selling price for propane sold by the firm during the period November 1973 through May 1976. On May 1, 1981, the Department of Energy issued a Proposed Decision and Order which determined that the exception request should be denied.

Proposed Decision and Order

Marlex Oil & Refining, Los Angeles, California, BEE–1481, crude oil

Marlex Oil & Refining, Inc. filed an Application for Exception from the provisions of 10 CFR 211.67. The exception request, if granted, would permit the firm to receive entitlements benefits with respect to crude oil inventory purchased in connection with the start-up and expansion of the Marlex refinery. On April 28, 1981, the Department of Energy issued a Proposed Decision and Order which determined that the exception request should be denied.

BILLING CODE 6450–01–M

Objection To Proposed Remedial Orders Filed; Week of May 4 Through May 8, 1981

During the week of May 4, through May 8, 1981, the notices of objections to proposed remedial orders listed in the Appendix to this Notice were filed with the Office of Hearings and Appeals of the Department of Energy.

Any person who wishes to participate in the proceeding the Department of Energy will conduct concerning the proposed remedial orders described in the Appendix to this Notice must file a request to participate pursuant to 10 C.F.R. 205.194 on or before June 22, 1981. The Office of Hearings and Appeals will then determine those persons who may participate on an active basis in the proceeding and will prepare an official service list, which it will mail to all persons who filed requests to participate. Persons may also be placed on the official service list as non-participants for good cause shown.

All requests to participate in these proceedings should be filed with the Office of Hearings and Appeals, Department of Energy, Washington, D.C. 20461.

George B. Breznay,

Director, Office of Hearings and Appeals.

May 26, 1981.

Fasgo, Inc., Brookhaven, Pennsylvania, BRO–1445, motor gasoline

On May 8,1981, Fasgo, Inc. Brookhaven, Pennsylvania, filed a Notice of Objection to a Proposed Remedial Order which the DOE Northeast Enforcement District of the Economic Regulatory Administration issued to the firm on March 23, 1981. In the Proposed Remedial Order the Northeast District found that during the period June 1, 1977 through July 31, 1979 Fasgo committed pricing violations in its retail sales of motor gasoline. According to the Proposed Remedial Order the firm's violations resulted in $263,501.30 of overcharges to its customers.

Key Oil Co., Franklin Kentucky, BRO–1444, diesel fuel

On May 5, 1981, Key Oil Company, Highway 31 W. South, Rt. 3, Franklin Kentucky filed a Notice of Objection to a Proposed Remedial Order which the DOE Southeast Enforcement District of the Economic Regulatory Administration issued to the firm on March 20, 1981. In the Proposed Remedial Order, the Southeast District found that during the period November 1, 1973 through March 31, 1974, Key Oil Company committed pricing violations in its retail sales of diesel fuel. According to the Proposed Remedial Order, the Key Oil Co. violations resulted in $91,327.55 of overcharges to its customers.

ENVIRONMENTAL PROTECTION AGENCY

[A–10–FRL 1842–1]

Proposal To Terminate the State of Idaho's Federal Air Grant Funding; Opportunity For Public Hearing

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of hearing opportunity.

SUMMARY: The U.S. Environmental Protection Agency, Region 10 (EPA) invites comments on and announces an opportunity for public hearing on EPA's proposal to withdraw certain Section 105 air program grant funds from the State of Idaho's Department of Health and Welfare beginning July 1, 1981.

HEARING LOCATION:

Date: July 2, 1981
Time: 7:30 P.M.
Place: EPA Idaho Operations Office, 422 W. Washington Street, Boise, Idaho.

FOR FURTHER INFORMATION CONTACT: M. Lynn McKee, Director, EPA Idaho Operations Office, 422 W. Washington Street, Boise, Idaho 83702, Telephone: (208) 384–1450, FTS: 554–1450.

SUPPLEMENTARY INFORMATION:

Background Information

For several years, EPA has provided the State of Idaho Department of Health and Welfare (IDHW) a Section 105 Clean Air Act (42 U.S.C. 7405(b)) grant to partially support its air pollution control program. As stated in the Clean Air Act, in order for a State to be eligible to receive Section 105 funding, a State must meet two matching requirements. Those requirements are as follow:

1. Federal support can not exceed 75 percent of the cost of the air pollution control program (i.e., the State must provide at least 25 percent in non-Federal funds).

2. The State must provide at least as much in non-Federal, recurrent (ongoing) funds as was provided in the previous

year unless there is a non-selective reduction in ongoing non-Federal expenditures by all executive branch agencies in the State.

During this year's legislative session, State funding for the IDHW air program was eliminated beginning July 1, 1981. EPA has been notified by the State that its air program activities will be terminated by July 1, 1981. Therefore, since the IDHW will have no non-Federal funding to support its air pollution control program beyond June 30, 1981, EPA is required by the Clean Air Act to reduce IDHW's air grant award. EPA proposes to take the following actions:

1. Withdraw unexpended or remaining funds authorized by Section 105 not required for the State to complete its program. Idaho is required by law to expend at least as much in State funding in Federal Fiscal Year (FY) 1981 as was spent in FY 1980, $277,525, to be eligible for any Federal Section 105 funds. Since the Idaho program will be terminated in June of 1981, three quarters of the way through FY 81, this requirement will be satisfied if Idaho expends at least $208,144 (¾ x $277,525) in non-Federal (State) funds. EPA should be able to withdraw in excess of $140,265 (¼ of the FY 81 operating grant of $561,060).

2. Terminate the Section 105 grant to the State of Idaho on June 30, 1981 since the State will not provide the non-Federal matching funds required to be eligible for a Section 105 grant after that date.

Invitation of Comments—Opportunity for Hearing

Any person who desires to comment on this proposed action may do so by writing to the above listed contact person. Comments must be received on or before July 1, 1981.

IF NO TIMELY REQUEST FOR A HEARING IS RECEIVED, NO HEARING WILL BE HELD.

A public hearing will be held if (and only if) a request for a public hearing is received at the office listed above within thirty (30) days following publication of this notice, that is by July 1, 1981. The purpose of this hearing would be to take comment on the proposed withdrawal of remaining or unexpended Section 105 air grant funds from IDHW. If a hearing is requested, it will be conducted at the time and place listed above.

If a request is not received, no public hearing will be held. It is suggested that any one who anticipates attending this public hearing call the above listed office to verify if a hearing is to be held.

A shorter notice period is being employed for this action (the usual period is 45 days) because the State's current Section 105 grant will expire on June 30, 1981.

Dated: May 21, 1981.

L. Edwin Coate,

Acting Regional Administrator.

BILLING CODE 6560-38-M

[SA-FRL-1841-7]

Science Advisory Board, Technology Assessment and Pollution Control Committee; Open Meeting

Under Pub. L. 92-463, notice is hereby given that a two-day meeting of the Technology Assessment and Pollution Control Committee (TAPCC) of the Science Advisory Board will be held in Conference Room 250, National Academy of Sciences, 2101 Constitution Avenue, N.W., Washington, D.C. on June 25-26, 1981. The meeting will begin at 9:00 a.m. each day and last until approximately 5:00 p.m.

This meeting is one of three or four routinely held each year. The primary purpose of this meeting is to review the results or status of several recent or on-going studies of the Committee, including those on pollution control guidance documents for the synthetic fuels industry, incentives for technology utilization and development, and toxics and hazardous waste control technology research. Future TAPCC activities in this and other areas will also be discussed.

The meeting is open to the public. Any person wishing to attend or to obtain further information about the meeting should contact the TAPCC Executive Secretary, Harry C. Torno, at (202) 472-9444 or 9457.

Ernst Linde,

Acting Staff Director, Science Advisory Board.

May 19, 1981.

BILLING CODE 6560-34-M

[A-4-FRL-1830-8]

Standards of Performance for New Stationary Sources and National Emission Standards for Hazardous Air Pollutants; Delegation of Authority—State of Tennessee

AGENCY: Environmental Protection Agency.

ACTION: Informational Notice.

SUMMARY: Section 301 in conjunction with Sections 111 and 112 of the Clean Air Act authorizes the Administrator to delegate his authority to implement and enforce the New Source Performance Standards (NSPS) and National Emission Standards for Hazardous Air Pollutants (NESHAPS). The State of Tennessee has requested delegation of this authority. After a thorough review of the request and information submitted, the Regional Administrator determined that such delegation was appropriate for the source categories and with the conditions set forth in the letter reproduced below. Source categories identified below which are subject to these requirements will now be under the jurisdiction of the State of Tennessee.

EFFECTIVE DATE: April 11, 1980.

FOR FURTHER INFORMATION CONTACT: Raymond S. Gregory, Air Programs Branch, Environmental Protection Agency, 345 Courtland Street, N.E., Atlanta, Georgia 30365, 404/881-3286 or FTS 257-3286.

SUPPLEMENTARY INFORMATION: In letters dated June 29, June 30, August 13, 1976, and September 25, 1979, Harold E. Hodges, Director of Tennessee Department of Public Health's Division of Air Pollution Control submitted to the EPA Regional Office requests for delegation of authority for implementation and enforcement of NSPS and NESHAPS. After a thorough review of the request and information submitted, the Regional Administrator has determined that delegation or reliquishment of this authority to Tennessee is appropriate subject to the conditions set forth in the following letter. (See Appendix A)

In the letter above of April 11, 1980, the NSPS source category of sulfuric acid plants was inadvertently omitted. Authority for such sources was relinquished in the following letter. (See Appendix B)

Therefore, pursuant to the authority delegated to her by the Administrator, the Regional Administrator formally notified the Director of the Tennessee's Division of Air Pollution Control in the letters reproduced above that the authority to implement and enforce NSPS and NESHAPS for source categories listed was delegated to the State of Tennessee.

Copies of the request for delegation of authority are available for public inspection at the Environmental Protection Agency, Region IV office, 345 Courtland Street, N.E., Atlanta, Georgia 30365.

Effective immediately, all reports required pursuant to the delegated NSPS and NESHAPS should not be submitted to the EPA Region IV office, but instead should be submitted to the State agency

at the following address: Mr. Harold E. Hodges, P.E., Director, Division of Air Pollution Control, Tennessee Department of Public Health, 256 Capitol Hill Building, Nashville, Tennessee 37219.

Sections 111, 112, and 301 of the Clean Air Act, as amended (42 U.S.C. 7411, 7412, and 7601))

Dated: May 3, 1981.

John A. Little,

Acting Regional Administrator.

Appendix A

United States Environmental Protection Agency, Region IV, 345 Courtland Street, Atlanta, Georgia
April 11, 1980.

Mr. Harold E. Hodges, *P.E.*,
Director, Division of Air Pollution Control, Tennessee Department of Public Health, 256 Capitol Hill Building, Nashville, Tennessee.

Dear Mr. Hodges: This is in response to your letters of June 29, June 30, August 13, 1976 and September 25, 1979 requesting relinquishment of Federal responsibility to implement and enforce the Standards of Performance for New Stationary Sources (NSPS) and the National Emission Standards for Hazardous Air Pollutants (NESHAPS) programs.

We have reviewed the pertinent laws of the State of Tennessee and the rules and regulations thereof, and have determined that they provide an adequate and effective procedure for implementation of the NSPS and NESHAPS by the State of Tennessee. Therefore, pursuant to Section 111 of P.L. 91–604 (1970) as amended by P.L. 95–95 (1977), the Clean Air Act (CAA) as amended and 40 CFR Part 61, we hereby relinquish our primary responsibility for implementation and enforcement of NSPS and NESHAPS, respectively, to the State of Tennessee as follows:

A. Responsibility for all sources located or to be located in the State of Tennessee (except for Davidson and Knox Counties) subject to the standards of performance for new stationary sources promulgated in 40 CFR Part 60 and amendments thereto as published in the **Federal Register** as of the date of your request letters (June 29, June 30, August 13, 1976 and September 25, 1979). The categories of new sources covered by this responsibility are: fossil fuel-fired steam generators; incinerators; portland cement plants, nitric acid plants; asphalt concrete plants; petroleum refineries; storage vessels for petroleum liquids, secondary brass and bronze ingot production plants; iron and steel plants; sewage treatment plants; secondary lead smelter; phosphate fertilizer plants (five categories); primary aluminum plants; coal preparation plants; electric arc furnaces; primary copper, zinc, and lead smelters; ferroalloy production facilities; lime manufacturing plants; grain elevators; and kraft pulp mills.

B. Responsibility for all sources located or to be located in the State of Tennessee (except for Davidson and Knox Counties) subject to the national emission standards for hazardous air pollutants promulgated in 40 CFR Part 61 and amendments thereto as published in the **Federal Register** as of the date of your request letters. The four hazardous air pollutants covered by this authority are: asbestos, beryllium, mercury and vinyl chloride.

C. This relinquishment is based upon the following conditions.

1. Existing quarterly reports normally submitted to EPA through program plan reporting will be expanded to contain pertinent information relating to the status of sources subject to 40 CFR Parts 60 and 61. As a minimum, the following information should be provided to EPA: the name; address; type and size of each facility; the compliance status of each facility with accompanying explanations of noncompliance where applicable; notice of enforcement actions brought against facilities subject to 40 CFR Part 60 or 61; surveillance actions undertaken for each facility; and the results of all reports relating to emissions data.

2. Enforcement of NSPS and NDSHAPS in the State of Tennessee (except in Davidson and Knox Counties) will be the primary responsiblity of the Division of Air Pollution Control. If the State determines that such enforcement is not feasible and so notifies EPA, or where the State acts in a manner inconsistent with the terms of this granted authori'y, EPA will exercise its concurrent enforcement authority pursuant to Section 113 of the Clean Air Act, as amended, with respect to sources within the State of Tennessee subject to the NSPS and NESHAPS.

3. Acceptance of this relinquishment of presently promulgated NSPS and NESHAPS does not commit the State to request or accept enforcement responsibility of future standards and requirements. A new request for enforcement responsibility will be required for any standards not included in Paragraphs A and B above.

4. The State of Tennessee will at no time grant a waiver of compliance with NESHAPS (40 CFR § 61.11). The State of Tennessee will at no time grant a variance or other temporary or permanent exemption from compliance with NSPS and NESHAPS regulations. Should the State grant such a variance or other exemption, EPA will consider the source receiving the variance or exemption to be in violation of the applicable Federal regulations and may initiate enforcement action against the source pursuant to Section 113 of the Clean Air Act. The granting of such variances by the State shall also constitute grounds for revocation of the pertinent portions of this relinquishment by EPA.

5. If at any time there is a conflict between a State regulation and a Federal regulation (40 CFR Parts 60 and 61), the Federal regulation must be applied if it is more stringent than that of the State. For sources determined to be subject to Federal NSPS but not the State's NSPS, the State shall, within 60 days from date of relinquishment of responsibility or date of determination, perform the following:

a. Notify the source in writing of the applicable Federal requirements.

b. Notify EPA Region IV of the source and include the name, address, type, and size of each facility subject to the standards; the compliance status of each facility with accompanying explanations of non-compliance where appliable; notice of enforcement actions brought against facilities subject to 40 CFR Part 60 and 61, surveillance actions undertaken for each facility; and the results of all reports relating to emissions data.

If the State does not have the authority enforce a Federal regulation, the pertinent portion of the relinquishment may be revoked.

6. Performance tests shall be scheduled and conducted in accordance with the procedures set forth in 40 CFR Parts 60 and 61 unless alternate methods or procedures are approved by the EPA Administrator. Although the Administrator retains the exclusive right to approve equivalent and alternative test methods as specified in 40 CFR 60.8(b)(2) and (3), and 64.14 the State may approve minor changes in methodology provided these changes are reported to EPA Region IV. The Administrator also retains the right to change an opacity standard as specified in 40 CFR 60.11(a).

7. Additionally, the State of Tennessee must require reporting of all excess emissions from any NSPS source in accordance with 40 CFR 60.7(c).

8. Alternatives to continuous monitoring procedures or reporting requirements, as outlined in 40 CFR 60.13(i), may be approved by the State with the prior concurrence of the EPA Administrator.

9. If a source proposes to modify its operation or facility which may cause the source to be subject to NSPS requirements, the State shall notify EPA Region IV and obtain a determination on the applicability of the NSPS regulations.

10. If the Administrator determines that the State procedure for enforcing or implementing the NSPS or NESHAPS is inadequate, or is not being effectively carried out, this relinquishment may be revoked in whole or part. Any such revocation shall be effective as of the data specified in a Notice of Revocation to the Division of Air Pollution Control.

11. Information shall be made available to the public in accordance with 40 CFR 60.9(b) and 61.15(b). Any records, reports, or information provided to, or otherwise obtained by, the State in accordance with the provisions of these regulations shall be made available to the designated representative of EPA upon request.

12. The previous delegation by EPA to the Metropolitan Nashville-Davidson County Health Department (Pollution Control) and Knox County Department of Air Pollution Control of responsibility to implement and enforce NSPS and NESHAPS will remain in effect. The State of Tennessee will provide both the Davidson and Knox County local programs with technical assistance as necessary and as resources provide to carry out the delegated programs. In exercising the relinquished Federal responsibility for NSPS and NESHAPS, the State of Tennessee will overview the performance of the Davidson and Knox County local programs in

implementing and enforcing both NSPS and NESHAPS.

13. Upon approval of the Regional Administrator of Region IV, the Director of the Division of Air Pollution Control may subdelegate his authority to implement and enforce the NSPS and NESHAPS to air pollution control authorities in the State when such authorities have demonstrated that they have equivalent or more stringent programs in force.

The State and EPA will develop a system of communication sufficient to guarantee a program that includes the items described below:

a. Each agency is informed of the current compliance status of subject sources in the State of Tennessee;

b. Prior EPA concurrence is obtained on any matter involving interpretation of 40 CFR Parts 60 and 61 (including unique questions of applicability of the standards); and

c. Enforcement actions (including requests for information and enforcement actions based thereon) already initiated by EPA prior to this delegation, shall be completed by EPA.

d. The State will notify EPA if any devices or processes are used by a source owner or operator, that would allow circumvention of any applicable standard.

A notice announcing these actions will be published in the **Federal Register** in the near future. The notice will state, among other things, that, effective immediately, all reports required pursuant to NSPS and NESHAPS, by sources located in Tennessee (except for sources located in Davidson and Knox Counties) should be submitted to the Division of Air Pollution Control, Tennessee Department of Public Health, 256 Capitol Hill Building, Nashville, Tennessee 37219; any such reports which have been or may be received by EPA, Region IV, will be promptly transmitted to this State agency.

Since this action is effective immediately, there is no requirement that the State of Tennessee notify EPA of its acceptance. Unless EPA receives from the State of Tennessee written notice of objections within ten (10) days of the date of receipt of this letter, the State will be deemed to have accepted all of the terms as stated herein.

Sincerely yours,

Alec Little,

Deputy Regional Administrator.

for

Rebecca W. Hanmer,

Regional Administrator.

Appendix B

July 25, 1980.

Mr. Harold E. Hodges, *P.E.,*
Director, Division of Air Pollution Control, Tennessee Department of Public Health, 256 Capitol Hill Building, Nashville, Tennessee.

Dear Mr. Hodges: In our letter to you of April 11, 1980, EPA relinquished its primary authority to administer New Source Performance Standards (NSPS) and National Emission Standards for Hazardous Pollutants (NESHAPS) to the State of Tennessee. In that letter, the source category of sulfuric acid plants was inadvertently omitted as a category for which the State was to administer NSPS.

This letter is intended to relinquish EPA responsibility to Tennessee for implementing NSPS for sulfuric acid plants in Tennessee. Relinquishment is subject to the same terms and conditions stated in our April 11, 1980 letter. That letter and its terms and conditions are therefore hereby incorporated as part of this agreement. If we receive no written objections to the terms of this agreement within ten (10) working days of receipt of this letter, we will assume you have none.

Please feel free to contact Mr. Winston Smith of our Air Programs Branch (404/881-2864), if you have any questions.

Sincerely yours,

Paul J. Traina,

Acting,

Rebecca W. Hanmer,

Regional Administrator.

BILLING CODE 6560-38-M

FEDERAL EMERGENCY MANAGEMENT AGENCY

[Docket FEMA-REP-3-VA-1]

Virginia Radiological Emergency Response Plan

AGENCY: Federal Emergency Management Agency.

ACTION: Notice of Receipt of Plan.

SUMMARY: For continued operation of nuclear power plants, the Nuclear Regulatory Commission requires approved licensee and State and local governments' radiological emergency response plans. Since FEMA has a responsibility for reviewing the State and local emergency plans to the FEMA Regional Office. These plans support nuclear power plants which impact on Virginia, and include those of local governments near the Virginia Electric Power Company's North Anna Power Station located in Louisa County.

DATE: Plans received: May 13, 1981.

FOR FURTHER INFORMATION CONTACT: Mr. Robert J. Adamcik, Acting Regional Director, FEMA Region III, Curtis Building, 6th and Walnut Streets, Philadelphia, Pennsylvania, 19106, (215) 597-9416.

Notice

In support of the Federal requirement for emergency response plans, FEMA has proposed a Rule describing its procedures for review and approval of State and local government's radiological emergency response plans. Pursuant to this proposed FEMA Rule (44 CFR Part 350.8), "Review and Approval of State Radiological Emergency Plans and Preparedness," 45 FR 42341, the State Radiological Emergency Response Plan for the Commonwealth of Virginia was received by the Federal Emergency Management Agency Region III Office.

Included are plans for local governments which are wholly or partially within the plume exposure pathway emergency planning zone of the nuclear plant. For the North Anna Power Station, plans are included for Louisa, Spotsylvania, Hanover, Caroline and Orange Counties.

Copies of the Plan are available for review at the FEMA Region III Office, or they will be made available upon request in accordance with the fee schedule for FEMA Freedom of Information Act requests, as set out in subpart C of 44 CFR Part 5. There are 1618 pages in the document; reproduction fees are $.10 a page payable with the request for copy.

Comments on the Plan may be submitted in writing to Mr. Robert J. Adamcik, Acting Regional Director, at the above address by July 1, 1981.

FEMA proposed Rule 44 CFR 350.10 also calls for a public meeting prior to approval of the plans. Details of this meeting will be announced in the Richmond Times Dispatch at least two weeks prior to the scheduled meeting. Local radio and television stations will be requested to announce the meeting.

Robert J. Adamcik,

Acting Regional Director, FEMA Region III.

May 21, 1981.

FEDERAL MARITIME COMMISSION

[Independent Ocean Freight Forwarder License No. 1728]

I.M.S., Inc.; Order of Revocation

On May 17, 1979, I.M.S., Inc., 4416 Wheeler Avenue, Alexandria, VA 22304, requested the Commission to revoke its Independent Ocean Freight Forwarder License No. 1728.

Therefore, by virtue of authority vested in me by the Federal Maritime Commission as set forth in Manual of Orders, Commission Order No. 201.1 (Revised), § 5.01(c), dated August 8, 1977;

It is ordered, that Independent Ocean Freight Forwarder License No. 1728 issued to I.M.S., Inc., be revoked effective May 17, 1979.

It is further ordered, that Independent Ocean Freight Forwarder License No. 1728 issued to I.M.S., Inc., be returned to the Commission for cancellation.

It is further ordered, that a copy of this Order be published in the **Federal Register** and served upon I.M.S., Inc.

Albert J. Klingel, Jr.,

Director, Bureau of Certification and Licensing.

BILLING CODE 6730-01-M

FEDERAL RESERVE SYSTEM

Midland Bank Limited; Public Meeting

Midland Bank Limited, London, England, has applied for the Board's approval under section 3(a)(1) of the Bank Holding Company Act (12 U.S.C. 1842(a)(1)) to become a bank holding company by acquiring 50 percent or more of the voting shares of Crocker National Corporation, San Francisco, California. Notice of this application was published in the **Federal Register** on March 23, 1981 (46 FR 18,066).

The Board has received from the public three protests to this application, one of which requested the Board to hold a formal hearing on the application. The Board has determined that the three protests are not substantive and that the hearing request should be denied. However, while there is no legal requirement to hold any public proceeding on this application, in light of the importance of Crocker National Bank in the communities in which it operates and the interest of the public in the proposal, the Board has determined to hold a public meeting on the application in San Francisco, California. The meeting will commence at 9:00 a.m. on June 22, 1981, at the Federal Reserve Bank of San Francisco, 400 Sansome Street, San Francisco, California 94120.

Any person who desires to give testimony, present evidence, or otherwise participate in this proceeding should file with the Assistant Secretary, Board of Governors of the Federal Reserve System, Washington, D.C., 20551, on or before June 12, 1981, a written request containing a statement of the nature of that person's interest in the proceedings, the extent of the participation desired, a summary of the matters concerning which that person desires to give testimony, submit evidence or raise questions, and the names and identity of witnesses who propose to appear. Such requests will be submitted to the designated presiding officer of the proceeding.

By order of the Board of Governors, effective May 26, 1981.

James McAfee,

Assistant Secretary of the Board.

[FR Doc. 81-16346 Filed 5-29-81; 8:45 am]

BILLING CODE 6210-01-M

[Docket No. R-0360]

Policy Statement Concerning the Sale of Third Party Commercial Paper by State Member Banks

AGENCY: Board of Governors of the Federal Reserve System.

ACTION: Policy Statement.

SUMMARY: Pursuant to its authority to restrain unsafe or unsound banking practices by State member banks, the Board of Governors of the Federal Reserve System adopts a policy statement setting forth guidelines governing the sale by a State member bank of commercial paper of issuers not related to the bank ("third party commercial paper"). The guidelines reflect the Board's judgment that certain practices may develop in the sale by a bank of third party commercial paper that may not be consistent with the principles of safe and sound banking. The guidelines concern the type and amount of commercial paper that should be sold, the kinds of records that should be maintained, and the purchasers to which such paper may be sold. The Board intends to monitor closely the activities of State member banks in this area and may modify or supplement this policy statement based on the Board's review of the experience of State member banks in conducting these activities.

EFFECTIVE DATE: May 26, 1981. Interested parties may submit comments on the policy statement that will be reviewed by the Board. Comments must be received on or before July 31, 1981.

ADDRESS: Comments should include reference to Docket No. R-0360 and should be mailed to the Secretary, Board of Governors of the Federal Reserve System, 20th and Constitution Avenue, NW., Washington, D.C. 20551, or delivered to Room B-2223, 20th and Constitution Avenue, NW., Washington, D.C. between 8:45 a.m. and 5:15 p.m. Comments may be inspected in Room B-1122 between 8:45 a.m. and 5:15 p.m.

FOR FURTHER INFORMATION CONTACT: Robert S. Plotkin, Assistant Director, Division of Banking Supervision and Regulation, (202) 452-2782, or Richard Ashton, Senior Counsel, Legal Division, (202) 452-3750, Board of Governors of the Federal Reserve System, Washington, D.C. 20551.

SUPPLEMENTARY INFORMATION: On September 26, 1980, the Board took action with respect to the petitions of the Securities Industry Association (the "SIA") and of A. G. Becker Incorporated ("A. G. Becker") that the Board prohibit Bankers Trust Company, New York, New York ("Bankers Trust"), a State member bank, from selling third party commercial paper. The Board denied the petitions to the extent they alleged that Bankers Trust's commerical paper activities violate the Glass-Steagall Act or should be prohibited by general consisderations of public policy. The Board also stated that the sale of third party commercial paper by a commercial bank could involve, at least in some circumstances, potential unsafe or unsound practices. The Board thus took no action on the petitions' allegations of dangers to Bankers Trust or potential conflicts of interest pending development of general supervisory guidelines designed to avoid potential unsafe or unsound practices in the sale of third party commercial paper by State member banks.

In developing the guidelines that are set forth in the following policy statement, the Board has consulted with the staffs of the other Federal banking agencies and has considered the allegations of unsafe practices made by the SIA and A. G. Becker and the comments of the Securities and Exchange Commission.

With respect to the possibility that a bank's commercial paper selling activities may lead the bank into investing its funds in imprudent

investments, the Board recognizes that a bank's selling activity may result in the purchase of some commercial paper with the bank's own funds. However, the Board notes that banks have traditionally been permitted to purchase commercial paper for their own account and such purchases have been treated for supervisory purposes as commercial loans. In addition, since only large, well-known corporations with established credit ratings are able to market unsecured obligations, commercial paper is generally a low-risk instrument, even relative to some commercial loans.[1] Furthermore, the Board's guidelines provide that a bank should sell only prime quality paper and make a thorough credit analysis of each issuer and that all commercial paper sold by the bank should be fully supported by available lines of credit.[2] These guidelines would also minimize the danger that a bank selling commercial paper might be tempted to make unsound loans to an issuer which is encountering financial difficulties in order to protect the bank's reputation.

The SIA, A. G. Becker, and the SEC have also raised the possibility of loans by a selling bank to facilitate purchase of commercial paper being sold by the bank. However, because rates on commercial paper are usually lower than rates charged on bank loans, the use of borrowed funds to purchase commercial paper would be unprofitable and thus unlikely. Accordingly, there does not appear to be any practical substance to this concern.

Another potential hazard cited in connection with bank sales of commercial paper is the possibility that the bank's salesman's interest might impair its existing obligations to its customers and might consequently damage the bank's good will and reputation. In particular, it is claimed that bank depositors might suffer losses on paper purchased from the bank, that "the bank's reputation for prudence and restraint would be abused," that the bank would lose its ability to provide disinterested investment advice, and that the bank might "unload" worthless commercial paper in its trust department.

Under the Board's guidelines, however, a bank may sell commercial paper only to financially sophisticated purchasers and may not advertise commercial paper for sale to the general public. Thus, there appears to be little likelihood that any but a small fraction of a bank's depositors would even consider purchasing commercial paper being sold by the bank. For the same reason, the potential for a bank abusing its reputation for "prudence and restraint" in selling commercial paper does not appear significant. Finally, with respect to potential inability to provide disinterested investment advice and "unloading" of worthless commercial paper in the bank's trust accounts, the guidelines provide that the bank should not sell commercial paper to fiduciary accounts over which the bank has investment discretion.

The Board intends to monitor closely the selling activities of Bankers Trust and any other State member bank that may initiate such services. Based on further experience in this area, the Board may modify or supplement these guidelines to assure that such activities are conducted in accordance with principles of safe and sound banking.

Accordingly, acting pursuant to its supervisory authority over State member banks contained in section 9 (12 U.S.C. 321, *et seq.*) and section 11 (12 U.S.C. 248) of the Federal Reserve Act and the Financial Institutions Supervisory Act of 1966 (12 U.S.C. 1818(b)) and related provisions of law, the Board of Governors adopts the following policy statement.

Policy Statement Concerning Sale of Third Party Commercial Paper by State Member Banks

The Board of Governors has recently determined that the sale of commercial paper by a State member bank for unaffiliated issuers ("third party commercial paper" [3]) did not violate the Glass-Steagall Act (12 U.S.C. §§ 24, Seventh, 378). The Board was concerned however, that the sale of third party commercial paper [4] might, in some circumstances, involve unsafe or unsound practices. Accordingly, in the interest of safe and sound banking, the Board believes that any State member bank that may decide to engage in the sale of third party commercial paper should adhere to the following guidelines.[5]

1. A State member bank should sell only prime quality commercial paper that qualifies for the exemption provided by section 3(a)(3) of the Securities Act of 1933 (15 U.S.C. 77c(a)(3)). The bank should take appropriate precaution to assure itself that the section 3(a)(3) exemption applies to the commercial paper it proposes to sell. In this regard, (i) the bank should determine that the commercial paper it proposes to sell is of prime quality; (ii) the bank may rely on representations of the issuer with respect to the use of proceeds; (iii) except as further limited by paragraphs 7 and 8, the bank should sell commercial paper only to financially sophisticated customers, such as customers that regularly purchase a variety of short-term credit instruments, and should not advertise commercial paper for sale to the general public; (iv) the bank should obtain periodically, and maintain in the bank's records, a current legal opinion of counsel that the section 3(a)(3) exemption is available. In addition, the bank should sell commercial paper in minimum denominations that are consistent with applicable law and, in no event, should sell commercial paper in minimum denominations of less than $100,000.

2. The selling bank should maintain a complete credit analysis of the issuer at all times and should exercise due diligence in investigating the financial affairs of the issuer. Particular attention should be given to the liquidity position of the issuer and its lines of credit. All commercial paper sold by the bank should be fully supported by available lines of credit. Any participation by the selling bank in such lines of credit should be made only after consideration of the bank's legal lending limit.

3. Senior management should adopt internal limits for the amount(s) of commercial paper that may be sold by the bank for a single or related issuer(s). In determining the internal limits, senior management should consider the financial condition of the issuer, all lines of credit available to the issuer, and the bank's participation in the lines of credit and any other extensions of credit or commitments to the issuer by the bank (including commercial paper purchased by the bank for its own account.)

[1] The Board notes that, at least on some occasions, significant losses have been suffered by commercial paper purchasers, for example, the 1970 collapse of Penn Central Transportation Company. However, banking functions, such as commercial lending, also involve some degree of risk and losses can and do occur.

[2] A selling bank could only participate in the line of credit up to the amount of its legal lending limit.

[3] Excluding commercial paper issued by a parent bank holding company; the Board has previously advised bank holding companies concerning sales of bank holding company commercial paper (letter dated June 27, 1980).

[4] Banks have traditionally purchased commercial paper upon the order, and for the account of, customers, whereas here the bank is essentially acting for the issuer; the former activity is not subject to the guidelines set forth in this Policy Statement.

[5] The Board does not expect to take enforcement action to restrain unsafe or unsound banking practices with respect to third-party commercial paper selling activities of any State member bank that conducts such activities within these guidelines.

4. Chronological records of original entry should be maintained that contain an itemized daily record of all sales and purchases of commercial paper. The records should also contain:

- A designation of the commercial paper,
- Nature of the transaction, e.g. purchase or sale,
- Trade and settlement dates,
- Contra-party name or designation,
- Net proceeds, discount rate, or yield to maturity.

5. Account records should be maintained for each issuer that reflect:

- All sales and purchases of commercial paper placed by the bank for that issuer,
- All lines of credit available to the issuer,
- The amount of the bank's participation in the lines of credit,
- A current balance of all extensions of credit and a description of other commitments to the issuer.

6. Account records should be maintained for each purchaser that reflect all sales and purchases of commercial paper for the account of that customer.

7. Commercial paper should not be sold to fiduciary accounts over which the bank has investment discretion.

8. Commercial paper should not be sold to the bank's parent holding company (unless it is a bank) or any nonbank affiliate of the bank.

9. The bank should furnish to all purchasers of commercial paper written advice in connection with all purchases that (1) the commercial paper is not an obligation of the bank, and is not insured by the FDIC, (2) the bank has no obligation to repurchase any of the paper sold, (3) the bank is under no obligation to lend funds to the issuer (except pursuant to existing credit lines, or other commitments, if any), and (4) copies of the issuer's most recently published financial statements will be furnished upon request.

By order of the Board of Governors, May 26, 1981.

James McAfee,

Assistant Secretary of the Board.

BILLING CODE 6210-01-M

FEDERAL TRADE COMMISSION

Early Termination of the Waiting Period of the Premerger Notification Rules

AGENCY: Federal Trade Commission.

ACTION: Granting of request for early termination of the waiting period of the premerger notification rules.

SUMMARY: The Oklahoma Publishing Co. is granted early termination of the waiting period provided by law and the premerger notification rules with respect to the proposed acquisition of certain voting securities of Standard Metals Corp. The grant was made by the Federal Trade Commission and the Assistant Attorney General in charge of the Antitrust Division of the Department of Justice in response to a request for early termination submitted by both parties. Neither agency intends to take any action with respect to this acquisition during the waiting period.

EFFECTIVE DATE: May 14, 1981.

FOR FURTHER INFORMATION CONTACT: Roberta Baruch, Senior Attorney, Premerger Notification Office, Bureau of Competition, Room 303, Federal Trade Commission, Washington, D.C. 20580 (202-523-3894).

SUPPLEMENTARY INFORMATION: Section 7A of the Clayton Act, 15 U.S.C. 18a, as added by Title II of the Hart-Scott-Rodino Antitrust Improvements Act of 1976, requires persons contemplating certain mergers or acquisitions to give the Commission and Assistant Attorney General advance notice and to wait designated periods before consummation of such plans. Section 7A(b)(2) of the Act permits the agencies, in individual cases, to terminate this waiting period prior to its expiration and requires that notice of this action be published in the **Federal Register.**

By direction of the Commission.

Carol M. Thomas,

Secretary.

GENERAL SERVICES ADMINISTRATION

National Archives and Records Service

National Archives Advisory Council; Meeting

Notice is hereby given that the National Archives and Records Service Advisory Council will meet on June 11, 1981, from 2:30 p.m. to 5:30 p.m. and June 12, 1981, from 9:00 a.m. to 4:30 p.m. in Room 105, National Archives and Records Service, 8th and Pennsylvania Avenue, N.W., Washington, D.C. 20408. The meeting will be devoted to a review of the current state of the Archives, reports from Council Subcommittees, and related matters of concern to the operation of the National Archives and Records Service of the United States.

The meeting will be open to the public.

Dated: May 20, 1981.

Robert M. Warner,

Archivist of the United States.

[FR Doc. 81-16178 Filed 5-29-81; 8:45 am]

BILLING CODE 6820-26-M

National Archives Advisory Council, FBI Appraisal Project Review Panel

Notice is hereby given that the FBI Appraisal Project Review Panel will meet on June 11, 1981, from 9:30 a.m. until adjournment in Room 105, National Archives and Records Service, 8th and Pennsylvania Avenue, NW., Washington, D.C. 20408.

The Panel will:

1. Review the FBI Appraisal Project methodology and schedule.

2. Review qualifications for consultants and recommend a list of potential consultants who will review the FBI records retention plan and the disposition schedules.

The meeting on June 11 will be open to the public during the discussion of item 1, above. Panel deliberations under item 2, above, are closed in accordance with exemption (6) of the Government in Sunshine Act (5 U.S.C. 552b(c)). For further information contact Robert R. Brookhart, General Services Administration (NAX), Washington, D.C. 20408 (202-523-3616).

Because of the tight Court-imposed deadline for completing the appraisal project, this meeting must be held with less than 15 days advance notice in the **Federal Register.**

Issued in Washington, D.C., on May 29, 1981.

Robert M. Warner,

Archivist of the United States.

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

Office of Environmental Quality

[Docket No. NI-56]

Deep River Waterline, CDBG, Lee County, North Carolina; Intended Environmental Impact Statement

The Department of Housing and Urban Development gives notice that an Environmental Impact Statement (EIS) is intended to be prepared for the following project under HUD programs as described in the appendix to this Notice: Deep River Waterline, CDBG, Lee County, North Carolina. This Notice is required by the Council on Environmental Quality under its rules (40 CFR Part 1500).

Interested individuals, governmental agencies, and private organizations are invited to submit information and comments concerning the project to the specific person or address indicated in the appropriate part of the appendix.

Particularly solicited is information on reports or other environmental studies planned or completed in the project area, issues and data which the EIS should consider, recommended mitigating measures and alternatives, and major issues associated with the proposed project. Federal agencies having jurisdiction by law, special expertise or other special interests should report their interests and indicate their readiness to aid the EIS effort as a "cooperating agency."

Each Notice shall be effective for one year. If one year after the publication of a Notice in the **Federal Register** a Draft EIS has not been filed on a project, then the Notice for that project shall be cancelled. If a Draft EIS is expected more than one year after the publication of the Notice in the **Federal Register**, then a new and updated Notice of Intent will be published.

Issued at Washington, D.C., May 26, 1981.

Francis G. Haas,

Deputy Director, Office of Environmental Quality.

Appendix—Environmental Impact Statement, Deep River Waterline, CDBG, Lee County, North Carolina

The Lee County, North Carolina, Office of Community Development intends to prepare an Environmental Impact Statement (EIS) on a proposed project in Lee County described below. Interested agencies, organizations, and the public are invited to provide comments and information on issues which the EIS should address.

Description. The proposed project is the construction of a 12-inch diameter waterline in Deep River Township, generally following the alignment of Old U.S. Highway 1 (SR 1466) from the County water tank at SR 1415 to Deep River Elementary School, a distance of approximately 2.5 miles. The project would receive financial aid from HUD through the Housing and Community Development Act of 1974, as amended. Engineering design and construction are proposed to begin as quickly as feasible after HUD approval of the project, but not sooner than October 1, 1981. Project completion is expected within 12 months thereafter. The purpose of the project is to provide an adequate supply of potable water to the Deep River community, an area of generally low-yield wells. Service to Deep River Elementary School is a major feature of the project due to previously documented contamination of the existing well at the school.

Need. An Environmental Impact Statement is required under 24 CFR 58.25(c), i.e., the project, if constructed, is capable of supporting the development of at least 500 housing units (or equivalents) in excess of present demand for water. At this time, the likely environmental impacts appear to be the direct and temporary impacts normally associated with utility construction. Indirect and long term impacts which may result from development induced by the project include loss of wildlife habitat, an increase in storm water runoff, and increased nutrient loading in project area streams.

Alternatives Perceived. Alternatives to the proposed project as perceived at this time include reduced diameter of the water line; alternate route; no project.

Scoping. This Notice is part of the process for determining the scope of the EIS. Responses will help determine significant environmental issues and identify data which the EIS should address and will help identify cooperating agencies.

Comments. Comments and information should be sent on or before June 22, 1981 to: Mr. Elwin J. Buchanan, Director, Lee County Community Development Office, Post Office Box 987, Sanford, North Carolina 27330. Telephone number (919) 776-4256.

Earthquake Studies Advisory Panel; Public Meeting

Pursuant to Pub. L. 92-463, effective January 5, 1973, notice is hereby given that an open meeting of the Earthquake Studies Advisory Panel will be held beginning at 8:30 a.m. (local time) on Friday, June 12, 1981, and continuing through Saturday, June 13, 1981. The Advisory Panel will meet in the Entrance Level Seminar Room, Colorado School of Mines Building, Colorado School of Mines Campus, 1711 Illinois Street, Golden, Colorado 80225.

(1) *Purpose.* The Advisory Panel was appointed to advise the Geological Survey on earthquake plans and programs which are conducted in cooperation with universities, industry, and other Federal and State government agencies in a coordinated national program for earthquake research.

(2) *Membership.* The Advisory Panel is composed of persons drawn from the fields of geology, geophysics, engineering, rock mechanics, and socioeconomics, primarily from the academic community.

(3) *Agenda.* Review of the program activities for fiscal year 1981 and plans for fiscal year 1982.

For more detailed information about the meeting, please call Dr. John R. Filson, Chief, Office of Earthquake Studies, Reston, Virginia 22092, (703) 860-6472.

Doyle G. Frederick,

Acting Director, U.S. Geological Survey.

BILLING CODE 4310-31-M

Bureau of Land Management

California; Emergency Closure of Public Lands

Notice is hereby given that effective immediately all designated areas of public lands in Section 17 and 18, T. 1 N., R. 27 E., MDBM, located north of the maintained gravel/dirt road traversing diagonally from near the east half of Section 18 to the extreme southwest corner of Section 17, and east of the mining access road which parallels the west line north along the east half of Section 18 with the exception of the designated parking area and access road, are closed to all vehicle access except when authorized for administrative purposes (see

accompanying map).[1] Copies of the map are available at the Bakersfield District Office.

The purpose of this closure is to protect the fragile Mono Lake Tufa Towers from damage by motor vehicles.

Authority for this closure is under Title 43 CFR 8341.2 and will be in effect until further notice.

Harold W. Lamb,

Acting District Manager.

BILLING CODE 4310-84-M

Casper District Advisory Council; Meeting

Notice is hereby given, in accordance with Pub. L. 92-463, that a meeting of the Casper District Advisory Council will be held on July 21 and 22, 1981.

On July 21, the meeting will begin at 9:00 a.m. in the conference room of the Casper District Office, Bureau of Land Management, 951 Rancho Road, Casper, Wyoming. Attendees will then travel to Midwest, Wyoming, approximately 35 miles north of Casper, for a tour of the Salt Creek Area of Critical Environmental Concern (ACEC). On July 22 the meeting will convene at 9:00 a.m. in the Casper District Office.

The agenda will include discussion of problems and opportunities observed during the previous day's tour of the Salt Creek ACEC and requirements for preparation of an ACEC implementation plan.

The meeting will be open to the public. Persons attending the tour on July 21 must furnish their own transportation, food, and drink. Interested persons may make oral statements or file written statements for the council's consideration. Anyone wishing to make an oral statement should notify the District Manager, Bureau of Land Management, 951 Rancho Road, Casper, Wyoming 82601 by July 17, 1981. Depending on the number of persons wishing to make oral statements, a per person time limit may be established by the district manager.

Summary minutes of the meeting will be maintained in the district office and be available for public inspection within 30 days following the meeting.

Robert E. Wilber,

District Manager.

Worland District Advisory Council; Meeting

May 22, 1981.

Notice is hereby given, in accordance with Pub. L. 94-579 and 43 CFR Part 1780, that a meeting of the Worland District Advisory Council will be held on Wednesday, July 1, 1981 at 9:00 a.m. at the bureau of Land Management Office annex, 1701 Robertson Avenue, Worland, Wyoming 82401.

The agenda for the meeting will include: Development of criteria for the BLM draft rangeland policy, and any discussion in response to public statements presented at the meeting.

The meeting is open to the public. Interested persons may make oral statements to the Council between 1:00 and 1:30 p.m., or file written statements for the Council's consideration. Anyone wishing to make an oral statement must notify the District Manager at the above address on or before, Tuesday, June 30, 1981. Written statements must be received by close of business on June 30, 1981. Depending on the number of persons wishing to make an oral statement, a per person time limit may be established.

Summary minutes of the meeting will be maintained in the District Office and be available for public inspection and reproduction, during regular business hours, within 30 days following the meeting.

Paul M. Andrews,

Acting District Manager.

National Park Service

Chesapeake and Ohio Canal; Cumberland/North Branch Area; Availability of Environmental Assessment and Notice of Public Hearing

The National Park Service has prepared an Environmental Assessment for the Cumberland/North Branch Development Concept Plan. This assessment has been undertaken to direct future management and use of the area.

The document includes a description of the environment, description of alternatives developed to answer the needs and objectives of the park, and an assessment of the impacts associated with each of the alternatives.

A public meeting on this issue will be held June 17, at 7:30 p.m. in the Continuing Education Building, (Rooms 11, 12, 13 and 14), Allegany County Community College, Cumberland, Maryland.

Written comments on this assessment are invited and will be accepted until July 17, 1981. Comments should be addressed to the Superintendent, Chesapeake and Ohio Canal National Historical Park, P.O. Box 4, Sharpsburg, Maryland 21782.

Copies of the assessment are available from:

Chesapeake and Ohio Canal NHP, P.O. Box 4, Sharpsburg, Maryland 21782
National Park Service, National Capital Region, 1100 Ohio Drive, SW., Washington, D.C. 20242

Dated: May 21, 1981.

Robert Stanton,

Acting Regional Director, National Capital Region.

BILLING CODE 4310-70-M

Lewis and Clark, National Historic Trail Advisory Council; Meeting

Notice is hereby given, in accordance with the Federal Advisory Committee Act, 86 Stat. 770, 5 U.S.C. App. 1, as amended by the Act of September 13, 1976, 90 Stat. 1247, that two meetings of the Lewis and Clark National Historic Trail Advisory Council will be held. The Council Chairperson and Advisory Council members residing in the States of Illinios, Missouri, Kansas, Iowa, Nebraska, South Dakota, North Dakota, and Washington, D.C. will meet June 17, 1981, beginning at 9:00 a.m. at the Ramada Inn, 7007 Grover Street, Omaha, Nebraska. The Council Chairperson and Advisory Council members residing in the States of Montana, Idaho, Washington, and Oregon will meet June 24, 1981, beginning at 9:00 a.m. at the Mallory Hotel, 729 Southwest 15th Avenue, Portland, Oregon.

The Council was established by the Act of November 10, 1978, 92 Stat. 3467, 16 U.S.C. 1244, to meet and consult with the Secretary of the Interior on matters relating to the administration and development of the Lewis and Clark National Historic Trail.

The members of the Council are as follows:

Mr. J. L. Dunning (Chairperson)
Mr. Phil F. Knerl
Mr. Victor Ecklund
Dr. K. Ross Toole
Mr. Clarence H. Decker
Mr. Joseph A. McElwain
Mrs. Shirley Tanzer
Mr. Rudy Clements
Mr. Charles T. Coston
Mr. William M. Lockwood
Mr. Sherry Fisher
Mr. Larry Jochims
Mr. Willard Burney
Dr. John Caylor
Mr. Jim Cooper
Mr. John G. Lepley
Mr. Walter Hjelle
Mr. Dayton W. Canaday
Dr. E. G. Chuinard
Mr. Ralph Rudeen

Matters to be discussed at the meeting will include issues related to the Comprehensive Management Plan for the Lewis and Clark National Historic Trail and the role of the Council in administration of the Trail.

The meeting will be open to the public. Interested persons may submit written statements to the official listed below prior to the meeting.

Further information concerning this meeting may be obtained from Bill Farrand, Rivers and Trails Coordinator, Midwest Region, National Park Service, 1709 Jackson Street, Omaha, Nebraska 68102, telephone 402-221-3482 (FTS 864-3482). Minutes of the meeting will be available for public inspection 3 weeks after the meeting at the midwest Regional Office.

Dated: May 15, 1981.

J. L. Dunning,

Regional Director, Midwest Region.

BILLING CODE 4310-70-M

INTERSTATE COMMERCE COMMISSION

Motor Carriers; Finance Applications; Decision-Notice

The following applications, filed on or after July 3, 1980, seek approval to consolidate, purchase, merge, lease operating rights and properties, or acquire control of motor carriers pursuant to 49 U.S.C. 11343 or 11344. Also, applications directly related to these motor finance applications (such as conversions, gateway eliminations, and securities issuances) may be involved.

The applications are governed by Special Rule 240 of the Commission's Rules of Practice (49 CFR § 1100.240). See Ex Parte 55 (Sub-No. 44), *Rules Governing Applications Filed By Motor Carriers Under 49 U.S.C. 11344 and 11349*, 363 I.C.C. 740 (1981). These rules provide among other things, that opposition to the granting of an application must be filed with the Commission in the form of verified statements within 45 days after the date of notice of filing of the application is published in the **Federal Register**. Failure seasonably to oppose will be construed as a waiver of opposition and participation in the proceeding. If the protest includes a request for oral hearing, the request shall meet the requirements of Rule 242 of the special rules and shall include the certification required.

Persons wishing to oppose an application must follow the rules under 49 C.F.R. 1100.241. A copy of any application, together with applicant's supporting evidence, can be obtained from any applicant upon request and payment to applicant of $10.00, in accordance with 49 CFR 1100.241(d).

Amendments to the request for authority will not be accepted after the date of this publication. However, the Commission may modify the operating authority involved in the application to conform to the Commission's policy of simplifying grants of operating authority.

We find, with the exception of those applications involving impediments (e.g., jurisdictional problems, unresolved fitness questions, questions involving possible unlawful control, or improper divisions of operating rights) that each applicant has demonstrated, in accordance with the applicable provisions of 49 U.S.C. 11301, 11302, 11343, 11344, and 11349, and with the Commission's rules and regulations, that the proposed transaction should be authorized as stated below. Except where specifically noted this decision is neither a major Federal action significantly affecting the quality of the human environment nor does it appear to qualify as a major regulatory action under the Energy Policy and Conservation Act of 1975.

In the absence of legally sufficient protests as to the finance application *or* to any application directly related thereto filed within 45 days of publication (or, if the application later becomes unopposed), appropriate authority will be issued to each applicant (unless the application involves impediments) upon compliance with certain requirements which will be set forth iin a notification of effectiveness of this decision-notice. To the extent that the authority sought below may duplicate an applicant's existing authority, the duplication shall not be construed as conferring more than a single operating right.

Applicant(s) must comply with all conditions set forth in the grant or grants of authority within the time period specified in the notice of effectiveness of this decision-notice, or the application of a non-complying applicant shall stand denied.

Dated: May 27, 1981.

By the Commission, Krock, Joyce and Dowell.

MC–F–14586F, filed March 4, 1981. ONEDIA MOTOR FREIGHT, INC., Commercial Avenue, Carlstadt, New Jersey 07072; DORN'S TRANSPORTATION, INC., Railroad Avenue Extension (Colonie), Albany, New York 12205. Representatives: William Biederman, 371 Seventh Avenue, New York, New York 10001; Irving Klein, 371 Seventh Avenue, New York, New York 10001. Oneida Motor Freight, Inc. (known as "Oneida") seeks authority to acquire control of the interstate operating rights and properties of Dorn's Transportation, Inc. (known as "Dorn's") through the purchase by Oneida of all the issued and outstanding capital stock of Dorn's. Donald T. Singleton, the majority stockholder of Oneida seeks authority to acquire control of Dorn's through the transaction. Upon the grant of authority to control as aforesaid, Oneida seeks to merge Dorn's into it so that Oneida will be the surviving corporation. Dorn's is authorized to operate as a motor common carrier pursuant to Certificate Number MC–84212 and numerous subs. Generally it may serve the States of MA, CT, RI, a large portion of NY, numerous points in NJ and PA, Wilmington, DE, Baltimore, MD, and Washington, D.C. Oneida Motor Freight, Inc., holds authority in MC–83430 which authorizes operations to and from all points in NY, NJ, Eastern PA, and a portion of CT. An application for temporary authority to control Dorn's and for temporary authority by Oneida to lease Dorn's operating rights and properties pending final determination of the permanent application as redescribed has been filed.

MC–F–14626, filed April 30, 1981. MIDWEST EMERY FREIGHT SYSTEM, INC., 5501 West 79th Street, Burbank, IL 60459; TRANS-COLD EXPRESS, INC., P.O. Box 61228, D/FW Airport, Texas 75261. Representative: Arnold L. Burke, 180 North LaSalle Street, Chicago, IL 60601. Midwest Emery seeks authority to merge the interstate operating rights and property of Trans-Cold into Midwest Emery. Milton D. Ratner and Midwest Emery presently control Trans-Cold pursuant to authority granted in docket MC–F–8619. Trans-Cold operates as a motor common carrier pursuant to authority issued in MC–114045 and Subs thereunder which authorize the transportation of general commodities and various specified commodities to and from points in all 48 contiguous states. Midwest Emery operates as a motor common carrier under authority issued in MC–114019 and Subs thereunder which authorize the transportation of general commodities and various specified commodities generally between points in CO and the East Coast north of the Mason Dixon Line. Midwest Emery and Milton D. Ratner also control Little Audrey's Transportation Co., Inc. pursuant to Docket MC–F–7351 and Belford Trucking Co., Inc. pursuant to Docket MC–F–7806. Rentar Industries, Inc. and Milton D. Ratner control Midwest Emery and a contract carrier, Hi-Cube Contract Carrier Corp. pursuant to Docket MC–F–14413. (Hearing site: Chicago, IL).

MC–F–14589, filed May 12, 1981. SPECTOR RED BALL, INC. (SRB)—MERGER—ET&WNC TRANSPORTATION COMPANY (ET&WNC), (both of 3177 Irving Boulevard, Dallas, TX 75247). Representative: Russell R. Sage, Suite 400, Overlook Office Building, 6121 Lincolnia Road, Alexandria, VA 22312. SRB seeks authority for merger of all of the interstate operating rights and property of ET&WNC into SRB for ownership, management and operation. TeleCom Corporation, a publicly-held non-carrier, which controls SRB through stock ownership, seeks authority to acquire control of said rights and property through the merger. ET&WNC's authority to be merged into SRB is contained in certificates issued in MC–52953 and sub-numbers thereunder, which authorize the transportation as a motor common carrier of *general commodities*, with exceptions, in the States of AL, AR, CT, DE, GA, MD, MS, NC, NJ, NY, PA, SC, TN, VA and DC, and of specified commodities in the States of AR, MD, NC, NJ, NY, PA, SC and TN. SRB holds authority to operate as a motor common carrier pursuant to certificates issued in MC–2229 and sub-numbers thereunder in all of the continental United States. Notes—(1) Common control of SRB and ET&WNC was approved in MC–F–13383; (2) SRB intends to tack the regular-route authority acquired from ET&WNC with SRB's existing authority and the irregular-route authority acquired from ET&WNC with SRB's existing regular-route authority; and (3) by decision served in this proceeding April 22, 1981, SRB was authorized to omit from the application the financial data required in Exhibits A–5 through A–8 for its subsidiaries and for TeleCom Corporation and ET&WNC was authorized to substitute a narrative description of its traffic handled in lieu of a detailed abstract of shipments; (4) SRB is authorized to operate as a motor common carrier under certificates issued in MC–2229 and sub-numbers thereunder and those certificates acquired in MC–F–14385 under MC–69116 and sub-numbers thereunder; (5) C. B. Weller, a director of SRB, is an officer and director of Refrigerated Transport, Inc., operating under MC–97998 and sub-numbers thereunder; (6) W. Grogan Lord, a director of SRB, is also a director of Frozen Food Express, Inc., operating under MC–108207 and sub-numbers thereunder; (7) ET&WNC controls, through stock ownership, East Tennessee and Western North Carolina Railroad Company, a rail carrier operating between Johnson City, TN, and a point outside of Elizabethton, TN; (8) SRB filed a directly related application under 49 U.S.C. 11302 in Finance Docket No. 29647, in which SRB seeks authority to assume the outstanding securities of ET&WNC in connection with the proposed merger. As of April 1, 1980, the outstanding securities of ET&WNC aggregated $337,417.02. All the securities of ET&WNC to be assumed by SRB were issued by ET&WNC pursuant to Commission approval under Finance Docket Nos. 27202, 28178, and 28277.

Agatha L. Mergenovich,
Secretary.

BILLING CODE 7035–01–M

[Ex Parte No. 387 (Sub-30)]

Missouri-Kansas-Texas Railroad Co. Exemption for Contract Tariff

AGENCY: Interstate Commerce Commission.

ACTION: Notice of provisional exemption.

SUMMARY: Petitioner is granted a provisional exemption under 49 U.S.C. 10505 from the notice requirements of 49 U.S.C. 10713(e) and may file this contract tariff on one day's notice. This exemption may be revoked if protests are filed within 15 days of publication in the Federal Register.

FOR FURTHER INFORMATION CONTACT: Richard B. Felder or Jane F. Mackall, (202) 275–7656.

SUPPLEMENTARY INFORMATION: Missouri-Kansas-Texas Railroad Company (MKT) filed on May 20, 1981, a petition for exemption under 49 U.S.C. 10505 from the statutory notice provisions of 49 U.S.C. 10713(e). It requests we permit it to advance the effective date of tariff ICC–MKT–C–0047 from June 4, 1981, so that the effective date would be on one day's notice. This request was supported by the shipper.

This contract involves the annual volume rates on wheat flour to Galveston and Houston, Texas for

export. It was issued May 1, 1981, with a scheduled effective date of June 4, 1981.

Under 49 U.S.C. 10713(e) contracts must be filed to become effective on not less than 30 nor more than 60 days' notice. There is no provision for waiving this requirement. Cf. former section 10762(d)(1). However, the Commission has granted relief under section 10505 exemption authority in exceptional situations.

The petition shall be granted. As a result of the contract, the rail contract shipper tendered a bid under PL 480, Title I, to Egypt for new business. The Egyptians have now awarded a contract to the shipper and expect him to begin shipping May 21, 1981. This is the type of exceptional or emergency situation which warrants an exception. Moreover, no protests have been filed. We thus conclude that authorization of a provisional exemption is warranted to be effective on one day's notice.

We will apply the following conditions which have been imposed in similar exemption proceedings:

If the Commission permits the contract to become effective on one day's notice, this fact neither shall be construed to mean that this is a Commission approved contract for purposes of 49 U.S.C. 10713(g) nor shall it serve to deprive the Commission of jurisdiction to institute a proceeding, on its own initiative or on complaint, to review this contract and to disapprove it.

Subject to compliance with these conditions, under 49 U.S.C. 10505(a) we find that the 30 day notice requirement in these instances is not necessary to carry out the transportation policy of 49 U.S.C. 10101 and is not needed to protect shippers from abuse of market power. Further, we will consider revoking these exemptions under 49 U.S.C. 10505(c) if protests are filed within 15 days of publication in the **Federal Register**.

This action will not significantly affect the quality of the human environment or the conservation of energy resources.

Dated: May 27, 1981.

By the Commission, Division 2, Commissioners Gresham, Trantum, and Alexis. Commissioner Alexis dissented with a separate expression.

Agatha L. Mergenovich,

Secretary.

Commissioner Alexis, dissenting:

I find no emergency or special circumstances which warrants an exemption in this case. In my opinion, exemptions from the required 30 day notice period should not be granted freely, particularly where a little advance planning by petitioners would eliminate the need for such requests. While I strongly endorse and advocate the use of railroad contract rates, I do not believe that we should routinely use our exemption powers to circumvent the statutory language of Section 208 of the Staggers Act.

[FR Doc. 81-16292 Filed 5-29-81; 8:45 am]

BILLING CODE 7035-01-M

[Volume No. OPY4-158]

Motor Carriers; Permanent Authority; Decision-Notice

Decided: May 28, 1981.

The following applications, filed on or after February 9, 1981, are governed by Special Rule 251 of the Commission's Rules of Practice, see 49 CFR 1100.251. Special Rule 251 was published in the **Federal Register** on December 31, 1980, at 45 FR 86771. For compliance procedures, refer to the **Federal Register** issued of December 3, 1980, at 45 FR 80109.

Persons wishing to oppose an application must follow the rules under 49 CFR 1100.252. Applications may be protested *only* on the grounds that applicant is not fit, willing, and able to provide the transportation service or to comply with the appropriate statutes and Commission regulations. A copy of any application, including all supporting evidence, can be obtained from applicant's representative upon request and payment to applicant's representative of $10.00.

Amendments to the request for authority are not allowed. Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority.

Findings

With the exception of those applications involving duly noted problems (e.g., unresolved common control, fitness, water carrier dual operations, or jurisdictional questions) we fine, preliminarily, that each applicant has demonstrated its proposed service warrants a grant of the application under the governing section of the Interstate Commerce Act. Each applicant is fit, willing, and able to perform the service proposed, and to conform to the requirements of Title 49, Subtitle IV, United States Code, and the service proposed, and to conform to the requirements of Title 49, Subtitle IV, United States Code, and the Commission's regulation. Except where noted, this decision is neither a major Federal action significantly affecting the quality of the human environment nor a major regulatory action under the Energy Policy and Conservation Act of 1975.

In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication (or, if the application later becomes unopposed), appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unapposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

To the extent that any of the authority granted may duplicate an applicant's other authority, the duplication shall be construed as conferring only a single operating right.

By the Commission, Review Board No. 2, Members Carleton, Fisher, Williams.

Agatha L. Mergenovich,

Secretary.

Note.—All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those, where service is for a named shipper "under contract".

MC 142987 (Sub-3), filed May 18, 1981. Applicant: WILLIAM C. CHERWIN, d.b.a. BOADY ENTERPRISES, 1955 Diehl Rd., Aurora, IL 60505. Representative: Richard A. Westley, 4506 Regent St., Suite 100, Madison, WI 53705, (508) 238-3119. Transport *food and other edible products and byproducts intended for human consumption* (except alcoholic beverages and drugs), *agricultural limestone and fertilizers, and other soil conditioners* by the owner of the motor vehicle in such vehicle, between points in the U.S.

MC 146196 (Sub-3), filed May 15, 1981. Applicant: RICH DOSS, INC., 3809 Stony Point Rd., Santa Rosa, CA 95401. Representative: Matthew F. Hunziker, 2306 Gifford Ct., Santa Rosa, CA 95401, (707) 528-4259. Transporting, for or on behalf of the United States Government *general commodities* (except used household goods, hazardous or secret materials, and sensitive weapons and munitions), between points in the U.S.

In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication, (or, if the application later becomes unopposed) appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

To the extent that any of the authority granted may duplicate an applicant's other authority, the duplication shall be construed as conferring only a single operating right.

Note.—All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract".

Volume No. OPY–3–076

Decided: May 26, 1981.

By the Commission, Review Board No. 2, Members Carleton, Fisher and Williams.

MC 2934 (Sub-106), filed May 4, 1981. Applicant: AERO MAYFLOWER TRANSIT COMPANY, INC., 9998 North Michigan Rd., Carmel, IN 46032. Representative: W. G. Lowry (same address as applicant), (317) 875–1142. Transporting *furniture and fixtures,* between Jasper and Broden, IN, and Fordsville, KY, on the one hand, and, on the other, points in AZ, CA, CO, IA, MT, NV, NM, OR, UT, WA, and WY.

BILLING CODE 7035–01–M

[Volume No. 90]

Motor Carriers; Permanent Authority Decisions; Restriction Removals; Decision-Notice

Decided: May 27, 1981.

The following restriction removal applications, filed after December 28, 1980, are governed by 49 CFR 1137. Part 1137 was published in the **Federal Register** of December 31, 1980, at 45 F.R. 86747.

Persons wishing to file a comment to an application must follow the rules under 49 CFR 1137.12. A copy of any application can be obtained from any applicant upon request and payment to applicant of $10.00.

Amendments to the restriction removal applications are not allowed.

Some of the applications may have been modified prior to publication to conform to the special provisions applicable to restriction removal.

Findings

We find, preliminarily, that each applicant has demonstrated that its requested removal of restrictions or broadening of unduly narrow authority is consistent with 49 U.S.C. 10922(h).

In the absence of comments filed within 25 days of publication of this decision-notice, appropriate reformed authority will be issued to each applicant. Prior to beginning operations under the newly issued authority, compliance must be made with the normal statutory and regulatory requirements for common and contract carriers.

By the Commission, Restriction Removal Board, Members Sporn, Alspaugh, and Shaffer.

Agatha L. Mergenovich,

Secretary.

MC 297 (Sub-16)X, filed February 23, 1981, previously noticed in the **Federal Register** of March 17, 1981, republished as follows: Applicant: WOODLAND TRUCK LINE, INC., P.O. Box 70, Woodland, WA 98674. Representative: Lawrence V. Smart, Jr., 419 NW 23rd Ave., Portland, OR 97210. Applicant seeks to remove restrictions from its Sub-No. 16X certificate. This Board previously broadened the commodity and territorial authority as set forth in the **Federal Register** of March 17, 1981. Applicant sought off-route county-wide authority which was denied because it was determined to be an unreasonable broadening of territory. Its request to expand portions of its irregular-route authority described in terms of mileage radii to the appropriate counties was also denied. Because of recent Commission decisions declaring these types of broadenings to be reasonable, the Restriction Removal Board has decided to renotice this application with respect to the proposed expansion of off-route points and mileage radii to county-wide authority. Notice is hereby given that applicant seeks (1) to expand its off-route points: from all points within 10 miles of Washington Hwy. 503 between Woodland and Yale, WA to Clark, Cowlitz and Skamania Counties WA, and Columbia County, OR, in part 1 (a); and from points within 10 miles of Washington Hwy. 504 to Cowlitz, Lewis and Kamania Counties, WA, in part (2); and (2) to expand points in the irregular route portion of its authority: from Portland, OR to Multnomah, Washington and Clackamas Counties, OR in parts (1)(a) and (2); from points in Washington within 15 miles of Woodland to Clark and Cowlitz Counties, WA in parts (1)(a), (1)(b), and (2); and from Woodland, WA to Cowlitz County, WA, in parts (3) and (4).

MC 31364 (Sub-5)X, filed April 23, 1981. Applicant: FRANCIS HILL d.b.a. HILL FURNITURE CARRIERS, 8745 Cottage Street, Philadelphia, PA 19136. Representative: Alan Kahn, 1430 Land Title Building, Philadelphia, PA 19110. Applicant seeks to remove the restrictions in its lead certificate to (1) broaden the commodity description from new furniture, uncrated, furniture frames, new furniture, and such commodities as are used or are useful in the manufacture of new furniture to "furniture and fixtures" and (2) broaden the territorial description by replacing a plantsite at Upper Merion Township with Montgomery County, PA, and authorize radial service between Montgomery County, and, points in several States.

MC 95813 (Sub-17)X, filed May 13, 1981. Applicant: SHUMAKER TRUCKING COMPANY, 601 U.S. Route 15, North, Dillsburg, PA 17019. Representative: David Shumaker (same address as above). Applicant seeks to remove restrictions from its lead and Sub-Nos. 13, 14F, and 15F certificates and its E–1 letter notice authority to: (1) broaden the commodity description (a) in its lead certificate to "lumber and wood products" from wooden step ladders; to "metal and metal products" from iron castings; to "pulp, paper and related products, waste or scrap materials" from scrap paper and rags, blotting, filter, fibre and absorbent paper; to "chemicals and related products and farm products" from fertilizer and seed; to "food and related products" from fresh fruit; to "clay, concrete, glass or stone products" from concrete doors, concrete windowsills and concrete coping; to "building materials and supplies" from roofing, siding, shingles, wallboard, and materials and supplies used in the installation of said commodities, and paper carpet lining, paint, and expansion paving joints; to "clay, concrete, glass or stone products" from plaster, and plaster products; (b) in Sub-No. 13, to "clay, concrete, glass or stone products" from refractories and refractory products; (c) in Sub-No. 14F, to "clay, concrete, glass or stone products" from lime, limestone, limestone products, dolomite and refractory products; (d) in Sub-No. 15F, to "clay, concrete, glass or stone products" from refractories and refractory products; (2) replace cities, townships, and facilities with countywide authority (a) in the lead, Union Bridge, MD with Carroll County, MD, Westminister, MD, with Carroll County, MD, Carlisle, PA, with Cumberland, PA, Greenwood, New Castle, Newark, Dover, State Road and Wilmington, DE, with Kent, New Castle, and Sussex Counties, DE, Camden, NJ, with Camden County, NJ, Edgewater, NJ, with Bergen County, NJ, Garrison and Bayonne, NJ, with Hudson County, NJ, Newark, NJ, with Essex County, NJ, Trenton, NJ, with Mercer County, NJ, Mount Holly Springs, PA, with Cumberland County, PA, Jersey City, NJ, with Hudson County, NJ, Elizabeth NJ, with Union County, NJ, Spotswood, NJ, with Middlesex County, NJ, South Plainfield and Parlin, NJ, with Middlesex County, NJ, Paterson, NJ, with Passaic County, NJ, Belleville, NJ with Essex

County, NJ, Hagerstown, MD, with Washington County, MD, Greene, South Hampton, Guilford Townships, PA and those within five miles thereof in Cumberland County with Franklin and Cumberland Counties, PA, Akron, NY, and points in New York within 75 miles thereof with Chautaugua, Cattaraugus, Allegany, Steuben, Livingston, Wyoming, Erie, Genesee, Niagara, Orleans, Monroe, Wayne, Ontario and Yates Counties, NY, South Hampton Township, PA, with Franklin County, PA, Chambersburg, PA with Franklin County, PA, York, PA, with York County, PA, Akron, NY, with Erie County, NY, (b) in Sub-No. E-1, Hagerstown, MD, with Washington County, MD, (c) in Sub-No. 13, Leslie, MD, with Cecil County, MD, West Manchester Township, PA, with York County, PA, (d) in Sub-No. 14F, York, PA, with York County, PA, West Manchester Township, PA, with York County, PA, (e) in Sub-No. 15F, Leslie, MD with Cecil County, MD, Windham, OH, with Portage County, OH, Templeton, PA with Armstrong County, PA; (3) remove the "except commodities in bulk" restrictions in Sub-Nos. 13 and 14F; (4) remove (a) "in truckloads", "in rolls, in truckloads", "in shipments of less than 40,000 pounds" restrictions in the lead, and (b) in Sub-No. 15F, remove the "ex-water" restriction, (5) substitute radial authority for one-way authority in the lead and Sub-Nos. 13, 14F and 15F and E1 to authorize service between varfous combinations of points in the eastern United States.

MC 118755 (Sub-5)X, filed May 8, 1981. Applicant: CIEUTAT PRODUCE CO., Building F, Unit 21, State Farmer's Market, Forest Park, GA 30050. Representative: Bates Block, 3300 First National Bank Tower, Atlanta, GA 30383. Applicant seeks to remove restrictions in its lead and Sub-No. 2 certificates to (1) broaden the commodity description from bananas to "food and related products" in each certificate; (2) expand city to county-wide authority from Miami and Port Everglades to Dade and Broward Counties, FL, in the lead; Atlanta to Fulton, Cobb, DeKalb, and Clayton Counties, GA, in the lead and Sub-No. 2; Tampa to Hillsborough County, FL, Mobile to Mobile County, AL, Knoxville to Knox County, TN, Charleston to Charleston County, SC, and Morristown to Hamblen County, TN, in the lead; and Gulfport to Harris County, MS, in Sub-No. 2; and (3) change one-way to radial authority between (a) Dade and Broward Counties, FL, and, Fulton, Cobb, DeKalb and Clayton Counties, GA; Hillsborough County, FL, and Mobile County, AL, and, Fulton, Cobb, DeKalb and Clayton Counties, GA, and Knox County, TN; and New Orleans, LA, and Charleston County, SC, and, Fulton, Cobb, DeKalb and Clayton Counties, GA, and Knox and Hamblen Counties, TN, in the lead; and (b) Harris County, MS, and, Fulton, Cobb, DeKalb and Clayton Counties, GA, in Sub-No. 2.

MC 119422 (Sub-74)X, filed April 27, 1981. Applicant: EE-JAY MOTOR TRANSPORTS, INC., P.O. Box 1037, East St. Louis, IL 62204. Representative: Lawrence E. Lindeman, 1032 Pennsylvania Building, Pennsylvania Ave. & 13th, N.W., Washington, DC 20004. Applicant seeks to remove restrictions in its lead and Sub-Nos. 29, 30, 31, 36, 39, 41, 42, 43, 44, 45, 46, 47, 50, 55, 56, 57, 58, 59, 60, 62, 64F, 65, 67F, 68F, 71F, 72, and 73 certificates to (1) broaden the commodity description: in its lead, Sub-Nos. 67 and 72 from petroleum and petroleum products, from liquid petroleum wax in the lead, from fuel oil in the lead, Sub-Nos. 46, and 50 to "petroleum, natural gas, and their products"; from road oil in Sub-Nos. 43, 46, and 50, from lubricating oil in Sub-No. 58 from compounding asphalt in Sub-No. 64 to "petroleum, natural gas and their products"; from asphalt in Sub-Nos. 43, 46, 50, and 64 to "coal and coal products"; from cement in the lead and Sub-Nos. 42, 65, and 68, from cement kiln dust in Sub-No. 39 and from limestone in the lead and Sub-Nos. 31, 45, and 59 to "clay, concrete, glass or stone products"; from fly ash in the lead to "metal products"; from mineral filler in the lead, from lime in Sub-Nos. 45 and 59 to "ores and minerals"; from fertilizer in the lead and Sub-Nos. 30, 41, 44, and 60 from anhydrous ammonia in Sub-No. 44; from plastic pellets in Sub-No. 62 and from acids and chemicals in the lead and Sub-No. 56 to "chemicals and related products"; from plastic pellets in Sub-No. 62 to "rubber and plastic products"; from animal and poultry feed in the lead; from corn products in the lead and Sub-Nos. 57 and 71; from corn flour in Sub-No. 36 and from flour in Sub-Nos. 47 and 55 to "food and related products"; from dry commodities in Sub-No. 29 to "commodities in bulk"; (2) remove the "in bulk" restrictions in the lead and Sub-Nos. 30, 31, 43, 44, 45, 46, 47, 50, 55, 56, 57, 58, 59, 60, 62, 64, 67, 71, 72, and 73 (3) remove the in tank vehicles restriction in lead and Sub-Nos. 43, 44, 46, 50, 62, 64, 67, and 72 (4) remove a restriction to a prior or subsequent movement by rail or water in its lead and Sub-No. 62; (5) remove the in bags restrictions in the lead and Sub-No. 36; (6) remove the restriction against the transportation of cryogenic liquids and petroleum products in the lead; (7) remove the "originating at and/or destined to" named points restriction in the lead and Sub-Nos. 29, 44, 45, and 47; (8) remove a restriction requiring heat in transit in Sub-No. 64; (9) remove plantsite limitations (a) in the lead and Sub-Nos. 62 and replace East St. Louis, IL with St. Louis County, MO and St. Louis, MO and Monroe, St. Clair and Madison Counties, IL; in the lead and replace St. Louis, MO with St. Louis, Jefferson, and St. Charles Counties, MO and St. Louis, MO and Monroe, St. Clair and Madison Counties, IL; Hannibal, MO with Marion County, MO; Arnold, MO with Jefferson County, MO, (b) in the lead and Sub-No. 29 and replace Tri City Regional Port District, Madison County, IL with Madison and St. Clair Counties, IL and St. Louis County, MO, (c) in Sub-Nos. 39 and 68 and replace Selma, MO with Jefferson County, MO, (d) in Sub-No. 41 and replace East St. Louis, IL and points within 5 miles thereof with St. Clair, Monroe and Madison Counties, IL and St. Louis, MO and St. Louis County, MO, (e) in Sub-Nos. 42, 47, 58, 65 and replace St. Louis, MO with St. Louis, St. Charles and Jefferson Counties, MO, St. Louis, MO and St. Clair, Madison and Monroe Counties, IL, (f) in Sub-Nos. 44, 50 and replace Meredosia, IL with Morgan County, IL, (g) in Sub-No. 45 and replace St. Genevieve and Mosher, MO with St. Genevieve County, MO and Randolph County, IL, (h) in Sub-No. 56 and replace Pevely, MO and Channahon Township, IL with Jefferson County, MO and Will County, IL; (i) in Sub-No. 60 and replace Bussen Spur, Mo with St. Louis County, MO, (j) in Sub-No. 64 and replace Augusta, KS with Butler County, KS, (k) in Sub-No. 67 and replace Sauget, IL with St. Clair County, IL, (l) in Sub-No. 72 and replace Wood River, IL with Madison County, IL and St. Charles County, MO; (10) change city to county-wide authority; (a) in the lead from Centralia, IL and points within 25 miles thereof to Marion, Fayette, Bond, Clinton, Washington, Perry, Jefferson, Hamilton, Wayne, and Clay Counties, IL; from East St. Louis to Monroe, St. Clair and Madison Counties, IL, St. Louis, MO and St. Louis County, MO; from Louisville, KY to Jefferson and Oldham Counties, KY and Floyd and Clark Counties, IN; from Hannibal, MO to Marion County, MO; from Mt. Vernon, IN to Posey County, IN, (b) in Sub-No. 30 from St. Louis, MO-East St. Louis, IL to St. Louis, St. Charles and Jefferson Counties, MO, St. Louis, MO, and St. Clair, Monroe and Madison Counties, IL; from Ullin, IL to Pulaski County, IL, (c) in Sub-No. 36 from Mt.

Vernon, IN to Posey County, IN; from Millstadt, IL to St. Clair County, IL, (d) in Sub-No. 46 from St. Louis and Chesley Island, MO to St. Louis, Jefferson, and St. Charles Counties, MO, St. Louis, MO, and St. Clair, Monroe and Madison County, IL, (e) in Sub-No. 55 from Springfield, IL to Sangamon County, IL; from St. Louis, MO to St. Louis, St. Charles, and Jefferson Counties, MO, St. Louis, MO, and St. Clair, Madison and Monroe Counties, IL; (f) in Sub-No. 57 from Mt. Vernon, IN to Posey County, IN, (g) in Sub-No. 59 from St. Genevieve, MO to St. Genevieve County, MO and Randolph County, IL, (h) in Sub-No. 71 from Kankakee, IL and Mt. Vernon, IN to Kankakee County, IL and Posey County, IN and (i) in Sub-No. 73 from St. Louis, MO to St. Louis, St. Charles and Jefferson Counties, MO, St. Louis, MO, and St. Clair, Madison and Monroe Counties, IL; and (11) change one-way to radial authority between various combinations of points throughout the US in all certificates except Sub-No. 73.

MC 119634 (Sub-55)X, filed May 8, 1981. Applicant: DICK IRVIN, INC., Hwy 2 West, P.O. Box F, Shelby, MT 59474. Representative: Joe Gerbase, 100 Transwestern Building, Billings, MT 59101. Applicant seeks to remove restrictions in its Sub-Nos. 3, 7, 10, 12, 15, 18, 19, 21, 23, 24, 27F, 28F, 30F, 31F, 32F, 33F, 34F, 43F, 44F, 46F, 47F, 48F, 49F, 50F and 51F certificates (1) to broaden commodity descriptions from fertilizer and by-products thereof, chemicals and agricultural chemicals to "chemicals and related products" in Sub-Nos. 3, 12, 15, 28, 31, 33F, 46F, and 49F; from bleached wood pulp to "pulp, paper and related products" in Sub-No. 10; from talc, diatomaceous earth, bentonite clay, lime and limestone and barite to "clay, concrete, glass and stone products, and ores and minerals" in Sub-Nos. 7, 21, 23, 30F, 47F, 48F and 51F; from cement to "clay, concrete, glass and stone products" in Sub-No. 47F; from carbon black, in bags and processed sulphur, in bags to "petroleum, natural gas and their products" in Sub-Nos. 18 and 19; from used farm machinery and used road building equipment to "machinery" in Sub-No. 24; from baler twine and binder twine to "textile mill products" in Sub-No. 27F; from steel bins, truck beds, culvert, steel buildings and grain handling equipment to "metal products and machinery" in Sub-Nos. 32F and 44F from catalysts, in bulk to "chemicals and related products and waste and scrap materials not identified by industry producing" in Sub-No. 34F; from animal feeds and feed ingredients to "food and related products" in Sub-No. 43F; (2) to remove various restrictions such as "in bulk, in bags, in containers" in Sub-Nos. 7, 12, 15, 18, 19, 21, 28F, 34F, 49F; (3) remove the facilities limitations in Sub-Nos. 23 and 50F; (4) replace authority to serve specific ports of entry and named points with county-wide authority: Three Forks, MT for Gallatin County, MT, Shelby, MT for Toole County, MT in Sub-No. 7; Shelby, MT for Toole County, MT in Sub-No. 10; Barretts, MT for Beaverhead County, MT in Sub-No. 21; Malta, MT (facility) for Phillips County, MT in Sub-No. 23; Duluth, MN for St. Louis County, MN, and Superior, WI, for Douglas County, WI in Sub-No. 27F; Great Falls, MT for Cascade County, MT in Sub-No. 28F; Spokane, WA for Spokane County, WA, in Sub-No. 32F; St. Joseph, MO for Buchanan County, MO and Minot, ND for Ward County, ND in Sub-No. 33F; Houghton, Atlantic, Sheffield, IA for Lee, Cass, Franklin Counties, IA, LaCygne, Hutchinson, Silver Lake, KS for Linn, Reno, Shawnee Counties, KS Carson City, NV for Carson County, NV, Clay Center, Waverly, Kearney, Grand Island, Columbus, NE, for Clay, Lancaster, Buffalo, Hall, Platte Counties, NE, Aurora, CO for Adams County, CO, Oklahoma City, OK for Oklahoma County, OK, Madison, WI for Dane County, WI, Mattoon, Sterling, Mackinaw, IL for Coles, Whiteside, Tazewell Counties, IL, Fargo, Minot, ND for Cass, Ward Counties, ND, Homer City, PA for Indiana County, PA, Lafayette, LA for Lafayette County, LA in Sub-No. 44F; Midland, MI for Midland County, MI in Sub-No. 49F; Conrad, MT (facility) for Pondera County, MT in Sub-No. 50F; (5) remove specific ports of entry at Sweet Grass and Simpson, MT, to authorize radial service between ports of entry on the U.S.-CN boundary line in MT, in Sub-No. 18; (6) change one-way to radial authority between points in numerous States in the U.S. in Sub-Nos. 7, 10, 12, 15, 19, 21, 23, 24, 27F, 28F, 30F, 31F, 32F, 33F, 43F (part 2), 44F, 46F, 48F and 51F; and (7) remove the restrictions (a) against service in AK and HI in Sub-Nos. 18 and 34F; (b) HI in Sub-No. 50F; (c) originating at and destined to in Sub-Nos. 12, 18, 21, 27F and 28F; and (d) in foreign commerce in Sub-No. 12.

MC 119765 (Sub-99)X, filed May 12, 1981. Applicant: EIGHT WAY XPRESS, INC., 5402 South 27 Street, Omaha, NE 68107. Representative: Arlyn L. Westergren, Westergren & Hauptman, P.C., Suite 210, 9202 West Dodge Road, Omaha, NE 68114. Applicant seeks to remove restrictions from its lead certificate to (1) change the commodity descriptions from packinghouse products and various foodstuff items to "food and related products"; from twine, farm machinery, farm implements and parts to "such commodities as are dealt in by manufacturers and distributors of farm machinery, equpment and supplies"; and from ice cream manufacturer's equipment and supplies, agriculture equipment and supplies, etc., to "such commodities as are dealt in or used by manufacturers and distributors of food and related products and agricultural equipment and supplies"; (2) delete restrictions against certain commodities such as "except liquids, in bulk, in tank vehicles", etc., and "when moving from or to warehouses, plants or other facilities of meat packinghouses"; (3) eliminate the facilities limitation on sheet 2; (4) authorize radial service where only one-way exists between specified points in IL, IA, MO, and NE; and (5) replace city-wide authority with county-wide authority as follows: Elgin with Kane County, IL; Joliet with Will County, IL; Rockford with Winnebago County, IL; East Chicago with Lake County, IN; Canton with Fulton County, IL; Moline and Rock Island with Rock Island County, IL; Rock Falls with Whiteside County, IL; Rochelle with Ogle County, IL; Harlan with Shelby County, IA; Momence with Kaukakee County, IL; Omaha with Douglas County, NE; Freeport with Stephenson County, IL; Libertyville with Lake County, IL; Scottsbluff with Scotts Bluff County, NE; Grand Island with Hall County, KE; Kearney with Buffalo County, NE; Hastings with Adams County, NE; North Platte with Lincoln County, NE; Fremont with Dodge County, NE; Norfolk with Madison County, NE; Columbus with Platte County, NE; Crawford with Dawes County, NE; McCook with Red Willow County, NE; Beatrice with Gage County, NE; Nebraska City with Otoe County, NE; Waverly and Lincoln with Lancaster County, NE; Alliance with Box Butte County, NE; Crete with Saline County, NE; Seward with Seward County, NE; Chilton with Calumet County, WI; Fond du Lac with Fund du Lac County, WI; Green Bay with Brown County, WI; Plymouth with Sheboygan County, WI; Waupun with Dodge and Fund du Lac Counties, WI; Council Bluffs with Pottawattamie County, IA; Davenport with Scott County, IA; Mapleton with Monona County, IA; Sioux City with Woodbury County, IA; Council Grove with Morris County, KS; Concordia with Cloud County, KS; and Dodge City with Ford City, KS; and (5) remove tacking and interlining restrictions in its lead certificate so as to allow tacking wherever permissable as set forth at 49 CFR 1042.10(b).

MC 121060 (Sub-137)X, filed May 14, 1981. Applicant: ARROW TRUCK LINES, INC., P.O. Box 1416, Birmingham, AL 35201. Representative: Ronald F. Harris (same as above). Applicant seeks to remove restrictions in its Sub-Nos. 25, 58, 80, 81, 82, 84, 86, 88, 92, 93, 94, 95, 96, 97, 98, 101, 102, 103, 104, 106, 107, 113, 114, 118, 120, 121, 122, 123, and 124, certificates to: (1) broaden the commodity description (a) to "metal products and machinery" from pipe, fittings, castings, manhole covers and frames, hydrants, valves and iron and steel articles, in Sub-Nos. 81F and 123F, and from steel pipe, pipe fittings, beams, piling, rails, railway track accessories, pile drivers and pile extractors in Sub-No. 99F; (b) to "metal products" from iron and steel articles and nuts, bolts, and scrap metals in Sub 58, 107, 113, 121, and 124, from aluminum and aluminum articles in Sub-Nos. 82F, 86F and 92F; (c) to "building materials, metal products, and plastic and rubber products" from building materials equipment and supplies in Sub-No. 88F; (d) to "clay, concrete, glass or stone products, plastic or rubber products, and metal products" from refractories and such commodities as are used in the installation thereof and, pipe, valves, fittings, hydrants and gaskets in Sub-No. 80F; (e) to "clay, concrete, glass, or stone products", from refractories in Sub-No. 104F; (f) to "pulp, paper and related products" from paper and paper products in Sub-Nos. 103F and 118F; (g) to "chemicals and related products, construction materials, plastic or rubber products, machinery, metal products, clay, concrete, glass or stone products, lumber and wood products, and building materials" from paint, ceiling systems, plastic light diffusers, adhesives, furring, fasteners, lighting systems, moldings, steel shapes, steel rods, steel channels; steel ceiling beams, applicators and roofing caps in Sub-No. 25; (h) to "building materials, lumber and wood products, pulp, paper and related products" from building board, composition board, wall board, and insulating board in Sub-No. 101F and composition board in Sub-No. 102F; (i) to "building materials, metal products, and machinery" from construction material and materials, equipment and supplies used in the manufacture of such commodities in Sub-Nos. 84F, 93F, 94F, 95F, 96F, 97F, 98F, and 106; (j) to "plastic and rubber products" from plastic pipe and fittings and conduits, connections and valves in Sub-Nos. 114 and 122; (2) remove the "except commodities in bulk, in dump or tank vehicles" restriction in Sub-Nos. 25, 80, 81, 82, 84, 88, 92, 93, 94, 95, 96, 97, 98, 99, 101, 103, 106, 118, 120, 122, 123, and 124; (3) replace one-way authority with radial authority between named States, counties, and various points in the U.S. in Sub-Nos. 25, 80, 81, 84, 86, 88, 101, 102, 104, 113, 114, 121, and 122; (4) remove the territorial restrictions limiting service to traffic originating at or destined to facilities in Sub-Nos. 58, and 101; (5) remove the restriction excluding service to "AK and HI" in Sub-Nos. 81F, 93F, 120F, 122F and 124F; (6) broaden the territorial descriptions to authorize county-wide or city-wide service in place of named points and plantsites as follows: (Sub 58F) Washington County, MS for Greenville, and Peoria County, IL for Peoria; (Sub 80F) Upshur County, WV for Buckhannon; (Sub 82F) Anderson County, SC for Belton; (Sub 84F) Cook County, IL for Chicago Heights; (Sub 86F) St. Bernard Parish, LA for Chalmette, and Baldwin County, AL for Bay Minette; (Sub 88F) Boone County, MO for Columbia; (Sub 92F) Colquitt County, GA for Moultrie; (Sub 93F) Franklin County, AL for Russellville; (Sub 94F) Camden County, NJ for Pennsauken; (Sub 95F) Middlesex County, NJ for Perth Amboy; (Sub 96F) Union County, NJ for Linden; (Sub 97F) Broome County, NY for Deposit; (Sub 98F) Hancock County, WV for Chester, and Luzerne County, PA for Pittston; (Sub 99F) Wood County, WV for Parkersburg and Washington; (Sub 101F) Bibb County, GA for Macon; (Sub 102F) York County, SC for Catawba, and Lafayette County, MS for Oxford; (Sub 104F) Jackson County, MS for Pascagoula (Sub 106F) Webster County, IA for Fort Dodge and Baraga County, MI for L'Anse; (Sub 107F), Madison County, IL for Alton; (Sub 113F) Cabell County, WV for Huntington; (Sub 114F) Henderson County, KY for Henderson; (Sub 121F) Harris County, TX for Baytown; and (Sub 123F) Coshocton County, OH for Coshocton.

MC 124774 (Sub-142)X, filed May 18, 1981. Applicant: MIDWEST REFRIGERATED EXPRESS, INC., 4440 Buckingham Ave., Omaha, NE 68107. Representative: Arlyn L. Westergren, Suite 201, 9202 W. Dodge Rd., Omaha, NE 68114. Applicant seeks to remove restrictions in its Sub-Nos. 130F and 135 certificates to (1) replace one-way authority with radial authority in Sub-No. 130F between points in the US in and east of ND, SD, NE, KS, OK, and TX, and, Omaha, NE; and (2) broaden the commodity description in Sub-No. 135 from meat, meat products, meat by-products, and articles distributed by meat packing houses to "food and related products."

MC 129387 (Sub-123)X, filed May 7, 1981. Applicant: PAYNE TRANSPORTATION, INC., P.O. Box 1271, Huron, SD 57350. Representative: Timothy R. Stivers, P.O. Box 1576, Boise, ID 83701. Applicant seeks to remove restrictions in its Sub-Nos. 7, 22, 23, 26, 28, 29, 32, 33, 35, 39, 41, 42, 46, 47, 49F, 51F, 52F, 53F, 54F, 56F, 57F, 58F, 59F, 60F, 66F, 67F, 68F, 73, 77F, 78F, 81F, 82F, 84F, 85F, 92F, 93F, 94F, 96, 97F, 99F, 102F, 105F, 106F, 108F, 111F, 113F, 115F, 116F, 117F, and 118 certificates to (1) broaden the commodity description to "meats, meat products, meat by-products and articles distributed by meat packinghouses, as described in Appendix I to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209 and 766, "from that same description (with varying exceptions) in Sub-Nos. 7, 23, 28, 46, 51, 57, 82, 84, 92, 93, 99, and 102; to "meats", from meats, with or without other ingredients, in hermetically sealed containers, in Sub-No. 7; and to "(a) commodities dealt in by grocery and food business houses and equipment, materials, and supplies used in the conduct of such business and, (b) commodities dealt in by grocery and food business houses and equipment, materials and supplies used in the conduct of such business, and machinery", from: (a) foodstuffs, (except commodities in bulk) and, (b) meat, meat products, meat by-products, foodstuffs and canning plant materials, equipment and supplies, (except hides and commodities in bulk), in Sub-No. 7; to "food and related products and chemicals and related products", from canned foods (except frozen foods, meats, meat products, meat by-products, and dairy products), and pet foods, in Sub-No. 22; to "commodities dealt in by grocery and food business houses, and equipment, materials and supplies used in the conduct of such business, food and related products" from foods, food products, food ingredients, animal foods, animal food ingredients and meat by-products (except in bulk), in Sub-No. 26; to "such commodities as are dealt in by grocery and food business houses, and equipment, materials and supplies used in the conduct of such business," from canned goods, in Sub-Nos. 32, 42, and 60; from edible four, dessert preparations, preserved and corn sugar (except frozen commodities and commodities in bulk), in Sub-No. 53; from confectionaries in Sub-No. 49; from frozen foodstuffs in Sub-Nos. 39; from foodstuffs in Sub-Nos. 100 and 107; from frozen food in Sub-No. 116; from foodstuffs, in vehicles equipped with mechanical refrigeration in Sub-No. 67; from foodstuffs (except commodities in bulk), in Sub-Nos. 81 and 85; from frozen foods (except meats and commodities in bulk), in Sub-No. 68;

from such commodities as are dealt in by grocery and food business houses (except commodities in bulk, in tank vehicles, in vehicles equipped with mechanical refrigeration), in Sub-No. 59; from fresh and frozen meat and meat products (except commodities in bulk), in Sub-No. 41; and from preserved foodstuffs in Sub-No. 47; to "such merchandise as is dealt in by chain grocery and food business houses, and equipment, materials and supplies used in the conduct of such business", from such merchandise as is dealt in by chain grocery and food business houses, (except commodities in bulk), in vehicles equipped with mechanical refrigeration, in Sub-Nos. 94; to "such merchandise as is dealt in by retail and wholesale department and hardware stores", from such merchandise as is dealt in by retail and wholesale department and hardware stores, (except commodities in bulk), in Sub-No. 29; and from merchandise,

as is dealt in by retail and wholesale department and hardware stores (except foodstuffs and commodities in bulk), in Sub-No. 35; to "commodities dealt in by wholesale and retail hardware and department stores", from household appliances, televisions, radios and stereo equipment, in Sub-No. 52; to "metal products, machinery, equipment or supplies", from welders and parts for welders; in Sub-No. 54; to "rubber and plastic products, leather or leather products, commodities dealt in by department stores, and paper and paper products, lumber and wood products", from footwear, footwear accessories, department store findings and footwear display cabinets and cases, in Sub-No. 56; to "pulp, paper, and related products", from paper and paper products, in Sub-No. 61; to "rubber and plastic products, leather and leather products, commodities dealt in by department stores, and paper and paper products", from (a) footwear, (b) footwear parts and accessories, and (c) footwear display fixtures, in Sub-No. 58; to "pulp, paper and related products, rubber and plastic products, building materials, and commodities dealt in by department stores", from (a) paper and paper products, plastic articles and filters and (b) holders, dispensers and racks used in connection with the articles described in (a) above, in Sub-No. 66; to "such commodities as are dealt in by manufacturers of (a) sporting goods and (b) recreational equipment", from (a) such commodities as are dealt in by manufacturers of sporting goods and recreational equipment, (except commodities in bulk), (b) materials, equipment and supplies used in the manufacture of commodities in (a) above (except commodities in bulk), in Sub-No. 77; to "metal products, machinery, equipment or supplies," from welders, parts, accessories and supplies, in Sub-No. 78; to "machinery, transportation equipment, chemicals and related products, rubber and plastic products, lumber and wood products, building materials, metal products, food and related products and materials, equipment, materials and supplies used in the manufacture of the above commodities", from (a) automobile accessories; (b) home canning kits; (c) cleaning compounds; (d) plastic, metal, wooden and rubber articles; and (e) materials, equipment and supplies used in the manufacture of commodities (a), (b), (c), and (d), to "chemicals and related products, commodities dealt in by grocery and food business houses, and equipment, materials and supplies used in the conduct of such business, petroleum and petroleum products and textile mill products," from cleaning, washing, buffing or polishing compound; textile softener, lubricating oil or grease, deodorants and disinfectants, (except commodities in bulk), in Sub-No. 97; to "machinery and metal products," from pumps, NOI, pump parts and accessories, in Sub-No. 113; to "chemicals, and related products, commodities dealt in by grocery and food business houses, petroleum and petroleum products, textile mill products", from cleaning, washing, buffing or polishing compounds, textile softeners, lubricating oil or grease, and deodorants and disinfectants, (except commodities in bulk), in Sub-No. 115; to "machinery and metal products", from welders and parts of welders, in Sub-No. 117; to "meat, meat products, meat by-products, dairy products, articles distributed by meat packinghouses and such commodities as are used by meat packers in the conduct of their business when destined to and for use by meat packers, as described in *Description in Motor Carrier Certificates*, 61 M.C.C. 209 and 766", by removing the exceptions of hides and commodities in bulk in Sub-Nos. 105 and 106; (2) replace the named points with counties and/or remove facilities limitations: Huron, SD, with Beadle County, SD, Fort Madison, IA, with Lee County, IA, Dakota City and West Point, NE, with Dakota and Cuming Counties, NE, Emporia, KS, with Lion County, KS, Luverne, MN, with Rock County, MN, Denison, Fort Dodge and Mason City, IA, with Crawford, Webster, and Cerro Gordo Counties, IA, Le Mars, IA, with Plymouth County, IA, Fargo, ND, with Cass County, ND, Sioux City, IA, with Woodbury County, IA, Omaha, NE, with Douglas County, NE, Beloit, WI, with Rock County, WI, Wagner, SD, with Charles Mix County, SD, and Madison, NE, with Madison County, NE in Sub-No. 7; Oakland, CA, with Marin, San Francisco, and San Mateo Counties, CA, and Salem and Astoria, OR, with Clatsop and Marion Counties, OR, in Sub-No. 22; Schuyler, NE, with Colfax County, NE in Sub-No. 23; Scranton and Allentown, PA, with Lackawanna and Lehigh Counties, PA, in Sub-No. 26; Huron, SD, with Beadle County, SD, in Sub-No. 28; Crawfordsville, IN, with Montgomery County, IN, Kansas City, MO, Brookings, SD, with Brookings County, SD, and Springfield, OR, with Lane County, OR, in Sub-No. 29; Longmont, CO, with Boulder County, CO, and Brookings, SD, with Brookings County, SD, in Sub-No. 33; Salem, OR, with Madison County, OR, in Sub-No. 33; Minneapolis, MN, Brookings, SD, with Brookings County, and Springfield, OR, with Lane County, OR, in Sub-No. 35; Traverse City, MI, with Traverse County, MI in Sub-No. 39; Minneapolis, MN, in Sub-No. 41; Belgium and Random Lake, WI, with Ozaukee and Sheboygan Counties, WI, in Sub-No. 42; Huron, SD, with Beadle County, SD, Worthington, MN, with Nobles County, MN, St. Joseph, MO, with Buchanan County, MO, and Omaha and Madison, NE, with Douglas and Madison Counties, NE, in Sub-No. 46; Muscatine and Iowa City, IA, with Johnson and Muscatine, Counties, IA, in Sub-No. 47; St. Louis, MO, in Sub-Nos. 49 and 52

Eau Claire with Eau Claire County, WI, in Sub-No. 51; Melrose Park, IL, with Chicago, IL, in Sub-No. 53; Appleton, WI, with Outagamie County, WI, in Sub-No. 54; Huntington, IN, with Huntington County, IN, in Sub-No. 56; National Stockyards, IL, with Chicago, IL, in Sub-No. 57; Morrow, GA, with Clayton County, GA, in Sub-No. 58; Pocatello, ID, with Bannock, ID, in Sub-No. 59; Rialto, CA, with San Bernardino County, CA, in Sub-No. 60; Rhinelanders, WI, with Oneida County, WI, Milwaukee, WI, in Sub-Nos. 66 and 67; Anaheim and La Habra, CA, with Los Angeles, and Orange Counties, CA, in Sub-No. 67; Omaha, NE, with Douglas County, NE in Sub-No. 68; Milwaukee, WI, in Sub-No. 73; Milwaukee, WI, and Seattle, WA, with King County, WA, in Sub-No. 77; Troy, OH, with Miami County, OH, in Sub-No. 78; Menomonee, Vesper, Cameron, Eau Claire and Wisconsin Rapids, WI, with Barron, Dunn, Wood, and Eau Claire County, WI, in Sub-No. 81; Huron, SD, with Beadle County, SD, in Sub-No. 82; Dodge City, KS, with Ford County, KS, in Sub-No. 84; Perry and

Des Moines, IA, with Polk and Dallas Counties, IA, and Madison and Jefferson, WI, with Dale and Jefferson Counties in Sub-No. 92; Sioux Falls, SD, with Minnehaha County, SD, Estherville and Sioux City, IA, with Emmet and Woodbury Counties, IA, and Worthington, MN, with Nobles County, MN, in Sub-No. 93; Minneapolis, MN, and Savage, MN, with Scott County, MN, in Sub-No. 96; Joliet, IL, with Will County, IL, in Sub-No. 97; Madison, NE, with Madison County, NE, and Worthington, MN, with Nobles County, MN, in Sub-No. 99; Carroll, Denison, Des Moines, Fort Dodge, Iowa Falls and Sioux City, IA, with Carroll, Crawford, Polk, Webster, Johnson, and Woodbury Counties, IA, and Crete, Lincoln, and Omaha, NE, with Saline, Lancaster, and Douglas Counties, NE in Sub-No. 102; Britt and Mason City, IA, with Hancock and Cerro Gordo Counties, IA, Fairmont, MN, with Martin County, MN, Eau Claire, Monroe, and Portage, WI, with Eau Claire, Green, and Columbia Counties, WI, and Kansas City, MO, in Sub-No. 105; South San Francisco, CA, with San Francisco, CA, Portland, OR, and Oakland, CA, in Sub-No. 106; Rockford, IL, with Winnebago County, IL, in Sub-No. 108; Fresno, CA, with Fresno County, CA, in Sub-No. 113; South Holland, IL, with Chicago, IL, in Sub-No. 115; Appleton, WI, with Outagamie County, WI, in Sub-No. 117; Moses Lake and Othello, WA, with Grant and Adams County, WA, Nampa, ID, with Canyon County, ID, Elwood, KS, with Doniphan County, KS, in Sub-No. 118; (3) remove the exception of AK, HI, and the origin State in Sub-Nos. 84, 85, 105, and 106; (4) remove originating at or destined to restrictions in Sub-Nos. 7, 22, 23, 26, 39, 41, 42, 46, 49F, 51F, 53F, 54F, 57F, 59F, 60F, 61F, 66F, 78F, 81F, 82F, 84F, 92F, 93F, 96, 97F, 99F, 105F, and 106F, and (5) replace one-way with radial authority between the above territories and various combinations of States.

MC 136635 (Sub-59)X, filed May 13, 1981. Applicant: WHITEFORD TRUCK LINES, INC., 640 W. Ireland Road, South Bend, IN 46680. Representative: Donald W. Smith, P.O. Box 40248, Indianapolis, IN 46240. Applicant seeks to remove restrictions in its MC–138479 and Sub-No. 1 permit acquired in MC–F–13672 to (1) broaden the commodity description from vinyl skirting, vinyl siding, asphalt siding and steel siding and materials, and supplies (except in bulk) to "building materials, and materials, equipment and supplies used in the manufacture and distribution of building materials" in each permit; and (2) broaden the territorial description to between points in the U.S. under continuing contract(s) with a named shipper, in each permit.

MC 138975 (Sub-1)X, filed May 13, 1981. Applicant: ROBERT H. BOGART d.b.a. BOGART TRUCKING, 79 Queen Avenue, Pennsville, NJ 08070. Representative: Barry Weintraub, Suite 800, 8133 Leesburg Pike, Vienna, VA 22180. Applicant seeks to remove restrictions in its lead permit (1) to broaden the commodity description to "rubber and plastic products, chemicals and related products, and materials, supplies and equipment used in the manufacture, packaging and distribution thereof," from plastic, materials, supplies and equipment, used in the manufacture, packaging and distribution thereof; (2) to remove the except in bulk and tank vehicles restrictions and (3) to authorize service between points in the U.S. under contract(s) with a named shipper.

MC 141452 (Sub-6)X, filed May 18, 1981. Applicant: INDUSTRIAL MOLASSES COMPANY, INC., 6600 France Ave. South, Minneapolis, MN 55435. Representative: James C. Hardman, 33 N. La Salle St., Chicago, IL 60602. Applicant seeks to remove restrictions in its Sub-Nos. 2F, 4F, and 5F permits to (1) broaden its commodity descriptions: in Sub-Nos. 2F and 4F, to "chemicals and related products", from liquid fertilizers; and in Sub-No. 5F, to "food and related products", from liquid feed and liquid feed ingredients; and (2) broaden its territorial authority to between points in the U.S., under continuing contract(s) with a named shipper, in all of the above sub-numbers.

MC 142157 (Sub-4)X, filed May 15, 1981. Applicant: LoBIANCO TRUCKING COMPANY, INC., R.D. 22 (Crone Road), York, PA 17402. Representative: Paul F. Sullivan, 711 Washington Building, Washington, DC 20005. Applicant seeks to remove restrictions in its Sub-Nos 1, 2F and 3F certificates to (A) broaden the commodity descriptions in Sub-Nos 2F and 3F from heating and cooling equipment which by reason of size or weight require the use of special equipment, in part (1) of Sub-No. 2, and from trailers and trailer parts in Sub-No. 3 to "machinery and metal products" and "transportation equipment", respectively, and (B) expand facilities or cities to county-wide authority: (a) York, PA, to York County, PA, in Sub-Nos. 1 and 2; and (b) Brady, TX, to McCulloch County, TX, in Sub-No. 3F; (C) remove restrictions against service to the origin state of PA and AK and HI, and that limiting transportation to traffic originating at or destined to named facilities in Sub-No. 2F, and (D) expand one-way to radial authority in Sub-No. 2 between York County, PA, and, points in the U.S. (with exceptions) and in Sub-No. 3 between McCulloch County, TX, and, points in the East.

MC 142559 (Sub-169)X, filed May 13, 1981. Applicant: BROOKS TRANSPORTATION, INC., 3830 Kelley Ave., Cleveland, OH 44114. Representative: John P. McMahon, 100 E. Broad St., Columbus, OH 43215. Applicant seeks to remove restrictions in its MC-142559 Sub-Nos. 158F, 159F, 160F, and 163F certificates to (1) broaden its commodity descriptions (a) from general commodities (except classes A and B explosives and household goods as defined by the Commission), to "general commodities (except A and B explosives)", in Sub-No. 158F; (2) replace city-wide with county-wide authority as follows: Montgomery County, OH, for West Carrollton, OH, Sub-No. 160F; (3) remove the restriction limiting transportation to traffic moving on bills of lading of freight forwarders.

MC 143775 (Sub-164)X, filed May 13, 1981. Applicant: PAUL YATES, INC., POB 1059, Glendale, AZ 85301. Representative: O. Paul Yates (same address as above). Applicant seeks to remove restrictions in its Sub-Nos. 72F, 82F, 97F, 98F, 100F, 101F, 102F, 103F, 106F, 113F, 123F, 146F, 154F and 159F certificates to (1) broaden the commodity descriptions from general commodities (with the usual exceptions), to "general commodities (except classes A and B explosives)"; (2) remove vehicle restrictions in Sub-Nos. 101F and 113F; (3) expand one-way to radial authorities between points throughout the U.S., in Sub-Nos. 72F (part 1), 82F (part a), 97F, 98F, 100F, 101F, 102F, 103F, 123F (part 2), 146F, and 159F; (4) remove the restriction which limits service to the transportation of shipments moving on bills of lading of freight forwarders, in Sub-No. 72F; (5) remove plantsite restrictions in Sub-Nos. 97F, 98F, 101F, 103F (at Philadelphia, PA), 106F, and 113F; (6) replace city-wide authority with county-wide authority as follows: (a) Charlotte and Greensboro with Mecklenburg and Guilford Counties, NC, Greenville with Greenville County, SC, and Phoenix with Maricopa County, AZ, in Sub-No. 102F; (b) Berlin with Hartford County, CT, in Sub-No. 106F; (c) Brea with Orange County, CA, Andover with Butler County, KS, Buffalo with Erie County, NY, Sand Springs with Tulsa County, OK, Eightly-Four and Palmerton with Washington and Carbon Counties, PA, Spartanburg with Spartanburg County, SC, and Houston with Harris

County, TX, in Sub-No. 154F; (7) remove the originating at restrictions in Sub-Nos. 102F (parts 1 and 2) and 154F, and the destined to restrictions in Sub-No. 102F (part 2); and (8) remove the AK and HI restrictions in Sub-Nos. 97F, 103F, 113F, and 154F.

MC 148655 (Sub-15)X, filed May 14, 1981. Applicant: ERIEVIEW CARTAGE, INC., 100 Erieview Plaza, Cleveland, OH 44101. Representative: E. Stephen Heisley, 805 McLachlen Bank Building, 666 Eleventh Street NW., Washington, DC 20001. Applicant seeks to remove restrictions from its lead certificate and Sub-Nos. 1F and 4F to: (1) broaden the commodity descriptions: (a) from glass products, metal products, plastic products, clay and clay products, feldspar, and talc, bottle coating systems, parts and accessories for these commodities, and materials, equipment and supplies used in their manufacture and distribution to "clay, concrete, glass or stone products, metal products, rubber and plastic products, ores and minerals, and machinery" in the lead certificate; (b) from glass products, metal products, plastic products, clay and clay products, feldspar, and talc, molds and machinery used in the manufacture of glass products, bottle coating systems, parts and accessories and materials, equipment and supplies used in their manufacture and distribution to "clay, concrete, glass or stone products, metal products, rubber and plastic products, ores and minerals, and machinery" in Sub-No. 1F; and (c) from glass, metal, plastic, feldspar, talc, and clay articles and products, gift items, molds and machinery used in producing glass, plastic, metal articles, bottle coating systems, and parts and accessories, and material, equipment and supplies for their production, sale and distribution to "clay, concrete, glass or stone products, metal products, rubber and plastic products, ores and minerals, gift items, and machinery," in Sub-No. 4F; (2) replace authority to serve shippers facilities at named points with county descriptions: (a) St. Francois County, MO (Flat River) in the lead certificate; (b) Marion County, IL (Centralia) in Sub-No. 1F; and (c) Washington County, KY (Springfield) in Sub-No. 4F; (3) eliminate the restrictions against service to AK and HI in the lead certificate and Sub-Nos. 1F and 4F; and (4) eliminate except in bulk restrictions in the lead certificate and Sub-No.1.

MC 152245 (Sub-3)X, filed May 11, 1981. Applicant: ARMOUR FOOD EXPRESS COMPANY, P.O. Box 2785, Amarillo, TX 79105. Representative: G. H. Stensrud, Greyhound Tower, Phoenix, AZ 85077. Applicant seeks to remove restrictions in its lead permit No. MC–140364 to broaden the territorial description (as it applies to parts, equipment and materials used in the manufacture of automotive buses) to "between points in the U.S.," under continuing contract(s) with a named shipper.

BILLING CODE 7035-01-M

[Volume No. 13]

Motor Carriers; Applications, Alternate Route Deviations, and Intrastate Applications

Republications of Grants of Operating Rights Authority Prior to Certification

The following grants of operating rights authorities are republished by order of the Commission to indicate a broadened grant of authority over that previously noticed in the **Federal Register.**

An original and one copy of a petition for leave to intervene in the proceeding must be filed with the Commission within 30 days after the date of this **Federal Register** notice. Such pleading shall comply with Special Rule 247(e) of the Commission's *General Rules of Practice* (49 CFR 1100.247) addressing specifically the issue(s) indicated as the purpose for republication, and including copies of intervenor's conflicting authorities and a concise statement of intervenor's interest in the proceeding setting forth in detail the precise manner in which it has been prejudiced by lack of notice of the authority granted. A copy of the pleading shall be served concurrently upon the carrier's representative, or carrier if no representative is named.

MC 110988 (Sub-429F) (Republication), filed June 16, 1980, published in the **Federal Register** issue of August 25, 1980, and February 20, 1981, and republished this issue. Applicant: SCHNEIDER TANK LINES, INC., 4321 W. College Ave., Appleton, WI 54911. Representative: Neil A. DuJardin, P.O. Box 2298, Green Bay, WI 54306. A decision of the Commission, Review Board 4, decided December 3, 1980, and served December 18, 1980, requires republication upon filing, of verified statement by applicant. To operate in interstate or foreign commerce as a common carrier, by motor vehicle, over irregular routes, transporting chemicals (1) from points in Delaware, Maryland, Massachusetts, New Jersey, New York, Ohio, Pennsylvania, and West Virginia, to Points in Colorado, Illinois, Indiana, Iowa, Kansas, Michigan, Minnesota, Missouri, Nebraska, Oregon, Texas, Utah, and Wisconsin, and (2) from points in Illinois and Wisconsin to points in Connecticut, Maryland, and Massachusetts.

Note.—This republication vacates the publication of February 20, 1981.

MC 113908 (Sub-507F) (Republication), filed June 2, 1980, published in the **Federal Register** issue of September 11, 1980, and November 5, 1980, and republished this issue. Applicant: ERICKSON TRANSPORT CORP., 2255 North Packer Road, P.O. Box 10068 G.S., Springfield, MO 65804. Representative: John E. Jandera, P.O. Box 1979, Topeka, KS 66601. An Order of the Commission, Review Board 3, decided March 30, 1981, and served April 28, 1981, finds that the present and future public convenience and necessity require operations by applicant in interstate or foreign commerce as a common carrier, by motor vehicle, over irregular routes, transporting liquid chemicals, in bulk, from points in Illinois to points in Arkansas, Arizona, California, Colorado, Missouri, Montana, New Mexico, Nevada, Oklahoma, Oregon, Texas, and Utah, that applicant is fit, willing, and able properly to perform such service and to conform to the requirements of the Interstate Commerce Act and the Commission's rules and regulations. The purpose of this republication is to indicate applicant's actual grant of authority.

Motor Carrier Intrastate Application(s)

The following application(s) for motor common carrier authority to operate in intrastate commerce seek concurrent motor carrier authorization in interstate or foreign commerce within the limits of the intrastate authority sought, pursuant to Section 10931 (formerly Section 206(a)(6)) of the Interstate Commerce Act. These applications are governed by Special Rule 245 of the Commission's *General Rules of Practice* (49 CFR 1100.245), which provides, among other things, that protests and requests for information concerning the time and place of State Commission hearings or other proceedings, any subsequent changes therein, and any other related matters shall be directed to the State Commission with which the application is filed and shall *not* be addressed to or filed with the Interstate Commerce Commission.

Kansas Docket No. 99579 Route No. 10127, filed May 8, 1981. Applicant: WESTERN KANSAS EXPRESS, INC., P.O. Box 124, Sedgwick, KS 67201. Representative: John E. Jandera, 641 Harrison Street, P.O. Box 1979, Topeka, KS 66601. Certificate of Public

Convenience and Necessity sought to operate a freight service, as follows: Transportation of: *General Commodities* (except articles of unusual value, commodities requiring special equipment, household goods as defined by the Commission, commodities in bulk, and classes A and B explosives). Serving points in Stafford County, Kansas as off-route point to its presently authorized service. Intrastate, interstate and foreign commerce authority sought. Hearing: June 23, 1981, 10:00 A.M., State Office Bldg., 4th Floor, Topeka, KS. Request for procedural information should be addressed to State of Kansas, State Corporation Commission, Fourth Floor, State Office Bldg., Topeka KS 66612, and should not be directed to the Interstate Commerce Commission.

New York Docket No. T-9879, filed April 17, 1981. Applicant: CINCH PRODUCTIONS INC., 295 Adams Blvd., Farmingdale, NY 11735. Representative: Nils Richard Johnson, Jr., 132 King Street, Hicksville, NY. Certificate of Public Convenience and Necessity sought to operate a freight service, as follows: Transportation of: *General Commodities*—Not to exceed 100 pounds, Between Nassau and Suffolk Counties and New York City. Intrastate, interstate and foreign commerce authority sought Hearing: date, time and place not yet fixed. Request for procedural information should be addressed to Department of Transportation, 1220 Washington, Ave., State Campus, Albany, NY 12232, and should not be directed to the Interstate Commerce Commission.

By the Commission.

Agatha L. Mergenovich,

Secretary.

BILLING CODE 7035-01-M

Motor Carriers; Permanent Authority Decisions; Decision-Notice

The following applications, filed on or after February 9, 1981, are governed by Special Rule of the Commission's Rules of Practice, see 49 CFR 1100.251. Special Rule 251 was published in the **Federal Register** of December 31, 1980, at 45 FR 86771. For compliance procedures, refer to the **Federal Register** issue of December 3, 1980, at 45 FR 80109.

Persons wishing to oppose an application must follow the rules under 49 CFR 1100.252. A copy of any application, including all supporting evidence, can be obtained from applicant's representative upon request and payment to applicant's representative of $10.00.

Amendments to the request for authority are not allowed. Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority.

Findings

With the exception of those applications involving duly noted problems (e.g., unresolved common control, fitness, water carrier dual operations, or jurisdictional questions) we find, preliminarily, that each applicant has demonstrated its proposed service warrants a grant of the application under the governing section of the Interstate Commerce Act. Each applicant is fit, willing, and able to perform the service proposed, and to conform to the requirements of Title 49, Subtitle IV, United States Code, and the Commission's regulations. Except where noted, this decision is neither a major Federal action significantly affecting the quality of the human environment nor a major regulatory action under the Energy Policy and Conservation Act of 1975.

In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication, (or, if the application later becomes unopposed) appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

To the extent that any of the authority granted may duplicate an applicant's other authority, the duplication shall be construed as conferring only a single operating right.

Note.—All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract".

Volume No. OPI-158

Decided: May 21, 1981.

By the Commission, Review Board No. 1, members Parker, Chandler and Fortier.

MC 15641 (Sub-6), filed May 14, 1981. Applicant: DeMARIO MOVING & STORAGE, INC., 1414 Raff Rd., S.W., Canton, OH 44710. Representative: James R. Stiverson, 1396 W. Fifth Ave., Columbus, OH 43212 (614) 481-8821. Transporting *household goods*, between points in Carroll, Columbiana, Cuyahoga, Geauga, Lake, Loraine, Mahoning, Medina, Portage, Stark, Summit, Tuscarawas, and Wayne Counties, OH, on the one hand, and, on the other, those points in the U.S. in and east of MN, IA, MO, AR, and TX.

MC 61440 (Sub-210), filed May 14, 1981. Applicant: LEE WAY MOTOR FREIGHT, INC., 3401 Northwest 63rd St., Oklahoma City, OK 73116. Representative: Richard H. Champlin, P.O. Box 12750, Oklahoma City, OK 73157 (405) 840-7579. Transporting *general commodities* (except classes A and B explosives), serving Saint Mary's and Evangeline Parishes, LA, as off-route points in connection with applicant's otherwise authorized regular-route operations.

MC 138861 (Sub-30), filed May 13, 1981. Applicant: C-LINE, INC., 303 Jefferson Blvd., Warwick, RI 02888. Representative: Ronald N. Cobert, 1730 M St., N.W., Suite 501, Washington, DC 20036 (201) 296-2900. Transporting *general commodities* (except classes A and B explosives), between points in the U.S., under continuing contract(s) with Refinemet International, of Woonsocket, RI.

MC 145950 (Sub-95), filed May 5, 1981. Applicant: BAYWOOD TRANSPORT, INC., 2611 University Parks Drive, Waco, TX 76706. Representative: Donald C. Horne (same address as applicant) (817) 752-1613. Wohlstetter, 1700 K St. NW., Washington, DC 20006, (202) 833–8884. Transporting *household goods*, between points in TX, on the one hand, and, on the other, points in AL, AZ, CO, KS, KY, ND, NM, OK, and TX.

MC 152729, filed May 13, 1981. Applicant: CATARACT INDUSTRIAL WAREHOUSING, INC., 4626 Royal Avenue, Niagara Falls, NY 14303. Representative: Michael A. Wargula, 2550 Main Place Tower, Buffalo, NY 14202, (716) 845–6066. Transporting *hazardous chemical wastes and toxic materials*, between points in the U.S., under continuing contract(s) with Frontier Chemical Waste Process, Inc., of Niagara Falls, NY.

MC 153328 (Sub-6), filed May 11, 1981. Applicant: RED K TRANSFER, INC., 2545 Peach Tree St., Cape Girardeau, MO 63701. Representative: Guy H. Boles, 321 North Spring Avenue, Cape Girardeau, MO 63701, (314) 335–6636. Transporting *pulp, paper and related products*, between points in Scott County, MO., Allen County, IN, Los Angeles County, CA, Baltimore County, MD, Duval County, FL, Jefferson County, KY, Lake County, IL, Orleans Parish, LA, Hudson County, NJ, Desha County, AR, and Nez Perce County, ID, on the one hand, and, on the other, points in the U.S. Condition: The person or persons who appear to be engaged in common control of another regulated carrier must either file an application under 49 U.S.C. 11343(A) or submit an affidavit indicating why such approval is unnecessary to the Secretary's office. In order to expedite issuance of any authority please submit a copy of the affidavit or proof of filing the application(s) for common control to team 5 Room 6370.

MC 154458, filed May 11, 1981. Applicant: QUALITY DELIVERY, INC., 4900 Deramus, Kansas City, MO 64120. Representative: Alex M. Lewandowski, 1221 Baltimore Ave., Ste. 600, Kansas City, MO 64105, (816) 221–1464. Transporting *general commodities* (except classes A and B explosives), between points in the U.S. under continuing contact(s) with Amway Corporation, of Des Moines, IA.

MC 155898, filed May 11, 1981 Applicant: FAUST TRAVEL SERVICE, INC., 3023 South 72d St., Philadelphia, PA 19153. Representative: David F. Itkoff, 523 Swede St., Norristown, PA

19401, (215) 275–7990. To engage in operations in interstate or foreign commerce, as a *broker* at Philadelphia, PA, in arranging transportation of *passengers and their baggage*, in special or charter operations, beginning at points in PA and extending to points in the U.S.

MC 155908, filed May 8, 1981. Applicant: U.S. TRANSPORT, INC., C/O P.O. Box 5311, 1477 Ripley St., Lake Station, IN 46405. Representative: Richard A Kerwin, 180 North LaSalle St., Chicago, IL 60601, (312) 332–5106. Transporting *general commodities* (except classes A and B explosives), between points in the U.S. under continuing contract(s) with L. B. Foster and Company, of Des Plaines, IL, its subsidiaries and divisions. Condition: The person or persons who appear to be engaged in control of another regulated carrier must either file an application under 49 U.S.C. 11343(A) or submit an affidavit indicating why such approval is unnecessary, to the Secretary's office. In order to expedite issuance of any authority please submit a copy of the affidavit or proof of filing the application for common control to Team 5 Room 6370.

Agatha L. Mergenovich,

Secretary.

[FR Doc. 81-16024 Filed 5-29-81; 8:45 am]

BILLING CODE 7035-01-M

Motor Carriers; Permanent Authority Decisions; Decision-Notice

The following applications, filed on or after February 9, 1981, are governed by Special Rule 251 of the Commission's Rules of Practice, see 49 CFR 1100.251. Special Rule 251 was published in the **Federal Register** on December 31, 1980, at 45 FR 86771. For compliance procedures, refer to the **Federal Register** issue of December 3, 1980, at 45 FR 80109.

Persons wishing to oppose an application must follow the rules under 49 CFR 1100.252. Applications may be protested *only* on the grounds that applicant is not fit, willing, and able to provide the transportation service or to comply with the appropriate statutes and Commission regulations. A copy of any application, including all supporting evidence, can be obtained from applicant's representative upon request and payment to applicant's representative of $10.00.

Amendments to the request for authority are not allowed. Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority.

Findings

With the exception of those applications involving duly noted problems (e.g., unresolved common control, fitness, water carrier dual operations, or jurisdictional questions) we find, preliminarily, that each applicant has demonstrated its proposed service warrants a grant of the application under the governing section of the Interstate Commerce Act. Each applicant is fit, willing, and able to perform the service proposed, and to conform to the requirements of Title 49, Subtitle IV, United States Code, and the service proposed, and to conform to the requirements of Title 49, Subtitle IV, United States Code, and the Commission's regulation. Except where noted, this decision is neither a major Federal action significantly affecting the quality of the human environment nor a major regulatory action under the Energy Policy and Conservation Act of 1975.

In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication (or, if the applications later become unopposed), appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement is rebuttal to any statement in opposition.

To the extent that any of the authority granted may duplicate an applicant's other authority, the duplication shall be construed as conferring only a single operating right.

Note.—All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract".

Motor Carriers; Permanent Authority Republications of Grants of Operating Rights Authority Prior to Certification

The following grants of operating rights authorities are republished by order of the Commission to indicate a broadened grant of authority over that previously noticed in the **Federal Register**.

An original and one copy of opposing verified statements must be filed with the Commission within 45 days after the date of this **Federal Register** notice. Applicant may file a verified statement in rebuttal within 60 days. Such pleadings shall comply with 49 CFR 1100.247 (renumbered 1100.251) addressing specifically the issue(s) indicated as the purpose for republication. Special Rule 247 (renumbered 251) was published in the **Federal Register** of July 3, 1980, at 45 FR 45539.

MC 74321 (Sub-160), (republication), filed January 23, 1981, published in the **Federal Register** of February 18, 1981, and republished this issue. Applicant: B. F. WALKER, INC., 1555 Tremont Place, P.O. Box 17–B, Denver, CO 80217. Representative: Richard P. Kissinger, Steele Park, Suite 330, 50 South Steele St., Denver, CO 80209. A decision by the Commission, Review Board 2, decided April 28, 1981, served May 7, 1981, finds that applicant is authorized to operate as a *common carrier*, by motor vehicle, in interstate or foreign commerce, over irregular routes transporting, *such commodities* as are dealt in or used by manufacturers and distributors of cast iron products, between Council Bluffs, IA, Florence, NJ, Lynchburg, VA, Detroit, MI, Chicago, IL, and New York, NY, on the one hand, and, on the other, points in the Uninted States. Applicant is fit, willing, and able properly to perform the granted service and to conform to statutory and administrative requirements. The purpose of this republication is to change the commodity from *metal products* to *such commodities*.

By the Commission.
Agatha L. Mergenovich,
Secretary.

BILLING CODE 7035–01–M

Motor Carrier Temporary Authority Application

The following are notices of filing of applications for temporary authority under section 10928 of the Interstate Commerce Act and in accordance with the provisions of 49 CFR 1131.3. These rules provide that an original and two (2) copies of protests to an application may be filed with the Regional Office named in the **Federal Register** publication no later than the 15th calendar day after the date the notice of the filing of the appication is published in the **Federal Register**. One copy of the protest must be served on the applicant, or its authorized representative, if any, and the protestant must certify that such service has been made. The protest must identify the operating authority upon which it is predicated, specifying the "MC" docket and "sub" number and quoting the particular portion of authority upon which it relies. Also, the protestant shall specify the service it can and will provide and the amount and type of equipment it will make available for use in connection with the service contemplated by the TA application. The weight accorded a protest shall be governed by the completeness and pertinence of the protestant's information.

Except as otherwise specifically noted, each applicant states that there will be no significant effect on the quality of the human environment resulting from approval of its application.

A copy of the application is on file, and can be examined at the ICC Regional Office to which protests are to transmitted.

Note.—All applications seek authority to operate as a common carrier over irregular routes except as otherwise noted.

Notice No. F–124

The following applications were filed in Region I. Send protests to: Interstate Commerce Commission, Regional Authority Center, 150 Causeway Street, Room 501, Boston, MA 02114.

MC 25334 (Sub-1–5TA), filed May 12, 1981. Applicant: COOPER-JARRETT,

INC., Hanover Plaza, Morristown, NJ 07960. Representative: William J. Hanlon, Esq. (same as applicant). *Waste materials (hazardous and non-hazardous)* between points in CT, DE, IL, IN, IA, KS, KY, MD, MA, MI, MO, NE, NH, NJ, NY, OH, PA, RI, TN, WV, WI, on the one hand, and, on the other, AL, AR, GA and SC. Supporting shipper(s): There are 6 statements in support of this application which may be examined at the I.C.C. Regional Office in Boston, MA.

MC 141932 (Sub-1–19TA), filed May 13, 1981. Applicant: POLAR TRANSPORT, INC., 176 King Street, Hanover, MA 02339. Representative: Alton C. Supporting shipper: Lower Kuskokwim School District, Box 305, Bethel, AK 99559.

MC 143570 (Sub-6–2TA), filed May 15, 1981. Applicant: D & G TRUCKING, INC., 4420 E. Overland Rd., Meridian, ID 83642. Representative: David E. Wishney, P.O.B. 837, Boise, ID 83701. *(1) Building materials and (2) floor coverings, and materials, equipment and supplies* used in the installation, distribution and sale of #(2), between points in CA, CO, NV, OR, UT and WA on the one hand, and on the other, points in ID, WA and UT, for 270 days. There are 9 shippers. The statements may be examined at the office listed.

MC 147503 (Sub-6–1TA), filed May 18, 1981. Applicant: NORMAN H. DAHLSTEDT, d.b.a. DAHLSTEDT TRUCKING, 1306 Hwy. 237, Mt. Vernon, WA 98273. Representative: Norman H. Dahlstedt (same as applicant). *Fertilizer, Herbicides, Pesticides, Insecticides, and Potting Soils* except bulk in tank vehicles, in, from and between points in WA, OR, ID, MT, UT, and CA, for the accounts of Estech General Chemical and The Pax Co., for 270 days. An underlying ETA seek 120 days authority. Supporting shippers: Estech General Chemical, P.O. Box 208, Monroe, WA 98272; The Pax Co., c/o Wolfkill, P.O. Box 578, Monroe, WA 98272.

MC 56640 (Sub-6–10TA), filed May 18, 1981. Applicant: DELTA LINES, INC., P.O.B. 2081, Oakland, CA 94604. Representative: Kirk Wm. Horton (same as applicant). *General commodities* (except Classes A & B explosives, household goods as defined by the Commission, and commodities in bulk). serving Brookings and Harbor, OR as off-route points in connection with carrier's otherwise authorized regular route operations, for 270 days. Applicant intends to tack with its presently held authority. Supporting shipper: There are six (6) supporting shippers, whose statements may be examined at the regional office listed.

MC 156042 (Sub-6–1TA), filed May 18, 1981. Applicant: K & D ENTERPRISES, 2422 Highway 2 West, Kalispell, MT 59901. Representative: Kenneth P. Doty (same as applicant). *(1) lumber and wood products, agricultural, logging and construction equipment and machinery, new or used, and parts thereof, new or used, steel and metal products, and roofing and building materials, boats and yachts, both new and used, marine accessories, equipment and parts, and all recyclable materials,* from points in AZ, CA, ID, MT, NM, OR, and WA, to the adjacent (48) states to include all international boundaries, for 270 days; *(2) general commodities,* from points in AL, AR, CT, DE, FL, GA, IL, IN, IA, KS, KY, LA, ME, MD, MA, MI, MN, MS, MO, NH, NJ, NY, NC, OH, OK, PA, RI, SC, TX, TN, VT, VA, WV, and WI, to the adjacent (48) states to include all international boundaries, for 270 days. Supporting shippers: Mor-Wood, Inc., Box 163, Columbia Falls, MT 59912; F. H. Stoltze Land & Lumber Co., Box 1429, Columbia Falls, MT 59912; Superior Buildings Co., 455 4th Ave., E.N., Columbia Falls, MT 59912; and Plum Creek Lumber Co., P.O.B. 160, Columbia Falls, MT 59912.

MC 152109 (Sub-6–5TA), filed May 18, 1981. Applicant: KAIBAB TRANSPORTATION, INC., P.O. Box 20506, Phoenix, AZ 85036. Representative: Michael F. Morrone, 1150 17th St. NW., Suite 1000, Washington, DC 20036. *Contract* carrier, irregular routes: *General commodities* (except classes A and B explosives and hazardous waste material) (A) from points in Los Angeles County, San Diego County, Orange County, San Bernardino County and Riverside County, CA to points in Maricopa County, Pima County and Yuma County, AZ; and (B) from points in El Paso County, TX to points in Maricopa County and Pima County, AZ under continuing contract with O'Malley Company, Inc., Phoenix, AZ for 270 days. An underlying ETA seeks 120 days authority. Supporting shipper: O'Malley, Company, Inc., P.O. Box 10532, Phoenix, AZ 85064.

MC 156032 (Sub-6–1TA), filed May 18, 1981. Applicant: LEROY LEATHAM, d.b.a. ROY LEATHAM TRANSPORT, INC., 5217 S.W. Aldercrest Road, Milwaukie, OR 97222. Representative: John H. King, 50015 S.W. Coalman Road, Sandy, OR 97055. *Contract Carrier,* Irregular Routes: (1) *Lumber and Wood Products,* and (2) *Materials, Equipment and Supplies* used in the manufacture and distribution of commodities named in (1) above, between points in the U.S. for the account of Hampton Lumber Sales Co., for 270 days. Supporting shipper: Hampton Lumber Sales Co., 9400 S.W. Barnes Road, Portland, OR 97225.

MC 150290 (Sub-6–4TA), filed May 14, 1981. Applicant: MIDLAND TRANSPORTATION CO., INC., 801 West Artesia Blvd., Compton, CA 90220. Representative: Robert B. Pepper, 168 Woodbridge Ave., Highland Park, NJ 08904. *Advertising display racks and stands, and materials and supplies used in the manufacture and sales thereof,* except in bulk between Newark, NJ, on the one hand, and, on the other, points in the U.S. except AK and HI on shipments originating or destined to Butler Industries Inc., Newark, NJ for 270 days. Supporting shipper: Butler Industries Inc., 637 Central Avenue, Newark, NJ 07107.

MC 138732 (Sub-6–9TA), filed May 18, 1981. Applicant: OSTERKAMP TRUCKING, INC., P.O. Box 5546, Orange, CA 92667. Representative: Michael R. Eggleton, 5 Crow Canyon Ct., Suite 200, San Ramon, CA 94583. *Containers, container ends and closures; commodities manufactured or distributed by manufacturers and distributors of containers when moving in mixed loads with containers and material, equipment and supplies used in the manufacture and distribution of containers, container ends and closures* from points in ID to points in UT, for 270 days. An underlying ETA seeks 120 days authority. Supporting shipper: Boise Cascade Corporation, P.O. 7747, Boise, ID 83707.

MC 147042 (Sub-6–2TA), filed May 14, 1981. Applicant: SEARS TRUCKING, INC., 1760 South Anaheim Blvd., Anaheim, CA 92805. Representative: Robert Evans (same address as applicant). (1) *Paper cups and other paper articles,* (2) *Plastic cups and other articles,* (3) *Bakery goods,* From Los Angeles County, CA to Portland, OR; From Los Angeles County, CA to Phoenix, and Tucson, AZ, for 270 days, an underlying ETA seeks 120 days authority. Supporting shipper: Sweetheart Cup Corp., 2155 E. 7th St., Los Angeles, CA 90032.

MC 129480 (Sub-6–5TA), filed May 18, 1981. Applicant: TRI-LINE EXPRESSWAYS, LTD., P.O. Bag 1212, Stn. T, Calgary, Alberta, CD T2H 2J1. Representative: Richard S. Mandelson, Suite 1600 Lincoln Center, 1660 Lincoln St., Denver CO 80264. *Alumina oxide catalyst,* from Michigan City, IN, to the international boundary line between the U.S. and CD at Emerson, Manitoba, for 270 days, an underlying ETA seeks 120 days authority. Supporting shipper:

American Cyanamid Company, Burdan Avenue, Wayne, NJ 07470.

MC 151225 (Sub-6–7TA), filed May 19, 1981. Applicant: DON WARD, INC., 241 West 56th Ave., Denver, CO 80216. Representative: Steven E. Napper, 718—17th St., Suite 1700, Denver, CO 80202. *Uranium Liquor*, from Maybell, CO to Gas Hills, WY for 270 days. An underlying ETA seeks 120 days authority. Supporting shipper: Union Carbide Corporation, One California St., San Francisco, CA 94111.

MC 26396 (Sub-6–66TA), filed May 19, 1981. Applicant: THE WAGGONERS TRUCKING, P.O.B. 31357, Billings, MT 59107. Representative: Bradford E. Kistler, P.O.B. 82028, Lincoln, NE 68501. *Lumber and building materials*, from Wichita, KS and points in its commercial zone to points in AR, MO, NE, OK and TX, for 270 days. Supporting shipper: Chandler Corporation, 3151 South West Street, Wichita, KS 67217.

Agatha L. Mergenovich,

Secretary.

NUCLEAR REGULATORY COMMISSION

[Docket No. 50–313]

Arkansas Power & Light Co.; Issuance of Amendment to Facility Operating License

The U.S. Nuclear Regulatory Commission (the Commission) has issued Amendment No. 56 to Facility Operating License No. DPR–51, issued to Arkansas Power & Light Company (the licensee), which revised the Technical Specifications for operation of Arkansas Nuclear One, Unit No. 1 (ANO–1) located in Pope County, Arkansas. The amendment is effective as of its date of issuance.

The amendment modifies the ANO–1 Appendix A Technical Specifications dealing with the reactor decay heat removal capability.

The application for the amendment complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission's rules and regulations in 10 CFR Chapter I, which are set forth in the license amendment. Prior public notice of this amendment was not required since the amendment does not involve a significant hazards consideration.

The Commission has determined that the issuance of this amendment will not result in any significant environmental impact and that pursuant to 10 CFR 51.5(d)(4) an environmental impact statement or negative declaration and environmental impact appraisal need not be prepared in connection with issuance of this amendment.

For further details with respect to this action, see (1) the licensee's application dated October 31, 1980, as supplemented January 30, 1981, (2) Amendment No. 56 to License No. DPR–51, and (3) the Commission's related Safety Evaluation. All of these items are available for public inspection at the Commission's Public Document Room, 1717 H Street, N.W., Washington, D.C. and at the Arkansas Tech University, Russellville, Arkansas. A copy of items (2) and (3) may be obtained upon request addressed to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Director, Division of Licensing.

Dated at Bethesda, Maryland, this 20th day of May 1981.

For the Nuclear Regulatory Commission.

John F. Stolz,

Chief, Operating Reactors Branch No. 4, Division of Licensing.

BILLING CODE 7590–01–M

[Docket Nos. 50–458 and 50–459]

Gulf States Utilities Co. (River Bend Station Units 1 and 2); Issuance of Director's Decision

On July 21, 1980, the Union of Concerned Scientists requested the U.S. Nuclear Regulatory Commission (NRC) to halt construction at the River Bend Station Units 1 and 2 of the Gulf States Utilities (GSU) Company. Allegations of questionable practices relevant to plant construction formed the basis for the request. Upon evaluation of the request and related information, I have determined not to grant the relief requested. Accordingly, the request for action under 10 CFR 2.206 is denied.

The reasons for this decision are stated fully in the "Director's Decision Under 10 CFR 2.206," which is available for public inspection in the Commission's public document room at 1717 H Street, NW, Washington, DC 20555. The decision is also available for inspection in the local public document rooms at the Audubon Library, West Feliciana Branch, Ferdinand Street, St. Francisville, Louisiana 70775 and at Louisiana State University, Government Documents Department, Baton Rouge, Louisiana 70803. A copy will be filed with the Secretary for the Commission's review in accordance with 10 CFR 2.206(c).

As provided in 10 CFR 2.206(c), this Decision will become the final action of the agency twenty-five (25) days after issuance, unless the Commission on its motion institutes review of this action within that time.

Dated at Bethesda, Maryland, this 26 day of May 1981.

For the Nuclear Regulatory Commission.

Victor Stello, Jr.,

Director, Office of Inspection and Enforcement.

BILLING CODE 7590–01–M

[NUREG–0673]

Issuance and Availability "Guidelines for Confirmatory Inplant Tests of Safety Relief Valve Discharges for BWR Plants"

The Nuclear Regulatory Commission (NRC) staff has prepared a report entitle "Guidelines for Confirmatory Inplant Tests of Safety Relief Valve Discharges for BWR Plants" (NUREG–0763), dated April 1981. The report provides the staff's partial resolution of the NRC's Generic Technical Activity A–39, "Determination of Safety Relief Valve (SRV) Pool Dynamic Loads and Temperature Limits for BWR Containment." This is an "Unresolved Safety Issue" pursuant to Section 210 of the Energy Reorganization Act of 1974.

All BWR plants are equipped with safety/relief valves for overpressure protection of the reactor systems. Experience at operating plants demonstrates that the SRV discharge to the suppression pool causes substantial hydrodynamic loads on piping, equipment and containment structures. These loads result from rapid expulsion of the air that is initially in the SRV discharge line.

As a result of these concerns, the Mark I and Mark II owners formed groups to develop a program consisting

of both analytical and experimental tasks to support their SRV load application methods. These efforts have been incorporated with the LOCA-related pool dynamic program, Generic Technical Activities A–7 and A–8 for Mark I and Mark II containments. Results of the NRC staff evaluation of these issues and acceptance criteria have been reported in NUREG–0661 and NUREG–0487. For Mark III containments, a safety evaluation report and acceptance criteria were also established and issued on July 16, 1976 (GESSAR 238 Nuclear Island, Docket No. STN–50–447).

The acceptance criteria in NUREG–0763 are intended for generic application. Plants which have features that differ substantially from the data base used to establish the acceptance criteria will be required to perform inplant tests. Guidelines for formulating appropriate test matrices, establishing test procedures, selecting necessary instrumentation, and reporting test results are presented.

Copies of the report will be available after May, 1981. Copies will be sent directly to utilities, utility industry groups and associations and environmental and public interest groups. Other copies will be available for review at the NRC Public Document Room, 1717 H Street, N.W., Washington, D.C.; and the Commission's local public document rooms located in the vicinity of existing nuclear power plants. Addresses of these local public document rooms can be obtained by contacting the Chief, Local Public Document Rooms Branch, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, telephone (301) 492–7536.

Dated at Bethesda, Maryland, this 18th day of May, 1981.

For the Nuclear Regulatory Commission.

Thomas E. Murley,

Director, Division of Safety Technology, Office of Nuclear Reactor Regulation.

BILLING CODE 7590–01–M

[Docket No. 50–309]

Maine Yankee Atomic Power Co.; Issuance of Amendment to Facility Operating License

The U.S. Nuclear Regulatory Commission (the Commission) has issued Amendment No. 59 to Facility Operating License No. DPR–36, issued to Maine Yankee Atomic Power Company, which revised Technical Specifications for operation of the Maine Yankee Atomic Power Station (the facility) located in Lincoln County, Maine. The amendment was effective on May 5, 1981.

The amendment revised Technical Specification 3.19 to allow for remote-manual operability of the breakers for the reactor coolant loop No. 2 isolation valves during the period between May 5 and May 9, 1981.

The application for the amendment complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate finding as required by the Act and the Commission's rules and regulations in 10 CFR Chapter I, which are set forth in the license amendment. Prior public notice of this amendment was not required since the amendment does not involve a significant hazards consideration.

The Commission has determined that the issuance of this amendment will not result in any significant environmental impact and that pursuant to 10 CFR 51.5(d)(4) an environmental impact statement, or negative declaration and environmental impact appraisal need not be prepared in connection with issuance of this amendment.

For further details with respect to this action, see (1) the application for amendment dated May 5, 1981, (2) Amendment No. 59 to License No. DPR–36, and (3) the Commission's related Safety Evaluation. All of these items are available for public inspection at the Commission's Public Document Room, 1717 H Street, N.W., Washington, D.C. and at the Wiscasset Public Library Association, High Street, Wiscasset, Maine. A copy of items (2) and (3) may be obtained upon request addressed to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555. Attention: Director, Division of Licensing.

Dated at Bethesda, Maryland, this 20th day of May, 1981.

For the Nuclear Regulatory Commission.

Robert A. Clark,

Chief, Operating Reactors Branch No. 3, Division of Licensing.

BILLING CODE 7590–01–M

[Docket No. 50–298]

Nebraska Public Power District; Issuance of Amendment to Facility Operating License

The U.S. Nuclear Regulatory Commission (the Commission) has issued Amendment No. 70 to Facility Operating License No. DPR–46, issued to Nebraska Public Power District (the licensee), which revised the Technical Specifications for operation of the Cooper Nuclear Station, located in Nemaha County, Nebraska. The amendment is effective as of its date of issuance.

The amendment modifies the Technical Specifications to: (1) permit operation of the facility during Cycle 7 with 112 new P8x8R fuel assemblies designed and fabricated by General Electric Company (GE) replacing an equivalent number of 7x7 and 8x8 irradiated fuel assemblies and (2) revise limits based on transient and accident analysis for Cycle 7 core loading which included use of the ODYN code for the analyses of overpressurization transients.

The application for the amendment complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission's rules and regulations in 10 CFR Chapter I, which are set forth in the license amendment. Prior public notice of this amendment was not required since the amendment does not involve a significant hazards consideration.

The Commission has determined that the issuance of this amendment will not result in any significant environmental impact and that pursuant to 10 CFR 51.5(d)(4), an environmental impact statement or negative declaration and environmental impact appraisal need not be prepared in connection with the issuance of this amendment.

For further details with respect to this action, see (1) the application for amendment dated March 5, 1981, (2) Amendment No. 70 to License No. DPR–46, and (3) the Commission's related Safety Evaluation. All of these items are available for public inspection at the Commission's Public Document Room, 1717 H Street, NW., Washington, D.C. and at the Auburn Public Library, 118—15th Street, Auburn, Nebraska 68305. A copy of items (2) and (3) may be obtained upon request addressed to the U.S. Nuclear Regulatory Commission, Washington, D.C., 20555, Attention: Director, Division of Licensing.

Dated at Bethesda, Maryland, this 22d day of May 1981.

[Docket No. 50-285]

Omaha Public Power District; Issuance of Amendment to Facility Operating License

The U.S. Nuclear Regulatory Commission (the Commission) has issued Amendment No. 59 to Facility Operating License No. DPR-40 issued to Omaha Public Power District (the licensee), which revised the Technical Specifications for operation of the Fort Calhoun Station, Unit No. 1 located in Washington County, Nebraska. The amendment is effective as of its date of issuance.

The amendment contains several changes, clarifications, and improvements in the operability and surveillance requirements for hydraulic snubbers and adds similar new requirements for mechanical snubbers.

The application for the amendment complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission's rules and regulations in 10 CFR Chapter I, which are set forth in the license amendment. Prior public notice of this amendment was not required since the amendment does not involve a significant hazards consideration.

The Commission has determined that the issuance of this amendment will not result in any significant environmental impact and that pursuant to 10 CFR 51.5(d)(4) an environmental impact statement or negative declaration and environmental impact appraisal need not be prepared in connection with issuance of this amendment.

For further details with respect to this action, see (1) the application for amendment dated March 25, 1981, (2) Amendment No. 59 to License No. DPR-40, and (3) the Commission's related letter dated May 20, 1981. All of these items are available for public inspection at the Commission's Public Document Room, 1717 H Street, N.W., Washington, D.C. 20555, and at the W. Dale Clark Library, 215 South 15th Street, Omaha, Nebraska 68102. A copy of items (2) and (3) may be obtained upon request addressed to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Director, Division of Licensing.

[Docket No. 50-344]

Portland General Electric Co., et al.; Issuance of Amendment to Facility Operating License

The U.S. Nuclear Regulatory Commission (the Commission) has issued Amendment No. 63 to Facility Operating License No. NPF-1, issued to Portland General Electric Company, the City of Eugene, Oregon, and Pacific Power and Light Company (the licensee), which revised the license for operation of Trojan Nuclear Plant (the facility) located in Columbia County, Oregon. The amendment is effective as of the date of issuance.

The amendment approves, and incorporates into the license, changes to the physical security plan.

The application for the amendment complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission's rules and regulations in 10 CFR Chapter I, which are set forth in the license amendment. Prior public notice of this amendment was not required since this amendment does not involve a significant hazards consideration.

The Commission has determined that the issuance of this amendment will not result in any significant environmental impact and that pursuant to 10 CFR 51.5(d)(4) an environmental impact statement or negative declaration and environmental impact appraisal need not be prepared in connection with issuance of this amendment.

The licensee's filing dated September 30, 1980, as supplemented April 30, 1981, is being withheld from public disclosure pursuant to 10 CFR 2.790(d). The withheld information is subject to disclosure only in accordance with the provisions of 10 CFR 9.12.

For further details with respect to this action, see (1) Amendment No. 63 to License No. NPF-1 and (2) the Commission's related letter dated May 19, 1981. All of these items are available for public inspection at the Commission's Public Document Room, 1717 H Street, N.W., Washington, D.C. and at the local public document room located at the Multnomah County Library, Social Science and Science Department, 801 S.W. 10th Avenue, Portland, Oregon 97205. A copy of items (1) and (2) may be obtained upon request addressed to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Director, Division of Licensing.

Dated at Bethesda, Maryland, this 19th day of May, 1981.

PENSION BENEFIT GUARANTY CORPORATION

Withdrawal of Procedures Under Executive Order 12044

AGENCY: Pension Benefit Guaranty Corporation.

ACTION: Notice.

SUMMARY: This notice withdrews the earlier notice of the Pension Benefit Guaranty Corporation ("PBGC") under Executive Order 12044. Because the Executive Order has been revoked, the statement previously published by the PBGC is no longer in effect.

EFFECTIVE DATE: June 1, 1981.

FOR FURTHER INFORMATION CONTACT: Melanie Franco Nussdorf, Special Counsel, Office of the General Counsel, Pension Benefit Guaranty Corporation, Suite 7200, 2020 K Street, N.W., Washington, D.C. 20006, 202-254-4876.

SUPPLEMENTARY INFORMATION: On December 13, 1978, the PBGC published a statement of policy and procedures with regard to improving the quality of regulations as required by Executive Order 12044 (43 FR 58237). That statement set forth the PBGC's objectives for reviewing existing regulations and issuing new regulations.

On February 17, 1981, Executive Order 12291 was issued, revoking Executive Order 12044. Accordingly, the notice issued under Executive Order 12044 is no longer in effect. In the future, PBGC's regulations will be developed in accordance with the requirements of Executive Order 12291.

Issued at Washington, D.C., on this 26th day of May, 1981.

Robert E. Nagle,

Executive Director, Pension Benefit Guaranty Corporation.

SMALL BUSINESS ADMINISTRATION

[Declaration of Disaster Loan Area #1988]

Alabama; Declaration of Disaster Loan Area

As a result of the President's major disaster declaration, I find that Mobile County and adjacent counties within the State of Alabama constitute a disaster area because of damage resulting from severe storms and flooding which occurred on May 5–6, 1981. Eligible persons, firms and organizations may file applications for loans for physical damage until the close of business on July 13, 1981, and for economic injury until close of business on February 15, 1982, at:

Small Business Administration, District Office, 980 South 20th Street, Birmingham, Alabama 63205

or other locally announced locations. For recent changes in disaster loan eligibility, see 46 FR 18526 (March 25, 1981).

(Catalog of Federal Domestic Assistance Program Nos. 59002 and 59008)

Dated: May 26, 1981.

Michael Cardenas,

Administrator.

DEPARTMENT OF STATE

Office of the Secretary

[Public Notice CM-8/413]

Advisory Committee on International Investment, Technology, and Development; Meeting

The Department of State will hold a meeting on June 30, 1981, of the Advisory Committee on International Investment, Technology, and Development. The Committee will meet from 9:00 a.m. to 4:30 p.m. The meeting will be held in the Loy Henderson Conference Room of the State Department, 2201 C Street, NW., Washington, D.C. 20520. The meeting will be open to the public.

The purpose of the meeting will be to review recent trends in international investment.

Requests for further information on the meeting should be directed to Philip T. Lincoln, Jr., Department of State, Office of Investment Affairs, Bureau of Economic and Business Affairs, Washington, D.C. 20520. He may be reached by telephone on (area code 202) 632–2728.

Members of the public wishing to attend the meeting must contact Mr. Lincoln's office in order to arrange entrance to the State Department building.

The Chairman will as time permits, entertain oral comments from members of the public attending the meeting.

Dated: May 21, 1981.

Philip T. Lincoln, Jr.,

Executive Secretary.

Advisory Committee on International Investment, Technology, and Development; Meeting

The Department of State will hold a meeting on June 17, 1981, of the Working Group on International Data Flows of the Advisory Committee on International Investment, Technology, and Development. The Working Group will meet from 10:00 a.m. to noon. The meeting will be held in the Lecture Room of the National Academy of Sciences, 2101 Constitution Avenue, N.W., Washington, D.C. The meeting will be open to the public.

The purpose of the meeting will be to discuss the results of the OECD Workshop on the Vulnerability of Computerized Society (Siguenza, Spain May 19–21), preparations for the June meeting of the ICCP Experts Group, and preliminary preparations for the October Special Session Follow-up on the Privacy Guidelines.

Requests for further information on the meeting should be directed to Philip T. Lincoln, Jr., Department of State, Office of Investment Affairs, Bureau of Economic and Business Affairs, Washington, D.C. 20520. He may be reached by telephone on (area code 202) 632–2728.

Members of the public wishing to attend the meeting must contact Mr. Lincoln's office in order to arrange entrance to the State Department building.

The Chairman of the Working Group, will as time permits, entertain oral comments from members of the public attending the meeting.

Dated: May 21, 1981.

Philip T. Lincoln, Jr.,

Executive Secretary.

BILLING CODE 4710-07-M

DEPARTMENT OF TRANSPORTATION

Coast Guard

[CGD 81-042]

New York Vessel Traffic Service; Advisory Committee Meeting

Pursuant to section 10(a)(2) of the Federal Advisory Committee Act (Pub. L. 92–463; 5 USC App. 1), notice is hereby given of a meeting of the New York Harbor Vessel Traffic Service Advisory Committee to be held on Wednesday, June 24, 1981, in the Conference Room, second floor, U.S. Coast Guard Marine Inspection Office, Battery Park Office, New York, New York, beginning at 9:30 a.m. The agenda for the meeting is as follows:

1. Discuss progress in completion of the New York Vessel Traffic Service.

2. Discussion of the Marine Traffic Engineering Manual for the Port of New York, including instruction in its use, and the role of the VTS Advisory Committee in the application of Marine Traffic Engineering concepts.

The New York Harbor Vessel Traffic Service Advisory Committee was established by the Commander, Third Coast Guard District to advise on the need for, and development, installation and operation of a Vessel Traffic Service for New York Harbor. Members of the Committee serve voluntarily without compensation from the Federal Government, either travel or per diem.

Attendance at this meeting is open to the interested public. With advance notice to the Chairman, members of the public may present oral statements at the meeting. Persons wishing to present oral statements should so notify the Executive Director no later than the day before the meeting. Any member of the public may present a written statement to the Committee at any time.

Additional information may be obtained from Captain D. J. Linde, Executive Director, New York Harbor Vessel Traffic Service Advisory Committee, U.S. Coast Guard, Governors Island, New York, NY 10004 or by calling (212) 668–7954.

Issued in New York, NY on May 15, 1981.

R. I. Price,

Vice Admiral, Coast Guard, Commander, Third Coast Guard District.

BILLING CODE 4910-14-M

Federal Aviation Administration

[Summary Notice No. PE-81-14]

Petitions for Exemption; Summary of Petitions Received and Dispositions of Petitions Issued

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of petitions for exemptions received and of dispositions of prior petitions.

SUMMARY: Pursuant to FAA's rulemaking provisions governing the application, processing, and disposition of petitions for exemption (14 CFR Part 11), this notice contains a summary of certain petitions seeking relief from specified requirements of the Federal Aviation Regulations (14 CFR Chapter I) and of dispositions of certain petitions previously received. The purpose of this notice is to improve the public's awareness of, and participation in, this aspect of FAA's regulatory activities. Neither publication of this notice nor the inclusion or omission of information in the summary is intended to affect the legal status of any petition or its final disposition.

DATES: Comments on petitions received must identify the petition docket number involved and must be received on or before June 22, 1981.

ADDRESSES: Send comments on any petition in triplicate to: Federal Aviation Administration, Office of the Chief Counsel, Attn: Rules Docket (AGC-204), Petition Docket No. ———, 800 Independence Avenue, SW., Washington, D.C. 20591.

FOR FURTHER INFORMATION CONTACT: The petition, any comments received and a copy of any final disposition are filed in the assigned regulatory docket and are available for examination in the Rules Docket (AGC-204), Room 916, FAA Headquarters Building (FOB 10A), 800 Independence Avenue, SW, Washington, D.C. 20591; telephone (202) 426-3644.

This notice is published pursuant to paragraphs (c), (e), and (g) of § 11.27 of Part 11 of the Federal Aviation Regulations (14 CFR Part 11).

Edward P. Faberman,

Assistant Chief Counsel, Regulations and Enforcement Division.

Petitions for Exemptions

Docket No.	Petitioner	Regulations affected	Description of relief sought
21736	Pacific Southwest Airlines (PSA)	14 CFR 121.291(a)(2)(i)	To permit PSA to increase the passenger-seating capacity of its B-727-200 airplanes from 163 to 175 passengers without first conducting a full-scale demonstration of emergency evacuation procedures.
21705	Texas International Airlines, Inc	14 CFR 141.33(a)(3), 141.35 (d) and (e), 141.79(a), and 141.81(a).	To use chief flight and ground instructors and line flight and ground instructors for courses of training conducted under Part 141 when these instructors do not hold the required instructor certificates and/or do not have the required ground instruction experience in a certificated pilot school.
18109	Airborne Express, Inc	14 CFR 121.371(a) and 121.378	To extend exemption 2581A which allows the functions specified in those sections to be completed for petitioner on their Caravelle SE-210-6R airplanes by foreign manufacturers and air repair agencies when the maintenance is performed outside the U.S.
20868	Texas International Airlines	14 CFR 121.391	To amend exemption 3138 which allows petitioner to use two flight attendants aboard its DC-9-30 airplanes configurated with 115 passenger seats when 15 passenger seats are blocked from use when a third flight attendant becomes ill or injured and another cannot be made available. The petitioner requests that the limitation or condition, required in the previous exemption, be changed which only allows the operation with blocked seats due to mechanical irregularities where additional flight attendants cannot be replaced without more than a 2-hour delay or flight cancellation. Petitioner requests that a change be made to allow operation with blocked seats when a flight attendant cannot be replaced without undue delay or flight cancellation.
21573	Key Airlines	14 CFR 121.61(d)	To allow petitioner to employ Mr. Joseph D. Malognino as their Chief Inspector although he does not have the 1 year of required experience as a maintenance inspector.
21632	California Amphibious Transport (CAT)	14 CFR Parts 91 and 135	Topermit petitioner to conduct visual flight rule day operations under its Part 135 certificate in the uncontrolled airspace between Long Beach, Calif., and Pebbly Beach, Santa Catalina Island, Calif., with a minimum ceiling and visibility of 500 feet and 1 mile and when the ceiling is at or near 500 feet and the operation is conducted with a seaplane or amphibian down to a minimum overwater altitude of 300 feet above the surface. Relief was also requested for operations of CAT's Grumman airplanes without thunderstorm detection equipment over these same routes.

Dispositions of Petitions for Exemptions

Docket No	Petitioner	Regulations affected	Description of relief sought disposition
21554	Caribbean Int'l Airlines, Inc	14 CFR 135.171(a)	To allow petitioner to operate DC-3 airplanes without an approved shoulder harness installed for each flight crewmember station. *Granted 5/18/81.*
21358	Christropher J. Siderwicz	14 CFR 61.151(a)	To permit petitioner to obtain an Airline Transport Pilot's Certificate before reaching his 23rd birthday. *Denied 5/20/81.*
21527	Trans World Airlines (TWA)	14 CFR 121.291(a)(2)	To permit TWA to increase the full-seating capacity of its B-727-100 airplanes from 102 to 116 passengers and to commence operation with a 116-passenger-seating capacity aircraft without first conducting a full-seating capacity emergency evacuation demonstration. *Granted 5/21/81.*
21549	Aerostar	14 CFR 121.291 (a)(1) and (b)	To permit petitioner to initially introduce B-727-25 airplanes into passenger-carrying operations without first conducting a full-seating capacity emergency evacuation and ditching demonstration. *Granted 5/21/81.*
21304	Ozark Air Lines, Inc	14 CFR 121.291(a)	To permit petitioner to increase the seating capacity of its DC-9-30 series aircraft from 100 to 110 passenger seats without first conducting a full-seating capacity emergency evacuation demonstration. *Granted 5/20/81.*
21550	Western Airlines	14 CFR 121.291(a)(2)(i) and Appendix D of Part 121.	To allow petitioner to increase the seating capacity of its Boeing 727-247 aircraft from 146 passengers to 160 passengers without conducting a full emergency evacuation demonstration. *Granted 5/12/81.*

Dispositions of Petitions for Exemptions—Continued

Docket No.	Petitioner	Regulations affected	Description of relief sought disposition
21342	Pacific Southwest Airlines	14 CFR 61.39 (a)(1) and (b)	To permit certain PSA flight crewmembers to take the flight test for an airline transport pilot certificate (ATPC) although more than 24 months have elapsed since they passed the required written test for that certificate. *Granted 5/20/81.*
20009	Leo Tew	14 CFR 121.383(c)	To permit him to continue to serve as a pilot in air carrier operations after having reached his 60th birthday. *Denied 5/20/81.*

[FR Doc. 81-16327 Filed 5-29-81; 8:45 am]

BILLING CODE 4910-13-M

Federal Highway Administration

Environmental Impact Statement: Baltimore County, Maryland

AGENCY: Federal Highway Administration (FHWA), DOT.

ACTION: Notice of Intent.

SUMMARY: The FHWA is issuing this notice to advise the public that an environmental impact statement is being prepared for the proposed extention of Maryland Route 702 in Baltimore County, Maryland.

FOR FURTHER INFORMATION CONTACT: Mr. Edward Terry, District Engineer, Federal Highway Administration, The Rotunda, Suite 220, 711 W. 40th Street, Baltimore, Maryland 21211. Telephone: 301/962-4010.

SUPPLEMENTARY INFORMATION: The FHWA, in cooperation with the Maryland State Highway Administration is preparing an environmental impact statement on a proposal to extend Maryland Route 702 from its present terminus at Old Eastern Avenue to Back River Neck Road in the vicinity of Turkey Point Road, a distance of about two miles. This highway improvement is considered necessary to relieve the severe current and projected traffic congestion on Back River Neck Road and to provide for safer and more efficient traffic patterns in the Back River Neck Peninsula.

There are four alternative currently under consideration. The first alternative is the do nothing. The second alternative involves upgrading portions of Back River Neck Road. The third and fourth alternatives consist of building an extention of Maryland Route 702 on new location. Both extention alternatives consist of four lane divided highways with partial control of access. They differ in the location at which they tie into Back River Neck Road.

An environmental assessment has been prepared for this project. Input was received from various individuals, agencies and organizations in the preparation of the assessment. Copies of the completed environmental assessment were distributed to these groups. A public hearing was held on December 11, 1980. No further formal scoping activities are planned; however, to ensure that all significant issues are addressed, comments are invited from all interested parties. Comments or questions should be addressed to the FHWA at the address provided above.

(Catalog of Federal Domestic Assistance Program Number 20.205, Highway Research, Planning and Construction. The provisions of OMB Circular No. A-95 regarding State and local clearinghouse review of Federal and federally assisted programs and projects apply to this program)

Issued on: May 22, 1981.

Emil Elinsky

Division Administrator, Baltimore, Maryland.

[FR Doc. 81-15991 Filed 5-29-81; 8:45 am]

BILLING CODE 4910-22-M

Environmental Impact Statement: Bernalillo County, New Mexico

AGENCY: Federal Highway Administration (FHWA), DOT.

ACTION: Notice of intent.

SUMMARY: The FHWA is issuing this notice to advise the public that an environmental impact statement will be prepared for a proposed highway project in Bernalillo County, New Mexico.

FOR FURTHER INFORMATION CONTACT:

Dewey O. Lonsberry, District Engineer, Federal Highway Administration, 117 U.S. Courthouse, Santa Fe, New Mexico 87503, Telephone: (505) 988-6255;

Donald Lepic, Technical Services Engineer, New Mexico State Highway Department, P.O. Box 1149, Santa Fe, New Mexico 87503, Telephone: (505) 983-0554 or

James Milton, Transportation Planner, Transportation Department, City of Albuquerque, P.O. Box 1293, Albuquerque, New Mexico 87103, Telephone: (505) 766-4700.

SUPPLEMENTARY INFORMATION: The FHWA, in cooperation with the New Mexico State Highway Department, will prepare an environmental impact statement (EIS) on a proposal to extend Juan Tabo Boulevard south to Wagon Train Drive in Albuquerque, New Mexico. The new roadway, which is approximately 1.6 miles in length, begins at Wagon Train Drive in S.E., extends northward across the Tijeras Arroyo, and terminates at Juan Tabo Boulevard S.E., south of La Puerta Avenue. Improvements in the corridor are considered necessary to provide adequate capacity for existing and projected traffic demands, avert future congestion, and accommodate the in-fill development of approximately 900 acres of undeveloped land.

Alternatives under consideration include taking no action and three alternative four-lane routes connecting Wagon Train Drive S.E. to Juan Tabo Boulevard S.E.

No formal scoping meeting is planned at this time. A public hearing will be scheduled upon completion of the draft EIS. A public notice will be given of the time and place of the hearing. The draft EIS will be available for public and agency review and comment prior to the public hearing.

To ensure that the full range of issues related to this proposal are addressed and all significant issues identified, comments and suggestions are invited from all interested parties. Comments or questions concerning this proposal and the EIS should be directed to the FHWA at the address provided above.

(Catalog of Federal Domestic Assistance Program Number 20.205, Highway Research, Planning, and Construction. The provisions of OMB Circular No. A-95 regarding State and local clearinghouse review of Federal and Federally assisted programs and projects apply to this program)

Issued on: May 21, 1981.

Dewey O. Lonsberry,

District Engineer, Santa Fe, New Mexico.

[FR Doc. 81-16006 Filed 5-29-81; 8:45 am]

BILLING CODE 4910-22-M

Environmental Impact Statement: Kosciusko County, Indiana

AGENCY: Federal Highway Administration (FHWA), DOT.

ACTION: Withdrawal of Notice of Intent.

SUMMARY: The FHWA is issuing this notice to advise the public that an environmental impact statement (EIS) will not be prepared for the proposed railroad grade separation of the North-South Conrail tracks on the eastern edge of the central business district in Warsaw, Indiana.

FOR FURTHER INFORMATION CONTACT: Mr. John Breitwieser, Staff Environmental Specialist, Federal Highway Administration, 575 North Pennsylvania Street, Room 254, Indianapolis, Indiana 46204, Telephone: 317/269–7481.

SUPPLEMENTARY INFORMATION: The FHWA Indiana Division issued a Notice of Intent, to prepare an EIS for the proposed railroad grade separation carrying the North-South Conrail tracks over Center Street on the eastern edge of the Warsaw central business district, on May 12, 1980 (45 FR 31248). FHWA is withdrawing that Notice at this time because the City of Warsaw, the project sponsor, has informed FHWA that it does not intend to continue any further discussion or consideration of the proposed railroad separation structure within the City of Warsaw at the present time because of the project impact on local businesses. A substitute project being proposed will retain the at-grade railroad crossing and provide for the widening of Center Street from Hickory Street to McKinley Street within the existing right-of-way. The revised project has been submitted as a Categorical Exclusion.

Questions concerning this proposed action should be directed to the FHWA at the address provided above.

(Catalog of Federal Domestic Assistance Program No. 20.205, (Highway Research, Planning and Construction). The provisions of OMB Circular A–95 regarding State and local clearinghouse review of Federal and Federally assisted programs and project apply to the program)

Issued on: May 22, 1981.

George D. Gibson, Jr.,

Division Administrator, Indianapolis, Indiana.

BILLING CODE 4910–22–M

VETERANS ADMINISTRATION

Lebanon National Cemetery, Lebanon, Ky.; Finding of No Significant Impact

The Veterans Administration (VA) has assessed the potential environmental impacts that may occur as a result of the acquisition and development of approximately two (2) acres of land located adjacent to and south of the existing 2.8± acre Lebanon National Cemetery. This land is being donated by Marion (KY) Post No. 49, Inc., American Legion for the purpose of cemetery expansion. Development of the new acreage will involve minor grading, landscapting and seeding or sodding. From a maintenance standpoint, the new area will be served by the existing cemetery driveway since the land is adjacent to the south property line. At the projected internment rate (50 per year), this expansion will provide an additional 1,200 gravesites and extend the active life of the cemetery beyond the year 2000. The total development cost budgeted for this project is $80,000, inclusive of contingencies, design services and inflation to the time of construction.

Since the project involves land donated to the VA by a non-government organization, no alternatives were available for consideration. The no-action alternative was not considered viable since the cemetery is scheduled to be closed to new internments in fiscal year 1982.

No impacts are expected as a result of the proposed cemetery expansion and land acquisition. The expansion of the existing 2.8± acre National Cemetery by an additional 2± acres (subject to VA survey) involves only minor earthwork (grading) and landscapting and, therefore, no effects are anticipated. Findings conclude the proposed action will not cause any significant adverse effects on the physical and human environment and, therefore, does not require the preparation of an Environmental Impact Statement. The significance of the potential impacts has been evaluated relative to both context and intensity, as defined by the Council on Environmental Quality (Title 40 CFR 1508.27). This Environmental Assessment has been performed in accordance with the requirements of the National Environmental Policy Act Regulations, §§ 1501.3 and 1508.9. A "Finding of No Significant Impact" has been reached based on the information presented in the assessment.

Mitigation incorporated into the project development will include actions to avoid temporary air quality degradation due to construction and to limit soil erosion. Construction contract documents will include specifications to avoid adverse environmental effects.

The assessment is being placed for public examination at the Veterans Administration, Washington, D.C. Persons wishing to examine a copy of the document may do so at the following office: Mr. Willard Sitler, P.E., Director, Office of Environmental Affairs (003A), Room 950, Veterans Administration, 1425 K Street, N.W., Washington, D.C., (202–389–2526). Questions or requests for single copies of the Environmental Assessment may be addressed to: Director, Office of Environmental Affairs (003A), 810 Vermont Avenue, NW., Washington, D.C. 20420.

Dated: May 22, 1981.

Rufus H. Wilson,

Acting Administrator.

SECURITIES AND EXCHANGE COMMISSION.

Notice is hereby given, pursuant to the provisions of the Government in the Sunshine Act, Pub. L. 94–409, that the Securities and Exchange Commission will hold the following meetings during the week of June 1, 1981, in Room 825, 500 North Capitol Street, Washington, D.C.

Closed meetings will be held on Tuesday, June 2, 1981, at 9:30 a.m. and on Wednesday, June 3, 1981, at 2:30 p.m.

The Commissioners, their legal assistants, the Secretary of the Commission, and recording secretaries will attend the closed meetings. Certain staff members who are responsible for the calendared matters may be present.

The General Counsel of the Commission, or his designee, has certified that, in his opinion, the items to be considered at the closed meetings may be considered pursuant to one or more of the exemptions set forth in 5 U.S.C. 552b(c)(4)(8)(9)(A) and (10) and 17 CFR 200.402(a)(4)(8)(9)(i) and (10).

Chairman Shad and Commissioners Evans and Thomas determined to hold the aforesaid meetings in closed session.

The subject matter of the closed meeting scheduled for Tuesday, June 2, 1981, at 9:30 a.m., will be:

Report of investigation.

The subject matter of the closed meeting scheduled for Wednesday, June 3, 1981, at 2:30 p.m., will be:

Litigation matter.
Access to investigative files by Federal, State, or Self-Regulatory authorities.
Freedom of Information Act appeals.
Formal order of investigation.

At times changes in Commission priorities require alterations in the scheduling of meeting items. For further information and to ascertain what, if any, matters have been added, deleted or postponed, please contact: Bruce Mendelsohn at (202) 272–2091.

May 28, 1981.

TENNESSEE VALLEY AUTHORITY. [Meeting No. 1267]

TIME AND DATE: 10:15 a.m. (e.s.t.), Thursday, June 4, 1981.

PLACE: Conference Room B–32, West Tower, 400 Commerce Avenue, Knoxville, Tennessee.

STATUS: Open.

Old Business Item

1. Final rate review.

New Business Items

A—Project Authorizations

1. Project Authorization No. 3563—Install a siren system within the 10-mile emergency planning zone at Browns Ferry Nuclear Plant.
2. Project Authorization No. 3564—Modifications for long-term torus integrity program at Browns Ferry Nuclear Plant.
3. Project Authorization No. 3549—Nonconvecting solar pond test and evaluation.

B—Purchase Awards

1. Req. No. 828798—Lower miter gate for Pickwick Landing.
2. Req. No. 829090—Installation of insulation at Johnsonville Fossil Plant.
3. Amendment to Contract Nos. 73C60–75210 and 75K60–84840–1 between TVA and General Electric Company covering additional design work for the Hartsville and Phipps Bend Nuclear Plants.

C—Power Items

1. Adoption of supplemental resolution authorizing 1981 Series C Power Bonds.
2. Resolution authorizing the Chairman and other Executive Officers to take further action relating to issuance and sale of 1981 Series C Power Bonds.
- *3. Agreement between Hunt-Wesson Foods, Inc., City of Memphis, Tennessee, and TVA covering the purchase, by TVA, of cogenerated power.
4. Standard-form agreements to amend existing Home Insulation and Heat Pump agreements with distributors.

D—Personnel Items

- *Change of status for Charles C. Mason from Acting Power Plant Superintendent, to Power Plant Superintendent, Watts Bar Nuclear Plant, Division of Nuclear Power, Office of Power, Spring City, Tennessee.
2. Filling of critical-sensitive position of Assistant General Manager by Frank R. Holland pending completion and evaluation of a full field security investigation.
3. Renewal of consulting contract with Stanley D. Wilson, Seattle, Washington, for services in connection with geotechnic and foundation engineering (requested by the Office of Engineering Design and Construction).
4. Renewal of personal services contract with CDI Corporation, Philadelphia, Pennsylvania, for engineering support services (requested by the Office of Engineering Design and Construction).
5. Amendment to personal services contract with Institute for Resource Management, Inc., Annapolis, Maryland.

---

*Items approved by individual Board members This would give formal ratification to the Board's action.

for the services of health physics technicians at TVA nuclear plants (requested by the Office of Management Services).

6. Amendment to personal services contract with Wyle Laboratories, Huntsville, Alabama, for engineering and related services (requested by the Office of Power).

E—Real Property Transactions

1. Abandonment of deed covenant affecting approximately 0.3 acre of Chickamauga Reservoir land—Tract No. XCR-167.
2. Abandonment of easement rights affecting approximately 9.8 acres of Fort Loudoun Reservoir land located in Knox County, Tennessee, Tract Nos. FL-1267F, FL-1268F, FL-1269F, and FL-1270F.
3. Designation of approximately 121.7 acres of land acquired for a steam plant site in Bell County, Kentucky, as surplus and for sale at public auction—Tract Nos. XPGSP-2, XPGSP-3, XPCSP-4, XPGSP-5, and XPGSP-6.
4. Designation of approximately 121 acres of Kentucky Reservoir land in Humphreys County, Tennessee, as surplus and for sale at public auction for industrial purposes—Tract No. XGIR-901.
5. Filing of condemnation suits.

F—Unclassified

1. Final TVA regulation under the Age Discrimination Act of 1975.
2. Delegation of authority to clarify, modify; and amend certain instruments conveying land to public entities and others under the TVA Act.

CONTACT PERSON FOR MORE INFORMATION: Craven H. Crowell, Jr., Director of Information, or a member of his staff can respond to request for information about this meeting. Call (615) 632-3247, Knoxville, Tennessee. Information is also available at TVA's Washington Office (202) 245-0101.

Dated: May 28, 1981.

Part II

Department of Transportation

Research and Special Programs Administration

Use of United Nations Shipping Descriptions

DEPARTMENT OF TRANSPORTATION

Research and Special Programs Administration

49 CFR Part 172

[Docket No. HM-171; Amdt. No. 68]

Use of United Nations Shipping Descriptions

AGENCY: Materials Transportation Bureau (MTB), Research and Special Programs Administration, DOT.

ACTION: Final rule.

SUMMARY: This document publishes a revised version of the Optional Hazardous Materials Table which appears in 49 CFR 172.102. The revision has been necessitated by a number of changes to the Inter-Governmental Maritime Consultative Organization (IMCO) International Maritime Dangerous Goods Code (IMCO Code) upon which the optional table is based. These amendments have been published by IMCO as Amendments 17–79 and 18–79 to the IMCO Code. The purpose of the revision of the Optional Hazardous Materials Table is to maintain alignment between that table and the corresponding provisions of the IMCO Code, in order to insure that the import and export of hazardous materials will not be adversely affected by potentially conflicting and duplicative requirements for the description, classification, labeling and marking of hazardous materials. Since the use of the Optional Hazardous Materials Table is, as the name implies, an option, this rule will not impose an undue burden on persons affected by the regulations.

EFFECTIVE DATE: June 1, 1981.

FOR FURTHER INFORMATION CONTACT: Edward A. Altemos (202–426–0656), Office of Hazardous Materials Regulation, Materials Transportation Bureau, Department of Transportation, 400 Seventh Street, S.W., Washington, D.C. 20590. Office hours are from 8:00 a.m. to 4:30 p.m., Eastern time, Monday through Friday.

SUPPLEMENTARY INFORMATION: The purpose of the Optional Hazardous Materials Table is to facilitate the international transportation of hazardous materials and to minimize a duplicity of package marking and labeling requirements, and shipping paper descriptions, that would be required to comply with both domestic and international standards. In order to satisfy this intent, it is essential that the Optional Hazardous Materials Table be maintained in alignment with the provisions of the applicable international standards.

The Optional Hazardous Materials Table, in its present form, is reflective of the provisions of the IMCO Code including all amendments through Amendment 16–78. Recently, IMCO published Amendments 17–79 and 18–79 to the IMCO Code, and established June 1, 1981, as the world-wide implementation date for these amendments. Consequently, the MTB is revising the Optional Hazardous Materials Table to maintain the necessary alignment with the IMCO Code and is establishing June 1, 1981, as the effective date for revision of the table.

Amendments 17–79 and 18–79 to the IMCO Code include changes to or deletion of approximately 360 existing hazardous materials entries and the addition of approximately 260 new entries. Because of the optional nature § 172.102, as well as the large number of changes necessitated by the recent IMCO amendments (many of which are minor in nature), the MTB does not consider it necessary to itemize each change being made to the Optional Hazardous Materials Table. However, to facilitate identification of new or modified entries, such entries have been identified by the inclusion of an asterisk (*) in Column (1) of the table. A copy of the amended optional table has been provided to the Association of American Railroads for use in their efforts to develop a hazardous materials table which consolidates the tables currently appearing in §§ 172.101 and 172.102.

Since this rule does not impose mandatory additional requirements, notice and procedure thereon are considered unnecessary.

PART 172—HAZARDOUS MATERIALS TABLES AND HAZARDOUS MATERIALS COMMUNICATIONS REGULATIONS

In consideration of the foregoing, the Optional Hazardous Materials Table in § 172.102 of Title 49, Code of Federal Regulations, is revised to read as follows:

§ 172.102 Purpose and use of optional hazardous materials table for international shipments.

BILLING CODE 4910-60-C

Note.—The Materials Transportation Bureau has determined that, since this rule does not impose additional requirements and should have the net result of reducing costs and duplicative regulatory burdens, this document will not result in a "major rule" under the terms of Executive Order 12291, nor is it a "significant regulation" under DOT's regulatory policy and procedures (44 FR 11034). Furthermore, this rule does not require an environmental impact statement under the National Environmental Policy Act (49 U.S.C. 4321 et seq.). A regulatory evaluation and an environmental assessment are available for review in the docket.

Issued in Washington, D.C., on May 20, 1981.

L. D. Santman,

Director, Materials Transportation Bureau.

DEPARTMENT OF JUSTICE

Office of Juvenile Justice and Delinquency Prevention

28 CFR Part 31

Formula Grants for Juvenile Justice

AGENCY: Office of Juvenile Justice and Delinquency Prevention, Justice.

ACTION: Proposed regulations: request for public comment.

SUMMARY: The Office of Juvenile Justice and Delinquency Prevention (OJJDP) is publishing for public comment proposed regulations to implement the formula grant program authorized by Part B of the Juvenile Justice and Delinquency Prevention Act of 1974, as amended by the Juvenile Justice Amendments of 1980 (Pub. L. 96–509, December 8, 1980).

The Juvenile Justice Amendments of 1980 reauthorize and modify the Federal assistance program to State and local governments and private not-for-profit agencies for juvenile justice and deliquency prevention improvements. These proposed regulations implement the statutary changes instituted by the new legislation including the streamlining of state plan requirements, establishing a simple 3-year plan, providing a new requirement for removal of juveniles from adult jails and lock-ups, additional emphasis to the problem of juveniles who commit serious crimes, and a focus on the use of resources to maintain and strengthen the family unit. The proposed regulations detail procedures and requirements for formula grant applications under the revised Act. Additional requirements for grant administration and fund accounting are set forth in the Office of Justice Assistance, Research, and Statistics, Financial and Administrative M 7100.1B, October 31, 1980.

Although the Administration has recommended no budget for fiscal year 1982, the final outcome concerning the future of the program is uncertain. Because the work on these draft regulations has been completed, there is no reason to delay receiving public comment.

DATE: Comments are due on or before July 15, 1981. All comments will be considered in the publication of the final regulations. OJJDP invites comments particularly on § 31.703(h)(4).

ADDRESS: Send all comments to David D. West, Director, Formula Grants and Technical Assistance Division, OJJDP, 633 Indiana Avenue NW., Washington, D.C. 20531.

FOR FURTHER INFORMATION CONTACT: Frank M. Pórpötäge, II, Formula Grants and Technical Assistance Division, OJJDP, 633 Indiana Avenue NW., Washington, D.C. 20531; telephone 202/724–5911.

SUPPLEMENTARY INFORMATION: This announcement does not constitute a "major" rule as defined by Executive Order 12291 because it does not result in: (a) an effect on the economy of $100 million or more, (b) a major increase in any costs or prices, or (c) adverse effects on competition, employment, investment, productivity, or innovation among American enterprises.

This proposed rule, if promulgated, will not have "significant" economic impact on a substantial number of small "entities", as defined by the Regulatory Flexibility Act (Pub. L. 96–354).

Accordingly, it is proposed to amend 28 CFR Part 31 to read as follows:

PART 31—FORMULA GRANTS

Subpart A—General Provisions

Sec.

31.1 General.
31.2 Purpose of program.
31.3 Statutory authority.
31.4 Research and statistics.
31.5 Submission date.
31.6 Further information.

Subpart B—Eligible Applicants

31.100 General.
31.101 State government.

Subpart C [Reserved]

Subpart D [Reserved]

Subpart E [Reserved]

Subpart F—Additional Requirements

31.500 General.
31.501 Juvenile justice maintenance of effort.
31.502 Audit.
31.503 Civil rights.
31.504 Open meetings and public access to records.

Subpart G [Reserved]

Subpart H—Juvenile Justice

31.700 General.
31.701 Fund availability.
31.702 Applicant state agency.
31.703 Substantive requirements.
31.704 Definitions.

Subpart I—General Conditions and Assurances

31.800 Compliance with statute.
31.801 Compliance with other Federal laws, orders, circulars.
31.802 Application on file.
31.803 Non-discrimination.
31.804 Lobbying.
31.805 Applicability.

Authority: Juvenile Justice and Delinquency Prevention Act of 1974, as amended (42 U.S.C. 5601 et seq.).

Subpart A—General Provisions

§ 31.1 General.

This Part defines eligibility and sets forth requirements for application for and administration of formula grants to State governments authorized by Part B, Subpart I, of the Juvenile Justice and Delinquency Prevention Act. These regulations simplify the application process, reduce paperwork, and emphasize the submission of certifications and assurances, rather than detailed and voluminous applications.

§ 31.2 Purpose of program.

This program allocates monies among the States by formula to undertake juvenile justice improvement efforts in accord with broad statutorily-specified purposes. States and localities have discretion to determine priorities and propose programs and projects based on analysis of their needs and problems.

§ 31.3 Statutory authority.

The statute establishing the Office of Juvenile Justice and Delinquency Prevention and giving authority to make grants for juvenile justice and delinquency prevention improvement programs is the *Juvenile Justice and Delinquency Prevention Act of 1974*, as amended (42 U.S.C. 5601 et seq.). Formula grants are authorized to States which in turn make subgrants for use by State and local public and private agencies in carrying out juvenile justice and delinquency prevention improvement programs. Complete application requirements for this grant program are detailed in Subpart H of this Regulation. In addition to formula grants, the Juvenile Justice and Delinquency Prevention Act authorizes a major national-level categorical grant program called:

Special Emphasis Grants. (Part B, Subpart II, of the Juvenile Justice and Delinquency Prevention Act). These grants provide assistance to public and private agencies for juvenile justice demonstration and improvement programs. Information and application requirements for these related grant program may be be obtained or requested from OJJDP's Special Emphasis Division.

§ 31.4 Research and statistics.

The Juvenile Justice and Delinquency Prevention Act authorizes programs of juvenile justice statistics and research. These programs are administered by the National Institute of Juvenile Justice and Delinquency Prevention (NIJJDP).

§ 31.5 Submission date.

Juvenile Justice Plans for Fiscal Year 1982 shall be submitted to the OJJDP by August 31, 1981.

§ 31.6 Further information.

Persons requesting additional information about OJJDP programs should contact: Office of Juvenile Justice and Delinquency Prevention, U.S. Department of Justice, 633 Indiana Avenue NW., Washington, D.C. 20531.

Subpart B—Eligible Applicants

§ 31.100 General.

This subpart describes who may apply for formula grants under the Juvenile Justice and Delinquency Prevention Act and the general responsibilities and functions of applicants.

§ 31.101 State government.

All States are eligible to apply for and receive formula grants authorized by the Juvenile Justice and Delinquency Prevention Act. States are defined to include the District of Columbia, the Commonwealth of Puerto Rico, the Virgin Islands, Guam, American Samoa, the Trust Territory of the Pacific Islands, and the Commonwealth of the Northern Mariana Islands.

(a) *Establishment of State Criminal Justice Council.* Each state which chooses to apply for a formula grant may establish or designate by law a State Criminal Justice Council. This Council must be subject to the jurisdiction of the State's chief executive. The chief executive of the State shall provide professional, technical and clerical support to the Council to enable it to meet its responsibilities under the Act. (sec. 402(b) of the Justice System Improvement Act and sec. 223(a)(1) of the JJDP Act):

(1) *Membership.* (i) Membership requirements are set forth in Section 402(b)(2) of the Justice System Improvement Act.

(ii) States participating in the formula grant program of the Juvenile Justice and Delinquency Prevention Act, must include on the Council the chairperson and at least two additional citizen members of any advisory group established pursuant to sec. 222(a)(3) of that Act. For purposes of this requirement a citizen member is defined as any person who in not a fulltime government employee or elected official. Any executive committee of the Council must include the same proportion of juvenile justice advisory group members as are included in the total Council membership.

(iii) Individual representatives may fulfill the requirements of more than one functional or geographical area where appropriate to the background and expertise of the individual. Federal representation is prohibited except in the District of Columbia, American Samoa, Guam, the Virgin Islands, the Trust Territory of the Pacific Islands, and the Commonwealth of the Northern Mariana Islands.

(2) *Council Functions.* The councils have the basic responsibility for supervising the preparation and administration of each State's Juvenile Justice Act plan. An enumeration of Council functions is set forth in sec. 402(b)(1) of the Justice System Improvement Act.

(3) *Assurance.* States must assure that they have on file and available for review a copy of the state law establishing the Council, and a current list of Council membership that includes information adequate to document compliance with Council representation requirements.

(b) *Alternative State Level Administrative Structure.* Pursuant to sec. 261(c) of the JJDP Act, the Administrator, in his discretion, may determine that sufficient funds have not been appropriated for the activities authorized in Part D of Title I of the Onmibus Crime Control and Safe Streets Act of 1968, as amended by the Justice System Improvement Act of 1979, and is authorized to:

(1) Approve any appropriate State agency designated by the Governor of the State involved as sole agency responsible for supervising the preparation and administration of the State Plan submitted under section 223; and

(2) Establish appropriate administrative and supervisory board membership requirements for any such agency designated by the Governor under sub-paragraph (1) above and permit the State Advisory Group appointed under sec. 223(a)(3) to operate as the supervisory board for such agency, at the discretion of the Governor.

(3) *Approval Action by Administrator.* (i) A State that wishes to transfer responsibility of the formula grant program from the CJC to another State agency or to modify the composition of the Supervisory board from that which is currently required by law, or both, must submit a request in writing to the OJJDP Administrator which states the rationale for and intent of the governor to designate an agency other than the CJC to administer the program. This request should be submitted to OJJDP prior to designation.

(ii) In approving or disapproving a governor's designation of an appropriate State agency, the OJJDP Administrator will necessarily consider, on a case-by-case basis, the capacity of the designated agency to administer the juvenile justice program to develop the juvenile justice plan; to process grant applications submitted under the juvenile justice plan; to administer grant awarded under the juvenile justice plan; to monitor and evaluate program and projects; to provide necessary administrative/support services; and to perform such accountability functions as are necessary for the administration of Federal funds generally, such as close-out of grants and audit of funds. In the case of the governor's designation of an operating agency that is a significant (i.e., over 10% of total funds) current or potential recipient or user of formula grant funds to carry out its operational responsibilities, the request must demonstrate that the agency's supervisory board will have full policy making authority, including determinations of proper allocations of funds and grant approval, and will be independent of the administrative structure of the operational agency.

(iii) A State that wishes to establish a supervisory board for the CJC agency or a newly designated State agency which will have a composition different from that which is currently required, may designate the State advisory group to perform that function for the formula grant program. Any other composition change proposal will be reviewed to determine whether a "balanced representation" of juvenile justice interests has been provided.

Subpart C [Reserved]

Subpart D [Reserved]

Subpart E [Reserved]

Subpart F—Additional Requirements

§ 31.500 General.

This subpart sets forth additional requirements under the Justice System Improvement Act (JSIA) of 1979 applicable to formula grant recipients under the JJDP Act of 1974, as amended. Applicants must assure compliance or submit necessary information on these requirements.

§ 31.501 Juvenile justice maintenance of effort.

States must expend at least 19.15 percent of their total annual Part D allocation under the JSIA for juvenile justice and delinquency prevention

related programs and projects. States may expend more than this required minimum at their discretion. States must assure that at a minimum they have allocated 19.15 percent of their JSIA formula grant funds for planning and administrative activities for juvenile justice. Prior OJJDP approval is necessary for any reprogramming of Part D funds out of juvenile justice. OJJDP should be notified of any reprogramming that increases the maintenance of effort level of a specific state.

§ 31.502 Audit.

(a) *Policy.* Pursuant to the JSIA and OMB Circulars A–102 and A–110, as revised, it is OJJDP policy that the audit function is primarily the responsibility of the recipients and subrecipients of Federal funds. Further in accordance with the Act and circulars A–102 and A–110, it is OJJDP policy that:

(1) The State and each of its subgrantees must arrange for and have an audit of its activities. These audits are to determine whether:

(i) Financial operations are conducted properly;

(ii) The financial statements are presented fairly;

(iii) The organization has complied with laws and regulations affecting the expenditure of Federal funds;

(iv) Internal procedures have been established to meet the objectives of federally assisted programs; and

(v) Financial reports to the Federal Government contain accurate and reliable information.

(2) Audits shall be made in accordance with the General Accounting Office Standards for Audit of Governmental Organizations, Programs, Activities and Functions, the Guideline for Financial and Compliance Audits of Federally Assisted Programs, compliance supplements approved by OMB, and generally accepted auditing standards established by the American Institute of Certified Public Accountants.

(3) Audits of the State and each of its subgrantees will be made on an organization-wide basis (entity audits) and not on a grant-by-grant basis.

(4) Audits of the State and each of its subgrantees will usually be made annually, but not less frequently than every two years. Audits will cover the period since the previous audit.

(5) Audit reports, in accordance with GAO reporting standards and applicable requirements in OMB Circulars A–102 and A–110, will be prepared and issued in connection with all audit work. Procedures will be established to ensure the timely and appropriate resolution of the audit findings and recommendations contained in those reports.

The "Financial and Administrative Guide for Grants" Manual, Guideline M 7100.13, Chapter 8, contains a more comprehensive statement of audit policies and requirements relative to grantees and subgrantees.

(b) *Background.* Uniform administrative requirements can be found (contractors, etc.) in OMB Circulars A–102, revised, "Uniform Administrative Requirements for Grants-In-Aid to State and Local Governments" and A–110, revised, "Grants and Agreements with Institutions of Higher Education, Hospitals and Other Non-Profit Organizations—Uniform Administrative Requirements". Attachments G and P of Circular A–102 and Attachment F of Circular A–110 specify the audit responsibilities included in these administrative requirements for grantees, subgrantees and subrecipients. Accordingly, the audit responsibilities of all recipients of funds are those specifically established in the JSIA and the referenced Attachments to OMB Circulars A–102 and A–110.

(c) *Application Requirement.* Regarding the audit responsibilities applicable to the State Council and each of its subgrantees, the following must be submitted as part of the State application.

(1) *State Council.* The application must describe the procedures and controls to ensure that:

(i) An audit is performed of the State Council or alternative state agency in accordance with the requirements of OMB Circular A–102. The application must indicate the organization that will conduct the audit of the Council, the approximate timing of audit performance and completion, the audit coverage to be provided including the period of activity to be included, and the assistance, both programmatic and audit, requested.

(ii) An audit report is issued in connection with the State Council audit and three (3) copies are forwarded to the appropriate Federal cognizant audit agency, where assigned, or the Department of Justice Audit Office if none is assigned.

(iii) There is a timely and appropriate resolution of all audit findings and recommendations contained in the audit report of the State Council.

(2) *State Council Subgrantee Audits.* The State application must describe the policy, procedures and control established by the State Council to ensure each of its subgrantees satisfies the audit requirements. The procedures and controls must include:

(i) Clear notification to all applicants of the audit requirements.

(ii) A mechanism for ensuring that subgrantees explicitly agree to comply with the audit requirements (special or general conditions, specific commitment in the application, etc.).

(iii) A mechanism for determining that subgrantees audits are due or coming due, that necessary audits have been done and that corrective action is appropriately initiated for instances of subgrantees noncompliance with audit responsibilities.

(iv) A control for ensuring that audit reports are prepared upon completion of each subgrantee audit and forwarded to the appropriate Federal cognizant audit agency, where assigned, or to the Department of Justice Internal Audit Office, if none is assigned.

(v) A control for ensuring that subgrantees have a system for the timely and appropriate resolution of all audit findings and recommendations.

§ 31.503 Civil Rights.

(a) *Applicability.* The State must assure that it will comply, and require other applicants located within its State to assure that they will comply, with the following nondiscrimination laws:

(1) Section 815(c) of the Justice System Improvement Act (JSIA), and its implementing regulations, found at 28 CFR 42.201, et seq. and 28 CFR 42.301, *et seq.;*

(2) Title VI of the Civil Rights Act of 1964, and its implementing regulation, found at 28 CFR 42.101, *et seq.;*

(3) Section 504 of the Rehabilitation Act of 1973, as amended; and its implementing regulations, found at 28 CFR 42.501 *et seq.;*

(4) Age Discrimination Act of 1975, as amended;

(5) Executive Order 12138, 44 FR 29637 (May 22, 1979), requiring recipients of federal financial assistance to take appropriate affirmative action in support of women business enterprise; and

(6) Title IX, section 901 of the Educational Amendments of 1972 (Pub. L. 92–318).

(b) *Designation of Civil Rights Compliance Officer.* The State Council shall designate an employee as Civil Rights Compliance Officer. This officer shall:

(1) Secure the assurances listed in § 31.503(a) in every application for assistance under the JJDP Act;

(2) Require that each state or local unit of government assure in its application that, in the event a Federal or State Court or Federal or State

administrative agency makes a finding of discrimination on the basis of race, color, religion, sex or national origin against the recipient after a due process hearing, the recipient will forward a copy of the finding to the Council and the OJARS Office of Civil Rights Compliance (OCRC) within ten (10) days after receipt of the finding;

(3) Require that every applicant required to formulate an Equal Employment Opportunity Program (EEOP) in accordance with 28 CFR 42.301 *et seq.*, submit a certification to the State Grantee that it has an EEOP on file;

(4) Require that every criminal justice agency applying for a grant of $500,000 or more submit a copy of its EEOP (if required to maintain one under 28 CFR 42.301, *et seq.*) to OCRC at the same time it submits its application to the State;

(5) Where the Council is required to formulate an EEOP pursuant to 28 CFR 42.301 *et seq.*, submit the EEOP with the formula grant application, if the application is for $500,000 or more; and

(6) Serve as liaison with the OJARS Office of Civil Rights Compliance (OCRC). The officer's duties in this regard include informing the public and grantees of an affected person's right to file a complaint of discrimination to OCRC for investigation, and cooperating with OCRC during compliance reviews of recipients located within the State.

§ 31.504 Open meetings and public access to records.

Pursuant to section 402(e)(2), of the JSIA, State Councils, State Advisory Groups and local criminal justice advisory boards must assure that meetings are open to the public and must give public notice of the time and place, and the nature of the business to be transacted, if final action is to be taken on any application for funds or amendment. Further, they must assure public access to all records relating to their functions, except those required to be kept confidential by local, state or Federal law.

Subpart G [Reserved]

Subpart H—Juvenile Justice

§ 31.700 General.

(a) The Juvenile Justice and Delinquency Prevention Act provides formula grants to States for use by State and local government and private non-profit agencies in carrying out juvenile justice improvement programs. This subpart sets forth specific requirements for application and receipt of JJDP Act formula grants.

(b) Applications to be submitted by the states must provide for a three year plan submission with annual program updates, performance reports, and a description of the State's status in terms of compliance with statutory plan requirements. In addition, the State plan format for fiscal year 1982 is revised to include a juvenile crime analysis, a plan for the coordination of all State juvenile delinquency programs, and a plan for the removal of juveniles from adult jails. Application forms and additional information will be provided in OJJDP's "Application Kit for Formula Grants under the JJDPA."

(c) The State application must include programs for the improvement of juvenile justice or the development of delinquency prevention programs funded with JJDP Act formula funds. Programs shall be described in accordance with the standard format set forth in section 703(i)(3). Information to comply with other statutory requirements shall also be included and submitted in the multi-year plan. In many cases a certified assurance will be required thus eliminating the need for voluminous documentation to be submitted. The annual application for fiscal years 1983 and 1984 will require limited information.

§ 31.701 Fund availability.

(a) *Allocation to States.* Each State receives a base allotment of $225,000 except for the Virgin Islands, Guam, American Samoa, the Trust Territory of the Pacific Islands and the Commonwealth of the Northern Mariana Islands where the base amount is $56,250. Funds are allocated among the States on the basis of relative population under 18 years of age.

(b) *Funds for Local Use.* At least two-thirds of the formula grant allocation to the State must be used for programs *by local government,* or local private agencies unless the State applies for and is granted a waiver by the Office of Juvenile Justice and Delinquency Prevention.

(c) *Match.* Formula grants under the JJDP Act shall be 100% of approved costs, with the exception of planning and administration funds which must be matched dollar for dollar. Construction projects, funded under section 227(a)(2), require a 50% cash match.

(d) *Funds for Administration.* Not more than 7.5% of the total annual formula grant award may be utilized to develop the annual juvenile justice plan and pay for administrative expenses, including project monitoring and evaluation. These funds are to be matched on a dollar for dollar basis. The State shall make available needed funds for planning and administration to units of local government or combinations on an equitable basis. Each annual application must identify uses of such funds.

§ 31.702 Applicant state agency.

(a) Pursuant to section 223(a) and (2) of the JJDP Act, the State Council or other state agency designated in accordance with section 261(c) shall assure that it is the sole agency for supervising the preparation and administration of the plan and has the authority to implement the plan.

(b) The Chief Executive shall establish a Juvenile Justice Advisory Group pursuant to section 223(a)(3) of the JJDP Act. A duly appointed SAG must have the opportunity to review and comment on all grant applications. The State shall, as part of the juvenile justice plan:

(1) Provide a list of all current advisory group members, indicating their respective dates of appointment and how each member meets the membership requirements specified in this Section of the Act. The size of the State Advisory Group shall not be less than fifteen (15) members nor more than thirty-three (33).

(2) Indicate those members appointed prior to their 24th birthday as youth members. At least one-fifth of the total membership must be under the age of 24 at the time of their appointment. Full-time elected officials considered to be government employees and may not be appointed to chair advisory groups. Locally elected officials, persons elected to public office for a local unit of government, must be included in the membership.

(3) Assure that three members who have been or are now under the jurisdiction of the juvenile justice system have been appointed to the advisory group.

(4) Indicate the roles, responsibilities and activities of the advisory group concerning those duties listed in section 223(a)(3) of the Act. The advisory group must contact and seek regular input from juveniles currently under the jurisdiction of the juvenile justice system. The advisory group is required to make annual recommendations to the governor and the State legislature.

(c) Pursuant to section 222(d) of the JJDP Act, the advisory group shall develop a plan for using the five percent minimum allotment. Upon review by the State, the plan shall be submitted as part of the application. The State shall indicate the total amount of funds allocated to the advisory group. For computing that allotment, use the following procedures:

(1) Each State shall allocate a minimum of $11,250; the Virgin Islands, Guam, American Samoa, Trust Territories of the Pacific Islands, and the Commonwealth of the Northern Marianas shall allocate $2,812.50. Do not count these funds as part of the maximum 7½% monies set aside for planning and administration. Calculate the latter on the total formula grant award.

(2) Use funds allocated to the advisory groups for such purpose functions and responsibilities set forth in (as are consistent with the) section 223(a)(3) of the JJDP Act. Funds allocated to the advisory group shall not supplant any funds currently allocated to them.

§ 31.703 Substantive requirements.

(a) *Consultation with and Participation of Units of General Local Government.* Pursuant to sections 223(a)(4) and (6) of the JJDP Act, the state shall assure that:

(1) The Chief Executive Officer of such a unit has assigned responsibility for the preparation and administration of its part of the State application.

(2) The State recognizes, consults with, and incorporates the needs of such units into the State application.

(b) *Participation of Private Agencies.* Pursuant to section 223(a)(9) of the JJDP Act, the state shall assure that private agencies have been consulted and allowed to participate in the development and execution of the state application.

(c) *Pass-Through Requirement.* Pursuant to section 223(a)(5) of the JJDP Act, the State must pass through at least 66⅔% of JJDP formula grant funds to units of general local government and to local private agencies unless a waiver is requested by the State and approved by OJJDP. For purposes of this requirement, local private agency is defined as a private non-profit agency or organization that provides program services within an identifiable unit or a combination of units of general local government.

(1) *Inclusion and Compilation of Pass-Through*

(i) Juvenile justice formula grant funds that the State makes available to units of general local governments or combination of units may be included in the compilation of pass-through. This includes funds for planning and administration as well as for programs.

(ii) If a unit of general local government or a combination of units has denied funding to a private agency, yet that agency received formula grant funds for programs consistent with the State application, then include those funds in the compilation of pass-through. In States lacking regional or local planning units, and in which the State distributes funds directly, a private agency need not first apply to a unit of general local government or a combination of units for funding. Those funds can also be included in the compilation of pass-through. In addition, if a unit of general local government or a combination of units receives pass-through funds from the State and, in turn, refuses to fund a project submitted by a private agency, the State can reduce the local allocation if it funds the project.

(2) *Waiver of Pass-Through Requirements.* State Councils shall make all requests for waivers in writing to the Administrator of OJJDP and enclose a statement setting forth the following:

(i) The extent of State and local implementation of juvenile justice and delinquency prevention programs.

(ii) The extent of State and local financial responsibility for juvenile delinquency programs.

(iii) The extent to which the State provides services or directs outlays for or on behalf of local government (as distinct from statewide services).

(iv) The approval of the State Criminal Justice Council's or Alternative State Agency's Supervisory Board.

(v) Specific comments from local units of government expressing their position regarding the waiver.

(d) *Rights of Privacy of Recipients of Services.* (1) Pursuant to section 223(a)(17) and 229 of the JJDP Act, the State shall assure that it has established procedures to ensure that programs funded under the JJDP Act shall not disclose program records containing the identity of individual juveniles. Exceptions to this require:

(i) Authorization by law;

(ii) The consent of either the juvenile or his legally authorized representative; or

(iii) Justification that otherwise the functions of this title cannot be performed.

(2) Under no circumstances may public project reports or findings name actual juveniles in the program.

(e) *Deinstitutionalization of Status Offenders and Non-offenders.* Pursuant to section 223(a)(12)(A) of the JJDP Act, the State shall:

(1) Describe in detail its specific plan, procedure, and timetable covering the specific three-year planning cycle, for assuring that:

(i) Juveniles who are charged with or who have committed offenses that would not be criminal if committed by an adult; and

(ii) such non-offenders as dependent or neglected children;

shall not be placed in secure detention or secure correctional facilities. Juveniles determined to be in violation of a valid court order may be excluded from this requirement. Refer to Paragraph 31.704(b) for the criteria in determining a valid court order.

(2) Describe the financial, legislative, judicial and administrative barriers the State faces in achieving full compliance with the provisions of this paragraph. All accounts shall include a description of the technical assistance needed to overcome these barriers. These barriers should be keyed to the plan noted in paragraph (1) of this section.

(3) For those States that have achieved "substantial compliance" as outlined in Section 223(c) of the Act, indicate the unequivocal commitment to achieving full compliance. Attach appropriate documentation.

(4) Submit the report required under section 223(a)(12)(B) of the Act as part of the annual monitoring report required by section 223(a)(15) of the Act.

(f) *Contact with Incarcerated Adults.*

(1) Pursuant to section 223(a)(13) of the JJDP Act the State shall:

(i) Describe in detail its specific plan and procedure, covering the three-year planning cycle, for assuring that juveniles alleged to be or found to be delinquent, status offenders, and non-offenders will be removed from any institution in which they have regular sight and sound contact with incarcerated adults, including inmate trustees. This prohibition seeks as absolute a separation as possible and permits no more than haphazard or accidental contact between juveniles and incarcerated adults. In addition, include a specific timetable for compliance and justify any deviation from a previously approved timetable.

(ii) In those isolated instances where juvenile criminal-type offenders remain confined in adult facilities or facilities in which adults are confined, the State must set forth in detail the procedures for assuring no regular sight and sound contact between such juveniles and adults.

(iii) Describe the physical, judicial, fiscal, and legislative barriers which may hinder the separation of alleged or adjudicated criminal type offenders, status offenders and non-offenders from incarcerated adults in any particular jail, lock-up detention or correctional facility. All such accounts shall include a description of the technical assistance needed to overcome those barriers and such technical assistance needs must be incorporated into the application. These

barriers should be keyed to the Annual Plan in § 31.703 (f)(1)(i) above.

(iv) Assure that offenders are not reclassified administratively and transferred to a correctional authority to avoid the intent of segregating adults and juveniles in correctional facilities. However, this does not prohibit or restrict waiver of juveniles to criminal court for prosecution, according to State Law. It does, however, preclude a State from administratively transferring a juvenile offender to an adult correctional authority or a transfer within a mixed juvenile and adult facility for placement with adult criminals either before or after a juvenile reaches the statutory age of majority. It also precludes a State from transferring adult offenders to a juvenile correctional authority for placement.

(2) *Implementation.* Each State shall immediately plan and implement the requirement of this provision.

(g) *Removal of Juveniles from Adult Jails and Lock-ups.* Pursuant to section 223(a)(14) of the JJDP Act, the State shall:

(1) Describe in detail its specific plan, procedure, and timetable for assuring that beginning after the 5-year period following the date of enactment of the Juvenile Justice Amendments of 1980, (e.g., by December 8, 1985) no juvenile shall be detained or confined in any jail or lock-up for adults. Refer to § 31.703(h)(4) to determine the special (exceptional) circumstances which would have to exist to permit, in areas characterized by low population density with respect to the detention of juveniles and where no existing acceptable alternative placement is available, the temporary detention of juveniles accused of serious crimes against persons.

(2) Describe the financial, geographical, judical, legislative, and administrative barriers which the State faces in removing all juveniles from adult jails and lock-ups. All such accounts shall include a description of the technical assistance needed to overcome those barriers. The barriers should be keyed to the plan for removing juveniles from adult jails and lock-ups noted in paragraph (1) above.

(3) For those States that have achieved "substantial compliance" with section 223(a)(14) as specified in section 223(c) of the Act, indicate the unequivocal commitment to achieving full compliance. Attach appropriate documentation.

(h) *Monitoring of Jails, Detention Facilities and Correctional Facilities.*

(1) Pursuant to section 223(a)(15) of the JJDP Act, except as provided by subparagraph (h)(7) below, the State shall:

(i) Indicate how it will annually identify and survey all secure detention or correctional facilities, jails, lock-ups, and other facilities usable for the detention and confinement of juveniles.

(ii) Provide a plan for an annual on-site inspection of all such facilities identified in Paragraph (1)(i) above. Such plan shall include the procedure for reporting and investigating compliance compliants in accordance with section 223(a)(12)(A), (13), and (14).

(iii) Include a description of the barriers which the State faces in developing a monitoring system to establish and report the level of compliance with sections 223(a)(12), (13), and (14). All such accounts shall include a description of the technical assistance needed to overcome those barriers and such technical assistance needs must be incorporated into the annual application. The barriers should be keyed to the plan to monitoring for compliance as noted in sub-paragraphs (i and ii) above.

(2) For the purpose of monitoring for compliance with section 223(a)(12)(A) of the Act a secure detention or correctional facility is:

(i) The term *"secure* detention *facility"* means any public or private residential facility which—

(A) Includes construction fixtures designed to physically restrict the movements and activities of juveniles or other individuals held in *lawful custody* in such facility; and

(B) Is used for the temporary placement of any *juvenile who is accused of having committed an offense,* of any *non-offender,* or of any other *individual accused of having committed a criminal offense.*

(ii) The term "*secure* correctional *facility"* means any public or private residential facility which—

(A) Includes construction fixtures designed to physically restrict the movements and activities of juveniles or other individuals held in *lawful custody* in such facility; and

(B) Is used for the placement after adjudication and disposition, of any *juvenile who has been adjudicated as having committed an offense,* any *non-offender,* or any *other individual convicted of a criminal offense.* (Definitions of terms emphasized are found in § 31.704)

(3) *Valid Court Order (Section 223(a)(12)(A).* For the purposes of determining whether a valid court order exists and a juvenile has been found to be in violation of that valid order all of the following conditions must be present prior to secure incarceration:

(i) The juvenile must have been brought into a court of competent jurisdiction and made subject to an order issued pursuant to proper authority.

(ii) The court must enter a judgement and/or remedy in accord with established legal principles based on the facts after a hearing which observes proper procedures.

(iii) The juvenile in question must have received adequate and fair warning of the consequences of violation of the order at the time it was issued and such warning must be provided to the juvenile in writing or be reflected in the court record and proceedings.

(iv) Once a juvenile is alleged to have violated a valid court order, a violation hearing, in the form of a judicial proceeding before a court of competent jusidication, must be held.

(v) Prior to and during the violation hearing the following full due process rights must be provided:

(A) The right to have the charges against the juvenile in writing served upon him a reasonable time before the hearing;

(B) The right to a hearing before a court;

(C) The right to an explanation of the nature and consequences of the proceedings;

(D) The right to legal counsel, and the right to have such counsel appointed by the court if indigent;

(E) The right to confront witnesses;

(F) The right to present witnesses;

(G) The right to have a transcript or record of the proceedings; and

(H) The right to appeal to an appropriate court.

(vi) In entering the order that directs or authorizes disposition of placement in a secure facility, the judge presiding over the violation hearing must certify on the record that all the elements of a valid court order, (i, ii, iii above), and the applicable due process rights, were afforded the juvenile and that there is no rational alternative to incarceration of the juvenile.

(4) *Removal Exceptions.* (Section 223(a)(14)). The following conditions must be met in order for an accused juvenile to be temporarily detained (for up to 48 hours) in an adult jail or lock-up:

(i) The area has been certified as having a low population density, i.e., a total county population of less than 10 persons per square mile according to the latest available Bureau of Census data. OJJDP will notify States of these counties upon publication of 1980 Census data.

(ii) The juvenile must be accused of a serious crime against persons to include: criminal homicide, forcible rape, mayhem, kidnapping, aggravated assault, robbery, and extortion accompanied by threats of violence.

(iii) A determination has been made that there is no existing acceptable alternative placement available pursuant to criteria developed by the State.

(iv) The county is not served by a local or regional juvenile detention facility.

(5) *Reporting Requirement.* The State shall report annually to the Administrator of OJJDP on the results of monitoring for section 223(a) (12), (13) and (14) of the JJDP Act. Three copies of the report shall be submitted to the Administrator of OJJDP no later than December 31 of each year.

(i) To demonstrate the extent of compliance with section 223(a)(12)(A) of the JJDP Act, the report must at least include the following information for both the baseline and the current reporting periods.

(A) Dates of baseline and current reporting period.

(B) Total number of public and private juvenile detention and correctional facilities AND the number inspected on-site.

(C) Total number of accused status offenders and non-offenders held in any secure detention or correctional facility as defined in § 31.703(h)(2) for longer than 24 hours.

(D) Total number of adjudicated status offenders and non-offenders held in any secure detention or correctional facility as defined in § 31.703(h)(2) excluding those held pursuant to a finding of violation of a valid court order.

(E) Total number of adjudicated status offenders held in any secure detention or correctional facilities pursuant to judicial certification of a violation of a valid court order.

(F) Total number of accused and adjudicated status offenders and non-offenders held in any adult jail or lock-up as defined in § 31.704.

(ii) To demonstrate compliance with section 223(a)(12)(B) of the JJDP Act, the report must include the total number of accused and adjudicated status offenders and non-offenders placed in facilities that are:

(A) Not near their home community;

(B) Not the least restrictive appropriate alternative; and

(C) Not community-based.

(iii) To demonstrate the progress and extent of compliance with section 223(a)(13) of the JJDP Act, the report must at least include the following information for both the baseline and the current reporting periods.

(A) Designated date for achieving full compliance.

(B) The total number of facilites that can be used for the secure detention and confinement of both juvenile offenders and adult criminal offenders.

(C) Both the total number of facilities used for the secure detention and confinement of both juvenile offenders and adult criminal offenders during the pat 12 months AND the number inspected on-site.

(D) The total number of facilities used for secure detention and confinement of both juvenile offenders and adult criminal offenders AND those which did not provide adequate separation.

(E) The total number of juvenile offenders and non-offenders NOT adequately separated in facilities used for the secure detention and confinement of both juveniles and adults.

(iv) To demonstrate the progress and extent of compliance with section 223(a)(14) of the JJDP Act the report must at least include the following information for the baseline and the current reporting periods.

(A) Dates of baseline and current reporting period.

(B) Total number of adult jails in the State AND the number inspected on-site.

(C) Total number of adult lock-ups in the State AND the number inspected on-site.

(D) Total number of adult jails holding juveniles during the past twelve months.

(E) Total number of adult lock-ups holding juveniles during the past twelve months.

(F) Total number of adult jails and lock-ups in areas meeting the "removal exceptions" as noted in subparagraph 4 above, including a list of such counties.

(G) Total number of juveniles held in all adult jails in excess of six hours.

(H) Total number of juveniles held in all adult lock-ups in excess of six hours.

(I) Total number of juveniles held in adult jails in areas meeting the "removal exception" as noted in subparagraph 4 above.

(J) Total number of juveniles held in excess of 48 hours in jails and lock-ups in areas meeting the "removal exceptions" as noted in subparagraph 4 above.

(6) *Compliance.* A State must demonstrate compliance with section 223(a)(12)(A), (13), and (14) of the Act. Should a state fail to demonstrate the required level of compliance with these Sections within the designated time frame, eligibility, for formula grant funding shall terminate. The compliance levels are:

(i) Substantial compliance with section 223(a)(12)(A) requires within three years of initial plan submission achievement of a 75% reduction in the aggregrate number of status offenders and non-offenders held in secure detention or correctional facilities; or through removal of 100% of such offenders from secure correctional facilities only, and the State has made an unequivocal commitment through appropriate executive and legislative action to achieve full compliance within 2 additional years. Full compliance is achieved when a State has removed 100% of such juveniles from secure detention or correctional facilities or can demonstrate full compliance with *de minimis* exceptions. The policy and criteria for determining full compliance with *de minimis* exceptions with this requirement is contained in the Federal Register on January 9, 1981 (46 FR 2566–2569).

(ii) Compliance with section 223(a)(13) has been achieved when a State can demonstrate that:

(A) The last submitted monitoring report, covering a full 12 months of data, demonstrates that no juveniles were incarcerated in circumstances that were in violation of section 223(a)(13); or

(B) (*1*) State law, regulation, court rule, or other established executive and judicial policy clearly prohibits the incarceration of all juvenile offenders in circumstances that would be in violation of section 223(a)(13);

(*2*) All instances of noncompliance reported in the last submitted monitoring report were in violation of, or departures from, the State law, rule, or policy referred to in (1) above;

(*3*) The instance of noncompliance do not indicate a pattern or practice but rather constitute isolated instances of noncompliance; and

(*4*) Existing mechanisms for the enforcement of th State law, rule, or policy referred to in (a) above are such that the instances of noncompliance are unlikely to recur in the future.

(iii) Substantial compliance with section 223(a)(14)(A) requires the achievement of a 75% reduction by December 8, 1985 in the number of juveniles held in adult jails and lock-ups and that the State has made a unequivocal commitment through appropriate executive or legislative action to achieving full compliance within two additional years.

(7) *Monitoring Report Exceptions.* States which have been found by the OJJDP Administrator to have achieved full compliance with section

V 4 6 / 1 0 4
J E 1 8 1
UMI

223(a)(12)(A) and compliance with section 223(a)(13) of the Juvenile Justice Act and which wish to be exempted from the annual compliance monitoring report must submit a written request to the OJJDP Administrator which demonstrates that:

(i) The State provides for an adequate system of monitoring jails, detention facilities, correctional facilities, and non-secure facilities to enable an annual determination of State compliance with section 223(a)(12)(A), (13), and (14) of the JJDPA.

(ii) State legislation has been enacted which conforms to the requirements of sections 223(a)(12)(A) and (13) of the Juvenile Justice Act; and

(iii) The enforcement of the legislation is statutorily or administratively prescribed, specifically providing that:

(A) Authority for enforcement of the statute is assigned;

(B) Time frames for monitoring compliance with the statute are specified; and

(C) Adequate sanctions and penalties that will result in enforcement of compliance and procedures for remedying violations are set forth.

(i) *Juvenile Crime Analysis.* Pursuant to section 223(a)(8) (A) and (B) the State shall conduct an analysis of juvenile crime problems and juvenile justice and delinquency prevention needs. The product of the analysis shall be a series of problem statements that reflect an analysis of the data, the monitoring reports, and requirements of the Act and which provide the basis for developing juvenile justice programs for funding.

(1) *Analysis Components.* The analysis should include the following:

(i) A description of the structure and functions of units of the juvenile justice system and description of the flow of youths through the system, on an annual basis. The descriptive flow shall include a summary of the number and characteristics (age, sex, national origin, and race) of youths within the State, and a summary of the number and characteristics (offense, age, sex, national origin, and race) of youths handled (including arrests and petitions by each unit of the juvenile justice system) and disposition made by each (including the number and characteristics of juveniles within each dispositional category).

(ii) An analysis of the nature of the delinquency problem within the State. This analysis should include unemployment rates, school dropout, suspension and expulsion rates, and other conditions considered or determined by the State to be relevant to delinquency prevention programming.

(iii) A description of major programs operated outside of the formal juvenile justice system which are designed to impact directly on delinquency reduction, control, or prevention. The description should include the structure, objectives, number and descriptions of youths served, program costs, and sources of funds.

(2) *Product.*

(i) The product of the analysis is a series of brief written problem statements set forth in the application that define and describe the priority problems.

(ii) A problem statement, as used herein, is defined as a written presentation which describes the magnitude, seriousness, rate of change, persons affected, and temporal aspects of a problem using qualitative and quantitative information. It identifies the nature, extent, and effect of system response, makes projections based on historical inferences and rigorously attempts to establish the origins of the problem. A problem statement is a clear and succinct summary which reflects the results of the analysis undertaken. It does not necessarily represent all the analysis undertaken, or all data collected for any given priority problem area.

(3) *Program.* Applications are to include descriptions of programs to be supported with Juvenile Justice Act formula grant funds.

(i) *Organization of Programs.* Programs are groupings of projects with similar program designs and objectives.

(ii) *Program Description.* Descriptions should not be more than three or four pages in length, but this may vary. Each item below must be addressed for all programs.

(A) *Title.*

(B) *Description of Program.*

(*1*) *Program Objectives.* Objectives are specific descriptive statements of the expected program performance and its impact on the identified problem. These must be quantified where possible and must be related to the measure used to describe the problem in the problem statement.

(*2*) *Summary of Activities Planned and Services Provided.* This part of the program description must summarize what agencies will implement the program, where and when the activities will take place, what services will be provided, and who will benefit from the services.

(*3*) *Budget.* Total Federal funds requested from JJDP allocations must be presented, along with any expected state, local or private funds. Indicate the number of subgrants and the dollar range, as well as anticipated subgrantees (if known). Include minimum duration of each program and minimum number of years that funding may be requested and received for projects. Once Congressional appropriations are final, specific budget figures must be submitted.

(*4*) *Relationship to Similar Programs.* The program description must indicate how the program relates to other similar State or local programs directed at the same or similar problems.

(C) *Performance Indicators.* A list of performance indicators must be developed and set forth for each program. These indicators show what data will be collected at the program level to measure whether objectives and performance goals have been achieved and should relate to the measures used in the problem statement and statement of program objectives.

(*4*) *Format.* Exhibit I shows the standard format for setting forth priority problems and programs in the annual plan.

Exhibit I—Standard Format for Program Descriptions

Program Statements: Statement of problem including an indication of its priority.

Program: Description of program developed to deal with the problem stated above.

1. Title
2. Description
   a. Objectives
   b. Summary of Activities Planned
   c. Budget
   d. Relationship to Similar Programs
3. Performance Indicators

(j) *Concentration of State Effort.* Pursuant to section 223(a)(8)(C) the State shall submit a plan for the concentration of State efforts as they relate to the coordination of all State juvenile delinquency programs with respect to overall policy and development of objectives and priorities for all State juvenile delinquency programs and activities.

(k) *Annual Performance Report.* Pursuant to section 223(a) and section 223(a)(21) the State Plan shall provide for submission of an annual performance report beginning to be incorporated in its fiscal years 1983 and 1984 application for funds. The report shall address the following:

(1) *Progress in Program Implementation.* The State shall report on its progress in the implementation of programs, as described in the three year plan. The performance indicators will serve as the objective criteria for a meaningful assessment of progress toward achievement of measureable goals.

(2) *Compliance with State Plan Requirements.* The State shall also

describe the status of compliance with each of the following requirements. Compliance is to be measured against the assurances made in the three year plan and any subsequent modifications.

(i) *Funding.* (A) Indicate the amount of funds that have been awarded, the programs they have applied to, the percentage used for advanced techniques, and the percentage passed through to units of local government.

(B) Describe how funds have been equitably distributed within the State.

(C) Describe how funds have been equitably distributed to deal with disadvantaged youth, as required by section 223(a)(16), specifying the number of disadvantaged youth who participated in programs supported with formula funds.

(ii) *State Concentration/Coordination of Effort.* Describe the State's progress in implementation of coordination of its plan for all juvenile delinquency programs within the State.

(iii) *Consultation.* Describe how units of general local government and private agencies have been involved in the development and implementation of the State plan.

(iv) *Development of Research, Training and Evaluation Capacity.* Describe efforts to develop an adequate research, training and evaluation capacity within the State.

(v) Briefly describe the State's progress in implementing its plan for compliance with section 223(a)(12)–(14), as outlined in the multi-year plan for achieving compliance with these requirements.

(l) *Equitable Distribution of Juvenile Justice Funds and Assistance to Disadvantaged Youth.* Pursuant to section 223(a)(7) and (16) of the JJDP Act, the State shall assure that:

(1) The State will establish and adhere to procedures for the equitable distribution JJDP Act formula grant money.

(2) The Juvenile Crime Analysis studies the needs of disadvantaged youth and that assistance will be available equitably.

(3) It has developed and adheres to procedures for filing and considering grievances arising under this section.

(m) *Advanced Techniques.* Pursuant to section 223(a)(10) of the JJDP Act, the State shall:

(1) Demonstrate clearly in its application that at least 75% of the JJDP funds support advanced techniques as enumerated in this section of the Act.

(2) In order to ensure timely, compliance with section 223(a)(12), (13), (14), and (15) of the JJDP Act, States should place special emphasis on projects which are dsigned to deinstitutionalize juveniles, remove children from jails, lock-ups and other adult institutions where adults are incarcerated to ensure adequate separation of adult and juvenile offenders, and monitor compliance.

(n) *Analytical and Tranining Capacity.* Pursuant to section 223(a) (11) and (21) of the JJDP Act, the State Council shall provide an assurance that it will conduct research, training and evaluation activities.

(o) *Equitable Arrangements for Employees Affected by Assistance Under the Act.* Pursuant to section 223(a)(18) the State shall assure that fair and equitable arrangements are made to protect the interests of employees affected by assistance under the Act.

(p) *Continuation Support.* Pursuant to the OJJDP continuation funding policy as published in the **Federal Register**, on January 22, 1981, (46 FR 7109–7112) states with the assistance and advice of the State Advisory Group, are encouraged to formulate a specific policy to govern the continuation of carefully chosen and successful action programs and projects. Provide that policy and explain its development.

(q) *Technical Assistance.* States wishing to receive Technical Assistance through OJJDP must indicate within their plan their Technical Assistance needs. The identification of Technical Assistance needs must be related to the implementation strategies and programs contained in the plan. Specific directions regarding the development and inclusion of Technical Assistance needs and priorities in the plan will be provided in the "Application Kit for Formula Grants under the JJDPA." Any State not wishing to apply for Technical Assistance should so indicate in their plan submission.

(r) *Other Terms and Conditions.* Pursuant to section 223(a)(22) of the JJDP Act, States shall agree to other terms and conditions as the Administrator may reasonably prescribe to assure the effectiveness of programs assisted under the formula grant.

§ 31.704 Definitions.

(a) *Private Agency.* A private non-profit agency, organization or institution is:

(1) Any corporation, foundation, trust, association, cooperative, or accredited institution of higher education not under public supervision or control, and

(2) Any other agency, organization or institution which operated primarily for scientific, educational, service, charitable, or similar public purposes, but which is not under public supervision or control, and not part of the net earnings of which inures or may lawfully inure to the benefit of any private shareholder or individual, and which has been held by IRS to be tax-exempt under the provisions of section 501(c)(3) of the 1954 Internal Revenue Code.

(b) *Secure.* As used to define a detention or correctional facility this term includes residential facilities designed and operated so as to ensure that all entrances and exits are under exclusive control of the staff of such facility, whether or not the persons detained or confined have freedom of movement within the facility, and whether or not the control of residents behavior results primarily from staff restraints or reliance on construction fixtures designed to physically restrict the movements and activities of persons in custody such as locked rooms and buildings, fences, or other physical structures.

(c) *Facility.* A place, an institution, a building or part thereof, set of buildings or an area whether or not enclosing a building or set of buildings which is used for the lawful custody and treatment of juveniles and may be owned and/or operated by public and private agencies.

(d) *Juvenile who is accused of having committed an offense.* A juvenile with respect to whom a petition has been filed in the juvenile court or other action has occurred alleging that such juvenile is a juvenile offender, i.e., a *ciminal-type offender* or a *status offender,* and no final adjudication has been made by the juvenile court.

(e) *Juvenile who has been adjudicated as having committed an offense.* A juvenile with respect to whom the juvenile court has determined that such juvenile is a *juvenile offender,* i.e., a *criminal-type offender* or a *status offender.*

(f) *Juvenile Offender.* An individual subject to the exercise of juvenile court jurisdiction for purposes of adjudication and treatment based on age and offense limitations as defined by State law.

(g) *Criminal-type Offender.* A juvenile offender who has been charged with or adjudicated for conduct which would, under the law of the jurisdiction in which the offense was committed, be a crime if committed by an adult.

(h) *Status Offender.* A juvenile offender who has been charged with or adjudicated for conduct which would not, under the law of the jurisdiction in which the offense was committed, be a crime if committed by an adult.

(i) *Non-Offender.* A juvenile who is subject to the jurisdiction of the juvenile court, usually under abuse, dependency, or neglect statutes for reasons other

than legally prohibited conduct of the juvenile.

(j) *Lawful Custody.* The exercise of care, supervision and control over a juvenile offender or non-offender pursuant to the provisions of the law of a judicial order or decree.

(k) *Other individual accused of having committed a criminal offense.* An individual, adult or juvenile, who has been charged with committing a criminal offense in a court exercising criminal jurisdiction.

(l) *Other individual convicted of a criminal offense.* An individual, adult or juvenile, who has been convicted of a criminal offense in a court exercising criminal jurisdiction.

(m) *Adult Jail.* A locked facility, administered by State, county, or local law enforcement and correctional agencies, the purpose of which is to detain adults charged with violating criminal law, pending trial. Also considered as adult jails are those facilities used to hold convicted adult criminal offenders sentenced for less than one year.

(n) *Adult Lock-up.* Similar to jail for adults except that is generally a municipal or police facility of a temporary nature which does not hold persons after they have been formally charged.

Subpart I—General Conditions and Assurances

§ 31.800 Compliance with statute.

The applicant State must assure and certify that the State and its subgrantees and contractors will comply with the provision of the Omnibus Crime Control and Safe Streets Act of 1968, Pub. L. 90–352, as amended by Pub. L. 91–644, Pub. L. 93–83, Pub. L. 93–415, Pub. L. 94–430, Pub. L. 94–503, and Pub. L. 96–157 (the Justice System Improvement Act of 1979); and with the provisions of the Juvenile Justice and Delinquency Prevention Act of 1974, Pub. L. 93–415, as amended by Pub. L. 94–503, Pub. L. 96–115, and Pub. L. 96–509 for activities funded under each Act.

§ 31.801 Compliance with other Federal laws, orders, circulars.

(a) The applicant State must further assure and certify that the State and its subgrantees and contractors will adhere to regulations of the Department and other applicable Federal laws, orders and circulars. These requirements are described in greater detail in the "Fiscal Year 1982 Application Kit for Formula Grant under the JJDP Act." They include compliance, where applicable, with the provisions of the National Environmental Policy Act of 1969, Pub. L. 91–190; the National Historic Preservation Act of 1966, Pub. L. 89–665; the Flood Disaster Protection Act of 1973, Pub. L. 93–234; the Clean Air Act, Pub. L. 88–206; the Federal Water Pollution Control Act Amendments of 1972, Pub. L. 92–500; the Safe Drinking Water Act, Pub. L. 93–523; the Endangered Species Act of 1973, Pub. L. 93–205; the Wild and Scenic Rivers Act, Pub. L. 90–524; the Fish and Wildlife Coordination Act, Pub. L. 85–624; the Historical and Archeological Preservation Act, Pub. L. 93–291; the Coastal Zone Management Act of 1972, Pub. L. 92–583; the Hatch Political Activity Act, Pub. L. 93–443; the Animal Welfare Act of 1970, Pub. L. 91–579; the Impoundment Control Act of 1973, Pub. L. 93–112; the Intergovernmental Cooperation Act of 1974, Pub. L. 93–318; Executive Orders Nos. 11246, 11377, 11507, 11738, 11752, and 11914; Office of Management and Budget Circulars Nos. A–21, A–87, A–102 and A–110, and A–122; FMC Circulars Nos. 74–4 and 74–7 found at 34 CFR Parts 255 and 256 respectively and all amendments and additions to those statutes, orders, and circulars.

(b) In administering funds awarded pursuant to this application, the State must assure compliance with 28 CFR Parts 18, 19, 20, 22, 42, and 52 as they relate to activities funded with JJDP funds; G 6060.1A, medical Research and Psychosurgery; and the Guideline Manual M 7100.1B, Financial and Administrative Guide for Grants. The State must further represent that it has established policies and provided procedures to assure sound fiscal control, effective management, and efficient use of funds received pursuant to this grant.

§ 31.802 Application on file.

Any Federal funds awarded pursuant to an application must be distributed and expended pursuant to and in accordance with the programs contained in the applicant State's current approved application and any advance funds will not be awarded for any program not specifically approved and clearly set forth in the current comprehensive application. Any departures therefrom, other than to the extent permitted by the Administration's current program and fiscal regulations and guidelines, will be submitted for advance approval by the Administration. The applicant State must assure that it has complied with any special grant conditions applicable to formula grants previously awarded to the State or, as to those special conditions to which action is not yet due or required, will comply with such conditions within specific deadlines.

§ 31.803 Non-discrimination.

The State must assure that it will comply with and will insure compliance by its subgrantees and contractors with all applicable non-discrimination requirements, including but not limited to Section 815(c) of the Justice System Improvement Act and its implementing regulations found at 28 CFR 42.201, et seq. and 28 CFR 42.301, et seq.; Title VI of the Civil Rights Act of 1964, Subparts C–E of 28 CFR Part 42; and, where applicable, Section 262(a) of the Juvenile Justice Act, to the end that no person shall, on the ground of race, color, religion, national origin, or sex be excluded from participation in, be denied the benefits of, be subjected to discrimination under or be denied employment in connection with any program or activity funded in whole or in part with funds made available through the Office of Juvenile Justice and Delinquency Prevention. The State must assure that it will comply with and will insure compliance by its State and local government subgrantees with the requirement that in the event that a Federal or State court or Federal or State administrative agency makes a finding of discrimination on the ground of race, color, religion, national orgin, or sex against the recipient State or local government unit or agency thereof, it will forward a copy of the finding to the cognizant State Grantee and to OJJDP. The State must also assure that it will comply with and insure compliance by its subgrantees with Section 504 of the Rehabilitation Act of 1973, as amended, which prohibits discrimination on the basis of handicap in any program receiving Federal financial assistance, and its implementing regulations found at 28 CFR 42.501 *et seq.* The State must further insure that educational institutions comply with the provisions and requirements of Title IX, Section 901, of the Education Amendments of 1972 (Pub. L. 92–318) which provides that no person shall, on the basis of sex be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any education program or activity receiving financial assistance from the Department of Justice and the Age Discrimination Act of 1975, as amended. The State must recognize the right of the United States to seek judicial enforcement of the foregoing covenant assuring the right of the United States to seek judical enforcement in its subgrants or contracts.

§ 31.804 Lobbying.

The State must assure that pursuant to section 227(c) of the JJDP Act, funds

paid pursuant to section 223(a)(10)(D) and section 224(a)(7) to any public or private agency, organization, or institution or to any individual (whether directly or through a State criminal justice council) shall not be used to pay for any personal service, advertisement, telegram, telephone communication, letter, printed or written matter, or other device, intended or designed to influence a Member of the Congress or any other Federal, State, or local elected official to favor or oppose any Acts, bills, resolutions, or similar legislation, or any referendum, initiative, constitutional amendment, or any similar procedure by the Congress, any State legislature, any local council, or any similar governing body, except that this subsection shall not preclude such funds from being used in connection with communications to Federal, State, or local elected officials, upon the request of such official through proper official channels, pertaining to authorization, appropriation, or oversight measures directly affecting the operation of the program involved. Additional guidance on lobbying prohibitions may be found in the OJARS Guideline Manual, Financial and Administrative Guide for Grants, M7100.1B.

§ 31.805 Applicability.

The applicant State must further assure and certify that by appropriate language incorporated in each grant, subgrant, contract, subcontract, or other document under which funds are to be disbursed, the grantee shall assure that the above conditions apply to all recipients of assistance.

Charles A. Lauer,

Acting Administrator, Office of Juvenile Justice and Delinquency Prevention.

Wheat and Wheat Foods Research and Nutrition Education; Wheat Industry Council Budget for Fiscal Year 1982

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

[Docket No. WR-1]

Wheat and Wheat Foods Research and Nutrition Education; Wheat Industry Council Budget Notice

AGENCY: Agricultural Marketing Service, USDA.

ACTION: Notice of the Wheat Industry Council Budget for Fiscal Year 1982.

SUMMARY: This notice presents the proposed July 1981 through June 1982 budget of the Wheat Industry Council. Publication of budget information in the Federal Register is required by the Wheat and Wheat Foods Research and Nutrition Education Act. The purpose is to allow the wheat end product manufacturers, who are required to pay assessments on purchases of processed wheat to fund a wheat research and nutrition education program, an opportunity to reserve the right to seek a refund of assessments paid.

FOR FURTHER INFORMATION CONTACT: W. David Spalding, Livestock, Poultry, Grain, and Seed Division, AMS, USDA, Washington, D.C. 20250, Phone: (202) 447-2068.

SUPPLEMENTARY INFORMATION: The Wheat and Wheat Foods Research and Nutrition Education Act of 1977 (7 U.S.C. 3401-17) authorized a research and nutrition education program for wheat and wheat foods. Formal rulemaking procedures, including a public hearing, were followed in developing the Wheat and Wheat Foods Research and Nutrition Education Order which provides the framework for the program. This notice contains the first annual budget of the Wheat Industry Council—the organization responsible for carrying out the program.

Prior **Federal Register** documents concerning Wheat and Wheat Foods Research and Nutrition Education include: (1) Decision and Order published December 14, 1979 (44 FR 72866); (2) Final Order published May 5, 1980 (45 FR 32572); and (3) Rules and Regulations published April 21, 1981 (46 FR 22882).

In a March 1980 referendum wheat end product manufacturers approved the Wheat and Wheat Foods Research and Nutrition Education Order. The Order authorizes a program of research and nutrition education for wheat and wheat based foods to be administered by a 20-member Wheat Industry Council. In October 1980 the Secretary of Agriculture appointed the initial 20-member Wheat Industry Council which is divided equally among representatives of producers, processors, end product manufacturers, and consumers. USDA's Agricultural Marketing Service (AMS) will monitor the program.

The Order authorizes wheat end product manufacturers to assess themselves up to 5 cents per hundredweight of processed wheat purchased to finance the program. The Order limits the assessments to 1 cent per hundredweight during the first 2 years of the program. Wheat end product manufacturers who purchase less than 2,000 hundredweight of processed wheat per year, those who are defined as retail bakers, and processed wheat used in the manufacture of exempt end products will not be assessed.

The Wheat and Wheat Foods Research and Nutrition Education—Rules and Regulations require all nonexempt wheat end product manufacturers to register with the Wheat Industry Council, Suite 203, 6000 Executive Boulevard, Rockville, Maryland 20852 (Phone: (301) 984-1300) by June 1, 1981. Any firms not registered by June 1 must register as soon as possible. Assessments of 1 cent per hundredweight of processed wheat purchased begin to accrue as of the first day of the firm's first accounting period beginning on or after June 1, 1981. Assessments are due and payable to the Wheat Industry Council on or before the thirtieth day following the end of the first reporting period and on a quarterly basis thereafter.

The Rules and Regulations provide that wheat end product manufacturers who wish to reserve the right to request refunds of assessments paid during the upcoming year must submit such notification to the Wheat Industry Council by registered or certified mail on or before July 31, 1981. In order to receive a refund of assessments paid, an end product manufacturer must obtain a refund application form from the Council and submit the completed form to the Council within 60 days after the end of the quarter or other reporting period during which the assessment obligation accrued.

This document includes a summary of the Wheat Industry Council's plans and projects for research and nutrition education based on research. The Act and the Order restrict Council activities to research and nutrition education based on research and provide that individual projects must be approved by the U.S. Department of Agriculture before they are implemented.

Nutrition education is defined in the Act and the Order as "any action to disseminate to the public information resulting from research concerning the economic value or nutritional benefits of wheat, processed wheat, and end products." A proponent of the Order described the scope of the Council's authority to engage in nutrition education based on research at the public hearing on the Order as follows: ". . . nutrition education activities must be based on the results of research (whether conducted by the Wheat Industry Council or others).

They would not include promotion efforts based solely on the desirability of wheat, processed wheat or end products. Such activities, that encourage consumption for its own sake without imparting any knowledge of nutritional facts or economic value, are clearly not intended under the Act and its legislative history, and they would not be included under this definition."

The Wheat Industry Council budget for Fiscal Year 1982 is as follows:

Wheat Industry Council; Budget

[July 1, 1981 to June 30, 1982]

Income: Assessments		$1,000,000
EXPENDITURES:		
Program expenditures—research:		
Nutrition research	$60,000	
Select a scientific review committee of qualified experts to review the scientific literature and prepare a background paper on the relationship of wheat based foods to his or her specialty: obesity, diabetes, coronary heart disease, dental health, and intestinal disorders. The background papers will provide not only a "state-of-the-art" of the relationship of our products to important health issues, but also identify current problems for Council sponsored research	$38,000	
Publish consumer booklet(s) based on the scientific papers	12,000	
Disseminate nutrition research information to media	10,000	
Market research		50,000
Identify the issues of greatest concern to the consumer; identify the target audiences most receptive to messages about the value and use of wheat based foods in a well balanced diet.		
Program expenditures—nutrition education:		
Educators		145,000

Wheat Industry Council; Budget—Continued

[July 1, 1981 to June 30, 1982]

Develop nutrition education materials for elementary, secondary, and adult users on wheat food products. The materials will include but not be limited to leaflets, posters, teacher's guides, and good filmstrips		125,000
Disseminate education materials through professional magazines, newsletters, and special mailings		20,000
Consumer		325,000
Develop and place in appropriate publications four (or more) messages; wholesomeness of ingredients used in wheat food products; similarities and differences between wheat food products; historical, cultural, and technological development of wheat food products; economic value of wheat food products		230,000
Produce a wheat foods reference booklet for food editors on technical, nutritional, and economic values	20,000	
Produce fact sheets for consumers on pasta, breakfast cereals, cakes and other sweet goods, hearth breads, white breads, crackers. Fact sheets to include historical background of products, nutritional, economic, and technical information	25,000	
Develop low-calorie menus and menu cards for restaurants. The nutritional value of each item to appear on the back of the card	15,000	
Prepare nutrition information materials for food service managers and restauranteurs	4,000	
Place a medical spokesperson on national talk shows to discuss nutritional concerns on the value of wheat based foods	12,000	
Syndicate a regular nutrition release to newspapers, magazines,and commentators on wheat food products and their role in the diet	19,000	
Industry relations and compliance		20,000
Print summary of act stating the purpose of the Wheat Industry Council, objectives, and assessment and refund procedures to be used as supplementary information with letters to the industry	4,000	
Print necessary assessment and refund forms and related materials as needed	8,000	
Quarterly newsletter to industry on operation and activities of the Council. Writing and postage	8,000	
Total—program expenditures		600,000
Administrative expenditures		275,000
Salaries	113,000	
Personal costs	$103,000	
Fringe benefits	10,000	
Rent ($12.50 per sq. ft.)	15,684	
Insurance, liability	2,000	
Telephone	5,916	
Copy machine (rent)	1,800	
Office supplies	3,000	
Printing, artwork	7,000	
Postage	1,200	
Lockbox	600	
Council meetings (travel and expenses for members and alternates; executive committee meetings)	48,000	
Travel, staff	12,000	
Legal fees	2,000	
Memberships and subscriptions	800	
Audit	2,000	
USDA administrative fee	40,000	
USDA referendum costs (repayment)	20,000	
Total, administrative expenses		275,000
Loan repayment (start up costs)		125,000
Grand total, expenditures		$1,000,000

Done at Washington, D.C., on May 28, 1981.

William T. Manley,

Deputy Administrator, Marketing Program Operations.

Documents normally scheduled for publication on a day that will be a Federal holiday will be published the next work day following the holiday.
Comments on this program are still invited.
Comments should be submitted to the Day-of-the-Week Program Coordinator, Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408.

TABLE OF EFFECTIVE DATES AND TIME PERIODS—JUNE 1981

This table is for determining dates in documents which give advance notice of compliance, impose time limits on public response, or announce meetings.

Agencies using this table in planning publication of their documents must allow sufficient time for printing production.

In computing these dates, the day after publication is counted as the first day. When a date falls on a weekend or a holiday, the next Federal business day is used (see 1 CFR 18.17).

A new table will be published in the first issue of each month.

Dates of FR publication	15 days after publication	30 days after publication	45 days after publication	60 days after publication	90 days after publication
June 1	June 16	July 1	July 16	July 31	August 31
June 2	June 17	July 2	July 17	August 3	August 31

CFR CHECKLIST; 1980/81 ISSUANCES

This checklist, prepared by the Office of the Federal Register, is published in the first issue of each month. It is arranged in the order of CFR titles, and shows the revision date and price of the volumes of the Code of Federal Regulations issued to date for 1980/81. New units issued during the month are announced on the back cover of the daily **Federal Register** as they become available.

For a checklist of current CFR volumes comprising a complete CFR set, see the latest issue of the LSA (List of CFR Sections Affected), which is revised monthly.

The annual rate for subscription service to all revised volumes is $525 domestic, $131.25 additional for foreign mailing.

Order from Superintendent of Documents, Government Printing Office, Washington, D.C. 20402.

Vol. 46 No. 105
Pages 29453-29690

federal register

Tuesday
June 2, 1981

Highlights

29465 **Income Tax** Treasury/IRS provides rules for treatment of losses on small business stock.

29482 **Federal Credit Unions** NCUA proposes to establish new minimum standards for surety bond and insurance coverage.

29680 **Outer Continental Shelf** DOE approves new bidding system for lease sales of oil and gas tracts. (Part IV of this issue)

29474 **Veterans' Educational Benefits** VA and DOD allow reenlisted individuals to resume contributions to the Post-Vietnam Era Veterans Educational Account.

29457 **National Security Items** Commerce/ITA informs interested parties how to submit comments to assist in review of Commodity Control List.

29662 **National Defense** Commerce/ITA proposes to establish a new Defense Priorities and Allocations System. (Part III of this issue)

29544 **Health—Blood** HHS/PHS commences evaluation of safety and effectiveness of computerized, blood glucose controlled insular infusion systems.

CONTINUED INSIDE

Highlights

FEDERAL REGISTER Published daily, Monday through Friday, (not published on Saturdays, Sundays, or on official holidays), by the Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408, under the Federal Register Act (49 Stat. 500, as amended; 44 U.S.C. Ch. 15) and the regulations of the Administrative Committee of the Federal Register (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The **Federal Register** provides a uniform system for making available to the public regulations and legal notices issued by Federal agencies. These include Presidential proclamations and Executive Orders and Federal agency documents having general applicability and legal effect, documents required to be published by Act of Congress and other Federal agency documents of public interest. Documents are on file for public inspection in the Office of the Federal Register the day before they are published, unless earlier filing is requested by the issuing agency.

The **Federal Register** will be furnished by mail to subscribers, free of postage, for $75.00 per year, or $45.00 for six months, payable in advance. The charge for individual copies is $1.00 for each issue, or $1.00 for each group of pages as actually bound. Remit check or money order, made payable to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

There are no restrictions on the republication of material appearing in the **Federal Register**.

Questions and requests for specific information may be directed to the telephone numbers listed under INFORMATION AND ASSISTANCE in the READER AIDS section of this issue.

29484 **Drug Traffic Control** Justice/DEA propose to designate Ketamine as a Schedule III controlled substance.

29456 **Passports and Visas** Justice/INS extends approval period for visas of nonimmigrant intra-company transferees from one year to three years.

29485 **Minimum Wages** Labor/ESA extends comment period on proposed removal of rule on employment of homeworkers in certain industries.

29453 **Environmental Protection—Water** USDA/ASCS extends and modifies Experimental Rural Clean Water Program.

29474 **Telephones** FCC allows all-party consent as an alternative to beep tone warning in the recording of conversations. The Commission also removes prohibition against acoustic and inductive recording.

29490 **Endangered and Threatened Wildlife** Interior/FWS proposes to redefine "harm" to mean act or omission which injures or kills.

Rules and Regulations

Federal Register
Vol. 46, No. 105
Tuesday, June 2, 1981

This section of the FEDERAL REGISTER contains regulatory documents having general applicability and legal effect, most of which are keyed to and codified in the Code of Federal Regulations, which is published under 50 titles pursuant to 44 U.S.C. 1510.
The Code of Federal Regulations is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each month.

DEPARTMENT OF AGRICULTURE

Agricultural Stabilization and Conservation Service

7 CFR Part 700

Experimental Rural Clean Water Program (RCWP)

AGENCY: Agricultural Stabilization and Conservation Service (ASCS), U.S. Department of Agriculture (USDA).

ACTION: Interim Rule.

SUMMARY: This interim rule will amend the existing regulations governing the Rural Clean Water Program (RCWP). The purpose of the experimental RCWP is to reduce agricultural pollution of the Nation's streams and lakes. The program provides Federal financial and technical assistance to encourage agricultural producers to voluntarily perform Best Management Practices (BMPs) to control agriculture non-point pollution. This interim rule amends the current regulations to provide authority for the Secretary of Agriculture to approve projects using funds which have been or may be appropriated for fiscal year 1981 and subsequent fiscal years. Further, this rule redefines cost-sharing for BMPs under the RCWP to include compensation for the producer's loss of income from crops when the cropland is converted to a permanent vegetative cover or trees to further the goals of the RCWP. The interim rule also updates and clarifies language in the existing regulations.

DATES: Interim rule effective June 1, 1981; comments must be received on or before August 3, 1981.

ADDRESS: Interested persons are invited to submit written comments to: Director, Conservation and Environmental Protection Division, ASCS, USDA, P.O. Box 2415, Washington, D.C. 20013; telephone 202–447–6221.

FOR FURTHER INFORMATION CONTACT: John R. Henry, Chief, Conservation and Environmental Protection Division, ASCS, USDA, P.O. Box 2415, Washington, D.C. 20013; telephone 202–447–7333. The Final Economic Impact Statement describing the options considered in developing this rule will be available when completed, upon request from the above named individual.

SUPPLEMENTARY INFORMATION: The title and number of the Federal Assistance Program to which this notice applies is: Title—Rural Clean Water Program; Number–10.068; as found in the Catalog of Federal Domestic Assistance. This action will not have a significant impact specifically on area and community development. Therefore, review as established by OMB Circular A–95 was not used to assure that units of local governments are informed of this action. This rule has been reviewed in accordance with Executive Order 12291 and has been classified as "not major." The emergency nature of this action makes it impractical for the agency to follow the procedures of Executive Order 12291 with respect to this rule.

The Secretary has determined that an emergency situation exists which warrants publication without opportunity for a public comment period of this action. Final regulations were published in the **Federal Register** on March 4, 1980 (45 FR 14006) setting forth the provisions for carrying out an experimental 1980 Rural Clean Water Program (RCWP) as authorized in the Agriculture, Rural Development and Related Agencies Appropriations Act, Fiscal Year 1980 (Pub. L. 96–108, 93 Stat. 821, 835, approved November 9, 1979). These regulations applied only to projects approved by the Secretary with funds appropriated for fiscal year 1980. An additional $20 million was appropriated in the Agriculture, Rural Development and Related Agencies Appropriations Act, Fiscal Year 1981 (Pub. L. 96–528, 94 Stat. 3095, 3111, approved December 15, 1980) for the approval of RCWP projects. The Secretary is preparing to announce approval of RCWP projects in early May 1981. The provisions of this rule are needed to provide authority for approving new projects beyond the 1980 fiscal year.

Accordingly, pursuant to the administrative rulemaking requirements as provided for by Secretary's Memorandum 1955 and 5 U.S.C. 553, it is found upon good cause that advance notice and other public rulemaking requirements with respect to this action are impracticable and contrary to the public interest. Thus, this interim rule shall become effective upon date of filing with the Director, Office of the Federal Register. Comments will be solicited for 60 days after publication of this document. This interim rule will be scheduled for review so that a final document discussing comments received and any amendments required can be published in the **Federal Register** as soon as possible. The emergency nature of this action also warrants this publication without completion of a Final Impact Statement. A final economic impact statement will be prepared after public comment has been received and will be available upon request.

The experimental RCWP provides long-term financial assistance to owners and operators having control of agricultural land. The purpose of this assistance is to install and maintain BMPs to control agricultural nonpoint source pollution to improve water quality.

One of the most cost-effective BMPs, in terms of reducing soil loss and thus reducing runoff of pollution, is the establishment of permanent vegetative cover on land previously devoted to crop production. However, converting cropland from other uses to vegetative cover or trees can result in loss of income for the farmer. In order to achieve the desired participation in RCWP, it is desirable that loss of income during the first twelve months following conversion of cropland to permanent vegetative cover or trees be included as part of the eligible cost of establishing BMPs where the vegetative cover is not harvested or grazed during that period.

To this end, the rule provides that assistance under the RCWP may include compensation for loss of income from crops during the first twelve months following conversion of cropland to permanent vegetative cover or trees to carry out the purposes of RCWP. Producers may be so compensated only when harvesting or grazing of the vegetative cover is restricted during the first twelve months following conversion, except the State ASC

committee, with the agreement of the State Extension agronomist, may approve harvesting during the first year with appropriate reduction in cost-sharing. Under the previous rule, it was not specifically stated that the producer could be compensated for loss of income for approved land use conversion to vegetative cover or trees.

Accordingly, the regulations at 7 CFR Part 700 are revised to read as follows:

Interim Rule

1. The table of contents is amended by revising the heading of the table of contents to read:

PART 700—EXPERIMENTAL RURAL CLEAN WATER PROGRAM

2. Section 700.1(a) is amended by removing the period at the end of the paragraph and inserting the phrase "and subsequent Appropriations."

3. Section 700.2 of the regulations is amended by revising paragraph (a) to read as follows:

§ 700.2 Objective.

* * * * *

(a) Improve impaired water use and quality in the approved project area in the most cost-effective manner possible in keeping with the provision of adequate supplies of food, fiber, and ■ quality environment.

* * * * *

§ 700.3 [Amended]

4. Section 700.3 of the regulations is amended by removing the period after the words "* * * the 1980 Appropriations Act" in the first sentence of the preamble and inserting in lieu thereof the words "and subsequent Appropriations.".

5. Section 700.4 of the regulations is amended by revising paragraph (h) to read as follows:

§ 700.4 Definitions.

* * * * *

(h) *BMP Costs.* The amount of money actually paid or obligated to be paid by the participant for equipment use, materials and services for carrying out BMPs or an identifiable unit of a BMP. Loss of income from crops during the first twelve months following the conversion of productive cropland to permanent vegetative cover or trees may be considered a part of the BMP cost for a project where it is determined that harvesting or grazing restrictions are necessary in order to establish properly the practice and the reimbursement for loss of income is necessary to provide incentives to achieve an adequate level of participation as defined in 7 CFR 700.4(a). If the participant uses personal resources, the cost includes the computed value of personal labor, equipment use, and materials.

* * * * *

§ 700.5 [Amended]

6. Section 700.5(g) of the regulations is amended (a) by removing the phrase "Economics, Statistics and Cooperative Service (ESCS)" and inserting in lieu thereof the phrase "Economics and Statistics Service (ESS)" and (b) by removing the acronym "ESCS" and inserting in lieu thereof the acronym "ESS" wherever it appears.

7. Section 700.5 of the regulations is amended by revising subparagraph (i)(7) to read as follows:

§ 700.5 Responsibilities.

* * * * *

(i) * * *

(7) Annually review the plans of work and recommend changes in the projects.

8. Section 700.5(j) of the regulations is amended by redesignating subparagraphs (2), (3), (4), (5), (6), and (7) as (3), (4), (5), (6), (7), and (8), respectively and by adding a new subparagraph (2) to read as follows:

§ 700.5 Responsibilities.

* * * * *

(j) * * *

(2) Insure that each project application referred to the state ASC committee includes a water quality monitoring plan which specifies the organization(s) responsible for general monitoring, including cost and budget breakdown by organization(s).

* * * * *

9. Section 700.15 of the regulations is amended by revising the heading of the Section to read "Transfer of Funds" and by revising paragraph (b) to read as follows:

§ 700.15 Transfer of funds.

* * * * *

(b) ASCS will transfer funds to the applicable agency or organization providing specific technical assistance and/or expanded informatioin and education. The transfer will be made on a project by project basis.

10. Section 700.21 of the regulations is amended by revising subparagraph (a), redesignating subparagraph (b) as subparagraph (c), and adding a new subparagraph (b) to read as follows:

§ 700.21 Eligible person (participant).

(a) Any land owner or operator whose land or activities in a project area is contributing to the area's agricultural nonpoint source water quality problems and who has an approved water quality plan is eligible to enter into an RCWP contract. For the purpose of this section, an eligible person is an individual, partnership, corporation (except corporations whose stock is publicly traded), Indian tribe, irrigation district or other entity.

(b) Federal, State or local governments, or subdivisions thereof (except irrigation districts), are not considered as an eligible person for RCWP contracts.

(c) This program will be conducted in compliance with all requirements respecting nondiscrimination as contained in the Civil Rights Act of 1964 and amendments thereto and the Regulations of the Secretary of Agriculture (7 CFR 15.1–15.12).

11. Section 700.24 of the regulations is amended by revising paragraph (a) to read as follows:

§ 700.24 Cost-sharing.

(a) The maximum cost-share for each project will be approved by the Secretary, taking into consideration the recommendation of the NCC. The Federal cost-share for each BMP shall not exceed 75 percent of the cost of carrying out the practice unless otherwise approved by the Administrator, ASCS.

* * * * *

(Pub. L. 96–108, 93 Stat. 821, 835.)

Signed at Washington, D.C., May 28, 1981.

Richard E. Lyng,

Acting Secretary.

[FR Doc. 81-16507 Filed 6-1-81; 8:45 am]

BILLING CODE 3410-05-M

Agricultural Marketing Service

7 CFR Part 953

Irish Potatoes Grown in the Southeastern States; Handling Regulation

AGENCY: Agricultural Marketing Service, USDA.

ACTION: Final rule.

SUMMARY: This regulation requires fresh market shipments of potatoes grown in designated counties of Virginia and North Carolina to be inspected and meet minimum grade and size requirements. It should promote orderly marketing of such potatoes and keep less desirable qualities and sizes from being shipped to consumers.

EFFECTIVE DATE: June 5, 1981.

FOR FURTHER INFORMATION CONTACT: Charles W. Porter, Chief, Vegetable Branch, F&V, AMS, USDA, Washington,

D.C. 20250, (202) 447–2615. The Final Impact Statement relating to this final rule is available upon request from Mr. Porter.

SUPPLEMENTARY INFORMATION: This final rule has been reviewed under USDA procedures and Executive Order 12291 and has been classified "not significant" and not a major rule.

William T. Manley, Deputy Administrator, Agricultural Marketing Service, has determined that this action will not have a significant economic impact on a substantial number of small entities because it would not measurably affect costs for the directly regulated handlers.

Marketing Agreement No. 104 and Order No. 953, both as amended, regulate the handling of potatoes grown in designated counties of Virginia and North Carolina. This program is effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674). The Southeastern Potato Committee, established under the order, is responsible for its local administration.

Notice of rulemaking was published in the May 8, 1981, **Federal Register** (46 FR 25625). The notice afforded interested persons through May 23, 1981, to file written comments on the proposal. None was filed.

This regulation is based upon recommendations made by the committee at its public meeting in Norfolk, Virginia, on April 9, 1981.

The grade and size requirements are the same as those which have been issued during past seasons. They are necessary to prevent potatoes of poor quality or undesirable sizes from being distributed to fresh market outlets. The regulation will benefit consumers and producers by standardizing and improving the quality of the potatoes shipped from the production area.

Again this season the minimum quantity exemption will be five hundredweight. This should relieve the burden on handling noncommercial quantities of potatoes and allow direct marketing outlets to operate in greater freedom.

Exceptions are provided to certain of these requirements to recognize special situations in which such requirements would be inappropriate or unreasonable.

Shipments will be allowed to certain special purpose outlets without regard to the grade, size, and inspection requirements, provided that safeguards are met to prevent such potatoes from reaching unauthorized outlets. Shipments for use as livestock feed will be so exempt because requirements for this outlet differ greatly from those for fresh market. Since no purpose would be served by regulating potatoes used for charity purposes, such shipments also will be exempt. Also, potatoes for most processing uses are exempt under the legislative authority for this part.

After consideration of all relevant matters, including the proposal in the notice, it is found that the following handling regulation will tend to effectuate the declared policy of the act by setting the minimum grade, size and inspection requirements which the Secretary has found should be maintained for orderly marketing.

It is further found that good cause exists for not postponing the effective date of this section until 30 days after its publication in the **Federal Register** (5 U.S.C. 553) in that (1) shipments of potatoes grown in the production area will begin on or about the effective date of June 5, 1981, (2) to maximize benefits to producers, the regulations should apply to as many shipments as possible during the marketing season, and (3) handlers under this part should be able to complete by June 5, 1981, all preparations to comply with the regulation, which is similar to those of previous marketing seasons.

§ 953.320 [Removed]

Section 953.320 (45 FR 56353, May 30, 1980) is hereby removed and a new § 953.321 is added as follows:

§ 953.321 Handling regulation.

During the period June 5 through July 31, 1981, no person shall ship any lot of potatoes produced in the production area unless such potatoes meet the requirements of paragraphs (a) and (b) of this section or unless such potatoes are handled in accordance with paragraphs (c) and (d) or (e) of this section.

(a) *Minimum grade and size requirements.* All varieties U.S. No. 2, or better grade, 1½ inches (38.1 mm) minimum diameter.

(b) *Inspection.* Except as provided in paragraphs (c) and (e), no handler shall ship any potatoes unless an appropriate inspection certificate covering them has been issued by the Federal-State Inspection Service and the certificate is valid at the time of shipment.

(c) *Special purpose shipments.* The grade, size, and inspection requirements set forth in paragraphs (a) and (b) of this section shall not apply to potatoes shipped for canning, freezing, "other processing" as hereinafter defined, livestock feed or charity, except that the handler of them shall comply with the safeguard requirements of paragraph (d) of this section.

(1) *Safeguards.* Each handler making shipments of potatoes for canning, freezing, "other processing," livestock feed, or charity in accordance with paragraph (c) of this section shall:

(1) Notify the committee of intent to ship potatoes pursuant to paragraph (c) of this section by applying on forms furnished by the committee for a Certificate of Privilege applicable to such special purpose shipments.

(2) Obtain an approved Certificate of Privilege;

(3) Prepare on forms furnished by the committee a special purpose shipment report for each such individual shipment; and

(4) Forward copies of such special purpose shipment report to the committee office and to the receiver with instructions to the receiver to sign and return a copy to the committee's office. Failure of the handler or receiver to report such shipments by promptly signing and returning the applicable special purpose shipment report to the committee office shall be cause for suspension of such handler's Certificate of Privilege applicable to such special purpose shipments.

(e) *Minimum quantity exemption.* Each handler may ship up to, but not to exceed, five hundredweight of potatoes any day without regard to the inspection and assessment requirements of this part, but this exception shall not apply to any portion of a shipment that exceeds five hundredweight of potatoes.

(f) *Definitions.* The term "U.S. No. 2" shall have the same meaning as when used in the U.S. Standards for Grades of Potatoes as amended (7 CFR 2851.1540 through 2851.1566), including the tolerances set forth in it. The term "other processing" has the same meaning as the term appearing in the act and includes, but is not restricted to, potatoes for dehydration, chips, shoestrings, starch, and flour. It includes only that preparation of potatoes for market which involves the application of heat or cold to such an extent that the natural form or stability of the commodity undergoes a substantial change. The act of peeling, cooling, slicing, dicing, or applying material to prevent oxidation does not constitute "other processing." All other terms used in this section shall have the same meaning as when used in Marketing Agreement No. 104 and this part, both as amended.

(g) *Applicability to imports.* Pursuant to § 8e of the act and § 980.1 "Import regulations" (7 CFR 980.1), Irish potatoes of the round white type imported during the effective period of this section shall meet the grade, size, quality, and

maturity requirements specified in paragraph (a) of this section.

(h) *Forms.* Forms required for operation under this part are subject to clearance by the Office of Management and Budget and are in the process of review. They shall not become effective until such time as clearance by the OMB has been obtained.

(Secs. 1–19, 48 Stat. 31, as amended (7 U.S.C. 601–674))

Dated: May 28, 1981, to become effective June 5, 1981.

D. S. Kuryloski,

Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[FR Doc. 81-16421 Filed 6-1-81; 8:45 am]

BILLING CODE 3410-02-M

DEPARTMENT OF JUSTICE

Immigration and Naturalization Service

8 CFR Part 214

Nonimmigrant Classes; Intra-Company Transferees; Admittance Extended to Three Years

AGENCY: Immigration and Naturalization Service.

ACTION: Final rule.

SUMMARY: This rule extends the maximum initial approval period for nonimmigrant visa petitions filed in behalf of aliens classified under section 101(a)(15)(L) of the Act (intracompany transferees) from one year to three years. Experience with the administration of this category of nonimmigrants shows that the extension of the initial approval period would greatly benefit the public without adversely affecting enforcement of the Act.

EFFECTIVE DATE: June 2, 1981.

FOR FURTHER INFORMATION CONTACT:

For general information:
Stanley J. Kieszkiel, Acting Instructions Officer, Immigration and Naturalization Service, 425 I Street NW., Washington, D.C. 20536. Telephone: (202) 633–3048

For specific information:
Bert C. Rizzo, Immigration Examiner, Immigration and Naturalization Service, 425 I Street NW., Washington, D.C. 20536. Telephone: (202) 633–3946

SUPPLEMENTARY INFORMATION: The Service's experience with administering the L–1 Program (nonimmigrant intra-company transferees) has shown that it is feasible at this time to extend the initial approval period for L–1 petitions from one to three years. Extending this period of initial approval to three years is consistent with the intent of Congress, which intent was expressed in House Report No. 91–851 of March 3, 1970 regarding the amendment to section 101(a)(15) of the Act (8 U.S.C. 1101(a)(15)) (by adding subparagraph (1). Subparagraph (1) was added by section 1(b) of Pub. L. 91–225 (84 Stat. 116) on April 7, 1970 to facilitate the entry into the United States of nonimmigrant intra-company transferees, eliminating the problem faced by American companies having offices abroad in transferring key personnel freely within the organization. This interchange of personnel is important since it offers an opportunity for an individual to advance within worldwide organizations without regard to nationality. It enables foreign nationals to learn American management techniques by placing them in key positions in the United States and thus, through such experience, enables them to more effectively manage the affiliate operations of U.S. companies when they return overseas. Such intracompany transfers contribute immeasurably to the growth of American entrerprise throughout the world and to the international trade of the United States.

A three year admission under the "L" type visa as an initial period appears adequate to accomplish the goal of the L-program. It will reduce the burden upon beneficiaries (intra-company transferees) and the Service to apply for and process applications for extensions because the initial period, previously limited to one year, proved to be insufficient time for the beneficiary to gain meaningful experience. Further, extending the initial period of approval to three years will not adversely affect the administration or enforcement of the L-program because the responsibility for maintaining status remains with the beneficiaries of these petitions.

Compliance with 5 U.S.C. 553 as to notice of proposed rulemaking is not required because the rule is less restrictive than the former rule and provides a greater benefit to the public.

Accordingly, Chapter I of Title 8 of the Code of Federal Regulations is amended:

PART 214—NONIMMIGRANT CLASSES

In § 214.2, paragraph (l)(1) is revised to read as follows:

§ 214.2 Special requirements for admission, extension, and maintenance of status.

* * * * *

(l) *Intra-company transferees*—(1) *Petition.* An alien defined in section 101(a)(15)(L) of the Act must be the beneficiary of an approved visa petition filed on Form I–129B. A separate petition for each beneficiary, with supporting documents, must be filed by the petitioner with the district director having administrative jurisdiction over the place in the United States where the beneficiary will perform temporary services. A petition approved under this paragraph is valid for the period of established need for the beneficiary's temporary services but not to exceed three years. The spouse and minor children of the beneficiary are entitled to the same nonimmigrant classification if accompanying or following to join him/her. However, neither the spouse nor child may accept employment unless the spouse or child is the beneficiary of an approved petition filed in his/her behalf. The petitioner, who need not be a United States resident, must be notified of the decision and, if the petition is denied, of the reason for the denial and of the right to appeal under Part 103 of this chapter.

* * * * *

(Secs. 103 and 214; 8 U.S.C. 1103 and 1184)

Certification

In accordance with 5 U.S.C. 605(b), this rule will not have a significant economic impact on a substantial number of small entities, nor is it a major rule as defined in E.O. 12291 because the rule is less restrictive than the former rule and provides a greater benefit to the public.

Dated: March 4, 1981.

David Crosland,

Acting Commissioner of Immigration and Naturalization.

[FR Doc. 81-16342 Filed 6-1-81; 8:45 am]

AGENCY: Animal and Plant Health Inspection Service, USDA.

ACTION: Final rule.

SUMMARY: The purpose of this amendment is to release a portion of Riverside County, a portion of Los Angeles County, and a portion of Orange County in California from areas quarantined because of exotic Newcastle disease. Surveillance activity indicates that exotic Newcastle disease

no longer exists in the areas quarantined.

EFFECTIVE DATE: May 27, 1981.

FOR FURTHER INFORMATION CONTACT: C. G. Mason, Chief, National Emergency Field Operations, Emergency Programs, Veterinary Services, USDA, Federal Building, Room 751, Hyattsville, Md. 20782, 301–436–8093.

SUPPLEMENTARY INFORMATION: This final action has been reviewed in conformce with Executive Order 12291 and has been classified as not a "major rule."

The Department has determined that this rule will have an annual effect on the economy of less than $100 million, will not cause a major increase in costs or prices for consumers, individual industries, Federal, State, or local government agencies, or geographic regions, and will not have any significant adverse effects on competition, employment, investment, productivity, or innovation, or on the ability of United States-based enterprises to compete with foreign-based enterprises in domestic or export markets.

Additionally, Dr. Harry C. Mussman, Adminstrator of the Animal and Plant Health Inspection Service, has determined that this action will not have a significant economic impact on a substantial number of small entities because it removes the quarantines imposed due to exotic Newcastle disease concerning only three premises, only one of which is owned by a small entity. That entity is a bird dealer, and there are hundreds of small entities in the country which are bird dealers.

Therefore, this amendment releases a portion of Riverside County, a portion of Los Angeles County, and a portion of Orange County in California from the areas quarantined because of exotic Newcastle disease. The restrictions pertaining to the interstate movement of poultry, mynah and psittacine birds, and birds of all other species under any form of confinement, and their carcasses and parts thereof, and certain other articles from quarantined areas, as contained in 9 CFR Part 82, as amended, will not apply to the released areas.

Accoringly, Part 82, Title 9, Code of Federal Regulations, is hereby amended in the following respects.

1. The authority citation for Part 82 is revised as follows:

Authority: Secs. 4–7, 23 Stat. 32, as amended; secs. 1 and 2, 32 Stat. 791–792, as amended; secs. 1–4, 33 Stat. 1264, 1265, as amended; secs. 3 and 11, 76 Stat. 130, 132; (21 U.S.C. 111–113, 115, 117, 120, 123–126, 134b, 134f); 37 FR 28464, 28477; 38 FR 19141).

2. In § 82.3(c)(2), relating to the State of California, the following premises are removed: (i) Norco Bird Farm, 841 Hillside Lane, Norco, Riverside County; (ii) Libby Marsh, 8333 College Avenue, Whittier, Los Angeles County; and (iii) Pat Weymouth, 17511 Leafwood, Tustin, Orange County. Accordingly, paragraph (c)(2) is removed and reserved.

§ 82.3 Imposition and removal of quarantine.

* * * * *

(c) * * *

(2) [Removed and Reserved]

* * * * *

This amendment relieves certain restrictions no longer deemed necessary to prevent the spread of exotic Newcastle disease, and must be made effective immediately to be of maximum benefit to affected persons. It does not appear that public participation in this rulemaking proceeding would make additional relevant information available to the Department.

Therefore, pursuant to the administrative procedure provisions in 5 U.S.C. 553, it is found upon good cause that notice and other public procedure with respect to this final rule are impracticable and contrary to the public interest and good cause is found for making this final rule effective less than 30 days after publication of this document in the **Federal Register**.

Further, it has been determined by E. C. Sharman, Assistant Deputy Administrator, Animal Health Programs, APHIS, VS, USDA, that the emergency nature of this final rule warrants publication without opportunity for public comment.

Done at Washington, D.C., this 28th day of May 1981.

Norvan L. Meyer,

Acting Deputy Administrator, Veterinary Services.

NUCLEAR REGULATORY COMMISSION

10 CFR Part 51

Alternative Site Issues in Operating License Proceedings; Correction of Effective Date

AGENCY: Nuclear Regulatory Commission.

ACTION: Correction of effective date of final rule.

SUMMARY: The Nuclear Regulatory Commission is correcting the effective date of its final rule, 10 CFR Part 51, "Licensing and Regulatory Policy and Procedures for Environmental Protection," to June 29, 1981. The final rule was published on May 28, 1981 (46 FR 28630). The original effective date was June 25, 1981.

EFFECTIVE DATE: The final rule published at 46 FR 28630, May 28, 1981 is corrected to read "June 29, 1981".

FOR FURTHER INFORMATION CONTACT: Bruce A. Berson, Office of the Executive Legal Director, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Telephone (301) 492–7678.

Dated at Washington, D.C., this 28th day of May 1981.

For the Nuclear Regulatory Commission.

Samuel J. Chilk,

Secretary of the Commission.

BILLING CODE 7590-01-M

DEPARTMENT OF COMMERCE

International Trade Administration

15 CFR Part 370

Commodity Control List Review Procedures

AGENCY: Office of Export Administration, International Trade Administration, U.S. Department of Commerce.

ACTION: Final rule.

SUMMARY: The Export Administration Regulations are being amended to meet the requirement of section 5(c)(3) of the Export Administration Act of 1979 that the Department of Commerce issue regulations providing for periodic review of national security controlled items on the Commodity Control List. These regulations inform interested parties how to submit written and/or oral comments and recommendations to assist in such reviews.

EFFECTIVE DATE: June 2, 1981.

FOR FURTHER INFORMATION CONTACT: Archie Andrews, Director, Exporters' Service Staff, Office of Export Administration, U.S. Department of Commerce, Washington, D.C. 20230. (Telephone: (202) 377–5247 or 377–4811).

SUPPLEMENTARY INFORMATION: The United States participates in an international security export control system. The Coordinating Committee (COCOM) of this system reviews proposals to ship strategic commodities and technical data to certain communist countries. The Commodity Control List (CCL) includes all commodities (except those specifically controlled for export

by another department or agency of the U.S. Government) that are restricted for export for national security purposes.

Section 5(c)(3) of the Export Administration Act of 1979 requires that the Department of Commerce issue regulations that provide for review of national security controlled items on the Commodity Control List. This addition to the Regulations briefly outlines how the U.S. Government conducts a CCL review. It explains how technical information is collected and evaluated in preparation for formulating U.S. proposals for reducing or increasing export restrictions administered by COCOM countries for international security purposes. This change explains how interested parties may submit recommendations to the Department of Commerce's Technical Advisory Committees, which in turn may include such recommendations in their reports to the Technical Task Groups that advise the Government on its proposals to COCOM. Also included is the address to which comments are sent, as well as useful information to include in any recommendation.

Rulemaking Requirements

Section 13(a) of the Export Administration Act of 1979 (Pub. L. 96–72, 50 U.S.C. app. 2401 *et seq.*) (the "Act") exempts regulations promulgated under the Act from the public participation in rulemaking procedures of the Administrative Procedure Act. Section 13(b) of the Act, which expresses the intent of Congress that where practicable "regulations imposing controls on exports" be published in proposed form, is not applicable because these regulations do not impose new controls on exports. Therefore, this regulation is issued in final form. Although there is no formal comment period, public comments on this regulation are welcome on a continuing basis. This rule will not have a significant economic impact on a substantial number of small business entities because it does not impose any additional costs or other regulatory burdens on them. This rule does not impose a burden under the Paperwork Reduction Act of 1980, 44 U.S.C. 3501 *et seq.* This regulation is not a major rule within the meaning of section 1(b) of Executive Order 12291 (46 FR 13193, February 19, 1981).

Accordingly, Part 370 of the Export Administration Regulations (15 CFR Part 368 *et seq.*) is amended as follows:

Paragraph (b) of § 370.1 is revised to read as follows:

§ 370.1 General policy.

* * * * *

(b) Continuing Review of Commodity Controls.

(1) In accordance with provisions of the Export Administration Act of 1979, the Department of Commerce reviews the Commodity Control List (CCL) at least once every 3 years in the case of multilateral controls, and annually in the case of all other controls. This review is necessary to assure that validated export licenses are required for the purposes cited in § 370.1(a) above. Particular emphasis is placed in the Act on the review of commodities controlled for national security reasons. In this connection, commodities presently under validated license control for national security purposes are reviewed to determine whether such control is still warranted, and commodities that may be exported under general license to most destinations are examined to ascertain whether national security validated license controls should be extended to additional Country Groups. The review ensures that necessary revisions of the CCL are issued promptly.

(2) U.S. Government recommendations that particular commodities be included in the CCL are based on the technical expertise and justifications provided by Technical Task Groups (TTG's), composed of technical representatives of various government agencies. The TTG's in turn, depend on input from various sources, including the Technical Advisory Committees (TAC's) of the Department of Commerce. The TAC's welcome written and oral commodity review recommendations from government agencies, exporters and other interested parties.

(3) The following factors are usually considered during review of any commodity:

(i) Its essential features (distinguishing physical or operating characteristics; variations between types, models, grade, etc.; and the technical and strategic significances of these differences);

(ii) Its civilian uses;

(iii) Its military or military-support uses;

(iv) Its end-use pattern in the United States;

(v) Its technological state of development (whether it involves a new product and represents the current state-of-the-art; whether it contains advanced technology that can feasibly be extracted);

(vi) Its availability abroad (whether the same or a comparable commodity is available from other non-Communist countries, and where and by whom; whether the foreign product is manufactured abroad with U.S.-origin technology or components).

* * * * *

(4) Recommendations submitted to TAC's should, if possible, describe the commodity, identify the commodity by Export Control Commodity Number and provide information regarding uses (military or military-support vs. civilian) and foreign availability in sufficient detail to permit thorough evaluation in accordance with the guidelines set forth above. All comments, recommendations, and requests for oral presentations should be addressed to Director, Office of Export Administration, U.S. Department of Commerce, P.O. Box 273, Washington, D.C. 20044. Brochures or other literature pertaining to the production or availability abroad of a comparable commodity will prove most helpful.

(Secs. 3, 5, 13, and 15, Pub. L. 96–72, 93 Stat. 503, 50 U.S.C. app. 2401 *et seq.*; Executive Order No. 12214 (45 FR 29783, May 6, 1980); Department Organization Order 10–3 (45 FR 6141, January 25, 1980); International Trade Administration Organization and Function Order 41–1 (45 FR 11862, February 22, 1980) and 41–4 (45 FR 65003, October 1, 1980))

Dated: May 8, 1981.

William V. Skidmore,

Director, Office of Export Administration, International Trade Administration.

FEDERAL TRADE COMMISSION

16 CFR Part 13

[Docket No. C-3066]

Godfrey Co.; Prohibited Trade Practices, and Affirmative Corrective Actions

AGENCY: Federal Trade Commission.

ACTION: Final order.

SUMMARY: In settlement of alleged violations of federal law prohibiting unfair acts and practices and unfair methods of competition, this consent order requires, among other things, a Waukesha, Wis. operator of a retail grocery chain to divest within six months to a Commission-approved acquirer or acquirers, seven specified retail grocery stores located in "The Milwaukee SMSA." The company is also prohibited, for a period of ten years, from making any acquisition in the retail grocery store business involving four or more stores without prior Commission approval.

DATES: Complaint and order issued May 14, 1981.*

FOR FURTHER INFORMATION CONTACT: FTC/C, E. Perry Johnson, Washington, D.C. 20580, (202) 523–3601.

SUPPLEMENTARY INFORMATION: On Wednesday, January 21, 1981, there was published in the **Federal Register**, 46 FR 6014, a proposed consent agreement with analysis In the Matter of Godfrey Company, a corporation, for the purpose of soliciting public comment. Interested parties were given sixty (60) days in which to submit comments, suggestions or objections regarding the proposed form of order.

Comments were filed and considered by the Commission. The Commission has ordered the issuance of the complaint in the form contemplated by the agreement, made its jurisdictional findings and entered its order to cease and desist, as set forth in the proposed consent agreement, in disposition of this proceeding.

The prohibited trade practices and/or corrective actions, as codified under 16 CFR Part 13, are as follows: Subpart—Acquiring Corporate Stock or Assets: § 13.5 Acquiring corporate stock or assets, 13.5–20 F.T.C. Act.

(Sec. 6, 38 Stat. 721; 15 U.S.C. 46. Interpret or apply sec. 5, 38 Stat. 719, as amended; sec. 7, 38 Stat. 731, as amended; 15 U.S.C. 45, 18)

Carol M. Thomas,

Secretary.

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

18 CFR Part 141

[Docket No. RM81-3; Order No. 146]

Final Rule To Eliminate Requirement of Federal Entities To File Report for Electric Utilities, Licensees and Others, "Annual Report (Class A and Class B)"

Issued May 26, 1981.

AGENCY: Federal Energy Regulatory Commission, DOE.

ACTION: Final rule.

SUMMARY: The Federal Energy Regulatory Commission (Commission) hereby eliminates the requirement for Federal entities, which generate, transmit, distribute or sell electric energy, to file the "Annual Report for Electric Utilities, Licensees and Others (Class A and Class B)," FPC Form No. 1 and its modified versions, which were previously prescribed by 18 CFR 141.1.

The information collected in filings by these Federal entities of Form No. 1 and its modified versions includes summary financial data, balance sheet supporting data, income statement supporting data and electric plant, sales, operating and statistical data.

These Federal Form No. 1 data have been collected in conjunction with the Commission's headwater benefits program and Federal rate cases. Some of this information supplements and duplicates other data submitted for assessment of headwater benefits and for Federal rate filings. The Commission has determined that these data are not useful for the performance of the Commission's regulatory responsibilities and should accordingly be eliminated in their entirety.

There is also currently pending at the Commission a rulemaking proceeding to revise Form No. 1—the major annual report filed with the Commission by *non*-Federal (*i.e.*, investor-owned) Class A and Class B electric utilities, licensees and other entities. (*See* Notice of Proposed Rulemaking, issued July 10, 1980, Docket No. RM80–55, 45 FR 47704, July 16, 1980.) That proceeding is entirely separate and distinct from the instant rulemaking, which solely addresses the versions of Form No. 1 filed by *Federal* entities that generate and sell electricity.

The Economic Regulatory Administration and the Office of Conservation and Renewable Energy in the Department of Energy have stated that they utilize the data reported by Federal entities pursuant to § 141.1. Either or both of these agencies may assume collection of this information under their own authority. In order for these agencies to have sufficient time to complete rulemaking proceedings to assume this responsibility, the Commission is delaying the effective date of the elimination of this reporting requirement from its regulations until December 31, 1981.

By an order of November 5, 1980, however, the Commission suspended the application of § 141.1 to Federal entities for calendar years 1980 and thereafter until further notice; thus § 141.1 reports from Federal entities are *not* now required for calendar years 1980 or 1981. Unless the Department of Energy or other Federal entity requires the collection of these data, no further Federal versions of Form No. 1 will be required to be submitted.

EFFECTIVE DATE: December 31, 1981.

FOR FURTHER INFORMATION CONTACT: Ellen Brown, Office of Program Management, Federal Energy Regulatory Commission, 825 North Capitol Street, N.E., Room 3317, Washington, DC 20426, (202) 357–8182.

SUPPLEMENTARY INFORMATION:

Issued: May 26, 1981.

In the matter of an Annual Report for Electric Utilities, Licensees and Others (Class A and Class B): Filings by Federal Entities Pursuant to § 141.1; Docket No. RM81–3, Order No. 146, final rule.

By this rulemaking the Federal Energy Regulatory Commission (Commission) eliminates the requirement for Federal entities to file information with the Commission, pursuant to 18 CFR 141.1, "Form No. 1, Annual Report for Electric Utilities, Licensees and Others (Class A and Class B)." This rulemaking is part of the Commission's ongoing program to evaluate all of the data which are required by the Commission for regulatory purposes and to eliminate unnecessary reporting requirements.

There is also currently pending at the Commission a rulemaking proceeding to revise Form No. 1—the major annual report filed with the Commission by *non*-Federal (*i.e.*, investor-owned) Class A and Class B electric utilities, licensees and other entities. (*See* Notice of Proposed Rulemaking, issued July 10, 1980, Docket No. RM80–55, 45 F.R. 47704, July 16, 1980.) That proceeding is entirely separate and distinct from the instant rulemaking which relates only to *Federal* entities that generate and sell electricity.

I. Background

A. Requirement to File Federal Form No. 1

The Commission is authorized to require the submission of information pursuant to sections 303 and 311 of the Federal Power Act (16 U.S.C. 792–828c). Section 141.1 of the Commission's regulations requires the annual filing of information from Class A and Class B electric utilities, licensees and other entities, including Federal entities engaged in the generation, transmission, distribution or sale of electric energy.[1] In brief, the prescribed filing includes summary financial data; balance sheet supporting data; income statement supporting data; and electric plant, sales, operating and statistical data.

The reports which have been submitted by Federal entities pursuant

[1] A Class A electric utility, licensee or other entity is one having annual electric operating revenues of $2,500,000 or more. A Class B electric utility, licensee or other entity is one having annual electric operating revenues of $1,000,000 or more but less than $2,500,000.

to § 141.1 are all modified versions of Form No. 1. The modified Form No. 1 reports have been filed by a variety of Federal entities, including Power Marketing Administrations within the Department of Energy, and the Water and Power Resources Service and Bureau of Indian Affairs within the Department of Interior. Another modified version of Form No. 1 is "Form No. 1002," an unofficial version of the Form No. 1 which has been filed by several projects operated by the Army Corps of Engineers and certain other agencies.

These Federal reports were required to be filed on or before December 31 of each year and were based on data from the immediately preceding fiscal year (October 1 through September 30). On November 5, 1980, however, the Commission issued an order to suspend, until further notice, the 1980 filing and future filings of information by Federal entities pursuant to 18 CFR 141.1 (45 FR 74715, November 12, 1980). The Notice of Proposed Rulemaking to eliminate these Federal filings was issued on December 30, 1980 (Docket No. RM81–3, 46 FR 1743, January 7, 1981).

B. Use of the Federal Form No. 1 Data by the Commission

The information collected from Federal agency filings of the Form No. 1 [2] has been used in the Commission's headwater benefits program (*see* 18 CFR 11.25–11.31, 13.1) and in Federal rate cases (*see* Delegation Order No. 0204–33, December 21, 1978, 43 FR 60636, December 28, 1978, and the Pacific Northwest Electric Power Planning and Conservation Act of 1980, Pub. L. 96–501).

The Commission stated in the December 30, 1980 Notice of Proposed Rulemaking that some of the information in the Form No. 1 Federal filings supplements and duplicates data submitted to the Commission for assessment of headwater benefits and for Federal rate filings. Because the data filed by Federal entities pursuant to § 141.1 were not useful for the performance of the Commission's regulatory responsibilities, the Commission proposed to eliminate these data in their entirety.

The Notice of Proposed Rulemaking further provided that revisions to the Commission's headwater benefits and Federal rate filing requirements are expected in 1981 and may include data similar to those proposed for deletion. In the meantime, the Commission would continue to use current Federal rate and headwater benefits submissions and specific data requests to obtain information needed for review in these areas.

Finally, the Commission noted that the Energy Information Administration (EIA) may require the collection of the data for itself or for some other sector within the Department of Energy. Another Federal agency could also require these data. The Commission provided that if EIA or another agency should make such a determination during this rulemaking proceeding, the Commission would issue a final rule with a delayed effective date which would formally eliminate the requirement for Federal entities to file Form No. 1 with the Commission. During this period of time before the final rule became effective, such agencies could justify the need for the data and receive approval for the collection of this information under their own authority.

The Commission specifically requested that comments address the following questions:

1. Does the proposed elimination of data affect any Commission regulatory function?
2. Is there any reason for continued collection of these data by another Federal agency? Suggestions for the continued collection of data which have been proposed for elimination should identify the proper agency and the purpose for the proposed collection of the data.

III. Summary of Comments

The Commission received six comments in response to the Notice of Proposed Rulemaking in this docket. [3]

East Kentucky Power Cooperative said that the proposed elimination of data would not affect any of the regulatory functions of the Commission and that the continued collection of the data by another Federal agency would not be necessary.

The Office of the Chief of Engineers of the Department of the Army concurred in the proposed elimination of the data. (Sixty-seven of the eighty-one Federal Form No. 1 reports which have been collected by the Commission were filed by projects under the control of the Chief of Engineers.)

South Carolina Electric and Gas Company (SCE&G) opposed the elimination of the entire requirement for Federal entities to file Form No. 1 although it did not oppose "streamlining" the requirement. SCE&G put forth three arguments against elimination of this requirement. First, the data in these filings did serve a Commission regulatory function by providing both the Commission and regulated (investor-owned) utilities with important information for deciding price squeeze issues. Second, the collection of the data served the "public's right to know." SCE&G contented that while information about investor-owned utilities could be obtained by the public from their Federal, State and (often) local regulatory authorities, information about publicly-owned utilities was not so readily available. According to SCE&G, elimination of this requirement for Federal entities would make matters worse and contradict the spirit of the Public Utility Regulatory Policies Act of 1978 (PURPA) (16 U.S.C. 2601–2645) which prescribed greater and more meaningful public dissemination of utility operating data. Finally, SCE&G argued that public power operations have historically served as a comparative model for investor-owned utility operations. If information about these Federal facilities became unavailable, it would be difficult to use such facilities as a model. Furthermore, it would be unfair for investor-owned utilities to be subjected to a different measuring standard than their "models."

Southwestern Power Administration (Southwestern), which files the Federal Form No. 1 and also uses the Form No. 1002 for projects constructed and operated by the United States Army Corps of Engineers (USCE), also objected to the complete deletion of this Federal reporting requirement. Southwestern stated that the data were in a concise format and were consistent and simple to extract for internal use. Without this form, Southwestern asserted that it would have to develop its own format to collect information necessary to analyze critical operating trends. Furthermore, such a revised format could be used only for internal use, while the current Form No. 1 is used as an official document. Southwestern argued that this proposed deletion would result in very little, if any, reduction in its burdens.

Finally, Southwestern noted that certain of the data collected in the current Form Nos. 1 and 1002 are used for Federal rate filings and power repayment studies. These data would have to be obtained elsewhere or in a new form to replace Form Nos. 1 and 1002. Southwestern did, however, favor some type of revision to the current Federal Form No. 1 requirements.

Comments received from both the Energy Information Administration

[2] All references to the Federal filings of Form No. 1 in this rulemaking include Federal filings of the Form No. 1002.

3 Energy Information Administration, Economic Regulatory Administration, Southwestern Power Administration (all within the Department of Energy); Office of the Chief of Engineers (Department of the Army); East Kentucky Power Cooperative, Incorporated; South Carolina Electric and Gas Company.

(EIA) and the Economic Regulatory Administration (ERA) [4] stated that ERA is interested in assuming the responsibility for collecting the data reported in the Federal Form No. 1. ERA added that certain of the information reported therein is not available elsewhere and that this form is more detailed than other sources of data respecting Federal utilities.

IV. Conclusions

After careful consideration of the comments submitted in this proceeding, the Commission concludes that it can no longer justify the collection of the data which Federal entities have previously filed with the Commission pursuant to § 141.1; in its current format, the information is not useful for the performance of the Commission's regulatory responsibilities. As a matter of policy, the Commission believes it should not require the reporting of data which are not supportive of its regulatory responsibilities. However, ERA has determined that the collection of data in the Federal Form No. 1 is necessary to discharge its statutory responsibilities. In addition, the Office of Conservation and Renewable Energy within the Department of Energy also uses the data reported in the Federal Form No. 1.

In consideration of the comments of SCE&G, the Commission offers the following responses: First, SCE&G argued that the Federal Form No. 1 filings provided information for deciding price squeeze issues, but failed to specify the way in which the information was used for this purpose. Furthermore the Commission has never encountered a price squeeze issue in any case involving a Federal entity since *F.P.C. v. Conway Corporation* first established the price squeeze issue (426 U.S. 271 (1976); *aff'g* 510 F.2d 1264 (D.C. Cir. 1975)).

Second, SCE&G stated that the collection of the Federal Form No. 1 data served the public's right to know and that the reporting requirement provided a model for investor-owned utility operations. The Commission believes that it should not continue to require the reporting of information which is not used in its decisional process since the data that the Commission needs for regulatory purposes can be obtained from headwater benefits and Federal rate submissions and from specific requests for information. However, energy information which is vital to the public may be collected by the Energy Information Administration (EIA) which is specifically authorized by the Department of Energy Organization Act (42 U.S.C. 7101–7352) to gather that kind of data. In the absence of such a general information-collection role, the Commission will not continue to require this additional reporting burden.

Finally, SCE&G contends that the elimination of the Federal Form No. 1 data contradicts the policy of PURPA. The Commission believes that this rulemaking does not violate PURPA, for the following reasons: (1) The data gathered by the Commission pursuant to PURPA (section 133) are used by State commissions to enhance the goals of PURPA; (2) State commissions have no ratemaking responsibilities with respect to Federal entities; (3) the Commission has no authority to confirm, approve or disapprove rates on the basis of PURPA goals; and (4) there is no correlation between PURPA and the Federal Form No. 1. The Commission recognizes that the "spirit" of PURPA favors the dissemination of public utility information. However, upon balancing the significant burden of collecting data which are not used in the performance of commission statutory responsibilities against the general need for the information by the public and by utilities as a model for their own operations, the Commission has determined that elimination of the burden is a more essential consideration with respect to the Federal Form No. 1.

With regard to the comments of Southwestern, this Commission believes Southwestern will not have to develop a new form to collect similar data for its internal use. While Southwestern may decide to continue collecting data in the format previously set out in § 141.1, it will no longer be required *by Commission regulations* to collect or file such data.

The Commission has forwarded to ERA and to the Office of Conservation and Renewable Energy copies of the comments received in this docket because these agencies have shown considerable interest in assuming the responsibility for this data collection.

The Commission issues this final rule to discontinue filings by Federal entities pursuant to § 141.1 with an effective date of December 31, 1981. The ERA and the Office of Conservation and Renewable Energy should, therefore, have a sufficient time to complete their own rulemaking proceedings to effect similar Federal Form No. 1 data collection and to receive clearance from the Office of Management and Budget for the collection of these data. The final rule will actually formalize the *status quo* because the requirement for Federal entities to file Form No. 1 has been suspended since November 5, 1980.

V. Public Procedure and Effective Date

The Commission has complied with 5 U.S.C. 553 by providing public notice and an opportunity to participate in this rulemaking. The final rule in this docket will be issued with an effective date of December 31, 1981 so that ERA and the Office of Conservation and Renewable Energy may institute their own rulemaking proceedings to assume the responsibility for collecting data from Federal entities similar to those required by § 141.1 of the Commission's regulations.

[Federal Power Act, 16 U.S.C. 792–828c; Department of Energy Organization Act, 42 U.S.C. 7101–7352; E.O. 12009, 3 CFR 142 (1978)]

In consideration of the foregoing, the Commission herein eliminates the requirement for Federal entities to file the "Form No. 1, Annual Report for Electric Utilities, Licensees and Others (Class A and Class B)," including all modified versions of such Form No. 1, in accordance with 18 CFR 141.1, and revises Part 141 of Chapter I, Title 18 of the Code of Federal Regulations, as set forth below.

By direction of the Commission.

Kenneth F. Plumb,

Secretary.

In section 141.1 paragraphs (b)(1) and (c)(1) are amended and paragraphs (b)(2) and (c)(2) are revised as follows:

§ 141.1 FPC Form No. 1, Annual Report for Electric Utilities, Licensees, and Others (Class A and Class B).

* * * * *

(b) (1) Each Class A electric utility, licensee, and other entity, *i.e.*, each corporation, person, or licensee as defined in section 3 of the Federal Power Act (16 U.S.C. 792, *et seq.*), including any agency, authority or other legal entity or instrumentality engaged in generation, transmission, distribution, or sale of electric energy. * * *

(2) This report form is not prescribed for any agency, authority or instrumentality of the United States, nor is it prescribed for municipalities as defined in section 3 of the Federal Power Act; *i.e.*, a city, county, irrigation district, drainage district, or other political subdivision or agency of a State competent under the laws thereof to carry on the business of developing,

[4] ERA cited the following legal authority for its own proposed continuation of data collection by means of the Federal Form No. 1: Federal Power Act, at section 202(a); Federal Energy Administration Act of 1974 (15 U.S.C. 761–790(h) at sections 5(a) and (b), 13(b)); Energy Supply and Environmental Coordination Act of 1974 (15 U.S.C. 791–798) at section 11(a) and (e); Department of Energy Delegation Order No. 0204–4 (October 1, 1977).

transmitting, utilizing, or distributing power.

(c) (1) Each Class B electric utility, licensee, and other entity *i.e.*, each corporation, person, or licensee as defined in section 3 of the Federal Power Act, including any agency, authority or other legal entity or instrumentality engaged in generation, transmission, distribution or sale of electric energy,

* * * * *

(2) This report form is not prescribed for any agency, authority or instrumentality of the United States, nor is it prescribed for municipalities as defined in section 3 of the Federal Power Act, *i.e.*, a city, county, irrigation district, drainage district, or other political subdivision or agency of a State competent under the laws thereof to carry on the business of developing, transmitting, utilizing, or distributing power.

DEPARTMENT OF THE TREASURY

Customs Service

19 CFR Part 101

[T.D. 81-160]

Field Organization of the Customs Service; General Provisions; Amendment

AGENCY: U.S. Customs Service, Department of the Treasury.

ACTION: Final rule.

SUMMARY: This document: (1) changes the field organization of the Customs Service, by (a) consolidating the Houston and Galveston, Texas, Customs districts (Region VI) and consolidating the Customs ports of entry of Houston and Galveston in the new Houston-Galveston district and (b) transferring jurisdiction over Morris County, New Jersey, from Region III, Baltimore, Maryland, to Region II, New York, New York; and, (2) clarifies the geographical boundaries of the Port Arthur Customs port of entry (Region VI).

Consolidating the Customs districts will significantly reduce administrative salaries and expenses without impairing services to area businesses or to the general public. Consolidating the ports of entry will simplify vessel entry and clearance procedures and reduce overtime expenses and paperwork for all parties involved. The other changes merely conform the Customs Regulations to changes previously made.

EFFECTIVE DATE: July 2, 1981.

FOR FURTHER INFORMATION CONTACT: Renee DeAtley, Office of Inspection, U.S. Customs Service, 1301 Constitution Avenue, NW., Washington, D.C. 20229 (202-566-8157).

SUPPLEMENTARY INFORMATION:

Background

Houston-Galveston, Texas

As part of a continuing program to obtain more efficient use of its personnel, facilities, and resources, and to provide better service to carriers, importers, and the public, the Customs Service published a notice of proposed rulemaking in the **Federal Register** on December 16, 1980 (45 FR 82665), proposing to consolidate: (1) the Houston, Galveston, and Port Arthur, Customs districts under the Houston district; and, (2) the Galveston and Houston ports of entry in the new Houston-Galveston district.

Inasmuch as the three districts are located near one another and perform similar services, it was estimated that the proposed consolidation would significantly reduce administrative salaries and expenses without impairing Customs ability to provide services to area businesses or to the general public.

Because vessels moving between Galveston and Houston must enter and clear Customs at both ports of entry, as required by 19 U.S.C. 1443 and 1444, it was anticipated that consolidation of the ports would allow vessels to enter and move between various locations along the 43-mile stretch of the channel between Galveston and Houston by entering and clearing at either port. In addition, under the single-port concept, merchandise unladen at Galveston destined for Houston could arrive at Galveston, be shipped to Houston without bond, and be entered for Customs purposes at Houston. Importers also could make entry at Houston and pick up merchandise at Galveston.

It was anticipated that the proposed consolidation also would reduce penalties incurred if carriers failed to enter and properly clear merchandise being shipped between Galveston and Houston; reduce overtime because carriers frequently traveled between the ports outside normal business hours; and reduce paperwork for carriers, importers, and Customs because of the reduction of penalty cases and after hour entries.

The notice of proposed rulemaking invited interested parties to submit comments regarding the proposed changes on or before February 17, 1981. In response, approximately 60 comments were received from individuals, Members of Congress, maritime brokers, shippers and agents, customhouse brokers, Chambers of Commerce, port commissioners, labor unions, municipalities, banks, truckers, warehouse operators, and trade associations.

A majority of the commenters favor the proposal. They are of the opinion that the proposal will eliminate unnecessary paperwork, make it easier to move ships and cargo within the consolidated port, simplify vessel clearance and entry procedures, reduce penalties involved by moving vessels and cargo between separate ports, enhance trade flow throughout the area without adversely affecting any parties, streamline the internal operations of Customs, save manpower and tax dollars, and generally provide more efficient service to the shipping and importing communities. They believe that the advantages accruing from the changes will outweigh the disadvantages.

Those commenters opposing the proposal argue that it will not offer the advantages claimed and that the same goals can be achieved without the consolidation.

Many of the commenters oppose the inclusion of the Port Arthur district in the combined Houston-Galveston district.

After further review, Customs has determined that, at this time, it is not in the public interest to include Port Arthur in the combined Houston-Galveston Customs district. Accordingly, the proposal is being modified to retain Port Arthur as a separate district. However, Customs will continue to monitor the workload at Port Arthur and study the possibility of including it in the combined district at some other time.

Certain commenters express the opinion that the quality and quantity of service will be reduced without a corresponding savings in paperwork, money, and resources, and that the proposal will be costly and inconvenient for Customs and the public.

No evidence has been presented to indicate that the quality and quantity of service will be reduced. Presently, several positions are devoted solely to the administration of the district and do not directly serve the public. Following the consolidation, the salaries and expenses of these positions could be saved and the employees could be transferred to other positions directly serving the public. Further, Customs does not anticipate that the change will result in additional costs either to it or to the public.

Other commenters question whether consolidation of the districts will simplify entry and clearance procedures.

As stated in the notice of December 16, 1980, entry and clearance procedures will be simplified under the proposed consolidation of the *ports* of entry of Galveston and Houston. The *district* consolidation will not affect entry and clearance procedures.

Some commenters are of the opinion that the proposal would hinder growth in the area.

Customs does not agree. By making the consolidation, Customs will be able to respond more effectively to changing work loads and to requests for additional Customs service by reassigning personnel to locations where demands for service have increased significantly. Increased staffing depends upon the availability of additional manpower and these districts now must compete with other districts for scarce resources and manpower. By pooling manpower, Galveston and Houston could meet future demands for additional services without additional resources.

Certain commenters believe that consolidation of the Houston and Galveston ports of entry will not work. They state that the ports will lose control over vessels and merchandise entering in the consolidated port, creating additional paperwork, expense, and delays for importers receiving merchandise because paperwork would be processed in one location and the goods entered at another.

Customs does not anticipate that port consolidation will create more paperwork or increase costs for importers. Vessels now must enter and clear at both Galveston and Houston, making it necessary to prepare the paperwork for entering and clearing at each stop. An entry fee also is collected at both locations. Following consolidation, the fee will be collected only once. Merchandise and vessel control will be no different at the Houston-Galveston consolidated port than at any other similar sized port handling the same volume of business.

Several commenters request that, following consolidation, Customs maintain separate port Codes for the Houston and Galveston ports of entry.

To facilitate accurate recordkeeping within the consolidated port of entry, each port will retain its port number.

Customs has determined to adopt the proposal with the above noted modifications. Accordingly, the Houston and Galveston, Texas, districts are consolidated into a single Houston-Galveston, Texas, Customs district and the Customs ports of entry of Houston and Galveston, Texas, are consolidated in the new Houston-Galveston, Texas, Customs port of entry.

The district limits of the Houston-Galveston district include all of the area in the existing Houston and Galveston districts.

The port limits of the combined Houston-Galveston port encompass the territory within the present Houston and Galveston port limits.

Morris County, New Jersey

On May 9, 1978, Customs published a document in the **Federal Register** (T.D. 78-130, 43 FR 19832) changing the field organization of the Customs Service to, among other things, transfer jurisdiction over Morris County, New Jersey, from Region III, Baltimore, Maryland, to Region II, New York, New York. However, the conforming change was not made to the Customs Regulations. To properly reflect the change, the Customs Regulations now must be amended.

Port Arthur District Boundaries

The list of Customs districts in Region VI, in the table of Customs regions, districts, and ports of entry in section 101.3(b), Customs Regulations (19 CFR 101.3(b)), indicates that all of Chambers County is included in the Galveston district. However, from the time of its establishment as the Sabine Customs collection district in 1908, the western district boundary of Port Arthur has included the area south along the east boundary of Liberty County to the Gulf of Mexico which encompasses a portion of Chambers County between the Liberty County border extended to the Gulf of Mexico and the Chambers/Jefferson County border. Since the implementation of Executive Order No. 2702, on September 7, 1917, the remainder of Chambers County has been included in the Galveston District.

To clarify the district limits of both Port Arthur and Galveston, it is necessary to amend the description of the Port Arthur district limits to read as follows:

That part of the State of Texas from Sabine Pass North along the State line to the north boundary line of Shelby County; west to the Neches River; down the western shore of said river to the north boundary of Jefferson County; westerly along said boundary to the east boundary of Liberty County; south along the east boundary of Liberty County to the Gulf of Mexico, encompassing that portion of Chambers County between the Liberty County border extended to the Gulf of Mexico and the Chambers/Jefferson County border; also the parishes of Cameron and Calcasieu in the State of Louisiana.

Changes in the Customs Field Organization

Under the authority vested in the President by section 1 of the Act of August 1, 1914, 38 Stat. 623, as amended (19 U.S.C. 2), and delegated to the Secretary of the Treasury by Executive Order No. 10289, September 17, 1951 (3 CFR 1949-1953 Comp. Ch. II), and pursuant to authority provided by Treasury Department Order No. 101-5 (46 FR 9336), the following changes in the Customs field organization are adopted:

1. The Houston and Galveston, Texas, Customs districts are consolidated into a single Houston-Galveston, Texas, Customs district. The limits of the consolidated district include all of the territory currently in the Houston and Galveston, Texas, districts (the combined port of Houston-Galveston including territory described in T.D. 54409—Port Bolivar, and Texas City), Corpus Christi, Freeport, and Port Lavaca-Point Comfort, all in the State of Texas).

2. The Customs ports of entry of Houston and Galveston, Texas, are consolidated in the new Houston-Galveston, Texas, Customs district. The port limits of the consolidated port encompass Galveston, Texas, including Port Bolivar and Texas City, Texas, and the area within the present Houston, Texas, limits including territory described in T.D. 54409.

3. Jurisdiction over Morris County, New Jersey, is transferred from Region III, Baltimore, Maryland, to Region II, New York, New York.

4. The geographical boundaries of the Port Arthur, Texas, Customs port of entry are clarified to read as follows:

That part of the State of Texas from Sabine Pass north along the State line to the north boundary line of Shelby County; west to the Neches River; down the western shore of said river to the north boundary of Jefferson County; westerly along said boundary to the east boundary of Liberty County; south along the east boundary of Liberty County to the Gulf of Mexico, encompassing that portion of Chambers County between the Liberty County border extended to the Gulf of Mexico and the Chambers/Jefferson County border; also the parishes of Cameron and Calcasieu in the State of Louisiana.

Amendments to the Regulations

§ 101.3 [Amended]

To reflect these changes, the following modifications are made to § 101.3(b), Customs Regulations (19 CFR 101.3(b)):

1. In the list of Customs districts and ports of entry in Region VI, Houston, Texas, revise the entry for Galveston, Texas to read as follows:

Name and headquarters	Area	Ports of entry
Houston-Galveston, Texas.....	That part of the State of Texas lying south of lat. 32° N. and that part of the State of Texas lying east of long. 97° W. except the territory included in the Port Arthur district.	Houston-Galveston, Texas, including territory described in T.D. 54409 and Port Bolivar and Texas City (T.D. 81-). Corpus Christi (E.O. 8288, including territory described in T.D. 78-130). Freeport (E.O. 7632). Port Lavaca-Point Comfort, Texas (T.D. 56115).

2. In the column headed "Area" in Region II, New York City, New York, "Morris," is inserted between "Sussex" and "Passaic."

3. In Region VI, Houston, Texas, in the entry for Port Arthur, Texas, revise the material under the column headed "Area" to read as follows:

That part of the State of Texas from Sabine Pass north along the State line to the north boundary line of Shelby County; west to the Neches River; down the western shore of said river to the north boundary of Jefferson County; westerly along said boundary to the east boundary of Liberty County; south along the east boundary of Liberty County to the Gulf of Mexico, encompassing that portion of Chambers County between the Liberty County border extended to the Gulf of Mexico and the Chambers/Jefferson County border; also the parishes of Cameron and Calcasieu in the State of Louisiana.

Executive Order 12291

Because this will not result in a "major" rule as defined by section 1(b) of Executive Order 12291, the regulatory impact analysis and review prescribed by section 3 of the Executive Order is not required.

Inapplicability of Regulatory Flexibility Act

This document is not subject to the provisions of sections 603 and 604 of Title 5, United States Code (as added by section 3 of Pub. L. 96-354, the "Regulatory Flexibility Act"), because it was the subject of a notice of proposed rulemaking published in the **Federal Register** before January 1, 1981, the effective date of the Act.

Drafting Information

The principal author of this document was Lawrence P. Dunham, Regulations and Information Division, Office of Regulations and Rulings, U.S. Customs Service. However, personnel from other Customs offices participated in its development.

Dated: May 28, 1981.

John P. Simpson,

Acting Assistant Secretary of the Treasury.

BILLING CODE 4810-22-M

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Food and Drug Administration

21 CFR Part 520

Oral Dosage Form New Animal Drugs Not Subject to Certification; Fenbendazole With Trichlorfon

AGENCY: Food and Drug Administration.

ACTION: Final rule.

SUMMARY: The Food and Drug Administration (FDA) amends the animal drug regulations to reflect approval of a supplemental new animal drug application (NADA) filed by Hoechst-Roussel Pharmaceuticals, Inc., providing for safe and effective use of fenbendazole with trichlorfon as an anthelmintic for horses.

EFFECTIVE DATE: June 2, 1981.

FOR FURTHER INFORMATION CONTACT: Sandra K. Woods, Bureau of Veterinary Medicine (HFV-114), Food and Drug Administration, 5600 Fishers Lane, Rockville, MD 20857, 301-443-3420.

SUPPLEMENTARY INFORMATION: Hoechst-Roussel Pharmaceuticals, Inc., Rt. 202-206 North, Somerville, NJ 08876, filed a supplemental NADA (104-494) providing for the concomitant use of 10 percent fenbendazole suspension with trichlorfon in horses for the treatment of infections of stomach bots in addition to its approved use in treating infections of large strongyles, small strongyles, pinworms, and large roundworms.

Approval of this application does not change the conditions of fenbendazole's use in the target animal and merely provides information regarding its concomitant use with an additional approved drug, trichlorfon. Laboratory and clinical field efficacy studies and safety studies demonstrate the concurrent use of the currently approved fenbendazole and trichlorfon does not inhibit the intended effect of each drug nor potentiate toxicity. Accordingly, under the Bureau of Veterinary Medicine's supplemental approval policy (42 FR 64367; December 23, 1977), this is a supplemental approval which does not require reevaluation of the safety and effectiveness data in the original approval or the approval of the concurrent use.

In accordance with the freedom of information provisions of Part 20 (21 CFR Part 20) and § 514.11(e)(2)(ii) (21 CFR 514.11(e)(2)(ii)), a summary of safety and effectiveness data and information submitted to support approval of this application may be seen in the Dockets Management Branch (formerly the Hearing Clerk's office) (HFA-305), Food and Drug Administration, Rm. 4-62, 5600 Fishers Lane, Rockville, MD 20857, from 9 a.m. to 4 p.m., Monday through Friday.

The agency has determined pursuant to 21 CFR 25.24(d)(1)(i) (proposed December 11, 1979; 44 FR 71742) that this action is of a type that does not individually or cumulatively have a significant impact on the human environment. Therefore, neither an environmental assessment nor an environmental impact statement is required.

This action is governed by the provisions of 5 U.S.C. 556 and 557 and is therefore excluded from Executive Order 12291 by section 1(a)(1) of the Order.

Therefore, under the Federal Food, Drugs, and Cosmetic Act (sec. 512(i), 82 Stat. 347 (21 U.S.C. 360b(i))), under authority delegated to the Commissioner of Food and Drug (21 CFR 5.10) and redelegated to the Bureau of Veterinary Medicine (21 CFR 5.83), Part 520 is amended in § 520.905a by adding paragraph (e) to read as follows:

§ 520.905a Fenbendazole suspension.

* * * * *

(e) *Special considerations.* Fenbendazole suspension 10 percent and approved forms of trichlorfon, when used concomitantly for treating the indications provided in paragraph (d) of this section and for treating infections of stomach bot as provided in § 520.2520, have been shown to be compatible and not to interfere with one another.

Effective date. June 2, 1981.

(Sec. 512(i), 82 Stat. 347 (21 U.S.C. 360b(i)))

Dated: May 26, 1981.

Robert A. Baldwin,

Associate Director for Scientific Evaluation.

[FR Doc. 81-16171 Filed 6-2-81; 8:45 am]

BILLING CODE 4110-03-M

DEPARTMENT OF THE TREASURY

Internal Revenue Service

26 CFR Parts 1 and 11

[T.D. 7779]

Income Tax; Treatment of Losses on Small Business Stock

AGENCY: Internal Revenue Service, Treasury.

ACTION: Final regulations.

SUMMARY: This document provides final regulations relating to the treatment of losses on small business stock. Changes to the applicable tax law were made by the Revenue Act of 1978, as modified by the Technical Corrections Act of 1979. These regulations provide the public with the guidance needed to comply with the changes.

DATE: The amendments to the regulations are effective with respect to stock issued before and after November 6, 1978, and apply, in general, to taxable years beginning after December 31, 1978. The amendments to the regulations also apply, in certain cases, to taxable years including November 6, 1978.

FOR FURTHER INFORMATION CONTACT: Susan K. Thompson of the Legislation and Regulations Division, Office of the Chief Counsel, Internal Revenue Service, 1111 Constitution Avenue NW., Washington, D.C. 20224 (Attention: CC:LR:T) (202–566–3459).

SUPPLEMENTARY INFORMATION:

Background

On September 19, 1979, the **Federal Register** published proposed amendments to the Income Tax Regulations (26 CFR Part 1) and to the Temporary Income Tax Regulations under the Employee Retirement Income Security Act of 1974 (26 CFR Part 11) under sections 414, 1244, and 1563 of the Internal Revenue Code of 1954 (44 FR 54317). The amendments were proposed to conform the regulations to section 345 of the Revenue Act of 1978 (92 Stat. 2763). No comments were received with respect to this notice, nor was a public hearing requested or held.

After the publication of these amendments as a notice of proposed rulemaking, the Technical Corrections Act of 1979 was enacted (Pub. L. 96–222, 94 Stat. 194). Section 103(a)(9) of that Act made certain changes to the effective date provisions of section 345 of the Revenue Act of 1978. The proposed Treasury decision conforms the amendments to the statutory changes of the Technical Corrections Act of 1979 and the Revenue Act of 1978, and also includes certain clarifying changes.

Changes Relating to the Revenue Act of 1978

The amendments to the regulations reflect the statutory simplification and liberalization of the requirements relating to losses on small business stock enacted in 1978. In general, the 1978 Act increased the amount of section 1244 stock that a qualified small business corporation could issue, simplified and liberalized some of the conditions which must be satisfied for stock to qualify as section 1244 stock, and increased the amount of loss that certain shareholders could treat as an ordinary loss rather than as a capital loss.

Changes Relating to the Technical Corrections Act of 1979

The Technical Corrections Act of 1979 amends the effective date provisions of the Revenue Act of 1978. Section 345(e) of the Revenue Act of 1978 provided that its amendments applied to stock issued after the date of the enactment of the Act, November 6, 1978. This meant that stock issued on or before November 6, 1978, remained subject to the limitations in existence before the Revenue Act of 1978 with respect to the amount of loss deductible as ordinary loss under section 1244. The Revenue Act of 1978 thus created two separate sets of limitations, one for common stock issued prior to its enactment and another for common stock issued after its enactment.

The Technical Corrections Act of 1979 changed this result with respect to taxable years beginning after December 31, 1978. For those years, one set of dollar limitations, the increased dollar limitations set forth in the Revenue Act of 1978, applies to losses on all stock qualifying under section 1244, whether issued before or after November 6, 1978. However, in order to prevent taxpayers who relied on the effective date set forth in the 1978 Act from being disadvantaged, the Technical Corrections Act provides a special transitional rule for taxable years including November 6, 1978. For those years, the effective date provisions of the 1978 Act, with its two separate sets of limitations on amount of ordinary loss, apply.

Clarifying Changes

The proposed Treasury decision also includes certain clarifying changes. The term "capital receipts" has been substituted for the term "post-1958 capital" in § 1.1244(c)–2(b) of the proposed amendments. Additionally, the formula set forth in proposed § 1.1244(c)–2(b)(2)(i), relating to the $1,000,000 limitation on amounts received by a small business corporation issuing stock under section 1244, has been reworded and clarified. Example (3) in § 1.1244(c)–2(b)(4) as proposed has been revised to conform to this rewording.

The final regulations adopted by this Treasury decision impose no new reporting or recordkeeping requirements. The principal effect of the final regulations is to conform existing regulations to statutory changes. Evaluation of the effectiveness of these regulations after issuance will be based upon comments received from offices within Treasury and the Internal Revenue Service, other governmental agencies, and the public.

Drafting Information

The principal author of these regulations is Susan K. Thompson of the Legislation and Regulations Division of the Office of Chief Counsel, Internal Revenue Service. However, personnel from other offices of the Internal Revenue Service and Treasury Department participated in developing the regulations, both on matters of substance and style.

Adoption of amendments to the regulations

Accordingly, the amendments to 26 CFR Parts 1 and 11 published as a notice of proposed rulemaking in the **Federal Register** for September 19, 1979 (44 FR 54317), are hereby adopted as proposed, subject to the following changes:

Paragraph 1. Paragraph (b) of § 1.1244(b)–1, as set forth in paragraph 4 of the notice of proposed rulemaking, is revised to read as follows:

§ 1.1244(b)–1 Annual limitation.

* * * * *

(b) *Amount of loss*—(1) *Taxable years beginning after December 31, 1978.* For any taxable year beginning after December 31, 1978, the maximum amount that may be treated as an ordinary loss under section 1244 is—

(i) $50,000, or

(ii) $100,000, if a husband and wife file a joint return under section 6013.

These limitations on the maximum amount of ordinary loss apply whether the loss or losses are sustained on pre-November 1978 stock (as defined in § 1.1244(c)–1(a)(1)), post-November 1978 stock (as defined in § 1.1244(c)–1(a)(2)), or on any combination of pre-November 1978 stock and post-November 1978 stock. The limitation referred to in (ii) applies to a joint return whether the loss or losses are sustained by one or both spouses.

(2) *Taxable years ending before November 6, 1978.* For any taxable year ending before

November 6, 1978, the maximum amount that may be treated as an ordinary loss under section 1244 is—

(i) $25,000 or

(ii) $50,000, if a husband and wife file a joint return under section 6013.

The limitation referred to in (ii) applies to a joint return whether the loss or losses are sustained by one or both spouses.

(3) *Taxable years including November 6, 1978.* For a taxable year including November 6, 1978, the maximum amount that may be treated as ordinary loss under section 1244 is the sum of—

(i) The amount calculated by applying the limitations described in subparagraph (1) of this paragraph (b) to the amount of loss, if any, sustained during the taxable year on post-November 1978 stock, plus

(ii) The amount calculated by applying the limitations described in subparagraph (2) of this paragraph (b) to the amount of loss, if any, sustained during the taxable year on pre-November 1978 stock,

to the extent this sum does not exceed $50,000, or, if a husband and wife file a joint return under section 6013 for the taxable year, $100,000.

(4) *Examples.* The provisions of this section may be illustrated by the following examples:

Example (1). A, a married taxpayer who files a joint return for the taxable year ending December 31, 1977, sustains a $50,000 loss qualifying under section 1244 on pre-November 1978 stock in Corporation X and an equal amount of loss qualifying under section 1244 on pre-November 1978 stock in Corporation Y. A is limited to $50,000 of ordinary loss under paragraph (b)(2)(ii). The remaining $50,000 of loss is treated as loss from the sale or exchange of a capital asset.

Example (2). For the taxable year ending December 31, 1979, B, a married taxpayer who files a joint return, sustains a $90,000 loss on post-November 1978 stock in Corporation X. In the same taxable year, C, B's spouse, sustains a $25,000 loss on post-November 1978 stock in Corporation Y. Both losses qualify under section 1244. B and C's ordinary loss is limited to $100,000 under paragraph (b)(1)(ii). The remaining $15,000 of loss is treated as loss from the sale or exchange of a capital asset.

Example (3). D, a married taxpayer who files a joint return and reports income on a fiscal year basis for the taxable year ending November 30, 1978, sustains a $60,000 loss qualifying under section 1244 on pre-November 1978 stock and a $40,000 loss qualifying under section 1244 on post-November 1978 stock. D's ordinary loss on pre-November 1978 stock is limited to $50,000 under subparagraph (3)(ii) of this paragraph (b). D's $40,000 loss on post-November 1978 stock is within the limit of subparagraph (3)(i) of this paragraph (b). The total of these losses, $90,000, is the aggregate amount deductible by D as ordinary loss under section 1244. The remaining $10,000 of loss is treated as loss from the sale or exchange of a capital asset.

Example (4). E, a married taxpayer who files a joint return for the taxable year ending December 31, 1980, sustains a $75,000 loss qualifying under section 1244 on pre-November 1978 stock and a $10,000 loss qualifying under section 1244 on post-November 1978 stock. E may deduct the total of these losses, $85,000, as ordinary loss under paragraph (b)(1)(ii).

Example (5). Assume the same facts as in the preceding example, except that the losses are sustained in the taxable year beginning January 1, 1978, and ending December 31, 1978. E is limited to $60,000 of ordinary loss ($50,000 on pre-November 1978 stock plus $10,000 on post-November 1978 stock) under paragraph (b)(3). The remaining $25,000 of loss is treated as loss from the sale or exchange of a capital asset.

Example (6). F, a married taxpayer who files a joint return for the taxable year beginning January 1, 1978, and ending December 31, 1978, sustains a $75,000 loss qualifying under section 1244 on pre-November 1978 stock and $125,000 loss qualifying under section 1244 on post-November 1978 stock. F's loss on pre-November 1978 stock is limited to $50,000 of ordinary loss under subparagraph (3)(ii) of this paragraph (b). F's loss on post-November 1978 stock is limited to $100,000 of ordinary loss under subparagraph (3)(i) of this paragraph (b). The total of these losses, $150,000, is limited to $100,000 of ordinary loss under paragraph (b)(3). F's aggregate amount of ordinary loss under section 1244 is $100,000. The remaining $100,000 of loss is treated as loss from the sale or exchange of a capital asset.

Par. 2. Subparagraphs (1), (2)(i), and (4) of paragraph (b) of § 1.1244(c)–2, as set forth in paragraph 6 of the notice of proposed rulemaking, are revised to read as set forth below. Subparagraph (2)(iii) of such paragraph (b) is revised by inserting the phrase "or by the 15th day of the 3rd month following the close of the transitional year, whichever is later.", immediately following the phrase "the corporation shall make the required designation by (60 days after date of such publication)". Subparagraphs (1), (2)(i) and (4) of paragraph (b), as revised, read as follows:

§ *1.1244(c)–2 Small business corporation defined.*

* * * * *

(b) *Post-November 1978 stock*—(1) *Amount received by corporation for stock.* Capital receipts of a small business corporation may not exceed $1,000,000. For purposes of this paragraph the term "capital receipts" means the aggregate dollar amount received by the corporation for its stock, as a contribution to capital, and as paid-in surplus. If the $1,000,000 limitation is exceeded, the rules of subparagraph (2) of this paragraph (b) apply. In making these determinations, (i) property is taken into account at its adjusted basis to the Corporation (for determining gain) as of the date received by the corporation, and (ii) this aggregate amount is reduced by the amount of any liability to which the property was subject and by the amount of any liability assumed by the corporation at the time the property was received. Capital receipts are not reduced by distributions to shareholders, even though the distributions may be capital distributions.

(2) *Requirement of designation in event $1,000,000 limitation exceeded.* (i) If capital receipts exceed $1,000,000, the corporation shall designate as section 1244 stock certain shares of post-November 1978 common stock issued for money or other property in the transitional year. For purposes of this paragraph, the term "transitional year" means the first taxable year in which capital receipts exceed $1,000,000 and in which the corporation issues stock. This designation shall be made in accordance with the rules of subdivision (iii) of this paragraph (b)(2). The amount received for designated stock shall not exceed $1,000,000 less amounts received (i) in exchange for stock in years prior to the transitional year; (ii) as contributions to capital in the transitional year or in years prior to that year; and (iii) as paid-in surplus in the transitional year or in years prior to that year. * * *

* * * * *

(4) *Examples.* * * *

Example (3). On December 1, 1980, Corporation Y issues common stock to shareholder A in exchange for $500,000 in cash. On August 1, 1981, Corporation Y issues common stock to shareholder B in exchange for property having an adjusted basis to Corporation Y of $500,000. On December 1, 1981, B transfers a tract of land having a basis in B's hands of $250,000 to Corporation Y as a contribution to capital. Under section 362(a)(2) of the Code, Corporation Y takes a basis of $250,000 in the tract of land. Corporation Y is a calendar year corporation. On February 15, 1982, it designates one-half of shareholders B's stock as section 1244 stock by entering the numbers of the qualifying certificates on the corporation's records. The designation made by Corporation Y is effective because it identifies which shares of its stock qualify for section 1244 treatment, was made in writing before the 15th day of the 3rd month following the close of the transitional year (1981), and because the amount received for designated stock does not exceed $1,000,000, less amounts received (i) in exchange for stock in years prior to the transitional year; (ii) as contributions to capital in the transitional year or in years prior to that year; (iii) as paid-in surplus in the transitional year or in years prior to that year. In the event of B's sale of his stock at a loss, the increase in basis attributable to his contribution to capital will be treated as allocable to the one-half of his stock that is not section 1244 stock under the special rule of section 1244(d)(1)(B). * * *

* * * * *

This Treasury decision is issued under the authority contained in section 7805 of the Internal Revenue Code of 1954 (68A Stat. 917; 26 U.S.C. 7805).

William E. Williams,

Commissioner of Internal Revenue.

Approved: May 4, 1981.

John E. Chapoton,

Assistant Secretary of the Treasury.

26 CFR Parts 1 and 11 are amended as follows:

PART 1—INCOME TAX; TAXABLE YEARS BEGINNING AFTER DECEMBER 31, 1953

Par. 1. In § 1.1244(a)–1, paragraph (b) is revised to read as follows:

§ 1.1244(a)–1 Loss on small business stock treated as ordinary loss.

(a) *In general.* * * *

(b) *Taxpayers entitled to ordinary loss.* The allowance of an ordinary loss deduction for a loss of section 1244 stock is permitted only to the following two classes of taxpayers:

(1) An individual sustaining the loss to whom the stock was issued by a small business corporation, or

(2) An individual who is a partner in a partnership at the time the partnership acquired the stock in an issuance from a small business corporation and whose distributive share of partnership items reflects the loss sustained by the partnership. The ordinary loss deduction is limited to the lesser of the partner's distributive share at the time of the issuance of the stock or the partner's distributive share at the time the loss is sustained. In order to claim a deduction under section 1244 the individual, or the partnership, sustaining the loss must have continuously held the stock from the date of issuance. A corporation, trust, or estate is not entitled to ordinary loss treatment under section 1244 regardless of how the stock was acquired. An individual who acquires stock from a shareholder by purchase, gift, devise, or in any other manner is not entitled to an ordinary loss under section 1244 with respect to this stock. Thus, ordinary loss treatment is not available to a partner to whom the stock is distributed by the partnership. Stock acquired through an investment banking firm, or other person, participating in the sale of an issue may qualify for ordinary loss treatment only if the stock is not first issued to the firm or person. Thus, for example, if the firm acts as a selling agent for the issuing corporation the stock may qualify. On the other hand, stock purchased by an investment firm and subsequently resold does not qualify as section 1244 stock in the hands of the person acquiring the stock from the firm.

* * * * *

Par. 2. Section 1.1244(b)–1 is revised to read as follows:

§ 1.1244(b)–1 Annual limitation.

(a) *In general.* Subsection (b) of section 1244 imposes a limitation on the aggregate amount of loss that for any taxable year may be treated as an ordinary loss by a taxpayer by reason of that section. In the case of a partnership, the limitation is determined separately as to each partner. Any amount of loss in excess of the applicable limitation is treated as loss from the sale or exchange of a capital asset.

(b) *Amount of loss*—(1) *Taxable years beginning after December 31, 1978.* For any taxable year beginning after December 31, 1978, the maximum amount that may be treated as an ordinary loss under section 1244 is—

(i) $50,000, or

(ii) $100,000, if a husband and wife file a joint return under section 6013.

These limitations on the maximum amount of ordinary loss apply whether the loss or losses are sustained on pre-November 1978 stock (as defined in § 1.1244 (c)–1 (a)(1)), post-November 1978 stock (as defined in § 1.1244 (c)–1 (a)(2)), or on any combination of pre-November 1978 stock and post-November 1978 stock. The limitation referred to in (ii) applies to a joint return whether the loss or losses are sustained by one or both spouses.

(2) *Taxable years ending before November 6, 1978.* For any taxable year ending before November 6, 1978, the maximum amount that may be treated as an ordinary loss under section 1244 is—

(i) $25,000 or

(ii) $50,000, if a husband and wife file a joint return under section 6013.

The limitation referred to in (ii) applies to a joint return whether the loss or losses are sustained by one or both spouses.

(3) *Taxable years including November 6, 1978.* For a taxable year including November 6, 1978, the maximum amount that may be treated as ordinary loss under section 1244 is the sum of—

(i) The amount calculated by applying the limitations described in subparagraph (1) of this paragraph (b) to the amount of loss, if any, sustained during the taxable year on post-November 1978 stock, plus

(ii) The amount calculated by applying the limitations described in subparagraph (2) of this paragraph (b) to the amount of loss, if any, sustained during the taxable year on pre-November 1978 stock,

To the extent this sum does not exceed $50,000, or, if a husband and wife file a joint return under section 6013 for the taxable year, $100,000.

(4) *Examples.* The provisions of this section may be illustrated by the following examples:

Example (1). A, a married taxpayer who files a joint return for the taxable year ending December 31, 1977, sustains a $50,000 loss qualifying under section 1244 on pre-November 1978 stock in Corporation X and an equal amount of loss qualifying under section 1244 on pre-November 1978 stock in Corporation Y. A is limited to $50,000 of ordinary loss under paragraph (b)(2)(ii). The remaining $50,000 of loss is treated as loss from the sale or exchange of a capital asset.

Example (2). For the taxable year ending December 31, 1979, B, a married taxpayer who files a joint return, sustains a $90,000 loss on post-November 1978 stock in Corporation X. In the same taxable year, C, B's spouse, sustains a $25,000 loss on post-November 1978 stock in Corporation Y. Both losses qualify under section 1244. B and C's ordinary loss is limited to $100,000 under paragraph (b)(1)(ii). The remaining $15,000 of loss is treated as loss from the sale or exchange of a capital asset.

Example (3). D, a married taxpayer who files a joint return and reports income on a fiscal year basis for the taxable year ending November 30, 1978, sustains a $60,000 loss qualifying under section 1244 on pre-November 1978 stock and a $40,000 loss qualifying under section 1244 on post-November 1978 stock. D's ordinary loss on pre-November 1978 stock is limited to $50,000 under subparagraph (3)(ii) of this paragraph (b). D's $40,000 loss on post-November 1978 stock is within the limit of subparagraph (3)(i) of this paragraph (b). The total of these losses, $90,000, is the aggregate amount deductible by D as ordinary loss under section 1244. The remaining $10,000 of loss is treated as loss from the sale or exchange of a capital asset.

Example (4). E, a married taxpayer who files a joint return for the taxable year ending December 31, 1980, sustains a $75,000 loss qualifying under section 1244 on pre-November 1978 stock and a $10,000 loss qualifying under section 1244 on post-November 1978 stock. E may deduct the total of these losses, $85,000, as ordinary loss under paragraph (b)(1)(ii).

Example (5). Assume the same facts as in the preceding example, except that the losses are sustained in the taxable year beginning January 1, 1978, and ending December 31, 1978. E is limited to $60,000 of ordinary loss ($50,000 on pre-November 1978 stock plus $10,000 on post-November 1978 stock) under paragraph (b)(3). The remaining $25,000 of loss is treated as loss from the sale or exchange of a capital asset.

Example (6). F, a married taxpayer who files a joint return for the taxable year beginning January 1, 1978, and ending December 31, 1978, sustains a $75,000 loss qualifying under section 1244 on pre-November 1978 stock and a $125,000 loss qualifying under section 1244 on post-November 1978 stock. F's loss on pre-November 1978 stock is limited to $50,000 of ordinary loss under subparagraph (3)(ii) of this paragraph (b). F's loss on post-November 1978 stock is limited to $100,000 of ordinary loss under subparagraph (3)(i) of this paragraph (b). The total of these losses, $150,000, is limited to $100,000 of ordinary loss under paragraph (b)(3). F's aggregate amount of ordinary loss under section 1244 is $100,000. The remaining $100,000 of loss is treated as loss from the sale or exchange of a capital asset.

Par. 3. Section 1.1244(c)–1 is revised to read as follows:

§ 1.1244(c)–1 Section 1244 stock defined.

(a) *In general.* For purposes of §§ 1.1244(a)–1 to 1.1244(e)–1, inclusive—

(1) The term "pre-November 1978 stock" means stock issued after June 30, 1958, and on or before November 6, 1978.

(2) The term "post-November 1978 stock" means stock issued after November 6, 1978.

In order that stock may qualify as section In order that stock may qualify as section 1244 stock, the requirements described in paragraphs (b) through (e) of this section must be satisfied. In addition, the requirements of paragraph (f) of this section must be satisfied in the case of pre-November 1978 stock. Whether these requirements have been met is determined at the time the stock is issued, except for the requirement in paragraph (e) of this section. Whether the requirement in paragraph (e) of this section, relating to gross receipts of the corporation, has been satisfied is determined at the time a loss is sustained. Therefore, at the time of issuance it cannot be said with certainty that stock will qualify for the benefits of section 1244.

(b) *Common stock.* Only common stock, either voting or nonvoting, in a domestic corporation may qualify as section 1244 stock. For purposes of section 1244, neither securities of the corporation covertible into common stock nor common stock convertible into other securities of the corporation are treated as common stock. An increase in the basis of outstanding stock as a result of a contribution to capital is not treated as an issuance of stock under section 1244. For definition of domestic corporation, see section 7701(a)(4) and the regulations under that section.

(c) *Small business corporation.* At the time the stock is issued (or, in the case of pre-November 1978 stock, at the time of adoption of the plan described in paragraph (f)(1) of this section) the corporation must be a "small business corporation". See § 1.1244(c)–2 for the definition of a small business corporation.

(d) *Issued for money or other property.* (1) The stock must be issued to the taxpayer for money or other property transferred by the taxpayer to the corporation. However, stock issued in exchange for stock or securities, including stock or securities of the issuing corporation, cannot qualify as section 1244 stock, except as provided in § 1.1244(d)–3, relating to certain cases where stock is issued in exchange for section 1244 stock. Stock issued for services rendered or to be rendered to, or for the benefit of, the issuing corporation does not qualify as section 1244 stock. Stock issued in consideration for cancellation of indebtedness of the corporation shall be considered issued in exchange for money or other property unless such indebtedness is evidenced by a security, or arises out of the performance of personal services.

(2) The following examples illustrate situations where stock fails to qualify as section 1244 stock as a result of the rules in subparagraph (1) of this paragraph:

Example (1). A taxpayer owns stock of Corporation X issued to him prior to July 1, 1958. Under a plan adopted in 1977, he exchanges his stock for a new issuance of stock of Corporation X. The stock received by the taxpayer in the exchange may not qualify as section 1244 stock even if the corporation has adopted a valid plan and is a small business corporation.

Example (2). A taxpayer owns stock in Corporation X. Corporation X merges into Corporation Y. In exchange for his stock, Corporation Y issues shares of its stock to the taxpayer. The stock in Corporation Y does not qualify as section 1244 stock even if the stock exchanged by the taxpayer did qualify.

Example (3). Corporation X transfers part of its business assets to Corporation Y, a new corporation, and all of the stock of Corporation Y is issued directly to the shareholders of Corporation X. Since the Corporation Y stock was not issued to the shareholders for a transfer by them of money or other property, none of the Corporation Y stock in the hands of the shareholders can qualify.

(e) *Gross receipts.* (1)(i)(*a*) Except as provided in subparagraph (2) of this paragraph, stock will not qualify under section 1244, if 50 percent or more of the gross receipts of the corporation, for the period consisting of the five most recent taxable years of the corporation ending before the date the loss on such stock is sustained by the shareholders, is derived from royalties, rents, dividends, interest, annuities, and sales or exchanges of stock or securities. If the corporation has not been in existence for five taxable years ending before such date, the percentage test referred to in the preceding sentence applies to the period of the taxable years ending before such date during which the corporation has been in existence; and if the loss is sustained during the first taxable year of the corporation such test applies to the period beginning with the first day of such taxable year and ending on the day before the loss is sustained. The test under this paragraph shall be made on the basis of total gross receipts, except that gross receipts from the sales or exchanges of stock or securities shall be taken into account only to the extent of gains therefrom. The term "gross receipts" as used in section 1244(c)(1)(C) is not synonymous with "gross income". Gross receipts means the total amount received or accrued under the method of accounting used by the corporation in computing its taxable income. Thus, the total amount of receipts is not reduced by returns and allowances, cost, or deductions. For example, gross receipts will include the total amount received or accrued during the corporation's taxable year from the sale or exchange (including a sale or exchange to which section 337 applies) of any kind of property, from investments, and for services rendered by the corporation. However, gross receipts does not include amounts received in nontaxable sales or exchanges (other than those to which section 337 applies), except to the extent that gain is recognized by the corporation, nor does that term include amounts received as a loan, as a repayment of a loan, as a contribution to capital, or on the issuance by the corporation of its own stock.

(b) The meaning of the term "gross receipts" as used in section 1244(c)(1)(C) may be further illustrated by the following examples:

Example (1). A corporation on the accrual method sells property (other than stock or securities) and receives payment partly in money and partly in the form of a note payable at a future time. The amount of the money and the face amount of the note would be considered gross receipts in the taxable year of the sale and would not be reduced by the adjusted basis of the property, the costs of sale, or any other amount.

Example (2). A corporation has a long-term contract as defined in paragraph (a) of § 1.451–3 with respect to which it reports income according to the percentage-of-completion method as described in paragraph (b)(1) of § 1.451–3. The portion of the gross contract price which corresponds to the percentage of the entire contract which has been completed during the taxable year shall be included in gross receipts for such year.

Example (3). A corporation which regularly sells personal property on the installment plan elects to report its taxable income from the sale of property (other than stock or securities) on the installment method in accordance with section 453. The installment payments actually received in a given taxable year of the corporation shall be included in gross receipts for such year.

(ii) The term "royalties" as used in subdivision (i) of this subparagraph means all royalties, including mineral, oil, and gas royalties (whether or not the aggregate amount of such royalties constitutes 50 percent or more of the gross income of the corporation for the taxable year), and amounts received for the privilege of using patents, copyrights, secret processes and formulas, good will, trademarks, trade brands, franchises, and other like

property. The term "royalties" does not include amounts received upon the disposal of timber, coal, or domestic iron ore with a retained economic interest to which the special rules of section 631 (b) and (c) apply or amounts received from the transfer of patent rights to which section 1235 applies. For the definition of "mineral, oil, or gas royalties", see paragraph (b)(11) (ii) and (iii) of § 1.543–1. For purposes of this subdivision, the gross amount of royalties shall not be reduced by any part of the cost of the rights under which they are received or by any amount allowable as a deduction in computing taxable income.

(iii) The term "rents" as used in subdivision (i) of this subparagraph means amounts received for the use of, or right to use, property (whether real or personal) of the corporation, whether or not such amounts constitute 50 percent or more of the gross income of the corporation for the taxable year. The term "rents" does not include payments for the use or occupancy of rooms or other space where significant services are also rendered to the occupant, such as for the use or occupancy of rooms or other quarters in hotels, boarding houses, or apartment houses furnishing hotel services, or in tourist homes, motor courts, or motels. Generally, services are considered rendered to the occupant if they are primarily for his convenience and are other than those usually or customarily rendered in connection with the rental of rooms or other space for occupancy only. The supplying of maid service, for example, constitutes such services; whereas the furnishing of heat and light, the cleaning of public entrances, exits, stairways, and lobbies, the collection of trash, etc., are not considered as services rendered to the occupant. Payments for the use or occupancy of entire private residences or living quarters in duplex or multiple housing units, of offices in an office building, etc., are generally "rents" under section 1244(c)(1)(C). Payments for the parking of automobiles ordinarily do not constitute rents. Payments for the warehousing of goods or for the use of personal property do not constitute rents if significant services are rendered in connection with such payments.

(iv) The term "dividends" as used in subdivision (i) of this subparagraph includes dividends as defined in section 316, amounts required to be included in gross income under section 551 (relating to foreign personal holding company income taxed to United States shareholders), and consent dividends determined as provided in section 565.

(v) The term "interest" as used in subdivision (i) of this subparagraph means any amounts received for the use of money (including tax-exempt interest).

(vi) The term "annuities" as used in subdivision (i) of this subparagraph means the entire amount received as an annuity under an annuity, endowment, or life insurance contract, regardless of whether only part of such amount would be includible in gross income under section 72.

(vii) For purposes of subdivision (i) of this subparagraph, gross receipts from the sales or exchanges of stock or securities are taken into account only to the extent of gains therefrom. Thus, the gross receipts from the sale of a particular share of stock will be the excess of the amount realized over the adjusted basis of such share. If the adjusted basis should equal or exceed the amount realized on the sale or exchange of a certain share of stock, bond, etc., there would be no gross receipts resulting from the sale of such security. Losses on sales or exchanges of stock or securities do not offset gains on the sales or exchanges of other stock or securities for purposes of computing gross receipts from such sales or exchanges. Gross receipts from the sale or exchange of stocks and securities include gains received from such sales or exchanges by a corporation even though such corporation is a regular dealer in stocks and securities. For the meaning of the term "stocks or securities", see paragraph (b)(5)(i) of § 1.543–1.

(2) The requirement of subparagraph (1) of this paragraph need not be satisfied if for the applicable period the aggregate amount of deductions allowed to the corporation exceeds the aggregate amount of its gross income. But for this purpose the deductions allowed by section 172, relating to the net operating loss deduction, and by sections 242, 243, 244, and 245, relating to certain special deductions for corporations, shall not be taken into account. Notwithstanding the provisions of this subparagraph and of subparagraph (1) of this paragraph, pursuant to the specific delegation of authority granted in section 1244(e) to prescribe such regulations as may be necessary to carry out the purposes of section 1244, ordinary loss treatment will not be available with respect to stock of a corporation which is not largely an operating company within the five most recent taxable years (or such lesser period as the corporation is in existence) ending before the date of the loss. Thus, for example, assume that a person who is not a dealer in real estate forms a corporation which issues stock to him which meets all the formal requirements of section 1244 stock. The corporation then acquires a piece of unimproved real estate which it holds as an investment. The property declines in value and the stockholder sells his stock at a loss. The loss does not qualify for ordinary loss treatment under section 1244 but must be treated as a capital loss.

(3) In applying subparagraphs (1) and (2) of this paragraph to a successor corporation in a reorganization described in section 368(a)(1)(F), such corporation shall be treated as the same corporation as its predecessor. See paragraph (d)(2) of § 1.1244(d)–3.

(f) *Special rules applicable to pre-November 1978 stock.* (1)(i) Pre-November 1978 common stock must have been issued under a written plan adopted by the corporation after June 30, 1958, and on or before November 6, 1978, to offer only this stock during a period specified in the plan ending not later than 2 years after the date the plan is adopted. The 2-year requirement referred to in the preceding sentence is met if the period specified in the plan is based upon the date when, under the rules or regulations of a Government agency relating to the issuance of the stock, the stock may lawfully be sold, and it is clear that this period will end, and in fact does end, within 2 years after the plan is adopted. The plan must specifically state, in terms of dollars, the maximum amount to be received by the corporation in consideration for the stock to be issued under the plan. See § 1.1244(c)–2 for the limitation on the amount that may be received by the corporation under the plan.

(ii) To qualify, the pre-November 1978 stock must be issued during the period of the offer, which period must end not later than two years after the date the plan is adopted. Pre-November 1978 stock which is subscribed for during the period of the plan but not issued during this period cannot qualify as section 1244 stock. Pre-November 1978 stock issued on the exercise of a stock right, stock warrant, or stock option (which right, warrant, or option was not outstanding at the time the plan was adopted) will be treated as issued under a plan only if the right, warrant, or option is applicable solely to unissued stock offered under the plan and is exercised during the period of the plan.

(iii) Pre-November 1978 stock subscribed for prior to the adoption of the plan, including stock subscribed for prior to the date the corporation comes into existence, may be considered issued under a plan adopted by the corporation if the stock is not in

fact issued prior to the adoption of the plan.

(iv) Pre-November 1978 stock issued for a payment which, alone or together with prior payments, exceeds the maximum amount that may be received under the plan, is not considered issued under the plan, and none of the stock can qualify as section 1244 stock. See § 1.1244(c)–2(b) for a different rule with respect to post-November 1978 stock.

(2) Pre-November 1978 stock does not qualify as section 1244 stock if at the time of the adoption of the plan under which it is issued there remains unissued any portion of a prior offering of stock. Thus, if any portion of an outstanding offering of common or preferred stock is unissued at the time of the adoption of the plan, stock issued under the plan will not qualify as section 1244 stock. An offer is outstanding unless and until it is withdrawn by affirmative action before the plan is adopted. Stock rights, stock warrants, stock options, or securities convertible into stock, that are outstanding at the time the plan is adopted, are considered prior offerings. The authorization in the corporate charter to issue stock different from stock offered under the plan or in excess of stock offered under the plan is not of itself a prior offering.

(3)(i) Even though the plan satisfies the requirements of subparagraph (1) of this paragraph (f), if another offering of pre-November 1978 stock is made by the corporation subsequent to, or simultaneous with, the adoption of the plan, pre-November 1978 stock issued under the plan after the other offering does not qualify as section 1244 stock. The issuance of stock options, stock rights, or stock warrants at any time during the period of the plan, that are exercisable on stock other than stock offered under the plan, is considered a subsequent offering. Similarly, the issuance of pre-November 1978 stock other than that offered under the plan is considered a subsequent offering. Because stock issued upon exercise of a converson privilege is stock issued for a security, and stock issued under a stock option granted in whole or in part for services is not issued for money or other property, the issuance of securities with a conversion privilege and the issuance of such a stock option are subsequent offerings, because the conversion privilege and the stock option are exercisable with respect to stock other than that which may properly be offered under the plan. Pre-November 1978 stock issued under the plan before a subsequent offering is not disqualified because of the subsequent offering. The rule of the subparagraph, together with the rule of subparagraph (2) of this paragraph (f), relating to offers prior to the adoption of the plan, limits pre-November 1978 section 1244 stock to stock issued by the corporation during a period when any stock issued by it must have been issued under the plan.

(ii) Any modification of a plan that changes the offering to include preferred stock, or that increases the amount of pre-November 1978 stock that may be issued under the plan to such an extent that the requirements of paragraph (c) of this section would not have been satisfied if determined with reference to this amount as of the date the plan was initially adopted, or that extends the period of time during which stock may be issued under the plan to more than 2 years from the date the plan was initially adopted, is considered a subsequent offering, and no stock issued after this offering may qualify. However, a corporation may withdraw a plan and adopt a new plan to issue stock. To determine whether stock issued under this new plan may qualify, this paragraph (f) must be applied with respect to the new plan as of the date of its adoption. For example, amounts received for stock under the prior plan must be taken into account in determining whether the statutory requirements relating to definition of small business corporation are satisfied. In applying the requirements of paragraph (c) of this section, reference should be made to equity capital as of the date the new plan is adopted. The same principles apply if the period of the initial plan expires and the corporation adopts a new plan.

Par. 4. Section 1.1244(c)–2 is revised to read as follows:

§ 1.1244(c)–2 Small business corporation defined.

(a) *In general.* A corporation is treated as a small business corporation if it is a domestic corporation that satisfies the requirements described in paragraph (b) or (c) of this section. The requirements of paragraph (b) of this section apply if a loss is sustained on post-November 1978 stock. The requirements of paragraph (c) of this section apply if a loss is sustained on pre-November 1978 stock. If losses are sustained on both pre-November 1978 stock and post-November 1978 stock in the same taxable year, the requirements of paragraph (b) of this section are applied to the corporation at the time of the issuance of the stock (as required by paragraph (b) in the case of a loss on post-November 1978 stock) in order to determine whether the loss on post-November 1978 stock qualifies as a section 1244 loss, and the requirements of paragraph (c) of this section are applied to the corporation at the time of the adoption of the plan (as required by paragraph (c) in the case of a loss on pre-November 1978 stock) in order to determine whether the loss on pre-November 1978 stock qualifies as a section 1244 loss. For definition of domestic corporation, see section 7701 (a)(4) and the regulations under that section.

(b) *Post-November 1978 stock*—(1) *Amount received by corporation for stock.* Capital receipts of a small business corporation may not exceed $1,000,000. For purposes of this paragraph the term "capital receipts" means the aggregate dollar amount received by the corporation for its stock, as a contribution to capital, and as paid-in surplus. If the $1,000,000 limitation is exceeded, the rules of subparagraph (2) of this paragraph (b) apply. In making these determinations, (i) property is taken into account at its adjusted basis to the corporation (for determining gain) as of the date received by the corporation, and (ii) this aggregate amount is reduced by the amount of any liability to which the property was subject and by the amount of any liability assumed by the corporation at the time the property was received. Capital receipts are not reduced by distributions to shareholders, even though the distributions may be capital distributions.

(2) *Requirement of designation in event $1,000,000 limitation exceeded.* (i) If capital receipts exceed $1,000,000, the corporation shall designate as section 1244 stock certain shares of post-November 1978 common stock issued for money or other property in the transitional year. For purposes of this paragraph, the term "transitional year" means the first taxable year in which capital receipts exceed $1,000,000 and in which the corporation issues stock. This designation shall be made in accordance with the rules of subdivision (iii) of this paragraph (b)(2). The amount received for designated stock shall not exceed $1,000,000, less amounts received (i) in exchange for stock in years prior to the transitional year; (ii) as contributions to capital in the transitional year or in years prior to that year; and (iii) as paid-in surplus in the transitional year or in years prior to that year.

(ii) Post-November 1978 common stock issued for money or other property before the transitional year qualifies as section 1244 stock without affirmative designation by the corporation. Post-November 1978 common stock issued

after the transitional year does not qualify as section 1244 stock.

(iii) The corporation shall make the designation required by subdivision (i) of this paragraph (b)(2) not later than the 15th day of the third month following the close of the transitional year. However, in the case of post-November 1978 common stock issued on or before June 2, 1981 the corporation shall make the required designation by August 3, 1981 or by the 15th day of the 3rd month following the close of the transitional year, whichever is later. The designation shall be made by entering the numbers of the qualifying share certificates on the corporation's records. If the shares do not bear serial numbers or other identifying numbers or letters, or are not represented by share certificates, the corporation shall make an alternative designation in writing at the time of issuance, or, in the case of post-November 1978 common stock issued on or before June 2, 1981 by August 3, 1981. This alternative designation may be made in any manner sufficient to identify the shares qualifying for section 1244 treatment. If the corporation fails to make a designation by share certificate number or an alternative written designation as described, the rules of subparagraph (3) of this paragraph (b) apply.

(3) *Allocation of section 1244 benefit in event corporation fails to designate qualifying shares.* If a corporation issues post-November 1978 stock in the transitional year and fails to designate certain shares of post-November 1978 common stock as section 1244 stock in accordance with the rules of subparagraph (2) of this paragraph (b), the following rules apply:

(i) Section 1244 treatment is extended to losses sustained on post-November 1978 common stock issued for money or other property in taxable years before the transitional year and is withheld from losses sustained on post-November 1978 stock issued in taxable years after the transitional year.

(ii) Post-1958 capital received before the transitional year is subtracted from $1,000,000.

(iii) Subject to the annual limitation described in § 1.1244(b)–1, an ordinary loss on post-November 1978 common stock issued for money or other property in the transitional year is allowed in an amount which bears the same ratio to the total loss sustained by the individual as—

(A) The amount described in § 1.1244(c)–2(b) (3) (ii) bears to

(B) The total amount of money and other property received by the corporation in exchange for stock, as a contribution to capital, and as paid-in surplus in the transitional year.

(4) *Examples.* The provisions of this paragraph (b) may be illustrated by the following examples:

Example (1). On December 1, 1978, Corporation W, a newly-formed corporation, issues 10,000 shares of common stock at $125 a share for an amount (determined under subparagraph (1) of this paragraph (b)) of money and other property totaling $1,250,000. The board of directors specifies that 8,000 shares are section 1244 stock and records the certificate numbers of the qualifying shares in its minutes. Because Corporation W issued post-November 1978 common stock in exchange for money and other property exceeding $1,000,000, but has designated shares of stock as section 1244 stock and the designated shares were issued in exchange for money and other property not exceeding $1,000,000 (8,000 shares × $125 price per share = $1,000,000), the 8,000 designated shares qualify as section 1244 stock.

Example (2). Corporation X comes into existence on June 1, 1979. On June 10, 1979, Corporation X issues 2,500 shares of common stock at $250 per share to shareholder A and 2,500 shares of common stock at $250 per share to shareholder B. By written agreement dated September 1, 1981, shareholder A and shareholder B determine that 1,500 of shareholder A's shares and all of shareholder B's shares will be treated as section 1244 stock. Although shareholder A's 1,500 shares and shareholder B's 2,500 shares were issued for money and other property not exceeding $1,000,000 (4,000 shares × $250 price per share = $1,000,000, these 4,000 shares do not qualify as section 1244 stock under the rules of subparagraph (2) of this paragraph (b) for three reasons: The agreement of September 1, 1979, (i) did not identify which 1,500 of shareholder A's 2,500 shares were intended to qualify for section 1244 treatment, (ii) was made by the shareholders and not by Corporation X, and (iii) was made later than the 15th day of the third month following the close of the transitional year. However, certain of the shares issued by Corporation X may qualify as section 1244 stock under the rules of subparagraph (3) of this paragraph (b). See example (4).

Example (3). On December 1, 1980, Corporation Y issues common stock to shareholder A in exchange for $500,000 in cash. On August 1, 1981, Corporation Y issues common stock to shareholder B in exchange for property having an adjusted basis to Corporation Y of $500,000. On December 1, 1981, B transfers a tract of land having a basis in B's hands of $250,000 to Corporation Y as a contribution to capital. Under section 362(a)(2) of the Code, Corporation Y takes a basis of $250,000 in the tract of land. Corporation Y is a calendar year corporation. On February 15, 1982, it designates one-half of shareholders B's stock as section 1244 stock by entering the numbers of the qualifying certificates on the corporation's records. The designation made by Corporation Y is effective because it identifies which shares of its stock qualify for section 1244 treatment, was made in writing before the 15th day of the 3rd month following the close of the transitional year (1981), and because the amount received for designated stock does not exceed $1,000,000, less amounts received (i) in exchange for stock in years prior to the transitional year; (ii) as contributions to capital in the transitional year or in years prior to that year; (iii) as paid-in surplus in the transitional year or in years prior to that year. In the event of B's sale of his stock at a loss, the increase in basis attributable to his contribution to capital will be treated as allocable to the one-half of his stock that is not section 1244 stock under the special rule of section 1244(d)(1)(B).

Example (4). Corporation Z, a newly-formed corporation, issues 10,000 shares of common stock at $200 per share on July 1, 1979. In exchange for its stock Corporation Z receives property (other than stock or securities) having a basis to the corporation of $400,000, and $1,600,000 in cash, for a total of $2,000,000. Corporation Z fails to designate any of the issued shares as section 1244 stock. Shareholder C purchases 2,500 shares of the 10,000 shares of Corporation Z stock for $500,000 on July 1, 1979. Subsequently, shareholder C sells the 2,500 shares for $400,000. Shareholder C may treat $50,000 of the $100,000 loss as an ordinary loss under section 1244. The amount of that loss is computed under the rule of subparagraph (3) of this paragraph (b) as follows:

$$\frac{X \text{ [C's section 1244 loss]}}{\$100{,}000 \text{ [C's total loss]}} = \frac{\$1{,}000{,}000 \text{ [\$1,000,000 - 0 = \$1,000,000]}}{\$2{,}000{,}000 \text{ [total amount received by Corporation Z]}}$$

$$X = \$50{,}000$$

The remaining $50,000 is not treated as an ordinary loss under section 1244.

Example (5). (i) Corporation V, a newly-formed corporation, issues common stock to shareholder A and shareholder B on June 15, 1980, in exchange for $800,000 in cash ($400,000 from A and $400,000 from B). On September 15, 1981, the corporation issues common stock to shareholder C in exchange for $600,000 in cash. On January 1, 1982, common stock is issued to shareholder D in exchange for $100,000 in cash. Corporation V fails to designate any of the issued shares as section 1244 stock. A, B, C, and D subsequently sell their Corporation Y stock at a loss.

(ii) Subject to the annual limitation discussed in § 1.1244(b)–1, A and B may treat their entire loss as an ordinary loss under section 1244. D may not treat any part of his loss as an ordinary loss under section 1244. Subject to the annual limitation, one-third of the loss sustained by shareholder C is treated as an ordinary loss under section 1244. These results are calculated under the rules of subparagraph (3) of this paragraph (b) as follows: First, section 1244 treatment is extended to post-November 1978 stock issued to A and B in 1980, a taxable year before the transitional year (1981); section 1244 treatment is withheld from the stock issued to D in 1982, a taxable year after the transitional year. Second $800,000 the amount of post-1958 capital received in taxable years before the transitional year, is subtracted from

$1,000,000 to leave $200,000. Third, subject to the annual limitation, an ordinary loss is allowed to C in an amount which bears the same ratio to his total loss as the amount calculated in the preceding sentence ($200,000) bears to the total amount received by the corporation in the transitional year in exchange for stock, as a contribution to capital, or as paid-in surplus ($800,000).

(c) *Pre-November 1978 stock*—(1) *Amount received by corporation for stock.* At the time of the adoption of the plan, the sum of the aggregate dollar amount to be paid for pre-November 1978 stock that may be offered under the plan plus the aggregate amount of money and other property that has been received by the corporation after June 30, 1958, and on or before November 6, 1978, for its stock, as a contribution to capital by its shareholders, and as paid-in surplus must not exceed $500,000. In making these determinations (i) property is taken into account at its adjusted basis to the corporation (for determining gain) as of the date received by the corporation, and (ii) this aggregate amount is reduced by the amount of any liability to which the property was subject and by the amount of any liability assumed by the corporation at the time the property was received. For purposes of the $500,000 test, the total amount of money and other property received for stock, as a contribution to capital, and as paid-in surplus is not reduced by distributions to shareholders, even though the distributions may be capital distributions. Thus, once the total amount of money and other property received after June 30, 1958, reaches $500,000, the corporation is precluded from subsequently issuing pre-November 1978 stock. For a different rule that applies to post-November 1978 stock see § 1.1244(c)–2(b).

(2) *Equity capital.* The sum of the aggregate dollar amount to be paid for pre-November 1978 stock that may be offered under the plan plus the equity capital of the corporation (determined on the date of the adoption of the plan) may not exceed $1,000,000. For this purpose, equity capital is the sum of the corporation's money and other property (in an amount equal to its adjusted basis for determining gain) less the amount of the corporation's indebtedness to persons other than its shareholders.

(3) *Examples.* The provisions of this paragraph (c) may be illustrated by the following examples:

Example (1). Corporation W comes into existence on December 1, 1958. On that date the corporation may adopt a plan to issue common stock for an amount (determined under subparagraph (1) of this paragraph (c)) not in excess of $500,000 during a period ending not later than November 30, 1960. Such corporation will qualify as a small business corporation as of the date that the plan is adopted. However, if the corporation adopts a plan to issue stock for an amount in excess of $500,000 it is not a small business corporation at the time the plan is adopted and no stock issued under the plan may qualify as section 1244 stock. If the cost of organizing corporation W amounted to $1,000 and constituted paid-in surplus or a contribution to capital, such amount must be taken into account in determining the amount that may be received under the plan, with the result that only $499,000 may be so received.

Example (2). On December 1, 1958, Corporation X, a newly formed corporation, adopts a plan to issue common stock for an amount (determined under subparagraph (1) of this paragraph (c)) not in excess of $500,000 during a period ending not later than November 30, 1960. By January 1, 1960, the corporation has, pursuant to the plan, issued at par, stock having an aggregate par value of $400,000, $200,000 of which was issued for $200,000 cash, and $200,000 of which was issued for property (other than stock or securities) having a basis to the corporation of $100,000 and a fair market value of $200,000. The corporation may, prior to November 30, 1960, issue stock for an amount not in excess of $200,000 cash or property having a basis to it not in excess of $200,000. Stock issued for any payment which, alone or together with any payments received after January 1, 1960, exceeds such $200,000 amount would not qualify as section 1244 stock because it would not be issued pursuant to the plan.

Example (3). Assume that on December 1, 1958, Corporation Y, a newly formed corporation, adopts a plan to issue common stock for an amount (determined under subparagraph (1) of this paragraph (c)) not in excess of $500,000 during a period ending not later than November 30, 1960. By January 1960 the corporation has received $400,000 cash for stock issued pursuant to the plan, but due to business successes the equity capital of the corporation exceeds $1,000,000. Since the equity capital test is made as of the date that the plan is adopted, the corporation may still, prior to November 30, 1960, issue section 1244 stock pursuant to the plan until the full amount specified in the plan has been received.

Example (4). Subsequent to June 30, 1958, Corporation Z receives a total of $600,000 cash on the issuance of its stock. In 1960 Corporation Z redeems shares of its stock for the total amount of $300,000 and the redemptions reduce Corporation Z's capital to substantially less than $500,000. Notwithstanding the redemptions, pre-November 1978 stock subsequently issued by Corporation Z will not qualify as section 1244 stock because the $500,000 limitation has been previously exceeded.

* * * * *

Par. 5. Section 1.1244(d)–3 is revised to read as follows:

§ 1.1244(d)–3 Stock dividend, recapitalizations, changes in name, etc.

(a) *In general.* Section 1244(c)(1) provides that stock may not qualify for the benefits of section 1244 unless it is issued to the taxpayer for money or other property not including stock or securities. However, section 1244(d)(2) authorizes exceptions to this rule. The exceptions may apply in three situations: (1) The receipt of a stock dividend; (2) the exchange of stock for stock pursuant to a reorganization described in section 368(a)(1)(E); and (3) the exchange of stock for stock pursuant to a reorganization described in section 368(a)(1)(F).

(b) *Stock dividends.* (1) If common stock is received by an individual or partnership in a nontaxable distribution under section 305(a) made solely with respect to stock owned by such individual or partnership which meets the requirements of section 1244 stock determinable at the time of the distribution, then the common stock so received will also be treated as meeting such requirements. For purposes of this paragraph and paragraphs (c) and (d) of this section, the requirements of section 1244 stock determinable at the time of the distribution or exchange are all of the requirements of section 1244(c)(1) other than the one described in subparagraph (C) thereof, relating to the gross receipts test.

(2) If, however, such stock dividend is received by such individual or partnership partly with respect to stock meeting the requirements of section 1244 stock determinable at the time of the distribution, and partly with respect to stock not meeting such requirements, then only part of the stock received as a stock dividend will be treated as meeting such requirements. Assuming all the shares with respect to which the dividend is received have equal rights to dividends, such part is the number of shares which bears the same ratio to the total number of shares received as the number of shares owned immediately before the stock dividend which meets such qualifications bears to the total number of shares with respect to which the stock dividend is received. In determining the basis of shares received in the stock dividend and of the shares held before the stock dividend, section 307 shall apply as if two separate nontaxable stock dividends were made, one with respect to the shares that meet the requirements and the other with respect to shares that do not meet the requirements.

(3) The provisions of subparagraphs (1) and (2) of this paragraph may be illustrated by the following examples:

Example (1). Corporation X issues 100 shares of its common stock to B for $1,000. Subsequently, in a nontaxable stock dividend B receives 5 more shares of common stock of

Corporation X. If the 100 shares meet all the requirements of section 1244 stock determinable at the time of the distribution of the stock dividend, the 5 additional shares shall also be treated as meeting such requirements.

Example (2). In 1959, Corporation Y issues 100 shares of its common stock to C for $1,000 and these shares meet the requirements of section 1244 stock determinable at the time of the issuance. In 1960, C purchases an additional 200 shares of such stock from another shareholder for $3,000; however, these shares do not meet the requirements of section 1244 stock because they were not originally issued to C by the corporation. In 1961, C receives 15 shares of Corporation Y common stock as a stock dividend. Of the shares received, 5 shares, the number received with respect to the 100 shares of stock which met the requirements of section 1244 at the time of the distribution, i.e., 100/300 × 15, shall also be treated as meeting such requirements. The remaining 10 shares do not meet such requirements as they are not received with respect to section 1244 stock. The basis of such 5 shares is determined by applying section 307 as if the 5 shares were received as a separate stock dividend made solely with respect to shares that meet the requirements of section 1244 stock at the time of the distribution. Thus, the basis of the 5 shares is $47.61 (5/105 of $1,000).

(c) *Recapitalizations.* (1) If, pursuant to a recapitalization described in section 368(a)(1)(E), common stock of a corporation is received by an individual or partnership in exchange for stock of such corporation meeting the requirements of section 1244 stock determinable at the time of the exchange, such common stock shall be treated as meeting such requirements.

(2) If common stock is received pursuant to such a recapitalization partly in exchange for stock meeting the requirements of section 1244 stock determinable at the time of the exchange and partly in exchange for stock not meeting such requirements, then only part of such common stock will be treated as meeting such requirements. Such part is the number of shares which bears the same ratio to the total number of shares of common stock so received as the basis of the shares transferred which meet such requirements bears to the basis of all the shares transferred for such common stock. The basis allocable, pursuant to section 358, to the common stock which is treated as meeting such requirements is limited to the basis of stock that meets such requirements transferred in the exchange.

(3) The provisions of subparagraphs (1) and (2) of this paragraph may be illustrated by the following examples:

Example (1). A owns 500 shares of voting common stock of Corporation X. Corporation X revises its capital structure to provide for two classes of common stock: Class A voting and Class B nonvoting. In a recapitalization described in subparagraph (E) of section 368(a)(1). A exchanges his 500 shares for 750 shares of Class B nonvoting stock. If the 500 shares meet all the requirements of section 1244 stock determinable at the time of the exchange, the 750 shares received in the exchange are treated as meeting such requirements.

Example (2). B owns 500 shares of common stock of Corporation X with a basis of $5,000, and 100 shares of preferred stock of that corporation with a basis of $2,500. Pursuant to a recapitalization described in section 368(a)(1)(E), B exchanges all of his shares for 900 shares of common stock of Corporation X. The 500 common shares meet the requirements of section 1244 stock determinable at the time of the exchange, but the 100 preferred shares do not meet such requirements since only common stock may qualify. Of the 900 common shares received, 600 shares ($5,000/$7,500×900 shares) are treated as meeting the requirements of section 1244 stock at the time of the exchange, because they are deemed to be received in exchange for the 500 common shares which met such requirements. The remaining 300 shares do not meet such requirements as they are not deemed to be received in exchange for section 1244 stock. The basis of the 600 shares is $5,000, the basis of the relinquished shares meeting the requirements of section 1244.

(d) *Change of name, etc.* (1) If, pursuant to a reorganization described in section 368(a)(1)(F), common stock of a successor corporation is received by an individual or partnership in exchange for stock of the predecessor corporation meeting the requirements of section 1244 stock determinable at the time of the exchange, such common stock shall be treated as meeting such requirements. If common stock is received pursuant to such a reorganization partly in exchange for stock meeting the requirements of section 1244 stock determinable at the time of the exchange and partly in exchange for stock not meeting such requirements, the principles of paragraph (c)(2) of this section apply in determinating the number of shares received which are treated as meeting the requirements of section 1244 stock and the basis of those shares.

(2) For purposes of paragraphs (1)(C) and (3)(A) of section 1244(c), a successor corporation in a reorganization described in section 368(a)(1)(F) shall be treated as the same corporation as its predecessor.

Par. 6. Section 1.1244(d)–4 is revised to read as follows:

§ 1.1244(d)–4 Net operating loss deduction.

(a) *General rule.* For purpose of section 172, relating to the net operating loss deduction, any amount of loss that is treated as an ordinary loss under section 1244 (taking into account the annual dollar limitation of that section) shall be treated as attributable to the trade or business of the taxpayer. Therefore, this loss is allowable in determining the taxpayer's net operating loss for a taxable year and is not subject to the application of section 172(d)(4), relating to nonbusiness deductions. A taxpayer may deduct the maximum of ordinary loss permitted under section 1244(b) even though all or a portion of the taxpayer's net operating loss carryback or carryover for the taxable year was, when incurred, a loss on section 1244 stock.

(b) *Example.* The provisions of this section may be illustrated by the following example:

Example. A, a single individual, computes a net operating loss of $15,000 for 1980 in accordance with the rules of § 1.172–3, relating to net operating loss in case of a taxpayer other than a corporation. Included within A's computation of this net operating loss is a deduction arising under section 1244 for a loss on small business stock. A had no taxable income in 1977, 1978, or 1979. Assume that A can carry over the entire $15,000 loss under the rules of section 172. In 1981 A has gross income of $75,000 and again sustains a loss on section 1244 stock. The amount of A's 1981 loss on section 1244 stock is $50,000. A may deduct the full $50,000 as an ordinary loss under section 1244 and the full $15,000 as a net operating loss carryover in 1981.

Par. 7. In § 1.1244(e)–1 paragraph (a) is revised to read as follows:

§ 1.1244(e)–1 Records to be kept and information to be filed with the return.

(a) *By the corporation*—(1) *Mandatdory records.* A plan to issue pre-November 1978 stock must appear upon the records of the corporation. Any designation of post-November 1978 stock under paragraph (c)(2) of § 1.1244(c)–2 also must appear upon the records of the corporation.

(2) *Discretionary records.* In order to substantiate an ordinary loss deduction claimed by its shareholders, the corporation should maintain records showing the following:

(i) The persons to whom stock was issued, the date of issuance to these persons, and a description of the amount and type of consideration received from each;

(ii) If the consideration received is property, the basis in the hands of the shareholder and the fair market value of the property when received by the corporation;

(iii) The amount of money and the basis in the hands of the corporation of other property received for its stock, as a contribution to capital, and as paid-in surplus;

(iv) Financial statements of the corporation, such as its income tax returns, that identify the source of the gross receipt of the corporation for the period consisting of the five most recent taxable years of the corporation, or, if the corporation has not been in existence for 5 taxable years, for the period of the corporation's existence;

(v) Information relating to any tax-free stock dividend made with respect to section 1244 stock and any reorganization in which stock is transferred by the corporation in exchange for section 1244 stock; and

(vi) With respect to pre-November 1978 stock:

(A) Which certificates represent stock issued under the plan;

* * * * *

Par. 8. In § 1.1563–3, paragraph (b) (5) (iii) is amended by removing the reference "paragraph (g) (1) (ii)" and inserting in its place the reference "paragraph (e) (1) (ii)". As amended, paragraph (b) (5) (iii) reads as set forth below:

§ 1.1563–3 Rules for determining stock ownership.

(a) *In general.* * * *

(b) *Constructive ownership*—(1) *Options.* * * *

(5) *Spouse.* (i) * * *

(ii) * * *

(iii) For purposes of subdivision (ii) (c) of this subparagraph, the gross income of a corporation for a taxable year shall be determined under section 61 and the regulations thereunder. The terms "royalties", "rents", "dividends", "interest", and "annuities" shall have the same meanings such terms are given for purposes of section 1244(c). See paragraph (e)(1)(ii), (iii), (iv), (v), and (vi) of § 1.1244(c)–1.

* * * * *

(B) The amount of money and the basis in the hands of the corporation of other property received after June 30, 1958, and before the adoption of the plan, for its stock, as a contribution to capital, and as paid-in surplus; and

(C) The equity capital of the corporation on the date of adoption of the plan.

PART 11—TEMPORARY INCOME TAX REGULATIONS UNDER THE EMPLOYEE RETIREMENT INCOME SECURITY ACT OF 1974

Par. 9. In § 11.414 (c)–4, paragraph (b)(5)(iii) is amended by removing the reference to "§ 1.1244 (c)–1(g)(1)" and inserting in its place the reference "§ 1.1244 (c)–1(e)(1)". As amended, paragraph (b)(5)(iii) reads as set forth below:

§ 11.414(c)–4 Rules for determining ownership.

(a) *In general.* * * *

(b) *Constructive ownership*— (1) *Options.* * * *

(5) *Spouse*—(i) *General rule.* * * *

(ii) * * *

(iii) *Definitions.* For purposes of paragraph (b)(5)(ii)(C) of this section, the gross income of an organization shall be determined under section 61 and the regulations thereunder. The terms "interest", "royalties", "rents", "dividends", and "annuities" shall have the same meaning such terms are given for purposes of section 1244(c) and § 1.1244(c)–1(e)(1).

BILLING CODE 4830–01–M

VETERANS ADMINISTRATION

DEPARTMENT OF DEFENSE

38 CFR Part 21

Veterans' Education; Resumption of Contribution of Funds Upon Reenlistment

AGENCY: Veterans Administration and Department of Defense.

ACTION: Final regulation.

SUMMARY: This regulation, issued jointly by the Veterans Administration and the Department of Defense, clarifies that an individual who, because of a discharge or release from active duty, stops contributing to the fund upon which Post-Vietnam era veterans' educational assistance payments are based, may resume contributing upon reenlisting. Since the regulations previously did not address this problem, confusion arose as to whether these individuals may resume contributions. This regulation eliminates the confusion by providing a rule to deal with this situation.

EFFECTIVE DATE: May 12, 1981.

FOR FURTHER INFORMATION CONTACT: June C. Schaeffer (225), Assistant Director for Policy and Program Administration, Education Service, Department of Veterans Benefits, Veterans Administration, 810 Vermont Avenue, NW., Washington, D.C. 20420 (202–389–2092).

SUPPLEMENTARY INFORMATION: On pages 2654 and 2655 of the **Federal Register** of January 12, 1981, notice was published to amend part 21 to permit an individual who was discharged or released from active duty to resume contributing to the Post-Vietnam Era Veterans Educational Account upon return to active duty.

Interested persons were given 30 days in which to submit comments, suggestions, or objections regarding the proposal. The Veterans Administration and Department of Defense received no comments, suggestions or objections. Accordingly, the agencies are adopting the proposal without change.

The proposed changes to § 21.5058 are deemed proper and are hereby approved.

Approved: April 13, 1981.

Rufus H. Wilson,

Acting Administrator, Veterans Administration.

Approved: May 12, 1981.

Douglas Farbrother,

Acting Deputy Assistant Secretary of Defense.

In § 21.5058, paragraph (a) is revised to read as follows:

§ 21.5058 Resumption of participation.

(a) An eligible individual, who remains otherwise eligible, may resume active contribution to the fund, if he or she has—

(1) Voluntarily elected to suspend following completion of minimum participation;

(2) Suspended at any time for reasons of hardship; or

(3) Received a discharge or release from active duty after participation and reenlisted. (38 U.S.C. 1621)

BILLING CODE 8320–01–M

FEDERAL COMMUNICATIONS COMMISSION

47 CFR Part 64

[Docket No. 20840; FCC 81-217]

Miscellaneous Rules Relating to Common Carriers; Use of Recording Devices in Connection With Telephone Service

AGENCY: Federal Communications Commission.

ACTION: Final rule.

SUMMARY: The Commission, by this action, is requiring carriers to revise their tariff provision regulating recording, to add all-party consent as an alternative to the beep tone warning. Also, acoustic and inductive recording is no longer prohibited by the tariff. As a result of this action, Section 64.501 of the Commission's Rules is amended herein. This action is intended to enhance the Commission's policy concerning privacy during telephone conversations.

EFFECTIVE DATE: May 18, 1981.

FOR FURTHER INFORMATION CONTACT: Leroy Cain, Jr., Tariff Division, Common Carrier Bureau, (202) 254–8100.

SUPPLEMENTARY INFORMATION:

In the matter of use of recording devices in connection with telephone service; Memorandum opinion and order.

Adopted: May 7, 1981.

Released: May 18, 1981.

By the Commission: Commissioner Fogarty concurring in part and issuing a statement in which Commissioner Quello joins.

I. Introduction

1. The Commission has before it proposals to modify its policies concerning the use of recording devices in connectiion with telephone service. This proceeding has its genesis in a *Notice of Inquiry (NOI)* released June 24, 1976 (FCC 76–536) and a *Notice of Proposed Rulemaking (Notice)*, 67 FCC 2d 1392 (1978), both aimed at reexamining the Commission mandated provision in the American Telephone and Telegraph Company's (AT&T) interstate telephone service tariff requiring that a beep tone accompany any recording of telephone conversations.[1] These documents sought comment on the feasibility and effectiveness of the beep tone in protecting the privacy interest of telephone users from the unauthorized use of recording devices during telephone conversations.

2. In the *Notice* we proposed to order AT&T to revise its interstate tariff by deleting the tone-warning and replacing it with an all-party consent requirement which we would adopt as a rule of the Commission.[2] We have decided, however, that various factors militate against adopting the proposed commission rule. Nevertheless, we shall adopt certain policy revisions proposed by the *Notice* which provide alternatives to current requirements. These revisions will facilitate the use of state-of-the-art recoring devices and will alleviate the need for costly recording equipment. Moreover, they will allow the telephone user to choose the most appropriate method of notifying the other party of the proposed recording of the conversation. Therefore, to implement these revisions, we will require telephone companies under our jurisdiction to revise their interstate tariffs to allow a customer to record a telephone conversation when all parties to the conversation consent to the recording or when a tone warning device is used. In addition, the ban on acoustic and inductive recording devices will be lifted. Contrary to our position in the *Notice*, however, private line services that do not access the public switched network will continue to be exempt from our recording restrictions. Other revisions are discussed below.

II. Background

A. Docket 6787

3. In 1945 the Commission ordered a general investigation into the use of recording devices in connection with interstate and foreign message toll telephone service and facilities. At that time various telephone companies had regulations in their tariffs which prohibited the use of recording devices.

4. That investigation resulted in a report and order, 11 FCC 1033 (1947), which required that all interstate tariffs allow the use of recording devices in connection with two-way telephone conversations [3] where interstate message toll telephone service or wide area telephone service or their facilities, were involved.[4] While recognizing the need for recording devices and the widespread use of such devices by government and private business, the Commission acknowleged that it was

> Keenly appreciative of the importance and desirability of privacy in telephone conversations. Such conversations should be free from any listening in by others that is not done with the knowledge and authorization of the parties to the call * * * and the Commission is prepared to take all steps within its authority to accomplish this objective. Accordingly, the Commission is firmly of the opinion that the use of telephone recording devices should be permitted only when measures are in effect to assure notification to the parties that their conversations are being recorded.

11 FCC at 1050. Therefore, the Commission required that an automatic tone warning mechanism ("beep tone") be activated whenever the recording device was being used, and that this tone be superimposed on the telephone conversation at regular intervals. The Commission further provided that the tariff regulation must require that the recording device be used only when it could be physically disconnected from the telephone line or switched off. In a subsequent ruling, those recording devices that did not have a direct electrical connection to the telephone were prohibited. *Public Notice*, released March 28, 1951. This ruling meant that telephone conversations could not be recorded by either acoustic or inductive means without violating the tariff. Since the termination of Docket 6787 in 1948, the Commission has recognized five limited exceptions to the beep tone requirement.[5]

B. Docket No. 20840

5. In 1976 the Commission issued an *NOI* in response to several petitions requesting exemption from the beep tone requirement and allegations of numerous instances of violations of the tariff provisions. The Commission questioned whether recent developments in communications policy and practices and technological changes had rendered the present beep tone requirement unenforceable and impractical. The *NOI* set forth several issues for consideration concerning the desirability and enforceability of the beep tone requirement. Comments were requested from interested parties.

6. After examining the comments filed in response to the *NOI*, the Commission issued its *Notice* proposing several changes to the beep tone requirement, the most notable of which was to make this requirement a rule of the Commission in addition to a prescribed tariff provision. The *NOI* comments had brought to light several instances of violations of the existing requirement and confirmed our suspicions that the tariff requirement was largely unenforceable. The purpose of the proposed rule was to enhance enforcement and deter violations by subjecting violators to certain sanctions under the Act, specifically, Sections 401 and 502, 47 U.S.C. §§ 401 and 502.[6]

---

[1] *See*, AT&T Tariff FCC No. 263 (Message Telecommunications Service).

[2] The proposed rule is discussed in the *Notice* and set forth in Appendix A, 67 FCC 2d at 1403.

[3] One-way conversations where, for example, the caller speaks into an electronic answering device, were not included.

[4] The recording of intrastate and local exchange telephone calls is governed by regulations in the tariffs offering those services to the public, on file with the various state commissions. Also, private line communication systems were not covered by the Commission's order except when interconnected with the public switched networks.

[5] These exceptions are: (1) where the recording equipment is used by a Commission licensed broadcast station to record two-way conversations solely for broadcast purposes; (2) where conversations are recorded solely for broadcast purposes by a broadcast network or by a cooperative programming entity composed exclusively of Commission broadcast licensees; (3) where the recording equipment is used by the United States Secret Service to record conversations that concern the safety and security of the President of the United States, members of his immediate family, or the White House and its grounds; (4) where the recording equipment is being used at the United States Department of Defense Command Centers to record emergency communications transmitted in part over the Command Center's private line network; and (5) where the recording equipment is used at the Operations Center of the Nuclear Regulatory Commission to record conversations involving or relating to nuclear emergencies.

[6] Section 401(b) provides for injunctive relief against violators of the rules and regulations of the Commission; Section 502 provides for a fine of not

Continued

7. Additionally, the Commission determined that the beep tone requirement was too restrictive since it served to prohibit any recording where the tone warning was not used, whether consensual or non-consensual. It therefore proposed that the beep tone requirement be eliminated and replaced with a provision which allows recordings when all parties to the telephone conversation give their prior consent. Acknowledging the availability of low cost, high technology recording equipment, the Commission also proposed to rescind its proscription on the use of acoustic and inductive recorders.

8. As proposed, the Commission's all-party consent rule would extend to private line voice services, even where there is no interconnection with the public switched network. Where disputes arise as to whether prior consent was obtained, the proposed rule would place the burden of proof on the party who made the recording.

III. Comments

9. Comments on the proposed rule have been received from parties having a variety of interests in the beep tone requirement.[7] Basically, no party disagrees with the proposition that consensual recording of telephone conversations should be allowed. However, many parties question our jurisdiction to promulgate a rule which would subject *customers* of common carriers to sanctions under the Communications Act. (To repeat, our present indirect regulatory scheme is predicated on a tariff provision enforceable by common carriers.) Moreover, several commenters argue that the recording of telephone conversations should not be regulated by Commission rule or by tariff. They are generally of the opinion that both the current and proposed tariffs are unenforceable, instilling a false sense of security in the telephone-using public. Therefore, they maintain, it would be preferable to have no Commission regulation. Some add that the *Federal Omnibus Crime Control and Safe Streets Act of 1968*, 18 U.S.C. 2510 *et seq.* (*Omnibus Act*)[8] and Section 605 of the Communications Act, 47 U.S.C. 605,[9] are sufficient restraints on the use of recording devices and that no additional regulation is needed. Further, many contend that the *Omnibus Act* is a "comprehensive" treatment of the subject and preempts any Commission regulation in this area. Indeed, some parties allege that our proposed rule, requiring all-party consent, conflicts with the *Omnibus Act*, which allows recording of telephone conversations with only one-party consent. Finally, several parties find that if the Commission is to continue regulating recording of telephone conversations, either by rule or by tariff, use of a beep tone device is preferable to obtaining specific consent before each conversation. Some of these parties suggest that the tone warning be retained as an alternative to the all-party consent proposal.

IV. Discussion

A. General

1. The Present Tariff Requirement

10. There is no dispute that the current beep tone requirement, standing alone, is not an effective method of regulation in this area. Advanced technology and changes in regulatory policy have combined to make the present tariff restrictions unenforceable. In 1948, when we first required a beep tone device, the state of the art was such that in order to make a satisfactory recording, the recording device had to be physically connected to the telephone system.[10] The "physical connection" requirement allowed the telephone company to detect the presence of recorders on the telephone line. This, plus the high cost of recorders at that time, enhanced enforcement to a great extent.[11] Today, however, customers can provide and connect their own equipment, and there is an increased availability of low cost and easy to use recorders. Thus, because of this proliferation of portable acoustic and inductive recorders, whose use cannot be detected by the telephone company, as well as the lifting of the "foreign attachment" restrictions in tariffs,[12] enforcement of the present requirement is practically impossible.

11. There are still other reasons which contribute to the ineffectiveness of the existing tariff provision. First, the only sanction available against the customer, discontinuance of service, is insufficient as a deterrent. In fact, the major telephone companies allege numerous undisclosed acts of recording, yet we are informed that there have been virtually no disconnections of service for violation of the regulation since its inception in 1948.[13] Second, unlike the day when violators could be detected at the central office of the telephone company, today they can generally be detected only when some use is made of the recording.

2. The 1978 Notice

12. As stated previously, in our 1978 *Notice* we proposed replacing the beep tone with an all-party consent requirement, lifting our proscription on acoustic and inductive-type recorders, and adopting a suitable Commission rule which would subject violators to certain sanctions under the Act. The idea here was to lend the clear weight of the Commission to enforcement of this policy.

13. At that time we were of the opinion that by adopting a rule we could improve the effectiveness of the tariff provisions. However, a closer examination of the practicalities and the facts brought to light by the comments convinces us that a Commission rule in this area would be an equally hollow regulatory device. The simple fact is that this Commission could not enforce such a rule, just as the telephone companies are unable to enforce their tariff provisions effectively. For one reason, there is still no way to detect violations in their inception. Consequently, the added sanctions under the Act would

---

more than $500 for "[a]ny person who willfully and knowingly violates any rule, regulation, restriction, or condition made or imposed by the Commission under authority of this Act".

[7] A list of the commenting parties is included as Appendix A to this Order. An in-depth discussion of the comments is contained in Appendix B.

[8] Section 2510 *et seq.*, generally prohibits interception of wire and oral communications. Section 2511(2) (c) and (d) however, excepts conversations recorded with the consent of one party, *unless* the contents will be used for a criminal, tortious, or other injurious act in violation of the laws of any state or of the United States.

[9] *See*, footnote 14, *infra*, for a discussion of Section 605.

[10] The telephone company performed the connections since the tariffs of the various companies prohibited interconnection of foreign attachments to the telephone system.

[11] At the time of Docket 6787 the cost of a device that recorded telephone conversations (inclusive of acoustic and inductive recorders) ranged from $280 to $850. *See* our 1947 Opinion and Order, *supra*, 11 FCC at 1037.

[12] *See, e.g.*, Use of the Carterfone Device in Message Toll Telephone Service (*Carterfone*), 13 FCC 2d 420, *recon. denied*, 14 FCC 2d 571 (1968). In *Carterfone* the foreign attachment restriction was found to violate the customer's right to interconnect a device to the telephone system which improved his utility of the system and did not adversely affect the telephone company's operations or the telephone system's utility for others. Consequently, the installation, maintenance, and provision of equipment necessary for connecting recording devices to the telephone network was no longer restricted to the telephone companies and customers could connect their own equipment directly.

[13] Actually, the tariff specifies that the telephone company "may" discontinue service where violations are found. It is not required to discontinue service even if a violation occurs. In practice the customer is first warned to cease violating the tariff and if he/she agrees to comply, no further action is taken.

not be so much a deterrent as a punitive measure for the small percentage of violators detected. Beyond this, the adoption of a Commission rule might lull the public into believing that undisclosed acts of recording will not occur, when in fact the possibility always exists. Thus, on balance it seems preferable to acknowledge that the job of guarding against personally offensive acts of recording has always rested in the first instance with the telephone users themselves. After all, it is the users who have complete control over what they say over the telephone and to whom they say it.

14. Another significant factor behind our decision not to adopt a Commission rule in this area is that in the period since our beep tone prescription was adopted, Congress has seen fit to change federal law by imposing strict penalties for certain acts of interception and divulgence of telephone communications.[14] A closer examination of Title III of the *Omnibus Act* convinces us that our concerns regarding the interception of telephone communications are adequately remedied by its provisions, and that a separate rule of the Commission under these circumstances is unnecessary.

15. Specifically, the *Omnibus Act* prohibits the interception of oral and wire communications in general, but Section 2511(2) (c) and (d) [15] excepts the consent of *one party* to that conversation.[16] Though our proposed requirements would be more restrictive (i.e. we proposed that *all parties* to the conversation give their prior consent), Title III of the Act nevertheless provides consistent and clear requirements regarding consensual and nonconsensual recording of telephone conversations, as well as strong civil and criminal penalties for violations of its provisions.[17] Moreover, as we construe this statute and its history, Congress intended to create a comprehensive set of rules governing various aspects of privacy of wire and oral communications in Title III, covering both interstate and intrastate conversations.[18] Section 605 of the Communications Act acknowledges this and thus a Commission rule in this area is not only unnecessary but, as the comments point out, could be perceived by some as conflicting with the provisions of Title III.

B. Revisions of the Current Tariff

16. Nevertheless, we conclude that certain basic changes to the current tariff provision are in the public interest. Although we perceive Title III of the *Omnibus Act* as a more comprehensive and effective prophylactic to invasions of privacy in telephonic communications, we continue to endorse some method of notification to a party when a recording device is used. Accordingly, we will require telephone companies to revise their interstate tariffs to reflect our determination that the requirements are too restrictive and do not comport with current technology. Therefore, we will revise the present beep tone warning provision by requiring carriers to permit all-party consent as an alternative. We will also rescind our requirement of prohibiting the use of acoustic and inductive recorders.

17. Since 1948, the method of notification has been limited to the use of a tone-warning device. In the *Notice*, we proposed substituting all-party consent for the beep tone warning. While no commenters object to allowing recording if all parties to the conversation consent, several parties oppose replacement of the beep tone by a mandatory consent requirement. Indeed, in many instances (such as service repairs for electric utilities, road service and emergency distress calls) it is not practicable to obtain prior consent to record the conversation. From our examination of the comments, we are convinced that it would not be in the public interest to select one method of notification over the other. Since the tone warning has proved to be effective for some,[19] the consent requirement will, instead of replacing the beep tone, be added as an alternative method of notification.

18. Finally, our adoption of the all-party consent alternative to the beep tone enables us to rescind our prohibition against acoustic and inductive recording devices. As explained, this prohibition is now unnecessary as an aid in the enforcement of the beep tone requirement since the tone is no longer the sole method of notification. Moreover, its elimination is in the public interest since it allows the use of inexpensive and readily available recording equipment.

C. Exceptions to the Revised Tariff Provision

19. We have decided to allow three exceptions to the revised tariff requirement which will supersede the five current exceptions.[20] The first

---

[14] *See, e.g.*, Title 18 U.S.C. 2510–2520, Pub. L. 90–351, Title III, § 802, June 19, 1968, 82 Stat. 212. *See also*, Section 605 of the Communications Act, 47 U.S.C. § 605. Prior to the enactment of the *Omnibus Act*, Section 605 covered the unauthorized interception and divulgence of *wire or radio* communications. In 1968, however, at the same time Congress enacted the *Omnibus Act*, it also amended Section 605 so that the *Omnibus Act* now covers virtually all interceptions involving wire communications and Section 605 covers interceptions of radio communications. Section 605, however, continues to prohibit the interception and divulgence of wire communications involving telephone company and other common carrier personnel.

[15] Section 2511(2) (c) and (d) provides:

(c) It shall not be unlawful under this chapter for a person acting under color of law to *intercept* a wire or oral communication, where such person is a party to the communication or one of the parties to the communication has given prior consent to such interception.

(d) It shall not be unlawful under this chapter for a person not acting under color of law to *intercept* a wire or oral communication where such person is a party to the communication or where one of the parties to the communication has given prior consent to such interception *unless such communication is intercepted for the purpose of committing any criminal or tortious act in violation of the Constitution or laws of the United States or of any State or for the purpose of committing any other injurious act.* (Emphasis added.)

Under Title III, *intercept* is defined as: "the aural acquisition of the contents of any wire or oral communication through the use of any electronic, mechanical, or other device", 47 U.S.C. 2510(4). This would include the use of a recording device.

[16] It should be noted, however, that under Section 2511(2)(d) there are limitations to one-party consent recording. Thus, the "criminal," "tortious" and "injurious" use limitations were placed on recordings by *private parties* made without the knowledge or consent of the other parties.

[17] 18 U.S.C. 2520. Section 2520 provides for civil remedies:

Any person whose wire or oral communication is intercepted, disclosed, or used in violation of this chapter shall (1) have a civil cause of action against any person who intercepts, discloses, or procures any other person to intercept, disclose, or use such communications, and (2) be entitled to recover from any such person—

(a) Actual damages but not less than liquidated damages computed at the rate of $100 a day for each day of violation or $1,000, whichever is higher;

(b) Punitive damages; and

(c) A reasonable attorney's fee and other litigation costs reasonably incurred.

A good faith reliance on a court order or legislative authorization shall constitute a complete defense to any civil or criminal action brought under this chapter or under any other law. [Footnote omitted.]

The criminal penalties for violation of Title III are a $10,000 fine and/or not more than five years imprisonment. 18 U.S.C. 2511(i).

[18] The legislative history of chapter 119, Title 18 U.S.C. 2510–2520, reveals that one of Congress' primary concerns was to "protect effectively the privacy of *wire and oral communications.*" (*Emphasis added*). Public Law 90–351, Title III 802, June 19, 1968, 82 Stat. 212. Moreover, according to Senate Report No. 1097 accompanying the legislation, Title III amended Section 605 of the Communications Act of 1934, 47 U.S.C. 605, to provide a substitute for that section so that "[t]he regulation of the interception of wire communications in the future is to be governed by proposed new chapter 119 of title 18, United States Code." Sen. Report No. 1097, 90th Cong., 2d Sess. 1968 U.S. Code Cong. and Admin. News, 2112, 2113. (1968).

[19] See the *Detailed Comments* in Appendix B.

[20] The present exceptions for the Secret Service, Department of Defense, and the Nuclear Regulatory

Continued

exception is for incoming calls made to telephone numbers publicized for emergencies and outgoing calls made in immediate response. In many types of emergency situations, such as those involving fire, health care, and police, it is infeasible to obtain consent, and use of the beep tone could confuse callers or obliterate important portions of the message. Therefore we will not require the beep tone or prior consent for the recording of calls reporting or made in immediate response to these emergencies. Recordings made at the Department of Defense Command Centers and the Operations Center of the Nuclear Regulatory Commission will be included under this exception. *See* 59 FCC 2d 538 (1976) and Mimeo No. 06482 (January 29, 1981).

20. The second exception is for the recording of calls made for patently unlawful purposes, such as bomb threats, kidnap ransom requests, and obscene telephone calls. Outgoing calls made in immediate response to such a call will also be excepted. Under this exception the U.S. Secret Service will still be allowed to record calls referred to it which threaten the safety and security of the President, his immediate family, and the White House.

21. The third exception is for recordings made pursuant to an explicit and lawful order of a court issued pursuant to 18 U.S.C. 2516. We adopt this exception so that our requirement will not hinder law enforcement efforts or conflict with Title III of the *Omnibus Act.*

D. Private Line Service

22. In light of our revised restrictions on the use of recording devices, and the fact that the privacy expectation involved with private line services is adequately distinguished from that of the public switched network, it would be incongruous to extend the same restrictions to private line service. We agree with the parties commenting in this area that the conditions under which dedicated private lines are used give reasonable assurances that those having access to them would know if their conversations are to be recorded. Therefore, we will continue to exclude private line service from our requirement, except where there is access to the public switched network.

VI. Summary and Conclusions

23. As discussed above, after carefully considering the comments submitted in response to our *Notice of Proposed Rulemaking*, Docket 20840, 67 FCC 2d 1392 (1976), we have decided not to adopt a rule in this area. We have further decided to revise our present beep tone requirement to include, as an alternative, the all-party consent requirement. Additionally, we are rescinding our proscription on the use of acoustic and inductive recording devices and are continuing our exclusion of private line services, except where such services access the public switched network.

24. As a result of this proceeding, § 64.501 of our Rules, 47 CFR 64.501, dealing with the use of recording devices by telephone companies, will be revised to comport with our findings. The revisions to Section 64.501 are set out in Appendix C and are to become effective on May 18, 1981.

25. In view of the foregoing and pursuant to the authority granted in Sections 2(a), 4(i), 4(j), 201, 205, 303(r) and 403 of the Communications Act, 47 U.S.C. 152(a), 154(i), 154(j), 201, 205, 303(r) and 403, it is ordered, That all common carriers subject to Title II of the Communications Act, 47 U.S.C. 151 *et seq.* shall revise such tariff regulations on file with this Commission which provide for the use of recording devices in connection with interstate and foreign message toll telephone service and wide area telephone service, to comport with this Order.

26. It is further ordered, That the Secretary shall cause this Memorandum Opinion and Order to be published in the **Federal Register.**

27. It is further ordered, That Docket No. 20840 is hereby terminated.

(Secs. 2, 3, 4, 5, 301, 303, 307, 308, 309, 315, 317, 48 Stat., as amended, 1064, 1065, 1066, 1068, 1081, 1082, 1083, 1084, 1085, 1088, 1089; 47 U.S.C. 152, 153, 154, 155, 301, 303, 307, 308, 309, 315, 317)

Federal Communications Commission.[21]

William J. Tricarico,

Secretary.

Appendix B—Detailed Comments of the Parties

1. The Comments received may be grouped into four general categories;

(A) Those commenters that support the proposed rule in general, but suggest various improvements.

(B) Those opposed to replacing the beeptone requirement with all-party consent and who suggest that we retain the beeptone, with certain revisions.

Commission are included in the new exceptions noted below. Broadcasters and broadcast organizations will not require an exception under the revised policy (*see e.g.* 38 FCC 2d 579 (1972) and *Broadcast of Telephone Conversation*, Docket 18601, 23 FCC 2d 1 (1970)) since they are required to obtain prior consent before a conversation can be recorded for broadcast. *See e.g.*, 47 CFR 73.1206. Moreover, since § 73.1206 excepts from the prior-consent rule for broadcasters, conversations where the caller is aware, or is presumed to be aware, that the call is likely to be broadcast, we will construe that prior consent for recording these calls has been given for purposes of the tariff requirement.

[21] See attached statement of Commissioner Joseph R. Fogarty in which Commissioner James H. Quello joins.

(C) Those who seek exceptions from Commission regulation.

(D) Those that suggest that we eliminate the beeptone or any other requirement and leave regulation in this area to Congress or the states.

A. General Comments

2. Many parties support the Commission proposals in general but suggest various improvements. For example, several parties have problems with our use and description of the term "emergency situations" in the proposed rule. The Dictaphone Corporation (Dictaphone), Department of Defense (DoD), and the American Automobile Association (AAA), to name a few, contend that we have defined "emergency" in our exceptions too narrowly. They suggest that it should be expanded to include not only police, fire, and health care emergencies, but also emergency road service, emergency electrical outages, chemical emergencies, gas leaks, water main breaks, reports of downed "live" electrical wires, and other similar type emergencies.

3. Other parties request that we define "unlawful purposes", as used in paragraph "(c)" of the proposed prior consent rule. (Paragraph "(c)" of the rule excepts incoming calls that are "threatening, harassing, obscene or [made] for other unlawful purposes, as defined in 47 U.S.C. 223").

4. As to our proposal to include private line service in the regulations, certain parties adamantly oppose such a move, contending that there are different privacy considerations inherent in the use of private line service as contrasted with the public switched network. The conditions under which "pure" private lines (private line service without access to the public switched network) are used, they assert, give reasonable assurance that those having access to them would know that their conversation might be recorded. Moreover, they submit, private line services are generally used for specific business communications purposes, and most users of private line services are proscribed by company rules from handling the kind of personal communications of the sort generally carried by the public switched network. The parties assert that technological change is an insufficient reason to depart from the historical exemption of private line services from our beeptone requirement.

5. There were also comments directed at publicizing the rule. Some suggest publicizing the rule through bill inserts and by a notice appearing in the Call-Guide section of the white pages of the telephone book. Others suggest that a half or full page of the telephone book be dedicated to describing the all-party consent or beep tone rule.

B. Parties Opposed to Replacing the Beep Tone with All-Party Consent

6. Many comments were received advocating the continued use of the beep tone. These parties had either expended vast amounts of time and money in perfecting their business activities to comply with the beep tone requirement or believed that they would be subjected to a great disadvantage and difficulty by being required to go through a formal consent process with each party before recording. The most forceful comments received in this area were from Delphi Communications Corporation, Inc. (Delphi), the Utilities Telecommunications Counsel (UTC), and from various public utility companies. Delphi asserts that it has engaged in the research and development of an advanced state-of-the-art telephone answering system which incorporates the latest in computer technology. This system represents an investment of millions of dollars and is designed to process the receipt and forwarding of a high volume of telephonic messages. The system complies with the beep tone requirement, but would sacrifice much of its efficiency if the prior consent rule were adopted.

7. UTC and various utility companies state that all telephone conversations into and out of the control and dispatching centers of members of the utility industry are recorded using the beep tone. They assert that the recordings are necessary for the continued efficiency and safe operation of these utilities. They explain that conversations between and among utility control and dispatching centers involve discussions of emergency conditions affecting the safety and welfare of the public or the utility's employees and, almost always, time is of the essence. Under these circumstances, they contend, the proposed prior consent rule is patently incompatable with the general urgency of utility system control. Furthermore, they assert that blanket written consent to record would be impractical because of the tremendous number of employees and various non-affiliated companies involved. Finally, they maintain that if the new rules are adopted to replace the beep tone, most of the lawful and useful utility telephone recording practices would have to be abandoned because of the impossibility of complying with either the oral or written prior consent requirement.

8. Other parties assert that our proposed rule would conflict with state regulations requiring the beep tone or that a federal rule eliminating the beep tone requirement might well be interpreted to preempt local authorities from maintaining that requirement on intrastate calls. Moreover, they argue that different interstate and intrastate regulations might confuse the general public. These parties maintain that uniformity will save time, effort and money.

9. Finally there are comments which suggest that we retain the beep tone, but, as an alternative, also allow a person to record after obtaining consent of the other party. Specifically, the Public Utilities Commission of California and the Attorney General of California suggest that the philosophy of promoting the privacy of communications will be compromised by the proposed rule in this proceeding. They assert that the Commission should not choose one method of securing privacy in telephone conversations over another where both together may prove even more effective.

C. Parties Requesting Exceptions

10. A number of commenting parties seek exceptions to the proposed rule if adopted. For example, the Utah School for the Blind points out that blind persons, in many instances, rely heavily on tape recording their telephone conversations because they cannot take notes. To require a blind person to obtain permission to record each telephone conversation might elicit undesirable and uncooperative reactions from the other party. The U.S. Department of Justice, Drug Enforcement Administration (DEA) asserts that the proposed regulation will be in derogation of congressional intent unless modified to recognize a legal exception for law enforcement officials. DEA and GTE note that section 2511(2)(c) of the *Omnibus Crime Control and Safe Streets Act of 1968*, 18 U.S.C. 2511(2)(c), allows persons acting under color of law to intercept a wire or oral communication where such person is a party to the conversation or one of the parties has given prior consent to such interception.

11. The American Broadcasting Company, Inc. (ABC), the National Association of Broadcasters (NAB), the National Broadcasting Company (NBC), and Doubleday Broadcasting Company, Inc., all take the position that broadcasters should be excepted from our "prior consent" rule and be allowed to record without prior consent as long as consent to broadcast is obtained before broadcasting the telephone conversation. [22] (Our rules presently require broadcasters to obtain consent before the telephone conversation is recorded for broadcast, 47 CFR 73.1206.)

12. Other parties seek exclusion for "dispatch" and "crewcalling" in the railroad and related industries; for emergency road service calls; for reservation calls in the airline industry, for communications personnel engaged in receiving and forwarding telephone messages to the intended addressee; for recordings made of calls for service and quality control; for emergency calls involving hazardous chemicals; and last, but by no means exhaustive, for dealers in precious metals, stock, commodities and options.

D. Parties Opposing Any Commission Regulation

13. Some parties suggest that we eliminate any regulation regarding recording of telephone conversations. Many commenters in this category contend that the Commission lacks the authority under the Communications Act to implement the proposed new rule. In support of this proposition UTC asserts that the sections of the Act cited as conferring power on the Commission to promulgate this rule are insufficient. UTC specifically asserts that Section 2(a) of the Act, 47 U.S.C. 152(a), confers Commission jurisdiction over common carriers and not over customers of common carriers; and that Sections 4(i), 4(j) and 403, 47 U.S.C. 154(i), 154(j), and 403, are enabling sections only and do not confer additional authority on the Commission, but must be used with other "authorizing"

[22] Doubleday submitted a Petition for Rulemaking in July 1975, RM-2571, seeking such a revision to § 73.1206. In its comments Doubleday now requests that we address its pending petition in this Docket. However, the petition is being considered in another proceeding and will be forthcoming in the near future.

sections of the Act. Others argue that we were preempted by Congress, when it enacted Title III of the *Omnibus Crime Control Act of 1968*, 18 U.S.C. 2511 *et seq.* Still others assert that Section 605 of the Communications Act, 47 U.S.C. 605, sufficiently covers this area of privacy. The commenters suggest that these sections should suffice to protect any legitimate privacy interest which any party to the conversation may have, and that we should not enact any additional restrictions or regulations.

Appendix C

1. Part 64—*Miscellaneous Rules Relating to Common Carriers*, Subpart E—Use of Recording Devices by Telephone Companies—is amended as follows:

Section 64.501 is amended by revising paragraphs (a) and (b) and by ading a new (b)(1) to read as follows:

§ 64.501 Recording of telephone conversations with telephone companies.

§ 64.501 Recording of telephone conversations with telephone companies.

* * * * *

(a) Where such use shall be preceded by verbal or written consent of all parties to the telephone conversation, or,

(b) Where such use shall be accompanied by an automatic tone warning device, which will automatically produce a distinct signal that is repeated at regular intervals during the course of the telephone conversation when the recording device is in use. Provided that:

(1) The characteristics of the warning tone shall be the same as those specified in the Orders of this Commission adopted by it in "Use of Recording Devices in Connection With Telephone Service," Docket 6787, 11 FCC 1033 (1947); 12 FCC 1005 (November 26, 1947); 12 FCC 1008 (May 20, 1948).

* * * * *

Statement of Commissioner Joseph R. Fogarty in Which Commissioner James H. Quello Joins (Concurring in Part)

In Re: Use of Recording Devices in Connection with Telephone Service (Docket No. 20840).

I can only concur in the Commission's decision to modify the beep tone rule. I do not believe that in practice the "all-party consent" alternative will provide any improvement over the existing beep tone rule. The public will still remain essentially unprotected against the illegal invasion of the privacy of telephonic communication. Moreover, by modifying the beep tone rule, the Commission is sending the wrong signal to the public at the wrong time. As I have stated previously, the Commission is sitting on a "time bomb" in the privacy area.[23] The potential for invasion of the privacy of communication and the violation of the integrity of the communications network is increasing alarmingly. I believe the "all-party consent" proposal will be ineffective and that the public—all of our protestations to the contrary aside—will perceive a Commission retreat from its strong commitment to privacy in general and to the privacy of telephone conversations in general.

I cannot accept the argument that a rule should be modified because it is "unenforceable." The fact that a rule may be "unenforceable" is not a justification for its elimination. The only proper basis for the elimination of a rule is that the rationale underlying the rule is incorrect or unsupportable. Such cannot be said for the Commission's beep tone requirement. The underlying rationale—that telephone conversations "should be free from any listening in by others that is not done with the knowledge and authorization of the parties to the call" [24]—is still valid. Assuming that the rule is "unenforceable," it still retains deterrent value because of the possibility of the imposition of sanctions if a violator is caught. It is for these reasons that I am pleased that the Commission decided not to go forward with a rulemaking proposing to eliminate both the beep tone and the "all party consent" requirements.

This decision points out once again that the Commission must develop a uniform policy in the privacy and security areas. I recommend again that the Commission form a task force, including representatives from other interested agencies and departments of the government, to study the problem of maintaining the privacy and security of the telecommunications network in the face of the threat presented by new technologies.[25] This task force after study, would report to the Commission on policies and rules that the FCC might adopt in this area and on any amendments to the Communications Act and the Omnibus Crime Control and Safe Streets Act of 1968 [26] that the Commission might recommend to Congress. Until the Task Force is formed and its study completed, the Commission will continue to deal with important issues of privacy and security on an *ad hoc* basis, if at all. The continuation of such a practice is dangerous and intolerable.

INTERSTATE COMMERCE COMMISSION

49 CFR Part 1033

Various Railroads Authorized To Use Tracks and/or Facilities of Chicago, Milwaukee, St. Paul and Pacific Railroad Co., Debtor, (Richard B. Ogilvie, Trustee)

AGENCY: Interstate Commerce Commission.

ACTION: Amendment No. 1 to Eighth Revised Service Order No. 1474.

SUMMARY: Eighth Revised Service Order No. 1474, authorized various railroads to use tracks and/or facilities of Chicago, Milwaukee, St. Paul and Pacific Railroad Company, Debtor (Richard B. Ogilvie, Trustee). The provisions of this order are extended for an additional ninety (90) days, and shall expire 11:59 p.m., August 31, 1981.

EFFECTIVE: 11:59 p.m., May 31, 1981, and continuing in effect until 11:59 p.m., August 31, 1981, unless modified, amended or vacated by order of this Commission.

FOR FURTHER INFORMATION CONTACT: M. F. Clemens, Jr., (202) 275-7840.

Decided: May 27, 1981.

Upon further consideration of Eighth Revised Service Order No. 1474 (46 FR 25094), and good cause appearing therefor:

It is ordered, § 1033.1474 Eighth Revised Service Order No. 1474; (various railroads authorized to use tracks and/or facilities of the Chicago, Milwaukee, St. Paul and Pacific Railroad Company, debtor (Richard B. Ogilvie, trustee)) is amended by substituting the following paragraph (n) for paragraph (n) thereof:

(n) *Expiration date.* The provisions of this order are extended for an additional ninety (90) days, and shall expire at 11:59 p.m., August 31, 1981, unless otherwise modified, amended or vacated by order of this Commission.

Effective date. This amendment shall become effective at 11:59 p.m., May 31, 1981.

This action is taken under authority of 49 U.S.C. 10304-10305 and Section 122, Pub. L. 96-254.

This amendment shall be served upon the Association of American Railroads, Car Service Division, as agent of the railroads subscribing to the car service and car hire agreement under the terms of that agreement and upon the American Short Line Railroad Association. Notice of this amendment shall be given to the general public by depositing a copy in the Office of the Secretary of the Commission at Washington, D.C., and by filing a copy with the Director, Office of the Federal Register.

By the Commission, Railroad Service Board members, Joel E. Burns, Robert S. Turkington and John H. O'Brien.

Agatha L. Mergenovich,

Secretary.

BILLING CODE 7035-01-M

DEPARTMENT OF THE INTERIOR

Fish and Wildlife Service

50 CFR Part 17

Endangered and Threatened Wildlife and Plants; Deferral of Effective Dates for Final Rules; Request for Comments

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Deferral of effective dates for final rules with request for comments.

SUMMARY: The Department of the Interior is deferring the effective date of rules issued in final form but not yet in effect to permit reconsideration of the rules under Executive Order 12291. The deferred rules relate to the Hawaiian Tree Snails, the Texas Poppy-mallow, gypsum wild buckwheat and the Todsens pennyroyal. The Department is also requesting comments on whether the rules listed are major under Executive Order 12291.

DATES: The rules are deferred until June 30, 1981. This deferral is effective May 30, 1981. Comments must be received on or before June 10, 1981.

ADDRESSES: Written comments should be sent to Mr. John L. Spinks, Jr., Chief, Office of Endangered Species, Fish and Wildlife Service, Department of the Interior, Washington, D.C. 20240.

FOR FURTHER INFORMATION CONTACT:
Mr. John L. Spinks, Jr., Chief, Office of Endangered Species, Fish and Wildlife Service, Department of the Interior, Washington, D.C. 20240 (Telephone: (703) 235–2771) or Ms. Patricia Bangert, Office of the Solicitor, Department of the Interior, Washington, D.C. 20240 (Telephone: (202) 343–2172).

SUPPLEMENTARY INFORMATION: The President's Memorandum of January 29, 1981, directed Federal agencies to defer the effective dates of regulations issued in final form but not yet in effect for a 60-day period. In notices published February 4, 1981 (46 FR 10707), February 17, 1981 (46 FR 12496), March 30, 1981 (46 FR 19233), and April 30, 1981 (46 FR 24186), the Department of the Interior deferred the effective dates of the regulations listed below to May 30, 1981. Executive Order 12291, issued by the President on February 17, 1981 (published 46 FR 13193, February 19, 1981), directed agencies to suspend or postpone the effective dates of all major rules that had been promulgated in final form but had not yet become effective to the extent necessary to permit reconsideration of the rules in accordance with the Order. The Department of the Interior is further deferring the effective dates of the rules listed below to June 30, 1981 to allow the Department sufficient time to determine whether the rules are major and to comply with the terms of the Order.

Rule	Date published and FR page	Effective date
Fish and Wildlife Service 50 CFR Part 17. Endangered and Threatened species. Hawaiian (Oahu) Tree Snails to be Endangered. *Cellrhoe scabriuscula* (Texas poppy-mallow) to be Endangered.	Jan. 13, 1981, 46 FR 3178, 3184 (2 documents).	June 30, 1981.
Fish and Wildlife Service 50 CFR Part 17. Endangered and Threatened species. *Eriogonum gypsophilum* (gypsum wild buckwheat) to be Threatened. *Hedeoma todsenii* (Todsen's pennyroyal) to be Endangered.	Jan. 19, 1981, 46 FR 5730.	June 30, 1981.

The Department is requesting public comment on whether the rules listed are major under Executive Order 12291. Written comments must be sent to the address given above on or before June 12, 1981.

Dated: May 27, 1981.

Galen Buterbaugh,

Acting Director, Fish and Wildlife Service.

[FR Doc. 81-16592 Filed 6-1-81; 10:30 am]

BILLING CODE 4310-55-M

Proposed Rules

Federal Register
Vol. 46, No. 105
Tuesday, June 2, 1981

This section of the FEDERAL REGISTER contains notices to the public of the proposed issuance of rules and regulations. The purpose of these notices is to give interested persons an opportunity to participate in the rule making prior to the adoption of the final rules.

NATIONAL CREDIT UNION ADMINISTRATION

12 CFR Part 701

Surety Bond Coverage for Federal Credit Unions

AGENCY: National Credit Union Administration (NCUA).

ACTION: Proposed Rule.

SUMMARY: This is a proposed rule to revise update and simplify the existing § 701.20, surety bond coverage for Federal credit unions. The proposed regulations implement mandated sections of the Federal Credit Union Act and establish minimum standards for surety bond and insurance coverage.

DATE: Comments must be received on or before July 31, 1981.

ADDRESS: Send comments to Regulatory Development Coordinator, Rob Monheit, National Credit Union Administration, 1776 G Street NW., Washington, D.C. 20456.

FOR FURTHER INFORMATION CONTACT: Thomas Straslicka, Chief, Supervision Branch, Office of Examination and Insurance. Telephone: (202) 357–1065.

SUPPLEMENTARY INFORMATION:

1. Background

Section 112 of the Federal Credit Union Act (Act) requires the treasurer to "* * * give bond with a good and sufficient surety, in an amount and character to be determined by the board of directors in compliance with regulations prescribed from time to time by the Board, conditioned on the faithful performance of this trust."

Section 113 of the Act states that "* * * any officer or employee having custody of or handling funds to give bond with good and sufficient surety in an amount and character to be determined by the board of directors in compliance with regulations prescribed from time to time by the Board * * *"

Section 120(h) of the Act requires that "* * * every person appointed or elected by any Federal credit union to any position requiring the receipt, payment or custody of money or other property owned by a credit union, or in its custody or control as collateral or otherwise * * *" This section also gives the NCUA Board the following powers:

(a) To approve bond forms;

(b) To require such other surety coverages as the Board may determine to be reasonably appropriate;

(c) To set minimum requirements for bond coverage;

(d) To approve a blanket bond in lieu of individual bonds; and

(e) To approve an excess coverage bond for coverage in excess of minimum surety coverage.

This proposed regulation implements the mandated Sections of the Act and establishes minimum standards for surety and insurance coverage. Beyond these minimum standards, the determination of the amount and type of surety and insurance coverage is a matter of business judgment based on numerous internal and external factors. A Federal credit union could cover all insurable risks as comprehensively as possible, or only cover those risks which would be catastrophic. The balance between depth of coverage and corresponding cost is most appropriately determined by the board of directors of each Federal credit union. There must be a thorough evaluation of loss exposure, risk control and the financial resources and condition of each credit union. It is the duty of the board of directors to review each of the insuring and surety clauses of the bond and to determine that the credit union is effectively protected. The Administration encourages boards of directors to carry excess bond coverage when their credit unions' internal controls are limited or when their financial condition is weak.

2. Analysis of Proposed Change

The following lettered paragraphs correspond with the lettered sub-sections of § 701.20 of the NCUA Rules and Regulations. Each section of the present regulation will be summarized and then the proposed changes will be analyzed.

a. *Present*—Requires board of directors to conduct a semi-annual review of all insurance coverages, including surety coverage.

Analysis—This section is deleted in its entirety. Its deletion in no way obviates the board of director's responsibility for the review of bond and insurance coverage. The selection, analysis and review of surety and insurance coverage is a business and management decision that is most appropriately made by the board of directors within the requirements of the Act. It is incumbent upon each board of directors to carefuly review coverages, deductibles and costs when designing the surety and insurance program that most efficiently deals with the risks of operating a credit union. Critical to any decision on surety coverage is to ensure that the credit union's solvency is not impaired by a non-covered loss. Therefore, the board of directors should review surety and insurance coverage as often as necessary to maintain adequate coverage for the potential losses that may occur. The Administration recommends that each credit union's board of directors perform at least an annual review of surety and insurance coverage.

b. *Present*—Requires that all surety bonds provide faithful performance of duty coverage for any officer or employee while performing any of the duties of the treasurer.

Analysis—Faithful performance of duty coverage is mandated by Section 112 of the Act and is a reasonable requirement to include in minimum bond standards. In addition, this section was modified to clearly state that faithful performance coverage is required for all employees, to include members of the credit committee, supervisory committee, directors (but not when they are acting as directors) and all other persons in the employ of the credit union. This addition clearly states in the regulation the faithful performance coverage requirement which is contained in the Standard Bond Form No. 23 definition of employee.

c. *Present*—Requires that only NCUA Board approved surety bond forms may be used and establishes Standard Form 23 as the minimum acceptable coverage. Also provides approval for other types of blanket bond forms.

Analysis—Section 120(h) of the Act directs that the NCUA Board must approve bond forms prior to their use by Federal credit unions. The language of this section is simplified; the content remains unchanged. In addition to Credit Union Blanket Bond Form No. 23,

Credit Union Blanket Bond Forms 576, 577, 578, 579, 580 and 581 have been approved by the NCUA Board. Bond Form 581 is by far the most common bond in use today, and if there is no objection by any surety company during the comment period, the approval of Forms 576, 577, 578, 579 and 580 will be revoked in the final regulation.

d. *Present*—Requires that surety bond companies hold a certificate of authority from the Secretary of the Treasury before writing surety bonds for credit unions.

Analysis—This section is deleted as it duplicates language in Section 120(h) of the Act.

e. *Present*—Requires that surety coverage be increased, except for extraordinary events, to the greater of the credit union's daily cash fund or cash in transit when either of those exceed minimum surety requirements. The increased coverage must be obtained within 30 days.

Analysis—The language of this section is simplified; the content remains unchanged. Minimum bond coverage must be sufficient to cover negotiable instruments.

f. *Present*—Establishes a schedule of minimum surety coverages for various asset sizes and fixes responsibility to ensure adequate coverage with the board of directors.

Analysis—The schedule of minimum coverages is simplified. The minimum coverage for credit unions with less than $1,000,000 in assets is decreased, except for credit unions with assets of $50,000 or less. Also, credit unions with $1,000,000 or more in assets have a slight decrease in required bond coverage. In addition, the maximum limit of $5,000,000 in surety coverage has been retained. A credit union may choose to have more than the minimum surety coverage if deemed appropriate by its board of directors after an assessment of the risk exposure involved for that credit union. Beyond these mandated minimums, each board of directors should review its credit union's loss exposure and determine that adequate excess coverage is maintained. Section 120(h) of the Act requires the NCUA Board to set reasonable standards for bond coverage. It is the board of directors' responsibility to insure that areas of risk or loss exposure under each surety or insuring clause is obtained in an amount necessary to protect the credit union.

Although direct comparisons of minimum bond requirements for banks and savings and loan associations to credit unions cannot be made because of the equity structure differences, and because the required coverages are different, minimum coverage requirements are lower for both banks and savings and loan associations. As a *very general* guide, an institution with $10 million in assets would be required to have these minimum coverages: Banks—$250,000; Savings and Loan Associations—$450,000; Federal credit unions—$550,000. In addition, as asset size increases, the minimum bond requirements for banks and savings and loan associations do not increase nearly as rapidly as does the required coverage for credit unions. In summary, due to the equity structure differences between credit unions, banks and savings and loan associations, NCUA believes higher minimum bond coverage requirements for credit unions is necessary from a safety and soundness viewpoint.

g. *Present*—Establishes that the preceding schedule is the minimum coverage for all surety bonds that may be written for credit unions and requires that reduced coverage must have the prior approval of the NCUA Board.

Analysis—This section of the present regulation is redundant with the Act and other sections of the regulation. Revisions were made to provide part of the information in a more logical manner.

h. *Present*—Establishes a schedule of permissible deductibles for required coverages, prohibits deductibles for dishonesty and lack of faithful performance and requires that increased deductibles have the prior approval of the NCUA Board.

Analysis—This section is changed substantially in two key areas: The maximum amount of deductibles and the coverages against which deductibles may be applied. Both changes reflect the recognition that it is the board of director's responsibility to determine the desirability of alternative deductibles. The maximum deductible is increased to $200,000 based on a percentage of assets provided that the deductible does not exceed 10 percent of the Regular Reserve or a segregated contingency reserve. Deductibles can be applied to any bond coverage, including loss due to dishonesty or lack of faithful performance. These regulations allow a board of directors more flexibility in making rational economic decisions on coverage versus risk while at the same time not allowing the deductible to become so large as to endanger a credit union's safety and solvency. Although direct comparisons cannot be made due to equity structure differences, banks and savings and loan associations are generally allowed much higher deductibles.

i. *Present*—Establishes the authority of the NCUA Board to require credit unions to increase their surety bond coverage when, in the opinion of the NCUA Board, such coverage is inadequate.

Analysis—Consideration was given to deleting this section. However, it was retained to state clearly the NCUA Board's authority to require additional surety coverage when it believes a credit union's present surety coverage is inadequate. In addition, the Administration believes that notifying a credit union of inadequate surety coverage by letter is the most efficient way to correct the deficiency. Otherwise, a cease and desist action would have to be prepared, which is a time consuming and burdensome process.

j. A new section was added to state that Federal credit unions may purchase directors and officers insurance coverage. Recently the Administration became aware that some states apparently prohibited corporations in their jurisdiction from purchasing this insurance. The Administration believes that Federal credit unions should be permitted to purchase this insurance coverage in order to encourage the best people to serve as credit union directors and officers by providing them with protection against the hazard of being forced to incur the sometimes staggering expense burden to defending difficult and complicated cases.

Further Comments Requested

In addition to comments on the proposed regulation, there are some specific areas on which comments are invited:

a. Should Standard Form 23 be revised? The Credit Union Banket Bond Form No. 23 of the Surety Association of America has not been revised since 1950. Is this Bond Form written in the simplest format in view of the time that has elapsed since its last revision? Also, since credit union operations have changed dramatically in recent years, does this bond contain sufficient minimum coverages for risks which now face credit unions? The proposed revision to Part 721 of the Rules and Regulations will permit credit unions to endorse insurance and group purchasing plans. Will minimum surety bond coverages sufficiently protect credit unions and their boards of directors from potential product liability?

b. Are minimum coverage requirements adequate? Should minimum coverages be lowered or raised, or should the percentages used to

determine minimum coverage requirements be changed?

c. Are deductibles reasonable? Should more or less guidance be provided or is it a matter between the credit union and the bonding company?

Regulatory Analysis

No regulatory analysis has been developed for this regulatory action because it will not result in (i) an annual effect in the economy of $100 million or more, or (ii) a major increase in costs or expenses for all, or a significant portion of, Federal or Federally-insured credit unions with assets under $1 million or other financial institutions. In fact, premimum costs for some credit unions may decrease due to the proposed reduction of minimum coverage amounts and the proposed increase of the allowable deductible amounts.

The proposed rule, if adopted, will not have significant economic impact on a substantial number of small credit unions (less than $1 million in assets) because the proposed rule reduces restrictions and lowers the minimum coverage requirement for these credit unions. Therefore, a Regulatory Flexibility Analysis is not required, 5 U.S.C. 605(b).

Beatrix D. Fields,

Acting Secretary, National Credit Union Administration Board.

May 22, 1981.

(12 U.S.C 1761a; 12 U.S.C. 1761b; 12 U.S.C. 1766)

It is proposed that § 701.20 of the NCUA Rules and Regulations be revised to read as follows:

§ 701.20 Surety bond and insurance coverage for Federal credit unions.

(a) Every Federal credit union will maintain bond coverage with a bonding company approved by the NCUA Board. Credit Union Blanket Bond Standard Form No. 23 of the Surety Association of America (revised to May, 1950) plus Faithful Performance Rider (for use with this form to broaden clause (a)) (revised to May, 1950) is considered the minimum coverage required and is approved. Credit Union Blanket Bond NCUA Optional Form 581 is also approved. All surety bonds must provide faithful performance of duty coverage for all officers and employees, including credit committee and supervisory committee members and directors, except when directors are acting as directors. No other bond forms may be used unless specifically approved in writing by the NCUA Board.

(b) The minimum amount of bond coverage applying to those surety and insuring clauses of approved bonds will be computed based on the credit union's total assets. The following schedules are the minimum requirements only:

Total assets	Minimum bond
Up to $1,000,000	$10,000 for each $100,000, or fraction thereof, whichever is greater.
$1,000,000 to $50,000,000.	$100,000 plus $50,000 for each million or fraction thereof over $1,000,000.
$50,000,001 to $295,000,000.	$2,550,000 plus $10,000 for each million or fraction thereof over $50,000,000.
Over $295,000,000	$5,000,000.

It is the duty of the board of directors of each Federal credit union to provide adequate protection to meet its unique circumstances by obtaining, when necessary, bond and insurance coverage in excess of the above minimums.

(c) Where any of the following amounts exceed a Federal credit union's minimum coverage limits as specified in paragraph (b) of this section, the minimum coverage limits for that Federal credit union will be increased to be equal to the greater of the following amounts within 30 days of the discovery of the need for such increase.

(1) The aggregate amount of the daily cash fund (change fund plus maximum anticipated daily receipts) and food stamps (if any,) on the Federal credit union's premises, or

(2) The aggregate amount of the Federal credit union's money, currency, coin, banknotes, Federal Reserve Notes and food stamps (if any) placed in transit in any one individual shipment.

(d) Paragraph (c) notwithstanding, no increase in coverage will be required where a Federal credit union temporarily increases its cash fund because of an extraordinary event which reasonably cannot be expected to recur.

(e) Any proposal for reduced coverage on any of the above surety or insuring clauses must be approved by the NCUA Board at least 20 days in advance of the proposed effective date.

(f) A deductible may be applied separately to one or more insuring agreements. Deductibles in excess of those shown in this section must have the written approval of the NCUA Board at least 20 days prior to the effective date of such deductibles.

Total assets	Maximum deductible[1]
0–$100,000	No deductibles allowed.
$100,001–$250,000	$1,000.
$250,000–$1,000,000	$2,000.
$1,000,000 and over	$2,000 plus 1/1000 percent of total assets up to a maximum deductible of $200,000.

[1] No deductible will exeed 10 percent of a Federal credit union's Regular Reserve unless the credit union creates a segregated Contingency Reserve for the amount of the deductible. Valuation allowance accounts e.g., Allowance for Loan Losses, may not be considered part of the Regular Reserve when determining the maximum deductible.

(g) The NCUA Board may require additional coverage for any Federal credit union when, in the opinion of the NCUA Board, current coverage is insufficient. The board of directors of the Federal credit union must obtain additional coverage within 30 days after the date of written notice from the NCUA Board.

(h) Federal credit unions are authorized to purchase directors and officers liability insurance.

[FR Doc. 81-16428 Filed 6-1-81; 8:45 am]

BILLING CODE 7535-01-M

DEPARTMENT OF JUSTICE

Drug Enforcement Administration

21 CFR Part 1308

Schedules of Controlled Substances; Proposed Placement of Ketamine Into Schedule III

AGENCY: Drug Enforcement Administration, Justice.

ACTION: Notice of proposed rulemaking.

SUMMARY: This notice of proposed rulemaking is issued by the Administrator of the Drug Enforcement Administration. It proposes the placement of the substance, ketamine, into Schedule III of the Controlled Substances Act. This action was initiated upon the receipt of a letter from the Acting Assistant Secretary for Health, who recommended that ketamine and products containing it be placed into Schedule III of the Act. The effect of this proposed action will be to discourage the abuse of ketamine.

DATES: Comments must be submitted on or before August 3, 1981.

ADDRESS: Comments and objections should be submitted in quintuplicate to the Administrator, Drug Enforcement Administration, 1405 I Street, NW., Washington, D.C. 20537, Attention: DEA Federal Register Representative.

FOR FURTHER INFORMATION CONTACT: Howard McClain, Jr., Chief, Regulatory Control Division, Drug Enforcement Administration, Washington, D.C. 20537, Telephone: (202) 633–1366.

SUPPLEMENTARY INFORMATION: On March 20, 1981, the Administrator of the Drug Enforcement Administration received a letter from the Acting Assistant Secretary for Health, acting on behalf of the Secretary of the Department of Health and Human Services, recommending that ketamine be placed in Schedule III of the

Controlled Substances Act (21 U.S.C. 801 *et seq.*). Enclosed with this letter was a document which listed the factors which the Act requires the Secretary to consider and the summarized considerations of the Secretary in recommending control for ketamine. The letter of the Acting Assistant Secretary is set forth below:.

March 18, 1981.

Mr. Peter B. Bensinger,
Administrator, Drug Enforcement Administration, 1405 Eye Street, NW., Washington, D.C.

Dear Mr. Bensinger: Pursuant to Section 201(b) of the Controlled Substances Act 21 U.S.C. 811(b), this letter is notification that the Food and Drug Administration has reviewed the medical and scientific data regarding ketamine, a drug with hallucinogenic effects.

The Food and Drug Administration has reviewed the relevant data on ketamine HCl pursuant to Section 201 of the Controlled Substances Act, 21 U.S.C. 811(c), and recommends that ketamine HCl be placed under Schedule III control as soon as practicable.

I concur with this recommendation. A summary of the basis for this recommendation is enclosed.

Sincerely yours,

Charles Miller,
Acting Assistant Secretary for Health.

Enclosure.

Relying on the scientific and medical evaluation and recommendation of the Acting Assistant Secretary for Health and based on his independent evaluation in accordance with the provisions of 21 U.S.C. 811(c), the Administrator of the Drug Enforcement Administration, pursuant to the provisions of 21 U.S.C. 811(a), finds that:

(1) Ketamine has a potential for abuse less than the drugs or other substances in Schedules I and II;

(2) Ketamine has a currently accepted medical use in treatment in the United States; and

(3) Abuse of ketamine may lead to moderate or low physical dependence or high psychological dependence.

The Administrator also finds that while the misuse of ketamine or salts thereof can result in amnesia, excitement, bizarre behavior, hallucinations and delirium, the substance is used in human and veterinary medicine to produce a state of surgical anesthesia. Therefore, for the purpose of this proposed rule, ketamine is classified as a depressant.

Under the authority vested in the Attorney General by Section 201(a) of the Act (21 U.S.C. 811(a)), and delegated to the Administrator of the Drug Enforcement Administration by Department of Justice regulations (28 CFR 0.100), the Administrator hereby proposes that 21 CFR 1308.13(c)(5)–(12) be revised to read as follows:

§ 1308.13 Schedule III.

* * * * *

(c) * * *

(5)	Glutethimide	2550
(6)	Ketamine or any salt thereof	7285
(7)	Lysergic acid	7300
(8)	Lysergic acid amide	7310
(9)	Methyprylon	2575
(10)	Sulfondiethylmethane	2600
(11)	Sulfonethylmethane	2605
(12)	Sulfonmethane	2610

* * * * *

Interested persons are invited to submit their comments, objections or requests for hearing in writing with regard to this proposal. Requests for hearing should state with particularity the issues concerning which the person desires to be heard. All correspondence regarding this matter should be submitted in quintuplicate to the Administrator, Drug Enforcement Administration, 1405 I Street, NW., Washington, D.C. 20537, Attention: DEA Federal Register Representative.

In the event that comments, objections or requests for hearing raise one or more issues which the Administrator finds warrant a hearing, the Administrator shall order a public hearing by notice in the **Federal Register**, summarizing the issues to be heard and setting the time for the hearing which will not be less than 30 days after the date of the notice.

If no objections presenting grounds for a hearing on this proposal are received within the time limitation, or interested parties waive or are deemed to waive their opportunity for a hearing or to participate in a hearing, the Administrator, after giving consideration to written comments and objections, will issue his final order pursuant to 21 CFR 1308.48 without a hearing.

Commercial products which contain ketamine are used in hospitals and veterinary clinics. This rule, if finalized, will cause such establishment to handle products which contain ketamine in a manner identical to that already used in relation to other Schedule III substances. Pursuant to 5 U.S.C. 605(b), the Administrator certifies that the placement of ketamine into Schedule III of the Controlled Substances Act will not have a significant impact upon small business or other entities whose interests must be considered under the Regulatory Flexibility Act (Pub. L. 96–354).

In accordance with the provisions of 21 U.S.C. 811(a), this proposal to place ketamine and salts thereof into Schedule III, is a formal rulemaking "on the record after opportunity for a hearing." Such proceedings are conducted pursuant to the provisions of 5 U.S.C. 556 and 557, and as such, have been exempted from the consultation requirements of Executive Order 12291 (46 FR 13193).

Dated: May 26, 1981.

Peter B. Bensinger,
Administrator, Drug Enforcement Administration.

[FR Doc. 81-16390 Filed 6-1-81, 8:45 am]

BILLING CODE 4410-09-M

DEPARTMENT OF LABOR

Wage and Hour Division, Employment Standards Administration

29 CFR Part 530

Employment of Homeworkers in Certain Industries; Extension of Comment Period

AGENCY: Wage and Hour Division, ESA, Labor.

ACTION: Proposed Rule; extension of comment period.

SUMMARY: This document extends the period for filing written comments regarding the removal of Part 530 of Title 29 of the Code of Federal Regulations (29 CFR Part 530) which concerns the employment of homeworkers in certain industries. This action is taken in order to provide interested parties with additional time to submit their comments.

DATE: Comments must be received on or before July 4, 1981.

ADDRESS: Send written comments in duplicate to Henry T. White, Jr., Deputy Administrator, Wage and Hour Division, Employment Standards Administration, Room S–3502, U.S. Department of Labor, 200 Constitution Avenue, N.W., Washington, D.C. 20210.

FOR FURTHER INFORMATION CONTACT: Herbert J. Cohen, Assistant Administrator of Fair Labor Standards, Wage and Hour Division, Department of Labor, Washington D.C., (202) 523–8353. This is not a toll free number.

SUPPLEMENTARY INFORMATION: In the **Federal Register** of May 5, 1981 (46 FR 25108) the Department of Labor published a notice of proposed rulemaking concerning the employment of homeworkers. Interested parties were requested to submit comments on or before June 4, 1981.

Because of the interest in this matter, the Department believes that it is desirable to grant an extension of the comment period for interested parties.

Therefore, the comment period for submitting information concerning the employment of homeworkers under the Fair Labor Standards Act is extended to July 4, 1981.

Signed at Washington, D.C. this 27th day of May 1981.

Robert B. Collyer,

Deputy Under Secretary, Employment Standards Administration.

[FR Doc. 81-16340 Filed 6-1-81; 8:45 am]

BILLING CODE 4510-27-M

DEPARTMENT OF DEFENSE

Defense Investigative Service

32 CFR Part 298a

[DIS Regulation 28-4]

Defense Investigative Service; Privacy Act Rules

AGENCY: Defense Investigative Service, DOD

ACTION: Notice of proposed rule making.

SUMMARY: This document sets forth proposed amendments to the Defense Investigative Service Privacy Act Rules. These changes generally update the rules by making technical changes and clarify certain information concerning redesignation of offices.

DATES: Comments must be received on or before July 2, 1981.

ADDRESS: Any public comments, including written data, views or arguments concerning the amendments should be addressed to Chief, Office of Information and Legal Affairs, Defense Investigative Service, 1900 Half Street, SW, Washington, D.C. 20324.

FOR FURTHER INFORMATION CONTACT: Dale L. Hartig, Chief, Office of Information and Legal Affairs, Defense Investigative Service, 1900 Half Street, SW, Washington, DC 20324. Telephone (202) 693-1740.

SUPPLEMENTARY INFORMATION: The Defense Investigative Service rules as required by the "Privacy Act of 1974," Title 5, United States Code, Section 552a (Pub. L. 93-579; 88 Stat. 1897, et seq.) are set forth in the Code of Federal Regulations (CFR) at Title 32, Part 298a.

Accordingly it is proposed to amend Title 32 CFR Part 298a as indicated:

§ 298a.1 [Amended]

1. Section 298a.1 is amended by removing the words "Assistant for Information" and insert "Office of Information and Legal Affairs" in Subsection 298a.1(b).

§ 298a.2 [Amended]

2. Section 298a.2 is amended by removing the entry "Availability to the Public of DOD Information, dated 14 February 1974" and insert "DOD Freedom of Information Program" in Subsection 32 CFR 298a.2(d).

3. Section 298a.3 is revised to read as follows:

§ 298a.3 Definitions.

(a) All terms used in this part which are defined in 5 U.S.C. 552a shall have the same meaning herein.

(b) As used in this part, the term "agency" means the Defense Investigative Service.

4. Section 298a.4 is amended by revising paragraphs (b), (c), and (d) as follows:

§ 298a.4 Information and procedures for requesting notification.

* * * * *

(b) *DIS Record Systems:* Following is a list of DIS records systems pertaining to individuals. These systems are described in detail in the DOD input to the **Federal Register**.

Authorizing DIS Records Systems

Pertaining to Individuals

Number and Title

DIS 1-01—Privacy and Freedom of Information Request Record Records
DIS 1-02—Personnel Locator System
DIS 2-01—Inspector General Complaints
DIS 4-01—Civilian Employee Personnel Records
DIS 4-02—Optional Personnel Management Records (OPMR)
DIS 4-04—Civilian Applicant Records
DIS 4-05—Military Personnel Management Information System
DIS 4-06—Civilian Personnel Management Information System
DIS 4-07—Adverse Actions, Grievance Files and Administrative Appeals
DIS 4-08—Equal Employment Opportunity Compaints
DIS 4-09—Merit Promotion Plan Records
DIS 4-10—Incentive Awards
DIS 5-01—Investigative Files System
DIS 5-02—The Defense Central Index of Investigations (DCII)
DIS 5-03—National Agency Check Case Control System (NCCS)
DIS 5-04—Defense Case Control System (DCCS)
DIS 5-05—Subject and Reference Locator Records
DIS 5-06—Special Investigations Unit Investigative Files
DIS 6-01—Defense Investigative Service Personnel Security Files
DIS 6-02—Special Compartmented Intelligence (SCI) Access File
DIS 7-01—Enrollment, Registration and Course Completion
DIS 7-02—Guest/Instructor Identification Records
DIS 8-01—Industrial Personnel Security Clearance File

(c) *Categories of individuals in DIS record systems:* (1) If an individual has ever been investigated by DIS, the investigative case file should be a record in either system DIS 5-01 or 5-06. An index to such files should be in DIS 5-02.

(2) If an individual has ever made a formal request to DIS under the Freedom of Information Act or the Privacy Act of 1974, a record pertaining to that request under the name of the requester, or subject matter, will be in system DIS 1-01.

(3) If an individual is or has ever been a member of DIS, i.e., a civilian employee or appointee, or a military assignee, then he may be a subject of any of the 23 record systems depending on his activities, with the following exceptions:

(i) Civilian personnel will not be subjects of DIS 4-05.

(ii) Military personnel will not be subjects of systems DIS 4-06, 07, 08, or 09.

(4) Individuals who have been applicants for employment with DIS, or nominees for assignment to DIS, but who have not completed their DIS affiliation, may be subjects in systems DIS 4-02, 4-04, 5-01, 5-02, or 6-01.

(5) Any individual who is a subject, victim or cross-referenced personally in an investigation by an investigative element of any DOD component, may be referenced in the Defense Central Index of Investigations, system DIS 5-02, in an index to the location, file number, and custodian of the case record.

(6) Individuals who have ever presented a complaint to or have been connected with a DIS Inspector General inquiry may be subjects of records in system DIS 2-01.

(7) If an individual has ever attended the Defense Industrial Security Institute, he should be subject of a record in DIS 7-01.

(8) If an individual has ever been a guest speaker or instructor at the Defense Industrial Security Institute, he should be the subject of a record in DIS 7-02.

(9) If an individual is an employee or major stockholder of a government contractor or other DoD-affiliated company or agency and has been issued, now possesses or has been processed for a security clearance, he may be subject to a record in DIS 8-01.

(d) *Procedures:* The following procedures should be followed to determine if an individual is a subject of records maintained by DIS, and to request notification and access.

(1) Individuals should submit inquiries in person or by mail to the Office of

Information and Legal Affairs, 1900 Half St. SW., Washington, DC 20325. Inquiries by personal appearance should be made Monday through Friday from 8:30 to 11:30 a.m. and 1:00 to 4:00 p.m. The information requested in section 298a.5 must be provided if records are to be accurately identified. Telephonic requests for records will not be honored. In a case where the system of records is not specified in the request, only systems that would reasonably contain records of the individual will be checked, as described in Section 298a.4b.

(2) Only the Director, the Chief, Office of Information and Legal Affairs, or the Director for Investigations may authorize exemptions to notification of individuals in accordance with Section 298a.14.

5. Section 298a.5 is amended by revising paragraphs (b) (1) and (2) and (c) as follows:

§ 298a.5 Requirements for identification.

* * * * *

(b) *Identification.* * * *

(1) Where reply by mail is requested, a mailing address is required, and a telephone number is recommended to expedite certain matters. For military requesters residing in the United States, home address or P.O. Box number is preferred in lieu of duty assignment address.

(2) Signatures must be notarized on requests received by mail. Exceptions may be made when the requester is well known to releasing officials. For requests made in person, a photo identification card, such as military ID, driver's license or building pass, must be presented.

* * * * *

(c) A DIS Form 30 (Request for Notification of/Access to Personal Records) will be provided to any individual inquiring about records pertaining to himself whose mailed request was not notarized. This form is also available at the Office of Information and Legal Affairs, Washington, DC for those who make their requests in person.

6. Section 298a.6 is amended by revising paragraph (b)(1) as follows and by changing the phrase "the Assistant for Information" to "Information and Legal Affairs" in paragraph (b)(7).

§ 298a.6 Access by subject individuals.

* * * * *

(b) *Manner of access.* * * *

(1) Requests by mail or in person for access to DIS records should be made to the Offices specified in the record systems notices published in the **Federal Register** by the Department of Defense or to the Office of Information and Legal Affairs, 1900 Half St. SW., Washington, DC 20324.

* * * * *

§ 298a.7 [Amended]

7. Section 298a.7 is amended by removing paragraphs (b), (c) and (d).

§ 298a.8 [Amended]

8. In § 298a.8, the following changes are made:

a. Paragraph (a) is amended by changing "the Assistant for Information, Defense Investigative Service (Record Amendment Request—D0020), Washington, DC 20314" to "the Office of Information and Legal Affairs, 1900 Half St. SW., Washington, DC 20324".

b. Paragraph (c) is removed.

9. In § 298a.9, make the following changes: a. Paragraph (a), introductory text, and paragraph (b) are revised as follows:

§ 298a.9 DIS review of request for amendment.

(a) *General:* Upon receipt from any individual of a request to amend a record pertaining to himself and maintained by the DIS, the Office of Information and Legal Affairs will handle the request as follows:

* * * * *

(b) *DIS Determination to Approve or Deny:* Determination to approve or deny and request to amend a record or portion thereof may necessitate additional investigation or inquiry be made to verify assertions of individuals requesting amendment. Coordination will be made with the Director for Investigations and the Director of the Personnel Investigations Center in such instances.

b. Paragraph (a)(3)(ii) is amended by removing the words "(Record Amendment Denial Review), D0030, Washington, DC 20314" and inserting the words "1900 Half Street SW., Washington, DC 20324".

§ 298a.10 [Amended]

10. Section 298a.10 is amended by removing the words "Assistant for" and inserting the words "Office of Information and" in paragraphs (a), introductory text, (a)(4)(iii), and (b).

§ 298a.11 [Amended]

11. Section 298a.11 is amended by removing the last sentence in the introductory text to paragraph (b).

12. Section 298a.12 is revised as follows:

§ 298a.12 Fees.

Individuals may request copies for retention of any documents to which they are granted access in DIS records pertaining to them. Requestors will not be charged for the first copy of any records provided; however, duplicate copies will require a charge to cover costs of reproduction. Such charges will be computed in accordance with DoD Directive 5400.11.

§ 298a.14 [Amended]

13. Section 298a.14(a) is amended by removing the entire second sentence beginning with the words, "They may be" and ending with "Director of Personnel." and inserting "They may be exercised only by the Director, DIS and the Chief of the Office of Information and Legal Affairs."

14. Section 298a.15 is amended by revising paragraphs (b) and (j); by removing and reserving paragraph (c); and by removing paragraph (g)(3):

§ 298a.15 DIS implementation policies.

* * * * *

(b) Privacy Act rules application: Any request which cites the neither Act, concerning personal record information in a system of records, by the individual to whom such information pertains, for access, amendment, correction, accounting of disclosures, etc., will be governed by the Privacy Act of 1974, DoD Directive 5400.11 and these rules exclusively. Requests for like information which cite only the Freedom of Information Act will be governed by the Freedom of Information Act and DoD Regulation 5400.7R. Any denial or exemption of all or part of a record from notification, access, disclosure, amendment or other provision, will also be processed under these rules, unless court order or other competent authority directs otherwise.

* * * * *

(j) *Ownership of DIS investigative records.* Personnel security investigative reports shall not be retained by DoD recipient organizations. Such reports are considered to be the property of the investigating organization and are on loan to the recipient organization for the purpose for which requested. All copies of such reports shall be destroyed within 120 days after the completion of the final personnel security determination and the completion of all personnel action necessary to implement the determination. Reports that are required for longer periods may be retained only

with the specific written approval of the investigative organization.

M. S. Healy,

OSD Federal Register Liaison Officer, Washington, Headquarters Services, Department of Defense.

May 26, 1981.

BILLING CODE 3810-70-M

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Part 52

[A-5-FRL-1842-2]

Availability of Implementation Plan Revisions for Nonattainment Areas in the State of Ohio

AGENCY: Environmental Protection Agency.

ACTION: Notice of Receipt and Availability.

SUMMARY: This notice announces receipt of and availability for public review of documents submitted by the State of Ohio. The State provided these documents to satisfy the approval conditions specified in the October 31, 1980, **Federal Register** for its carbon monoxide and ozone State Implementation Plan (SIP). EPA's proposed rulemaking action on these documents will be published in a subsequent **Federal Register.**

DATES: See Supplementary Information

ADDRESSES: The documents may be examined during normal business hours at the following offices:

U.S. Environmental Protection Agency, Region V, Air Programs Branch, 230 South Dearborn Street, Chicago, Illinois 60604

Ohio Environmental Protection Agency, 361 East Broad Street, Columbus, Ohio 43216

Written comments should be sent to:

Gary Gulezian, Chief, Regulatory Analysis Section, Air Programs Branch, U.S. EPA, Region V, 230 South Dearborn Street, Chicago, Illinois 60604.

It is requested that you submit three copies along with the original of any comment.

FOR FURTHER INFORMATION CONTACT: Richard J. Clarizio, Regulatory Analysis Section, Air Programs Branch, USEPA, Region V, 230 South Dearborn Street, Chicago, Illinois 60604, (312) 886-6029.

SUPPLEMENTARY INFORMATION: In the October 31, 1980, **Federal Register** (45 FR 72122) EPA conditionally approved specific poritions of the Ohio carbon monoxide and ozone State Implementation Plan (SIP). In that **Federal Register**, EPA stated that, for full approval, the State needed to correct certain portions of the SIP. The State agreed to correct those portions on a schedule developed by it and proposed for approval in the October 31, 1980, **Federal Register** (45 FR 72215). The purpose of today's notice is to announce receipt and availability for public review of the following:

1. Youngstown General Policy Board resolution of approval and commitment to implement the transportation measures identified in the SIP for Youngstown—submitted November 20, 1980.
2. Information in reference to the 240,000-gallon per year throughput exemption for gasoline dispensing facilities regulated by OAC rule 3745-21-09(R)(3)(a)—submitted November 17, 1980, February 12 and March 27, 1981. (The March 27, 1981, letter indicated that the State will subsequently submit further information to satisfy this approval condition).
3. Schedules which delineate the dates on which additional point source and additional transportation systems management strategies will be developed and implemented for the Cleveland area—submitted November 24, 1980.
4. Carbon Monoxide study conducted for the Steubenville area—submitted February 12, 1981.
5. Revised OAC rule 3745-21-09(M)(2) for waste water separators—submitted February 12, 1981.
6. Carbon Monoxide hotspot attainment demonstration for the Dayton area—submitted February 24, 1981.

In addition to these items required by EPA's October 31, 1980, final rulemaking, the State of Ohio, on February 12, 1981, submitted revisions to OAC rules 3745-21-01, 04, 09 and 10. Ohio also submitted, on February 12, 1981, its State Implementation Plan for lead.

EPA is currently reviewing the above mentioned submittals. At the completion of its review, EPA will publish a notice in the **Federal Register** proposing rulemaking action on these submittals. All interested persons are advised that these submittals are available for review at the locations listed above. The proposed rulemaking notice previously mentioned will announce the last day for public comment. The public comment period will extend for 30 days from the date of publication of the notice of proposed rulemaking in the **Federal Register** (August 3, 1981).

Under Executive Order 12291 (Order), EPA must judge whether an action is a "major rule" and, therefore, subject to the requirements of a regulatory impact analysis. Today's action is not a major rule since it merely announces receipt and availability of the documents submitted by the State of Ohio. Any rulemaking action on these documents will be detailed in a separate **Federal Register** notice.

Dated: May 18, 1981.

Valdas V. Adamkus,

Acting Regional Administrator.

BILLING CODE 6560-38-M

FEDERAL COMMUNICATIONS COMMISSION

47 CFR—Part 73

[BC Docket No. 81-331; RM-3726]

FM Broadcast Station Kailua-Kona, Hawaii; Changes in Table of Assignments

AGENCY: Federal Communication Commission.

ACTION: Proposed rule.

SUMMARY: This action proposes to assign FM Channel 228A to Kailua-Kona, Hawaii, in response to a petition filed by Norman E. and Sally A. Garrison. The assignment would provide Kailua-Kona with a first local aural service.

DATES: Comments must be filed on or before July 10, 1981, and reply comments on or before July 30, 1981.

ADDRESS: Federal Communications Commission, Washington, D.C. 20554.

FOR FURTHER INFORMATION CONTACT: Mark N. Lipp, Broadcast Bureau, (202) 632-7792.

SUPPLEMENTARY INFORMATION:

Adopted: May 11, 1981.

Released: May 19, 1981.

By the Chief, Policy and Rules Division.

In the Matter of amendment of § 73.202(b), Table of Assignments, FM Broadcast Stations; (Kailua-Kona, Hawaii); BC Docket No. 81-331 RM-3726.

1. *Petitioner, Proposal, Comments:*

(a) A petition for rule making [1] was filed by Norman E. and Sally A. Garrison ("petitioners"), proposing the assignment of FM Channel 228A to Kailua-Kona, Hawaii, as that community's first FM facility. Additionally, we have received comments from the R.N. Groves Company, Inc. ("Groves"), in response to this proposal. Groves also expresses an interest in an FM allocation to Kailua-Kona, Hawaii, but argues that a Class C channel should be assigned

[1] Public Notice of this petition was given on August 13, 1980, Report No. 1244.

instead.[2] It indicates that it intends to seek a Class C allocation, which it believes could better serve the area with the use of directional coverage to the north and south. However, because it did not specify a particular channel with a mileage separation chart and a preclusion study, we have not proposed a Class C assignment. In addition, since Kailua-Kona is a small community, the need for a wide coverage area Class C channel should be demonstrated by a showing of the extent of unserved and underserved areas that would receive service. See *Roanoke Rapids, N.C.* [3] and *Anamosa, Iowa.* [4] Groves should submit this information as a counterproposal to be filed by the deadline specified herein for receipt of comments so that due consideration can be given.

(b) Channel 228A could be assigned to Kailua-Kona in compliance with the minimum distance separation requirements.

(c) Petitioners state that they will apply for the channel, if assigned.

2. *Demographic Data:*

(a) *Location:* Kailua-Kona is located on the west coast of the Island of Hawaii, approximately 280 kilometers (173 miles) southeast of Honolulu, Hawaii.

(b) *Population:* Kailua-Kona—365; North Kona Division—4,832; Island of Hawaii—63,468.[5]

(c) *Local Aural Broadcast Service:* None.

3. *Economic Considerations:* Petitioners state that Kailua-Kona shows trends of increasing population. They assert that Kailua-Kona is the focal point for tourism, the area's principal industry on the Kona Coast. Kona has been chosen as the site for an ocean thermal energy conversion research project, and a major seacoast test facility is being constructed there for research and development of energy technologies, according to petitioners.

4. In view of the apparent need for a first FM service to Kailua-Kona, the Commission proposes to amend the FM Table of Assignments, § 73.202(b) of the Rules, as follows:

City	Channel No.	
	Present	Proposed
Kailua-Kona, Hawaii		228A

5. The Commission's authority to institute rule making proceedings, showings required, cut-off procedures, and filing requirements are contained in the attached Appendix and are incorporated by reference herein. *NOTE:* A showing of continuing interest is required by paragraph 2 of the Appendix before a channel will be assigned.

6. Interested parties may file comments on or before July 10, 1981, and reply comments on or before July 30, 1981.

7. The Commission has determined that the relevant provisions of the Regulatory Flexibility Act of 1980 do not apply to rule making proceedings to amend the FM table of Assignments, Section 73.202(b) of the Commission's Rules. See, *Certification that Sections 603 and 604 of the Regulatory Flexibility Act Do Not Apply to Rule Making to Amend Sections 73.202(b), 73.504 and 73.606(b) of the Commission's Rules*, 46 FR 11549, published February 9, 1981.

8. For further information concerning this proceeding, contact Mark N. Lipp, Broadcast Bureau, (202) 632-7792. However, members of the public should note that from the time a Notice of Proposed Rule Making is issued until the matter is no longer subject to Commission consideration or court review, all *ex parte* contacts are prohibited in Commission proceedings, such as this one, which involve channel assignments. An *ex parte* contact is a message (spoken or written) concerning the merits of a pending rule making other than comments officially filed at the Commission or oral presentation required by the Commission.

(Secs. 4, 303, 48 stat., as amended, 1066, 1082; 47 U.S.C. 154, 303)

Federal Communications Commission.

Henry L. Baumann,

Chief, Policy and Rules Division, Broadcast Bureau.

Appendix

1. Pursuant to authority found in Sections 4(i), 5(d)(1), 303 (g) and (r), and 307(b) of the Communications Act of 1934, as amended, and Section 0.281(b)(6) of the Commission's Rules, it is proposed to amend the FM Table of Assignments, Section 73.202(b) of the Commission's Rules and Regulations, as set forth in the Notice of Proposed Rule Making to which this Appendix is attached.

2. *Showings Required.* Comments are invited on the proposal(s) discussed in the Notice of Proposed Rule Making to which this Appendix is attached. Proponent(s) will be expected to answer whatever questions are presented in initial comments. The proponent of a proposed assignment is also expected to file comments even if it only resubmits or incorporates by reference its former pleadings. It should also restate its present intention to apply for the channel if it is assigned, and, if authorized, to build a station promptly. Failure to file may lead to denial of the request.

3. *Cut-off Procedures.* The following procedures will govern the consideration of filings in this proceeding.

(a) Counterproposals advanced in this proceeding itself will be considered, if advanced in initial comments, so that parties may comment on them in reply comments. They will not be considered if advanced in reply comments. (See Section 1.420(d) of the Commission's Rules.)

(b) With respect to petitions for rule making which conflict with the proposal(s) in this Notice, they will be considered as comments in the proceeding, and Public Notice to this effect will be given as long as they are filed before the date for filing initial comments herein. If they are filed later than that, they will not be considered in connection with the decision in this docket.

(c) The filing of a counterproposal may led the Commission to assign a different channel than was requested for any of the communities involved.

4. *Comments and Reply Comments; Service.* Pursuant to applicable procedures set out in Sections 1.415 and 1.420 of the Commission's Rules and Regulations, interested parties may file comments and reply comments on or before the dates set forth in the Notice of Proposed Rule Making to which this Appendix is attached. All submissions by parties to this proceeding or persons acting on behalf of such parties must be made in written comments, reply comments, or other appropriate pleadings. Comments shall be served on the petitioner by the person filing the comments. Reply comments shall be served on the person(s) who filed comments to which the reply is directed. Such comments and reply comments shall be accompanied by a certificte of service. (See Section 1.420 (a), (b) and (c) of the Commission's Rules.)

5. *Number of Copies.* In accordance with the provisions of Section 1.420 of the Commission's Rules and Regulations, an original and four copies of all comments, reply comments, pleadings, briefs, or other documents shall be furnished the Commission.

6. *Public Inspection of Filings.* All filings made in this proceeding will be available for examination by interested parties during regular business hours in the Commission's Public Reference Room at its headquarters, 1919 M Street NW., Washington, D.C.

DEPARTMENT OF THE INTERIOR

Fish and Wildlife Service

50 CFR Part 17

Endangered and Threatened Wildlife and Plants; Proposed Redefinition of "Harm"

AGENCY: Fish and Wildlife Service, Interior Department.

ACTION: Proposed rule.

SUMMARY: This proposed rule is a redefinition of the Service regulations defining "harm" under Section 9 of the Endangered Species Act, 50 CFR 17.3. "Harm" would be redefined to mean an act or omission which injures or kills an endangered or threatened species of wildlife rather than the broader present interpretation which can be read to include significant environmental modification or degradation without further proof of actual injury or death to a listed species. This redefinition is proposed to eliminate the confusion that commentators and courts have had with the present definition.

DATE: Comments on this proposed rule must be submitted on or before August 3, 1981.

ADDRESSES: Interested persons or organizations are requested to submit comments to the Director (OES), United States Fish and Wildlife Service, Department of the Interior, Washington, D.C. 20240. Comments and materials relating to this rule are available for public inspection by appointment during normal business hours at the Service's Office of Endangered Species, Suite 500, 1000 North Glebe Road, Arlington, Virginia.

FOR FURTHER INFORMATION CONTACT: Mr. John L. Spinks, Jr., Chief, Office of Endangered Species (703/235–2771).

SUPPLEMENTARY INFORMATION: This Fish and Wildlife Service and the Office of the Solicitor recently completed a review of the Fish and Wildlife Service definition of "harm" in its regulations under the Endangered Species Act of 1973, 16 U.S.C. 1531 *et seq.* That review was prompted by the confusion which the courts and commentators seem to have had with the definition the few times they have dealt with it, and by the uniform opinion of legal commentators that the present definition goes beyond intent of Congress. Bean, *The Evolution of National Wildlife Law*, 395–97 (1977); Note, *Endangered Species Act: Constitutional Tension and Regulatory Discord*, 4 Colum. J. Envt'l L. 97,100 n. 19 (1977); Note, *Endangered Species Act of 1973: Preservation or Pandemonium?*, 5 Envt'l L. 29, 38–41 (1974); Note, *Obligations of Federal Agencies Under Section 7 of the Endangered Species Act of 1973*, 28 Stan. L. Rev. 1247, 1251 n. 31 (1976).

Section 9 of the Endangered Species Act (ESA), 16 U.S.C. 1538, makes it illegal to "take" an endangered species of fish or wildlife. That term is defined as follows:

> The term "take" means to harass, harm, pursue, hunt, shoot, wound, kill, trap, capture or collect, or to attempt to engage in any such conduct.

16 U.S.C. 1531(19). Fish and Wildlife Service Regulations define "harm" as follows:

> "Harm" in the definition of "take" in the Act means an act or omission which actually injures or kills wildlife, including acts which annoy it to such an extent as to significantly disrupt essential behavioral patterns, which include, but are not limited to, breeding, feeding or sheltering; significant environmental modification or degradation which has such effects is included within the meaning of "harm."

50 CFR 17.3.

This definition contains a significant ambiguity. If the words "such effects" are read to refer to the phrase "significantly disrupt essential behavioral patterns," then any significant environmental modification or degradation that disrupts essential behavioral patterns will fall under the definition of harm, regardless of whether an actual killing or injuring of a listed species of wildlife is demonstrated. Under such an interpretation, a showing of habitat modification alone would be sufficient to invoke the criminal penalties of Section 9.

In an opinion dated April 17, 1981, the Solicitor's Office concluded that such a result is inconsistent with the intent of Congress.

The Service notes that although the definition of "harm" has been the subject of a number of privately initiated civil environmental actions, in none of those lawsuits was the underlying validity of the present definition reviewed or briefed. The Service also notes that there has never been a prosecution initiated by the Fish and Wildlife Service under the present definition and the redefinition is not expected to have any significant effect on future enforcement actions or strategy.

Therefore, in light of the April 17, 1981 Solicitor's Office opinion, the Service believes that it is appropriate to redefine "harm" under the Endangered Species Act.

Appendix

Although it will not appear in the Code of Federal Regulations, a copy of the opinion of the Solicitor's Office is attached as an Appendix solely for purposes of public information.

National Environmental Policy Act

A draft environmental assessment has been prepared in conjunction with this proposal. It is on file in the Office of Endangered Species, Suite 500, 1000 North Glebe Road, Arlington, Virginia, and may be examined by appointment during regular business hours. A determination will be made at the time of final rulemaking as to whether this is a major Federal Action which would significantly affect the quality of the human environment within the meaning of Section 102(2)(C) of the National Environmental Policy Act of 1969, 42 U.S.C. 4332(C).

Primary Author

This proposal was written by David C. Cannon, Jr., Office of the Solicitor, Department of the Interior, Washington, D.C. 20240. (202/343–2172).

Note.—The Department of the Interior has determined that this is not a major rule and does not require preparation of a regulatory analysis under Executive Order 12291.

The Department has also determined that the rule will not have a significant economic impact on a substantial number of small entities under the Regulatory Flexibility Act. These determinations are discussed in more detail in a Determination of Effects which has been prepared by the U.S. Fish and Wildlife Service.

Proposal of Regulation

§ 17.3 [Amended]

Accordingly, it is hereby proposed to amend 50 CFR 17.3 by removing the existing definition of "harm" and inserting the following:

* * * * *

"Harm" in the definition of "take" in the Act means an act or omission which injures or kills wildlife.

Dated: May 11, 1981.

* * * * *

C. F. Layton,

Acting Deputy Assistant Secretary, Fish and Wildlife and Parks.

April 17, 1981.

Memorandum

To: Director, Fish and Wildlife Service
From: Associate Solicitor, Conservation and Wildlife
Subject: Fish and Wildlife Service Regulations Defining "Harm" under Section 9 of the Endangered Species Act

This memorandum examines the statutory authority underlying the definition of "harm" contained in FWS regulations implementing Section 9 of the Endangered Species Act, 16 U.S.C. 1538. We conclude that the present definition exceeds the scope of authority conferred by Section 9. We recommend that the Service's definition of "harm" be clarified so that only those habitat modifications that

V 46 / 105 JE 2 81 1 UMI

actually injure or kill wildlife are subject to Section 9 criminal penalties.

Discussion

Section 9 of the Endangered Species Act (ESA), 16 U.S.C. 1538, makes it illegal to "take" an endangered species of fish or wildlife. That term is defined as follows:

The term "take" means to harass, harm, pursue, hunt, shoot, wound, kill, trap, capture or collect, or to attempt to engage in any such conduct.

16 U.S.C. 1532(1). Fish and Wildlife Service Regulations define "harm" as follows:

"Harm" in the definition of "take" in the Act means an act or omission which actually injures or kills wildlife, including acts which annoy it to such an extent as to significantly disrupt essential behavioral patterns, which include, but are not limited to, breeding, feeding or sheltering; *significant environmental modification or degradation which has such effects is included within the meaning of "harm."*

50 C.F.R. 17.3 (emphasis added).

This definition contains a significant ambiguity. If the words "such effects" are read to refer to the phrase "significantly disrupt essential behavorial patterns," then any signficant environmental modification or degradation that disrupts essential behavioral patterns will fall under the definition of harm, regardless of whether an actual killing or injuring of wildlife is demonstrated. Under such an interpretation a showing of habitat modification *alone* would be sufficient to invoke the criminal penalties of Section 9. As discussed below, such a result is inconsistent with the intent of Congress.[1]

A. The Endangered Species Act

ESA concerns itself with two major causes of species decline: (1) the commercial and sport taking of individual animals, and (2) the destruction or degradation of species' habitats. The Act creates a bifurcated system for dealing with these distinct problems. Section 7, 16 U.S.C. 1536, requires federal agencies to insure that actions taken are not likely "to jeopardize the continued existence of any endangered species or threatened species or result in the destruction or adverse modification of habitat of such species . . ." Further, Section 5 authorizes land acquisitions as an additional means for preserving the habitat of listed species. 16 U.S.C. § 1534. Together, these two sections were designed to address the threatened destruction of habitat for listed species. Section 9, on the other hand, prohibits all action that constitute an actual taking of an endangered species of fish or wildlife. 16 U.S.C. 1538.

The Act's definition of "take" contains a list of actions that illustrate the intended scope of the term: harass, harm, pursue, hunt, shoot, wound, kill, trap, capture, or collect or attempts to engage in any such conduct. With the possible exception of "harm," these terms all represent forms of conduct that are directed against and likely to injure or kill *individual* wildlife. Under the principle of statutory construction, *ejusdem generis*, where general words accompany words of specific meaning, such general words are construed as applying only to actions of the same class as those specifically mentioned. *Goldsmith v. U.S.* 42 F.2d 133 (2d (Cir. 1948). Applying this principle to the present construction problem, the term "harm" should be interpreted to include only those actions that are directed against, and likely to injure or kill, individual wildlife.

Also applicable here is the rule that provisions of a statute should not be construed in a manner that renders other provisions of the statute superfluous. If the Service's definition of "harm" is interpreted to prevent habitat modifications, without a further finding of actual injury to a listed species, Section 9 could be violated in most instances in which Section 7 consultation is called for. That is, it would be counterproductive for a federal agency to initiate Section 7 consultation over a proposed private action that would significantly modify a listed species habitat, if such private activity were already proscribed under Section 9. Such a construction would render Section 7 largely unnecessary. *See* Bean *supra* n. 1 at 397.

B. Legislative History

The legislative history reinforces the distinction between the taking prohibition of Section 9 and the habitat protection provisions of Section 7. Representative Sullivan, whose committe reported the House bill, stated:

For the most part, the principal threat to animals stems from the destruction of their *habitat*. The destruction may be intentional, as would be the case in clearing of fields and forests for development of resource extraction, or it may be unintentional, as in the case of the spread of pesticides beyond their target area. Whether it is intentional or not, however, the result is unfortunate for the species of animals that depend on that habitat, most [of] whom are already living on the edge of survival. H.R. 37 will meet this problem by providing funds for acquisition of critical habitat. It will also enable the Department of Agriculture to cooperate with willing landowners who desire to assist in the protection of endangered species, but who are understandably unwilling to do so at excessive cost to themselves.

Another hazard to endangered species arises from those who would capture or kill them, for pleasure or profit. There is no way that the Congress can make it less pleasurable for a person to take an animal, but we can certainly make it less profitable for them to do so. (emphasis added)

119 Cong. Rec. H8–18 (daily ed. Sept. 18, 1973).

The fact that Congress considered the problems of takings and habitat modifications separately does not, of course, preclude the possibility of overlap between the two regulatory schemes. Indeed, Congress seemed to anticipate such overlap when it made the following statement, taken from the House Report:

"Take" is defined broadly. It includes *harassment*, whether intentional or not. This would allow for example, the Secretary to regulate or prohibit the activities of bird-watchers where the effect of those activities might disturb the birds and make it difficult for them to hatch or raise their young. (emphasis added)

On its face this statement implies that an action such as habitat modifications which do not result in the actual injuring or killing of wildlife may nonetheless constitute a taking ("where the effects of these activities *might* disturb birds . . ."). We think it noteworthy, however, that the statement is limited to acts of harassment. "Harass" is defined at 50 C.F.R. 17.3 as follows:

"Harass" in the definition of "take" in the Act means *an intentional or negligent act or omission* which creates *the likelihood of injury to wildlife* by annoying it to such an extent as to significantly disrupt normal behavioral patterns which include, but are not limited to, breeding, feeding or sheltering. (emphasis added)

Under this definition two elements must be shown before a finding of harassment can be made: (1) likelihood of injury to wildlife, and (2) some degree of fault, either intentional or negligent. Because the definition contains an element of fault, it will not result in criminal liability for habitat modifications unless it is shown that the defendant knew or reasonably should have known that his actions would be likely to injure wildlife. Thus a private landowner who wishes to develop land that serves as habitat for an endangered species may do so if reasonable measures are taken to avoid injury to wildlife. The same is not true, however, of the definition of "harm." That definition adopts a strict liability standard which would impose criminal penalties on habitat modifications generally regardless of fault. Thus under the definition of "harm" a private landowner may be criminally liable for significant habitat modifications regardless of the reasonableness of his efforts to mitigate harm to individual wildlife.

An early version of the bill that became ESA specifically included "destruction, modification, or curtailment of habitat or range" within the definition of "take" but this was deleted from the final act. S. 1983, 93d Cong., 1st Sess. § 3(6)(A)(1973). Such deletions generally militate against a conclusion that Congress intended a result that it expressly declined to enact. *See Gulf Oil Corp. v Copp Paving Co.*, 419 U.S. 186 (1974). Accordingly, the Service's definition of "harm" should be clarified so that only those habitat modifications that result in the actual killing or injuring of wildlife will be subject to Section 9 criminal penalties.

D. Case Law

The limited case law interpreting the definition of "harm" indicates judicial confusion over the proper scope of the term. The Supreme Court mentioned the definition of "harm" in *TVA v. Hill*, 437 U.S. 153 (1978).

[1] Each of the four published articles that has considered the subject concludes that the Service's definition is overbroad. Bean, *The Evolution of National Wildlife Law* 395–97 (1977); Note, *Endangered Species Act: Constitutional Tension and Regulatory Discord*, 4 Colum. J. Envt'l L. 97, 100 n. 19 (1977); Note, *Endangered Species Act of 1973: Preservation or Pandemonium?* 5 *Envt'l L.* 29, 38–41 (1974); Note, *Obligations of Federal Agencies Under Section 7 of the Endangered Species Act of 1973*, 28 Stan. L. Rev. 1247, 1251 n. 31 (1976).

but did not clarify its meaning. It said in regard to the Tellico Dam situation, "[w]e do not understand how TVA intends to operate Tellico Dam without 'harming' the snail darter." 437 U.S. at 184 n. 30. We interpret the court's statement only to apply to the situation where an action would both degrade habitat and kill individual fish.[2] Such an interpretation is consistent with the approach adopted in this memoradum.

Only two cases have thus far interpreted the concept of "harm". In *Sierra Club v. Froehlke*, 534 F.2d 1289 (8th Cir. 1976), the Sierra Club sought to enjoin construction of a proposed dam alleging, *inter alia*, a violation of Section 9 of the Endangered Species Act. In a brief discussion, of limited, if any, assistance on the habitat mofification question, the court rejected plaintiffs' taking allegation, noting that a violation of Section 9 "rests upon the asserted ground that the erection of the dam is a 'clear attempt to harass or harm' the Indiana bat." 534 F.2d at 1304. The court's statement would seem to imply that a showing of specific intent to harass or harm is necessary to prove a taking, a postion inconsistent with the strict liability prohibitions established by Sections 9 and 11 and the present regulatory definition. Significantly, however, *Froehlke* was decided prior to promulgation of the "harm" definition, 44 Fed. Reg. 44415 (September 28, 1975), and the court therefore lacked the benefit of an agency interpretation.[3]

The second case interpreting the definition of "harm" is *Palila v. Hawaii Department of Land and Natural Resources*, 471 F. Supp. 985 (D. Haw. 1979), *aff'd*, No. 79-4636 (9th Cir. Feb. 9, 1981). This case did, on its face, direct its attention to habitat mofification. In *Palila*, Section 9 was invoked by the Sierra Club to prevent the State of Hawaii's wildlife agency from allowing feral goats and sheep to roam in the critical habitat of the Palila, an endangered bird species. The plaintiffs alleged that because the state had allowed the destruction of forest vegetation which provides the Palila's food, shelter and nest sites, a taking had occurred even though no killing or injuring of individual Palilas was demonstrated. The district court interpreted the Service's definition as follows:

"Take" is defined in the Act to include "harm" which in turn is defined in regulations propounded by the Secretary of the Interior to include "significant environmental modification or degradation" *which actually injures or kills wildlife.* (emphasis added)

471 F. Supp. at 995.[4] In a brief opinion, the Ninth Circuit Court of Appeals affirmed the district court's decision in *Palila*. The court's discussion of the taking issue demonstrates fundamental confusion over the distinction between habitat modifications and takings. On the basis of the FWS definition of harm, the Ninth Circuit concluded that a taking had occurred. Slip op. at 287. The court's discussion of its finding strongly suggests that it confused the taking prohibition of Section 9 with the habitat modification provisions of Section 7. The court rested its conclusion on the fact that "it was shown that the Palila was endangered by the activity." *Id.* Citing *TVA* v. *Hill, supra*, the court noted its belief that its conclusion was consistent with the Act's legislative history which showed "that Congress was informed that the greatest threat to endangered species is the destruction of their natural habitat." *Id.*

As the result of the FWS overly broad definition of "harm", the Ninth Circuit decision in *Palila* erroneously supports the view that habitat modifications alone may constitute "harm." The implications of such a decision are far-reaching. The discussion set forth above indicates that the present definition of "harm," as interpreted by the Court of Appeals in *Palila*, exceeds the statutory authority conferred by Section 9 of the Act. Accordingly, we recommend that the Service clarify its definition to prevent the result reached in *Palila*.

Conclusion

In view of the foregoing discussion, we recommend that the Service's definition of "harm" at 50 CFR 17.3 be modified to read as follows:

"Harm" in the definition of "take" in the Act means an act or omission which actually injures or kills wildlife.

J. Roy Spradley, Jr.

[FR Doc. 81-16324 Filed 6-1-81; 8:45 am]

BILLING CODE 4310-55-M

---

[2] The Supreme Court in *TVA v. Hill* recited the findings of the district court that construction of Tellico Dam "would make it highly probable that snail darter eggs would smother . . . " and that "[the snail darter's] primary source of food, snails, would probably not survive." 437 U.S. at 165 N. 16. We assume that the Supreme Court expected the destruction of the species' primary food source to result in the killing of individual fish.

[3] The district court opinion in *Froehlke* was issued on March 19, 1975. The briefs in the court of appeals case were submitted to the court on September 10, 1975. Two weeks after the briefs were submitted to the court of appeals, the Fish and Wildlife Service issued its endangered species regulations defining the concept of harm. 44 Fed. Reg. 44415 (September 28, 1975).

[4] On its face this interpretation is in accord with the approach taken in this memorandum. The difficulty with *Palila* is that the standard was misapplied to the facts of the case. The district court, in a footnote, acknowledged that available estimates showed the Palila population to have actually increased since the onset of the state's grazing program, yet speculated that those estimates may have been "deceptively high" and went on to conclude that a taking had occurred. 471 F. Supp. at 988 n. 2. Accordingly, the district court's recital of the proper rule notwithstanding, *Palila* can be read as holding that habitat modification alone may constitute "harm." Furthermore, the issue of whether the Service's definition of "harm" exceeds statutory authority was neither briefed by the parties nor addressed by the court in *Palila*. Under the rule of *Webster v. Fall*, 266 U.S. 507, 511 (1925), questions not brought to a court's attention "are not to be considered as having been so decided as to constitute precedents".

Tuesday, June 2, 1981

This section of the FEDERAL REGISTER contains documents other than rules or proposed rules that are applicable to the public. Notices of hearings and investigations, committee meetings, agency decisions and rulings, delegations of authority, filing of petitions and applications and agency statements of organization and functions are examples of documents appearing in this section.

DEPARTMENT OF AGRICULTURE

Office of the Secretary

Price-Undercutting of Domestic Swiss Cheese by Imported Swiss Cheese Produced in Finland

On April 28, 1981, the U.S. Department of Agriculture received a compliant alleging price-undercutting of domestic Swiss cheese by imported Swiss cheese produced in Finland. Under Section 702 of the Trade Agreements Act of 1979 (Pub. L. 96–39), the Secretary of Agriculture must conduct a price-undercutting investigation and make a determination as to the validity of the allegation no later than 30 days after receiving a complaint.

Based on the investigation of the Director of the Dairy, Livestock and Poultry Division, Foreign Agricultural Service, pursuant to the regulations at 7 CFR 6.40–44, I have determined that the duty-paid wholesale price of imported Swiss cheese produced in Finland is $1.84 per pound, and that the domestic wholesale market price of U.S. produced Swiss cheese is $1.81 per pound. I, therefore, have determined that there is no price-undercutting of U.S. produced Swiss cheese by imported Swiss cheese produced in Finland.

Done at Washington, D.C., this 28th day of May 1981.

Richard E. Lyng,

Acting Secretary.

BILLING CODE 3410–10–M

Rural Electrification Administration

Garkane Power Association, Inc.; Finding of No Significant Impact

Notice is hereby given that the Rural Electrification Administration (REA) has made a Finding of No Significant Impact which concluded that there is no need for REA to prepare an Environmental Impact Statement in connection with proposed financing assistance to Garkane Power Association, Inc. (Garkane) of Richfield, Utah.

The proposed financing assistance would be used by Garkane for construction of the following facilities in Utah: 29.7 miles of 138 kV transmission line in Sevier and Puite Counties from Sigurd to Koosharem, 26.3 miles of 69kV transmission line from Lyman Substation through Torrey Substation to Fruita Substation, all in Wayne County, Utah, three substations consisting of a 138(46)/12.5 kV station at Koosharem, a 69(46)/12.5 kV station at Torrey, and a 69(46)/12.5 kV station at Fruita, all in Utah, and associated facilities. All substations will be operated initially at 46 kV high side.

REA has determined that the proposed project will not adversely affect floodplains, wetlands, federally listed threatened or endangered species, important farmland, or known historic or archaeological resources. The Lyman to Fruita line right-of-way will cross approximately 2,500 feet of wetlands and the Sigurd to Koosharem line right-of-way will cross approximately one mile of wetlands. Avoidance of the wetlands areas is not practicable. REA has determined that any effects to wetlands or wetland habitats will be minimal and short term. Additional information on wetlands is available in the EA and BER. Construction and operation of the project will not, in REA's judgment, result in any unacceptable environmental impact.

Various alternatives to each of the proposed projects were examined, including no action, use of existing facilities, underground construction, and alternative routes. After reviewing these alternatives, REA has determined that the proposed project best meets Garkane's needs

REA's evaluation of environmental effects of the proposed financing assistance leads it to conclude the proposed action would not represent a major Federal action significantly affecting the quality of the human environment. A Finding of No Significant Impact was reached by REA in accordance with Sections IV.B and IV.D.1 of REA Bulletin 20–21:320–21, Part One.

REA's Finding of No Significant Impact, the Environmental Assessment and the Borrower's Environmental Report may be reviewed in the Office of the Director, Distribution Systems Division, Room 3304, South Building, Rural Electrification Administration, U.S. Department of Agriculture, Washington, D.C. 20250, telephone (202) 447–4413, or at the headquarters of Garkane Power Association, Inc. (Mr. Glen Willardson, General Manager), P.O. Box 748, Richfield, Utah 84701, telephone (801) 896–5403.

A copy of REA's Finding of No Significant Impact and the Environmental Assessment is available upon request to the Director, Distribution Systems Division, at the address given above.

This program is listed in the Catalog of Federal Domestic Assistance as 10.850—Rural Electrification Loans and Loan Guarantees.

Dated at Washington, D.C., this 22d day of May 1981.

Joe S. Zoller,

Acting Administrator, Rural Electrification Administration.

[FR Doc. 81–16272 Filed 6–1–81; 8:45 am]

BILLING CODE 3410–15–M

Kaw Valley Electric Cooperative Co., Inc., Topeka, Kans.; Finding of No Significant Impact

Notice is hereby given that the Rural Electrification Administration (REA) has prepared a Finding of No Significant Impact which concludes that there is no need for REA to prepare an Environmental Impact Statement in connection with proposed financing assistance to Kaw Valley Electric Cooperative Company, Inc., Topeka, Kansas.

The proposed financing assistance would be used by Kaw Valley Electric for constructing 37 km (23 miles) of 115 kV transmission line and a new distribution substation.

The 115 kV transmission line will extend from Kiro in Shawnee County, Kansas, to Emmett in Jackson County, Kansas. Kaw Valley Electric has prepared a Borrower's Environmental Report (BER) concerning the proposed project. An Environmental Assessment was prepared by REA to evaluate the environmental impacts.

Various alternatives to the proposed project were examined. These alternatives included no action, underground construction, conservation,

alternate transmission voltage, and alternate route. After examining these alternatives, REA determined that the proposed 115 kV transmission line and associated substation is the best alternative for providing power to existing and future loads in the area.

REA's evaluation of the environmental effects of the proposed project leads to the conclusion that its proposed financing assistance for this project does not represent a major Federal action that will significantly affect the quality of the human environment. A Finding of No Significant Impact was reached by REA in accordance with Sections IV.B and IV.D.I of REA Bulletin 20–21:320–21, Part I.

REA's Finding of No Significant Impact, the Environmental Assessment, and the Borrower's Environmental Report may be reviewed in the office of the Director, Distribution Systems Division, Room 3304, South Agriculture Building, Rural Electrification Administration, Washington, D.C. 20250, Telephone (202) 447–4413, or at the office of Kaw Valley Electric Cooperative Company, Inc., 5715 West 21st Street, Topeka, Kansas 66604, Telephone (913) 272–4330.

A copy of REA's Finding of No Significant Impact and the Environmental Assessment is available upon request to the Director, Distribution Systems Division, at the address given above.

This program is listed in the Catalog of Federal Domestic Assistance as 10.850—Rural Electrification Loans and Loan Guarantees.

Dated at Washington, D.C., this 22d day of May 1981.

Joe S. Zoller,

Acting Administrator, Rural Electrification Administration.

[FR Doc. 81–16273 Filed 6–1–81; 8:45 am]

BILLING CODE 3410–15–M

Pioneer Electric Cooperative, Inc., Ulysses, Kans.; Finding of No Significant Impact

Notice is hereby given that the Rural Electrification Administration (REA) has prepared a Finding of No Significant Impact which concludes that there is no need for REA to prepare an Environmental Impact Statement in connection with proposed financing assistance to Pioneer Electric Cooperative, Inc., Ulysses, Kansas.

The proposed financing assistance would be used by Pioneer Electric for constructing 27 km (17 miles) of 115 kV transmission line and a new distribution substation.

The 115 kV transmission line will extend from Manter near Johnson in Stanton County, Kansas, to Richfield in Morton County, Kansas. Pioneer Electric has prepared a Borrower's Environmental Report (BER) concerning the proposed project. An Environmental Assessment was prepared by REA to evaluate the environmental impacts.

Various alternatives to the proposed project were examined. These alternatives included no action, underground construction, and extending the Hugoton-Rolla line. After examining these alternatives, REA determined that the proposed 115 kV transmission line and associated substation is the best alternative for providing power to existing and future loads in the area.

REA's evaluation of the environmental effects of the proposed project leads it to conclude that its proposed financing assistance for this project does not represent a major Federal action that will signficantly affect the quality of the human environment. A Finding of No Significant Impact was reached by REA in accordance with Sections IV.B and IV.D.I. of REA Bulletin 20–21:320–21, Part I.

REA's Finding of No Significant Impact, the Environmental Assessment, and the Borrower's Environmental Report may be reviewed in the office of the Director, Distribution Systems Division, Room 3304, South Agriculture Building, Rural Electrification Adminstration, Washington, D.C 20250, Phone (202) 447–4413, or at the office of Pioneer Electric Cooperative, Inc., West Highway 160, Ulysses, Kansas 67880, Phone (316) 356–1211.

A copy of REA's Finding of No Significant Impact and the Environmental Asessment is available upon request to the Director, Distribution Systems Division, at the address given above.

This program is listed in the Catalog of Federal Domestic Assistance as 10.850—Rural Electrification Loans and Loan Guarantees.

Dated at Washington, D.C., this 22nd day of May 1981.

Joe S. Zoller,

Acting Administrator, Rural Electrification Administration.

BILLING CODE 3410–15–M

DEPARTMENT OF COMMERCE

International Trade Administration

Expanded Metal of Base Metal From Japan; Final Results of Administrative Review of Antidumping Finding

AGENCY: Department of Commerce, International Trade Administration.

ACTION: Notice of Final Results of Administrative Review of Antidumping Finding.

SUMMARY: On March 4, 1981, the Department of Commerce published preliminary results of its administrative review of the antidumping finding on expanded metal of base metal from Japan for four companies not reviewed in an earlier notice published on February 3, 1981. It covered various time periods up to December 31, 1979.

Interested parties were given an opportunity to submit oral or written comments on these preliminary results. We received no comments.

EFFECTIVE DATE: June 2, 1981.

FOR FURTHER INFORMATION CONTACT: J. Linnea Bucher, Office of Compliance, International Trade Administration, U.S. Department of Commerce, Washington, D.C. 20230 (202–377–2704).

SUPPLEMENTARY INFORMATION:

Background

On January 16, 1974 a dumping finding with respect to expanded metal of base metal from Japan was published in the **Federal Register** as Treasury Decision 74–29 (39 FR 1979). On February 3, 1980, the Department of Commerce ("the Department") published in the **Federal Register** the final results of its adminsitrative review of the finding for twenty-nine companies (46 FR 10519). On March 4, 1981 we published preliminary results for four remaining companies (46 FR 15189–90). The Department has not completed its administrative review of the antidumping finding.

Scope of the Review

The imports covered by this review are shipments of expanded metal of base metal, currently classifiable under item 652.8000 of the Tariff Schedules of the United States Annotated (TSUSA). The review covered all time periods up to December 31, 1979 not previously covered by appraisement instructions ("master lists").

Interested parties were afforded an opportunity to furnish oral or written comments. The Department received no such comments.

Final Results of the Review

Since we have received no comments, the final results of our review are the same as those presented in the preliminary results of review. We therefore determine that the following weighted-average margins exist:

Japanese exporter	Time period	Margin (percent)
Alton Trading Co	1-1-78/12-31-79	4.9
Kanebo Kensetsu Kogyo Co., Ltd	1-1-75/12-13-79	4.9
Okaya & Co., Ltd	1-1-77/12-31-78	0
	1-1-79/12-31-79	3.3
Tomiyasu & Co., Ltd	1-1-77/12-31-79	4.9

The Department shall determine, and the U.S. Customs Service shall assess, duties on all entries made with purchase dates during the time periods involved. Individual differences between purchase price and foreign market value may vary from the percentages stated above. The Department will issue appraisement instructions separately on each exporter directly to the Customs Service.

Further, as required by § 353.48(b) of the Commerce Regulations a cash deposit based on the most recent of the margins calculated above shall be required on all shipments from the four exporters entered, or withdrawn from warehouse, for consumption on or after the date of publication of these final results. The Department has decided to waive the deposit requirement for any firm covered by this or the February 3 notice whose most recent weighted-average margin is less than 0.5%. These deposit requirements or waiver of deposit shall remain in effect until publication of the final results of the next administrative review. The Department intends to conduct the next administrative review by the end of January, 1982.

This administrative review and notice are in accordance with section 751(a)(1) of the Tariff Act of 1930 (19 U.S.C. 1675(a)(1)) and § 353.53 of the Commerce Regulations (19 CFR 353.53).

B. Waring Partridge III,

Acting Deputy Assistant Secretary, Import Administration.

May 27, 1981.

BILLING CODE 3510-25-M

National Oceanic and Atmospheric Administration

Intent To Conduct a Review of Government Versus Contract Operation of Computer Facilities at the National Climatic Center

AGENCY: National Oceanic and Atmospheric Administration.

ACTION: Notice.

SUMMARY: Notice is hereby given pursuant to Office of Management and Budget (OMB) Circular A-76 and the Department of Commerce Administrative Order 201-41 implementing OMB Circular A-76, the National Oceanic and Atmospheric Administration (NOAA) intends to conduct a review of government operation of computer facilities at the National Climatic Center, Asheville, North Carolina, versus contract operation of same. A contract may or may not result from the review. Results of the review will be made avialable to bidders, offerers, and all interested parties. This review is with regard to computer and tape library operations only and excludes systems software support and hardware maintenance.

DATES: The review is scheduled to begin October 1, 1981, and end June 30, 1982.

FOR FURTHER INFORMATION CONTACT: Daniel B. Mitchell, Director, National Climatic Center, Federal Building, Asheville, North Carolina 28801, FTS 672-0236.

Dated: May 22, 1981.

BILLING CODE 3510-12-M

DEPARTMENT OF ENERGY

Murray Enterprises; Intent To Grant Exclusive Patent License

Notice is hereby given of an intent to grant to Murray Enterprises of Livermore, California, an exclusive license to manufacture, use, and sell in the United States, the invention described in U.S. Patent No. 4,095,590, entitled "Fuel-Injecting Spark Plug." The patent is owned by the United States of America, as represented by the Department of Energy (DOE).

The proposed license will have a duration of 10 years and will contain other terms and conditions to be negotiated by the parties in accordance with 42 U.S.C. 5908(h) and 10 CFR 781. DOE intends to grant the license unless within 60 days of this Notice the Assistant General Counsel for Patents, Department of Energy, Washington, D.C. 20585, receives in writing any of the following, together with supporting documents:

(i) A statement from any person setting forth reasons why it would not be in the best interest of the United States to grant the proposed license, or

(ii) An application for a nonexclusive license to manufacture, use, and/or sell the invention in the United State in accordance with Title 10 CFR 781, in which applicant states that he has already brought the invention to practical application or is likely to bring the invention to practical application expeditiously.

The Assistant General Counsel for Patents will review all written responses to this Notice. The license will be granted if a determination can be made by DOE, following expiration of the 60-day notice period, (i) that no applicant for a nonexclusive license has brought or will bring the invention to the point of practical or commercial application within a reasonable period and (ii) that the granting of the license would be in the public interest after consideration of all the facts, evidence, and argument which third parties may present to the Assistant General Counsel for Patents.

Third parties who participate as outlined above are further advised of their right to appeal any decision of the Assistant General Counsel for Patents concerning the grant of the proposed exclusive license or the denial of its application for a nonexclusive license under the subject patent. Such appeal shall be in accordance with the appeal procedures of 10 CFR 781.65, including the right to request an oral hearing.

Signed at Washington, D.C., this 15th day of May 1981.

United States Department of Energy.

Eric J. Fygi,

Acting General Counsel.

BILLING CODE 6450-01-M

Rexnord, Inc.; Intent To Grant Exclusive Patent License

Notice is hereby given of an intent to grant to Rexnord, Inc., Instrument Products Division, located in Malvern, Pennsylvania, an exclusive license to manufacture, use, and sell in the United States, the invention described in U.S. Patent No. 3,867,688, entitled "Electrodeless Conductance Measurement Device." The patent, which issued on February 18, 1975, is owned by the United States of America, as represented by the Department of Energy (DOE). The patent relates to a

device for the electrodeless measurement of the conductance of a material, which material may be in the form of a fluid contained in a conduit.

The proposed license will have a duration of the remaining term of the patent and will contain other terms and conditions to be negotiated by the parties, in accordance with 42 U.S.C. 5908(h) and 10 CFR Part 781. DOE intends to grant the license unless within 60 days of this Notice the Assistant General Counsel for Patents, Department of Energy, Washington, D.C. 20585, receives in writing any of the following, together with supporting documents:

(i) A statement from any person setting forth reasons why it would not be in the best interest of the United States to grant the proposed license; or

(ii) An application for a nonexclusive license to manufacture, use, or sell the invention in the United States in accordance with Title 10 CFR 781, in which applicant states that he has already brought the invention to practical application or is likely to bring the invention to practical or commercial application expeditiously.

The Assistant General Counsel for Patents will review all written responses to this Notice. The license will be granted if a determination can be made by DOE, following expiration of the 60-day notice period, (i) that no applicant for a nonexclusive license has brought or will bring the invention to the point of practical or commercial application within a reasonable period, and (ii) that the granting of the license would be in the public interest after consideration of all the facts, evidence, and argument which third parties may present to the Assistant General Counsel for Patents.

Third parties who participate as outlined above are further advised of their right to appeal any decision of the Assistant General Counsel for Patents concerning the grant of the proposed exclusive license or the denial of its application for a nonexclusive license under the subject patent. Such appeal shall be in accordance with the appeal procedures of 10 CFR 781.65, including the right to request an oral hearing.

Signed at Washington, D.C., this 15th day of May 1981.

United States Department of Energy.

BILLING CODE 6450-01-M

Price of Plutonium-238; Proposed Price Increase

AGENCY: Department of Energy.

ACTION: Notice of Proposed Price Increase.

SUMMARY: The U.S. Department of Energy (DOE) hereby announces a proposed increase in the sales price for Plutonium-238. Due to increases in the costs of reactor operations and chemical processing, the current prices do not recover to DOE the full cost of producing this product.

DATE: Written comments will be considered if received no later than July 2, 1981.

ADDRESS: Send written comments to: Mr. Roger Heusser, Director, Division of Materials Processing, DP-73, Office of Nuclear Materials Production, U.S. Department of Energy, Washington, D.C. 20545.

FOR FURTHER INFORMATION CONTACT: Mr. Roger Heusser, (301) 353-5496.

SUPPLEMENTARY INFORMATION: In accordance with section 501(c)(1) of the Department of Energy Organization Act, DOE has determined that these regulations present no substantial issue of fact or law, and are unlikely to have a substantial impact on the economy of large numbers of individuals or businesses. Accordingly, no public hearing is required.

DOE has determined that initial and final regulatory flexibility analyses required by Sections 603 and 604 of the Regulatory Flexibility Act need not be prepared for these regulations since they would not exert, if promulgated, a significant economic impact on a substantial number of small entities.

Since this document is unlikely to have any significant effect on the environment, DOE has determined that the provisions of section 7(a)(2) of the Federal Energy Administration Act, as amended, requiring that proposals having such effect be submitted to the Environmental Protection Agency for review and comment, do not apply.

DOE has determined that this document does not contain a major proposal requiring preparation of an inflation impact statement under Executive Order 11821, and OMB Circular A-107.

DOE has determined that these regulations are not a major rule, as that term is defined in Section 1(b) of Executive Order 12291 of February 18, 1981.

A prior notice, entitled Thorium, Uranium, and Plutonium, Isotopically Enriched Quantities, published by the Atomic Energy Commission (AEC) in the **Federal Register** at 34 FR 11336, as amended by a notice, published by the AEC in the **Federal Register** at 35 FR 8300 on May 27, 1970, and further modified by a notice, entitled Plutonium-238 Prices, published by the Energy Research and Development Administration (ERDA) in the **Federal Register** at 41 FR 53525 on December 7, 1976, would be amended by substituting the following price schedule:

Department of Energy Revised Price Schedule Plutonium-238 Prices

Element and isotope	Enrichment percent and Pu-236 content	Price per milligram
Plutonium-238	[1]97	$4.45
Plutonium-238	[1]95	2.80
Plutonium-238	[1]95	2.95
Plutonium-238	[1]95	3.15
Plutonium-238	[1]80	2.00
Plutonium-238	[1]80	2.05
Plutonium-238	[1]80	2.15
Plutonium-238	[2]3.5	1.80
Plutonium-238	[2]79	1.70
Plutonium-238	[3]40	([4])

[1] No limit on Pu-236.
[2] Equal to 0.6 PPM Pu-236.
[3] Equal to 0.3 PPM Pu-236.
[4] Price available at Savannah River Plant, Aiken, S.C., upon request.

Issued in Washington, D.C., May 22, 1981.

R. L. Morgan,

Acting Assistant Secretary for Defense Programs.

[FR Doc. 81-16404 Filed 6-1-81; 8:45 am]

BILLING CODE 6450-01-M

National Petroleum Council, Water Quality Task Group of the Committee on Environmental Conservation; Meeting

Notice is hereby given that the Water Quality Task Group of the Committee on Environmental Conservation will meet in June 1981. The National Petroleum Council was established to provide advice, information, and recommendations to the Secretary of Energy on matters relating to oil and natural gas or the oil and natural gas industries. The Committee on Environmental Conservation will analyze the environmental problems of the oil and gas industries and the impact of current environmental control regulations on the availability and costs of petroleum products and natural gas. Its analysis and findings will be based on information and data to be gathered by the various task groups. The time, location and agenda of the Water Quality Task Group meeting follows:

The Water Quality Task Group will hold its seventh meeting on Monday, June 15, 1981, starting at 9:00 a.m., in Room 805 of the Stapleton Plaza Hotel, 3333 Quebec Street, Denver, Colorado.

The tentative agenda for the meeting follows:

1. Review individual assignments.

2. Discuss Task Group schedule.

3. Discuss any other matters pertinent to the overall assignment of the Water Quality Task Group.

The meeting is open to the public. The Chairman of the Water Quality Task Group is empowered to conduct the meeting in a fashion that will, in his judgment, facilitate the orderly conduct of business. Any member of the public who wishes to file a written statement with the Water Quality Task Group will be permitted to do so, either before or after the meeting. Members of the public who wish to make oral statements should inform G. J. Parker, Office of Oil and Natural Gas, Fossil Energy, 202/633–8383, prior to the meeting and reasonable provision will be made for their appearance on the agenda.

Summary minutes of the meeting will be available for public review at the Freedom of Information Public Reading Room, Room IE–190, DOE, Forrestal Building, 1000 Independence Avenue, S.W., Washington, D.C., between the hours of 8 a.m. and 4:00 p.m., Monday through Friday, except Federal holidays.

Issued at Washington, D.C. on May 27, 1981.

Roger W. A. LeGassie,

Acting Assistant Secretary for Fossil Energy.

May 27, 1981.

[FR Doc. 81–16406 Filed 6–1–81; 8:45 am]

BILLING CODE 6450–01–M

International Atomic Energy Agreements; Civil Uses; Proposed Subsequent Arrangement Between U.S. and Republic of Turkey

Pursuant to Section 131 of the Atomic Energy Act of 1954, as amended (42 U.S.C. 2160) notice is hereby given of a proposed "subsequent arrangement" under the Agreement for Cooperation Between the Government of the United States of America and the Government of the Republic of Turkey Concerning Civil Uses of Atomic Energy, as amended.

The subsequent arrangement to be carried out involves the extension of the Agreement Between the International Atomic Energy Agency, the Government of the Republic of Turkey and the Government of the United States of America for the Application of Safeguards in accordance with Section 33 of that Agreement.

In accordance with Section 131 of the Atomic Energy Act of 1954, as amended, it has been determined that the extension of this safeguards transfer agreement will not be inimical to the common defense and security.

This subsequent arrangement will take effect no sooner than June 17, 1981.

For the Department of Energy.

Dated: May 28, 1981.

Harold D. Bengelsdorf,

Director for Nuclear Affairs, International Nuclear and Technical Programs.

BILLING CODE 6450–01–M

Commonwealth Oil Refining Company, Inc.; Action on Consent Order

AGENCY: Department of Energy (DOE).

ACTION: Adoption of proposed consent order as final.

SUMMARY: The Office of the Special Counsel for Compliance (OSC) hereby gives the notice required by 10 CFR 205.199J that it has adopted the Consent Order with Commonwealth Oil Refining Company, Inc. (Corco), executed on January 8, 1981 and published for comment in 46 FR 8099 on January 26, 1981 as a final order of DOE. The Consent Order resolves all issues of compliance with the DOE Petroleum Price and Allocation Regulations, for the period January 1, 1974 through July 31, 1980. To remedy any violations that may have occurred during the period, Corco has agreed to refunds totalling $10 million.

As required by the regulation cited above, OSC received comments on the Consent Order for a period of not less than 30 days following publication of the notice cited above. Two comments were received. OSC has considered those comments and determined that the Consent Order should be made final without modification. The Consent Order is effective as an order of the DOE on the date of publication of this notice.

FOR FURTHER INFORMATION CONTACT: Leslie Wm. Adams, Deputy Solicitor to the Special Counsel for Compliance, Department of Energy, 1200 Pennsylvania Avenue, N.W., Washington, D.C. 20461, (202) 633–9165.

Copies of the Consent Order may be received free of charge by written request to: Corco Consent Order Request, Office of Special Counsel, Department of Energy, 1200 Pennsylvania Avenue, N.W., Room 3109, Mail Stop 4111, Washington, D.C. 20461.

Copies may also be obtained in person at the same address or at the Freedom of Information Reading Room, Forrestal Building, 1000 Independence Avenue, S.W., Room GB–145, Washington, D.C.

SUPPLEMENTARY INFORMATION:

The Consent Order

On January 26, 1981, OSC published notice in the **Federal Register** at page 8099, announcing the execution of a Consent Order between Corco and OSC. In compliance with DOE regulations, that notice, and a press release issued on January 21, 1981, summarized the Consent Order and the facts behind it. The notice and press release also gave instructions for obtaining copies of the Consent Order.

The Consent Order can be summarized as follows:

1. The Consent Order marks the conclusion of OSC's audit of Corco's compliance with the Mandatory Petroleum Price and Allocation Regulations, including the entitlements and mandatory oil import programs, for the period January 1974 through July 1980 (the audit period). The Consent Order resolves all civil issues not previously resolved concerning the allocation and sale of covered products during the audit period.

2. Corco shall refund to consumers upon the Island of puerto Rico the aggregate sum of $10,000,000 which consumers will be identified by Corco and subject to the approval of the DOE. The refund will be made in accordance with the following schedule: (a) beginning the second month following the month in which an order of the United States Bankruptcy Court for the Western District of Texas confirming Corco's plan of arrangement under Chapter XI of the Bankruptcy Act becomes a final order, Corco shall refund to the Puerto Rico Electric Power Authority $500,000 per month for a period of six (6) months; and (b) beginning the eighth month following such date, Corco shall refund the balance, 47,000,000, to the Commonwealth of Puerto Rico by remitting $291,667 per month for a period of twenty-four (24) months. The Commonwealth will use the funds for energy conservation and cost reduction purposes subject to the approval of the Secretary of Energy.

3. In addition, Corco has agreed to amend its banks of unrecovered increased costs for motor gasoline and propane in the first month following that month in which the Consent Order is made effective or the orders of the United States Bankruptcy Court for the Western District of Texas have become final (the month of implementation). At that time Corco will reduce its banks of unrecovered increased costs for motor gasoline to $50,000,000 exclusive of increased costs incurred in or after the month of implementation. In the month of implementation, Corco will also reduce its banks of unrecovered increased costs for propane to $3,000,000, exclusive of increased costs

incurred in or after the month of implementation.

4. The Consent Order also provides details concerning the conclusion of the audit and procedures concerning enforcement of the provisions of the Consent Order. These matters include Corco's obligation under DOE record keeping regulations and DOE's obligation to maintain the confidentiality required by law of proprietary data received from Corco. The Consent Order also provides that Corco has waived its right to an administrative or judicial appeal of the Consent Order. The Consent Order does not constitute an admission by Corco nor a finding by OSC of a violation of any federal petroleum price and allocation statutes or regulations.

Comments Received

Two organizations, the Transportation Group and the National Consumer Law Center, submitted comments that were addressed generally to all nine Consent Orders, including the Consent Order with Corco, published for comment on January 26, 1981.

The Transportation Group, is an organization representing four trade associations—the Air Transport Association of America, Inc., the America Bus Association, the American Trucking Association, Inc., and the Association of American Railroads—whose members are major consumers of refined petroleum products. The Transportation Group expressed its approval of OSC's enforcement efforts and the settlement process which resulted in the Consent Orders announced in the January 26, 1981 **Federal Register** notices. The organization also evinced the following concerns regarding the nine Consent Orders: OSC should try to identify overcharged purchasers or categories of purchasers in order to provide for direct refunds or payments based volumetrically on the amount of petroleum products purchased; transportation firms should receive a larger share of the refunds than they have heretofore, and OSC should provide additional information concerning refund amounts and methods of refund computation.

The Department's aim in structuring remedies is to achieve some form of restitution. In its enforcement actions, the Department attempts to identify individual purchasers or classes or types of purchasers, to the maximum extent possible, and to implement restitutionary remedies. The audits, however, do not ordinarily result in the identification of specific customers who may have been overcharged for several reasons. First, audits are necessarily conducted on a sample basis and, as such, may not focus on specific purchasers, even where they generally identify aggregate violations regarding specific products to classes of purchasers. Second, these audits focus predominantly on "cost violations" and because of the nature of the regulations, would require tracing the violation to specific product sales, a difficult task. Third, these violations occurred as much as seven years ago, and given the mobility within the distribution chain, it would be extremely difficult to identify and locate injured customers. Finally, purchasers of products from a major refiner may have resold those products to others, passing on the consequences of any violation to their customers. However, as stated previously, the Department's priority is to seek remedies that provide some form of restitution, wherever possible. In order to achieve an equitable distribution of monies, the refunds have generally been determined according to a volumetric allocation based on the amount of product purchased by the recipient.

The Transportion Group accurately notes that OSC has previously determined that the refunds received by regulated transportation firms will not constitute a "windfall" to the recipients. OSC's review of the operation of the agencies which regulate transportation companies and their applicable regulations indicates that refunds are factored into the fuel cost aspects of their rate making systems. Similarly, OSC is examining the passthrough of refunds by utilities to end users. To that end, OSC has contacted the public service commissions for the states in which the recipient utilities are located as well as a number of utilities themselves. The commissions have assured OSC that utilities receiving refunds will be required to pass those refunds through to their customers. It has been determined that the utility customers will receive the benefit of the refunds by operation of fuel adjustment clauses in which the refund would appear as an offset to fuel costs in the computation of any fuel adjustment factor, or in the reconciliation of current costs or, finally, reflected as a direct credit to customers. OSC also obtained assurances that the passthrough will be documented either in public records or through the assistance of the staffs of the various utilities and commissions.

The Transportation Group's comment with regard to other remedies, e.g., that any benefit to the bank reduction remedy is compromised and made meaningless with the advent of decontrol, has been dealt with below.

The National Consumer Law Center (NCLC), a non-profit legal organization representing low-income individuals and groups, submitted comments that, while generally addressing all nine Consent Orders published for comment January 26, 1981, raised several issues that are pertinent to this Consent Order.

Although the NCLC initially recognizes that the "limited flow of information * * * is admittedly somewhat inherent in the nature of the private settlement/public comment process," the NCLC nevertheless complains that the Consent Orders and **Federal Register** notices are "extremely skimpy on relevant detail * * *." The DOE regulations, at 10 CFR 205.199J(a), require that a Consent Order "set forth the relevant facts which form the basis for the Order." The Consent Order itself indicates that "[i]t settles and finally resolves all civil and administrative claims and disputes * * * relating to Corco's compliance with the federal petroleum price and allocation regulations * * *." Because the Consent Order constitutes neither an admission by the company nor a finding by DOE that Corco has violated any federal petroleum price or allocation regulation, it would not be appropriate, as the NCLC suggests, to detail and quantify in the Consent Order the preliminary claims and issues that arose in the course of the settlement negotiations and to relate those claims and issues to the terms and conditions of the Consent Order. Further, as NCLC acknowledges, to reveal how OSC and the company arrived at the dollar figures for the various components of the settlements would breach the confidentiality necessarily accorded to the negotiation process and would impinge upon OSC's prosecutorial discretion. Thus, OSC believes that it has provided the necessary information in the Consent Order and **Federal Register** notice to enable the public to comment meaningfully upon this settlement.

The NCLC also maintains that the Consent Orders do not provide adequate benefits, focusing particularly on the bank reduction provisions, and the "heavy reliance" placed on them in these settlements. NCLC seeks renegotiation of the agreements to convert the bank reductions to some cash value.

In the process that leads to settlement, OSC determines the potential liability of a refiner based on its audit of that refiner. That audit addresses all areas of dispute under the price regulations. As a result, the disputes focus on issues of

V 46 / 105 JUN 2 8 1 UMI

the determination, recognition, allocation and carry over of costs, which form the basis for the determination of maximum lawful selling prices. Because of the carry over, or banking provision, a refiner may have lawful costs available from previous periods to offset disputes in later months. The existence of those legitimate costs militates against the existence of overcharges. In litigation, a refiner is likely to argue that those banks obviate the possibility of overcharge. Thus, in determining a firm's potential liability, two factors are addressed: the legitimacy of the costs claimed and banked and the potential for overcharges, given the existence of banks and a firm's pricing practices. In reaching settlement, OSC determined the amount of cash refund necessary to reasonably settle any possible overcharges, and the amount of bank reduction appropriate to settle the cost disputes.

Bank reductions are appropriate to remedy certain types of disputes resulting from the audit. OSC intended this bank reduction to serve the dual purpose of satisfying the alleged cost violation and of placing some limitation on the refiner's prospective pricing of covered products. Accordingly, in negotiating the bank reduction in this case, OSC sought a reduction to the lowest level consistent with allowing the refiner to maintain, but not increase prices as a result of the existence of banks. In the case of Corco, the Consent Order requires a bank reduction to be implemented at the end of the month following the month in which the Consent Order is made effective or the orders of the U.S. Bankruptcy Court for the Western District have become final (the month of implementation). That reduction may have even exceeded the reduction in costs necessary for a satisfactory settlement of the outstanding cost issues. We disagree that these provisions are "essentially worthless", as alleged by NCLC. It is true that, in light of decontrol, the bank reduction cannot have the *prospective* effect anticipated at the time the Consent Order was executed. If the bank reduction were to take place while gasoline were still controlled, the reduction in the bank of costs available to support prices would have placed a restriction on Corco's ability to increase prices. However, Corco's pricing practices since the close of the Consent Order period, July 31, 1980, through decontrol, January 27, 1981, remain subject to audit. The pricing of gasoline by Corco during this intervening period necessarily contemplated the requirement that a sufficient amount of accrued costs remain to satisfy the reduction in banks called for by the Consent Order. Accordingly, the terms of the order calling for bank reductions have conferred a benefit on Corco purchasers during the last 6 months of price controls.

In addition to its comments on the bank reduction components of the settlements, the NCLC also raises several points concerning the settlements' cash components. Of relevance here, the NCLC expresses concern that the refunds to many of the refiners' immediate purchasers may not be passed through to ultimate consumers. Each of these settlements utilizes "conduits" for passing a substantial portion of the refunds through to ultimate consumers. OSC chose as conduits, regulated industries, such as the utility and transportation industries, for which some mechanism exists to assure a passthrough of benefits to their customers and state and local government entities that purchased petroleum products in their proprietary capacities. Specifically identifying the refund recipients in the Consent Orders would not only be cumbersome in those instances in which there are a large number of such recipients, but by revealing a firm's customers it would also disclose confidential and proprietary commercial information. Refunds to these conduits are, therefore, intended to provide general restitution to those unidentifiable ultimate consumers who, through their utility, transportation, or tax bills, may have borne any overcharges that did occur.

Having considered all comments submitted, DOE has determined that the proposed Consent Order with Corco should be made final without modification, effective upon publication of this notice.

Issued in Washington, D.C. May 18, 1981.

Avrom Landesman,

Acting Special Counsel for Compliance.

BILLING CODE 6450-01-M

Tenneco Oil Co.; Action on Consent Order

AGENCY: Department of Energy (DOE).

ACTION: Adoption of proposed consent order as final.

SUMMARY: The Office of the Special Counsel for Compliance (OSC) hereby gives the notice required by 10 CFR 205.199J that it has adopted the Consent Order with Tenneco Oil Company ("Tenneco"), executed on January 18, 1981 and published for comment in 46 FR 8102 on January 26, 1981 as a final order of DOE. The Consent Order resolves all civil issues of compliance with the DOE Petroleum Price and Allocation Regulations, with the exceptions set forth in the Consent Order, for the period March 6, 1973 through December 31, 1980. To remedy any violations that may have occurred during the period, Tenneco has agreed to cash remedies in the amount of $14 million.

As required by the regulation cited above, OSC received comments on the proposed Consent Order for a period of not less than 30 days following publication of the notice cited above. Four comments were received. OSC has considered those comments and determined that the Consent Order should be made final with one modification: the bank reduction component has been deleted by the parties, as discussed further herein. The Consent Order, as modified, was made effective on May 5, 1981 by execution of the modified Consent Order.

FURTHER INFORMATION CONTACT: Leslie Wm. Adams, Deputy Solicitor to the Special Counsel for Compliance, Department of Energy, 1200 Pennsylvania Avenue, N.W., Washington, D.C. 20461, (202) 633-9165.

Copies of the Consent Order may be received free of charge by written request to: Tenneco Consent Order Request, Office of Special Counsel, Department of Energy, 1200 Pennsylvania Avenue, N.W., Room 3109, Mail Stop 4111, Washington, D.C. 20461.

Copies may also be obtained in person at the same address or at the Freedom of Information Reading Room, Forrestal Building, 1000 Independence Avenue, S.W., Room 1E-190, Washington, D.C.

SUPPLEMENTARY INFORMATION:

The Consent Order

On January 26, 1981, OSC published notice in the **Federal Register** at page 8102, announcing the execution of a Consent Order between Tenneco and OSC. In compliance with DOE regulations, that notice, and a press release issued on January 21, 1981, summarized the Consent Order and the facts behind it. The notice and press release also gave instructions for obtaining copies of the Consent Order.

The proposed Consent Order can be summarized as follows:

1. The Consent Order marks the conclusion of OSC's audit of Tenneco's compliance with the Mandatory Petroleum Price and Allocation Regulations, including the entitlements and mandatory oil import programs, for

the period March 6, 1973 through December 31, 1980 (the audit period). With the exception of the matters excluded from the settlement in the Consent Order, the Consent Order resolves all civil issues not previously resolved concerning the allocation and sale of covered products during the audit period.

2. To remedy any overcharges that may have occurred during the audit period, Tenneco has agreed to a cash payment of $14 million which consists of three elements. First, within 30 days after the effective date of the Consent Order, Tenneco will remit $4 million to OSC for distribution by DOE's Office of Hearings and Appeals (OHA) in accordance with the provisions of Subpart V of Part 205 of the DOE Regulations. Pursuant to these provisions, OSC will petition OHA for the implementation of special refund procedures to evaluate refund claims submitted to OHA by purchasers from Tenneco during the audit period. Second, within 60 days after the effective date of the Consent Order, subject to prior approval of OSC, Tenneco will refund $8 million to purchasers of heating oil and propane. Third, also within 60 days of the effective date of the Consent Order and subject to prior approval of OSC, Tenneco will refund $2 million to certain direct end-user purchasers of petroleum products (including electric utility companies and regulated transp rtation companies) and others.

3. Effective December 31, 1980, Tenneco will reduce its banks of unrecovered increased costs for motor gasoline to $30 million with $15 million of that restricted in use, e.g., for price maintenance purposes as provided for in the Regulations. Effective December 31, 1980, Tenneco will reduce its banks of unrecoverd increased costs for propane to $7 million.

4. The Consent Order also provides details concerning the conclusion of the audit and procedures concerning enforcement of the provisions of the Consent Order. These matters include Tenneco's obligation under DOE recordkeeping regulations and DOE's obligation to maintain the confidentiality required by law of proprietary data received from Tenneco. The Consent Order also provides that Tenneco has waived its right to an administrative or judicial appeal of the Consent Order. The Consent Order does not constitute an admission by Tenneco nor a finding by OSC of a violation of any federal petroleum price and allocation statutes or regulations.

Modifications to the Consent Order

After careful consideration of the comments received in response to the Notice of Proposed Consent Order and further negotiations with Tenneco pursuant to paragraph 901 of the Consent Order, the proposed Consent Order was modified to delete the bank reduction component. The bank reduction remedy, as more fully stated below, is an appropriate method of resolving outstanding compliance issues. Where the remedy is to take effect so close to the date of decontrol, the remedy's prospective impact is diminished or eliminated, and, therefore, the parties have determined that it should no longer be included as a component in this Consent Order. These modifications are discussed in greater detail below in response to specific comments.

Comments Received

OSC received four comments which were addressed to this Consent Order. Two were received from organizations, the Transportation Group and the National Consumer Law Center, which addressed comments generally to all nine Consent Orders published for comment on January 26, 1981. OSC also received a comment from the Air Transportation Association, a member organization of the Transportation Group representing thirty-one air carriers. In addition, a party to a PRO proceeding involving Tenneco commented on the instant Consent Order.

The Transportation Group is an organization representing four trade associations—the Air Transport Association of America, Inc., the American Bus Association, the American Trucking Association, Inc., and the Association of American Railroads—whose members are major consumers of refined petroleum products. The Transportation Group expressed its approval of OSC's enforcement efforts and the settlement process which resulted in the Consent Orders announced in the January 26, 1981 **Federal Register** notices. The organization also expressed the following concerns regarding the nine Consent Orders: OSC should endeavor to identify overcharged purchasers or categories of purchasers in order to provide for direct refunds or payments based volumetrically on the amount of petroleum products purchased; transportation firms should receive a larger share of the refunds than they have heretofore; and OSC should provide additional information concerning refund amounts and methods of refund computation.

The Department's aim in structuring remedies is to achieve some form of restitution. In its enforcement actions, the Department attempts to identify individual purchasers or classes or types of purchases, to the maximum extent possible, and to implement restitutionary remedies.

The audits, however, do not ordinarily result in the identification of specific customers who may have been overcharged for several reasons. First, audits are necessarily conducted on a sample basis and, as such, may not focus on specific purchasers, even where they generally identify aggregate violations regarding specific products to classes of purchasers. Second, these audits focus predominantly on "cost violations" and because of the nature of the regulations, would require tracing the violation to specific product sales, a difficult task. Third, these violations occurred as much as seven years ago, and given the mobility within the distribution chain, it would be extremely difficult to identify and locate injured customers. Finally, purchasers of products from a major refiner may have resold those products to others, passing on the consequences of any violation to their customers. However, as stated previously, the Department's priority is to seek remedies that provide some form of restitution, wherever possible. In order to achieve an equitable distribution of monies, the refunds have generally been determined according to a volumetric allocation based on the amount of product purchased by the recepient.

The Transportation Group accurately notes that OSC has previously determined that the refunds received by regulated transportation firms will not constitute a "windfall" to the recipients. OSC's review of the operation of the agencies which regulate transportation companies and their applicable regulations indicates that refunds are factored into the fuel cost aspects of their rate making systems. Similarly, OSC is examining the passthrough of refunds by utilities to end users. To that end, OSC contacted the public service commissions for the states in which the recipient utilities were located as well as a number of utilities themselves. The commissions have assured OSC that utilities receiving refunds will be required to pass those refunds through to their customers. It has been determined that the customers of the utilities will receive the benefit of the refunds by operation of fuel adjustment clauses in which the refund would

V 46 / 105
JE 2 81
UMI

appear as an offset to fuel costs in the computation of any fuel adjustment factor, or in the reconciliation of current costs or, finally, as a direct credit to customers. OSC has also obtained assurances that the passthrough will be documented either in public records or through the assistance of the staffs of the various utilities and commissions.

Finally, the Transportation Group's comment with regard to the bank reduction remedy, that it is compromised and made meaningless with the advent of decontrol, has been dealt with below.

The National Consumer Law Center (NCLC), a non-profit organization representing low-income individuals and groups, also submitted comments that were addressed generally to all nine Consent Orders published for comment on January 16, 1981. The NCLC comments, however, raised several issues that are pertinent to this Consent Order.

Although the NCLC initially recognizes that the "limited flow of information * * * is admittedly somewhat inherent in the nature of the private settlement/public comment process," the NCLC nevertheless complaints that the Consent Orders and **Federal Register** notices are "extremely skimpy on relevant details * * *." The DOE regulations, at 10 CFR 205.199J(a), require that a Consent Order "set forth the relevant facts which form the basis for the Order." [1] The Consent Order itself indicates that, with the exception of the matters explicitly excluded from the settlement in the Consent Order, it settles and finally resolves "all civil and administrative disputes, claims and causes of actions by DOE * * * against Tenneco * * * relating to Tenneco's compliance with the federal petroleum price and allocation regulations * * *." Because the Consent Order constitutes neither an admission by the company nor a finding by DOE that Tenneco has violated any federal petroleum price or allocation regulation, it would not be appropriate, as the NCLC suggests, to detail and quantify in the Consent Order the preliminary claims and issues that arose in the course of the settlement negotiations and to relate those claims and issues to the terms and conditions of the Consent Order. Further, to reveal how OSC and the company arrived at the dollar figures for the various components of the settlements would breach the confidentiality necessarily accorded to the negotiation process and would impinge upon OSC's prosecutorial discretion. Thus, OSC believes that it has provided the necessary information in the Consent Order and **Federal Register** notice to enable the public to comment meaningfully upon this settlement.

The NCLC also maintains that the Consent Orders do not provide adequate benefits, focusing particularly on the bank reduction provisions, and the "heavy reliance" placed on them in these settlements. NCLC seeks renegotiation of the agreements to convert the bank reductions to some cash value.

In the process that leads to settlement, OSC determines the potential liability of a refiner based on its audit of that refiner. That audit addresses all areas of dispute under the price regulations. As a result, the disputes focus on issues of the determination, recognition, allocation and carryover of costs, which form the basis for the determination of maximum lawful selling prices. Because of the carryover or banking provision, a refiner may have lawful costs available from previous periods to offset disputes in later months. The existence of those legitimate costs militates against the existence of overcharges. In litigation, a refiner is likely to argue that those banks obviate the possibility of overcharge. Thus, in determining a firm's potential liability, two factors are addressed: the legitimacy of the costs claimed and banked and the potential for overcharges, given the existence of banks and a firm's pricing practices. In reaching settlement, OSC has determined the amount of cash refund necessary to reasonably settle any possible overcharges, and the amount of bank reduction appropriate to settle the cost disputes.

Bank reductions are appropriate to remedy certain types of disputes resulting from the audit. OSC had intenderd this bank reduction to serve the dual purpose of satisfying the alleged cost violations *and* to place some limitations on the refiner's prospective pricing of covered products. Accordingly, in negotiating the bank reduction in this case, OSC sought a reduction to the lowest level consistent with allowing the refiner to maintain, but not increase prices as a result of the existence of banks. That reduction may have even exceeded the reduction in costs necessary for a satisfactory resolution of the outstanding cost issues. However, decontrol preempts the intended prospective impact of such bank reductions on the firm's pricing: If the bank reduction were to take place while gasoline were still under controls, the reduction in the banks of costs available to support prices would have placed a restriction on the company's ability to increase prices. Furthermore, the end of the Consent Order period, December 1980, is so close to the month of decontrol, January 1981, that the reduction has been substantially deprived of its ability to restrain prices in the intervening period by virtue of the company's anticipation of the effect of the bank reduction on its pricing practices. Since the bank reduction will not have the intended prospective effect, and since the Consent Order resolves all outstanding matters, obviating the need to address the amount of costs available to justify selling prices in the future, OSC has determined to eliminate paragraphs 405 and 406 from the Consent Order. This modification does not indicate that the bank reduction is inappropriate in light of the disputes raised, but only that in light of the absence of any prospective effect on the company there is no prospective benefit to be derived from including such a provision in the order. Because the elimination of this provision does not alter the effect of the Consent Order, we have determined that the modification does not require that we provide an opportunity to file additional comments.

In addition to its comments on the bank reduction components of the settlements, the NCLC also raises several points concerning the settlements' cash components. Of relevance here, the NCLC expresses concern that the refunds to many of the refiners' immediate purchasers may not be passed through to ultimate consumers. Each of these settlements utilizes "conduits" for passing a substantial portion of the refunds through to ultimate consumers. OSC chose as conduits regulated industries, such as the utility and transportation industries, for which some mechanism exists to assure a passthrough of benefits to their customers and state and local government entities that purchased petroleum products in their proprietary capacities. Specifically identifying the refund recipients in the Consent Orders, as advocated by the NCLC, would not only be cumbersome in those instances in which there are a large number of such recipients, but by revealing a firm's customers it would also disclose confidential and proprietary commercial information. Refunds to these conduits are, therefore, intended to provide general restitution to those unidentifiable ultimate consumers who, through their utility, transportation, or

[1] To the extent that the Notice adopting as final the DOE's Consent Order with Koch Industries, Inc., implies that the Administrative Procedure Act imposes any procedural requirements on DOE regarding the publication of notice of Consent Orders, the Notice is incorrect. The APA is inapplicable to this question.

tax bills, may have borne any overcharges that did occur.

With respect to those Consent Orders, including this one, that provide for payment to the U.S. Treasury of any unclaimed or undistributed funds from the claims funds or from the DOE-administered special refund proceedings, the NCLC contends that the payment of settlement funds into the Treasury is illegal. The NCLC has previously filed similar comments to other consent orders which contend that payments to the U.S. Treasury pursuant to settlements are in excess of DOE's authority because there is no express statutory authorization or requirement for payment to the U.S. Treasury. We disagree with the assertion that payments to the U.S. Treasury are legitimate remedies only if there is express statutory authorization or permission. Treasury payments are entirely opposite in the context of resolution of civil and administrative disputes relating to the refiner's compliance with the DOE regulations. As we stated in response to the comment filed by NCLC to the Sun Company, Inc. Consent Order, "The use of a Treasury payment reflects DOE's inability to determine a more appropriate distribution mechanism in the circumstances of this case and our belief that this payment is an appropriate enforcement remedy." 45 FR 80348 (December 4, 1980). Under these Consent Orders, only unclaimed or undistributed funds are subject to payment to the Treasury; furthermore, any such payments will be made only after the funds have been held for a period of time pending distribution in claims or refund proceedings. Moreover, in this instance, payment to the Treasury is an explicitly stated, but not exclusive, option for the disposition of any undistributed funds, since the Consent Order provides in ¶402 that "Tenneco and OSC [may] agree to an alternative dispositon of such funds." In any event, particularly in light of the restitution provided for by other remedies in the Consent Orders, OSC believes that the payment of undistributed funds to the Treasury is a reasonable and legal disposition of funds that could otherwise be left in limbo indefinitely.

A comment received from the Air Transportation Association ("ATA") endorsed the provisions of the Consent Order; however, the ATA suggested that airline customers of Tenneco receive refunds which reflect the volume of product purchased. The instant Consent Order provides for refunds to airline customers, and the amount of each refund has been previously determined according to a volumetric allocation based on the amount of product purchased by the customer.

Finally, Kern County Refinery, Inc. ("Kern"), a party to a Proposed Remedial Order ("PRO") proceeding before OHA, filed an objection to the Consent Order if "* * * the Consent Order is in any way intended to foreclose any of Kern's rights to administrative relief before the DOE * * *" The Consent Order, as all other Consent Orders executed by OSC, is binding only on the parties to the Consent Order, DOE and Tenneco. In no way does the Consent Order extinguish a private right of action by any party against Tenneco, and Kern is free to pursue any judicial remedies available to it. Furthermore, Kern, as a customer of Tenneco, is eligible under provisions of the Consent Order to be a recipient of refunds from Tenneco. Thus, while the Consent Order will result in the resolution of OSC's PRO; it does not foreclose Kern's rights to seek relief. In light of the above considerations, Kern's comments do not warrant modification to the Consent Order.

Having considered all comments submitted, DOE has determined that the Proposed Consent Order with Tenneco should be made final with the modification discussed above, effective upon execution of the Consent Order as modified.

Issued in Washington, D.C., May 18, 1981.

Economic Regulatory Administration

A. Johnson & Co., Inc.; Action Taken on Consent Order

AGENCY: Economic Regulatory Administration, Department of Energy.

ACTION: Notice of action taken on Consent Order.

SUMMARY: The Economic Regulatory Administration (ERA) of the Department of Energy (DOE) announces notice of a final Consent Order issued as signed.

EFFECTIVE DATE: May 27, 1981.

FOR FURTHER INFORMATION CONTACT: Stanley S. Mills, Program Manager for Entitlements, Office of Enforcement, 2000 M Street NW., Washington, D.C. 20461, (202) 653-3548.

SUPPLEMENTARY INFORMATION: On January 22, 1981, 46 FR 7052 (1981), the Office of Enforcement of the ERA published notification in the **Federal Register** that it had executed a proposed Consent Order with A. Johnson & Company on November 25, 1980, which would not become effective sooner than 30 days after publication. Pursuant to 10 CFR 205.199J(c), interested persons were invited to submit comments concerning the terms, conditions or procedural aspects of the Consent Order.

Two comments were received. The commentors recommended that the refunds be effected through the Entitlements Program. The Consent Order does not preclude this remedy and therefore was not modified. The proposed Consent Order was finalized and made effective on May 27, 1981.

Texas Gas Transmission Corp., d.b.a. Texas Gas Exploration Corp.; Proposed Consent Order

AGENCY: Economic Regulatory Administration, Department of Energy.

ACTION: Notice of Proposed Consent Order and opportunity for Comments.

SUMMARY: The Economic Regulatory Administration (ERA) of the Department of Energy (DOE) announces a proposed Consent Order and provides an opportunity for public comment on the proposed Consent Order and on potential claims against the refunds deposited in an escrow account established pursuant to the Consent Order.

DATE: May 19, 1981.

COMMENTS BY: July 2, 1981.

ADDRESS: Send comments to: Wayne I. Tucker, District Manager of Enforcement, Southwest District Office, Department of Energy, P.O. Box 35228, Dallas, Texas 75235, [Phone] (214) 767–7745.

SUPPLEMENTARY INFORMATION: On May 19, 1981, the Office of Enforcement of the ERA executed a proposed Consent Order with Texas Gas Transmission Corporation dba Texas Gas Exploration Corporation, of Houston, Texas. Under 10 CFR 205.199J(b), a proposed Consent Order which involves a sum of $500,000 or more in the aggregate, excluding penalties and interest, becomes effective only after the DOE has received comments with respect to the proposed Consent Order. Although the ERA has signed and tentatively accepted the proposed Consent Order, the ERA may, after consideration of the comments it receives, withdraw its acceptance and, if appropriate, attempt to negotiate an alternative Consent Order.

I. Consent Order

Texas Gas Exploration Corporation, is a firm engaged in the processing of natural gas and sale of natural gas liquid products, and is subject to the Mandatory Petroleum Price and Allocation Regulations at 10 CFR Parts 210, 211, and 212. To resolve certain civil actions which could be brought by the Office of Enforcement of the Economic Regulatory Administration as a result of its audit of sales of natural gas liquid products, the Office of Enforcement, ERA, and Texas Gas Exploration Corporation, entered into a Consent Order, the significant terms of which are as follows:

1. The period covered by the Consent Order was September 1973 through January 27, 1981, and it included all sales of natural gas liquid products which were made during that period.

2. Texas Gas Exploration Corporation did not apply in a manner acceptable to the DOE the provisions of 6 CFR Part 150, Subpart L, and 10 CFR Part 212, Subparts E and K, when determining the prices to be charged for its natural gas liquid products, and, as a consequence, charged prices in excess of the maximum lawful sales prices resulting in overcharges to its customers.

3. In order to expedite resolution of the disputes involved, the DOE and Texas Gas Exploration Corporation have agreed to a settlement in the amount of $2,060,000. The terms of the refund consist of twenty-three monthly installments of $85,833.33 plus the final payment of $85,833.41. The initial installment is to be refunded within 60 days of the effective date of the Consent Order. Within 30 days of the effective date of the Consent Order, Texas Gas Exploration Corporation may satisfy the settlement by remitting to the DOE $1,800,000; thereafter, at any time the firm may, at its option and without penalty, satisfy the settlement by remitting the balance then owed. The negotiated settlement was determined to be in the public interest as well as the best interests of the DOE and Texas Gas Exploration Corporation.

4. The provisions of 10 CFR 205.199J, including the publication of the Notice, are applicable to the Consent Order.

II. Disposition of Refunded Overcharges

In this Consent Order, Texas Gas Exploration Corporation agrees to refund, in full settlement of any civil liability with respect to actions which might be brought by the Office of Enforcement, ERA, arising out of the transactions specified in I.1. above, the sum of $2,060,000 in the manner specified in I.3 above. Refunded overcharges will be in the form of certified checks made payable to the United States Department of Energy and will be delivered to the Assistant Administrator for Enforcement, ERA. These funds will remain in a suitable account pending the determination of their proper disposition.

The DOE intends to distribute the refund amount in a just and equitable manner in accordance with applicable laws and regulations. Accordingly, distribution of such refunded overcharges requires that only those "persons" (as defined at 10 CFR 205.2) who actually suffered a loss as a result of the transactions described in the Consent Order receive appropriate refunds. Because of the petroleum industry's complex marketing system, it is likely that overcharges have been passed through as higher prices to subsequent purchasers. In fact, the adverse effects of the overcharges may have become so diffused that it is a practical impossibility to identify specific, adversely affected persons, in which case disposition of the refunds will be made in the general public interest by an appropriate means such as payment to the Treasury of the United States pursuant to 10 CFR 205.199I(a).

III. Submission of Written Comments

A. *Potential Claimants:* Interested persons who believe that they have a claim to all or a portion of the refund amount should provide written notification of the claim to the ERA at this time. Proof of claims is not being required. Written notification to the ERA at this time is requested primarily for the purpose of identifying valid potential claims to the refund amount. After potential claims are identified, procedures for the making of proof of claims may be established. Failure by a person to provide written notification of a potential claim within the comment period for this Notice may result in the DOE irrevocably disbursing the funds to other claimants or to the general public interest.

B. *Other Comments:* The ERA invites interested persons to comment on the terms, conditions, or procedural aspects of this Consent Order.

You should send your comments or written notification of a claim to Wayne I. Tucker, District Manager of Enforcement, Southwest District Office, Department of Energy, P.O. Box 35228, Dallas, Texas 75235. You may obtain a free copy of this Consent Order by writing to the same address of by calling (214) 767–7745.

You should identify your comments or written notification of a claim on the outside of your envelope and on the documents you submit with the designation, "Comments on Texas Gas Transmission Corporation dba Texas Gas Exploration Corporation, Consent Order." We will consider all comments we receive by 4:30 p.m., local time on July 2, 1981. You should identify any information or data which, in your opinion, is confidential and submit it in accordance with the procedures in 10 CFR 205.9(f).

Issued in Dallas, Tex., on the 22d day of May 1981.

Wayne I. Tucker,

Southwest District Manager, Economic Regulatory Administration.

BILLING CODE 6450-01-M

Witco Chemical Corp.; Proposed Consent Order

AGENCY: Economic Regulatory Administration, Department of Energy.

ACTION: Notice of proposed Consent Order and opportunity to comment.

SUMMARY: The Economic Regulatory Administration (ERA) of the Department of Energy DOE) announces a proposed Consent Order and provides an opportunity for public comment on the proposed Consent Order and on potential claims against the refunds deposited in an escrow account pursuant to the Consent Order.

DATE COMMENTS BY: July 2, 1981.

ADDRESS: Send Comments to: Edward F. Momorella, District Manager for

Enforcement, Northeast District, 1421 Cherry Street, Philadelphia, Pa., 19102.

FOR FURTHER INFORMATION CONTACT: Edward F. Momorella, District Manager for Enforcement, Northeast District, 1421 Cherry Street, Philadelphia, Pa., 19102, 215–597–2633.

SUPPLEMENTARY INFORMATION: On May 21, 1981, The Office of Enforcement of the ERA executed a proposed Consent Order with Witco Chemical Corporation of Paramus, New Jersey. Under 10 CFR 205.199J(b), a proposed Consent Order which involves a sum of $500,000 or more, excluding interest and penalties, becomes effective no sooner than thirty days after publication in the **Federal Register** requesting comments concerning the proposed Consent Order. Although the ERA has signed and tentatively accepted the proposed Consent Order, the ERA may, after consideration of the comments it receives, withdraw its acceptance and, if appropriate, attempt to negotiate an alternative Consent Order.

I. The Consent Order

Witco Chemical Corporation (Witco), with its home office located in Paramus, New Jersey, is a firm engaged in the refining and sale of petroleum products and was subject to the Mandatory Petroleum Price and Allocation Regulations at 10 CFR Parts 210, 211, 212 during the period covered by this Consent Order ("settlement period"). To resolve certain civil actions which could be brought by the Office of Enforcement of the Economic Regulatory Administration as result of its audit of Witco the Office of Enforcement, ERA and Witco entered into a Consent Order, the significant terms of which are as follows:

1. The Consent Order resolves all issues of Witco's compliance with all statutory requirements and administrative regulations administered by the ERA with respect to the pricing and allocation of crude oil and all products derived, refined or processed from crude oil or natural gas that have been regulated at any time by the ERA (covered products), including entitlements and mandatory oil imports programs (said requirements and regulations being hereinafter referred to as the "Federal petroleum price and allocation regulations"), with the exceptions set forth in the Consent Order, for the period August 19, 1973 through 12:01 a.m., January 28, 1981.

2. In settlement of all disputes with the ERA concerning excess revenues which it may have received from sales of covered products during this period, Witco has agreed to a refund of $4,500,000.00 and a payment of $100,000.00 in compromise of civil penalties.

3. As required by the regulation cited above, the ERA will receive comments on the Consent Order for a period of not less than thirty (30) days following publication of this notice. The ERA will consider any comments which it receives during this period before determining whether to make the Consent Order final. Although the Consent Order has been signed and accepted by the parties, the ERA may, after the expiration of the comment period, withdraw its acceptance of the Consent Order and attempt to obtain a modification of it or issue the Consent Order as proposed.

4. Witco engages in, among other things, the production, refining, processing, reselling and marketing of covered products. An audit conducted by the ERA included a review of Witco's records relating to compliance with the Federal petroleum price and allocation regulations during the period August 19, 1973 through 12:01 a.m., January 28, 1981 (the audit period).

5. In its audit the ERA reviewed Witco's pricing and allocation policies and procedures, and the manner in which Witco applied the Federal petroleum price and allocation regulations. The ERA and Witco disagree in several respects concerning Witco's compliance with the Federal petroleum price and allocation regulations during the audit period. Notwithstanding the ERA's view as to the proper application of the regulations to Witco's activities, Witco maintains that it has correctly construed and applied the regulations. The ERA and Witco each believes that its respective positions on the legal issues underlying their disagreements are meritorious. However, both parties desire to resolve the issues raised by the audit without resort to complex, lengthy and expensive compliance actions. The ERA believes that the Consent Order is in the public interest because it provides a satisfactory resolution of disputed issues and an appropriate conclusion of the Witco audit.

6. The Consent Order addresses all aspects of Witco's compliance with the Federal petroleum price and allocation regulations during the audit period, except for certain specifically excluded matters, and (with the same exclusions) resolves all issues concerning Witco's compliance with the Federal petroleum price and allocation regulations during the audit period.

7. In settlement of all disputes with the ERA concerning excess revenues which is may have received from sales of covered products during the audit period, Witco has agreed to place $4,500,000.00 in an account to be established by the Assistant Administrator for Enforcement, ERA, within ten (10) days after the effective date of the Consent Order. The funds in this account are to be distributed by the ERA in accordance with 10 CFR Part 205, Subpart V, or other equivalent procedures.

8. Witco has also agreed to pay $100,000.00 in compromise of all civil penalties that ERA might seek under applicable law.

9. The Consent Order also provides details concerning the conclusion of the audit and procedures concerning enforcement of the provisions of the Consent Order.

10. Upon becoming final after consideration of public comments by the ERA, the Consent Order will be a final order in which Witco has waived its right to an administrative or judicial appeal.

11. The Consent Order does not constitute an admission by Witco nor a finding by the ERA of any violation of the Federal petroleum price and allocation regulations. This notice merely summarizes the Consent Order, and neither limits nor modifies it in any way whatsoever.

III. Submission of Written Comments and Notices of Claim

A. Potential Claimants

Interested persons who believe that they have a claim to all or a portion of the refund amount should provide written notification of the claim to the ERA at this time. Proof of claims is not now being required. Written notification to the ERA at this time is requested primarily for the purpose of identifying valid potential claims to the refund amount.

After potential claims are identified, procedures for the making of proof of claims may be established. Failure by a person to provide written notification of a potential claim within the comment period for this Notice may result in the DOE irrevocably disbursing the funds to other claimants or in the general public interest.

B. Other Comments

The ERA invites interested persons to comment on the terms, conditions, or procedural aspects of this Consent Order.

You should send your comments or written notification of a claim to Edward F. Momorella, District Manager of Enforcement, Northeast District, 1421

Cherry Street, Philadelphia, Pa. 19102. You may obtain a free copy of this Consent Order by writing to the same address or by calling 215–597–2633.

You should identify your comments or written notification of claim on the outside of your envelope and on the documents you submit with the designation, "Comments on Witco Consent Order." We will consider all comments we receive by 4:30 p.m. local time, on July 2, 1981. You should identify any information or data which, in your opinion, is confidential and submit it in accordance with the procedures in 10 CFR 205.9(f).

Issued in Philadelphia, Pa. on the 21st day of May 1981.

Edward F. Momorella,

District Manager of Enforcement, Northeast District.

BILLING CODE 6450-85-C

The above notices of determination were received from the indicated jurisdictional agencies by the Federal Energy Regulatory Commission pursuant to the Natural Gas Policy Act of 1978 and 18 CFR 274.104. Negative determinations are indicated by a "D" before the section code. Estimated annual production (PROD) is in million cubic feet (MMCF). An (*) before the Control (JD) number denotes additional purchasers listed at the end of the notice.

The applications for determination are available for inspection except to the extent such material is confidential under 18 CFR 275.206, at the Commission's Division of Public Information, Room 1000, 825 North Capitol St., Washington, D.C. Persons objecting to any of these determinations may, in accordance with 18 CFR 275.203 and 275.204, file a protest with the Commission on or before June 17, 1981.

Section 102–1: New OCS lease
102–2: New well (2.5 mile rule)
102–3: New well (1000 ft rule)
102–4: New onshore reservoir
102–5: New reservoir on old OCS lease
Section 107–DP: 15,000 feet or deeper
107–GB: Geopressured brine
107–CS: Coal seams
107–DV: Devonian shale
107–PE: Production enhancement
107–TF: New tight formation
107–RT: Recompletion tight formation
Section 108: Stripper well
108–SA: Seasonally affected
108–ER: Enhanced recovery
108–PB: Pressure buildup

Kenneth F. Plumb,

Secretary.

[FR Doc. 81–10330 Filed 6–1–81; 8:45 am]

BILLING CODE 6450-86-C

The above notices of determination were received from the indicated jurisdictional agencies by the Federal Energy Regulatory Commission pursuant to the Natural Gas Policy Act of 1978 and 18 CFR 274.104. Negative determinations are indicated by a "D" before the section code. Estimated annual production (PROD) is in million cubic feet (MMCF). An (*) before the Control (JD) number denotes additional purchasers listed at the end of the notice.

The applications for determination are available for inspection except to the extent such material is confidential under 18 CFR 275.206, at the Commission's Division of Public Information, Room 1000, 825 North Capitol St., Washington, D.C. Persons objecting to any of these determinations may, in accordance with 18 CFR 275.203 and 275.204, file a protest with the Commission on or before June 17, 1981.

Categories within each NGPA section are indicated by the following codes:

Section 102–1; New OCS lease
- 102–2: New well (2.5 mile rule)
- 102–3: New well (1000 ft rule)
- 102–4: New onshore reservoir
- 102–5: New reservoir on old OCS lease

Section 107–DP: 15,000 feet or deeper
- 107–GB: Geopressured brine
- 107–CS: Coal seams
- 107–DV: Devonian shale
- 107–PE: Production enhancement
- 107–TF: New tight formation
- 107–RT: Recompletion tight formation

Section 108—: Stripper well
- 108–SA: Seasonally affected
- 108–ER: Enhanced recovery
- 108–PB: Pressure buildup

Kenneth F. Plumb,

Secretary.

BILLING CODE 6450–85–M

Western Area Power Administration

Announcement of the Proposed Power Marketing Plan Central Valley Project, California

AGENCY: Western Area Power Administration, Department of Energy.

ACTION: Announcement of the proposed power marketing plan governing the proposed allocation of 102 MW of additional power and 10 MW of power to protect system diversity, the proposed renewal of certain existing contracts, the proposed conservation and renewable energy program, and the proposed transmission marketing plan—Central Valley Project, California.

SUMMARY: The Western Area Power Administration (Western) is developing a power marketing plan (Plan) for the power resources marketed by Western's Sacramento Area Office. Initial activities began last July 1980. Thus, far, three information forums and two public comment forums have been held. Western reaffirms its commitment to publish the final Plan by October 1981. The schedule of remaining events is included below.

The major points within each category of the proposed Plan follow. A brochure containing the Plan and associated studies will be available as of the date of this **Federal Register** and will be presented at a June 2, 1981, public information forum. Interested parties will receive the brochure about 1 week before the June 2, forum.

DATES: A public information forum will be held on June 2, 1981, beginning at 9:30 a.m. in the Mariposa/Sonora Rooms, Holiday Inn-Holidome, 5321 Date Avenue, Sacramento, California. The proposed Plan will be made available at this forum. Written comments are due by July 21, 1981.

A public comment forum will be held on July 14, 1981, beginning at 9:30 a.m. in the Sutter Mill Room, Holiday Inn-Holidome, 5321 Date Avenue, Sacramento, California.

ADDRESS: For further information concerning the public information forum contact: Mr. David G. Coleman, Area Manager, Sacramento Area Office, Western Area Power Administration, U.S. Department of Energy, 2800 Cottage Way, Sacramento, CA 95825, (916) 484–4251.

Proposed Power Marketing Plan

102 MW of Additional Power and 10 MW for Protection of System Diversity: Western proposes to market 102 MW as follows. The 46 MW reserved for the Westlands Water District (Westlands) will be marketed on a withdrawal basis; of the remaining 56 MW, 30 MW will be reserved to "firm" renewable resources and cogeneration, and 26 MW will be allocated on a nonwithdrawable basis.

Firm-power allocations from the 46 MW of Westlands power will be made subject to Westland's load growth and will be partially or wholly withdrawable on 1 year's advance notice in writing to the recipients of an allocation. The amount of withdrawal will be on a pro rata basis among all recipients of a withdrawable allocation.

The 30 MW reserved to firm renewable resources and cogeneration will involve a capacity and energy exchange. The exchange will be negotiated on an individual basis depending on the type of project under consideration.

An additional 10 MW is proposed to be made available to those entities which can shed load during times of Western's total system simultaneous peak, and thus contribute to Western's system diversity. The scheduling and accounting for "load shedding" will be negotiated on a case-by-case basis.

Alternative limitations on the amount of energy to be marketed with capacity allocated from the 26 MW of nonwithdrawable power and the 46 MW of Westlands withdrawable power have been studied and are discussed below.

Renewal of Expiring Contracts: Western proposes to renew existing contracts that expire on or before April 30, 1985, on substantially the same contract rate of delivery (CRD) terms; however, Western has not yet decided as to whether to apply a 40-percent monthly load factor energy limit or a customer load factor energy limit. The alternative limitations on the amount of energy to be sold with capacity are discussed further below.

Marketing Area: The Sacramento Area Office of Western has a marketing area which generally encompasses the Central Valley Project (CVP) water basin and northern Nevada. The CVP resources have traditionally been utilized in the northern California area, and area planning has developed under the assumption that those resources will be used in the area. Under Western's contract with Pacific Gas and Electric Company (PGandE) (Contract No. 14–06–200–2948A) there are constraints involved with marketing CVP power resources outside the northern California area. Further, Western has no transmission capability to serve the northern Nevada area.

Given these considerations and constraints, Western proposes to market its CVP power only within the northern California portion of the Sacramento Area Office marketing area. However, Western does recognize the longer term possiblity of marketing power from other new Federal resources to qualified preference entities in northern Nevada.

Contract Termination Date: The contract termination date for all renewed contracts, contracts for power allocated under the 102 MW, and contracts for the 10 MW of power for protection of system diversity is proposed to be July 1, 1994.

Western's Contract Reservations: Western proposes the following reservations to apply to all renewed contracts and to contracts for power allocated from the 102 MW:

1. Western may, at its sole discretion, reduce a customer's CRD for firm power by any amount necessary to supply the

project-use requirements including operation of the Federal San Luis Unit of the Central Valley Project. The reduction amount shall be prorated among all preference customers. Western shall give its customers written notice 6 months in advance of the effective date of the reduction.

2. At those times when Western's total system simultaneous peak demand exceeds the 1,152-MW level, Western may, at its sole discretion, curtail its customers' CRD so as not to exceed a pro rata share of the total power and energy that is available.

3. In order to supply electric power and energy to preference customers in Tuolumne, Calaveras, and Trinity Counties in California in accordance with the requirements of reclamation law, Western, upon 90 days' advance written notice to its customers, may withdraw electric power from its customers. The criteria for withdrawal of power from CVP customers will be determined in a subsequent rulemaking after allowing the appropriate public notice and comment.

Transmission Billing Terms for Renewed Contracts, Contracts for THE 102 MW, and Contracts for the 10 MW of Diversity: Currently, Western has one transmission rate which applies to customers that receive CVP power wheeled over PG and E's system. The majority of the costs for wheeled service were in the past programed to be recovered from the power sales rate. The power rate is adjusted or discounted for direct-service customers. This system is cumbersome and results in inequitable treatment among customers.

Western proposes to maintain an option to eventually discontinue the present system, replacing it with a separate billing for transmission. Therefore, Western proposes that customers which receive renewed contracts and contracts for the 102 MW shall not be billed for transmission if they are directly served from Western's transmission system. The contracts of customers who have wheeled service will provide for a wheeling charge. Appropriate contract terms will cover each situation. Western expects to adjust or set, as appropriate, transmission rates to be charged under such contractual provisions.

Energy Limit Alternatives: Western's CVP hydroelectric system is typically energy deficient during the fall and winter when river flows are at relative minimums. In 1971, Western obtained a 10-year contract for 400 MW of power from the Centralia coal plant located in the State of Washington to provide baseload energy to complement the CVP's seasonal energy production. With the expiration of the Centralia contract on December 31, 1981, Western estimates that its energy bank accounts Nos. 1 and 2, which are maintained with PGandE, will be depleted in the Mid-1980's and early 1990's, respectively. Confronted by this fact, Western determined that it could either market only what the CVP can generate on an annual average basis or continue to market its power resources at the customers' load factor and seek to acquire resources to meet customers' demands. The CVP's annual average capacity factor is about 40 percent and Western's customers have about a 60-percent load factor on a system average basis.

Western's studies with regard to marketing a total of 1,152 MW at a 40-percent load factor versus the customers' load factor indicate that the purchase power requirement difference between the two load factor levels for the period 1981 to July 1, 1994, ranges from 150 gigawatthours (GWh) in 1982 to 600 GWh annually in the late 1980's. Not until July 1, 1994, when the Sacramento Municipal Utility District's (SMUD) current contract for 360 MW expires, could there be a significant difference in the CVP's purchase power requirements between the two alternative energy limitations. The difference in purchase power requirements could increase from 600 to 1,300 GWh annually in the period 1994–2004. It is for this reason also that Western proposes to have a contract termination date of July 1, 1994, for all contracts that expire by April 30, 1985, for all contracts for the 102 MW of additional power, and for contracts for the 10 MW for protection of system diversity. By this date, Western will have been able to re-evaluate the necessity to renew or revise all expiring contracts and the SMUD contract at either a 40-percent or customer load factor energy limitation.

Western has not yet made a final determination of the energy limit alternatives. Western does, however, propose to implement either the 40-percent annual average load factor energy limitation or the customer load factor alternative. Customer comments on this issue are again solicited. The decision on which load factor alternative to apply will be made after July 27, 1981, which is the close of the formal comment period.

Conservation and Renewable Energy Program: Western is presently in the draft stages of preparing a conservation and renewable energy program. The purpose of this program will be to encourage the involvement of our customers in conservation activities/programs and renewable energy projects that are in keeping with the objectives of the National Energy Policy:

- Reduction of U.S. dependence on imported oil.
- Improved efficiency in the use of energy.
- Increased production and use of renewable energy.

The program is being developed separately from the power marketing plan. The schedule and major elements of the program may be presented at the June 2, 1981, public information forum.

Each contractor who contracts to take power allocated from the 102 MW or the 10 MW of diversity, or to take power under a renewal contract will be required under their contract to continue or implement a conservation and renewable energy program acceptable to Western when Western's conservation and renewable energy program regulations become effective. If a contractor does not maintain an effective conservation program, the contractors CRD is subject to a reduction of up to 10 percent.

Allocation Criteria: The proposed allocation criteria which were published at 46 FR 25539 (May 7, 1981) are hereby incorporated by reference and made a part of this proposed power marketing plan.

Proposed Transmission Marketing Plan

Western proposes a transmission marketing plan which seeks to maximize the use of the CVP's 1,200-mile transmission system and the 400-MW entitlement on the Pacific Northwest 500-kV a.c. intertie. Western's loads will receive first priority; then, if surplus transmission capability is available, it will be used to obtain other purchase power supplies to support Western's contractual commitments. Next, preference will be given to preference customers who have a need to meet load requirements above their CRD, subject to contractual and physical constraints. If surplus transmission capacity still exists, Western will assist its preference customers in integrating any of their resources which are located in the Northwest or in any part of Western's marketing area. Western will also cooperate fully in areawide emergency planning programs and utilize its transmission system to lend assistance during emergencies and power curtailment situations to assist all interconnected utilities where feasible.

Environmental Assessment

Western presented its assessment of potential environmental impacts of the

Sacramento Area Office's proposed power marketing plan in the January 14, 1981, draft Plan. The assessment found that the Plan would not involve changes in the operation of the CVP's hydroelectric and transmission facilities. In addition, the Plan calls for no new facilities; and thus, the proposed action would not affect the existing CVP system, the natural ecosystem, recreational resources, or historical or archeological sites.

The California Energy Commission (CEC) by letter dated March 6, 1981, did take issue with one statement in the Environmental Assessment: the environmental impact of all alternatives are identical to those described for the proposed action (page 69, draft Plan, January 14, 1981). The thrust of the CEC's comment was that cogeneration and renewable energy would " * * * reduce air polution in the PG and E area by cutting back the consumption of fossil fuels, particularly oil."

Western agrees with the CEC and recognizes the potential for improved air quality associated with displacement of existing oil generation by certain types of cogeneration and renewable energy. Therefore, Western incorporates this section of the proposed Plan into the environmental assessment presented in the January 14, 1981, draft Plan.

Given the above revision to the environmental assessment, Western concludes that because the proposed Plan has no significant environmental constraints and the development of the Plan will not cause any significant environmental impact, no further documentation under the National Environmental Policy Act is required. Subject to comments received by July 27, 1981, Western proposes to reaffirm its findings and conclusions.

Regulatory Flexibility Analysis

Pursuant to the Regulatory Flexibility Act of 1980 (5 U.S.C. 601 *et seq.*) each agency, when required by 5 U.S.C. 553 to publish a proposed rule, is further required to prepare and make available for public comment an initial regulatory flexibility analysis to describe the impact of the proposed rule on small entities. Western has determined that (1) this rulemaking relates to services offered by Western and therefore is not a rule within the purview of the Regulatory Flexibility Act; (2) there will be only a few qualifying applicants which will be small entities; and (3) the impacts of an allocation from Western would not cause an adverse economic impact to such entities. The requirements of the Act can be waived if the head of the agency certifies that the rule will not, if promulgated, have a significant economic impact on a substantial number of small entities. For the reasons cited above, the Administrator of Western has certified that the proposed allocation criteria published in the **Federal Register** on May 7, 1981 (46 FR 25539), and the proposed power marketing plan are not rules under the Regulatory Flexibility Act and will not, if promulgated, have a significant economic impact on a substantial number of small entities. The Administrator's certification is published herewith and has been sent to the Chief Counsel for Advocacy of the Small Business Administration.

Determination Under Executive Order 12291

Pursuant to Executive Order 12291 of February 17, 1981 (46 FR 13193, February 19, 1981), each agency is to determine whether a rule it intends to propose is a "major rule." Western has determined that for the purposes of Executive Order 12291, the proposed power marketing plan is not a major rule because:

1. It will not have an annual effect on the economy of $100 million or more;

2. It will not result in a major increase in cost or prices for consumers, individual industries, Federal, State, or local government agencies, or geographic regions; or

3. It will not have significant adverse effects on competition employment, investment, productivity innovation, or on the ability of United States-based enterprises to compete with foreign-based enterprises in domestic or export markets.

This proposed rulemaking was submitted to the Director of the Office of Management and Budget for review prior to publication of this **Federal Register**.

Power Marketing Plan Schedule: The following schedule applies to the remainder of the power marketing plan development period.

June 2—Information forum on the proposed power marketing plan and allocation criteria
July 14—Comment forum
July 27—Last date for receipt of written comments on the allocation criteria, application format, and power marketing plan
August 3—Publish adopted allocation criteria
August 10 to September 15—Receive applications for allocations
September 30—Publish final plan and proposed allocations
October 8—Comment forum on the proposed allocations
November 2—Publish final allocations and begin contracting

Availability of Information

All brochures, studies, comments, letters, memorandums, and other documents made or kept by Western for the purpose of developing the power marketing plan are and will be available for inspection and copying at the Sacramento Area Office, Western Area Power Administration, 2800 Cottage Way, Sacramento, CA 95825, (916) 484-4251.

Issued at Golden, Colorado, May 15, 1981.

Don W. Shinkle,
Assistant Administrator for Management Services.

Certification of Compliance With the Regulatory Flexibility Act of 1980

I, Robert L. McPhail, Administrator of the Western Area Power Administration, certify that the "Proposed Allocation Criteria For The Marketing of 102 MW of Additional Power and 10 MW of Power to Protect System Diversity," published on May 7, 1981, in **Federal Register** (46 FR 25539), and the "Proposed Power Marketing Plan" for the Central Valley Project which will be published on or about May 27, 1981, are not rules within the meaning of the Regulatory Flexibility Act of 1980 (5 U.S.C. 601 *et seq.*), will not have a significant economic impact on a substantial number of small entities, and therefore comply with the requirements of the Regulatory Flexibility Act without the preparation of a regulatory flexibility analysis.

Issued at Golden, Colorado, May 12, 1981.

Robert L. McPhail,
Administrator.

ENVIRONMENTAL PROTECTION AGENCY

[OPTS-51257A; TSH-FRL-1843-7]

Acrylated Alkoxylated Aliphatic Glycol Premanufacture Notice; Correction

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: This notice corrects the toxicological information on a premanufacture notice (PMN) submitted by Diamond Shamrock Corp., Process Chemicals Division as required by section 5(a)(1) of the Toxic Substances Control Act (TSCA).

FOR FURTHER INFORMATION CONTACT: Carrie Berlin, Chemical Control Division (TS-794), Office of Toxic Substances, Environmental Protection Agency, Rm.

E-221, 401 M St., SW., Washington, DC 20460, (202-426-8816).

SUPPLEMENTARY INFORMATION: In the **Federal Register** of May 8, 1981 (46 FR 25693), EPA issued a notice of receipt of a PMN (PMN 81-163) on the chemical generically identified as acrylated alkoxylated aliphatic glycol submitted by Diamond Shamrock Corp., Process Chemicals Divisions, PO Box 2386R, Morristown, NJ 07960.

In the FR Doc. 81-13900 appearing at page 25694 under PMN 81-163, first column, the "Toxicity Data.", second column, is corrected to read from "No data were submitted." to:

"Skin irriation, Draize (rabbits)—0.9/8 and 2/8, mildly irritating.

Eye irritation, Draize (rabbits)—2.3/110.

Oral LD_{50} (rats)—>10,000 mg/kg.

Dermal LD_{50} (rabbits)—>5,000 mg/kg.

Mutagenicity (Ames)—Negative."

Dated: May 27, 1981.

Edward A. Klein,

Director, Chemical Control Division.

[FR Doc. 81-16351 Filed 6-1-81; 8:45 am]

BILLING CODE 6560-31-M

[OPTS-51265; TSH-FRL-1843-4]

Amide Functional Silane; Premanufacture Notice

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: Section 5(a)(1) of the Toxic Substances Control Act (TSCA) requires any person who intends to manufacture or import a new chemical substance to submit a premanufacture notice (PMN) to EPA at least 90 days before manufacture or import commences. Statutory requirements for section 5(a)(1) premanufacture notices are discussed in EPA's statements of interim policy published in the **Federal Register** of May 15, 1979 (44 FR 28558) and November 7, 1980 (45 FR 74378). Section 5(d)(2) requires EPA to publish in the **Federal Register** certain information about each PMN within 5 working days after receipt. This notice announces receipt of a PMN and provides a summary.

DATE: Written comments by June 29, 1981.

ADDRESS: Written comments, identified by the document control number "[OPTS-51265] and the specific PMN number, should be sent to: Document Control Officer (TS-793), Management Support Division, Office of Pesticides and Toxic Substances, Environmental Protection Agency, Rm. E-401, 401 M St., SW., Washington, DC 20460, (202-426-2610).

FOR FURTHER INFORMATION CONTACT: Kathleen Ehrensberger, Chemical Control Division (TS-794), Office of Toxic Substances, Environmental Protection Agency, Rm. E-335, 401 M St., SW., Washington, DC 20460, (202-755-1150).

SUPPLEMENTARY INFORMATION: A PMN has been received by the EPA. The following is a summary of information provided by the manufacturer:

PMN 81-217

Close of Review Period. July 29, 1981.

Manufacturer's Identity. Dow Corning Corporation, P.O. Box 1767, 2200 W. Salzburg Road, Midland, MI 48640.

Specific Chemical Identity. Claimed confidental business information. Generic name provided: Amide functional silane.

Use. Claimed confidential business information. Generic use information provided: The submitter states that the PMN substance will be used as an additive in a coating for plastics.

Production Estimates. Claimed confidential business information.

Physical/Chemical Properties

pH—7.

Color—Yellow brown.

Physical state—Liquid.

Flash point (COC)—225°F.

Toxicity Data

Acute oral toxicity LD_{50} (rat)—>5,000 mg/kg.

Dermal toxicity LD_{50} (rabbit)—>2,000 mg/kg.

Eye irritation (rabbit)—Irritating.

Skin irritation (rabbit)—Nonirritating.

Ames *Samonella* Assay—No mutagenic activity.

Environmental Test Data

Fish 96-hour LC_{50}—>100 ppm.

Daphia 48-hour LC_{50}—>100 mg/l.

Exposure. No data were submitted. The submitter states that exposure to the new chemical will be minimal due to its manufacture in a closed system.

Environmental Release/Disposal. No data were submitted. The manufacturer states that there will be essentially no material released to the atmosphere; any waste product will be incinerated.

Dated: May 27, 1981.

Edward A. Klein,

Director, Chemical Control Division.

SUPPLEMENTARY INFORMATION: The following are summaries of information provided by the manufacturer on the PMN's received by EPA:

PMN 81-202

Close of Review Period. July 26, 1981.

Manufacturer's Identity. Claimed confidential business information. Organizational description provided:

Annual sales—In excess of $500,000,000.

Manufacturing site—East-South Central U.S.

Standard Industrial Classification Code—284, "Soap, Detergents and Cleaning Preparations, Perfumes, Cosmetics and other Toilet Preparations."

Specific Chemical Identity. Claimed confidential business information. Generic name provided: Polyether alkenyl alkanyl esters.

Use. Claimed confidential business information. Generic use information provided: The submitter states that the PMN substance will be used in a contained use that will release approximately 25,000 kg per year into the environment with minimal skin exposure to chemical industry employees and none to consumers.

Production Estimates. Claimed confidential business information.

Physical/Chemical Properties

Density (liquid) at 25°C—1.0 1.2g/cm³.

Solubility at 25°C—>10g/l in methylene chloride, methanol, and acetone.

Solidification temperature— −10 0° C.

Boiling point—Not determined; estimated to be >200°C with decomposition.

Toxicity Data. No data were submitted.

Exposure. The submitter states that at 3 sites, 21 workers manufacturing, processing, and disposing of the new chemical will have minimal skin exposure at a peak concentration of 0 to 1 ppm for 1 to 8 hr/da, 65 to 250 da/yr, during transfer operations.

Environmental Release/Disposal. The manufacturer states that at two sites more than 20,000 kg/yr of the new chemical will be released into the water of a settling sump, aeration basin, or biological treatment facility at the manufacturing site at the rate of 17 to 20 gallons per day during 1 hr/da, 65 da/yr. At a third site, from 1,000 to 10,000 kg/yr will be released into the land of a designated landfill at 1 to 2 gallons per day.

PMN 81-203

Close of Review Period. July 28, 1981.

Importer's Identity. Claimed confidential business information. Organizational description provided:

Annual sales—Between $100 million and $499,999,999.

Importing site—Northeastern U.S.

Specific Chemical Identity. Claimed confidential business information. Generic name provided: Substituted alkyl cyanoacrylate ester.

Use. The importer states that the PMN substance will be used as an adhesive in an industrial, commercial, and consumer use and as a sealant in an industrial and commercial use.

Import Estimates

	Kilograms per year	
	Minimum	Maximum
1st year	125	500
2d year	200	750
3d year	300	1,000

Physical/Chemical Properties

Color—Colorless.

Odor—None.

Viscosity—4-5 cps.

Boiling point—90°C at 1 mm Hg.

Toxicity Data. No data were submitted.

Exposure. The importer states that one processing worker will have inhalation exposure to the new substance for 4 hr/da, 3 da/yr, at an average concentration of 0 to 1 ppm.

Environmental Release/Disposal. The importer states that less then 10 kg/yr of the new chemical will be released into the air during 4 hr/da, 3 da/yr.

PMN 81-204

Close of Review Period. July 28, 1981.

Manufacturer's Identity. Claimed confidential business information.

Specific Chemical Identity. Claimed confidential business information. Generic name provided: Aliphatic alcohol.

Use. Claimed confidential business information. Generic use information provided: The submitter states that the PMN substance will be used as a captive intermediate and as a solution/aid modifier.

Production Estimates. Claimed confidential business information.

Physical/Chemical Properties

Specific gravity at 25°C—0.859.

Refractive index, nD^{25}—1.4728.

Solubility at 25°C:

Water—Insoluble.

Isopropanol 99%—Miscible.

Mineral oil (85 S.U.S.)—Miscible.

Methyl ethyl ketone—Miscible.

Smoke, flash, and fire point—320, 520, and 600°F.

Toxicity Data

Acute oral toxicity (male and female rats)—> 5.0 g/kg.

Primary eye irritation (albino rabbits)—Minimally irritating without a washout; Nonirritating with a washout.

Primary skin irritation (albino rabbits)—Mildly irritating.

Acute inhalation toxicity (male and female rats)—No mortality in 15-day period following 1-hour exposure at concentration of 202.1 mg/l.

Exposure. The manufacturer states that one worker per shift will have skin exposure to the new chemical substance for a maximum of 1 hour per shift during sampling, analysis, and cleanup operations.

Environmental Release/Disposal. The manufacturer states that none of the new substance will require disposal.

PMN 81-205

Close of Review Period. July 28, 1981.

Manufacturer's Identity. Claimed confidential business information.

Specific Chemical Identity. Claimed confidential business information. Generic name provided: Aliphatic alcohol ester.

Use. The submitter states that the PMN substance will be used as a textile fiber lubricant.

Production Estimates. Claimed confidential business information.

Physical/Chemical Properties

Specific gravity at 25°C—0.866.

Refractive index, nD^{25}—1.4688.

Smoke, flash, and fire point—320, 610, and 640°F.

Solubility at 25°C:

Water—Insoluble.

Isopropanol 99%—Insoluble.

Mineral oil (85 S.U.S.)—Miscible.

Methyl ethyl ketone—Miscible.

Toxicity Data

Acute oral toxicity (male and female rats)—> 5.0 g/kg.

Primary eye irritation (albino rabbits)—Nonirritating without a washout.

Primary skin irritation (albino rabbits)—Slightly irritating.

Acute inhalation toxicity (male and female rats)—No mortality in 14-day period following 1-hour exposure at concentration of 206.6 mg/l.

Exposure. The manufacturer states that one worker per shift will have skin exposure to the new chemical substance for a maximum of 1 to 2 hours per shift during sampling and cleanup operations.

Environmental Release/Disposal. The manufacturer states that none of the new substance will require disposal.

PMN 81-207

Close of Review Period. July 28, 1981.

Manufacturers's Identity. Claimed confidential business information. Organizational description provided:

Annual sales—In excess of $500 million.

Manufacturing site—East-North Central U.S.

Standard Industrial Classification Code—286, "Industrial Organic Chemicals."

Specific Chemical Identity. Claimed confidential business information. Generic name provided: Halogenated alklated titantium mixed aluminum magnesium oxides.

Use. The submitter states that the PMN substance will be used in an industrial use as a catalyst.

Production Estimates. Claimed confidential business information.

Physical/Chemical Properties

Appearance and odor—Two phase: water white, gasoline odor upper level; dark brown precipitate lower level.

Boiling point—156° F.

Vapor pressure—124 mm Hg.

Vapor density—2.975 (air = 1).

Solubility in water—Appreciable, >10%.

Specific gravity—0.66 (H_2O = 1).

Volatile by volume—75%.

Evaporation rate—1.9 (ether = 1).

Flash point—−7° F closed cup.

Toxicity Data. No data were submitted.

Exposure. The submitter states that workers manufacturing and using the new substance could have accidential skin exposure during transfer and drumming operations.

Environmental Release/Disposal. No data were submitted. The manufacturer states that cleaning solvents not recycled are incinerated; wastewater from cleaning operations is neutralized before discharge by sewer into the water of a publicly owned treatment works (POTW) or a navigable waterway.

PMN 81-208

Close of Review Period. July 28, 1981.

Manufacturer's Identity. Claimed confidential business information. Organizational description provided:

Annual sales—In excess of $500 million.

Manufacturing site—Pacific and West-South Central regions, U.S.

Standard Industrial Classification Code—286, "Industrial Organic Chemicals."

Specific Chemical Identity. Claimed confidential business information. Generic name provided: Alkenyltri (substituted alkoxy) silane.

Use. The submitter states that the PMN substance will be used in an industrial use as a polymer additive.

Production Estimates. Claimed confidential business information.

Physical/Chemical Properties

Boiling point—254–256° C at 0.8 mm.

Density—1.145 g/mc³ at 19.5° C.

Vapor pressure—<10° μHg at 78° C.

pH (1% 70/30 dioxane/H_2O)—5.2.

Flash point (COC)—390° F.

Decomposition temp.—7% wt. loss at 150° C in air (approx).

Toxicity Data

Oral LD_{50} (rates)—> 5g/kg.

Acute dermal toxicity (male, female rabbits)—> 2 g/k with slight edema (interim, 4-day results).

Ames *Salmonella* Assay—No mutagenic activity.

Exposure. The submitter states that at two sites nine manufacturing and processing workers will have skin exposure to the new chemical for 1 hr/da, from 15 to 150 da/yr, during sampling, drumming, and cleanup operations. Because the new substance will be manufactured and distilled in a closed system, exposure will be minimal.

Environmental Release/Disposal. The manufacturer states that at two sites less than 20 kg/yr of the new chemical will be released into the water of a publicly owned treatment works (POTW) or a navigable waterway during 5 hr/da, 2 to 150 da/yr. Distilled cleaning solvent will be reecycled or incinerated; cleaning water will be filtered, skimmed, and neturalized before release.

PMN 81-209

Close of Review Period. July 28, 1981.

Manufacturer's Identity. Claimed confidential business information.

Specific Chemical Identity. Polymer of adipic acid, isophthalic acid, trimethlylol propane, neopentyl glycol, and silicone polymer.

Use. Claimed confidential business information.

Production Estimates

	Kilograms per year	
	Minimum	Maximum
1st year	100,000	200,000
2d year	200,000	300,000
3d year	300,000	500,000

Physical/Chemical Properties

	Polymer solution	Dried polymer
Solid content	67.9	
Specific gravity	1.11	1.14
Solubility in water		[1]3.3
Number average molecular weight.	1,100 to 1,300	
Weight average molecular weight.	49,294 to 51,795	
Flash point (closed cup)	116°	>210° F.

Physical/Chemical Properties—Continued

	Polymer solution	Dried polymer
Elemental analysis	%C: 61.5, %H: 6.7, %O: 22.9, %S: 9.4.	
Chemical oxygen demand (g o/g).	1,780,000	

[1] 3.3 milligrams per 100 grams.

Toxicity Data. No data on the polymer were submitted.

Exposure. The submitter states that at 2 sites, 16 workers manufacturing, processing, and disposing of the new chemical will have skin and inhalation exposure for 1 to 4 hr/da, 2 to 20 da/yr, at an average concentration of 0 to 1 ppm and a peak concentration of 1 to 10 ppm during sampling, mixing, transferring, quality control analysis, filtering, and drum filling operations.

Environmental Release/Disposal. The manufacturer states that less than 10 kg/yr of the new substance will be released into the air for 8 hr/da, 20 da/yr. Airborne effluent will be treated by a scrubber; scrubber water will be routed to a sewer; cleaning solvents will be recycled or the sludge transported by state licensed carriers to a state licensed landfill.

PMN 81-218

Close of Review Period. August 3, 1981.

Manufacturer's Identity. Claimed confidential business information. Organizational description provided:

Annual sales—Between $10,000,000 and $99,999,999.

Manufacturing site—East-North Central U.S.

Standard Industrial Classification Code—286, "Industrial Organic Chemicals."

Specific Chemical Identity. Adipic acid-dipropylene glycol-linseed oil fatty acid-trimelletic anhydride-trimethylol propane polymer.

Use. The manufacturer states that the PMN substance will be used in a site-limited, industrial use as coating composition.

Production Estimates

	Kilograms per year	
	Minimum	Maximum
1st year	2,000	4,000
2d year	3,000	5,000
3d year	5,000	7,000

Physical/Chemical Properties

Physical appearance—Clear amber liquid.

Density at 25° C—1.11.

Boiling range—105–210° C.
Nonvolatile—100%.
Viscosity—7,000–8,000 cps.
Acid value—55–65.
Flash point—>200° F, Pensky Martin.

Toxicity Data. No data on the polymer were submitted.

Exposure. The manufacturer states that six workers manufacturing, using, and disposing of the new substance will have skin exposure 1 hr/da, 20 da/yr, at an average concentration of 0 to 1 ppm and a peak concentration of 1 to 10 ppm during transfer operations. Daily skin exposure for 100 commercial, industrial users is expected to be minimal.

Environmental Release/Disposal. The manufacturer states that there is no anticipated release of the new substance into the environment. Spills will be incinerated.

Dated: May 27, 1981.

Edward A. Klein,

Director, Chemical Control Division.

Certain Chemicals; Premanufacture Notices

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: Section 5(a)(1) of the Toxic Substances Control Act (TSCA) requires any person who intends to manufacture or import a new chemical substance to submit a premanufacture notice (PMN) to EPA at least 90 days before manufacture or import commences. Statutory requirements for section 5(a)(1) premanufacture notices are discussed in EPA's statements of interim policy published in the **Federal Register** of May 15, 1979 (44 FR 28558) and November 7, 1980 (45 FR 74378). Section 5(d)(2) requires EPA to publish in the **Federal Register** certain information about each PMN within 5 working days after receipt. This notice announces receipt of eight PMN's and provides a summary of each.

DATE: Written comments, identified by the document control number "[OPTS-51264] and the specific PMN number, should be sent to: Document Control Officer (TS-793), Management Support Division, Office of Pesticides and Toxic Substances, Environmental Protection Agency, Rm. E-401, 401 M St., SW., Washington, D.C. 20460, (202-426-2610).

FOR FURTHER INFORMATION CONTACT: George Bagley, Chemical Control Division (TS-794), Office of Toxic Substances, Environmental Protection Agency, Rm. E-210, 401 M St. SW., Washington, D.C. 20460, (202-426-2601).

SUPPLEMENTARY INFORMATION: The following are summaries of information provided by the manufacturer on PMN's received by the EPA:

PMN 81-206

Close of Review Period. July 28, 1981.

Manufacturer's Identity. Claimed confidential business information.

Specific Chemical Identity. Claimed confidential business information. Generic name provided: Substitutedthiol salt.

Use. The manufacturer states that the PMN substance will be used as a site-limited, chemical intermediate to replace analogous compound in the manufacture of a final chemical which will contain essentially none of the new substance as an impurity.

Production Estimates

	Kilograms per year	
	Minimum	Maximum
1st year	300	500
2d year	500	800
3d year	700	1,500

Physical/Chemical Properties

Solubilities:
Water—±10%.
Octanol—0.1–1.0%
Melting point—125° C.

Toxicity Data

Acute oral LD_{50}—1,300–1,900 mg/kg.
Acute dermal LD_{50}>1,000 mg/kg.
Skin irritation—Strongly irritating.

Exposure. The submitter states that nine workers manufacturing and using the substance will have skin and inhalation exposure for 0.3 to 2 hr/da, 6 to 75 da/yr, at average concentrations of 0 to 10 mg/m³ and peak concentrations of 10 to 100 mg/m³ during transferring and drying operations.

Environmental Release/Disposal. The submitter states that a negligible amount of the new chemical will be released into the air and none into the land and water. Emissions of vapors are passed through a scrubber; combustible liquid and solid wastes are incinerated; spills and scrubber water are processed by a wastewater treatment system.

PMN 81-210

Close of Review Period. July 28, 1981.

Importer's Identity. Claimed confidential business information. Organizational description provided:
Annual sales—In excess of $500 million.
Importing site—Middle Atlantic U.S.
Standard Industrial Classification Code—2865.

Specific Chemical Identity. Claimed confidential business information. Generic name provided: Aromatic disazo dye.

Use. The importer states that the PMN substance will be used in an industrial use as dyestuff for fibers and fabrics.

Import Estimates

	Kilograms per year	
	Minimum	Maximum
1st year	400	600
2d year	1,200	2,000
3d year	2,000	10,000

Physical/Chemical Properties

Appearance—Odorless, yellow granular solid.
Melting point—>300° C.
Decomposition point—>200° C.
Water solubility at 20° C—80 g/l.
pH—(10 g/l) 7.

Environmental Test Data

Biodegradation—10–25% (static method, photometric determination).
Accumulation in fish tissues—None.
48-hour LC_{50} (Killi Fish)—2,360 mg/1.

Toxicity Data

Oral LC_{50} (rat)—>5 g/kg.
Ames test—Negative.
Skin irritation (rabbit)—Slightly irritating.
Eye irritation (rabbit)—Nonirritating.

Exposure. The importer states that at each customer's site, one to three processing workers will have inhalation and skin exposure to the new substance for 2 to 3 hr/da, 70 to 100 da/yr, at an average and peak concentration of 1 to 10 mg/m³ during weighing and transfer operations.

Environmental Release/Disposal. The importer states that at each customer's site, less than 10 kg/yr of the new chemical will be released into the air and from 100 to 1,000 kg/yr released into the water of a waste treatment plant or publicly owned treatment works (POTW) during 2 to 3 hr/da, 75/yr. Dyed yarn waste and fabric trimmings containing trace amounts of the new substance will be incinerated or disposed of by an approved landfill.

PMN 81-211

Close of Review Period. July 28, 1981.

Importer's Identity. Claimed confidential business information. Organizational description provided:
Annual sales—In excess of $500 million.

Generic name provided: Aromatic disazo dye.
Use. The importer states that the PMN substance will be used in an industrial use as dyestuff for fibers and fabrics.

Import Estimates

	Kilograms per year	
	Minimum	Maximum
1st year	400	600
2d year	1,200	2,000
3d year	2,000	10,000

Physical/Chemical Properties

Appearance—Odorless, brown granular solid.
Melting point—>155° C.
Decomposition point—>250° C.
Water solubility at 20° C—70 g/l.
pH—(10g/l) 7–8.

Environmental Test Data

Biodegradation—50–100% (static method, photometric determination).
Accumulation in fish tissues—None.
48-hour LC_{50} (Killi Fish)—3,160 mg/l.

Toxicity Data

Oral LD_{50} (rat)—>10 g/kg.
Ames test—Negative.
Skin irritation (rabbit)—Slightly irritating.
Eye irritation (rabbit)—Slightly irritating.
Inhalation risk (rat)—No deaths after 7-hour exposure.

Exposure. The importer states that at each customer's site, one to three processing workers will have inhalation and skin exposure to the new substance for 2 to 3 hr/da, 70 to 100 da/yr, at an average and peak concentration of 1 to 10 mg/m³ during weighing and transfer operations.

Environmental Release/Disposal. The importer states that at each customer's site less than 10 kg/yr of the new chemical will be released into the air and from 100 to 1,000 kg/yr released into the water of a waste treatment plant or publicly owned treatment works (POTW) during 2 to 3 hr/da, 75 to 100 da/yr. Dyed yarn waste and fabric trimmings containing trace amounts of the new substance will be incinerated or disposed of by an approved landfill.

PMN 81-213

Close of Review Period. July 28, 1981.
Importer's Identity. Claimed confidential business information.
Organizational description provided:
Annual sales—In excess of $500 million.
Importing site—Middle Atlantic U.S.
Standard Industrial Classification Code—2865.
Specific Chemical Identity. Claimed confidential business information.
Generic name provided: Aromatic disazo dye.
Use. The importer states that the PMN substance will be used in an industrial use as dyestuff for fibers and fabrics.

Import Estimates

	Kilograms per year	
	Minimum	Maximum
1st year	400	600
2d year	1,200	2,000
3d year	2,000	10,000

Physical/Chemical Properties

Appearance—Odorless, brown granular solid.
Melting point—>300° C.
Decomposition point—>200° C.
Water solubility at 20° C—90 g/l.
pH—(10g/l) 7.

Environmental Test Data

Biodegradation—<10% (static method photometric determination).
Accumulation in fish tissues—None.
48-hour LC_{50} (Killi Fish)—795 mg/l.

Toxicity Data

Oral LD_{50} (rat)—>6.8 g/kg.
Ames test—Negative.
Skin irritation (rabbit)—Slightly irritating.
Eye irritation (rabbit)—Nonirritating.

Exposure. The importer states that at each customer's site, one to three processing workers will have inhalation and skin exposure to the new substance for 2 to 3 hr/da, 70 to 100 da/yr, at an average and peak concentration of 1 to 10 mg/m³ during weighing and transfer operations.

Environmental Release/Disposal. The importer states that at each customer's site less than 10 kg/yr of the new chemical will be released into the air and from 100 to 1,000 kg/yr released into the water of a waste treatment plant or publicly owned treatment works (POTW) during 2 to 3 hr/da, 75 to 100 da/yr. Dyed yarn waste and fabric trimmings containing trace amounts of the new substance will be incinerated or disposed of by an approved landfill.

JRB Associates, Inc.; Transfer of Data to Contractor

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: EPA's contractor, JRB Associates, Inc. (JRB) of McLean, Virginia, is assisting the agency in the review and utilization of information related to epidemiology and toxicology which is submitted under sections 5 and 8 of the Toxic Substances Control Act (TSCA). Some of this information may be claimed to be confidential.

DATE: The transfer of information to JRB will begin no sooner than June 12, 1981.

FOR FURTHER INFORMATION CONTACT: John B. Ritch, Jr., Director, Industry Assistance Officer (TS–799), Office of Toxic Substances, Environmental Protection Agency, 401 M St., SW., Washington, D.C. 20460, Toll Free: (800–424–9065), In Washington: (202–544–1404).

SUPPLEMENTARY INFORMATION: Under section 5 of TSCA, manufacturers and importers are required to submit Premanufacturer Notices (PMN's) which may include health and safety studies. JRB will assist in the review of epidemiologic data of the PMN's. Under section 8(a), EPA may obtain certain types of existing information from industry on specified chemicals, including data on exposure, recordkeeping, production, manufacturing and use levels, and number of workers exposed. JRB will assist in the use of this information to determine the feasibility of epidemiologic studies to be sponsored by EPA or by industry through the authority of section 4 of TSCA.

Pursuant to 40 CFR 2.306(j), EPA has determined that in certain instances it will be necessary for JRB to have access to confidential business information to satisfactorily perform its work under this contract. In accordance with provisions of its contract, No. 68–01–6280, with EPA, JRB is required to safeguard from any unauthorized disclosure the confidential business it received from EPA. Information generated by JRB from its review of confidential business information will also be treated as confidential.

JRB has been authorized under the EPA TSCA Confidential Business Information Security Manual to have access to confidential business information. EPA has approved JRB's facilities and found them to be in compliance with the requirements of the Security Manual. JRB is required to treat all TSCA confidential business information in accordance with the requirements of that manual, and its personnel will be required to sign a nondisclosure agreement before they are permitted access to such information.

(Secs. 5 and 8, 90 Stat. 2002 (15 U.S.C. 2601 et seq.; Pub. L. 94–469))

Reuter Laboratories, Inc.; Filing of Pesticide Petition

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: This notice announces that Reuter Laboratories, Inc., has submitted a pesticide petition proposing that an exemption from the requirement of a tolerance be established for insecticide *Nosema locustae.*

ADDRESS: Written comments to: Franklin D. R. Gee, Product Manager (PM) 17, Registration Division (TS–767), Office of Pesticide Programs, Environmental Protection Agency, 401 M St. SW., Washington, D.C. 20460.

Written comments may be submitted while a petition is pending before the agency. The comments are to be identified by the document control number "[PF–228]" and the petition number 1F2491. Written comments filed pursuant to this notice will be available for public inspection in the product manager's office from 8:00 a.m. to 4:00 p.m., Monday through Friday, except legal holidays.

FOR FURTHER INFORMATION CONTACT: Franklin D. R. Gee (703–557–7028).

SUPPLEMENTARY INFORMATION: EPA gives notice that Reuter Laboratories, Inc., 2405 James Madison Highway, Haymarket, VA 22069 has submitted a pesticide petition proposing that 40 CFR Part 180 be amended by establishing an exemption from the requirement of a tolerance for the insecticide *Nosema locustae* when applied to all raw agricultural commodities.

(Sec. 408(d)(1), 68 Stat. 512, (7 U.S.C. 136))

BILLING CODE 6560–32–M

[OPTS–59051; TSH–FRL–1843–5]

Surface Modified Silica; Premanufacture Exemption Application

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: Section 5(a)(1)(A) of the Toxic Substances Control Act (TSCA) requires any person intending to manufacture or import a new chemical substance for a commercial purpose in the United States to submit a premanufacture notice (PMN) to EPA at least 90 days before he commences such manufacture or import. Under section 5(h) the Agency may, upon application, exempt any person from any requirement of section 5 to permit such person to manufacture or process a chemical for test marketing purposes. Section 5(h)(6) requires EPA to issue a notice of receipt of any such application for publication in the **Federal Register.** This notice announces receipt of an application for an exemption from the premanufacture reporting requirements for test marketing purposes and requests comments on the appropriateness of granting the exemption.

DATE: The Agency must either approve or deny this application by June 27, 1981. Persons should submit written comments on the application no later than June 17, 1981.

ADDRESS: Written comments to: Document Control Officer (TS–793), Management Support Division, Office of Pesticides and Toxic Substances, Environmental Protection Agency, Rm. E–401, 401 M St., SW., Washington, DC 20460 (202–426–2610).

FOR FURTHER INFORMATION CONTACT: Michael Brown, Chemical Control Division (TS–794), Office of Toxic Substances, Environmental Protection Agency, Rm. E–335, 401 M St., SW., Washington, DC 20460 (202–755–1150).

SUPPLEMENTARY INFORMATION: Under section 5 of TSCA (90 Stat. 2012 (15 U.S.C. 2604)), any person who intends to manufacture or import a new chemical substance for commercial purposes in the United States must submit a notice to EPA before the manufacture or import begins. A "new" chemical substance is any chemical substance that is not on the Inventory of existing chemical substances compiled by EPA under section 8(b) of TSCA. EPA first published the initial Inventory on June 1, 1979. Notices of availability of the Inventory were published in the **Federal Register** on May 15, 1979 (44 FR 28558-Initial) and July 29, 1980 (45 FR 50544-Revised). The requirement to submit a PMN for new chemical substances manufactured or imported for commercial purposes became effective on July 1, 1979.

Section 5(a)(1) requires each PMN to be submitted in accordance with section

5(d) and any applicable requirement of chemical substances that are subject to testing rules under section 4. Section 5(b)(2) requires additional information in PMN's for substances which EPA, by rules under section 5(b)(4), has determined may present unreasonable risks of injury to health or the environment.

Section 5(h), "Exemptions," contains several provisions for exemptions from some or all of the requirements of section 5. In particular, section 5(h)(1) authorized EPA, upon application, to exempt persons from any requirement of section 5(a) or section 5(b) to permit the persons to manufacture or process a chemical substance for test marketing purposes. To grant such an exemption, the Agency must find that the test marketing activities will not present any unreasonable risk of injury to health or the environment. EPA must either approve or deny the application within 45 days of its receipt, and the Agency must publish a notice of its disposition in the **Federal Register**. If EPA grants a test marketing exemption, it may impose restrictions on the test marketing activities.

Under section 5(h)(6), EPA must publish in the **Federal Register** a notice of receipt of an application under section 5(h)(1) immediately after the Agency receives the application. The notice identifies and briefly describes the application (subject to section 14 confidentiality restrictions) and gives interested persons an opportunity to comment on it and whether EPA should grant the exemption. Because the Agency must act on the application within 45 days, interested persons should provide comments within 15 days after the notice appears in the **Federal Register**.

EPA has proposed Premanufacture Notification Requirements and Review Procedures published in the **Federal Register** of January 10, 1979 (44 FR 2242) and October 16, 1979 (44 FR 59764) containing proposed premanufacture rules and notice forms. Proposed 40 CFR 720.15 (44 FR 2268) would implement section 5(h)(1) concerning exemptions for test marketing and includes proposed 40 CFR 720.15(c) concerning the section 5(h)(6) **Federal Register** notice. However, these requirements are not yet in effect. In the meantime, EPA has published a statement of Interim Policy published in the **Federal Register** of May 15, 1979 (44 FR 28564) which applies to PMN's submitted prior to the promulgation of the rules and notice forms.

Interested persons may, on or before June 17, 1981 submit to the Document Control Officer (TS-793), Management Support Division, Office of Pesticides and Toxic Substances, Rm. E-401, 401 M St., SW., Washington, DC 20460, written comments regarding this notice. Three copies of all comments shall be submitted, except that individuals may submit single copies of comments. The comments are to be identified with the document control unmber "[OPTS-59051]." Comments received may be seen in Rm. E-401 at the above office between 8:00 a.m. and 4:00 p.m., Monday through Friday excluding legal holidays.

(Sec. 5, 90 Stat. 2012 (15 U.S.C. 2604))

Dated: May 27, 1981.

Edward A. Klein,

Director, Chemical Control Divisions

TM 81-12

The following summary is taken from data submitted by the manufacturer in the test marketing exemption application.

Close of Review Period. June 27, 1981.

Manufacturer's Identity. Claimed confidential business information.

Specific Chemical Identity. Claimed confidential business information. Generic name provided: Organohalo-modified silica.

Use. Industrial elastomer additive.

Production Estimates. The manufacturer states that 470 kg of the substance will be manufactured for test marketing purposes.

Physical/Chemical Properties. No data were submitted.

Toxicity Data. (Based on analogous substance).

LD_{50}—>5 gm/kg.

Exposure. The manufacturer states that skin and inhalation exposure may occur involving six workers during manufacture and four during processing with average and peak concentrations of 1.1 and 1.65 mg/m^3 respectively.

Environmental Release/Disposal. The submitter states that up to 57 kg of the new substance may be released into the air and up to 64 kg to land during manufacturing of the new substance.

[FR Doc. 81-16353 Filed 6-1-81; 8:45 am]

BILLING CODE 6560-31-M

[OPTS 50029; TSH-FRL-1843-2]

Versar, Inc.; Transfer of Data to Contractor

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of Data Transfer.

SUMMARY: EPA will transfer to its contractor, Versar, Inc. of Springfield, Virginia, information which has been or will be submitted by manufacturers and importers under sections 5, 8(a), and 8(b) of the Toxic Substances Control Act (TSCA). Some of the information may be claimed to be confidential. Versar will review this information and use it to produce exposure assessments of premanufacture chemicals, chemicals which may require testing to determine risk, and chemicals which may require regulation.

DATE: The transfer of data submitted to EPA and claimed to be confidential will occur no sooner than June 17, 1981.

FOR FURTHER INFORMATION CONTACT: John B. Ritch, Jr., Director, Industry Assistance Office, Office of Toxic Substances, Environmental Protection Agency, 401 M St., SW., Washington, D.C. 20460, Toll-free: (800-424-9065). In Washington, D.C. (554-1404).

SUPPLEMENTARY INFORMATION: Under TSCA, EPA must determine whether or not certain chemical substances or mixtures may present an unreasonable risk of injury to health or the environment from their manufacture, processing, distribution in commerce, use, or disposal. As a component of the unreasonable risk determination, the agency must determine whether or not there is potential for human or environmental exposure to the substances or mixtures in question. To accomplish this, EPA will require the assistance of outside experts. EPA has selected Versar, Inc. of Springfield, Virginia, to assist it in determining if there is potential human or environmental exposure to certain chemical substances or mixtures (Contract No. 68-01-6271).

Under 40 CFR 2.306(j), EPA has determined that it may need to disclose Confidential Business Information to Versar, Inc. Under the terms of the contract, EPA will provide Versar with information submitted in Premanufacturing Notices (PMN's) on chemical identity, product formulation, and specific processes used to manufacture or process new chemical substances, as well as other information related to the uses, release rates, and exposure levels of new chemical substances. In addition, EPA will provide Versar with similar information on chemical substances obtained from the TSCA Initial Inventory of Chemical Substances [section 8(b)] and submissions under prospective section 8(a) rules.

Versar is legally required under the terms of its contract to safeguard from any unauthorized disclosure the confidential business information it reviews. Any reports it prepares using this information will also be treated as confidential.

Since Versar will review information claimed to be confidential, EPA is publishing this notice to inform all submitters of PMN's, inventory [section 8(b)], and section 8(a) information that Versar will receive Confidential Business Information from EPA. After completing the exposure assessments, Versar will return the Confidential Business Information to EPA.

Versar's security plan and facilities have been inspected by EPA and found to be in compliance with the TSCA Confidential Business Information Security Manual. Versar is required to treat all TSCA confidential business information in accordance with the requirements of that manual, and its personnel will be required to sign a nondisclosure agreement before they are permitted access to such information.

Dated: May 5, 1981.

Warren R. Muir,

Deputy Assistant Administrator for Toxic Substances.

[FR Doc. 81-16356 Filed 6-1-81; 8:45 am]

BILLING CODE 6560-31-M

[PH-FRL-1841-8; OPP-00141]

FIFRA Scientific Advisory Panel; Open Meeting

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of meeting.

SUMMARY: There will be a three-day meeting of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA) Scientific Advisory Panel to present decision options being considered by the agency to conclude the rebuttable presumptions against registration (RPAR) on creosote, inorganic arsenicals, and pentachlorophenol (wood preservatives) (46 FR 13020, Feb. 19, 1981). The meeting will be open to the public.

DATES: Wednesday through Friday, June 17–19, 1981, from 8:30 a.m. to 5:00 p.m.

ADDRESS: The meeting will be held at the: Hospitality House, 2000 Jefferson Davis Highway, Arlington, VA 22202.

FOR FURTHER INFORMATION CONTACT: Philip H. Gray, Jr., Executive Secretary, FIFRA Scientific Advisory Panel (TS-766C), Office of Pesticide Programs, Rm. 915D, CM#2, 1921 Jefferson Davis Highway, Arlington, VA 22202. (703-557-0825).

SUPPLEMENTARY INFORMATION: The agenda for this meeting is:

1. Presentation of the decision options being considered by the agency to conclude the RPARs on creosote, inorganic arsenicals, and pentachlorophenol.

2. Completion of any unfinished business from previous Panel meetings.

3. In addition, the agency may present status reports on other ongoing programs of the Office of Pesticide Programs.

Copies of draft documents concerning item 1 may be obtained by contacting: Joan Warshawsky, Special Pesticides Review Division (TS-791), Rm. 711B, CM#2, 1921 Jefferson Davis Highway, Arlington, Va 22202 (703-557-7460).

Interested persons wishing to attend or submit a paper should contact Philip H. Gray, Jr., at the address or phone number listed above to conform the meeting and agenda. Interested persons are permitted to file written statements before or after the meeting, and may, upon advance notice to the Executive Secretary, present oral statements to the extent that time permits. All statements will be made part of the record and will be taken into consideration by the Panel in formulating comments or in deciding to waive comments. Persons wishing to make oral statements must notify the Executive Secretary and submit the required number of copies of a summary no later than June 15, 1981.

Individuals who wish to file written statements are advised to contact the Executive Secretary in a timely manner to be instructed on the format and the number of copies to submit to ensure appropriate consideration by the Panel.

The tentative dates for the next Scientific Advisory Panel meeting are July 15–17, 1981.

(Sec. 25(d) FIFRA, as amended)

Dated: May 21, 1981.

Edwin L. Johnson,

Deputy Assistant Administrator for Pesticide Programs.

BILLING CODE 6712-01-M

[FCC 81-255; CC Docket No. 80-766; Transmittal Nos. 191 and 273]

RCA American Communications, Inc.; Revisions to Tariff F.C.C. Nos. 1 and 2

By the Commission: Chairman Fowler abstaining from voting; Commissioner Fogarty concurring in the result; Commissioner Jones absent.

In the matter of RCA American Communications, Inc., Revisions to Tariff F.C.C. Nos. 1 and 2; FCC 81-255; CC Docket No. 80-766; Transmittal Nos. 191 and 273; (46 FR 11030); Memorandum Opinion and Order.

Adopted: May 21, 1981.

Released: May 26, 1981.

1. We instituted this proceeding to investigate revisions to Tariff Nos. 1 and 2 filed by RCA American Communications, Inc. (RCA Americom) under the above transmittals. *RCA American Communications, Inc.*, 84 FCC 2d 353 (1980). The revisions, which we suspended for five months, would restructure RCA Americom's domestic satellite service offerings and substantially increase rates. Having examined the proposed tariff structure changes in light of the comments submitted by the parties to this investigation, we find the revisions to be unjust and unreasonable in violation of Section 201(b) of the Communications Act, 47 U.S.C. 201(b).[1] For this reason, we will not allow these revisions to become effective.

I. Background

2. Since 1976, RCA Americom has operated a two-satellite system providing video and private line services for commercial, government, and broadcast uses. The system provides among other things, service to many cable television (CATV) distributors through a network of receive-only earth stations.

3. In 1978, RCA Americom filed its currently effective tariff providing for fixed term transponder services. It features, among other things, full-time non-preemptible, unprotected service with a ten-year term ending in 1988 and an option to upgrade to protected service; full-time preemptible service with either a one-year or a 1983 term; and part-time daily service with a 1988 term.[2] These services are offered to the general public under Tariff No. 1 and to other common carriers under Tariff No. 2.

4. Under its Transmittal No. 191, filed on April 1, 1980, RCA Americom proposes, among other things, to: (1)

[1] RCA Americom has submitted a direct case, to which responsive comments have been filed by the Ad Hoc Telecommunications Users Committee (the Committee); the Christian Broadcast Network, Inc. (CBN); Eastern Microwave, Inc. (EMI); Heritage Village Church and Missionary Fellowship, Inc. (PTL TV); American Broadcasting Companies, Inc., CBS Inc., and National Broadcasting Company, Inc. (the Networks); Showtime Entertainment (Showtime); Southern Pacific Communications Co. (SPCC); Southern Satellite Systems, Inc. (Southern); and Spanish International Network, Inc. (Spanish). RCA Americom has replied to these comments.

[2] This filing was initially set for investigation in *RCA American Communications, Inc.*, Docket No. 78-68, 69 FCC 2d 428 (1978). The investigation was deferred, however, pending completion of our rulemaking proceeding in the *Competitive Carrier Rulemaking*, Docket No. 79-252, 77 FCC 2d 308 (1979); *Further Notice of Proposed Rulemaking*, 84 FCC 2d 445 (1981).

replace the 1988 and 1983 Term services with shorter terms ending in 1986 and 1982, respectively; (2) eliminate the unprotected and preemptible grades of service under the 1986 Term when back-up facilities are available and instead provide only the more costly protected grade of service; (3) eliminate the one-year term service; (4) increase the carrier's rates and rate of return; (5) lengthen the renewal notice periods from the present thirty days to two years for the 1986 Term service and one year for the 1982 service; and (6) replace the schedule of termination charges currently imposed for premature cancellation with non-cancellable service, thereby holding the customer liable for all charges for the balance of the term. Prior to our suspension, the revisions were scheduled to become effective on December 26, 1980.

5. In our order of investigation, we stated that we would initially focus on the proposed changes in tariff structure, and later, if warranted, would consider issues relevant to the proposed changes in rates. Also, to facilitate our determination of lawfulness, we asked parties to comment on the circumstances under which a carrier may reasonably alter a long term service tariff prior to the expiration of the terms set out in the tariff. The following issues were then set for investigation (84 FCC 2d at 364):

(1) What justification should be submitted by a dominant carrier proposing to alter a long term service tariff?

(2) Whether the changes proposed by RCA Americom in Transmittal 191 in the structure of its Tariffs F.C.C. Nos. 1 and 2, including the proposed changes in the length of the service terms, the termination liability, the elimination of certain grades of service, the requirement that certain customers upgrade their service, and the increase in the length of the renewal notice periods, would be just and reasonable and otherwise lawful under the tentative standard that a carrier may alter a long term service tariff only in accordance with the tariff itself or if it demonstrates that substantial cause exists to change the existing tariff terms?

(3) Whether the changes proposed by RCA Americom in its tariff structure are just and reasonable and otherwise lawful?

With respect to the second and third issues, the burden of introduction of evidence and burden of proof were placed on RCA Americom.

6. On March 3, 1981, as part of its direct case, RCA Americom filed Transmittal No. 273 containing revised pages to Tariff Nos. 1 and 2 to become effective June 25, 1981. The filing would, accordingl to RCA Americom, remove the elements of the revisions filed under Transmittal No. 191 that the Commission had questioned in this investigation. In pertinent part, it would restore the unprotected grade of service to the 1986 Term and add a preemptible grade of service to the 1982 term; allow a credit to the termination liability of a prematurely cancelling customer if RCA Americom is able to find a suitable replacement; and, lastly, change the renewal periods for both the 1982 and 1986 Term service to six months. EMI and Southern ask us to reject or suspend these latest revisions.

II. Discussion

A. Alteration of Long Term Service Tariffs

7. We turn first to the comments on the proper standard for judging the reasonableness under Section 201(b) of changes to long term service tariffs.[3] In our designation order, we expressed concern over the apparent unfairness of allowing a dominant carrier to freely change the terms of such a tariff at any time without cause, even though customers would remain bound by all provisions until the end of the service term. Accordingly, we asked for comment on whether and under what circumstances carrier-initiated changes to material provisions during a term would be just and reasonable.

8. In response, RCA Americom argues that the regulatory framework established by the Act bestows on carriers a legal right to unilaterally change tariffs which they have filed on their own initiative. Carriers, it says, are not required to obtain prior Commission approval before making changes in rates and practices or offering new services. Significantly, though, RCA Americom does not oppose application of the reasonableness standard we suggested in the designation order, namely, that a carrier may alter a long term tariff only in accordance with the terms of the tariff itself, or if it demonstrates that substantial cause exists to change the existing terms. Since the carrier foresees this policy change being ultimately incorporated into our Rules as a result of this investigation, it asks us to do so only after further notice and comment and with sufficient opportunity for all affected carriers to make suitable tariff revisions reflecting this new policy. Therefore, RCA Americom requests a grace period before any new rules are allowed to become effective.

9. Those parties expressing an opinion on the question of when changes to a long term tariff are reasonable, generally agree with our suggested standard permitting changes in accordance with the tariff itself. The parties differ, however, on the level of justification required in the absence of such a provision. EMI, for instance, suggests that any revision must initially be judged by some objective standard such as "just and reasonable" so as to protect the public against unreasonable carrier conduct. Without such a standard it is fearful that changes would be justified solely by timely tariff filings or inventive showings of substantial cause. PTL TV advocates our employing traditional concepts of fairness and proposes a standard of whether, under all of the circumstances, the carrier has established by a preponderance of the evidence that the proposed changes are equitable.

10. Other parties propose more stringent levels of justification. The Committee, the Networks, and Spanish recommend a demonstration by the carrier of unique, direct, and compelling public interest considerations as part of a threshold showing warranting a change. To illustrate, they acknowledge that a tariff change could be necessary to protect the continued availability of essential facilities used for national security purposes. If the threshold showing is made, these parties would further require the carrier to demonstrate by clear and convincing evidence after a hearing pursuant to Section 205 of the Communications Act, 47 U.S.C. § 205, that the Commission should prescribe rates and conditions different from those to which the carrier had been committed.

11. CBN and Showtime take a somewhat different approach. in CBN's view, "substantial cause" exists only where, due to changed circumstances, continuation of the existing tariff provisions would be confiscatory, or would result in a net reduction in service to the public. It states that this standard would allow the Commission to insure that neither the carrier nor the public would suffer any irreparable loss. Showtime suggests that "substantial cause" would arise if the former tariff was so unrenumerative as to be contrary to the public interest.

12. Our own analysis begins with the proposition that the statutory scheme permits carriers to initiate proposed

[3] Section 201(b) provides in pertinent part, "All charges, practices, classifications, and regulations for and in connection with such communication service, shall be just and reasonable, and any such charge, practice, classification, or regulation that is unjust or unreasonable is hereby declared to be unlawful * * *."

changes to their tariffs. See *AT&T v. FCC*, 487 F.2d 864 (2d Cir. 1973). Such changes subsequently become effective unless the Commission determines, either on its initial review or after hearing, that the new provisions are unjust, unreasonable, or otherwise unlawful. It is not our intent here to modify this statutory framework, as RCA Americom seems to suggest. To the contrary, we seek only to ascertain reasonableness where a carrier provides service under a comprehensive, contract-like tariff scheme, and later seeks to modify material provisions during the term specified in the tariff. For example, a carrier's original decision to offer customers the option of obtaining service for a particular term, say six years, is of less concern than where a dominant carrier seeks to alter the length of a term, or other material provision midstream. Our statutory responsibilities dictate that we take into account the position of the relying customer in evaluating the reasonableness of the change.[4] In somewhat analogous circumstances, we have considered other notions of customer fairness, *RCA American Communications, Inc.*, 84 FCC 2d 781 (1981); *MCI Telecommunications Corp.*, Mimeo No. 25862, released February 7, 1980, *aff'd* 81 FCC 2d 568 (1980). *See also Penn. v. ICC*, 590 F.2d 1187 (D.C. Cir. 1978), where the court approved the I.C.C.'s balancing of the competing interests of customers and carriers in considering the reasonableness of a proposed tariff revision terminating service to a number of previously operating terminals; *Livestock, South, Southwest, Central and Western Territories*, 346 I.C.C 418 (1974); *Icing Service, U.S. Railroads*, 343 I.C.C. 67 (1973); *Amoco Production Co. v. FPC*, 491 F2.d 916 (10th Cir. 1973).

13. This brings us to the question of the justification which we would expect a dominant carrier to provide in these circumstances. In balancing the carrier's right to adjust its tariff in accordance with its business needs and objectives against the legitimate expectations of customers for stability in term arrangements, we conclude that the reasonableness of a proposal to revise material provisions in the middle of a term must hinge to a great extent on the carrier's explanation of the factors necessitating the desired changes at that particular time.[5] If a carrier can make a showing of substantial cause, its decision to alter tariff terms will be considered reasonable. As for the first part of our suggested standard where we state that a carrier may revise its tariff in accordance with its terms, we need not speculate on what kinds of provisions if included in a tariff at the onset of a term might give the carrier greater license to make subsequent modifications. We nevertheless note that the mere presence of some sweeping reservation to unilaterally change any and all terms and conditions of service will not serve to lessen our original concerns.[6]

B. Reasonableness of the Proposed Revisions

14. Against this background, we now consider the specific changes in tariff structure submitted in both Transmittal Nos. 191 and 273. To repeat, taken as a whole, RCA Americom has proposed extensive revisions to its current service offerings, the most significant of which relate to the length of the service terms, the termination liability, the elimination of certain grades of service, the requirement that some customers upgrade their service, and the length of the notice periods for renewal.

15. In our designation order we expressed concern that RCA Americom's justification for the substantial changes proposed was inadequate and should be put to the test of an investigation. Rather than using the opportunity to demonstrate that the revisions are just and reasonable, however, RCA Americom has essentially relied on the amended pages in Transmittal No. 273 for its direct case. As explained earlier, this transmittal was filed concurrently with the carrier's direct case and was intended to be incorporated there. RCA Americom insists that this latest filing moots the issues we raised in the designation order. Since their newest revisions have been linked to this proceeding by RCA Americom and commented upon by the parties, we think it is appropriate to consider their lawfulness in this investigation as well.

1. Reductions in length of service

16. RCA Americom proposes to eliminate its 1988 Term service, originally offered in 1978, and replace it with a 1986 Term service that would terminate on December 31, 1986. Similarly, the carrier seeks to replace its 1983 Term service with one ending on December 31, 1982. RCA Americom claims the change is prompted by its inability to accurately forecast the costs of service for a ten-year period. The carrier adds that the two-year term was added expressly to provide an option for customers seeking a shorter commitment.

17. Under the circumstances, a six-year and a two-year term of service do not, in and of themselves, strike us as unreasonable on their face. Both carrier and customer alike desire stability and continuity of service. Customers with established needs may well favor longer terms, but the option of a shorter term is available when future business plans are unclear. The carrier, on the other hand, benefits from the administrative convenience and financial security of a longer commitment and is willing to charge lower rates than for shorter term service.

18. The fatal flaw in the instant case, however, is that there is no showing of substantial cause to reduce the length of the service term *at this time*. It does not follow from the carrier's asserted difficulties in predicting costs over a ten-year period that it must shorten the 1983 Term service or eliminate the one-year and part-time daily services which it currently offers. And to the extent RCA Americom also would find support for its proposal in a claim that its service costs have increased, it has not attempted to demonstrate with particularity how these increased costs have necessitated changes in the length of the ten-year service term. Moreover,

[4] The Commission has found domestic satellite carriers such as RCA Americom to be dominant, that is, to have the ability to control prices. *Competitive Carrier Rulemaking*, Docket No. 79-252, *First Report and Order*, 85 FCC 2d 1 (1980). We are, however, currently reexamining the proper regulatory treatment of satellite carriers. *Further Notice of Proposed Rulemaking* 84 FCC 2d 445 (1980). Nevertheless, for the time being it is dominant and we consider the revisions here only within the context of the present regulatory framework for such carriers.

[5] This type of scrutiny is particularly important in a market situation where customer choice is now severely limited and unjustified changes to long term tariffs could operate to restrict customer choice when the market does become more competitive as we envision.

[6] We have not ignored RCA Americom's suggestion that any standards developed be included as part of a rulemaking proceeding to give all potentially affected parties adequate notice and an opportunity to comment, nor the carrier's suggestion that we allow a grace period before any new rule adopted here becomes effective in order to permit affected carriers to make appropriate adjustments to their current tariffs. As noted earlier, the suggestion that we institute a separate rulemaking proceeding has already been considered and rejected by the Common Carrier Bureau. Mimeo No. 07106, released February 9, 1981. The Bureau reasoned that since this proceeding was designed only to determine the lawfulness of specific proposed revisions, consolidating the investigation with a broad rulemaking proceeding would be unwise and cause unnecessary delays. We see no basis to reconsider that decision here. In any event, RCA Americom continues to view our inclusion of this issue as a precursor to restructuring our Rules. To the contrary, our intent was merely to exercise care, by considering other views, in applying Section 201(b) of the Act to somewhat novel circumstances. Since we are neither amending our Rules nor adopting new policies, we see no need for a grace period to allow carriers to change their tariffs.

any difficulties in predicting costs over an extended period, for example, can be more simply and painlessly remedied merely by offering shorter renewal lengths. Indeed, the carrier has failed to offer any persuasive evidence to support these proposed revisions even though customers have indicated that these changes will adversely affect their well-established business plans and programming decisions. We therefore find that RCA Americom's reduction of the length of service has not been justified, and hence, is unlawful under Section 201(b) of the Act.

2. Elimination of unprotected and preemptible grades of service

19. RCA Americom's original revision would have eliminated the unprotected and preemptible grades of service when facilities became available under its 1986 Term, leaving only the more costly protected service. The carrier's latest filing, however, would restore these service grades to the 1986 Term. Under the circumstances, the carrier's willingness to continue its unprotected and preemptible service offerings makes it unnecessary to consider the reasonableness of the change originally proposed.[7]

3. Prohibition upon customer termination of service

20. Another of RCA Americom's proposed revisions would eliminate the termination charge currently imposed for the premature cancellation of service, and instead hold the customer liable for all charges remaining in the balance of the term. In other words, under this scheme, the cancelling customer, rather than the carrier, would effectively have the burden of finding another customer. According to RCA Americom's most recent proposal, the carrier would assume greater responsibility for finding a suitable replacement customer and an appropriate credit would be issued against the charges owing for the remainder of the term.

21. Several parties have questioned the inherent reasonableness of the new termination liability plan. Southern states that although the carrier's latest modification mitigates to some extent the patent unlawfulness of the original proposal, it could still leave customers in the position of having to pay unreasonably high termination charges. Southern's primary complaint, in which EMI and SPCC join, is that even RCA Americom's revised scheme would unjustly enrich the carrier for services not rendered. Rather than merely reimbursing the carrier for administrative and other nonrecoverable costs resulting from premature transponder cancellation, the parties argue that the proposed scheme would allow RCA Americom a profit margin as well.

22. RCA Americom, however, views this provision as a necessary protection in the face of future satellite competition against premature abandonment of service by long term customers. Any customer not desiring the long term commitment, states the carrier, can simply opt for the shorter term. As a second reason, RCA Americom explains that an unexpected increase in satellite launch costs caused by the delay of the NASA space shuttle have forced it to devise some means of assuring that all transponders would continue to be filled for the lengths of the terms. Such a guarantee, according to the carrier, would enable it to seek a smaller rate increase for its services than would otherwise be required.

23. As a separate matter, RCA Americom argues that the parties fail to realize that the cost of capital is a legitimate business expense. If deprived a return on investment in satellite facilities, it explains, it would be unable to pay the interest charges on outstanding debts or provide a return to shareholders. Moreover, RCA Americom points out that even when a customer cancels, the carrier must continue to bear the full cost of the satellite on which service was provided. For these reasons, RCA Americom maintains it reasonably can claim the full tariffed rates until a replacement customer is found.

24. The foregoing explanation, however, is insufficient to justify why the carrier must revise its termination liability scheme at this time. Nowhere has RCA Americom provided a particularized showing that the current fixed liability scheme inadequately compensates it now for present costs associated with a prematurely cancelling customer. Clearly, the mere prospect of competition sometime in the future, without more, is insufficient to support the revisions here.

25. RCA Americom's generalized assertion of rising costs, absent more, is unpersuasive when balanced against the obvious harm to existing long term customers. Under the present scheme, for example, customers subscribing to the 1988 Term would be free of any termination liability after July 31, 1984. Those customers would then be unrestrained to leave RCA Americom and pursue arrangements with other carriers on perhaps more favorable terms. Under the proposed revisions, however, those same customers planning to terminate after July 31, 1984 could, for the first time, face a liability totaling millions of dollars.[8] For all these reasons, therefore, we find that RCA Americom has failed to demonstrate the lawfulness of this revision under Section 201(b) of the Act.

4. Notice of renewal periods

26. Under RCA Americom's existing tariff, customers wishing to renew their service term need only give the carrier thirty days' written notice. The proposed revisions, however, contain a two-year advance notice period under the 1986 Term and a one-year provision under the 1982 Term. We expressed concern in the designation order over the carrier's lack of justification of these changes. RCA Americom's most recent filing would change these notice periods to six months under both terms.

27. RCA Americom submits that while it is difficult to predict future market conditions, the length of the renewal notice period is a decision that the carrier is entitled to make as a matter of its discretion. Nevertheless, it states the change to six months was made in an effort to moot the controversy on this issue.

28. We recognize the difficulty in predicting future market conditions and the carrier's understandable need for advance notice of a customer's decision whether or not to renew its transponder service. The parties have raised no serious objection to the six-month renewal period and the provision does not strike us as unreasonable. While the carrier has made no specific arguments supporting the proposed revision we agree with its general allegation that the domestic satellite market is uncertain and that with the arrival of recently authorized entrants into the satellite market, a thirty-day notice period would not give the carrier sufficient time to avoid a possible revenue loss. For all these reasons we find there is cause for RCA Americom to alter its notice of renewal periods to six months. Accordingly, we will allow the carrier to refile this provision pursuant to § 61.58 of our Rules, 47 CFR 61.58, on five-days notice.

III. RATE ISSUES

29. The suspended tariff revisions also would have increased rates and the

[7] RCA Americom is of the opinion that all customers will subscribe to the protected grade. If this judgment proves correct, it may again seek to eliminate the other service grades.

[8] A customer subscribing to RCA Americom's proposed 1986 Term service terminating on August 1, 1984 would be liable for more than four million dollars in liability.

carrier's rate of return. We decided in the designation order to defer consideration of these rate issues while we investigated the proposed changes in tariff structure. We indicated that once the structure issues were decided, we would examine the lawfulness of the rate proposals, if warranted. 84 FCC 2d at 363.[9] In light of our findings of unlawfulness here, however, we need not consider the proposed changes in rates. Since these rates are inextricably linked to the proposed service terms which are different than the carrier's existing terms, they, too, cannot be allowed to become effective.[10]

30. Accordingly, IT IS ORDERED, That the revisions to Tariff F.C.C. Nos. 1 and 2 filed by RCA Americom Communications, Inc. under Transmittal No. 273 are incorporated into this investigation.

31. It is further ordered, pursuant to Section 61.36 of the Rules, 47 CFR 61.36 and Sections 4 (i) and (j) of the Communications Act, 47 U.S.C. 4 (i), (j), That the tarriff pages submitted under Transmittal Nos. 191 and 273 will be returned to RCA Americom Communications, Inc.

32. It is further ordered, That this proceeding in Docket No. 80–766 is hereby terminated.

33. It is further ordered, That a copy of this Order shall be published in the **Federal Register**.

34. It is further ordered, That this Order is effective upon adoption.

Federal Communications Commission,

William J. Tricarico,

Secretary.

[Report No. B–23]

TV Broadcast Applications Accepted for Filing and Notification of Cut-Off Date

Released: May 28, 1981.

Cut-off date: July 13, 1981.

Notice is hereby given that the applications listed in the attached appendix are accepted for filing. Because the applications listed in the attached appendix are in conflict with applications which were accepted for filing and listed previously as subject to a cut-off date for conflicting applications, no application which would be in conflict with any application listed in the attached appendix will be accepted for filing.

Petitions to deny the applications listed in the attached appendix and minor amendments thereto must be on file with the Commission not later than the close of business on July 13, 1981. Any application previously accepted for filing and in conflict with any application listed in the attached appendix may also be amended as a mater of right not later than the close of business on July 13, 1981. Amendments filed pursuant to this notice are subject to the provisions of § 73.3572(b) of the Commission's Rules.

Federal Communications Commission.

---

[9] We note that RCA Americom has made no attempt pursuant to Section 204(b) of the Act, 47 U.S.C. 204(b), to persuade the Commission that separately allowing the proposed rate increases to become effective would be "just fair and reasonable."

[10] EMI has filed a petition for reconsideration of our designation order in which it seeks rejection of RCA Americom's proposed revisions. Since Section 1.106(a) of our Rules, 47 CFR 1.106(a), does not provide for the filing of petitions for reconsideration of designation orders except in narrowly defined circumstances not relevant here, EMI's petition is dismissed. See *ITT World Communications, Inc.*, Docket No. 80–339, FCC 81–164, released April 17, 1981.

FEDERAL MARITIME COMMISSION

Agreement Filed

Notice is hereby given that the following agreement has been filed with the Commission for review and approval, if required, pursuant to section 15 of the Shipping Act, 1916, as amended (39 Stat. 733, 75 Stat. 763, 46 U.S.C. 814).

Interested parties may inspect and obtain a copy of the agreement at the Washington office of the Federal Maritime Commission, 1100 L Street, N.W., Room 10423; or may inspect the agreement at the Field Offices located at New York, N.Y., New Orleans, Louisiana, San Francisco, California, and Old San Juan, Puerto Rico. Comments on such agreements, including requests for hearing, may be submitted to the Secretary, Federal Maritime Commission, Washington, D.C., 20573, June 12, 1981. Any person desiring a hearing on the proposed agreement shall provide a clear and concise statement of the matters upon which they desire to adduce evidence. An allegation of discrimination or unfairness shall be accompanied by a statement describing the discrimination or unfairness with particularity. If a violation of the Act or detriment to the commerce of the United States is alleged, the statement shall set forth with particularity the acts and circumstances said to constitute such violation or detriment to commerce.

A copy of any such statement should also be forwarded to the party filing the agreement (as indicated hereinafter) and the statement should indicate that this has been done.

Agreement No.: T–3968–A.

Filing Party: John W. Angus, Esquire, Preston, Thorgrimson, Ellis & Holman, Suite 500, 1776 G Street, N.W., Washington, D.C. 20006.

Summary: Agreement No. T–3968–A is a terminal lease agreement between the Port of Seattle (Port) and American President Lines, Ltd. (APL), and provides for the Port's lease to APL of the Container Freight Station located at Terminal 25 which APL currently utilizes pursuant to Agreement No. T–2640. Pursuant to pending Agreement No. T–3968, APL is relocating its operations, with the exception of its Container Freight Station, to Terminal 46. APL will continue to use that portion of Terminal 25 containing the CFS facilities, and consequently, has executed a new lease for same (Agreement No. T–3968–A); which will supersede the presently effective lease, Agreement No. T–2640.

The agreement will become effective on the first day of the first month

following Commission approval, and will run through June 30, 1987, with renewal options of three additional periods of 5 years each.

APL will compensate the Port at the rental fee of $12,632.06 per month.

Agreement No.: T-3974.

Filing Party: Richard J. Szczepaniak, Esquire, Toledo-Lucas County Port Authority, 241 Superior Street, Toledo, Ohio 43604.

Summary: Agreement No. T-3974, between the Toledo-Lucas County Port Authority (Port) and Toledo World Operators, Inc. (TWO), provides for the lease by Port to TWO of certain dock facilities in the Port of Toledo, Ohio. As compensation, TWO will pay Port: (a) a percentage of gross revenues, with a minimum monthly rental of $26,666.66; (b) the sum of $9,650 per month for each of the first 6 months, and (c) the sum of $903,509 at the beginning of the 61st month. The term of the lease is for 20 years.

Dated: May 27, 1981.

By order of the Federal Maritime Commission.

Joseph C. Polking,

Acting Secretary.

BILLING CODE 6730-01-M

[Independent Ocean Freight Forwarder License No. 2130]

Maria Zequeira, d.b.a. M-Z International; Order of Revocation

Section 44(c), Shipping Act, 1916, provides that no independent ocean freight forwarder license shall remain in force unless a valid bond is in effect and on file with the Commission. Rule 510.9 of Federal Maritime Commission General Order 4 further provides that a license will be automatically revoked or suspended for failure of a licensee to maintain a valid bond on file.

The bond issued in favor of Maria Zequeria, dba M-Z International, 8011 Rowan Houston, TX 77036 was cancelled effective May 21, 1981.

By letter dated May, 12, 1981, Maria Zequeria, dba M-Z International was advised by the Federal Maritime Commission that Independent Ocean Freight Forwarder No. 2130 would be automatically revoked or suspended unless a valid surety bond was filed with the Commission.

Maria Zequeria, dba M-Z International has failed to furnish a valid bond.

By virtue of authority vested in me by the Federal Maritime Commission as set forth in Manual of Orders, Commission Order No. 201.1 (Revised), section 5.01(d) dated August 8, 1977;

Notice is hereby given, that Independent Ocean Freight Forwarder License No. 2130 be and is hereby revoked effective May 21, 1981.

It is ordered, that Independent Ocean Freight Forwarder License No. 2130 issued to Maria Zequeria, dba M-Z International be returned to the Commission for cancellation.

It is further ordered, that a copy of this Order be published in the **Federal Register** and served upon Maria Zequeria, dba M-Z International.

Albert J. Klingel, Jr.,

Director, Bureau of Certification and Licensing.

[FR Doc. 81-16396 Filed 6-1-81; 8:45 am]

BILLING CODE 6730-01-M

[Independent Ocean Freight Forwarder License No. 1441]

Marshall Ashby Smith, Jr., d.b.a. Reliable Traffic Service; Order of Revocation

Section 44(c), Shipping Act, 1916, provides that no independent ocean freight forwarder license shall remain in force unless a valid bond is in effect and on file with the Commission. Rule 510.9 of Federal Maritime Commission General Order 4 further provides that a license will be automatically revoked or suspended for failure of a licensee to maintain a valid bond on file.

The bond issued in favor of Marshall Ashby Smith, Jr., dba Reliable Traffic Service, 2322 North Maroa Avenue, Fresno, CA 93704 was cancelled effective May 23, 1981.

By letter dated May 12, 1981, Marshall Ashby Smith, Jr., d.b.a. Reliable Traffic Service was advised by the Federal Maritime Commission that Independent Ocean Freight Forwarder No. 1441 would be automatically revoked or suspended unless a valid surety bond was filed with the Commission.

Marshall Ashby Smith, Jr., dba Reliable Traffic Service has failed to furnish a valid bond.

By virtue of authority vested in me by the Federal Maritime Commission as set forth in Manual of Orders, Commission Order No. 201.1 (Revised), section 5.01(d) dated August 8, 1977;

Notice is hereby given, that Independent Ocean Freight Forwarder License No. 1441 be and is hereby revoked effective May 23, 1981.

It is ordered, that Independent Ocean Freight Forwarder License No. 1441 issued to Marshall Ashby Smith, Jr., dba Reliable Traffic Service be returned to the Commission for cancellation.

It is further ordered, that a copy of this Order be published in the **Federal Register** and served upon Marshall Ashby Smith, Jr., dba Reliable Traffic Service.

Albert J. Klingel, Jr.,

Director, Bureau of Certification and Licensing.

BILLING CODE 6730-01-M

FEDERAL RESERVE SYSTEM

American National Bancorp., Inc.; Formation of Bank Holding Company

American National Bancorp., Inc., Bristow, Oklahoma, has applied for the Board's approval under section 3(a) of the Bank Holding Company Act (12 U.S.C. 1842(a)) to become a bank holding company by acquiring 80 percent or more of the voting shares of American National Bank, Bristow, Oklahoma. The factors that are considered in acting on the application are set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

The application may be inspected at the offices of the Board of Governors or at the Federal Reserve Bank of Kansas City. Any person wishing to comment on the application should submit views in writing to the Secretary, Board of Governors of the Federal Reserve System, Washington, D.C. 20551 to be received no later than June 21, 1981. Any comment on an application that requests a hearing must include a statement of why a written presentation would not suffice in lieu of a hearing, identifying specifically any questions of fact that are in dispute and summarizing the evidence that would be presented at a hearing.

Board of Governors of the Federal Reserve System, May 21, 1981.

D. Michael Manies,

Assistant Secretary of the Board.

[FR Doc. 81-16385 Filed 6-1-81; 8:45 am]

BILLING CODE 6210-01-M

Bank Holding Companies de Novo Nonbank Activities

The bank holding companies listed in this notice have applied, pursuant to section 4(c)(8) of the Bank Holding Company Act (12 U.S.C. 1843(c)(8)) and § 225.4(b)(1) of the Board's Regulation Y (12 CFR 225.4(b)(1)), for permission to engage *de novo* (or continue to engage in an activity earlier commenced *de novo*), directly or indirectly, soley in the activities indicated, which have been determined by the Board of Governors to be closely related to banking.

With respect to each application, interested persons may express their views on the question whether consummation of the proposal can "reasonably be expected to produce benefits to the public, such as greater convenience, increased competition, or gains in efficiency, that outweigh possible adverse effects, such as undue concentration of resources, decreased or unfair competition, conflicts of interest, or unsound banking practices." Any comment on an application that requests a hearing must include a statement of the reasons a written presentation would not suffice in lieu of a hearing, identifying specifically any questions of fact that are in dispute, summarizing the evidence that would be presented at a hearing, and indicating how the party commenting would be aggrieved by approval of that proposal.

Each application may be inspected at the offices of the Board of Governors or at the Federal Reserve Bank indicated for that application. Comments and requests for hearings should identify clearly the specific application to which they relate, and should be submitted in writing and received by the appropriate Federal Reserve Bank not later than June 20, 1981.

A. *Federal Reserve Bank of New York* (A, Marshall Puckett, Vice President) 33 Liberty Street, New York, New York 10045:

1. Manufacturers Hanover Corporation, New York, New York (home equity lending, sales finance activities and insurance activities; Louisiana): to engage through a *de novo* office of its subsidiary, Termplan Incorporated of Louisiana, in arranging, making or acquiring for its own account or for the account of others, loans and other extensions of credit secured by a homeowner's equity interest in a home such as would be made by a consumer finance company, servicing such loans and other extensions of credit for any person, acting as an agent or broker for the sale of single and joint credit life insurance which is directly related to such loans and extensions of credit, and through its subsidiary Tempco Life Insurance Company reinsuring such credit life insurance; and purchasing installment sales finance contracts, acting as an agent or broker for the sale of single and joint credit life insurance and credit accident and health insurance which is directly related to such loans and extensions of credit, and through Tempco Life Insurance Company reinsuring such credit life and accident and health insurance. These activities would be conducted from a *de novo* office of Termplan Incorporated of Louisiana located in Metairie, Louisiana and serving the following parishes: Orleans, Jefferson, St. John, St Charles, Plaquemines, St. Bernard and LaFourche, Louisiana.

2. Maunfacturers Hanover Corporation, New York, New York (commercial leasing and financing activities; North Carolina, South Carolina and Virginia): to engage through its subsidiary, Manufacturers Hanover Leasing Corporation, in the activities of leasing real and personal property on a full payout basis, acting as agent, broker or adviser in leasing such property, making or acquiring for its own account or for the account of other loans and other extensions of credit, such as would be made by a commercial leasing or commercial mortgage company, with respect to real and/or personal property, and servicing such leases, loans and other extensions of credit, as permitted under sections 225.4(a) (1), (3) and (6) of Regulation Y. These activities would be conducted from a *de novo* office of Manufacturers Hanover Leasing Corporation to be located at First Union Plaza, Charlotte, North Carolina, and serving the areas listed in the caption above.

B. *Federal Reserve Bank of Atlanta* (Robert E. Heck, Vice president) 104 Marietta Street, N.W., Atlanta, Georgia 30303:

Community Investment, Inc., Brundidge, Alabama (insurance activities; Alabama): to engage, through its subsidiary, Community Insurance Agency, in the sale of general insurance including life, accident and health, property damage liability and other types of general insurance. These activities would be conducted from an office in Brundidge, Alabama, at 20 North Main Street, population under 5,000, serving Pike County, Alabama, and rural portions of contiguous counties in Alabama.

C. *Other Federal Reserve Banks:* None.

Board of Governors of the Federal Reserve System, May 20, 1981.

D. Michael Manies,

Assistant Secretary of the Board.

BILLING CODE 6210-01-M

Bank Holding Companies; Proposed de novo Nonbank Activities

The bank holding companies listed in this notice have applied, pursuant to section 4(c)(8) of the Bank Holding Company Act (12 U.S.C. 1843(c)(8)) and § 225.4(b)(1) of the Board's Regulation Y (12 CFR 225.4(b)(1)), for permission to engage *de novo* (or continue to engage in an activity earlier commenced *de novo*), directly or indirectly, solely in the activities indicated, which have been determined by the Board of Governors to be closely related to banking.

With respect to each application, interested persons may express their views on the question whether consummation of the proposal can "reasonably be expected to produce benefits to the public, such as greater convenience, increased competition, or gains in efficiency, that outweigh possible adverse effects, such as undue concentration of resources, decreased or unfair competition, conflicts of interest, or unsound banking practices." Any comment on an application that requests a hearing must include a statement of the reasons a written presentation would not suffice in lieu of a hearing, identifying specifically any questions of fact that are in dispute, summarizing the evidence that would be presented at a hearing, and indicating how the party commenting would be aggrieved by approval of that proposal.

Each application may be inspected at the Offices of the Board of Governors or at the Federal Reserve Bank indicated for that application. Comments and requests for hearings should identify clearly the specific application to which they relate, and should be submitted in writing and, except as noted, received by the appropriate Federal Reserve Bank not later than June 22, 1981.

A. *Federal Reserve Bank of New York* (A. Marshall Puckett, Vice President) 33 Liberty Street, New York, New York 10045:

Security New York State Corporation, Rochester, New York (insurance activities; New York): to engage, through a subsidiary known as Griffin Life Insurance Company, in reinsurance of credit life, health and accident insurance issued in connection with extensions of credit made by the applicant's eight subsidiary banks. Such activity will be conducted from an office located at 234 North Central Avenue, Phoenix, Arizona 85004, serving central and western New York State (from east of Buffalo to west of Syracuse, and from Lake Ontario south to the Pennsylvania borders).

B. *Federal Reserve Bank of San Francisco* (Harry W. Green, Vice President) 400 Sansome Street, San Francisco, California 94120:

BankAmerica Corporation, San Francisco, California (financing, servicing and insurance activities; Florida): to continue to engage, through its indirect subsidiary, FinanceAmerica Industrial Plan, Inc., a Florida corporation, in the activities of making or acquiring for its own account loans

and other extensions of credit such as would be made or acquired by a finance company; servicing loans and other extensions of credit; and offering credit-related life insurance and credit-related accident and health insurance. Such activities will include, but not be limited to, making consumer installment loans, purchasing installment sales finance contracts, making loans and other extensions of credit to small businesses, making loans and other extensions of credit secured by real and personal property, and offering credit-related life and credit-related accident and health insurance directly related to extensions of credit made or acquired by FinanceAmerica Industrial Plan, Inc. These activities will be conducted from an existing office located in Altamonte Springs, Florida. The geographic scope of the activity is now east central Florida and will be expanded to include the entire State of Florida. Comments on this application must be received not later than June 10, 1981.

C. *Other Federal Reserve Banks:* None.

Board of Governors of the Federal Reserve System, May 22, 1981.

D. Michael Manies,

Assistant Secretary of the Board.

BILLING CODE 4110-88-M

Food and Drug Administration

Compilation of Preambles for New Animal Drug Documents; Availability

AGENCY: Food and Drug Administration.

ACTION: Notice.

SUMMARY: The Food and Drug Administration (FDA) announces the availability of another volume of the preamble compilation. This volume contains significant preambles of published **Federal Register** documents relating to New Animal Drug regulations, from March 1936 through March 1978.

ADDRESS: This volume may be ordered from the Superintendent of Documents, U.S. Government Printing Office, Washington, DC 20402.

FOR FURTHER INFORMATION CONTACT: Lola Batson, Federal Register Writer's Office (HFC-11), Food and Drug Administration, 5600 Fishers Lane, Rockville, MD 20857, 301-443-2994.

SUPPLEMENTARY INFORMATION: The preamble compilation series has been structured around the current organizational scheme for Food and Drug Administration regulations issued under Chapter I of Title 21 of the Code of Federal Regulations. This compilation is part of a comprehensive effort to make available to the public and the agency a central source for tracing, by subject, the historical development of agency regulations.

Each volume of the preamble compilation will be updated with an annual cumulative pocket supplement. The agency will publish in the **Federal Register** a notice of availability for each volume and pocket supplement as they become available.

The New Animal Drug volume may be purchased from the Superintendent of Documents (address above) for $15.00. To order, reference GPO stock No. 017-015-00183-1.

Dated: May 20, 1981.

William F. Randolph,

Acting Associate Commissioner for Regulatory Affairs.

BILLING CODE 4110-03-M

[Docket No. 81P-0028/CP]

Tomato Juice Deviating From Identity Standard; Temporary Permit for Market Testing

AGENCY: Food and Drug Administration.

ACTION: Notice.

SUMMARY: The Food and Drug Administration (FDA) announces that a temporary permit has been issued to Southern Fruit Distributors, Inc., to market test tomato juice from concentrate. The purpose of this temporary permit is to permit the applicant to measure consumer acceptence of the food.

DATE: This permit is effective for 15 months, beginning on the date the food is introduced or caused to be introduced into interstate commerce, but no later than August 31, 1981. However, the permit may terminate sooner, depending upon the final action on FDA's proposal to amend the standard of identity for tomato juice published in the **Federal Register** of May 9, 1978 (43 FR 19864). If the proposal is affirmed, the permit will terminate on the effective date of the final regulation. If the proposal is rejected, the permit will expire 30 days after the negative ruling on the proposal.

FOR FURTHER INFORMATION CONTACT: F. Leo Kauffman, Bureau of Foods (HFF-214), Food and Drug Administration, 200 C St. SW., Washington, DC 20204, 202-245-1164.

SUPPLEMENTARY INFORMATION: In accordance with § 130.17 (21 CFR 130.17) concerning temporary permits to facilitate market testing of foods deviating from the requirements of the standards of identity promulgated under section 401 of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 341), notice is given that a temporary permit has been issued to Southern Fruit Distributors, Inc., P.O. Box 8367, Orlando, FL 32856. The permit covers limited interstate marketing tests of tomato juice that deviates from the standard of identity prescribed for tomato juice under § 156.145 (21 CFR 156.145). The product is prepared from tomato paste that complies with the requirements of § 155.191(a)(1) (21 CFR 155.191(a)(1)). The test product is equivalent to a single-strength tomato juice normally found in the marketplace. The finished product contains not less than 5.5 percent tomato soluble solids. The permit provides for the temporary marketing of 50,000 cases of forty-eight 6-ounce cans of the product to be distributed in the following States: Alabama, Colorado, Florida, Georgia, Illinois, Indiana, Maryland, Michigan, Minnesota, Missouri, New Jersey, New York, North Carolina, Ohio, Pennsylvania, South Carolina, Tennessee, Texas, Virginia, and Wisconsin.

The test product is to be packed at the Southern Fruit Distributors, Inc., plant located in Orlando, FL.

The principal display panel of the label states the product's name as "tomato juice from concentrate." Each of the ingredients used is stated on the label as required by the applicable sections of 21 CFR Part 101, except that the tomato ingredient complying with the requirements of § 155.191(a)(1) is declared as "tomato concentrate." This permit is effective for 15 months, begining on the date the new food is introduced or caused to be introduced into interstate commerce, but no later than August 31, 1981. However, the permit may terminate sooner, depending upon the final action on FDA's proposal to amend the standard of identity for tomato juice published in the **Federal Register** of May 9, 1978. If the proposal is affirmed, the permit will terminate on the effective date of the final regulation. If the proposal is rejected, the permit will expire 30 days after the negative ruling on the proposal.

Dated: May 22, 1981.

Public Health Service

National Center for Health Care Technology; Evaluation of Medical Technology

The National Center for Health Care Technology (Center) announces that it is conducting an evaluation of what is known of the safety and clinical effectiveness of computerized, blood glucose controlled insulin infusion systems in regulating a patient's blood glucose level for short term use (normally not more than 24 hours), during such stressful situations as labor and delivery or surgery.

Based on this evaluation, a recommendation will be formulated to assist the Health Care Financing Administration (HCFA) in establishing Medicare coverage policy. Any person or group wishing to provide the Center with information relevant to this evaluation should do so in writing no later than August 31, 1981. To enable the Center's staff to give appropriate consideration to any literature references or analyses of clinical data, a written summary no longer than 10 pages should be attached to any such material submitted.

Written material should be submitted to: Division of Medical and Scientific Evaluation, National Center for Health Care Technology, Room 17A29, Parklawn Building, 5600 Fishers Lane, Rockville, Maryland 20857.

For Further information contact: Dennis J. Cotter, Health Science Analyst, at the above address or by telephone (301) 443-4990.

Dated: May 27, 1981.

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

New Mexico Generating Station; Environmental Impact Statement; Preparation Supplement

AGENCY: Bureau of Land Management, Interior.

ACTION: Amend the project proposal of Public Service Company of New Mexico to include the construction of a 500 KV transmission line from generating station to Los Angeles Basin, California.

SUMMARY: A notice of intent to prepare an Environmental Impact Statement (EIS) on a proposed 2000 megawatt coal-fired generating station in San Juan County, New Mexico, the New Mexico Generating Station (NMGS) was published in the Federal Register on November 15, 1980, page 74998. The project has been amended to include the construction of a 500 KV transmission line from the plant site to the Los Angeles Basin, California, referred to as the out-of-state (OST) portion of the project.

The EIS will include the plant, a water pipeline to provide cooling water, the 500 KV line to California, two 500 KV lines serving Albuquerque, New Mexico, and the possible development of either a construction camp or a new townsite.

Both 100-year floodplains and wetland-riparian habitat may be impacted by the proposal.

Scoping has occurred for the original elements of the proposal, supplemental scoping to consider the OST will be announced.

EFFECTIVE DATE: June 2, 1981.

ADDRESS: Bureau of Land Management, New Mexico State Office, P.O. Box 1449, Santa Fe, New Mexico.

FOR FURTHER INFORMATION CONTACT: Leslie Cone, Bureau of Land Management, New Mexico State Office, P.O. Box 1449, Santa Fe, New Mexico 87501, (505) 988-6467, FTS 476-1467.

BILLING CODE 4310-84-M

Bureau of Reclamation

Water Allocations, Central Arizona Project, Arizona; Intent To Prepare an Environmental Impact Statement

Pursuant to Section 102(2)(C) of the National Environmental Policy Act of 1969, the Department of the Interior proposes to prepare an environmental

impact statement on the allocation and offers to enter into contracts for delivery of Central Arizona Project water by the Secretary of the Interior. The Central Arizona Project will develop Arizona's remaining entitlement to Colorado River water as well as locally available surface waters of the Gila River and its tributaries. The Secretary has the authority and responsibility to allocate water among various uses and entities, and to enter into water service contracts for its delivery. The identified uses include Indian irrigation, maintenance of Indian tribal homelands, non-Indian municipal and industrial, and non-Indian irrigation. The identified entities proposed for water allocations include 4 Indian tribes and/or communities for irrigation only, 7 Indian tribes and/or communities for maintaining tribal homelands, 1 tribe for both uses, 59 municipalities and/or municipal water companies, 2 power companies, 9 mining companies, 2 recreation organizations, 2 unclassified municipal and industrial users, and 23 irrigation districts and/or farming operations.

In addition to the proposed allocation, the environmental impact statement will consider alternatives which cover the range of previous Secretarial allocation proposals and recommendations from the State of Arizona. The Department has tentatively identified the 1976 Kleppe Allocation, the 1980 Andrus Allocation, and a modification of the Andrus Allocation which could change the priority for Indian supply during times of shortage and provides for the use of municipal effluent waters by Indian tribes as three viable options. A no-action alternative will be included to serve as a basis for evaluating the environmental effects of the other reasonable alternatives. The Department construes no-action to mean the 1968 plan based upon the legislative history: 312,000 acre-feet for municipal and industrial use, and the balance to agriculture on a pro rata basis.

Given that the action is the allocation of Central Arizona Project water and the entering into of water service contracts for delivery of the water, the environmental impact statement will focus on direct and indirect impacts such as ground-water effects, land use changes, economic considerations, and social well-being effects which result from the use of Central Arizona Project water. Although impossible to wholly quantify due to incomplete or nonexistent plans, cumulative impacts (such as those resulting from the construction of distribution works, water treatment plants, and effluent water delivery facilities) will also be considered in the environmental impact statement.

The types of impacts and the nature of the impact analysis will be further defined during the scoping process. An informational packet containing background information and potential issues to be considered in the environmental impact statement will be made available to the public and will be followed by meetings to further define the significant issues and environmental impact statement scope. Informational packets will be available from the Commissioner, Bureau of Reclamation, Department of the Interior, 18 and C Street, NW., Washington, DC 20240; the Regional Director, Lower Colorado Region, Bureau of Reclamation, P.O. Box 427, Boulder City, Nevada 89005; or the Project Manager, Arizona Projects Office, Bureau of Reclamation, Suite 2200 Valley Center, Phoenix, Arizona 85073; or at the meetings. The meetings will be held at Tucson, Casa Grande, and Phoenix, Arizona, June 16, 17, and 18, 1981: at the Tucson Community Center, June 15; Casa Grande City Council Chambers, June 17; and the Phoenix Hilton, June 18, beginning at 1:00 p.m.

The contact person for this environmental impact statement will be Larry Morton, Chief, Environmental Division, Arizona Projects Office, Bureau of Reclamation, 201 North Central Avenue, Phoenix, Arizona 85073. Telephone (602) 261–3577.

Dated: May 28, 1981.

BILLING CODE 4310-09-M

U.S. Fish and Wildlife Service

Availability of FONSI on Peregrine Falcon Restoration in the Eastern United States

AGENCIES: Fish and Wildlife Service, Interior.

ACTION: Notice of Availability.

SUMMARY: The U.S. Fish and Wildlife Service has prepared an Environmental Assessment (EA) on Peregrine Falcon Restoration in the Eastern United States. A notice of availability of the assessmemt was published in the **Federal Register** on April 14, 1981. This assessment is based on review and analysis of:

1. The Peregrine Recovery Plan, U.S. Fish and Wildlife Service—May 1979 (Rene M. Bollengier, Recovery Team Leader)

2. Comments from state and Federal agencies, and

3. Public comments.

The assessment has shown that with implementation of the plan, beneficial impacts which may occur are the possible restoration of the peregrine falcon in the east and its removal from the endangered species list. Detrimental impacts which may occur include temporary habitat disturbance at hack sites during tower construction and trapping and relocation of owls.

I find that some components of these studies are functionally dependent on being located in floodplains and wetlands and that all reasonable alternatives to these locations were evaluated. I, therefore, find that this project complies with the meaning of Executive Orders 11988 and 11990.

Based on the information contained in the EA and on public comments received, the Regional Director, Northeast Region, U.S. Fish and Wildlife Service has signed a FONSI on the projects.

CONTACT PERSON: Paul R. Nickerson, Senior Staff Specialist Endangered Species, U.S. Fish and Wildlife Service, One Gateway Center, Suite 700, Newton Corner, Massachusetts 02158.

Paul R. Nickerson,

Senior Staff Specialist, Endangered Species.

INTERSTATE COMMERCE COMMISSION

[Finance Docket No. 29627]

Acquisition of Trackage Rights by Chicago South Shore and South Bend Railroad Over the Chesapeake and Ohio Railway Company in the Michigan City, Indiana Area

May 27, 1981.

AGENCY: Interstate Commerce Commission.

ACTION: Notice of exemption.

SUMMARY: The Chicago South Shore and South Bend Railroad will acquire trackage rights over the Chesapeake and Ohio Railway Company, its affiliate. The transaction is one which is within a corporate family and which does not result in any adverse changes in service levels, significant operational changes, or a change in the competitive balance with carriers outside the corporate family and is thus exempt from our consolidation regulations under 49 CFR 1111.5(c)(3).

DATE: Applicant planned to consummate the transaction on April 18, 1981.

FOR FURTHER INFORMATION CONTACT: Ernest Abbott, (202) 275-3002.

SUPPLEMENTARY INFORMATION: Chicago South Shore and South Bend Railroad (CSS&SB), an affiliate of the Chesapeake and Ohio Railway Company (C&O), filed a notice of exemption on April 10, 1981. The notice indicates that CSS&SB and C&O intend to enter into a transaction on April 18, 1981, which has been exempted from regulation pursuant to 49 U.S.C. 10505. The notice has been filed in accordance with the Commission's railroad consolidation procedures as set forth at 49 CFR 1111.5(c)(3).

CSS&SB states that the transaction is one which is within a corporate family and which does not result in any adverse changes in service levels, significant operational changes, or a change in the competitive balance with carriers outside the corporate family. This class of actions is specifically exempted from the requirements of the consolidation rules.

CSS&SB will acquire trackage rights over a 6-mile line of the C&O near Michigan City in La Porte County, IN. This area is now served by CSS&SB, C&O, and the Louisville and Nashville Railroad Company (L&N). In *CSX Corp.—Control—Chessie and Seaboard C.L.I.*, 363 I.C.C. 518 (1980), the Commission authorized CSS&SB's acquisition of a 4.36-mile segment of L&N's line to Michigan City which was authorized for abandonment. CSS&SB originally planned to reach this segment by an existing connection at the northern end of the line. The involved trackage rights will allow CSS&SB to obtain a second means to connect with the subject line, and will allow it to remove a 1-mile middle portion of the 4.36 mile segment which it no longer intends to acquire and operate. It states that there are no shippers on this middle segment.

In granting an exemption, we may not relieve a carrier of its obligation to protect the interests of employees as otherwise required by 49 U.S.C. Subtitle IV. See 49 U.S.C. 10505(g)(2). We have determined that the employee protective provisions developed in *Norfolk and Western Ry. Co.—Trackage Rights—BN*, 354 I.C.C. 605 (1978), as modified by *Mendocino Coast Ry., Inc.—Lease and Operate*, 360 I.C.C. 653 (1980), meet the requirements of 49 U.S.C. 11347 for employees involved in trackage rights transactions under 49 U.S.C. 11343. Accordingly, these protective provisions will be imposed here as a condition to exercise of this exemption.

Agatha L. Mergenovich,

Secretary.

[FR Doc. 81-16348 Filed 6-1-81; 8:45 am]

BILLING CODE 7035-01-M

[Ex Parte No. 311]

Expedited Procedures for Recovery of Fuel Costs

Decided: May 27, 1981.

In our recent decisions, an 18.5-percent surcharge was authorized on all owner-operator traffic, and on all truckload traffic whether or not owner-operators were employed. We ordered that all owner-operators were to receive compensation at this level.

The weekly figure set forth in the appendix for transportation performed by owner-operators and for truckload traffic is 18.4-percent. Accordingly, we are authorizing that the surcharge for this traffic remain at 18.5-percent. All owner-operators are to receive compensation at this level.

No change is authorized on the 3.2-percent surcharge on less-than-truckload (LTL) traffic performed by carriers not using owner-operators, the 2.1-percent surcharge for United Parcel Service, or the 6.9-percent surcharge for the bus carriers.

Notice shall be given to the general public by mailing a copy of this decision to the Governor of each State and to the Public Utilities Commission or Boards of each State having jurisdiction over transportation, by depositing a copy in the Office of the Secretary, Interstate Commerce Commission, Washington, D.C., for public inspection and by delivering a copy to the Director, Office of the Federal Register for publication therein.

It is ordered: This decision shall become effective Friday 12:01 a.m. May 29, 1981.

By the Commission, Acting Chairman Alexis, Commissioners Gresham, Clapp, Trantum, and Gilliam.

Agatha L. Mergenovich,

Secretary.

Percent surcharge developed	18.4	3.2	6.9	[5]2.9

	Transportation performed by—			
	Owner-operator[1]	Other[2]	Bus carriers	UPS
Percent surcharge allowed	19.5	3.2	6.9	[4]2.1

[1] Apply to all truckload rated traffic.
[2] Including less-than-truckload traffic.
[3] The percentage surcharge developed for UPS is calculated by applying 81 percent of the percentage increase in the current price per gallon over the base price per gallon to UPS average percent of fuel expense to revenue figure as of January 1, 1979 (3.3 percent).
[4] The developed surcharge is reduced 0.8 percent to reflect fuel-related increases already included in UPS rates

BILLING CODE 7035-01-M

[Volume No. OPY-4-Volume 160]

Motor Carriers; Permanent Authority Decisions; Decision-Notice

Decided: May 27, 1981.

The following applications, filed on or after February 9, 1981, are governed by Special Rule 251 of the Commission's Rules of Practice, see 49 CFR 1100.251. Special Rule 251 was published in the **Federal Register** on December 31, 1980, at 45 FR 86771. For compliance procedures, refer to the **Federal Register** issue of December 3, 1980, at 45 FR 80109.

Persons wishing to oppose an application must follow the rules under 49 CFR 1100.252. Applications may be protested *only* on the grounds that applicant is not fit, willing, and able to provide the transportation service or to comply with the appropriate statutes and Commission regulations. A copy of any application, including all supporting evidence, can be obtained from applicant's representative upon request and payment to applicant's representative of $10.00.

Amendments to the request for authority are not allowed. Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority.

Findings

With the exception of those applications involving duly noted problems (e.g., unresolved common control, fitness, water carrier dual operations, or jurisdictional questions) we fine, preliminarily, that each applicant has demonstrated its proposed service warrants a grant of the application under the governing section of the Interstate Commerce Act. Each applicant is fit, willing, and able to perform the service proposed, and to conform to the requirements of Title 49, Subtitle IV, United States Code, and the service proposed, and to conform to the requirements of Title 49, Subtitle IV, United States Code, and the Commission's regulation. Except where noted, this decision is neither a major Federal action significantly affecting the quality of the human environment nor a major regulatory action under the Energy Policy and Conservation Act of 1975.

In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication (or, if the application later become unopposed), appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

To the extent that any of the authority granted may duplicate an applicant's other authority, the duplication shall be construed as conferring only a single operating right.

By the Commission, Review Board No. 2, Members Carleton, Fisher, and Williams.

Agatha L. Mergenovich,
Secretary.

Note.—All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract".

MC 155877, filed May 11, 1981. Applicant: STARNES BROKERAGE CO., P.O. Box 1396, Upland, CA 91786. Representative: Walter Starnes, 1941 Elouise Way, Upland, CA 91786, (213) 384-4037. As a *broker of general commodities*, (except household goods), between points in the U.S.

MC 155927, filed May 11, 1981. Applicant: SEPIA TRUCKING CO., INC., 4128 South Wabash, Chicago, IL 60653. Representative: Irwin D. Rozner, 134 North LaSalle St., Chicago, IL 60602, (312) 782-6937. Transporting, for or on behalf of the United States Government, *general commodities* (except used household goods, hazardous or secret materials, and sensitive weapons and munitions), between points in the U.S.

MC 155876, filed May 11, 1981. Applicant: CHARLES R. NEWBY, 6313 So. Robinson Dr., Oklahoma City, OK 73139. Representative: Kenneth G. Thomas, 8005 Dover Ave., Lubbock, TX 79424, (806) 745-7263. As a *broker of general commodities*, (except household goods), between points in the U.S.

Motor Carrier; Permanent Authority Decisions; Restrictions Removals; Decision-Notice

The following applications, filed on or after February 9, 1981, are governed by Special Rule of the Commission's Rules of Practice, see 49 CFR 1100.251. Special Rule 251 was published in the **Federal Register** of December 31, 1980, at 45 FR 86771. For compliance procedures, refer to the **Federal Register** issue of December 3, 1980, at 45 FR 80109.

Persons wishing to oppose an application must follow the rules under 49 CFR 1100.252. A copy of any applications, including all supporting evidence, can be obtained from applicant's representative upon request and payment to applicant's representative of $10.00.

Amendments to the request for authority are not allowed. Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority.

Findings

With the exception of those applications involving duly noted problems (e.g., unresolved common control, fitness, water carrier dual operations, or jurisdictional questions) we find, preliminarily, that each applicant has demonstrated its proposed service warrants a grant of the application under the governing section of the Interstate Commerce Act. Each applicant is fit, willing, and able to perform the service proposed, and to conform to the requirements of Title 49, Subtitle IV, United States Code, and the Commission's regulations. Except where noted, this decision is neither a major Federal action significantly affecting the quality of the human environment nor a major regulatory action under the Energy Policy and Conservation Act of 1975.

In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication, (or, if the application later becomes unopposed) appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant

maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

To the extent that any of the authority granted may duplicate an applicant's other authority, the duplication shall be construed as conferring only a single operating right.

Note.—All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract".

BILLING CODE 7035–01–M

[Volume No. OP3–235]

Motor Carriers; Permanent Authority Decisions; Decision-Notice

Decided: May 22, 1981.

The following applications, filed on or after July 3, 1980, are governed by Special Rule 247 of the Commission's Rules of Practice, see 49 CFR 1100.247. Special rule 247 was published in the **Federal Register** of July 3, 1980, at 45 FR 45539.

Persons wishing to oppose an application must follow the rules under 49 CFR 1100.247(B). A copy of any application, together with applicant's supporting evidence, can be obtained from any applicant upon request and payment to applicant of $10.00.

Amendments to the request for authority are not allowed. Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority.

Findings

With the exception of those applications involving duly noted problems (e.g., unresolved common control, fitness, water carrier dual operations, or jurisdictional questions) we find, preliminarily, that each applicant has demonstrated its proposed service warrants a grant of the application under the governing section of the Interstate Commerce Act. Each applicant is fit, willing, and able to perform the service proposed, and to conform to the requirements of Title 49, Subtitle IV, United States Code, and the Commission's regulations. Except where noted, this decision is neither a major Federal action significantly affecting the quality of the human environment nor a major regulatory action under the Energy Policy and Conservation Act of 1975.

In the absence of legally sufficient protests in the form of verified statements filed within 45 days of publication of this decision-notice (or, if the application later becomes unopposed) appropriate authority will be issued to each applicant (except those with duly noted problems) upon compliance with certain requirements which will be set forth in a notice that the decision-notice is effective. Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

To the extent that any of the authority granted may duplicate an applicant's other authority, the duplication shall be construed as conferring only a single operating right.

By the Commission, Review Board Number 2, Members Carleton, Fisher and Williams.

Agatha L. Mergenovich,

Secretary.

Note.—All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract".

MC 142204 (Sub-12), filed September 22, 1980, previously published in the **Federal Register** issue of October 15, 1980. Applicant: GUNVILLE TRUCKING, INC., d.b.a. GUNVILLE TRUCKING, P.O. Box 74, Niagara, WI 54151. Representative: Michael S. Varda, 121 S. Pinckney St., Madison, WI 53703. Transporting *wood residuals,* between points in the Upper Peninsula of MI and WI.

Note.—This republication corrects the territorial description.

[Volume No. OPY–2–083]

Motor Carriers; Permanent Authority; Decision-Notice

Decided: May 26, 1981.

The following applications, filed on or after February 9, 1981, are governed by Special Rule 251 of the Commission's Rules of Practice, see 49 CFR 1100.251. Special Rule 251 was published in the **Federal Register** on December 31, 1980, at 45 FR 86771. For compliance procedures, refer to the **Federal Register** issue of December 3, 1980, at 45 FR 80109.

Persons wishing to oppose an application must follow the rules under 49 CFR 1100.252. Applications may be protested *only* on the grounds that applicant is not fit, willing, and able to provide the transportation service or to

V 46 / 105 JE 2 81 UMI

comply with the appropriate statutes and Commission regulations. A copy of any application, including all supporting evidence, can be obtained from applicant's representative upon request and payment to applicant's representative of $10.00.

Amendments to the request for authority are not allowed. Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority.

Findings

With the exception of those applications involving duly noted problems (e.g., unresolved common control, fitness, water carrier dual operations, or jurisdictional questions) we find, preliminarily, that each applicant has demonstrated its proposed service warrants a grant of the application under the governing section of the Interstate Commerce Act. Each applicant is fit, willing, and able to perform the service proposed, and to conform to the requirements of Title 49, Subtitle IV, United States Code, and the service proposed, and to conform to the requirements of Title 49, Subtitle IV, United States Code, and the Commission's regulation. Except where noted, this decision is neither a major Federal action significantly affecting the quality of the human environment nor a major regulatory action under the Energy Policy and Conservation Act of 1975.

In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication (or, if the application later become unopposed), appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

To the extent that any of the authority granted may duplicate an applicant's other authority, the duplication shall be construed as conferring only a single operating right.

By the Commission, Review Board No. 1, Members Parker, Chandler, and Fortier.

Agatha L. Mergenovich,

Secretary.

Note.—All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applicants for motor contract carrier authority are those where service is for a named shipper "under contract".

MC 152663 (Sub-1), filed May 15, 1981. Applicant: ISC TRANSYSTEMS, INC., 100 Jericho Quadrangle, Jericho, NY 11753. Representative: Larsh B. Mewhinney, 555 Madison Ave. New York, NY 10022 (212) 838–0600. Transporting, for or on behalf of the United States Government, *general commodities* (except used household goods, hazardous or secret materials, and sensitive weapons and munitions), between points in the U.S.

MC 155833F filed May 4, 1981. Applicant: RICHARD E. GRISWOLD, d.b.a. B & G TRUCKING, 324 Elm Street, P.O. Box 123, Avoca, IA 51521. Representative: Richard D. Howe, 600 Hubbell Building, Des Moines, IA 50309. Transporting *food and other edible products and by-products intended for human consumption, (except alcoholic beverages and drugs), agricultural limestone and fertilizers, and other soil conditioners* by the owner of the motor vehicle in such vehicle, between points in the U.S.

BILLING CODE 7035-01-M

[Volume No. 91]

Motor Carriers; Permanent Authority Decisions; Restriction Removals; Decision-Notice

Decided: May 28, 1981.

The following restriction removal applications, filed after December 28, 1980, are governed by 49 CFR Part 1137. Part 1137 was published in the **Federal Register** of December 31, 1980, at 45 FR 86747.

Persons wishing to file a comment to an application must follow the rules under 49 CFR 1137.12. A copy of any application can be obtained from any applicant upon request and payment to applicant of $10.00.

Amendments to the restriction removal applications are not allowed.

Some of the applications may have been modified prior to publication to conform to the special provisions applicable to restriction removal.

Findings

We find, preliminarily, that each applicant has demonstrated that its requested removal of restrictions or broadening of unduly narrow authority is consisitent with 49 U.S.C. 10922(h).

In the absence of comments filed within 25 days of publication of this decision-notice, appropriate reformed authority will be issued to each applicant. Prior to beginning operations under the newly issued authority, compliance must be made with the normal statutory and regulatory requirements for common and contract carriers.

By the Commission, Restriction Removal Board, Members Sporn, Alspaugh, and Shaffer.

Agatha L. Mergenovich,

Secretary.

MC 14582 (Sub-13)X, filed April 6, 1981, previously noticed in the **Federal Register** of March 6, 1981, republished as follows: Applicant: ELFRINK TRUCK LINES, INC., P.O. Box 92, Advance, MO 63730. Representative: Herman W. Huber, 101 East Jefferson St., Jefferson City, MO 65101. Applicant seeks to remove restrictions in its lead and Sub-No. 12 certificates to (1) broaden the commodity description from general commodities (with exceptions) to general commodities (except classes A and B explosives) in its lead and Sub-No. 12; (2) serve all intermediate points on its regular routes between (a) Advance, MO, and St. Louis, MO, (b) Dudley, MO, and National Stock Yards, IL, (c) St. Louis, MO, and Cape Girardeau, MO, (d) junction U.S. Hwy 61 and MO Hwy 51 at Perryville, MO and junction U.S. Hwys. 61 and 67 near Festus, MO, (e) Cape Girardeau, MO, and Scott City, MO, (f) Bloomfield, MO, and Dexter, MO, in its lead, (g) St. Louis, MO, and Cape Girardeau, MO, (h) junction IL Hwys. 3 and 146 and junction IL Hwy 3 and 51 in its Sub-No. 12 certificate; (3) remove restrictions (a) against traffic moving from, to, or through St. Louis, MO, in its lead, sheet 3; (b) limiting traffic to that moving radially from, to, or through Cape Girardeau, Scott City, and St. Louis, MO and (c) against service at Cape Girardeau, Scott City and Dexter, MO, and their commercial zones in its lead, sheet 4; (4) replace off-route points or portions of counties with Counties: Bollinger County, MO, Bell City with Stoddard County, MO and (5) replace points within 30 miles of Advance and Lutesville, MO in the irregular portion of its lead with Bollinger, Cape Girardeau, Madison, Mississippi, New Madrid, Perry, Scott, Stoddard and Wayne Counties, MO.

Note.—This republication adds parts (4) and (5) to the caption.

MC 41706 (Sub-25)X, filed March 13, 1981, previously noticed in the **Federal Register** of April 1, 1981, republished as follows: Applicant TOSE, INC., 424 West Fourth Street, Bridgeport, PA 19405. Representative: Anthony C. Vance, Esq., Suite 301, 1307 Dolley Madison Blvd., McLean, VA 22101. Applicant seeks to remove restrictions from its lead certificate. This Board previously broadened the certificate to include "general commodities, except Classes A and B explosives" and to allow service at all intermediate points. Applicant also sought off-route county-wide authority which was denied because it was determined to be an unreasonable broadening of territory. Because of a recent Commission decision declaring this type of broadening to be reasonable, the Restriction Removal Board has decided to renotice this application with respect to the proposed expansion of off-route

points. Notice is hereby given that applicant seeks to expand its off-route points from "those points within 20 miles of Bridgeport, PA," to all points in Montgomery, Chester, Bucks, Berks, Lehigh, Northhampton, Delaware, and Lancaster Counties, PA.

MC 48441 (Sub-71)X, filed February 24, 1981, previously noticed in the Federal Register of March 17, 1981 and April 27, 1981, republished as corrected this issue. Applicant: R.M.E., INC., P.O. Box 418, Streator, IL 61364. Representative: E. Stephen Heisley, 805 McLachlen Bank Bldg., 666 11th Street, NW., Washington, DC 20001. Applicant seeks to remove restrictions in its lead certificate to (1) broaden its commodity descriptions (a) in its regular route authority, from glass, glass products, yeast, malt products, and brewey supplies, to "clay, concrete, glass or stone products, food and related products, metal products, pulp, paper and related products, and chemicals and related products", (b) in its irregular route authority, from general commodities with the usual exceptions to "general commodities (except classes A and B explosives)", from building materials, paint, roofing, and iron and steel construction products, to "building materials, chemicals and related products and metal products", from beer, and malt products, canned goods, animal feed, and canned foodstuffs, to "food and related products", from empty malt beverage containers to "clay, concrete, glass, or stone products and metal products", from paper, and paper products, to "pulp, paper and related products", from telephone directories and telephone directory pages to "printed matter", from glass containers, to "clay, concrete, glass or stone products", and from iron containers and steel containers, to "metal products"; and (2) broaden its territorial description (a) to authorize service at all intermediate points on described route between Milwaukee, WI, and Alton, IL, in the regular route portion of its lead authority, (b) change its one-way authority to radial authority between several named states, and replace cities and plantsite facilities with county-wide authority in the irregular route portion: Momence, IL with Kankakee County, IL, named facilities as Dwight, IL, with Livingston County, IL, Jonesboro, AR, with Craighead County, AR, named facilities at Plymouth, IN, with Marshall County, IN, Hamilton, MI, with Allegan County, MI, Danville, IL, with Vermillion County, IL, and Franklin, KY, with Simpson County, KY, and (c) replace Chicago Height, IL with Chicago, IL under household goods commodity description, sheet No. 2; (3) replace off-route points (in paragraph 1) with county-wide authority as follows: Streator, and Peoria, IL with La Salle, and Peoria Counties, IL; (4) broaden mileage radius territories (in paragraphs 3 and 8) to county-wide, as follows: (a) points in IL, IN, and MI within 300 miles of Chicago to "points in IN, IL (except Alexander, Harden, Johnson, Massac, Pope, Pulaski, and Union Counties, IL) and MI (except Alger, Alpena, Barga, Cheboygan, Delta, Chippewa, Dickinson, Enamet, Gogebia, Houghton, Iron, Luce, Keweennaw, Mackinac, Marquette, Ontonagan, Presque Isle, and Schoolcraft Counties, MI" and (b) points within 15 miles of Kalamazoo, MI to "points in Allegan, Barry, Kalamazoo, St. Joseph, and Van Buren Counties, MI". The purpose of this republication is to provide notice of the territorial expansion in parts 3 and 4, resulting from two recent Commission decisions declaring this type of broadening to be reasonable.

MC 51004 (Sub-11)X, filed May 6, 1981. Applicant: PAUL H. LISKEY, Route 1, Box 67, Kearneysville, WV 25430. Representative: Daniel B. Johnson, 4304 East-West Highway, Washington, DC 20014. Applicant seeks to remove restrictions in the lead and Sub-Nos. 2, 4, 5, 7, 8 and 9 certificates to (1) broaden the commodity description to "minerals" from lime marl in the lead, and Sub-No. 2 and from agricultural lime in Sub-No. 8; to "chemicals and related products" from spray materials and fertilizer in Sub-No. 2, from dry fertilizer and dry agricultural chemicals in Sub-No. 5, and from liquid fertilizer and liquid fertilizer ingredients in Sub-No. 7; to "food and related products" from apples and dried fruits and grain, feed, straw and hay in the lead, from stock foods and fruits in Sub-No. 2, and from feed, feed supplements and feed ingredients in Sub-No. 8; to "machinery" from washing machines in the lead; to "clay, concrete, glass or stone products" from stone and stone products and precast concrete modules in Sub-No. 9, and from crushed stone in Sub-No. 2; to "lumber and wood products" from lumber in Sub-No. 4; to "pulp, paper and related products" from empty bags in Sub-No. 2; to "metal products" from silos in Sub-No. 2 (2) remove plantsite limitation in Sub-No. 5 and replace Charlestown, WV with Jefferson County, WV, (3) change city to county-wide authority (a) in the lead from Western Port, MD, and Piedmont, WV, to Garrett County, MD and Mineral County, WV from Winchester and Berryville, VA, to Winchester and Clarke Counties, VA; from Martinsburg, WV, Hagerstown and Frederick, MD to Berkeley County, WV, and Washington and Frederick Counties, MD (b) in Sub-No. 4 from Pocomoke City, MD, and Martinsburg, WV to Worcester County, MD and Jefferson County, WV (c) in Sub-No. 7 from Mt. Jackson, VA, and Ranson, WV, to Shenandoah County, VA and Jefferson County, WV, (d) in Sub-No. 8 from Camp Hill and York, PA and Charlestown, WV, to Cumberland and York Counties, PA and Jefferson County, WV, (e) in Sub-No. 9 from Hagerstown and Frederick, MD, and Martinsburg, WV, to Washington and Frederick Counties, MD, and Jefferson County, WV, (4) remove exception of Martinsburg, WV, from authority to serve Berkeley County, WV in Sub-No. 9 (5) remove restriction against brick and commodities in bulk in Sub-No. 4, (6) remove restriction against transportation in tank vehicles and (7) change one-way to radial authority between various combination of points in the eastern portion of the United States in the lead, Sub-Nos. 2, 4, 7, 8 and 9.

MC 59014 (Sub-41)X, filed February 27, 1981, and noticed in the FR on March 6, 1981, republished as follows: Applicant: TALLANT TRANSFER, INC., 1341 Second Avenue, S.W., Hickory, NC 28601. Representative: Lawrence E. Lindeman, 1032 Pennsylvania Bldg., Pennsylvania Ave. & 13th St. NW., Washington, DC 20004. Applicant seeks to remove restrictions in its Sub-No. 41X certificate to broaden to county-wide authority its present authority to serve Hickory, NC and points within 25 miles of Hickory as follows: Points in Alexander, Burke, Catawba, Caldwell, Cleveland, Gaston, Iredell, Lincoln, McDowell, Mecklenburg, Rutherford, Watauga, And Wilkes Counties, NC. Following a recent Commission decision declaring this type of broadening to be reasonable, the Board has decided to renotice this application with respect to the proposed expansion to County-wide service.

MC 59014 (Sub-41)X, filed February 27, 1981, and noticed in the FR on March 6, 1981, republished as follows: Applicant: TALLANT TRANSFER, INC., 1341 Second Avenue, S.W., Hickory, NC 28601. Representative: Lawrence E. Lindeman, 1032 Pennsylvania Bldg., Pennsylvania Ave. & 13th St. NW., Washington, DC 20004. Applicant seeks to remove restrictions in its Sub-No. 41X certificate to broaden to country-wide authority its present authority to serve Hickory, NC and points within 25 miles of Hickory as follows: points in Alexander, Burke, Catawba, Caldwell, Cleveland, Gaston, Iredell, Lincoln,

McDowell, Mecklenburg, Rutherford, Watauga, and Wilkes Counties, NC. Following a recent Commission decision declaring this type of broadening to be reasonable, the Board has decided to renotice this application with respect to the proposed expansion to County-wide service.

MC 75406 (Sub-54)X, filed May 4, 1980. Applicant: SUPERIOR FORWARDING COMPANY, INC., 2600 South Fourth Street, St. Louis, Missouri 63118. Representative: Joseph E. Rebman, 314 North Broadway, Suite 1300, St. Louis, Missouri 63102. Applicant seeks to remove restrictions from the lead and Sub-Nos. 10, 12, 17, 18, 19, 24, 26, 27, 29, 31, 32, 33, 34, 36, 37, 38, 39, 40, 43, 44, 46, 49F and 51F certificates to (1) broaden its commodity description from general commodities with exceptions to "general commodities" in the lead and Sub-Nos. 17, 18, 26, 27, 29 and 31; from general commodities with exceptions to "general commodities except Classes A and B explosives" in its Sub-Nos. 10, 12, 19, 24, 32, 33, 34, 36, 37, 38, 39, 40, 43, 44, 46 and 49F; from "agricultural insecticides and agricultural fungicides and tree and weed killing compounds (except commodities inbulk)" to "chemicals and related products" in Sub-No. 51F; (2) authorize service at all intermediate points in connection with regular route operations in AR, IL, and MO in its lead and Sub-Nos. 12 (part 1) 26, 29, 33, 39, 40, 43 and 49F; (3) authorize round trip authority in lieu of one way authority on its regular route in its Sub-No. 39 certificate; and (4) remove "for purpose of joinder only" restriction in Sub-No. 29.

MC 116227 (Sub-20)X, filed May 15, 1981. Applicant: POLMAN TRANSFER, INC., Route 3, Box 470, Wadena, MN 56482. Representative: Robert P. Sack, P.O. Box 6010, West St. Paul, MN 55118. Applicant seeks to remove restrictions in MC–108523 permit to (1) broaden the commodity descriptions from prefabricated buildings, precut building materials and sections, sectionalized and panelled buildings, pre-cut, assembled, or partially assembled units including fixtures, building materials as described in Appendix VI to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209, and lumber and posts to "building materials, as described in Appendix VI to report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209;" and (2) broaden the territory to between points in the United States, under continuing contract(s) with named shippers.

MC 119443 (Sub-43)X, filed May 18, 1981. Applicant: P. E. KRAMME, INC., Main Street, Monroeville, NJ 08343. Representative: James W. Patterson, 1200 Western Savings Bank Bldg., Philadelphia, PA 19107. Applicant seeks to remove restrictions from its lead and Sub-Nos. 34 and 42F certificates, to: (1) broaden commodity descriptions (a) from tetra-ethel lead, anti-knock compounds, dyes, chemicals and articles and materials used in connection with tetra-ethel lead, anti-knock compounds, dyes, and chemicals to "chemicals and related products and petroleum and petroleum products"; from empty containers for tetra-ethel lead, anti-knock compounds, dyes, and chemicals to "containers"; from ethylene dibromide to "chemicals and related products"; and from liquid chocolate, liquid chocolate coatings, liquid chocolate liquor, liquid cocoa butter and liquid vegetable oil coatings to "food and related products and chemicals and related products" in the lead certificate; (b) from chocolate, chocolate products, chocolate liquor, confectionery products, cocoa butter, and vegetable oil to "food and related products and chemicals and related products" in Sub-No. 34; and (c) from chocolate, chocolate products, chocolate liquor, confectioners' products and cocoa butter to "food and related products" in Sub-No. 42F; (2) replace the facilities limitations or specific point authority with city or county-wide authority as follows: (a) Carneys Point and Deepwater point, NJ, with Salem County, NJ, and New Castle County, DE; Lititz, Lancaster, Elizabethtown, and Mount Joy, PA, with Lancaster County, PA; Altoona, PA, with Blair County, PA; Reading, PA, with Berks County, PA; Hershey, PA, with Dauphin County, PA; Mansfield, MA, with Bristol County, MA; Naugatuck, CT, with New Haven County, CT; and Bryan, OH, with William County, OH, wherever they appear in the lead certificate; (b) facilities at or near Elizabethtown, PA and Hackettstown, NJ, with Lancaster County, PA, and Morris and Warren Counties, NJ; facilities at or near Waco, TX, with McLennan County, TX; facilities at or near Albany, GA, and Chicago, IL, with Albany, GA and Chicago, IL, wherever the appear in Sub-No. 34; (3) expand its one-way authority to radial authority between several states in the U.S.; (4) remove the "in bulk, in tank vehicle" restrictions in the lead certificate and in Sub-Nos. 34 and 42F; and (5) remove the "except corn products and sugar" restriction in Sub-No. 42F.

MC 119765 (Sub-98)X, filed May 8, 1981. Applicant: EIGHT WAY EXPRESS, INC., 5402 South 27th St., Omaha, NE 68107. Representative: Arlyn L. Westergren, Suite 201 9202 W. Dodge Rd., Omaha, NE 68114. Applicant seeks to remove restrictions in its Sub-Nos. 5, 8, 22, 38, 44, 46F, 52F, 61F, 64F, 68F, 78F, 93F certificates to (1) broaden the commodity descriptions from meats, meat products, and articles distributed by meat packinghouses, (except hides and commodities in bulk), in Sub-Nos. 5, 8, 22, 38, 44, 46F, 52F, 76F, and 93F, cheese, in Sub-No. 61F, foodstuffs in Sub-No. 64F, and pet food ingredients in Sub-No. 68F, to "food and related products"; (2) remove facilities limitations in all Subs and replace citywide with countywide authority, as follows: (a) Grand Island with Hall County, NE (Sub-No. 5); (b) Council Bluffs with Pottawattamie County, IA (Sub 22); (c) National City with E. St. Louis, IL (Sub-No. 38); (d) Sioux Falls with Minnehaha County, SD (Sub-No. 44); (e) Grand Island, NE and Des Moines, Glenwood, Marshalltown, and Sioux City IA with Hall County, NE and Polk, Mills, Marshall and Woodbury Counties, IA (Sub-No. 46F); (f) Denison, Carroll, Iowa Falls, Sioux City, Fort Dodge and Des Moines, IA, and Crete and Lincoln, NE with Crawford, Carroll, Hardin, Woodbury, Webster and Polk Counties, IA and Saline and Lancaster Counties, NE (Sub-No. 52F); (g) Newman Grove with Madison County, NE (Sub-No. 61F); (h) Fort Dodge, IA, Jefferson, WI, and Sebring, OH with Webster County, IA, Jefferson County, WI and Mahoning County, OH (Sub-No. 68F); (i) Carroll, Denison, Iowa Falls, Cherokee, Des Moines, Fort Dodge, and Sioux City, IA and Crete and Lincoln, NE with Carroll, Crawford, Hardin, Cherokee, Polk, Webster and Woodbury Counties, IA and Saline and Lancaster Counties, NE (Sub-No. 76F); and (j) Omaha with Douglas County, NE (Sub-No. 93F); (3) replace one-way authority with radial authority in all Subs, (4) remove originating at and/or destined to restrictions wherever they appear in the above Sub-Nos; and (5) remove an exception of AK and HI in Sub-No. 61F.

MC 119800 (Sub-7)X, filed May 11, 1981. Applicant: PHILLIP THOMAS TRUCKING, INC., P.O. Box 742, Wynnewood, OK 73098. Representative: T. M. Brown, P.O. Box 1540, Edmond, OK 73034. Applicant seeks to remove restriction in its lead and Sub-Nos. 2F and 3F certificates to (1) broaden the commodity descriptions to "petroleum, natural gas, and their products" from asphalt, returned shipments, and empty asphalt containers in its lead certificate, from fuel oil in Sub-No. 2F, and from asphalt and fuel oil in Sub-No. 3F; (2) eliminate restrictions: (a) "in bulk, in tank vehicles, and in containers" in its lead certifiate, and (b) "in bulk, in tank

vehicles" in Sub-No. 2F; (3) replace named point authority with county-wide authority: (a) Beckett and Wynnewood, OK, and Princton, LA, with Stephens and Garvin Counties, OK, and Bossier Parish, LA, in the lead certificate, (b) Fort Worth, TX, with Tarrant County, TX, in Sub-No. 2F, and (c) Wynnewood, Ardmore, and Cyril, OK, with Garvin, Carter, and Caddo Counties, OK, in Sub-No. 3F; (4) replace plantsite authority with county-wide authority: (a) facilities near Mill Creek, OK, with Johnston County, OK in Sub-No. 2F; (5) replace points in TX within 250 miles of Beckett and Wynnnewood, OK and Princeton, LA in lead certificate with "points in TX in, north, and east of Brazoria, Fort Bend, Austin, Washington, Lee, Milam, Bell, Williamson, Burnett, Llano, Mason, McCulloch, Concho, Tom Green, Sterling, Glasscock, Howard, Martin, Dawson, Terry, Hockley, Lamb, Castro, Deaf Smith, Oldham, Moore, and Sherman Counties, TX;" and (6) replace one-way authority with radial authority between combinations of points in OK, TX, AR, and LA.

MC 123392 (Sub-93)X, filed May 6, 1981. Applicant: JACK B. KELLEY, INC., Route 1, Box 400, Amarillo, TX 79106. Representative: Austin L. Hatchell, P.O. Box 2165, Austin, TX 78768. Applicant seeks to remove restrictions in its lead and Sub-Nos. 4, 7, 16, 19, 23, 24, 27, 30, 31, 34, 48, 52, 54, 59, 61, 68, 69, 72, 73, 75, 80F, 81F, 82F, 83F, 84F, 85F, and 88F certificates to (1) broaden the commodity descriptions to "commodities in bulk" from (a) cryogen liquids (except liquified natural gases, in bulk, in cryogenic trailers) and compressed gases (except cryogenic liquids butane, propane, anhydrous ammonia and sulphur dixoide), in bulk in multi-tubed tank trailers, in Sub-No. 31; (b) compressed gases (except cryogenic liquids, butane propane, anhydrous ammonia, and compressed coal tar products gases other than hydrogen), and cryogenic nitrogen, oxygen, and argon gases, in Sub-No. 59; (c) cryogenic liquids (except liquefied natural gases), in bulk, in tank vehicles, in Sub-No. 61; (d) liquid oxygen, liquid nitrogen, and liquid argon, in tank vehicles, in Sub-Nos. 69 and 73; (e) liquid argon, liquid nitrogen, and liquid oxygen, in bulk, in cryogenic trailers, in Sub-No. 81F; and (f) liquid chemicals (except bromine), in bulk, in tank vehicles, in Sub-No. 80F; (2) remove the "in bulk" restriction in Sub-Nos. 34, 68, 72, 85F and 88F; (3) eliminate "by use of wrecker equipment only" restriction, in Sub-No. 19; (4) eliminate the "in tank vehicles" restriction in Sub-Nos. 68 and 88F and the "in tank trailer" restriction in Sub-No. 85F; (5) remove the except AK and/or HI restrictions in lead and Sub-Nos. 4, 7, 16, 23, 72 and 82; (6) remove plantsite limitations in Sub-Nos. 4, 72, and 82, and replace city-wide authority county-wide authority as folows: Soncy and Exell with Moore and Potter Counties, TX, Keyes with Cimarron County, OK, Otis with Rush County, KS, Shiprock and Gallup with San Juan and McKinley Counties, NM, and Geismar with Ascension Parish, LA, in the lead; Houston with Harris County, TX, in the lead and Sub-No. 88F; Newark with Alameda County, CA, Joliet with Will County, IL, and East Rutherford with Bergen County, NJ, in Sub-No. 16; La Porte with Harris County, TX, in Sub-Nos. 16 and 84F; Marmet and Belle with Kanawha County, WV, in Sub-No. 23; Ft. Worth with Tarrant County, TX, in Sub-No. 24; Henderson with Clark County, NV, Sub-Nos. 24 and 59; Amarillo with potter and Randall counties, TX, in Sub-No. 27; East Chicago with Lake County, IN and Richmond with Contra Costa County, CA in Sub-No. 30; Deer Park with Harris County, TX, in Sub-No. 34; Scott City with Scott County, KS, in Sub-No. 52; Lima with Allen County, OH, and Ft. Dodge and Ft. Madison with Webster and Lee Counties, IA, in Sub-No. 54; East Dubuque with Jo Daviess County, IL, in Sub-Nos. 54 and 59; Clinton with Clinton County, IA, in Sub-Nos. 54 and 68; Lawrence with Douglas County, KS, in Sub-Nos. 54 and 59; Calumet City with Cook County, IL, in Sub-Nos. 59 and 68; East Alton and Peoria, with Madison and Peoria Counties, IL, Great Falls and Missoula with Cascade and Missoula Counties, MT, Las Vegas and Reno with Clark and Washoe Counties, NV, Medford and Salem with Jackson and Marion Counties, OR, Provo, Orem, and Vernal with Utah and Uintah Counties, UT, Kennewick, Kent, Tacoma, and Spokane with Benton, King, Pierce and Spokane counties, WA, Casper with Natrona County, WY, Phoenix with Maricopa County, AZ, and Boise with Ada County, ID, in Sub-No. 59; Cortez with Montezuma County, CO, in Sub-No. 85F; Cameron with Cameron Parish, LA, in Sub-No. 88F; Ulysses with Grant County, KS, in Sub-No. 7; Wichita with Sedgwick County, KS, in Sub-No. 48; Bushton with Rice County, KS, in Sub-No. 72; Waukesha County, WI, in Sub-Nos. 73 and 81F; Odessa with Ector County, TX, in Sub-No. 88F; Magnolia with Columbia County, AR, in Sub-No. 82F; and Gonzales with Ascension Parish, LA, in Sub-No. 84F; and (7) change its one-way authorities to radial authorities between a combination of points in the U.S., wherever in the above named certificates.

MC 124679 (Sub-139)X, filed May 18, 1981. Applicant: C. R. ENGLAND & SONS, INC., 975 West 2100 South, Salt Lake City, UT 84119. Representative: Robert H. Cannon (same address as applicant). Applicant seeks to remove restrictions in its Sub-Nos. 17, 34, 35, 50, 53, 54, 57, 59, 64, 71, 75, 91, 95F, 105F, 115F, 116F, and 123F certificates to: (1) broaden the commodity description to "such merchandise as is dealt in by grocery and food business houses" from (A) meats, meat products, and meat by-products (except lard and lard contents) as described in Section A of Appendix I to the Report and Descriptions in Motor Carrier Certificates, 61 MCC 209 and 706, in vehicles equipped with mechanical refrigeration in Sub-Nos. 17, 91, and 71, (B) foodstuffs (except commodities in bulk) equipped with mechanical refrigeration in Sub-Nos. 34, 35, 54, 57, 59, 64, 75, 95, 105, 115, and 123; "rubber and plastic products" from (a) aluminum sheet plastic impregnated printing plates, in vehicles equipped with mechanical refrigeration in its Sub-No. 50 and (b) rubber tires and materials and supplies in the re-capping of tires in its Sub-No. 53; "furniture and fixtures" from lamps, lanterns, lighting fixtures, intercoms, fans and parts thereof, in Sub-No. 116; (2) expand cities to county-wide authority: (a) Cleveland and Salon, OH, to Cuyahoga County, OH, in Sub-No. 34; (b) Gustine, CA, to Merced County, CA, and Washington Court House, OH, to Fayette County, OH, in Sub-No. 35; (c) Salt Lake City, UT to Salt Lake County, UT in Sub-No. 50, (d) Muscatine to Muscatine County, IA, Salt Lake City to Salt Lake County, UT and Ogden to Weber County, UT in Sub-No. 53, (e) Logansport to Cass County, IN in Sub-No. 59, (f) Salt Lake City to Salt Lake County, UT in Sub-No. 54, (g) St. Charles to Kane County, IL, Rochelle to Ogle County, IL, and Bradley to Kankakee County, IL in Sub-No. 91, (h) from Miami to Dade County, FL, Newport to Jackson County, AR and Langford to Carbon County, PA in Sub-No. 116, (5) authorize radial service in place of existing one-way authority between the counties named above and numberous points throughout the U.S. in Sub-Nos. 17, 34, 35, 50, 53, 54, 57, 59, 64, 71, 75, 91, 95, 105, 115, 116, 123; (6) delete the restriction limiting service to Milton, PA, for interchange purposes only, in Sub-No. 64; (7) remove plantsite facilities restrictions in Sub-Nos. 34, 35, 59, 91; (8) eliminate the exceptions of service to AK and HI in Sub-Nos. 50, 95, 115; (9) remove the restrictions limiting service to the transportation of traffic

originating at or destined to named points in Sub-Nos. 34, 35, 54, 59, 64, 71, 91, and 105.

MC 134493 (Sub-7)X, filed February 18, 1981, previously noticed in the **Federal Register** of March 18, 1981, republished as follows: Applicant: CHICAGO-ST. LOUIS TRANSPORT, INC., 2064 W. 167 St., Markham, IL 60426. Representative: James C. Hardman, 33 N. LaSalle St., Chicago, IL 60602. Applicant seeks to remove restrictions from its Sub-No. 3F certificate. This Board previously broadened the commodity description from malt beverages and empty containers to "food and related products," and authorized county-wide for city-wide authority. Applicant had sought "lumber, wood, metal, clay, concrete, glass, stone, rubber and plastic products, pulp paper and related articles and instruments and photographic goods" for empty containers but was denied this authority on the assumption that the containers could be shipped under implied authority for food and related products. However, the authority for empty containers is independent of food and related products. Therefore, the Restriction Removal Board has decided to renotice this application with respect to the expansion of the container authority. Notice is hereby given that applicant seeks to expand the commodity empty containers to the aforementioned description.

MC 136228 (Sub-44)X, filed May 12, 1981. Applicant: LUISI TRUCK LINES, INC., P.O. Box "H", Milton-Freewater, OR 97862. Representative: Philip G. Skofstad, 1525 N.E. Weidler, Portland, OR 97232. Applicant seeks to remove restrictions in its Sub-Nos. 18, 29, 30, 32, 36F, 37F, 38F, and 41F certificates to (1) broaden the commodity description in Sub-Nos. 18, 29, 30, 36F, 37F, and 41F to "food and related products" from fresh hanging meat in Sub-No. 18, from hanging beef carcasses, fresh and frozen meat and canned vegetables in Sub-No. 29, from canned goods, frozen food, wine and malt beverages in Sub-No. 30, from frozen fruits and frozen vegetables in Sub-No. 36F, from frozen fruits and frozen vegetables in Sub-No. 37F and from beer and wine in Sub-No. 41F; (2) change city-wide to county-wide authority: Spokane County, WA for Spokane, WA Humboldt County, CA for Eureka, CA, Los Angeles County, CA for Los Angeles, CA, San Francisco County, CA for San Francisco, CA, Alameda County, CA for San Leandro, CA, and Santa Clara County, CA for San Jose, CA in Sub-No. 18; Spokane County, WA for Spokane, WA, Multnomah County, OR for Portland, OR, Lane County, OR for Eugene, OR, Jackson County, OR for Medford, OR, Marion County, OR for Sublimity, OR, Umatilla County, OR for Milton-Freewater, OR, and Walla Walla County, WA for Walla Walla, WA in Sub-No. 29; Malheur County, OR for Nyssa, OR, Umatilla County, OR for Pendleton, OR, and Union County, OR for La Grande, OR in Sub-No. 30; Umatilla County, OR for Milton-Freewater, OR and Walla Walla County, WA for Walla Walla, WA in Sub-No. 36F; Umatilla County, OR for Weston, OR and Walla Walla County, WA for Walla Walla, WA in Sub-No. 37F; Multnomah County, OR for Portland, OR, Clark County, WA for Vancouver, WA, Walla Walla County, WA for Walla Walla, WA, Benton County, WA for Kennewick, WA and Asotin County, WA for Clarkston, WA, in Sub-No. 41F; (3) expand one-way to radial authority between (a) Spokane County, WA, and, Humboldt, Los Angeles, San Francisco, Alameda, and Santa Clara Counties, CA, in Sub-No. 18; (b) Spokane County, WA, and Multnomah, Lane, Jackson, and Marion Counties, OR, and Umatilla County, OR, and, Walla Walla County, WA, in Sub-No. 29; (c) Los Angeles, Orange, Riverside, Kern, Fresno, Madera, Merced, Stanislaus, San Joaquin, Santa Clara, Sacramento, San Benito, San Francisco, and Napa Counties, CA, and, points in Malheur, Umatilla and Union Counties, OR, in Sub-No. 30; (d) Walla Walla County, WA, and, points in AZ, CA, NV, and OR, in Sub-No. 32; (e) Walla Walla County, WA, and, points in OR and WA, in Sub-No. 38F; and (f) Multnomah County, OR, Clark County, WA, points in CA, and, Walla Walla, Benton, and Asotin Counties, WA, in Sub-No. 41F; (4) eliminate the facilities limitation in Sub-Nos. 30, 32, and 38F; and (5) remove the restrictions: (a) in boxes in Sub-No. 29; (b) originating at and destined to in Sub-Nos. 30 and 32; and (c) in bulk, in tank vehicles in Sub-Nos. 32, 38F, and 41F.

MC 136782 (Sub-33)X, filed April 16, 1981, previously noticed in the **Federal Register** of May 1, 1981, republished as corrected this issue. Applicant: R.A.N. TRUCKING COMPANY, P.O. Box 128, Eau Claire, PA 16030. Representative: Thomas M. O'Brien, 10 S. LaSalle Street, Suite 1600, Chicago, IL 60603. Applicant seeks to remove retrictions in its Sub-Nos. 16F, 18F, and 24F certificates to (1) broaden the commodity descriptions from (a) meats, meat products, meat by-products and articles distributed by meat-packing houses to "food and related products" Sub-No. 16; (b) plastic and plastic articles to "rubber and plastic products" in Sub-No. 18; (c) general commodities (with exceptions) to "general commodities (except classes A and B explosives)" in Sub-No. 24; (2) remove the restrictions "except commodities in bulk" in Sub-Nos. 16 and 18; (3) eliminate the orginating at or destined to facilities restriction in Sub-No. 16; (4) expand facilities authority to county-wide authority: from Waterford, PA, to Erie County, PA, in Sub-No. 16; and (5) allow radial service in place of existing one-way authority (a) between Brooklyn, NY, and points in OH, PA, IN and IL in Sub-No. 18; (b) between Erie County, PA, and points in CT, DE, MD, MI, IL, IN, KY, MA, NJ, OH, RI, VA, WI and DC, in Sub-No. 16. The purpose of this republication is to add (5)(b) to reflect radial authority between named points in Sub-No. 16.

MC 149052 (Sub-3)X, filed May 15, 1981. Applicant: FIRST FLIGHT AIR CHARTER, INC., P.O. Box 371, Romulus, MI 48174. Representative: William B. Elmer, 624 Third Street, Traverse City, MI 49684. Applicant seeks to remove restrictions from its Sub-Nos. 1 and 2 certificates, to: (1) in Sub-No. 1, change the general commodity description to eliminate the usual exceptions, except classes A and B explosives, change the airport restrictions at Detroit and Ypsilanti, MI to Detroit, MI, and the O'Hare Airport and Midway Airport Chicago restrictions to Chicago, IL, and remove the restrictions against service to intermediate points in the described regular routes to allow service at all intermediate points; (2) in Sub-No. 2, change the airport restrictions at Romulus, MI and Ypsilanti, MI to Detroit, MI, the Toledo Airport restriction to Lucas County, OH, the Greater Pittsburgh Airport to Alleghaney County, PA, and the Cleveland Hopkins Airport to Cuyahoga County, OH.

DEPARTMENT OF JUSTICE

Attorney General

Attorney General's Task Force on Violent Crime; Meeting

The Attorney General's Task Force on Violent Crime will meet from 9:30 a.m. until 5:00 p.m. on June 17, 1981 in the Waldorf Ballroom of the Conrad Hilton Hotel, 720 South Michigan Avenue, Chicago, Illinois and from 9:30 a.m. until 5:00 p.m. on June 18, 1981, in the Exposition Center Room of the Hyatt Regency Hotel, Fairlane Town Center, Dearborn, Michigan.

During the morning of June 17, the Task Force will conclude its consideration of Phase I—how the federal government could do more to combat violent crime within present statutory authority and resource allocations. In the afternoon public testimony will be taken on a wide range of criminal justice issues including the problems of juvenile violence.

Public testimony will again be taken on June 18 on a wide range of criminal justice issues, with special emphasis on the use of guns in the commission of violent crimes.

The meetings will be open to the public. Approximately 200 seats will be available for the public and media representatives on a first-come first-served basis. Persons interested in testifying or with inquiries should contact the Committee Management Liaison Officer, Attorney General's Task Force on Violent Crime, U.S. Department of Justice, Room 4418, Washington, D.C. 20530 (telephone number 202/633–1617).

Jeffrey Harris,

Executive Director.

BILLING CODE 4410–01–M

DEPARTMENT OF LABOR

Employment and Training Administration

Federal-State Unemployment Compensation Program; Extended Benefits; Ending of Extended Benefit Period in the State of Delaware

This notice announces the ending of the Extended Benefit Period in the State of Delaware, effective on May 30, 1981.

Background

The Federal-State Extended Unemployment Compensation Act of 1970 (26 U.S.C. 3304 note) established the Extended Benefit program as a part of the Federal-State Unemployment Compensation Program. The Extended Benefit Program takes effect during periods of high unemployment in a State or the nation, to furnish up to 13 weeks of extended unemployment benefits to eligible individuals who have exhausted their rights to regular unemployment benefits under permanent State and Federal unemployment compensation laws. The Act is implemented by State unemployment compensation laws and by Part 615 of Title 20 of the Code of Federal Regulations (20 CFR Part 615).

Extended Benefits are payable in a State during an Extended Benefit Period which is triggered "on" when the rate of insured unemployment in the State or in all States collectively reaches the State or National trigger rates set in the Act and the State laws. 20 CFR 615.12. During an Extended Benefit Period individuals are eligible for a maximum of up to 13 weeks of benefits, but the total of Extended Benefits and regular benefits together may not exceed 39 weeks.

The Act and the State unemploment compensation laws also provide that an Extended Benefit Period in a State will trigger "off" when the rate of insured unemployment in the State is no longer at the trigger rates set in the law. A benefit period actually terminates at the end of the third week after the week for which there is an off indicator, but not less than 13 weeks after the benefit period began.

An Extended Benefit Period commenced in the State of Delaware on July 20, 1980, and has now triggered off.

Determination of "off" Indicator

The head of the employment security agency of the State of Delaware has determined, in accordance with the State law and 20 CFR 615.12(e), that the rate of insured unemployment in the State for the period consisting of the week ending on May 9, 1981, and the immediately preceding twelve weeks, fell below the State trigger rate, so that for that week there was an "off" indicator in that State.

Therefore, the Extended Benefit Period in that State terminated with the week ending on May 30, 1981.

Information for Claimants

The State employment security agency will furnish a written notice to each individual who is filing claims for Extended Benefits of the end of the Extended Benefit Period and its effect on the individual's right to Extended Benefits. 20 CFR 615.13(d)(3).

Persons who wish information about their rights to Extended Benefits in the State of Delaware should contact the nearest State Employment Office of the Delaware Department of Labor in their locality.

Signed at Washington, D.C., on May 28, 1981.

Albert Angrisani

Assistant Secretary for Employment and Training.

[FR Doc. 81–16417 Filed 6–1–81; 8:45 am]

BILLING CODE 4510–30–M

Occupational Safety and Health Administration

Arizona State Standards; Approval

1. *Background.* Part 1953 of Title 29, Code of Federal Regulations prescribes procedures under section 18 of the Occupational Safety and Health Act 1970 (hereinafter called the Act) by which the Regional Administrator for Occupational Safety and Health (hereinafter called Regional Administrator-OSHA) under a delegation of authority from the Assistant Secretary of Labor for Occupational Safety and Health (hereinafter called the Assistant Secretary) (29 CFR 1953.4) will review and approve standards promulgated pursuant to a State plan which has been approved in accordance with section 18(c) of the Act and 29 CFR Part 1902. On October 29, 1974, notice was published in the **Federal Register** (39 FR 39037) of the approval of the Arizona plan and the adoption of Subpart CC to Part 1952 containing the decision.

The Arizona plan provides for the adoption of Federal standards as State standards after public hearing. Section 1953.20 provides that where " * * * any alteration in the Federal program could have an adverse impact on the 'at least as effective as' status of the State Program, a program change supplement to a State plan shall be required." In response to Federal Standards changes, the State has submitted by letter, with attachments, dated November 17, 1980, from Larry Etchechury, Director, to Gabriel J. Gillotti, Regional Administrator, and incorporated as part of the plan, State standards reflecting all Federal standards changes for 29 CFR Parts 1910, 1926, and 1928, as published in the **Federal Register** from November 1, 1977 to and including FR Vol. 45, No. 39 dated February 26, 1980. These standards, which are contained in the Arizona Occupational Safety and Health Standards, Arizona construction safety and health regulations, and Arizona occupational standards for agriculture were adopted after public hearings and the resolution adopted by the Industrial Commission of Arizona, Division of Occupational Safety and Health, pursuant to the Arizona Occupational Safety and Health Act of 1972.

2. *Decision.* Having reviewed the State standards in comparison to the Federal standards, it has been determined that the State standards are identical to the Federal standards with the exception of the Maritime standards of 29 CFR 1910.13 through 1910.16 (the

State Plan does not cover Maritime), and accordingly should be approved.

3. *Location of Supplement for Inspection and Copying.* A copy of the standards supplement, along with the approved plan, may be inspected and copied during normal business hours at the following locations: Office of the Regional Administrator—OSHA, 450 Golden Gate Avenue, San Francisco, CA 94102; Director, Division of Occupational Safety and Health, 1524 West Adams, Phoenix, AZ 85007; and Federal and State Operations, Room N–3613, 200 Constitution Avenue, Washington, D.C. 20210.

4. *Public Participation.* Under 29 CFR 1953.2(c), the Assistant Secretary may prescribe alternative procedures to expedite the review process or for other good cause which may be consistent with applicable laws. The Assistant Secretary finds that good cause exists for not publishing the supplement to the Arizona State plan as a proposed change and making the Regional Administrator—OSHA's approval effective upon publication for the following reasons:

1. The standards are identical to the Federal Standards which were promulgated in accordance with Federal law including meeting requirements for public participation.

2. The Standards were adopted in accordance with the procedural requirements of State law and further public participation and comment would be unnecessary.

This decision is effective June 2, 1981.

(Sec. 18, Pub. L. 91–596, 84 Stat. 1608 (29 U.S.C. 667))

Signed at San Francisco, California, this 27th day of February 1981.

Gabriel J. Gillotti,

Regional Administrator.

BILLING CODE 4510–26–M

Office of Pension and Welfare Benefit Programs

[Prohibited Transaction Exemption 81–40; Exemption Application No. D–509]

Exemption From the Prohibitions for a Certain Transaction Involving the Fireman's Fund American Incentive Savings and Supplemental Retirement Plan and Trust Located in San Francisco, Calif.

AGENCY: Department of Labor.

ACTION: Grant of Individual Exemption.

SUMMARY: This exemption exempts the sale to the Fireman's Fund American Incentive Savings and Supplemental Retirement Plan and Trust (the Plan) of a $1,000,000 negotiable certificate of deposit by Wells Fargo Bank (the Bank), a party in interest.

EFFECTIVE DATE: This exemption is effective March 31, 1975.

FOR FURTHER INFORMATION CONTACT: Ivan Strasfeld of the Office of Fiduciary Standards, Pension and Welfare Benefit Programs, Room C–4526, U.S. Department of Labor, 200 Constitution Avenue, NW., Washington, D.C. 20216. (202) 523–8971. (This is not a toll-free number.)

SUPPLEMENTARY INFORMATION: On February 10, 1981, notice was published in the Federal Register (46 FR 11728) of the pendency before the Department of Labor (the Department) of a proposal to grant an exemption from the restrictions of section 406(a) of the Employee Retirement Income Security Act of 1974 (the Act) and from the sanctions resulting from the application of section 4975 of the Internal Revenue Code of 1954 (the Code) by reason of section 4975(c)(1) (A) through (D) of the Code, for the transaction described in an application filed by the Bank. The notice set forth a summary of facts and representations contained in the application for exemption and referred interested persons to the application for a complete statement of the facts and representations. The application has been available for public inspection at the Department in Washington, D.C. The notice also invited interested persons to submit comments on the requested exemption to the Department. The applicant has represented that it has complied with the requirements of the notice to interested persons as set forth in the notice of pendency of the proposed exemption. No public comments were received by the Department.

This application was filed with both the Department and the Internal Revenue Service. However, the notice of pendency was issued and the exemption is being granted solely by the Department because, effective December 31, 1978, section 102 of Reorganization Plan No. 4 of 1978 (43 FR 47713, October 17, 1978) transferred the authority of the Secretary of the Treasury to issue exemptions of the type proposed to the Secretary of Labor.

General Information

The attention of interested persons is directed to the following:

(1) The fact that a transaction is the subject of an exemption granted under section 408(a) of the Act and section 4975(c)(2) of the Code does not relieve a fiduciary or other party in interest or disqualified person with respect to a plan to which the exemption is applicable from certain other provisions of the Act and the Code. These provisions include any prohibited transaction provisions to which the exemption does not apply and the general fiduciary responsibility provisions of section 404 of the Act, which among other things require a fiduciary to discharge his or her duties respecting the plan solely in the interest of the participants and beneficiaries of the plan and in a prudent fashion in accordance with section 404(a)(1)(B) of the Act nor does the fact the transaction is the subject of an exemption affect the requirement of section 401(a) of the Code that a plan must operate for the exclusive benefit of the employees of the employer maintaining the plan and their beneficiaries.

(2) This exemption does not extend to transactions prohibited under section 406(b) of the Act and section 4975(c)(1) (E) and (F) of the Code.

(3) This exemption is supplemental to, and not in derogation of, any other provisions of the Act and the Code, including statutory or administrative exemptions and transitional rules. Furthermore, the fact that a transaction is subject to an administrative or statutory exemption or transitional rule is not dispositive of whether the transaction is, in fact, a prohibited transaction.

Exemption

In accordance with section 408(a) of the Act and section 4975(c)(2) of the Code and the procedures set forth in ERISA Procedure 75–1 (40 FR 18471, April 28, 1975), and based upon the entire record, the Department makes the following determinations:

(a) The exemption is administratively feasible;

(b) It is in the interests of the Plan and of its participants and beneficiaries; and

(c) It is protective of the rights of the participants and beneficiaries of the Plan.

Accordingly, the restrictions of section 406(a) of the Act and the sanctions resulting from the application of section 4975 of the Code, by reason of section 4975(c)(1) (A) through (D) of the Code, shall not apply effective March 31, 1975 to the sale of a $1,000,000 Citibank certificate of deposit by the Bank for the amount of $999,486.80 plus accrued interest to the Plan, provided that amount was not more than the fair market value of the certificate of deposit at the time of sale.

The availability of this exemption is subject to the express condition that the material facts and representations

contained in the application are true and complete, and that the application accurately describes all material terms of the transaction to be consummated pursuant to this exemption.

Signed at Washington, D.C., this 26th day of May, 1981.

Ian D. Lanoff,

Administrator, Pension and Welfare Benefit Programs, Labor-Management Services Administration, U.S. Department of Labor

[FR Doc. 81-16383 Filed 6-1-81; 8:45 am]

BILLING CODE 4510-29-M

[Prohibited Transaction Exemption 81-42; Exemption Application No. D-2152]

Exemption From the Prohibitions for Certain Transactions Involving the Utah Carpenters and Cement Masons' Vacation Trust Fund, Located in Salt Lake City, Utah

AGENCY: Department of Labor.

ACTION: Grant of Individual Exemption.

SUMMARY: This exemption permits the transfer of certain forfeited funds from the Utah Carpenters and Cement Masons' Vacation Trust Fund (the Vacation Plan) to the Utah Carpenters and Cement Masons' Health and Welfare Trust Fund (the Welfare Plan).

FOR FURTHER INFORMATION CONTACT: Ms. Jan Broady of the Office of Fiduciary Standards, Pension and Welfare Benefit Programs, Room C-4526, U.S. Department of Labor, 200 Constitution Avenue, N.W., Washington, D.C. 20216. (202) 523-7222. (This is not a toll-free number.)

SUPPLEMENTARY INFORMATION: On March 24, 1981, notice was published in the **Federal Register** (46 FR 18416) of the pendency before the Department of Labor (the Department) of a proposal to grant an exemption from the restrictions of section 406(b)(2) of the Employee Retirement Income Security Act of 1974 (the Act) for a transaction described in an application filed on behalf of the Vacation Plan. The notice sets forth a summary of facts and representations contained in the application for exemption and referred interested persons to the application for a complete statement of the facts and representations. The application has been available for public inspection at the Department in Washington, D.C. The notice also invited interested persons to submit comments on the requested exemption to the Department. In addition, the notice stated that any interested person might submit a written request that a public hearing be held relating to this exemption. The applicant has represented that a copy of the notice and an accompanying letter have been provided to all interested persons so as to comply with the notification requirements set forth in the notice of pendency. No public comments and no requests for a hearing were received by the Department.

General Information

The attention of interested persons is directed to the following:

(1) The fact that a transaction is the subject of an exemption granted under section 408(a) of the Act does not relieve a fiduciary or other party in interest or disqualified person with respect to a plan to which the exemption is applicable from certain other provisions of the Act. These provisions include any prohibited transaction provisions to which the exemption does not apply and the general fiduciary responsibility provisions of section 404 of the Act, which among other things require a fiduciary to discharge his or her duties respecting the plan solely in the interest of the participants and beneficiaries of the plan and in a prudent fashion in accordance with section 404(a)(1)(B) of the Act.

(2) This exemption does not extend to transactions prohibited under section 406(a), 406 (b)(1) and (b)(3) of the Act.

(3) This exemption is supplemental to, and not in derogation of, any other provisions of the Act including statutory or administrative exemptions and transitional rules. Furthermore, the fact that a transaction is subject to an administrative or statutory exemption or transitional rule is not dispositive of whether the transaction is, in fact, a prohibited transaction.

Exemption

In accordance with section 408(a) of the Act and the procedures set forth in ERISA Procedure 75-1 (40 FR 18471, April 28, 1975), and based upon the entire record, the Department makes the following determinations:

(a) The exemption is administratively feasible;

(b) It is in the interests of the Vacation Plan, the Welfare Plan and of their participants and beneficiaries; and

(c) It is protective of the rights of the participants and beneficiaries of the Vacation Plan and the Welfare Plan.

Accordingly the restrictions of section 406(b)(2) of the Act shall not apply to the transfer by the Vacation Plan to the Welfare Plan of uncommitted reserves in the amount of approximately $77,000, together with any additional forfeitures which may accrue to the Vacation Plan due to the termination of that plan.

The availability of this exemption is subject to the express condition that the material facts and representations contained in the application are true and complete, and that the application accurately describes all material terms of the transaction to be consummated pursuant to this exemption.

Signed at Washington, D.C., this 26th day of May, 1981.

Ian D. Lanoff,

Administrator, Pension and Welfare Benefit Programs, Labor-Management Services Administration, U.S. Department of Labor.

BILLING CODE 4510-29-M

[Prohibited Transaction exemption 81-41; Exemption Application No. D-1891]

Exemption From the Prohibitions for Certain Transactions Involving the Rochester Internal Medicine Professional Association Employees Retirement Plan Located in Rochester, New Hampshire

AGENCY: Department of Labor.

ACTION: Grant of Individual Exemption.

SUMMARY: This exemption permits the sale of a parcel of unimproved real property (the Property) by the Rochester Internal Medicine Professional Association Retirement Plan (the Plan) to Peter M. Ejarque (Ejarque), a party in interest with respect to the Plan.

FOR FURTHER INFORMATION CONTACT: Mr. David Stander of the Office of Fiduciary Standards, Pension and Welfare Benefit Programs, Room C-4526, U.S. Department of Labor, 200 Constitution Avenue, NW., Washington, D.C. 20216, (202) 523-8881. (This is not a toll-free number.)

SUPPLEMENTARY INFORMATION: On April 10, 1981, notice was published in the **Federal Register** (46 FR 21496) of the pendency before the Department of Labor (the Department) of a proposal to grant an exemption from the restrictions of section 406(a), 406(b)(1) and 406(b)(2) of the Employee Retirement Income Security Act of 1974 (the Act) and from the sanctions resulting from the application of section 4975 of the Internal Revenue Code of 1954 (the Code) by reason of section 4975(c)(1)(A) through (E) of the Code, for the above-described transaction. The notice set forth a summary of facts and representations contained in the application for exemption and referred interested persons to the application for a complete statement of the facts and representations. The application has been available for public inspection at the Department in Washington, D.C. The notice also invited interested persons to

submit comments on the requested exemption to the Department. In addition the notice stated that any interested person might submit a written request that a public hearing be held relating to this exemption. The applicant has represented that a copy of the notice was distributed to interested persons as required in the notice of pendency. No public comments and no requests for a hearing were received by the Department.

The notice of pendency was issued and the exemption is being granted solely by the Department because, effective December 31, 1978, section 102 of Reorganization Plan No. 4 of 1978 (43 FR 47713, October 17, 1978) transferred the authority of the Secretary of the Treasury to issue exemptions of the type proposed to the Secretary of Labor.

General Information

The attention of interested persons is directed to the following:

(1) The fact that a transaction is the subject of an exemption granted under section 408(a) of the Act and section 4975(c)(2) of the Code does not relieve a fiduciary or other party in interest or disqualified person with respect to a plan to which the exemption is applicable from certain other provisions of the Act and the Code. These provisions include any prohibited transaction provisions to which the exemption does not apply and the general fiduciary responsibility provisions of section 404 of the Act, which among other things require a fiduciary to discharge his or her duties respecting the plan solely in the interest of the participants and beneficiaries of the plan and in a prudent fashion in accordance with section 404(a)(1)(B) of the Act; nor does the fact the transaction is the subject of an exemption affect the requirement of section 401(a) of the Code that a plan must operate for the exclusive benefit of the employees of the employer maintaining the plan and their beneficiaries.

(2) This exemption does not extend to transactions prohibited under section 406(b)(3) of the Act and section 4975(c)(1)(F) of the Code.

(3) This exemption is supplemental to, and not in derogation of, any other provisions of the Act and the Code, including statutory or administrative exemptions and transitional rules. Furthermore, the fact that a transaction is subject to an administrative or statutory exemption or transitional rule is not dispositive of whether the transaction is, in fact, a prohibited transaction.

Exemption

In accordance with section 408(a) of the Act and section 4975(c)(2) of the Code and the procedures set forth in ERISA Procedure 75–1 (40 FR 18471, April 28, 1975), and based upon the entire record, the Department makes the following determinations:

(a) The exemption is administratively feasible;

(b) It is in the interests of the Plan and of its participants and beneficiaries; and

(c) It is protective of the rights of the participants and beneficiaries of the Plan.

Accordingly the restrictions of section 406(a), 406(b)(1) and 406(b)(2) of the Act and the sanctions resulting from the application of section 4975 of the Code, by reason of section 4975(c)(1) (A) through (E) of the Code, shall not apply to the sale of the Property by the Plan to Ejarque for $20,100.00 provided that this amount is not less than the fair market value of the Property at the date of sale.

The availability of this exemption is subject to the express condition that the material facts and representations contained in the application are true and complete, and that the application accurately describes all material terms of the transaction to be consummated pursuant to this exemption.

Signed at Washington, D.C., this 26th day of May 1981.

[Prohibited Transaction Exemption 81-43; Exemption Application No. D-2444]

Exemption From the Prohibitions for a Certain Transactions Involving Scudder, Stevens & Clark and Related Organizations Located in New York, New York, and Several Other Cities

AGENCY: Department of Labor.

ACTION: Grant of Individual Exemption.

SUMMARY: This exemption exempts the investment of plan assets on behalf of employee benefit plans with respect to which Scudder, Stevens & Clark or any related organization (the Applicants) is a fiduciary, by the Applicants in a venture capital company that receives investment advisory services from Applicants.

FOR FURTHER INFORMATION CONTACT: Carol D. Gold of the Office of Fiduciary Standards, Pension and Welfare Benefit Programs, Room C–4526, U.S. Department of Labor, 200 Constitution Avenue, NW, Washington, D.C. 20216, (202) 523–8971. (This is not a toll-free number.)

SUPPLEMENTARY INFORMATION: On April 3, 1981, notice was published in the **Federal Register** (46 FR 20333) of the pendency before the Department of Labor (the Department) of a proposal to grant an exemption from the restrictions of section 406 of the Employee Retirement Income Security Act of 1974 (the Act) and from the sanctions resulting from the application of section 4975 of the Internal Revenue Code of 1954 (the Code) by reason of section 4975(c)(1) of the Code, for the Applicants' investment of plan assets on behalf of employee benefit plans with respect to which any Applicant is a fiduciary in a venture capital company that receives investment advisory services from the Applicants. The Applicants are Scudder, Stevens & Clark; Scudder, Stevens & Clark, Inc. of Chicago, Illinois; Scudder, Stevens & Clark Incorporated of Los Angeles and San Francisco, California; Scudder, Stevens & Clark Ltd. of Toronto, Ontario, Canada; and Scudder Realty Advisors, Inc. of Los Angeles, California. The notice set forth a summary of facts and representations contained in the application for exemption and referred interested persons to the application for a complete statement of the facts and representations. The application has been available for public inspection at the Department in Washington, D.C. The notice also invited interested persons to submit comments on the requested exemption to the Department. In addition the notice stated that any interested person might submit a written request that a public hearing be held relating to this exemption. The applicant has represented that a copy of the notification requirements set forth in the notice of pendency have been complied with.

The Applicants have requested clarification of condition number 6 of the proposed exemption, which required certain authorizations by and notifications to a plan fiduciary with respect to the client plan, who is independent of each of the Applicants and has no financial interest in these investments. The Applicants note that a plan fiduciary may be independent of the Applicants, but, nevertheless have a financial interest in the proposed investment by virtue of being a plan participant or beneficiary. It is the Department's intent that the plan fiduciary's independence stem from both his or her financial dissociation from the Applicants and the Applicants'

nonparticipation in the selection or designation of the fiduciary. In view of this explanation of the use of the term independent in this exemption, the Department has simplified the first clause of condition 6 of the exemption. No requests for a hearing were received by the Department.

The notice of pendency was issued and the exemption is being granted solely by the Department because, effective December 31, 1978, section 102 of Reorganization Plan No. 4 of 1978 (43 FR 47713, October 17, 1978) transferred the authority of the Secretary of the Treasury to issue exemptions of the type proposed to the Secretary of Labor.

General Information

The attention of interested persons is directed to the following:

(1) The fact that a transaction is the subject of an exemption granted under section 408(a) of the Act and section 4975(c)(2) of the Code does not relieve a fiduciary or other party in interest or disqualified person with respect to a plan to which the exemption is applicable from certain other provisions of the Act and the Code. These provisions include any prohibited transaction provisions to which the exemption does not apply and the general fiduciary responsibility provisions of section 404 of the Act, which among other things require a fiduciary to discharge his or her duties respecting the plan solely in the interest of the participants and beneficiaries of the plan and in a prudent fashion in accordance with section 404(a)(1)(B) of the Act; nor does the fact the transaction is the subject of an exemption affect the requirement of section 401(a) of the Code that a plan must operate for the exclusive benefit of the employees of the employer maintaining the plan and their beneficiaries.

(2) This exemption is supplemental to, and not in derogation of, any other provisions of the Act and the Code, including statutory or administrative exemptions and transitional rules. Furthermore, the fact that a transaction is subject to an administrative or statutory exemption or transitional rule is not dispositive of whether the transaction is, in fact, a prohibited transaction.

Exemption

In accordance with section 408(a) of the Act and section 4975(c)(2) of the Code and the procedures set forth in ERISA Procedure 75–1 (40 FR 18471, April 28, 1975), and based upon the entire record, the Department makes the following determinations:

(a) The exemption is administratively feasible;

(b) It is in the interests of the Plan and of its participants and beneficiaries; and

(c) It is protective of the rights of the participants and beneficiaries of the Plan.

Accordingly, the restrictions of section 406 of the Act and the sanctions resulting from the application of section 4975 of the Code, by reason of section 4975(c)(1) of the Code, shall not apply to the investment by Applicants of the assets of an employee benefit plan with respect to which one or more of the Applicants is a fiduciary within the meaning of section 3(21) of the Act (client-plan), in a venture capital company: (a) That meets the conditions set forth in proposed regulation 29 CFR 2550 401(b–1(e)(1)(ii) (qualifying venture capital company) and (b) that receives investment advisory services from any one or more of the Applicants: Provided that the following conditions are met:

1. Neither Applicants (collectively or individually) nor their shareholders, partners or employees are officers, directors or general partners of any qualifying venture capital company in which Applicants invest assets of a client-plan.

2. The services provided to the qualifying venture capital company by any one of the Applicants are limited to investment advisory services, including but not necessarily limited to:

(a) Providing managers of the company with direct access to Applicants' research, personnel and other professional resources;

(b) Referring appropriate investment opportunities for consideration by the company;

(c) Advising the company on management of cash and money market instruments;

(d) Advising the company on general economic conditions; and

(e) Advising the company on developments in industries identified by the company.

3. No sales commission is paid by the client-plan in connection with the purchase of any interest in the qualifying venture capital company.

4. The client-plan does not pay a redemption fee or penalty in connection with the resale of its interests in the qualifying venture capital company to that company.

5. The client-plan does nor pay to any of the Applicants an investment management fee, investment advisory fee or similar fee with respect to the plan assets invested in the qualifying venture capital company that receives services from any one of the Applicants. This condition shall not preclude payment by the venture capital company to any of the Applicants of invesment advisory fees. If, during any fee period for whch the client-plan has prepaid its investment management, investment advisory or similar fee, the client-plan invests in a qualifying venture capital company that receives services from any of the Applicants, the requirements of this condition shall be deemed met with respect to such prepaid fee if, by a method reasonably designed to accomplish the same, the amount of the prepaid fee that constitutes the fee with respect to the plan assets invested in such company (a) is anticipated and subtracted from the prepaid fee at the time of payment of such fee, (b) is returned to the client-plan no later than during the immediately following fee period, or (c) is offset against the prepaid fee due for a fee period not later than the second fee period subsequent to the investment.

6. A fiduciary with respect to the client-plan, who is independent of each of the Applicants:

(a) Authorizes the investments of the client-plan's assets in qualifying venture capital companies generally;

(b) Receives an offering memorandum describing material information about the qualifying venture capital company in which Applicants will invest the client-plan's assets, including a description of the services to be rendered by Applicants to the company and the compensation to be received by Applicants therefor;

(c) Approves in writing any fee differential (i.e. the fee to be received by Applicants for services to be rendered to the qualifying venture capital company attributable to the client-plan's investment, less the investment management fee otherwise payable to Applicants in connection with the management of those assets) to be earned by Applicants by reason of the investment;

(d) Is thereafter notified of any proposed change in fees to be paid by the qualifying venture capital company to Applicants and approves in witing any fee differential resulting therefrom; and

(e) Receives timely periodic statements concerning the performance of the venture capital company, including an audited annual report by an independent public accounting firm as well as such other information as the fiduciary may reasonably request concerning the operations and investments of the venture capital company.

(f) Receives a copy of the notice of pendency and this exemption prior to

any investment by the Applicants of the client-plan assets in a venture capital company.

The availability of this exemption is subject to the express condition that the material facts and representations contained in the application are true and complete, and that the application accurately describes all material terms of the transaction to be consummated pursuant to this exemption.

Signed at Washington, D.C., this 27th day of May 1981.

Ian D. Lanoff,

Administrator, Pension and Welfare Benefit Programs, Labor-Management Services Administration, U.S. Department of Labor.

BILLING CODE 4510-29-M

[Application No. D-1412]

Proposed Exemption for Certain Transactions Involving the Carpenters Pension Trust for Southern California Located in Los Angeles, Calif.

AGENCY: Department of Labor.

ACTION: Notice of Proposed Exemption.

SUMMARY: This document contains a notice of pendency before the Department of Labor (the Department) of a proposed exemption from certain of the prohibited transaction restrictions of the Employee Retirement Income Security Act of 1974 (the Act) and the Internal Revenue Code of 1954 (the Code). The proposed exemption would exempt retroactively and prospectively the leasing of office space by the Carpenters Pension Trust for Southern California (the Trust) the American Benefit Plan Administrators, Inc. (ABPA), the Martin Segal Company, Inc. (Segal) and Bernard Kotkin Co. (Kotkin), all of whom are parties in interest in relation to the Trust. The proposed exemption, if granted, would affect the trustees, participants and beneficiaries of the Trust, ABPA, Segal, Kotkin and other persons participating in the transaction.

DATE: Written comments must be received by the Department on or before July 17, 1981.

EFFECTIVE DATE: If the proposed exemption is granted, the exemption will be effective from January 1, 1975.

ADDRESS: All written comments (at least three copies) should be sent to the Office of Fiduciary Standards, Pension and Welfare Benefit Programs, Room C-4526, U.S. Department of Labor, 200 Constitution Avenue, NW., Washington, D.C. 20216, Attention: Application No. D-1412. The application for exemption and the comments received will be available for public inspection in the Public Documents Room of Pension and Welfare Benefit Programs, U.S. Department of Labor, Room N-4677, 200 Constitution Avenue, NW., Washington, D.C. 20216.

FOR FURTHER INFORMATION CONTACT: Mrs. Miriam Freund of the Department, telephone (202) 523-8671. (This is not a toll-free number.)

SUPPLEMENTARY INFORMATION: Notice is hereby given of the pendency before the Department of an application for exemption from the restrictions of section 406(a) of the Act and from the sanctions resulting from the application of section 4975 of the Code, by reason of section 4975(c)(1) (A) through (D) of the Code. The proposed exemption was requested in an application filed on behalf of the Trust, pursuant to section 408(a) of the Act and section 4975(c)(2) of the Code, and in accordance with procedures set forth in ERISA Procedure 75-1 (40 FR 18471, April 28, 1975). Effective December 31, 1978, section 102 of Reorganization Plan No. 4 of 1978 (43 FR 47713, October 17, 1978) transferred the authority of the Secretary of the Treasury to issue exemptions of the type requested to the Secretary of Labor. Therefore, this notice of pendency is issued solely by the Department.

Summary of Facts and Representations

The application contains representations with regard to the proposed exemption which are summarized below. Interested persons are referred to the application on file with the Department for the complete representations of the applicant.

1. The Trust is a multiemployer, jointly-trusteed, defined benefit plan, with approximately 47,000 participants. As of the end of 1978, the Trust had total assets of approximately $314,500,000. Included among the Trust's assets are three office buildings in Los Angeles: 500 S. Virgil Avenue (the 500 Building); 520 S. Virgil Avenue (the 520 Building); and 2999 W. Sixth Street (the Sixth Street Building). These properties, together with some subsidiary properties also owned by the Trust, comprise an entire city block which is zoned to permit high rise development. The cost basis of all these properties is $4,104,241, representing approximately 1.2 percent of the Trust's assets as of December 1978.

2. Since May 1, 1973, the Trust has utilized the services of Moran Management Corporation (Moran) to manage the properties. Moran has been engaged in property management for seventeen years and manages a number of other properties for clients unrelated to the Trust. Among the services which Moran provides to the Trust are determination of appropriate rental rates for the properties based upon comparable rates in the area and the negotiation of new leases and renewals of existing leases, subject to the approval of the Trustees of the Trust.

3. The Trust has leased space in all three buildings to unrelated tenants and to three entities which provide services to the Trust. ABPA is the contract plan administrator of the Trust. Segal provides actuarial services to the Trust and Kotkin provides accounting services. The Trust began leasing space in the 520 Building to ABPA in 1966, and has modified and added to that lease subsequent to July 1, 1974 so that ABPA is now leasing portions of the 520 Building and of the 500 Building and all of the Sixth Street Building. In 1967 the Trust began leasing space in the 520 Building to Kotkin and to Segal. Each lease has been renewed and additional space added thereto which has resulted in substantial changes from the property leased prior to July 1, 1974. Kotkin and Segal are parties in interest by reason of being service providers to the Trust. ABPA is a service provider and contributing employer to the Trust. While ABPA may be a fiduciary of the Trust with regard to its activities as contract plan administrator of the Trust, it has no investment authority or discretion with respect to the subject matter of this exemption application. Neither Segal nor Kotkin, is a fiduciary of the Trust.

4. Moran has represented that the rental rates charged to all tenants in the three buildings were consistent with rates charged for comparable space in the area at the time the tenant's lease was entered into. Moran has also stated that it endeavors to lease space to service providers and to unrelated tenants on an impartial basis in accordance with market rentals for comparable space in the area. The terms of the leases to ABPA, Kotkin and Segal are essentially identical to the terms of leases to unrelated tenants. Further, Moran represents that it has no relationship to ABPA, Segal or Kotkin. The applicant states that decisions regarding any future leasing transactions with ABPA, Segal or Kotkin will continue to be made based upon consideration of the recommendation of Moran or a comparable successor property manager which is independent of the service providers involved in the leasing transaction.

5. The applicant represents that the lease transaction satisfy the statutory criteria of section 408(a) of the Act

because: (1) the terms of the transactions can be determined easily from the lease documents and the progress of the lease transactions may be monitored readily from the Trust's records; (2) the transactions involve a small percentage of Trust assets; (3) the Trust is not required to pay any commissions in connection with the leases and, because of the long-term stable tenancies of ABPA, Kotkin and Segal, is spared the normal costs of seeking new tenants; (4) the service providers are charged the same rental rates and given the same terms as are available to unrelated tenants; and (5) the leases are negotiated by a professional property manager which is independent of the service provider lessees.

Notice to Interested Persons

Within ten days after publication of this notice in the **Federal Register**, notice of the proposed exemption will be publicly posted in each employee organization hall and hiring hall where Trust participants and potential employees of employers who are obligated to make contributions to the Trust normally congregate, and will be mailed, postage prepaid, to each employer association, the members of which make contributions to the Trust, and to each employee organization whose members are participants in the Trust. The notice will include a copy of this notice of pendency and will inform interested persons of their right to comment on the proposed exemption.

General Information

The attention of interested persons is directed to the following:

(1) The fact that a transaction is the subject of an exemption under section 408(a) of the Act and section 4975(c)(2) of the Code does not relieve a fiduciary or other party in interest or disqualified person from certain other provisions of the Act and the Code, including any prohibited transaction provisions to which the exemption does not apply and the general fiduciary responsibility provisions of section 404 of the Act, which among other things require a fiduciary to discharge his duties respecting the plan solely in the interest of the participants and beneficiaries of the plan and in a prudent fashion in accordance with section 404(a)(1)(B) of the Act; nor does it affect the requirement of section 401(a) of the Code that the plan must operate for the exclusive benefit of the employees of the employer maintaining the plan and their beneficiaries;

(2) The proposed exemption, if granted, will not extend to transactions prohibited under section 406(b) of the Act and section 4975(c)(1) (E) and (F) of the Code;

(3) Before an exemption may be granted under section 408(a) of the Act and section 4975(c)(2) of the Code, the Department must find that the exemption is administratively feasible, in the interests of the plan and of its participants and beneficiaries and protective of the rights of participants and beneficiaries of the plan; and

(4) The proposed exemption, if granted, will be supplemental to, and not in derogation of, any other provisions of the Act and the Code, including statutory or administrative exemptions and transitional rules. Furthermore, the fact that a transaction is subject to an administrative or statutory exemption is not dispositive of whether the transaction is in fact a prohibited transaction.

Written Comments

All interested persons are invited to submit written comments on the pending exemption to the address above, within the time period set forth above. All comments will be made a part of the record. Comments should state the reasons for the writer's interest in the pending exemption. Comments received will be available for public inspection with the application for exemption at the address set forth above.

Proposed Exemption

Based on the facts and representations set forth in the application, the Department is considering granting the requested exemption under the authority of section 408(a) of the act and section 4975(c)(2) of the Code and in accordance with the procedures set forth in ERIAS Procedure 75–1 (40 FR 18471, April 28, 1975). If the exemption is granted, the restrictions of section 406(a) of the Act and the sanctions resulting from the application of section 4975 of the Code, by reason of section 4975(c)(1)(A) through (D) of the Code shall not apply effective January 1, 1975 to the leasing of office space in the 500 Building, the 520 Building and the Sixth Street Building to ABPA, Kotkin and Segal, provided that each leasing transaction which has taken place or will take place was and will be on terms no less favorable to the Trust than terms available in an arm's length transaction with an unrelated third party.

The proposed exemption, if granted, will be subject to the express conditions that the material facts and representations contained in the application are true and complete, and that the application accurately describes all material terms of the transaction to be consummated pursuant to the exemption.

Signed at Washington, D.C., this 27th day of May, 1981.

Ian D. Lanoff,

Administrator, Pension and Welfare Benefit Programs, Labor-Management Services Administration, U.S. Department of Labor.

BILLING CODE 4510-29-M

[Application No. D-1867]

Proposed Exemption for Certain Transactions Involving the Fisher Employees' Profit Sharing Plan and Trust Located in Dickinson, N.Dak.

AGENCY: Department of Labor.

ACTION: Notice of Proposed Exemption.

SUMMARY: This document contains a notice of pendency before the Department of Labor (the Department) of a proposed exemption from certain of the prohibited transaction restrictions of the Employee Retirement Income Security Act of 1974 (the Act) and from certain taxes imposed by the Internal Revenue Code of 1954 (the Code). The proposed exemption would exempt the proposed sale by the Fisher Employees' Profit Sharing Plan and Trust (the Plan) of a parcel of real property located in Stark County, North Dakota to the Fisher Sand and Gravel Company (the Employer), a co-sponsor of the Plan. The proposed exemption, if granted, would affect the participants and beneficiaries of the Plan, the Employer, and other persons participating in the transaction.

DATES: Written comments and requests for a public hearing must be received by the Department on or before July 16, 1981.

ADDRESS: All written comments and requests for a hearing (at least three copies) should be sent to the Office of Fiduciary Standards, Pension and Welfare Benefit Programs, Room C–4562, U.S. Department of Labor, 200 Constitution Avenue, N.W., Washington, D.C. 20216, Attention: Application No. D–1867. The application for exemption and the comments received will be available for public inspection in the Public Documents Room of Pension and Welfare Benefit Programs, U.S. Department of Labor, Room N–4677, 200 Constitution Avenue, N.W., Washington, D.C. 20216.

FOR FURTHER INFORMATION CONTACT: Mr. Louis Campagna of the Department, telephone (202) 523–7352. (This is not a toll-free number.)

SUPPLEMENTARY INFORMATION: Notice is hereby given of the pendency before the

Department of an application for exemption from the restrictions of section 406(a), 406(b)(1) an 406(b)(2) of the Act and from the sanctions resulting from the application of section 4975 of the Code, by reason of section 4975(c)(1)(A) through (E) of the Code. The proposed exemption was requested in an application filed by the Employer, pursuant to section 408(a) of the Act and section 4975(c)(2) of the Code, and in accordance with procedures set forth in ERISA Procedure 75–1 (40 FR 18471, April 28, 1975). Effective December 31, 1978, section 102 of Reorganization Plan No. 4 of 1978 (43 FR 47713, October 17, 1978) transferred the authority of the Secretary of the Treasury to issue exemptions of the type requested to the Secretary of Labor. Therefore, this notice of pendency is issued solely by the Department.

Summary of Facts and Representations

The application contains representations with regard to the proposed exemption which are summarized below. Interested persons are referred to the application on file with the Department for the complete representations of the applicant.

1. The Plan is a profit sharing plan with 110 participants. As of December 31, 1979, the Plan had total assets of $679,575. The Employer and General Steel and Supply Company of Dickinson, North Dakota are the co-sponsors of the Plan. An administrative committee (the Committee) of seven persons administers the Plan and directs the First National Bank of Dickinson, North Dakota, the Trustee of the Plan (the Trustee), in the investment of the assets of the Plan. Gene Fisher and his wife, Sheila Fisher, are members of the Committee as well as officers and principal shareholders of the Employer. Other members of the Committee are employees of the Employer and General Steel and Supply Company.

2. On August 2, 1977, the Committee directed the Trustee to purchase for $50,000 a 15 acre parcel of real property (the Property) located in Stark County, North Dakota from parties unrelated to the Plan. At that time, the Committee contemplated leasing the Property to the Employer. However, upon discovering the lease arrangement would constitute a prohibited transaction under the Act, such lease arrangement was not entered into. Since the purchase, the Property has been, and continues to be, a non-income producing asset of the Plan. On January 8, 1978, Sheila Fisher acquired 30 acres of land adjoining the Property. On August 30, 1978, Dickinson Concrete Products of Dickinson, North Dakota, a corporation 50% owned by Gene Fisher, purchased 10 of the 30 acres from Sheila Fisher and built a concrete block plant (the Concrete Plant) on the 10 acres. As of May 16, 1980, maintenance expenses and real estate taxes incurred by the Plan with respect to the Property totaled $680.

3. The Plan has a 50% interest in the sand and gravel and a 25% interest in other minerals on the Property due to reservations (the Reservations) in the deed for the Property made by prior grantors unrelated to the Plan or the Employer. Because of the Reservations, the applicant represents that there is a potential impairment in the value of the Property to any outside purchaser interested in developing the Property. Also, the applicant represents there is no other convenient market or potential purchaser in the area for the sand and gravel reserves on the Property and that the Property does not have any frontage on a major highway which runs nearby as the Property is cut off by a strip of land retained by the unrelated parties who sold the Property to the Plan. The Employer has not attempted to sell the Property to an outside purchaser. However, because of the proximity of the Concrete Plant and surrounding land of the Employer, the Property has a unique value to the Employer. Therefore, the Employer proposes to purchase the Property from the Plan. An independent appraisal performed by D. W. Knudson of Knudson Appraisal Service of Richardson, North Dakota valued the Property as of May 21, 1980 to any outside purchaser at $47,000. However, because of the unique value and special use of the Property to the Employer, Mr. Knudson valued the Property to the Employer at $65,000. Accordingly, the Plan will receive the greater of $65,000 or the fair market value of the Property at the time of sale. No commissions will be charged the Plan in connection with the sale of the Property. The Trustee of the Plan represents that the proposed sale of the Property is in the best interests of the Plan. In addition, the Liberty National Bank and Trust Company of Dickinson, North Dakota, a party independent of the Employer and the Plan, upon review of all the facts and circumstances surrounding the proposed sale of the Property, has concluded that the proposed sale of the Property is in the best interests of the Plan.

4. In summary, the applicant represents that the proposed transaction meets the statutory criteria of section 408(a) of the Act because: (1) the Trustee and the Liberty National Bank, an independent party, represent that the sale is in the best interests of the Plan; (2) it will be a one time transaction for cash; (3) it will allow the Plan to receive an amount greater than if the sale were to an outside purchaser, as well as realize a substantial gain on the original purchase price of the Property; (4) no real estate commission will be charged the Plan; (5) it will allow the Plan to eliminate an asset which produces no income and which has an impaired value to an outside purchaser; and (6) the sale will be pursuant to an appraisal performed by an independent party that took into account the unique value of the Property to the Employer.

Notice to Interested Persons

Notice of the proposed exemption will be given to the Trustee, the Committee and all participants and beneficiaries of the Plan by first class mail or personal delivery. The notice will include a copy of the notice of pendency and a statement informing interested persons of their right to comment or request a hearing. Notice will be given within 10 days of the publication of the notice of pendency in the **Federal Register**.

General Information

The attention of interested persons is directed to the following: (1) The fact that a transaction is the subject of an exemption under section 408(a) of the Act and section 4975(c)(2) of the Code does not relieve a fiduciary or other party in interest or disqualified person from certain other provisions of the Act and the Code, including any prohibited transaction provisions to which the exemption does not apply and the general fiduciary responsibility provisions of section 404 of the Act, which among other things require a fiduciary to discharge his duties respecting the plan solely in the interest of the participants and beneficiaries of the plan and in a prudent fashion in accordance with section 404(a)(1)(B) of the Act; nor does it affect the requirement of section 401(a) of the Code that the plan must operate for the exclusive benefit of the employees of the employer maintaining the plan and their beneficiaries;

(2) The proposed exemption, if granted, will not extend to transactions prohibited under section 406(b)(3) of the Act and section 4975(c)(1)(F) of the Code;

(3) Before an exemption may be granted under section 408(a) of the Act

and section 4975(c)(2) of the Code, the Department must find that the exemption is administratively feasible, in the interests of the plan and of its participants and beneficiaries and protective of the rights of participants and beneficiaries of the plan; and

(4) The proposed exemption, if granted, will be supplemental to, and not in derogation of, any other provisions of the Act and the Code, including statutory or administrative exemptions and transitional rules. Furthermore, the fact that a transaction is subject to an administrative or statutory exemption is not dispositive of whether the transaction is in fact a prohibited transaction.

Written Comments and Hearing Requests

All interested persons are invited to submit written comments or requests for a hearing on the pending exemption to the address above, within the time period set forth above. All comments will be made a part of the record. Comments and requests for a hearing should state the reasons for the writer's interest in the pending exemption. Comments received will be available for public inspection with the application for exemption at the address set forth above.

Proposed Exemption

Based on the facts and representations set forth in the application, the Department is considering granting the requested exemption under the authority of section 408(a) of the Act and section 4975(c)(2) of the Code and in accordance with the procedures set forth in ERISA Procedure 75–1 (40 FR 18471, April 28, 1975). If the exemption is granted, the restrictions of section 406(a), 406(b)(1) and 406(b)(2) of the Act and the taxes imposed by section 4975 (a) and (b) of the Code, by reason of section 4975(c)(1) (A) through (E) of the Code shall not apply to the sale by the Plan of the Property located in Stark County, North Dakota to the Employer for a cash price of $65,000, provided this amount is not less than the fair market value of the Property at the time of the sale.

The proposed exemption, if granted, will be subject to the express conditions that the material facts and representations contained in the application are true and complete, and that the application accurately describes all material terms of the transaction to be consummated pursuant to the exemption.

Signed at Washington, D.C., this 27th day of May 1981.

Ian D. Lanoff,

Administrator, Pension and Welfare Benefit Programs, Labor-Management Services Administration, U.S. Department of Labor.

Proposed Exemption for Certain Transactions Involving the Pension Plan for Employees of Straub Clinic and Hospital, Inc., Located in Honolulu, Hawaii

AGENCY: Department of Labor.

ACTION: Notice of Proposed Exemption.

SUMMARY: This document contains a notice of pendency before the Department of Labor (the Department) of a proposed exemption from certain of the prohibited transaction restrictions of the Employee Retirement Income Security Act of 1974 (the Act) and the Internal Revenue Code of 1954 (the Code). The proposed exemption would exempt the prospective ground lease of certain real estate by the Pension Plan for Employees of Straub Clinic and Hospital, Inc. (the Plan) to the Straub Clinic and Hospital, Inc. (the Clinic) a party in interest, as Plan sponsor, with respect to the Plan. The proposed exemption, if granted, would affect participants and beneficiaries of the Plan, the Clinic, and other persons participating in the proposed transaction.

DATE: Written comments and requests for a public hearing must be received by the Department on or before July 16, 1981.

ADDRESS: All written comments and requests for a hearing (at least three copies) should be sent to the Office of Fiduciary Standards, Pension and Welfare Benefit Programs, Room C–4526, U.S. Department of Labor, 200 Constitution Avenue, NW, Washington, D.C. 20216. Attention: Application No. D–1685. The application for exemption and the comments received will be available for public inspection in the Public Documents Room of Pension and Welfare Benefit Programs, U.S. Department of Labor, Room N–4677, 200 Constitution Avenue, NW, Washington, D.C. 20216.

FOR FURTHER INFORMATION CONTACT: Mr. Paul R. Antsen of the Department, telephone (202) 523–6915. (This is not a toll-free number.)

SUPPLEMENTARY INFORMATION: Notice is hereby given of the pendency before the Department of an application for exemption from the restrictions of sections 406(a), 406 (b)(1) and (b)(2) and 407(a) of the Act and from the sanctions resulting from the application of section 4975 of the Code, by reason of section 4975(c)(1)(A) through (E) of the Code. The proposed exemption was requested in an application filed by counsel for the Clinic, pursuant to section 408(a) of the Act and section 4975(c)(2) of the Code, and in accordance with procedures set forth in ERISA Procedure 75–1 (40 FR 18471, April 28, 1975). Effective December 31, 1978, section 102 of Reorganization Plan No. 4 of 1978 (43 FR 47713, October 17, 1978) transferred the authority of the Secretary of the Treasury to issue exemptions of the type requested to the Secretary of Labor. Therefore, this notice of pendency is issued solely by the Department.

Summary of Facts and Representations

The application contains representations with regard to the proposed exemption which are summarized below. Interested persons are referred to the application on file with the Department for the complete representations of the applicant.

1. The Plan is a defined benefit pension plan of the unit benefit variety. The Plan satisfies the requirements for qualification contained in section 401(a) of the Code. The Plan is explicitly authorized to acquire and hold employer real property by language contained in the Plan documents and trust agreement. The Plan is administered by the Pension and Profit Sharing Committee (the Committee). The Committee is empowered to establish and determine the Plan's short and long range financial needs. The American Trust Company of Hawaii, Inc. (ATCH) serves as corporate trustee. ATCH is an independent, professional trustee, located in the State of Hawaii, which serves as trustee for 1900 employee pension benefit plans with collective assets of approximately $350 million. The Real Estate Administrative Department of ATCH is responsible for the administration of over four hundred (400) land trusts. ATCH has no commercial relationships with the Straub Clinic. The Plan has approximately 867 participants of which 815 are active participants. The Plan's assets, as of the plan year ending December 30, 1979, were $3,083,443.

2. The Clinic was originally established as a partnership (the Straub Partnership) on January 1, 1921 and was subsequently incorporated under the laws of the State of Hawaii on February 10, 1970. The Clinic engages in the practice of medicine and currently employs approximately 1,080 employees.

As of December 1, 1979, there were 684,576 shares issued and 618,020 shares outstanding. There are sixty-five (65) shareholders of the Clinic each owning 9,508 shares. The Clinic has been a successful operation since its inception. Gross revenues for the fiscal year ending December 31, 1978 were $33,595,328 with net earnings for the same period of $876,496.

3. The Straub Partnership is a general partnership registered under the laws of the State of Hawaii, whose membership is identical with the shareholders of the Clinic. The Straub Partnership exists to hold title to land and improvements thereon and currently leases such property to the Clinic. For the fiscal year ending December 31, 1978 the Straub Partnership held assets of $11,688,421 with net earnings for the same period of $130,672.

4. On January 2, 1969, the Plan purchased real property (the Real Estate) from Pacific Holiday Inc., a party unrelated to both the Plan and the Clinic, for $460,500. The purchase price was based upon the results of an appraisal dated April 30, 1968. The Real Estate consisted of a parcel of unimproved land, containing approximately 31,498 square feet located on South King Street in Honolulu, Hawaii. South King Street is a major thoroughfare in the city of Honolulu. At the time of purchase by the Plan, the appraiser stated that the highest and best use of the Real Estate was commercial building development for medical or other professional occupancy or service and business occupants. The applicant represents that since the time of purchase, the overall development of the area has improved, and it is projected to continue to improve in future years.

5. Since 1969 the Plan has leased the Real Estate to the Straub Partnership. The ground lease agreement (the Lease) commenced on January 2, 1969 and was to run for a term of seventy-five (75) years (until January 1, 2044). The Straub Partnership agreed to construct a building on a portion of the Real Estate within the first ten (10) years of the Lease. On January 2, 1970, the Straub Partnership mortgaged its leasehold interest to the Bank of Hawaii in order to finance the construction of a parking facility on the Real Estate. The building has since been completed in accordance with the agreed upon timetable. On March 6, 1973, the Bank of Hawaii assigned its mortgage interest to the New York Life Insurance Company (NYLC).

6. The Straub Partnership assigned its leasehold interest to the Clinic which now leases directly from the Plan. The Clinic now seeks to renegotiate the Lease (the Renegotiated Lease) in order to obtain an interim financing construction loan in the amount of $10.5 million for the purpose of adding a three story wing to the Clinic's existing complex (the Addition). The construction loan involves interim financing for a period of twenty-four (24) months. Under the terms of the loan arrangement, NYLC has issued a commitment for take-out financing. Both the construction loan and the permanent financing will be secured, in part, by a mortgage on the Clinic's leasehold interest in the Real Estate. While the Clinic will hold title to the Addition during the term of the Renegotiated Lease, the title to the Addition will revert to the Plan on termination or sooner in the event of a default by the Clinic. Should there be a default under the mortgage, the leasehold interest of the Clinic may be assigned to successors in interest who would still be bound by the terms of the Renegotiated Lease. Thus, the Plan's fee interest in the Real Estate will not be jeopardized or subordinated by the financing arrangement involving the leasehold interest.

7. Because the leasehold interest constitutes a portion of the collateral for the loan from NYLC, the term of the Renegotiated Lease must equal or exceed the amortization period for any mortgage on the contemplated improvement. The term of the mortgage will be twenty-five (25) years and it is proposed that the Renegotiated Lease will be for a period of sixty (60) years. Under the terms of the Renegotiated Lease, the Clinic (or any successor lessee) will be obiligated to pay all real property taxes, utilities, rates, assessments and expenses incidental to the maintenance of any improvements made to the Real Estate. The Clinic (or any successor lessee) will maintain, at its own expense, a policy of fire insurance naming both the mortgagee and the Plan as insureds. Such policy will be maintained in an amount which at all times during the term of the Renegotiated Lease equals the full replacement value of the Addition. During the period the mortgage will be in effect, the insurance proceeds shall be payable to the mortgagee to the extent the mortgage is currently outstanding. All other proceeds from the insurance shall inure to the Plan. The damage or destruction of the Addition will not result in a termination of the Renegotiated Lease during the first fifty (50) years of its existence. The Clinic (or any successor lessee) is obligated under the terms of the Renegotiated Lease to rebuild or replace and repair any damage which occurs during the first fifty (50) years of such lease. In the event of fire damage, the mortgagee, or the Plan to the extent of any insurance proceeds received, are obligated to make such monies available to the Clinic (or any successor lessee) to rebuild or replace and repair any damage to the Addition in accordance with the original or otherwise improved plans. Therefore, the Plan's interest in the Addition replaces that of the mortgagee as the mortgage is paid down and becomes firmly established after that date. The Renegotiated Lease also provides that the Clinic (or any successor lessee) shall indemnify or hold harmless the Plan against any loss or expense resulting from the use of the Addition and obtain a policy of landlords', owners', and tennants' liablity insurance to protect against lawsuits involving the business conducted on the Real Estate.

8. To assist in the determination of the fair market rental rate for the Renegotiated Lease, an updated appraisal was performed (with an effective date of December 30, 1979) by John Child & Company, Inc. a professional real estate appraisal firm. This appraisal concluded that the fair market value of the Real Estate was $1,511,904. The Real Estate was subsequently valued at this amount on December 30, 1979 for purposes of the Plan's annual report filing. As of this valuation date, the Real Estate represents fifty (50) percent of Plan assets. Chaney, Brooks and Company, a local real estate management firm, in a letter dated February 2, 1981, has stated that the market rate of return for leases of the type contemplated by the parties negotiated today would be in the neighborhood of 8 percent to the lessor based upon the fee unencumbered market value of the land for the initial known retail period. The Clinic has represented a willingness to pay a nine percent rate of return to the Plan for the leasing of the Real Estate. For computing the nine percent rate of return for the initial rental period a base figure of $1,511,904 will be used. The terms of the Renegotiated Lease also provide that the Clinic will pay for an appraisal after each five year lease term and adjust the rental rates accordingly. The amount of the monthly rental payment will be not less than the monthly rental payment for the preceding five year lease term.

9. ATCH, as corporate trustee of the Plan, generally exercises only custodial authority with respect to assets of the Plan. However, by a separate trust agreement ATCH will become an

independent fiduciary for purposes of this transaction. ATCH will make the determination whether the Plan should enter into the Renegotiated Lease by ensuring that the terms and conditions of such lease are in the best interests of the Plan. Should a decision to enter into the Renegotiated Lease be made, ATCH will be responsible for: monitoring the terms thereof, verifying the timely collection of rental payments, overseeing the periodic reappraisal of the Real Estate by an independent appraiser and enforcing those legal remedies as may be available.

10. In summary, the applicant represents that the proposed transaction will satisfy the statutory criteria of section 408(a) of the Act for the following reasons:

(1) the proposed transaction will provide the Plan with a favorable lease arrangement that will generate a constant stream of income as favorable as would otherwise be available in the marketplace; and the improvements to the Real Estate will result in long range appreciation potential;

(2) the Real Estate will be periodically appraised by an independent appraiser and the rental rate will be adjusted to reflect then current fair market rental value;

(3) based on its gross revenues and number of active participants, the Clinic is a thriving business which is capable of carrying out its obligations under the Renegotiated Lease arrangement; and

(4) the decision to enter into the Renegotiated Lease and the monitoring of the terms and conditions thereof will be made by an independent fiduciary who will determine that the transaction is structured and operated in the best interests of the Plan participants and beneficiaries.

Notice to Interested Persons

Within fourteen (14) days of publication of the proposed exemption in the **Federal Register**, all participants in the Plan will receive by personal delivery or first class mail a copy of the notice of pendency and a statement informing them of their right to comment and their right to request that a hearing be held. A copy of such notice will also be posted at the Clinic. Such notice will also state that all documents related to the proposed transaction will be available for their inspection and copying (without charge) at the Clinic.

General Information

The attention of interested persons is directed to the following:

(1) The fact that a transaction is the subject of an exemption under section 408(a) of the Act and section 4975(c)(2) of the Code does not relieve a fiduciary or other party in interest or disqualified person from certain other provisions of the Act and the Code, including any prohibited transaction provisions to which the exemption does not apply and the general fiduciary responsibility provisions of section 404 of the Act, which among other things require a fiduciary to discharge his duties respecting the plan solely in the interest of the participants and beneficiaries of the plan and in a prudent fashion in accordance with section 404(a)(1)(B) of the Act; nor does it affect the requirement of section 401(a) of the Code that the plan must operate for the exclusive benefit of the employees of the employer maintaining the plan and their beneficiaries;

(2) The proposed exemption, if granted, will not extend to transactions prohibited under section 406(b)(3) of the Act and section 4975(c)(1)(F) of the Code;

(3) Before an exemption may be granted under section 408(a) of the Act and section 4975(c)(2) of the Code, the Department must find that the exemption is administratively feasible, in the interests of the plan and of its participants and beneficiaries and protective of the rights of participants and beneficiaries of the plan; and

(4) The proposed exemption, if granted, will be supplemental to, and not in derogation of, any other provisions of the Act and the Code, including statutory or administrative exemptions and transitional rules. Furthermore, the fact that a transaction is subject to an administrative or statutory exemption is not dispositive of whether the transaction is in fact a prohibited transaction.

Written Comments and Hearing Requests

All interested persons are invited to submit written comments or requests for a hearing on the pending exemption to the address above, within the time period set forth above. All comments will be made a part of the record. Comments should state the reasons for the writer's interest in the pending exemption. Comments received will be available for public inspection with the application for exemption at the address set forth above.

Proposed Exemption

Based on the facts and representations set forth in the application, the Department is considering granting the requested exemption under the authority of section 408(a) of the Act and section 4975(c)(2) of the Code and in accordance with the procedures set forth in ERISA Procedure 75-1 (40 FR 18471, April 28, 1975). If the exemption is granted, the restrictions of sections 406(a), 406 (b)(1) and (b)(2), and 407(a) of the Act and the sanctions resulting from the application of section 4975 of the Code, by reason of section 4975(a)(1) (A) through (E) of the Code shall not apply to the Renegotiated Lease of the Real Estate located on South King Street in Honolulu, Hawaii by the Plan to the Clinic as set forth in the application for exemption, provided that the terms and conditions of the lease arrangement remain as favorable to the Plan as would otherwise be available with an unrelated third party.

The proposed exemption, if granted, will be subject to the express conditions that the material facts and representations contained in the application are true and complete, and that the application accurately describes all material terms of the transaction to be consummated pursuant to the exemption.

Signed at Washington, D.C., this 27th day of May, 1981.

Ian D. Lanoff,

Administrator, Pension and Welfare Benefit Programs, Labor-Management Services Administration, Department of Labor.

BILLING CODE 4510-29-M

[Application No. D-2370]

Proposed Exemption for Certain Transactions Involving the Tharco Affiliated Companies Profit Sharing Plan Trust Located in San Lorenzo, Calif.

AGENCY: Department of Labor.

ACTION: Notice of Proposed Exemption.

SUMMARY: This document contains a notice of pendency before the Department of Labor (the Department) of a proposed exemption from certain of the prohibited transaction restrictions of the Employee Retirement Income Security Act of 1974 (the Act) and the Internal Revenue Code of 1954 (the Code). The proposed exemption would exempt the proposed loan (the Plan Loan) of money by the Tharco Affiliated Companies Profit Sharing Plan Trust (the Plan) to Tharco Containers Colorado, Inc. (TCC), a party in interest with respect to the Plan. The proposed exemption, if granted, would affect the participants and beneficiaries of the Plan and TCC.

DATES: Written comments and requests for a public hearing must be received by the Department on or before July 17, 1981.

ADDRESS: All written comments and requests for a hearing (at least three copies) should be sent to the Office of Fiduciary Standards, Pension and Welfare Benefit Programs, Room C–4526, U.S. Department of Labor, 200 Constitution Avenue NW., Washington, D.C. 20216. Attention: Application No. D–2370. The application for exemption and the comments received will be available for public inspection in the Public Documents Room of Pension and Welfare Benefit Programs, U.S. Department of Labor, Room N–4677, 200 Constitution Avenue NW., Washington, D.C. 20216.

FOR FURTHER INFORMATION CONTACT: Horace C. Green of the Department, telephone (202) 523–8196. (This is not a toll-free number.)

SUPPLEMENTARY INFORMATION: Notice is hereby given of the pendency before the Department of an application for exemption from the restrictions of section 406a), 406 (b)(1) and (b)(2) of the Act and from the sanctions resulting from the application of section 4975 of the Code, by reason of section 4975(c)(1) (A) through (E) of the Code. The proposed exemption was requested in an application filed on the behalf of the Plan and TCC, pursuant to section 408(a) of the Act and section 4975(c)(2) of the Code, and in accordance with procedures set forth in ERISA Procedure 75–1 (40 FR 18471, April 28, 1975).

Effective December 31, 1978, section 102 of Reorganization Plan No. 4 of 1978 (43 FR 47713, October 17, 1978) transferred the authority of the Secretary of the Treasury to issue exemptions of the type requested to the Secretary of Labor. Therefore, this notice of pendency is issued solely by the Department.

Summary of Facts and Representations

The application contains representations with regard to the proposed exemption which are summarized below. Interested persons are referred to the application on file with the Department for the complete representations of the applicants.

1. TCC, a manufacturer of corrugated and plastic products for packaging, is a contributing employer with respect to the Plan. The Plan is a profit sharing plan that had total assets of $1,241,169 and 47 participants as of December 12, 1980. The assets of the Plan are held by Sumitomo Bank of California as trustee (the Trustee). The advisory committee (the Committee) directs all investments for the Plan. The individuals who comprise the Committee and make the investment decisions for the Plan are as follows: Hector W. Aitchison, James F. Aitchison and Marlin K. Wakefield. All of these individuals are participants of the Plan and are also officers and directors of TCC. James F. Aitchison and his brother, Thomas Aitchison, own 100 percent of the outstanding stock of TCC.

2. TCC and the Plan are requesting an exemption which would permit the Plan to make the Plan Loan to TCC. The Plan Loan would be used by TCC to retire an existing loan (the Existing Loan), which TCC entered into on March 12, 1979, with Wells Fargo Bank of San Francisco (Wells Fargo Bank) in the amount of $435,000. Wells Fargo Bank is otherwise independent of the parties to the transaction. The proceeds from the Existing Loan were used to purchase ■ Flexo-Folder Gluer. The Existing Loan is evidenced by a promissory note made payable to Wells Fargo Bank. The term of this note is seven years and repayments are made monthly to cover principal and interest. The Existing Loan has a floating interest rate of 1 1/4 percent over the Well Fargo Bank prime rate. As of January 20, 1981, the outstanding balance of the Existing Loan was $357,315.

3. The proposed Plan Loan will be an amount equal to the outstanding balance of the Existing Loan on the date the exemption grant is published in the **Federal Register**. It will have a floating interest rate of 1 1/4 percent over the Wells Fargo Bank prime rate but in no event will the interest rate be less than 12 percent. The Plan Loan will have a term of five years. Repayments will be made in monthly installments to cover principal and interest. The Plan Loan will represent approximately 29 percent of the assets of the Plan as of December 12, 1980.

4. The Plan Loan will be secured by certain tangible assets of TCC (the Collateral), located at 13400 East 39th Street, Denver, Colorado (TCC's principal place of business) and 222 Grant Avenue, San Lorenzo, California. The Collateral will include a Flexo-Folder Gluer, certain machinery, office furniture and equipment, tools and miscellaneous, stored equipment, industrial trucks, battery chargers, dies, jigs, and fixtures. A security agreement (the Security Agreement) and UCC financing statements (collectively, the Documents) will be executed by TCC and the Plan recording the Plan's secured interest in the Collateral. The Documents will be duly filed in each states where the Collateral is located. The Security Agreement provides that: (a) the Collateral will be kept in good operating condition and repair; (b) TCC shall keep the Collateral fully insured; (c) the Collateral will be free of liens except as permitted under the Security Agreement; and (d) TCC will be required to provide additional Collateral when, in the judgment of the Trustee, the market value of the Collateral is less than 200 percent of the remaining unpaid balance of the Plan Loan. In such an instance, the Trustee will be provided with independent appraisals of additional Collateral, the cost of which will be borne by TCC. It is represented that, if the Collateral is less than 200 percent and additional Collateral can not be provided, TCC will pay the Plan in full the outstanding balance of the Plan Loan plus any incidental costs arising from the default by TCC. An independent appraisal performed by the General Appraisal Company of San Francisco, California valued the Collateral at $670,000 as of October 16, 1979.

5. The Trustee, notwithstanding its position as directed trustee, represents that with respect to the proposed transaction, it will at all times be operating in an independent manner. The Trustee has stated that it believes that the proposed Plan Loan is in the best interests of and is appropriate for the Plan. The Trustee will monitor all terms and conditions of the Plan Loan and will enforce collection of the Plan Loan in the event of default. It will require TCC to obtain subsequent independent appraisals of the Collateral annually at TCC's expense, to ensure that the value of the Collateral remains at 200 percent of the outstanding balance of the Plan Loan.

6. In summary, the applicants represent that the proposed Plan Loan satisfies the statutory criteria of section 408(a) of the Act because: (a) the Trustee has determined that the proposed transaction is appropriate for the Plan and is in the best interests of the Plan participants and beneficiaries; (b) the Plan Loan will at all times be secured by the Collateral with a value of at least 200 percent of the outstanding balance of the Plan Loan; (c) the Collateral will be annually appraised by an independent appraiser, the cost of which will be borne by TCC; (d) the Plan will have a perfected first security interest in the Collateral; and (e) the terms of the proposed Plan Loan are more favorable to the Plan than the terms of the Existing Loan are to Wells Fargo Bank.

Notice to Interested Persons

Notice of the proposed exemption will be provided to all of the Plan participants and beneficiaries within 15 days of the day the Notice of Pendency of such exemption is published in the

Federal Register by hand delivery or by first class mail. Such notice shall inform interested persons of their right to comment and to request a hearing regarding the requested exemption within the period set forth in the Notice of Pendency.

General Information

The attention of interested persons is directed to the following:

(1) The fact that a transaction is the subject of an exemption under section 408(a) of the Act and section 4975(c)(2) of the Code does not relieve a fiduciary or other party in interest or disqualified person from certain other provisions of the Act and the Code, including any prohibited transaction provisions to which the exemption does not apply and the general fiduciary responsibility provisions of section 404 of the Act, which among other things require a fiduciary to discharge his duties respecting the plan solely in the interest of the participants and beneficiaries of the plan and in a prudent fashion in accordance with section 404(a)(1)(B) of the Act; nor does it affect the requirement of section 401(a) of the Code that the plan must operate for the exclusive benefit of the employees of the employer maintaining the plan and their beneficiaries;

(2) The proposed exemption, if granted, will not extend to transactions prohibited under section 406(b)(3) of the Act and section 4975(c)(1)(F) of the Code;

(3) Before an exemption may be granted under section 408(a) of the Act and section 4975(c)(2) of the Code, the Department must find that the exemption is administratively feasible, in the interests of the plan and of its participants and beneficiaries and protective of the rights of participants and beneficiaries of the plan; and

(4) The proposed exemption, if granted, will be supplemental to, and not in derogation of, any other provisions of the Act and the Code, including statutory or administrative exemptions and transitional rules. Furthermore, the fact that a transaction is subject to an administrative or statutory exemption is not dispositive of whether the transaction is in fact a prohibited transaction.

Written Comments and Hearing Requests

All interested persons are invited to submit written comments or requests for a hearing on the pending exemption to the address above, within the time period set forth above. All comments will be made a part of the record. Comments and requests for a hearing should state the reasons for the writer's interest in the pending exemption. Comments received will be available for public inspection with the application for exemption at the address set forth above.

Proposed Exemption

Based on the facts and representations set forth in the application, the Department is considering granting the requested exemption under the authority of section 408(a) of the Act and section 4975(c)(2) of the Code and in accordance with the procedures set forth in ERISA Procedure 75–1 (40 FR 18471, April 28, 1975). If the exemption is granted, the restrictions of section 406(a), 406 (b)(1) and (b)(2) of the Act and the sanctions resulting from the application of section 4975 of the Code, by reason of section 4975(c)(1) (A) through (E) of the Code shall not apply to the Plan Loan as described herein, provided that the terms of the Plan Loan remain at least as favorable as an arms-length transaction would be with an unrelated party.

The proposed exemption, if granted, will be subject to the express conditions that the material facts and representations contained in the application are true and complete, and that the application accurately describes all material terms of the transaction to be consummated pursuant to the exemption.

Signed at Washington, D.C., this 27th day of May 1981.

Ian D. Lanoff,

Administrator, Pension and Welfare Benefit Programs, Labor-Management Services Administration, U.S. Department of Labor.

BILLING CODE 4510-29-M

Office of the Secretary

[TA-W-10,177]

Asheville Mica Co.; Certification Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with Section 223 of the Trade Act of 1974 (19 U.S.C. 2273) the Department of Labor herein presents the results of an investigation regarding certification of eligibility to apply for worker adjustment assistance.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements of Section 222 of the Act must be met. It is determined in this case that all of the requirements have been met.

The investigation was initiated on August 18, 1980 in response to a petition which was filed on behalf of workers at Asheville Mica Company, Newport News, Virginia. The workers produce stamped mica parts used as heat and electrical insulators.

U.S. imports of mica products (cut or stamped to form) increased absolutely during 1978 as compared to 1977, during 1979 was compared to 1978 and during the January–June period of 1980 as compared to the corresponding period of 1979.

The production process at Asheville Mica Company consists of cleaning, grading and splitting raw mica sheets into specified widths and then stamping the parts. Asheville Mica Company purchases some imported mica sheets which are already cleaned, graded and split; these sheets were purchased in increasing quantities from foreign sources in 1979 compared to 1978. Asheville Mica Company continued to use imported graded mica sheets during the January–August period of 1980.

The Department of Labor surveyed the customers of Asheville Mica Company. Customers accounting for a significant proportion of Asheville Mica's 1978 sales reduced purchases from Asheville Mica and from other domestic sources while increasing purchases of imported mica parts similar to those manufactured by Asheville during 1979 compared to 1978 and during 1980 compared to 1979.

Conclusion

After careful review of the facts obtained in the investigation, I conclude that increases of imports of articles like or directly competitive with mica heat and sound insulators produced at the Asheville Mica Company, Newport News, Virginia contributed importantly to the decline in sales or production and to the total or partial separation of workers of that firm. In accordance with the provisions of the Act, I make the following certification:

"All workers of Asheville Mica Company, Newport News, Virginia who became totally or partially separated from employment on or after August 1, 1979 are eligible to apply for adjustment assistance under Section 223 of the Trade Act of 1974."

Signed at Washington, D.C. this 26th day of May 1981.

Harry J. Gilman,

Supervisory International Economist, Office of Foreign Economic Research.

[FR Doc. 81-16412 Filed 6-1-81; 8:45 am]

BILLING CODE 4510-28-M

Determinations Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with Section 223 of the Trade Act of 1974 (19 U.S.C. 2273) the Department of Labor herein presents summaries of determinations regarding eligibility to apply for worker adjustment assistance issued during the period May 18–22, 1981.

In order for an affirmative determination to be made and a certification of eligibility to apply for adjustment assistance to be issued, each of the group eligibility requirements of Section 222 of the Act must be met.

(1) that a significant number or proportion of the workers in the workers' firm, or an appropriate subdivision thereof, have become totally or partially separated,

(2) that sales or production, or both, of the firm or subdivision have decreased absolutely, and

(3) that increases of imports of articles like or directly competitive with articles produced by the firm or appropriate subdivision have contributed importantly to the separations, or threat thereof, and to the absolute decline in sales or production.

Negative Determinations

In each of the following cases the investigation revealed that criterion (3) has not been met. A survey of customers indicated that increased imports did not contribute importantly to worker separations at the firm.

TA-W-9717; Dram Molding, Inc., Bad Axe, MI

TA-W-9641; Thomas Products, Inc., St. Charles, MI

TA-W-9766; Modine Manufacturing Co., Trenton, OH

TA-W-8711; Barbizon Corporation, Provo, UT

TA-W-9587; Richardson Company, City of Industry, CA

TA-W-9438; Clausing Corporation, Atlas Division, Kalamazoo, MI

TA-W-9403; Hayes-Albion Corporation, Spencerville Div., Spencerville, OH

TA-W-8845 & 9503; Jones & Laughlin Steel Corp., Cleveland Works, Cleveland, OH

TA-W-10,325; Anchor Bay Plastics Company, Fairhaven, MI

TA-W-10,294; Auto Tube, Inc., Bradford, OH

TA-W-10,954; The Vendo Company, Corinth, MS

TA-W-10,252; Raal Industries, Inc., Southgate, MI

TA-W-10,003; United Manufacturing Co., Mt. Clemens, MI

TA-W-10,330; Schmeler Corporation, St. Johns, MI

TA-W-10,266; Hercules, Inc., Parlin, NJ

TA-W-10,440; White Materials Handling, Hopkins, MN

In the following cases the investigation revealed that workers do not produce an article as required under Section 223 of the Act.

TA-W-9434; Duluth, Missabe and Iron Range Railway Co., Duluth, MN

TA-W-9586; Redway Cartage Co., Detroit, MI

TA-W-12,422; U.S. Fastener Corp., Saginaw, MI

TA-W-10,469; Furnco Construction Corp., Lancaster, NY

TA-W-12,374; Thyssen Metal Service, Oak Park, MI

TA-W-11,885; M.C.P. Industries, Romulus, MI

TA-W-11,681; Spatz Industries, Inc., Atlanta, GA

TA-W-9260, 9630 & 11,366; Hoover Universal, Inc., Mt. Vernon, OH, Molding Plant, Mansfield, OH, and Plating Plant, Mansfield, OH

Investigation revealed that criterion (3) has not been met. U.S. imports of lamp bezels and grilles accounted for a small proportion of total U.S. production of those products throughout the model year 1978–1980 period. U.S. imports of plastic decorative knobs for motor vehicles are negligible. Furthermore, a survey of customers indicated that increased imports did not contribute importantly to worker separations at the firms.

TA-W-11,533, 11,534 & 11,535; Taylor Sportswear, Inc., Cleveland, TN and New York, NY

Investigation revealed that criterion (3) has not been met. U.S. imports of men's and boys' tailored suits decreased absolutely and relative to domestic production in 1979 compared with 1978 and decreased absolutely in 1980 compared with 1979.

TA-W-11,500; American Safety Equipment Corp., Inflatables Div., Miami, FL

Investigation revealed that criterion (3) has not been met. Aggregate U.S. imports of inflatable life vests and rafts are negligible.

TA-W-11,337; Sewell Manufacturing Co., Temple, GA

Investigation revealed that criterion (3) has not been met. Aggregate U.S. imports of men's and boys' tailored suits did not increase as required for certification.

TA-W-11,115; U.S. Steel Corp., Eastern Limestone Operations, Cedarville Plant, Port Dolomite, MI

Investigation revealed that criterion (3) has not been met. Increased imports did not contribute importantly to worker separations at the firms for which limestones was supplied for use in basic steelmaking and therefore did not adversely affect workers of the subject investigation.

TA-W-9594; Oregon Steel Mills, Division of Gilmore Steel Corp., Portland, OR

Investigation revealed that criterion (3) has not been met. A survey of customers indicated that increased imports did not contribute importantly to worker separations at the firm. Sales and production of steel plate increased from 1978 to 1979 and did not decline significantly from 1979 to 1980. The layoffs in May of 1980 were attributable to a company decision to switch from internal non-pillet production to the use of domestically purchased scrap iron for the production of steel plate.

TA-W-9355; U.S. Steel Corporation, Great Lakes Fleet, Duluth, MN

Investigation revealed that criterion (3) has not been met. None of the workers engaged in basic steelmaking operations at any of the U.S. Steel facilities serviced by Great Lakes Fleet are currently certified as eligible to apply for adjustment assistance benefits.

TA-W-9120; U.S. Steel Corporation, Gary District Mines, Gary, WV

Investigation revealed that criterion (3) has not been met. Increased imports did not contribute importantly to worker separations at the firm.

TA-W-11,544; Intrend Textiles, Inc., New York, NY

Investigation revealed that criterion (3) has not been met. U.S. imports of finished fabric decreased absolutely and relative to domestic production in 1979 compared with 1978, and decreased absolutely during the first three quarters of 1980 compared with the first three quarters of 1979.

TA-W-11,410; Hercules, Inc., Covington, VA

Investigation revealed that criterion (3) has not been met. Aggregate U.S. imports of polypropylene (used in fibers) are negligible.

TA-W-10,348; Mohawk Rubber Co., Knoxville, TN

Investigation revealed that criterion (3) has not been met. Increased imports did not contribute importantly to worker separations at the retail outlet for Mohawk tires.

TA-W-9612; Hager Hinge Co., St. Louis, MO

Investigation revealed that criterion (3) has not been met. Aggregate U.S. imports of door hinges did not increase as required for certification.

TA-W-9223; Mario Papa and Sons, Inc., Gloversville, NY

Investigation revealed that criterion (2) has not been met. Sales and/or

production of men's and ladies' leather gloves did not decrease as required for certification.

TA-W-8904; Leesona Corp., Textile Corporation, Textile Machinery Div., Warwick, RI

Investigation revealed that criterion (3) has not been met. The decline in employment at Leesona can be attributed to a decline in export sales.

TA-W-12,612; Powellton Co., Mallory, WV

Investigation revealed that criterion (3) has not been met. All coal mined at the subject firm is for export.

TA-W-11,806; Facetglas of Michigan, Richmond, MI

Investigation revealed that criterion (3) has not been met. U.S. imports of bathtubs and shower enclosures are negligible.

TA-W-11,222; DST Industries, Inc., Automotive Div., Romulus, MI

Investigation revealed that criterion (3) has not been met. U.S. imports of prototypes are negligible. With respect to workers engaged in employment related to the alteration of prototype automobiles and other service work, workers do not produce an article as required under Section 223 of the Act.

TA-W-11,134; International Minerals and Chemical Corporation, Imcore Div., Detroit, MI

Investigation revealed that criterion (3) has not been met. Aggregate U.S. imports of core binder resins are negligible.

TA-W-10,586; Kaiser Steel Corp., Fontana, CA

Investigation revealed that criterion (3) has not been met. Aggregate U.S. imports of fabricated structural steel and welded pipe over 16" in diameter did not increase as required for certification.

TA-W-10,247; Century Machine Co., Riverview, MI

Investigation revealed that criterion (3) has not been met. U.S. imports of jigs and fixtures are negligible. Furthermore, a survey of customers indicated that increased imports did not contribute importantly to worker separations at the firm.

TA-W-11,109 & 11,114; U.S. Steel Corp., Minnesota Ore Operations, Hibbling, MN and Mt. Iron, MN

Investigation revealed that criterion (3) has not been met. Increased imports did not contribute importantly to worker separations at the firms for which iron ore pellets were supplied for use in basic steelmaking and therefore did not adversely affect workers of the subject firm.

TA-W-11,116; U.S. Steel Corporation, Lynch District Mines, Lynch, KY

Investigation revealed that criterion (3) has not been met. Increased imports did not contribute importantly to worker separations at the firms for which metallurgical coke was supplied for use in basic steelmaking and therefore did not adversely affect workers of the subject firm.

In each of the following cases the investigation revealed that unemployment of domestic musicians from August 11, 1980 through January 15, 1981 was a direct result of the strike and not because of the utilization of oversea musicians.

Affirmative Determinations

TA-W-8899; Great American Sound Co., Inc., Chatsworth, CA

A certification was issued covering all workers of the firm separated on or after May 17, 1979.

TA-W-9534; Victoria Needlework, Inc., New York, NY

A certification was issued covering all workers of the firm separated on or after July 9, 1979.

TA-W-9989; Kraft Systems, Inc., Vista, CA

A certification was issued covering all workers of the firm separated on or after March 16, 1980.

TA-W-11,700; Monk Fur Co., Inc., Jim Thorpe, PA

A certification was issued covering all workers of the firm separated on or after November 6, 1979.

TA-W-10,887; Roper Luggage, Sardis, MS

A certification was issued covering all workers of the firm separated on or after September 4, 1979.

TA-W-10,707 & 10,708; Keller Industries, Inc., Keller Aluminum Furniture of Eastern Georgia, Waynesboro, GA and Keller Tubing of Eastern Georgia, Waynesboro, GA

A certification was issued covering all workers of the firm separated on or after September 2, 1979.

TA-W-8878 & 8878A; Keller Industries, Inc., Keller Aluminum Furniture of Virginia, McKenney, VA and Keller Tubing of Virginia, McKenney, VA

A certification was issued covering all workers of the firm separated on or after May 12, 1979.

TA-W-9655 & 10,481; Keller Industries, Inc., Keller Aluminum Furniture of Texas, Caldwell, TX and Keller Aluminum Furniture of Indiana, Linton, IN

A certification was issued covering all workers of the firm separated on or after February 17, 1980.

TA-W-9377; Kaiser Steel Corp., Steel Mfg. Div., Fontana, CA

A certification was issued covering all workers of the firm engaged in employment related to the production of tin plate separated on or after January 31, 1980. The investigation further revealed that with respect to hot rolled sheet and strip, cold rolled sheet and strip, galvanized sheet, electric weld pipe, basic and semi-finished steel, criterion (3) has not been met. A survey of customers indicated that increased imports did not contribute importantly to worker separations at the firm.

With respect to continuous weld pipe, a certification remained in effect until August 15, 1980, subsequent to the closure of the continuous weld pipe mill in November 1979.

I hereby certify that the aforementioned determinations were issued during the period May 18–22, 1981. Copies of these determinations are available for inspection in Room S–5314, U.S. Department of Labor, 200 Constitution Ave., NW., Washington, D.C. 20210 during normal working hours or will be mailed to persons who write to the above address.

Dated: May 27, 1981.

Marvin M. Fooks,

Director, Office of Trade Adjustment Assistance.

BILLING CODE 4510-28-M

[TA-W-10,034, 10,595]

Hoover Universal, Inc., Certifications Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with Section 223 of the Trade Act of 1974 (19 U.S.C. 2273) the Department of Labor herein presents the results of investigations regarding certification of eligibility to apply for worker adjustment assistance.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements of Section 222 of the Act must be met. It is determined in this

case that all of the requirements have been met.

The investigations were initiated on August 18, 1980 and September 8, 1980, respectively, in response to petitions which were filed on behalf of workers at the Georgetown, Kentucky and Adrian, Michigan plants of Hoover Universal, Incorporated. Workers at the Georgetown, Kentucky and Adrian, Michigan plants primarily produce metal seat frames for automobiles and light trucks.

The Georgetown, Kentucky plant of Hoover Universal, Incorporated produces metal seat frames for automobiles and light trucks and metal components for household and office furniture. The Adrian, Michigan plant produces metal seat frames and wire seat components for automobiles and light trucks. Workers at these plants are not separately identifiable by product line. At each plant, sales of metal seat frames accounted for a large portion of total plant sales and for nearly all of the total decline in plant sales during the period under investigation.

Preliminary data indicate that aggregate U.S. imports of metal seat frames for automobiles and light trucks increased absolutely and relative to domestic production from model year (MY) 1979 to MY 1980.

A Department survey revealed that customers of Hoover Universal, Incorporated reduced purchases from the Georgetown, Kentucky and Adrian, Michigan plants from MY 1979 to MY 1980 while increasing imports of metal seat frames for automobiles. Customers which increased imports of seat frames accounted for a substantial share of the total decline in sales at both the Georgetown, Kentucky and Adrian, Michigan plants from MY 1979 to MY 1980.

Conclusion

After careful review of the facts obtained in the investigation, I conclude that increases of imports of articles like or directly competitive with metal seat frames for automobiles and trucks produced at the Georgetown, Kentucky and Adrian, Michigan plants of Hoover Universal, Incorporated contributed importantly to the decline in sales or production and to the total or partial separation of workers of those two facilities. In accordance with the provisions of the Act, I make the following certifications:

All workers of the Georgetown, Kentucky plant of Hoover Universal, Incorporated who became totally or partially separated from employment on or after July 29, 1979 are eligible to apply for adjustment assistance under Section 223 of the Trade Act of 1974; and

All workers of the Adrian, Michigan plant of Hoover Universal, Incorporated who became totally or partially separated from employment on or after August 26, 1979 are eligible to apply for adjustment assistance under Section 223 of the Trade Act of 1974.

Signed at Washington, D.C. this 26th day of May 1981.

Harry J. Gilman,

Supervisory International Economist, Office of Foreign Economic Research.

BILLING CODE 4510-28-M

Investigations Regarding Certifications of Eligibility To Apply for Worker Adjustment Assistance

Petitions have been filed with the Secretary of Labor under Section 221(a) of the Trade Act of 1974 ("the Act") and are identified in the Appendix to this notice. Upon receipt of these petitions, the Director of the Office of Trade Adjustment Assistance, Bureau of International Labor Affairs, has instituted investigtions pursuant to Section 221(a) of the Act and 29 CFR 90.12.

The purpose of each of the investigations is to determine whether absolute or relative increases of imports of articles like or directly competitive with articles produced by the workers' firm or an appropriate subdivision thereof have contributed importantly to an absolute decline in sales or production, or both, of such firm or subdividion and to the actual or threatened total or partial separation of a significant number or proportion of the workers of such firm or subdivision.

Petitioners meeting these eligibility requirements will be certified as eligible to apply for adjustment assistance under Title II, Chapter 2, of the Act in accordance with the provisions of Subpart B of 29 CFR Part 90. The investigations will further relate, as appropriate, to the determination of the date on which total or partial separations began or threatened to begin and the subdivision of the firm involved.

Pursuant to 29 CFR 90.13, the petitioners or any other persons showing a substantial interest in the subject matter of the investigations may request a public hearing, provided such request is filed in writing with the Director, Office of Trade Adjustment Assistance, at the address shown below, not later than June 12, 1981.

Interested persons are invited to submit written comments regarding the subject matter of the investigations to the Director, Office of Trade Adjustment Assistance, at the address shown below, not later than June 12, 1981.

The petitions filed in this case are available for inspection at the Office of the Director, Office of Trade Adjustment Assistance, Bureau of International Labor Affairs, U.S. Department of Labor, 200 Constitution Avenue, N.W., Washington, D.C. 20210.

Signed at Washington, D.C., this 25th day of May 1981.

Marvin M. Fooks,

Director, Office of Trade Adjustment Assistance.

[TA-W-11,522]

VRN, International, Division of Vernitron Corp.; Negative Determination Regarding Application for Reconsideration

By an application dated April 29, 1981, a worker requested administrative reconsideration of the Department of Labor's Negative Determination Regarding Eligibility to Apply for Worker Adjustment Assistance in the case of workers and former workers producing potentiometers at VRN, International's plant in St. Petersburg, Florida. The determination was published in the **Federal Register** on May 15, 1981 (46 FR 26949).

Pursuant to 29 CFR 90.18(c), reconsideration may be granted under the following circumstances:

(1) If it appears on the basis of facts not previously considered that the determination complained of was erroneous;

(2) If it appears that the determination complained of was based on a mistake in the determination of facts previously considered; or

(3) If, in the opinion of the Certifying Officer, a misinterpretation of facts or of the law justifies reconsideration of the decision.

The worker claimed in her application for reconsideration that the Department's denial did not give any consideration to company imports from Haiti affecting employment at the St. Petersburg, Florida plant of VRN, International.

The Department's review revealed that criterion 3 was not met by the workers' petition. The Department notes that the initial certification for workers at the St. Petersburg plant (TA-W-3910) expired on September 18, 1980. Average sales, production and employment increased in 1980 compared to 1979 at the St. Peterburg plant. Also, average employment increased during the September to December 1980 period compared to the same period in 1979. Variations in production and employment at the St. Petersburg plant in 1980 are attributable to normal business fluctuations. U.S. imports of total variable resistors (the category includes potentiometers) decreased in quantity in 1979 compared to 1978 and in the first nine months of 1980 compared to the like period in 1979.

The Department could find no evidence that company imports whether from Barbados or Haiti adversely affected production and employment at the St. Petersburg plant in 1980. Employment in May, 1981, is at a near record peak.

Conclusion

After review of the application and the investigative file, I conclude that there has been no error or misinterpretation of the law which would justify reconsideration of the Department of Labor's prior decision. The application is, therefore, denied.

Signed at Washington, D.C. this 20th day of May 1981.

James F. Taylor,
Director, Office of Management, Administration and Planning.

NATIONAL FOUNDATION FOR THE ARTS AND THE HUMANITIES

Dance Panel (Dance Touring Program); Meeting

Pursuant to Section 10(a)(2) of the Federal Advsory Committee Act (Pub. L. 92-463), as amended, notice is hereby given that a meeting of the Dance Panel (Dance Touring Program) to the National Council on the Arts will be held on June 29-July 2, 1981 from 9:00 a.m.-5:30 p.m. in room 1426 of the Columbia Plaza Office Building, 2401 E Street, NW. Washington, D.C. 20506.

A portion of this meeting will be open to the public on July 2, 1981 from 9:00 a.m.-5:30 p.m. to discuss program guidelines.

The remaining sessions of this meeting on June 29-July 1, 1981 from 9:00 a.m.-5:30 p.m. are for the purpose of Panel review, discussion, evaluation, and recommendation on applications for financial assistance under the National Fundation on the Arts and the Humanities Act of 1965, as amended, including discussion of information given in confidence to the agency by grant applicants. In accordance with the determination of the Chairman published in the **Federal Register** of February 13, 1980, these sessions will be closed to the public pursuant to subsections (c) (4), (6) and 9(b) of section 552b of Title 5, United States Code.

Further information with reference to this meeting can be obtained from Mr. John H. Clark, Advisory Committee Management Officer, National Endowment for the Arts, Washington, D.C. 20506, or call (202) 634-6070.

Dated: May 27, 1981.

BILLING CODE 7537-01-M

NATIONAL CREDIT UNION ADMINISTRATION

Proposed Policy Statement Release of Consumer Examination Reports

AGENCY: National Credit Union Administration.

ACTION: Proposed Policy Statement.

SUMMARY: The National Credit Union Administration Board proposes a statement of policy concerning the release to certain third parties of consumer examination reports of individual Federal credit unions. Pursuant to the proposal, the reports would be released only in limited circumstances that would further the interests of the credit union without compromising the Administration's reasons for generally maintaining the confidentiality of examination reports.

COMMENT PERIOD: Comments will be received on or before August 3, 1981.

ADDRESS: Send comments to Robert S. Monheit, Regulatory Development Coordinator, Office of General Counsel, National Credit Union Administration, 1776 G Street, NW., Washington, D.C. 20456.

FOR FURTHER INFORMATION CONTACT: Linda Cohen, Director, Office of Consumer Affairs, at the above address, telephone (202) 357-1080.

Proposed IRPS 81-5

The National Credit Union Administration (NCUA) has traditionally invoked the eighth exemption of the Freedom of Information Act (5 U.S.C. 552(b)(8)) to maintain strict confidentiality of all Federal credit union examination reports and related materials. This has been done to assure a free flow of information between Federal credit unions and NCUA, to encourage frank assessments by NCUA examiners, and to prevent unwarranted concern about the condition of individual Federal credit unions. With respect to consumer law complaince examination reports, however, there may be certain instances where disclosure would further the interests of an individual Federal credit union without compromising NCUA's traditional reasons for maintaining confidentiality. For example, the management of a Federal credit union may wish to have the credit union's consumer compliance examination report made available to its surety bond company in connection with obtaining bond coverage for losses related to consumer law violations. It may be similarly desirable to release individual examination reports to those state credit union leagues that operate risk audit programs. Also, as a matter of responsiveness to member concern, credit union management may consider it desirable to make the reports available to requesting members (after the credit union has taken any corrective action that may be appropriate as a result of the findings in the report). In all of these cases, the NCUA Board has determined that any request should be submitted to NCUA, pursuant to the Freedom of Information Act and NCUA's implementing regulation (12 CFR 720(A)), in order to preserve the agency's legal ownership interest in the document.

Accordingly, NCUA proposes to release consumer compliance examination reports if and only if the following conditions are met: (1) A request has been received by NCUA from a bonding company, state credit union league, or member of the Federal credit union; (2) The request specifies the requestor's relationship to the Federal credit union and the requestor's purpose(s) in requesting the report; (3) NCUA determines that the Federal credit union's management (Board of Directors, or other individual expressly designated by the Board of Directors) desires that the report be disclosed to the requestor; (4) The credit union has had an opportunity to take any corrective action necessary as a result of violations noted in the report; and (5) NCUA's traditional reasons for protecting confidentiality of examination related materials would not be unduly compromised by the disclosure.

As indicated above comments are invited on this proposal, and will be accepted until August 3, 1981.

Dated: May 26, 1981.

Beatrix D. Fields,

Acting Secretary to the Board, National Credit Union Administration.

BILLING CODE 7535-01-M

NUCLEAR REGULATORY COMMISSION

[Docket No. 414A]

Duke Power Co.; Receipt of Additional Antitrust Information; Time for Submission of Views on Antitrust Matters

Duke Power Company, pursuant to Section 103 of the Atomic Energy Act of 1954, as amended, has filed information requested by the Attorney General for Antitrust Review as required by 10 CFR Part 50, Appendix L. This information concerns a proposed additional ownership participant, the Piedmont Municipal Power Agency, for the Catawba Nuclear Station, Unit 2. The current holders of the construction permit are Duke Power Company and North Carolina Municipal Power Agency Number 1.

The information was filed in connection with the application by Duke Power Company for construction permits and operating licenses for two pressurized water reactors. Construction was authorized on August 7, 1975 at the Catawba site located in York County, South Carolina. Although the Catawba facilities consist of two nuclear power plants, the proposed action affects only Catawba Nuclear Station, Unit 2.

The original application was dated November 10, 1972. The Notice of Receipt of Application for Construction Permits and Facility Licenses and Availability of Applicant's Environmental Reports; Time for Submission of Views on Antitrust Matters was published in the **Federal Register** on December 7, 1972 (37 FR 26053). Previously, the Notice of Hearing had been published in the **Federal Register** on December 1, 1972 (37 FR 25560).

A copy of the above documents are available for public examination and copying for a fee at the Commission's Public Document Room, 1717 H Street, NW., Washington, D.C. 20555 and at the York County Library, 325 South Oakland Avenue, Rock Hill, South Carolina.

Any person who wishes to have his views on the antitrust matters with respect to the Piedmont Municipal Power Agency presented to the Attorney General for consideration or who desires additional information regarding the matters covered by this notice, should submit such views or requests for additional information to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Chief, Utility Finance Branch, Office of Nuclear Reactor Regulation, on or before July 21, 1981.

Dated at Bethesda, Maryland, this 8th day of May 1981.

For the Nuclear Regulatory Commission.

E. Adensam,

Acting Chief, Licensing Branch No. 4, Division of Licensing

[FR Doc. 81-16385 Filed 6-1-81; 8:45 am]

BILLING CODE 7590-01-M

[Docket No. 50-244]

Rochester Gas and Electric Corp.; Granting of Relief From Certain Requirements of ASME Code Section XI Inservice Inspection (Testing) Requirements

The U.S. Nuclear Regulatory Commission (the Commission) has granted relief from certain requirements of the ASME Code, Section XI, "Rules for Inservice Inspection of Nuclear Power Plant Components" to the Rochester Gas and Electric Corporation. The relief relates to the valve testing program for the Ginna Nuclear Power Plant (the facility) located in Wayne County, New York. The ASME Code requirements are incorporated by reference into the Commission's rules and regulations in 10 CFR Part 50. The relief is effective as of its date of issuance.

The relief allows postponement of certain examinations and imposes alternative examinations, pursuant to 10 CFR 50.55a(g)(6)(i) of the Commission's regulations.

The requests for relief comply with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission's rules and regulations in 10 CFR Chapter I, which are set forth in the letter granting relief.

The Commission has determined that the granting of relief will not result in any significant environmental impact and that pursuant to 10 CFR 51.5(d)(4) an environmental impact statement or negative declaration and environmental impact appraisal need not be prepared in connection with issuance of the action.

For further details with respect to this action, see (1) the licensee's submittals dated April 6, 1977, August 4, 1977, October 31, 1977, November 30, 1978, November 15, 1979, September 4, 1980, Jnauary 30, 1981, and March 2, 1981, (2) the Commission's letter to the licensee dated May 26, 1981, and (3) the Commission's related Safety Evaluation. All of these items are available for public inspection at the Commission's Public Document Room, 1717 H Street, NW., Washington, D.C. 20555 and at the Ginna LPDR. A copy of items (2) and (3) may be obtained upon request addressed to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555. Attention: Director, Division of Licensing.

Dated at Bethesda, Md., this 26th day of May 1981.

For the Nuclear Regulatory Commission.

Dennis M. Crutchfield,

Chief, Operating Reactors Branch No. 5, Division of Licensing.

BILLING CODE 7590-01-M

SECURITIES AND EXCHANGE COMMISSION

[Release No. 11789 (812-4841)]

Frank Russell Investment Co.; Money Market Fund Series; Application

Notice of filing of application for an Order pursuant to section 6(c) of the Act granting Exemption from the provisions of section 2(a)(41) of the Act and Rules 2a-4 and 22c-1 thereunder.

In the Matter of Frank Russell Investment Company—Money Market Fund Series, 1100 One Washington Plaza, Tacoma, Washington 98402.

Notice is hereby given That Frank Russell Investment Company ("Applicant"), an open-end, diversified management investment company of the "series" type registered under the Investment Company Act of 1940 ("Act"), filed an application on March 16, 1981, and an amendment thereto on April 20, 1981, requesting an order of the Commission, pursuant to Section 6(c) of the Act, exempting Applicant's Money Market Fund series ("Fund") from the provisions of Section 2(a)(41) of the Act and Rules 2a-4 and 22c-1 thereunder, to the extent necessary to permit the Fund to value its portfolio securities using the amortized cost method of valuation. All interested persons are referred to the application on file with the Commission for a statement of the representations contained therein, which are summarized below.

Applicant states that a registration statement on Form N-1 under the Securities Act of 1933 has been filed with the Commission but has not yet become effective. Applicant represents that the Fund is a "money market" fund designed as an investment vehicle for investors, including fiduciaries, institutions and individuals. Applicant states that its investment objective is to maximize current income to the extent consistent with preservation of principal, maintenence of liquidity and a stable $1.00 net asset value.

According to the application, Applicant's portfolio may be invested in a variety of the following instruments: securities issued or guaranteed by the United States government or any of its agencies and instrumentalities; certificates of deposit and bankers' acceptances of banks having total assets in excess of $100,000,000; commercial paper; and corporate obligations. Applicant states that the remaining maturities of all securities the Fund acquires will be less than one year at the date of acquisition, and that the dollar-weighted average maturity of the Fund's investment portfolio will at all times be 120 days or less.

As here pertinent, Section 2(a)(41) of the Act defines value to mean: (1) with respect to securities for which market quotations are readily available, the market value of such securities, and (2) with respect to other securities and assets, fair value as determined in good faith by the board of directors. Rule 22c-1 adopted under the Act provides, in part, that no registered investment company or principal underwriter therefor issuing any redeemble security shall sell, redeem or repurchase any such security except at a priced based on the current net asset value of such security which is next computed after receipt of a tender of such security for redemption or of an order to purchase or to sell such security. Rule 2a-4 adopted under the Act provides, as here relevant, that the "current net asset value" of a redeemable security issued by a registered investment company used in computing its price for the purposes of distribution and redemption shall be an amount which reflects calculations made substantially in accordance with the provisions of that rule, with estimates used where necessary or appropriate. Rule 2a-4 further states that portfolio securities with respect to which market quotations are readily available shall be valued at current market value, and that other securities and assets shall be valued at fair value as determined in good faith by the board of directors of the registered company. Prior to the filing of the application, the Commission expressed its view that, among other things: (1) Rule 2a-4 under the Act requires that portfolio instruments of "money market" funds be valued with reference to market factors, and (2) it would be inconsistent, generally with the provisions of Rule 2a-4 for a "money market" fund to value its portfolio instruments on an amortized cost basis (Investment Company Act Release No. 9786, May 31, 1977).

Applicant states that it seeks to attract sophisticated institutional and individual investors and in order to attract and retain them as shareholders, it must have a stable net asset value and a steady flow of investment income. The application states that Applicant's management believes that if Applicant's security portfolio is valued using the amortized cost method there would normally be a negligible discrepancy between prices obtained by the market valuation method and those obtained by the amortized cost method. Applicant states that its board of directors has determined in good faith, in light of the characteristics of Applicant, that use of a $1.00 price per share utilizing the cost method of valuation would be appropriate and represents fair value. Accordingly, Applicant requests exemptions from Section 2(a)(41) of the Act and Rules 2a-4 and 22c-1 thereunder to the extent necessary to permit Applicant to value its portfolio by means of the amortized cost method of valuation.

Section 6(c) of the Act provides, in pertinent part, that the Commission by order upon application, may conditionally or unconditionally exempt any person, security or transaction, or any class or classes or persons, securities or transactions, from any provision under the Act or any rule or regulation thereunder, if and to the extent that such exemption is necessary or appropriate in the public interest and consistent with the protection of investors and the purposes fairly intended by the policy and provisions of the Act.

Applicant expressly consents to the imposition of the following conditions in any order granting the relief it requests:

(1) In supervising Applicant's Fund operations and delegating special responsibilities involving portfolio management to Applicant's investment adviser and subadviser, Applicant's board of directors undertakes—as a particular responsibility within the overall duty of care owed to its shareholders—to establish procedures reasonably designed, taking into account current market conditions and the Fund's investment objectives, to stabilize the Fund's net asset value per share, as computed for the purpose of distribution, redemption and repurchase, at $1.00 per share.

(2) Included within the procedures to be adopted by Applicant's board of directors shall be the following:

(a) Review by the board of directors as it deems appropriate and at such intervals as are reasonable in light of current market conditions, to determine the extent of deviation, if any, of the net asset value per share as determined by using available market quotations from the Fund's $1.00 amortized cost price per share, and the maintenance of records of such review. [1]

(b) In the event such deviation from the Fund's $1.00 amortized cost price per share exceeds ½ of 1 percent, what action, if any, should be initiated.

(c) Where the board of directors believes the extent of any deviation from the Fund's $1.00 amortized cost price per share may result in material dilution or other unfair results to investors or existing shareholders, it shall take such action as it deems appropriate to eliminate or reduce to the extent reasonably practicable such dilution or unfair results, which may include: redemption of shares in kind; selling portfolio instruments prior to maturity to realize capital gains or losses, or to shorten the Fund's average portfolio maturity; withholding dividends; or utilizing a net asset value per share as determined by using available market quotations.

(3) The Fund will maintain a dollar-weighted average portfolio maturity appropriate to its objective of maintaining a stable net asset value per share; provided, however, that the Fund will neither (a) purchase any instrument with a remaining maturity of greater than one year, nor (b) maintain a dollar-weighted average portfolio maturity which exceeds 120 days. In fulfilling this condition, if the disposition of a portfolio security results in a dollar-weighted average portfolio maturity in excess of 120 days, the Fund will invest its available cash in such a manner as to reduce the dollar-weighted average portfolio maturity to 120 days or less as soon as reasonably practicable.

(4) Applicant will record, maintain, and preserve permanently in an easily

[1] To fulfill this condition, the Applicant may use actual quotations or estimates of market value reflecting current market conditions chosen by its board of directors in the exercise of its discretion to be appropriate indicators of value, which may include, *inter alia*, (i) quotations or estimates of market value for individual portfolio instruments, or (ii) values obtained from yield data relating to classes of money market instruments published by reputable sources.

accessible place a written copy of the procudures (and any modifications thereto) described in condition 1 above, and Applicant will record, maintain and preserve for a period not less than six years (the first two years in an easily accessible place) a written record of the board of directors' considerations and actions taken in connection with the discharge of its responsibilities, as set forth above, to be included in the minutes of the board of directors' meetings. The documents preserved pursuant to this condition shall be subject to inspection by the Commission in accordance with Section 31(b) of the Act as if such documents were records required to be maintained pursuant to rules adopted under Section 31(a) of the Act.

(5) Applicant will limit the Fund's portfolio investments, including repurchase agreements, if any, to those U.S. dollar-denominated instruments which the board of directors determines present minimal credit risks, and which are of "high quality" as determined by any major rating service or, in the case of any instrument that is not rated, of comparable quality as determined by the board of directors.

(6) Applicant will include in each quarterly report, as an attachment to Form N-1Q, a statement as to whether any action pursuant to condition 2(c) above was taken during the preceding fiscal quarter, and, if any such action was taken, will describe the nature and circumstances of such action.

Notice is further given that any interested person may, not later than June 22, 1981, at 5:30 p.m., submit to the Commission in writing a request for a hearing on the application accompanied by a statement as to the nature of his interest, the reason for such request, and the issues, if any, of fact or law proposed to be controverted, or he may request that he be notified if the Commission shall order a hearing thereon. Any such communication should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request shall be served personally or by mail upon Applicant at the address stated above. Proof of such service (by affidavit or, in the case of an attorney-at-law, by certificate) shall be filed contemporaneously with the request. As provided by Rule 0-5 of the Rules and Regulations promulgated under the Act, an order disposing of the application will be issued as of course following said date unless the Commission thereafter orders a hearing upon request or upon the Commission's own motion. Persons who request a hearing, or advice as to whether a hearing is ordered, will receive any notices and orders issued in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Investment Management, pursuant to delegated authority.

George A. Fitzsimmons,

Secretary.

[FR Doc. 81-16370 Filed 6-1-81; 8:45 am]

BILLING CODE 8010-01-M

[Release No. 22065; 70-6595]

Northeast Utilities; Proposal To Issue Common Stock at Competitive Bidding

May 26, 1981.

Northeast Utilities, 174 Brush Hill Avenue, West Springfield, Massachusetts 01089 ("Northeast"), a registered holding company, has filed a declaration with this Commission pursuant to Sections 6(a) and 7 of the Public Utility Holding Company Act of 1935 ("Act") and Rule 50 promulgated thereunder. Northeast proposes to issue and sell at competitive bidding up to 9,000,000 shares of its authorized common stock, $5 par value, not later than September 30, 1981. The price for the stock will be determined by the competitive bidding. The proceeds of the sale, estimated at $81,000,000, will be used to make capital contributions to Northeast's subsidiaries and to retire, in part, Northeast's outstanding short-term borrowings. It is stated that Northeast may amend its declaration to seek an exception from the competitive bidding requirements of Rule 50 if it feels that market conditions so require.

The declaration and any amendments thereto are available for public inspection through the Commission's Office of Public Reference. Interested persons wishing to comment or request a hearing should submit their views in writing by June 18, 1981, to the Secretary, Securities and Exchange Commission, Washington, D.C. 20549, and serve a copy on the declarant at the address specified above. Proof of service (by affidavit or, in case of an attorney at law, by certificate) should be filed with the request. Any request for a hearing shall identify specifically the issues of fact or law that are disputed. A person who so requests will be notified of any hearing, if ordered, and will receive a copy of any notice or order issued in this matter. After said date the declaration, as filed or as it may be amended, may be permitted to become effective.

For the Commission, by the Division of Corporate Regulation, pursuant to delegated authority.

George A. Fitzsimmons,

Secretary.

[FR Doc. 81-16369 Filed 6-1-81; 8:45 am]

BILLING CODE 8010-01-M

DEPARTMENT OF STATE

Office of Nuclear Technology and Safeguards

[Public Notice 759]

Interagency Procedures for the Implementation of the U.S. IAEA Safeguards Agreement

This notice sets forth U.S. agency procedures for Implementation of the Agreement Between the United States of America and the International Atomic Energy Agency for the Application of Safeguards in the United States of America, with Protocol (Agreement).

For additional information, contact Allen Sessoms (phone: 632-9318), Physical Science Officer, Office of Nuclear Technology and Safeguards, OES/NTS, State Department, Washington, D.C. 20520.

A. Coordination

(1) *Interagency Steering Group for International Safeguards.*

(a) The interagency mechanism for coordinating policy and resolving disputes relating to the implementation of the Agreement shall be the Interagency Steering Group for International Safeguards (ISG), which is concerned generally with international safeguards matters. The ISG is composed of representatives from the Department of State (State), the Department of Energy (DOE), the Nuclear Regulatory Commission (NRC), the Arms Control and Disarmament Agency (ACDA) and the staff of the National Security Council. The ISG is chaired by the Deputy Assistant Secretary of State for Nuclear Energy and Energy Technology or such other official as may be designated by the Secretary of State. Representatives of the agencies which are ISG members are designated by the respective heads of such agencies. The ISG shall meet at such intervals set by the ISG and at any time at the request of any ISG member.

(b) In the event any question of interpretation of the Agreement affecting NRC arises which is not resolved by the ISG, the NRC shall seek and be bound by guidance from the President. Neither this provision, nor any other provision in these procedures.

shall in any way alter the responsibilities of the NRC or in any way limit the existing authorities and responsibilities of the NRC.

(2) *US–IAEA Safeguards Agreement Working Group.*

(a) The ISG shall establish a working group known as the US–IAEA Safeguards Agreement Working Group (SAWG), which shall be composed of representatives from State, ACDA, the NRC and DOE. A State representative, or such other official as may be designated by the ISG Chairman, shall serve as Chairman of the SAWG. Each agency shall designate its respective representatives to serve on the SAWG.

(b) The SAWG shall monitor implementation of the Agreement, carry out responsibilities specifically prescribed in these procedures, and undertake such other working level activities as may be designated by the ISG.

(3) *Negotiating Team.*

(a) The ISG shall establish a Negotiating Team which shall be composed of one representative from each of the following agencies: DOS, DOE, NRC and ACDA. A State representative or such other official as may be designated by the ISG Chairman, shall serve as the Chairman of the Negotiating Team. Each agency shall designate its respective representative to serve on the Negotiating Team.

(b) The Negotiating Team shall negotiate with the IAEA the Subsidiary Arrangements and the Transitional Subsidiary Arrangements (collectively referred to as the Arrangements), and undertake such other responsibilities as may be designated by the ISG.

(c) Counsel and other agency officials may participate in Negotiating Team activities at the request of their respective agency representative.

B. Communications

As provided in the Arrangements, normally, official communications on matters relating to implementation of the Agreement from the IAEA are to be addressed to State through the Mission of the United States of America to the IAEA (Mission), and from State are to be addressed to the IAEA through the Mission. Officers in the Nuclear Energy and Energy Technology Affairs Division of the Bureau of Oceans and International Environmental and Scientific Affairs (OES/N) in State and officers in the Mission shall be assigned responsibility for communications to and from the IAEA in connection with implementation of the Agreement. In the event of the occurrence of unexpected circumstances, communications may be undertaken, as appropriate, other than as set forth in this Section of the procedures.

C. Regulation of NRC Licensed Facilities and DOE License-Exempt Facilities

(1) For implementation of the Agreement,

(a) The NRC shall be responsible for maintaining necessary regulations applicable to NRC licensed facilities; and

(b) DOE shall be responsible for maintaining appropriate mechanisms applicable to DOE license-exempt facilities.

(2) Requirements contained in the Arrangements shall be implemented as follows:

(a) With respect to an NRC licensed facility, through the promulgation of regulations, the incorporation of appropriate amendments to licenses and the issuance of such orders as may be necessary to assure compliance; and

(b) With respect to a DOE license-exempt facility, through the promulgation of appropriate mechanisms.

D. Facility Attachments and Transitional Facility Attachments

(1) *Preparation.* The NRC or DOE, as the case may be, shall participate with the IAEA in preparation of the material for the draft facility attachment and transitional facility attachment (collectively referred as the draft attachment) for each NRC licensed facility and for each DOE license-exempt facility, respectively, selected by the IAEA, under Article 39 of the Agreement or Article 2 of the Protocol. The NRC shall consult with the operator of each NRC licensed facility and, as appropriate, arrange for such operator to participate in the preparation of the material for the draft attachment for such facility. The NRC or DOE, as the case may be, shall provide the Negotiating Team an opportunity to take part in preparation with the IAEA of the draft facility attachment for use in negotiation.

(2) *Negotiation.* The draft attachment shall be approved by the Negotiating Team for negotiation. Each facility attachment or transitional facility attachment (collectively referred to as the attachment) shall be negotiated with the IAEA by the Negotiating Team under the guidance of the ISG. In the course of these negotiations, the operator of the licensed facility will be consulted and views and interests of each such operator will be considered. The licensee will be given the opportunity to review and comment on the attachment before it is agreed to by the U.S. Agreement shall be accomplished by the ISG Chairman or his designee initialing the attachment.

E. Information To Be Provided to the IAEA

(1) Reports on the status of nuclear material required to be submitted to the IAEA pursuant to the Agreement at specified intervals or occasions shall be compiled and submitted as follows:

(a) Review and transmission of initial reports and periodic accounting reports, including amplifications and clarifications thereof, in accordance with Codes 3.3 and 3.4 of the Arrangements, shall be the responsibility of the NRC and DOE, as the case may be. These reports shall be prepared on magnetic tape by the Nuclear Materials Management and Safeguards Systems (NMMSS) operated jointly by the NRC and DOE. The NRC or DOE, as the case may be, shall be responsible for making arrangements for submission of the necessary data from each facility operator to NMMSS, which shall compile consolidated reports and send the tape to the NRC and DOE, as appropriate, for review and transmission to OES/N for delivery to the IAEA. The NRC and DOE shall consult and provide to OES/N, and OES/N shall provide to the IAEA, the telex address and the telephone number of appropriate personnel to be available for use by the IAEA in seeking clarifications and amplifications (including questions concerning reported data) of the accounting reports.

(b) Preparation and transmission of special reports, including amplifications and clarification thereof, in accordance with Code 3.5 of the Subsidiary Arrangements, shall be the responsibility of the NRC or DOE, as the case may be, which shall send each report to OES/N to permit OES/N to decide if any further review is needed prior to transmission by OES/N to the IAEA and whether the report should be referred to the ISG for its consideration.

(c) In the event of a U.S. determination of material unaccounted for (MUF) at any facility selected by the IAEA under the Agreement, the ISG shall determine in satisfying the terms of the Agreement what information if any relating to any U.S. investigation of the MUF is to be transmitted to the IAEA.

(2) Information other than reports described in paragraph (1) of this Section includes completed Design Information Questionnaires and other information needed in connection with design review, changes in design, and requirements with respect to radiological protection; and notification

of an intended withdrawal (Agreement Article 12(a)) and of an international transfer (Agreement Article 89). The NRC and DOE, as the case may be, shall be responsible for obtaining such required information and ensuring that it is prepared in prescribed format for transmission to the IAEA in accordance with Codes 3.1, 3.2, 3.6, and 3.7 of the Subsidiary Arrangements and Codes 3.1 and 3.2 of the Transitional Subsidiary Arrangements. Such information and notification shall be transmitted to the IAEA by State.

(3) The Agreement shall not be construed to permit the communication to the IAEA of Restricted Data controlled by the Atomic Energy Act of 1954, as amended.

F. Eligible List

(a) The list of eligible U.S. facilities provided to the IAEA under Agreement Article 1(b) (eligible list) shall be reviewed by the ISG from time to time to determine if any addition or removal of a facility should be made. A representative of the Department of Defense (DOD) shall participate as a member of ISG in such review and determination. The NRC or DOE, as the case may be, shall be responsible for informing the ISG of any change in the status of an NRC licensed facility or DOE licensed-exempt facility, relative to possible addition to, or removal from, the eligible list. In the event that any ISG member agency, including DOD, believes that for national security reasons a particular urgency exists relative to the removal of a facility from the eligible list, such agency may, where disagreement develops or where immediate affirmative action is deemed essential and cannot be accommodated by the ISG, seek to have the President decide regarding such proposed removal.

(b) Any changes in the eligible list shall be submitted to the IAEA by State through the Mission as provided in Agreement Article 34, after the following notification by State to the Congress:

(1) For any addition, after 60 days notice to the Senate Committee on Foreign Relations and the House Committee on Foreign Affairs, which notice shall include an explanation of the basis on which the determination to make the addition was made, and if the Congress has not during said 60-day period passed a concurrent resolution of disapproval; and

(2) For any deletion, after notification to the Senate Committee on Foreign Relations and the House Committee on Foreign Affairs.

(c) State shall provide each of the ISG member agencies including DOD with a copy of the eligible list and changes thereto. The NRC shall make it available for inspection in the NRC Public Document Room.

G. IAEA Consultations

(a) The Director General of the IAEA, in selecting any facility under the Agreement, may seek to consult with the United States in the interest of avoiding discrimination among U.S. facilities in accordance with Agreement Article 2(c). Moreover, the U.S. and IAEA may likely consult to insure compliance with Agreement Article 22; and the United States may request consultations in accordance with Agreement Article 80. All matters concerning any such consultation shall be considered by the ISG.

(b) In addition to consultations contemplated in paragraph (a) of this Section, OES/N shall arrange for periodic consultations between the SAWG and the IAEA, in accordance with Agreement Article 19, to review progress in implementation of the Agreement and to consider any matter relevant to the Agreement which either party to the Agreement may raise.

H. Matters Raised by Facility Operators

Any question, complaint or request from a facility operator shall be directed to the NRC or DOE, as the case may be, which shall consider the matter in accordance with its established procedures. The ISG shall be available for consultation by the NRC or DOE on such matters. Any questions from a facility operator concerning any interpretation of the Agreement or the Arrangements, any question relating to the payment of invoices by the IAEA to the facility operator, and any request from a facility operator with respect to exemption or termination of safeguards, other than as provided for in an attachment, shall be addressed to the NRC or DOE as appropriate. NRC or DOE will advise OES/N of such question or request for consideration. If necessary the matter will be referred to the SAWG, the Negotiating Team, or the ISG for consideration or resolution.

I. Matters Raised by the IAEA

Any question, complaint, or request concerning implementation of the Agreement which is received from IAEA Headquarters by the Mission in accordance with Codes 1.1 of the Arrangements, and is not otherwise provided for in these procedures, shall be transmitted to OES/N. OES/N shall refer such matters to the SAWG, the Negotiating Team, the ISG, the NRC or DOE, as the case may be, for consideration and recommendation or resolution.

J. Matters Concerning IAEA Inspectors

(1) Any question, complaint or request for assistance from any IAEA inspector, while performing inspection activities in the United States, which is not resolved by personnel at the facility in question or through NRC or DOE contact, shall be referred to OES/N. The IAEA shall be provided with the names of designated officials in the NRC, DOE and OES/N for this purpose, including 24-hour telephone number information. OES/N shall advise the NRC or DOE as soon as possible whenever so contacted, to determine whether any immediate action is appropriate and to obtain any necessary assistance from the appropriate NRC or DOE official. If time and circumstances permit, the matter may be referred to the SAWG by OES/N, and, in any event, the SAWG shall be advised by OES/N of the matter and its resolution.

(2) Any question, complaint or request from a facility operator concerning an action by an IAEA inspector shall be addressed to the NRC or DOE, as appropriate. This shall be undertaken in the first instance by contacting an appropriate NRC or DOE official, if present at the facility. If necessary, a designated official at NRC or DOE headquarters shall be consulted. If not resolved by such consultation, the matter will then be addressed as described in Section H above.

(3) The NRC and DOE, as appropriate, shall be responsible for ensuring compliance with footnotes to Codes 3.2 of the Arrangements with respect to safety, radiation protection, and medical care of IAEA staff members carrying out functions under the Agreement.

K. Designation of IAEA Inspectors

Each proposal by the IAEA for designation of one or more inspectors for service in the United States which is received by the Mission shall be referred to the SAWG for consideration. If consensus cannot be reached, the matter will be referred to the ISG. State shall provide the U.S. response to each such proposal to the Mission for transmittal to the IAEA. OES/N shall maintain the list of IAEA inspectors formally designated for service in the United States and shall provide copies of the list, and changes as they occur, to each ISG member agency. The NRC and DOE may provide copies of such lists to facility operators under their respective jurisdictions for their information.

L. Notification of IAEA Inspections and Visits

NRC and DOE shall consult and provide to OES/N, and OES/N shall provide the IAEA, the name, telex address, and telephone number of an appropriate official and alternate to be contacted by the IAEA for advance, informal coordination and planning of any inspection or visit. This official shall coordinate preparation for each inspection or visit with any facility involved and provide timely responses directly to the IAEA. Such coordination shall be in preparation for the formal advance notification of each IAEA inspection and visit (Agreement Article 81 and Protocol Aritcle 11(b)) which, when received by the Mission, shall be provided to State by telegram, with the NRC and DOE as information addresses. OES/N shall maintain a schedule of each planned IAEA inspection or visit and provide copies to the ISG member agencies. The operator of each facility to be inspected or visited shall be so informed by the NRC or DOE, as the case may be, which shall also arrange for the IAEA inspector to be accompanied by one or more NRC or DOE representatives. DOE or NRC as appropriate shall, to the extent possible, accommodate requests by SAWG members to be present during inspections.

M. Reports by the IAEA

Reports by the IAEA, in accordance with Agreement Articles 41, 64 and 88, of its inspections and other safeguards activities in the United States, when received by the Mission, shall be transmitted to State. OES/N shall provide copies to the ISG member agencies and shall also maintain a file of such reports.

N. Implementation Reports

SAWG, on the basis of information collected by the NRC and DOE and information obtained from the IAEA, may prepare periodic reports concerning implementation of the Agreement, including, *inter alia*, pertinent statistics, lists of facilities inspected, and other relevant data for the information of government agencies, the Congress and the public.

O. Agreement Article 22

State shall institute steps as necessary to suspend, for the duration of the Agreement, the application of IAEA safeguards in the United States under other safeguards agreements with the IAEA. State shall maintain a list of the agreements, required by Code 3.8.1 of the Subsidiary Arrangements, under which the application of such safeguards has been suspended and shall provide this list and all subsequent changes to each ISG member agency. DOE shall prepare the reports required by Codes 3.8.2 and 3.8.3 of the Subsidiary Arrangements for delivery of these reports to State for transmission by State to the IAEA within the time limits stipulated in Codes 3.8.2 and 3.8.3. DOE shall also be responsible for the monitoring function called for in footnote 3 of Code 3.8 of the Subsidiary Arrangements and for reporting, at least annually, to State the results of such monitoring.

P. Role of these Procedures and their Modification

(1) *Scope.* These procedures are for the purpose of interagency coordination and shall not affect the internal coordination mechanism of any agency. These procedures establish requirements solely applicable to certain agencies of the United States Government, rather than individuals, and, accordingly, are not rules within the meaning of the Administrative Procedure Act.

(2) *Amendment.* These procedures may be amended from time to time by the ISG. However, any proposed changes that affect additions to, or deletions from, the list of facilities eligible for the application of safeguards must be concurred in by DOD.

Dated: May 14, 1981.

John P. Boright,

Director, Office of Nuclear Technology and Safeguards.

BILLING CODE 4710-09-M

DEPARTMENT OF THE TREASURY

Fiscal Service

[Dept. Circ. 570, 1980 Rev., Supp. No. 27]

Cornhusker Casualty Company; Surety Companies Acceptable on Federal Bonds: Termination of Authority

Notice is hereby given that the certificate of authority issued by the Treasury to Cornhusker Casualty Company, Omaha, Nebraska, under Sections 6 to 13 of Title 6 of the United States Code, as an acceptable surety on Federal bonds is hereby terminated, effective June 30, 1981.

The company was last listed as an acceptable surety on federal bonds at 45 FR 44503, July 1, 1980.

With respect to any bonds currently in force with Cornhusker Casualty Company, bond-approving officers of the Government may let such bonds run to expiration and need not secure new bonds. However, no new bonds should be accepted from the company.

Questions concerning this notice may be directed to the Audit Staff, Bureau of Government Financial Operations, Department of the Treasury, Washington, D.C. 20226, Telephone 202-634-5010.

Dated: May 27, 1981.

W. E. Douglas,

Commissioner.

[FR Doc. 81-16401 Filed 6-1-81; 8:45 am]

BILLING CODE 4810-35-M

[Dept. Circ. 570, 1980 Rev., Supp. No. 26]

Surety Companies Acceptable on Federal Bonds

A certificate of authority as an acceptable surety on Federal bonds is hereby issued to the following company under Sections 6 to 13 of Title 6 of the United States Code. An underwriting limitation of $349,000 has been established for the company.

Name of Company: DELTA CASUALTY COMPANY
Business Address: 4711 North Clark Street, Chicago, Illinois 60640
State of Incorporation: Illinois

Certificates of authority expire on June 30 each year, unless renewed prior to that date or sooner revoked. The certificates are subject to subsequent annual renewal so long as the companies remain qualified (31 CFR Part 223). A list of qualified companies is published annually as of July 1 in Department Circular 570, with details as to underwriting limitations, areas in which licensed to transact surety business and other information. Federal bond-approving officers should annotate their reference copies of the Treasury Circular 570, 1980 Revision, at page 44504 to reflect this addition. Copies of the circular, when issued, may be obtained from the Audit Staff, Bureau of Government Financial Operations, Department of the Treasury, Washington, D.C. 20226.

Dated: May 27, 1981.

W. E. Douglas,

Commissioner.

BILLING CODE 4810-35-M

VETERANS ADMINISTRATION

Special Medical Advisory Group; Meeting

The Veterans Administration gives notice under 38 U.S.C. 4112, that a

meeting of the Special Medical Advisory Group will be held in the Administrator's Conference Room at the Veterans Administration Central Office, 810 Vermont Avenue, NW, Washington, DC, on June 24 and 25, 1981. The purpose of the Special Medical Advisory Group is to advise the Administrator and the Chief Medical Director relative to the care and treatment of disabled veterans, and other matters pertinent to the Veterans Administration's Department of Medicine and Surgery.

The sessions will convene at 8:30 a.m. both days. These sessions will be open to the public up to the seating capacity of the room. Because this capacity is limited, it will be necessary for those wishing to attend to contact Mrs. Barbara Pryor, Executive Secretary, Special Medical Advisory Group, Veterans Administration Central Office (phone (202) 389-2298) prior to June 5, 1981.

Dated: May 22, 1981.

Rufus H. Wilson,

Acting Administrator.

Department of Education

Privacy Act Systems; Annual Publication

DEPARTMENT OF EDUCATION

Office of Public Affairs

Privacy Act Systems: Annual Publication

AGENCY: Department of Education.

ACTION: Annual publication of notices of systems of records.

SUMMARY: This annual publication of the Department of Education's notices of systems of records is required by law, 5 U.S.C. 552a(e)(4), and is complete as of March 20, 1981. This listing contains no material which would require a new or altered system report as described in OMB Circular A–108, nor does it contain any new routine uses. The notices in this listing include changes for the purposes of completeness, clarity, timeliness, and correctness.

FOR FURTHER INFORMATION CONTACT: Jack L. Billings, Office of Assistant Secretary for Public Affairs, Department of Education, Room 4169, 400 Maryland Avenue, S.W., Washington, D.C. 20202. Telephone (202) 426–6573.

SUPPLEMENTARY INFORMATION:

Systems Covered by this Notice

The Department of Education came into existence on May 4, 1980. This is the first annual publication of systems of records used by the Department. Most of the systems of records maintained by the Department are systems that were used by the component agencies of the Education Division of the former Department of Health, Education, and Welfare (DHEW). The Department also uses a number of systems of records that contain information formerly contained in systems of records maintained by the Office of the Secretary of DHEW. The following systems fall into this category:

18–01–0001 Secretary's Communication Control System
18–01–0002 Federal Advisory Committee Candidate Files
18–06–0001 Freedom of Information Case File and Correspondence Control Index
18–06–0002 Biographies and Photographs of ED Officials
18–08–0001 Case Information Management System (Office of Civil Rights)
18–08–0002 Complaint Files and Log, Office of Management and Administration
18–09–0001 Administrative Claims
18–09–0002 Office of the General Counsel, Attorney Applicant Files
18–09–0003 Conflict of Interest—Standards of Conduct Records
18–09–0004 Federal Private Relief Legislation
18–09–0005 Litigation Files, Administrative Complaints, and Adverse Personnel Actions
18–10–0001 Investigative Files of the Inspector General
18–11–0001 Motor Vehicle Operator Records
18–11–0002 Departmental Parking Control
18–11–0003 Family Education Rights and Privacy Act—School Recordkeeping Practices, Correspondence, and Complaint System
18–11–0005 Safety Management Information System
18–11–0006 Telephone Directory/Locator System
18–11–0007 Applicants for Employment Records
18–11–0009 Discrimination Complaints Records System
18–11–0010 Employee Alcoholism, Drug Abuse and Emotional Problem Counseling and Referral Records
18–11–0011 Employee Appraisal Program Records
18–11–0012 Executive Development System
18–11–0014 Grievances Filed Under the Informal Grievance Procedures
18–11–0015 Grievances Records Filed Under Procedures Established by Labor-Management Negotiations
18–11–0018 Personnel Records in Operating Offices
18–11–0019 Special Employment Programs
18–11–0020 Suitability for Employment Records
18–11–0022 Volunteer EEO Support Personnel Records
18–11–0023 Unfair Labor Practice Records

Law Envorcement Education System, 18–18–0002 was transferred to the Department of Education from the Justice Department.

The following systems of records published by DHEW, have been deleted because they no longer exist.

09–40–0075 Women in Executive Positions in Higer Education
09–40–0048 Participants in ESEA Title VIII Bilingual Education of Elementary Programs
09–42–0017 Research for Better Schools Experienced Based Career Education Record System
09–42–0018 Appalachia Educational Laboratory Experienced Based Career Education Record System
09–42–0020 Educational Testing Service Experienced Based Career Education
09–42–0081 Compensatory Education Study

Three new systems are published separately because they have just been established.

18–18–0001 Fellowship Nomination Listing for Graduate and Professional Opportunities Program; Public Service Education Program; and Domestic Mining and Mineral and Mineral Fuel Conservation Program
18–20–0002 Fund for Improvement of Postsecondary Education National Board
18–21–0001 The National Longitudinal Studies Program: The High School Class of 1972 and the High School and Beyond

Disclosure of Information

The Privacy Act of 1974 limited the conditions under which an agency could disclose information contained in a system of records. These conditions are contained in Title 5 of the United States Code, section 522a(b) and are quoted below:

"(b) Conditions of Disclosure—No agency shall disclose any record which is contained in a system of records by any means of communication to any person, or to another agnecy, except pursuant to a written request by, or with the prior written consent of, the individual to whom the record pertains, unless disclosure of the record would be—

"(1) to those officers and employees of the agnecy which maintains the record who have a need for the record in the performance of their duties;

"(2) required under section 552 of this title [the Freedom of Information Act];

"(3) for a routine use * * * [see discussion regarding routine uses which follows this list];

"(4) to the Bureau of the Census for purposes of planning or carrying out a census or survey or related activity pursuant to the provisions of title 13;

"(5) to a recipient who has provided the agency with advance adequate written assurance that the record will be used solely as a statistical research or reporting record, and the record is to be transferred in a form that is not individually identifiable;

"(6) to the National Archives of the United States as a record which has sufficient historical or other value to warrant its continued preservation by the United States Government, or for evaluation by the Administrator of General Services or his designee to determine whether the record has such value;

"(7) to another agency or to an instrumentality of any governmental jurisdiction within or under the control of the United States for a civil or

criminal law enforcement activity if the activity is authorized by law, and if the head of the agency or instrumentality has made a written request to the agency which maintains the record specifying the particular portion desired and the law enforcement activity for which the record is sought;

"(8) to a person pursuant to a showing of compelling circumstances affecting the health or safety of an individual if upon such disclosure notification is transmitted to the last known address of such individual;

"(9) to either House of Congress, or, to the extent of matter within its jurisdiction, any committee or subcommittee thereof, any joint committee of Congress or subcommittee of any such joint committee;

"(10) to the Comptroller General, or any of his authorized representatives in the course of the performance of the duties of the General Accounting Office; or

"(11) pursuant to the order of a court of competent jurisdiction."

Routine Uses

Paragraph (b)(3) of section 552a permits disclosure for a routine use. A routine use is a use of a record for a purpose which is compatible with the purpose for which the record was collected. Each routine use for which an agency may disclose a record must be published in the notice of the system of records for which the use will apply. Many of the systems of records maintained by the Department use standard routine uses. These standard routine uses were published in Appendix B to the Department's Privacy Act regulations (34 CFR Part 5b, May 9, 1980, 45 FR 30808). A system that adopts a standard routine use refers to Appendix B. For ease of reading, the routine uses listed in Appendix are appended to this document before the Index of Systems and System Numbers.

Dated: May 22, 1980.

T. H. Bell,

Secretary of Education.

Appendix B of Departmental Regulations

[34 CFR Part 5b]

Routine Uses Applicable To More Than One System of Records Maintained by ED

(1) In the event that a system of records maintained by this agency to carry out its functions indicates a violation or potential violation of law, whether civil, criminal or regulatory in nature, and whether arising by general statute or particular program statute, or by regulation, rule or order issued pursuant thereto, the relevant records in the system of records may be referred, as a routine use, to the appropriate agency, whether federal, or foreign, charged with the responsibility of investigating or prosecuting such violation or charged with enforcing or implementing the statute, or rule, regulation or order issued pursuant thereto.

(2) Referrals may be made of assignments of research investigators and project monitors to specific research projects to the Smithsonian Institution to contribute to the Smithsonian Science Information Exchange, Inc.

(3) In the event the Department deems it desirable or necessary, in determining whether particular records are required to be disclosed under the Freedom of Information Act, disclosure may be made to the Department of Justice for the purpose of obtaining its advice.

(4) A record from this system of records may be disclosed as a 'routine use' to a federal, state or local agency maintaining civil, criminal or other relevant enforcement records or other pertinent records, such as current licenses, if necessary to obtain a record relevant to an agency decision concerning the hiring or retention of an employee, the issuance of a security clearance, the letting of a contract, or the issuance of a license, grant or other benefit.

A record from this system of records may be disclosed to a federal agency, in response to its request, in connection with the hiring or retention of an employee, the issuance of a security clearance, the reporting of an investigation of an employee, the letting of a contract, or the issuance of a license, grant, or other benefit by the requesting agency, to the extent that the record is relevant and necessary to the requesting agency's decision on the matter.

(5) In the event that a system of records maintained by this agency to carry out its function indicates a violation or potential violation of law, whether civil, criminal or regulatory in nature, and whether arising by general statute or particular program statute, or by regulation, rule or order issued pursuant thereto, the relevant records in the system of records may be referred, as a routine use, to the appropriate agency, whether state or local charged with the responsibility of investigating or prosecuting such violation or charged with enforcing or implementing the statute, or rule, regulation or order issued pursuant thereto.

(6) Where federal agencies having the power to subpoena other federal agencies' records, such as the Internal Revenue Service or the Civil Rights Commission, issue a subpoena to the Department for records in this system of records, the Department will make such records available.

(7) Where a contract between a component of the Department and a labor organization recognized under E.O. 11491 provides that the agency will disclose personal records relevant to the organization's mission, records in this system of records may be disclosed to such organization.

(8) Where the appropriate official of the Department, pursuant to the Department's Freedom of Information Regulation determines that it is in the public interest to disclose a record which is otherwise exempt from mandatory disclosure, disclosure may be made from this system of records.

(9) The Department contemplates that it will contract with a private firm for the purpose of collating, analyzing, aggregating or otherwise refining records in this system. Relevant records will be disclosed to such a contractor. The contractor shall be required to maintain Privacy Act safeguards with respect to such records.

(10) To individuals and organizations, deemed qualified by the Secretary to carry out specific research solely for the purpose of carrying out such research.

(11) Disclosures in the course of employee discipline or competence determination proceedings.

A complete index of systems of records covered by this notice follows:

Index of Systems and System Numbers

18–01–0001 Secretary's Communication Control System
18–01–0002 Federal Advisory Committee Membership Files
18–06–0001 Freedom of Information Case File and Correspondence Control Index
18–06–0002 Biographies and Photographs of ED Officials
18–08–0001 Case Information Management System (OCR)

18–42–0083 National Council on Educational Research—Current and Past Information on Members of the Council and Consultants

18–01–0001

SYSTEM NAME:

Secretary's Communications Control System. ED/OS/ES.

SECURITY CLASSIFICATION:

None.

SYSTEM LOCATION:

Executive Secretary to the Department, Room 4181, FOB No. 6, 400 Maryland Avenue, S.W., Washington, D.C. 20202.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Individuals who have contacted the Secretary or Under Secretary or who have been contacted in writing by them.

CATEGORIES OF RECORDS IN THE SYSTEM:

This system includes the Secretary's and Under Secretary's official files and Congressional correspondence within an Executive Secretariat, specifically hard copies of official documents signed or initialed by the Secretary or Under Secretary; also control information from the Secretary's and Under Secretary's correspondence to include a subject narrative, organization drafting the response, and type of action required from the Department. This information is also contained on computer magnetic tape, and computer disc units.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

5 U.S.C. 301.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USERS:

Disclosure may be made to a congressional office from the record of an individual in response to an inquiry from the congressional office made at the request of that individual. In the event of litigation where one of the parties is (a) the Department, any component of the Department, or any employee of the Department in his or her official capacity; (b) the United States where the Department determines that the claim, if successful, is likely to directly affect the operations of the Department or any of its components; (c) any Department employee in his or her individual capacity where the Justice Department has agreed to represent such employee, the Department may disclose such records as it deems desirable or necessary to the Department of Justice to enable that Department to effectively represent such party, provided such disclosure is compatible with the purpose for which the records were collected.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

The records are maintained in hard copy filed in standard file cabinets.

RETRIEVABILITY:

Official files of the Secretary and Under Secretary are indexed by subject and name in addition to chronological cross-reference. Records are available to staff of the Executive Secretariat for reference purposes in staffing out issues of concern to the Secretary or Under Secretary. Certain other records are available to staff responsible for preparation of responses to inquiries, and are used for control purposes.

SAFEGUARDS:

Direct access is limited to the staff of the Executive Secretariat. Access is limited during non-working hours to hard copy records to those individuals with access to file cabinets and areas where records are stored. Remote computer terminal locations are protected with individual user identification numbers and passwords to the computer system. Where possible, computer terminal locations are locked during non-working hours.

RETENTION AND DISPOSAL:

Hard copy records are maintained for three years and then retired to National Archives. Control and Congressional records are computer stored indefinitely.

SYSTEM MANAGER(S) AND ADDRESS:

Executive Secretary to the Department, Room 4181, FOB No. 6, 400 Maryland Avenue, S.W., Washington, D.C. 20202.

NOTIFICATION PROCEDURE:

Inquiries should be addressed to the system manager at the above address. The inquirer should indicate the name of the individual with whom the Secretary or Under Secretary corresponded, the date of the subject documents and should reasonably specify the subject matter of the issue involved.

RECORD ACCESS PROCEDURES:

Same as notification procedures. (These access procedures are in accordance with Department Regulations (34 CFR, Part 5 and 5.13, Subtitle A, 45 FR 30810, May 9, 1980).

CONTESTING RECORD PROCEDURES:

Contact the official at the address specified under notification procedures above, and reasonably identify the record and specify the information to be contested.

RECORD SOURCE CATEGORIES:

Records are derived from documents signed or initialed by the Secretary or Under Secretary. Computer records are derived from the incoming correspondence for the Secretary and Under Secretary.

SYSTEM EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None.

18-01-0002

SYSTEM NAME:

Federal Advisory Committee Membership Files, ED–OASM–HR–CMO.

SECURITY CLASSIFICATION:

None.

SYSTEM LOCATION:

See system manager below.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Individuals who have been or are presently members of or are being considered for membership on advisory committees within the jurisdiction of the Department of Education. Additionally the system of records contains information about members of the public who have requested that they receive various publications through the inclusion of their names and addresses on various mailing lists.

CATEGORIES OF RECORDS IN THE SYSTEM:

Information maintained on those individuals who have requested participation on mailing lists is limited to name and mailing address. Information maintained on individuals who are past, present, or recommended members of advisory committees subject to this notice consists of one or more of the following: name, title, sex, place and date of birth, home address, business address, organizational affiliation, phone number, degrees held, general educational background, ethnic background, resume, curriculum vitae, dates of term on advisory committee, status on advisory committee, reason for leaving advisory committee, previous or current membership on other advisory committees, special qualifications of the individual for the advisory committee membership, source who recommended the individual for membership on advisory committee and miscellaneous correspondence. Additionally, memoranda justifying the individual's selection are included in the file in cases in which the individual has served repetitively on advisory committees, has not had a one-year break in service on advisory committees, or where various statutory or other requirements for advisory committee membership cannot be met.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Federal Advisory Committee Act (5 U.S.C. Appendix I).

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

Annual Report to the President; administrative reports to OMB and GSA. In accordance with Department Regulations (34 CFR Part 5b, Appendix B, items 1 and 3). In the event of litigation where one of the parties is (a) the Department, any component of the Department, or any employee of the Department in his or her official capacity; (b) the United States where the Department determines that the claim, if successful, is likely to directly affect the operations of the Department or any of its components; or (c) any Department employee in his or her individual capacity where the Justice Department has agreed to represent such employee, the Department may disclose such records as it deems desirable or necessary to the Department of Justice to enable that Department to effectively represent such party, provided such disclosure is compatible with the purpose for which the records were collected. Disclosure may be made to a Congressional office from the record of an individual in response to an inquiry from the Congressional office made at the request of that individual.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Records are maintained in hard-copy filed in file cabinets on index cards.

RETRIEVABILITY:

For the most part records are maintained in an alphabetical index by name of the individual. Certain files are based on other factors, e.g. Advisory Committee name, with a cross index based on an alphabetical listing of individuals. Records from the system are available to the staffs of the respective Advisory Committees and other Departmental staff on a need-to-know basis. Uses include special administrative reports; quarterly alphabetical listings of past, present and recommended members of Advisory Committees; and other administrative needs.

SAFEGUARDS:

Direct access to records is restricted to authorized personnel through locked files, rooms, and buildings as well as building pass and security guard sign-in systems.

RETENTION AND DISPOSAL:

Retention is variable from one year to permanent retention depending upon the type of record, e.g., names of former members of advisory committees are retained permanently. Certain records are disposed of by referral to the Federal Records Center. Others are disposed of as trash by the system manager or office of security depending upon the confidentiality of the information contained on the record.

SYSTEM MANAGER(S) AND ADDRESS:

Department of Education, Committee Management Officer, Room 2135, FOB No. 6, 400 Maryland Avenue, S.W., Washington, D.C. 20202.

NOTIFICATION PROCEDURE:

Same as above.

RECORD ACCESS PROCEDURE:

Same as notification procedures. Requesters should also reasonably specify the record contents being sought. (These access procedures are in accordance with Department

Regulations (34 CFR 5b.5(a)(2)), 45 FR 30809, May 9, 1980).

CONTESTING RECORD PROCEDURES:

Contact the official at the address specified under notification procedures, and reasonably identify the record and specify the information to be contested. (These procedures are in accordance with Department Regulations (34 CFR 5b.7), 45 FR 30810, May 9, 1980).

RECORD SOURCE CATEGORIES:

The vast majority of information contained in records on individuals is obtained directly from the individual. Other information in the form of references and recommendations is obtained from other private individuals, program personnel, biographical reference books, private organizations, former employers, regional office of ED, Members of Congress, and other government sources.

18-06-0001

SYSTEM NAME:

Freedom of Information Case File and Correspondence Control Index. ED/OASPA/AU.

SECURITY CLASSIFICATION:

None.

SYSTEM LOCATION:

Room 4169, FOB No. 6, 400 Maryland Avenue, S.W., Washington, D.C. 20202 (See Appendix I following).

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Individuals or organizations requesting access to inspect and/or copy records of the Department under provisions of the Freedom of Information Act.

CATEGORIES OF RECORDS IN THE SYSTEM:

Control number, name, address, and other individually identifying information about the requester and the records sought.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Freedom of Information Act, Pub. L. 93-502 (5 U.S.C. 552), ED Public Information Regulation (34 CFR Part 5).

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

Information will be released for the purposes cited in Appendix B of the Department's Privacy Act regulations (34 CFR Part 5b). Disclosure may be made to a Congressional office from the record of an individual in response to an inquiry from the Congressional office made at the request of that individual. In the event of litigation where the defendant is (a) the Department, any component of the Department, or any employee of the Department in his or her official capacity; (b) the United States where the Department determines that the claim, if successful, is likely to affect directly the operations of the Department or any of its components; or (c) any Department employee in his or her individual capacity where the Department of Justice has agreed to represent such employee. The Department may disclose such records as it deems desirable or necessary to the Department of Justice to enable that Department to present an effective defense, provided such disclosure is compatible with the purpose for which the records were collected

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Original or copy of incoming request and written response maintained in case file jackets and corresponding control log.

RETRIEVABILITY:

For the most part, records are indexed by name of individual requester. Records are available to FOI staff involved in correspondence and investigative processes, including appeals officials and staff members of the Office of the General Counsel.

SAFEGUARDS:

Records are maintained in Conserva-File cabinets in the office of the Freedom of Information Officer and in public affairs offices throughout the Department, with limited access.

RETENTION AND DISPOSAL:

Individual case files are maintained for two years and then disposed of.

SYSTEM MANAGER(S) AND ADDRESS:

Freedom of Information Officer, Room 4196, FOB No. 6, 400 Maryland Avenue, S.W., Washington, D.C. 20202, (See Appendix I at the end of this system (18-06-0001)).

NOTIFICATION PROCEDURE:

System manager. Address same as above.

CONTESTING RECORD PROCEDURES:

Same as under record access.

RECORD SOURCE CATEGORIES:

Individuals and organizations making request under the Freedom of Information Act or from components of the Department reporting on the handling of such requests for inclusion in the annual report to Congress.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None.

Appendix I—Regional Denial Officers

Region I: Deputy Regional Director, OCR, 140 Federal Street, 14th Floor, Boston, MA 02110
Region II: Regional Director, OCR, 26 Federal Plaza, Room 33-130, New York, NY 10278
Region III: Assistant to the Secretary's Representative, P.O. Box 13716, Philadelphia, PA 19101
Region IV: Regional Director, OCR, 101 Marietta Street, N.W., Suite 2702, Atlanta, GA 30323
Region V: Education Program Specialist, Division of Dissemination, OEP, 300 South Wacker Drive, 32nd Fl., Chicago, IL 60606
Region VI: Education Program Specialist, 1200 Main Tower Building, Room 1455, Dallas, TX 75202
Region VII: Education Program Specialist, OEP, 324 East 11th Street, 9th Floor, Kansas City, MO 64106
Region VIII: Public Information Specialist, 1961 Stout Street, Denver, CO 80294
Region IX: Education Program Specialist, OEP, 50 United Nations Plaza, San Francisco, CA 94102
Region X: Education Program Specialist, OEP, 1321 Second Avenue, Mail Stop 1516, Seattle, WA 98101

18-06-0002

SYSTEM NAME:

Biographies and Photographs of ED Officials. ED/OASPA/N.

SECURITY CLASSIFICATION:

None.

SYSTEM LOCATION:

Office of the Assistant Secretary for Public Affairs, News Division, Room 2089, FOB No. 6, 400 Maryland Avenue, S.W., Washington, D.C. 20202.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

ED employees in key management and technical positions, such as the Secretary, Under Secretary, Assistant Secretaries, Deputy Assistant Secretaries, Unit Managers.

CATEGORIES OF RECORDS IN THE SYSTEM:

Biographical files consist of approved, printed personal and professional resumes and standard portrait pictures and biographical and professional questionnaires providing name, title, office location, telephone number, date of appointment to ED, date of birth, place of birth, marital status, spouse's name, children's names, education, military service, professional career data, professional affiliations, publications and articles authored,

V 4 6 / 1 0 5 J E 2 8 1 UMI

awards, citations, prizes and honors received, civic, social and fraternal associations, outside interests, such as hobbies, sports, recreation.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

5 U.S.C. 301.

PURPOSE(S):

These records are maintained and made available to staff of the Department who have a need for photographs or background information on top officials of ED.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

Disclosure may be made to a Congressional office from the record of an individual in response to an inquiry from the Congressional office made at the request of that individual. In the event of litigation where the defendant is (a) the Department, any component of the Department, or any employee of the Department in his or her official capacity; (b) the United States where the Department determines that the claim, if successful, is likely to directly affect the operations of the Department or any of its components; or (c) any Department employee in his or her individual capacity where the Justice Department has agreed to represent such employee, the Department may disclose such records as it deems desirable or necessary to the Department of Justice to enable that Department to effectively represent such party, provided such disclosure is compatible with the purpose for which the records were collected.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Records are maintained in individual and combined files and stored in standard five-drawer file cabinets.

RETRIEVABILITY:

Records are indexed by the name in alphabetical order. These records are made available to staff of the Department who have a need for photos or background information on these officials.

SAFEGUARDS:

Files are maintained in the offices of Public Affairs and requests are honored on a "need to know" basis only.

RETENTION AND DISPOSAL:

Records are periodically updated as circumstances warrant relative to promotions, reassignment, resignations, death.

SYSTEM MANAGER(S) AND ADDRESS:

Office of Public Affairs, News Division, Room 2089, FOB No. 6, 400 Maryland Avenue, S.W., Washington, D.C. 20202.

NOTIFICATION PROCEDURE:

Records are provided by individuals who are, therefore, aware their records are being maintained.

RECORD ACCESS PROCEDURES:

Requesters should reasonably specify the record contents being sought. (These access procedures are in accordance with Department Regulations (34 CFR 5b.5(a)(2)), 45 FR 30809, May 9, 1980.

CONTESTING RECORD PROCEDURES:

Contact the system manager and reasonably identify the record and specify the information to be contested. (These procedures are in accordance with Department Regulations (34 CFR, 45 FR 30810, May 9, 1980).

RECORD SOURCE CATEGORIES:

Individuals provide some information, other material is furnished by agency public information offices. The biographies are cleared with the individuals whose biography they represent prior to release to the public and the news media.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None.

18–08–0001

SYSTEM NAME:

Case Information Management System. ED/OCR.

SECURITY CLASSIFICATION:

None.

SYSTEM LOCATION:

See Appendix I at the end of this system (18–08–0001).

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Persons filing complaints with the Office for Civil Rights.

CATEGORIES OF RECORDS IN THE SYSTEM:

Name, characteristics of complaint and critical events in OCR's processing of the complaints.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Title VI of the Civil Rights Act of 1964, Title IX and VII of the Education Amendments of 1972, and Section 504 of the Rehabilitation Act of 1973.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

Report on current status of complaint processing. Disclosure may be made to a congressional office from the record of an individual in response to an inquiry from the congressional office made at the request of that individual. In the event of litigation where one of the parties is (a) the Department, any component of the Department, or any employee of the Department in his or her official capacity; (b) the United States where the Department determines that the claim, if successful, is likely to directly affect the operations of the Department or any of its components; or (c) any Department employee in his or her individual capacity where the Justice Department has agreed to represent such employee, the Department may disclose such records as it deems desirable or necessary to the Department of Justice to enable that Department to effectively represent such party, provided such disclosure is compatible with the purpose for which the records were collected.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Magnetic disk and tape.

RETRIEVABILITY:

Records are indexed by case or complaint number, but may be recalled by name, address, or any other characteristics by OCR staff engaged in compliance activities.

SAFEGUARDS:

The physical data processing storage is controlled by the Department of Health and Human Services, Data Management Center and Office for Civil Rights ADP personnel using Standard appropriate security methods. This agency references data through communication terminals with access controlled by passwords.

RETENTION AND DISPOSAL:

Indefinite retention. Disposal by electronic erasure.

SYSTEM MANAGER(S) AND ADDRESS:

Deputy Assistant Secretary for Planning and Compliance Operations, Room 5074, Switzer, 400 Maryland Avenue, S.W., Washington, D.C. 20202.

NOTIFICATION PROCEDURE:

System manager in preceding paragraph. Provide name, address, and name of institution, contractor, or ED

program with which individual has contract.

RECORD ACCESS PROCEDURES:

Same as notification procedures: Requesters should also reasonably specify the record contents being sought. (These access procedures are in accordance with Department Regulations (34 CFR 5b.5(a)(2)), 45 FR 30809, May 9, 1980.)

CONTESTING RECORD PROCEDURES:

Contact the official at the address specified under notification procedures, and reasonably identify the record and specify the information to be contested. (These procedures are in accordance with Department Regulations (34 CFR 5b.7) 45 FR 30810, May 9, 1980.)

RECORD SOURCE CATEGORIES:

Information in complaint investigation files.

SYSTEM EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None.

Appendix I: This system is located at ED offices in the following cities:

ED Office for Civil Rights, Room 5074, Switzer Bldg., 400 Maryland Avenue, S.W., Washington, D.C. 20202
Region I, Regional CR Director, 140 Federal Street, Boston, MA 02110
Region II, Regional CR Director, 26 Federal Plaza, New York, NY 10007

18-08-0002

SYSTEM NAME:

Complaint Files and Log, Office of Planning and Compliance Operations, ED/OCR/OPCO.

SECURITY CLASSIFICATION:

None.

SYSTEM LOCATION:

See Appendix I to Case Information Management System, ED/OCR SYSTEM 18-08-0001.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Individuals who file complaints with the Department concerning discrimination under Title VI, Title IX, and Section 504 of the Rehabilitation Act.

CATEGORIES OF RECORDS IN THE SYSTEM:

Complaint allegation, results of investigation of the allegation, correspondence related to the complaint.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Title VI of the Civil Rights Act; Title IX of the Education Amendments of 1972; Emergency School Assistance Act; Section 504 of the 1973 Rehabilitation Act.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

Files are maintained to record the results of the investigation so that OCR can determine if there was discrimination as charged in the original complaint. Files may be referred, as necessary, for similar purposes to the Departments of Justice, and Labor of the Equal Employment Opportunity Commission. Disclosure may be made to a Congressional office from the record of an individual in response to an inquiry from the Congressional office made at the request of that individual. In the event of litigation where one of the parties is (a) the Department, any component of the Department, or any employee of the Department in his or her official capacity; (b) the United States where the Department determines that the claim, if successful, is likely to directly affect the operations of the Department or any of its components; or (c) any Department employee in his or her individual capacity where the Justice Department has agreed to represent such employee, the Department may disclose such records as it deems desirable or necessary to the Department of Justice to enable that Department to effectively represent such party, provided such disclosure is compatible with the purpose for which the records were collected.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

File folders and file cards.

RETRIEVABILITY:

By name for use by OCR staff in complaint investigations.

SAFEGUARDS:

Printed materials are filed in lockable cabinets. The Department's Regulations (ADP Systems Security, part 6) govern the control.

RETENTION AND DISPOSAL:

2 years.

SYSTEM MANAGER(S) AND ADDRESS:

Deputy Assistant Secretary for Planning and Compliance Operations, Room 5074, Switzer, 400 Maryland Avenue, S.W., Washington, D.C. 20202.

NOTIFICATION PROCEDURE:

System manager (above). Include name and address of complainant, a copy or summary of allegations contained in the original complaint, name of the institution against which the allegation was filed, and the date of the original allegation.

RECORD ACCESS PROCEDURES:

Same as notification procedures. Requesters should also reasonably specify the record contents being sought. (These access procedures are in accordance with Department Regulations (34 CFR Section 5b.5(a)(2)) 45 FR 30810, May 9, 1980.

CONTESTING RECORD PROCEDURES:

Contact the official at the address specified under notification procedures above, and reasonably identify the record and specify the information to be contested. (These procedures are in accordance with Department Regulations (34 CFR 5b.7), 45 FR 30810, May 9, 1980.

RECORD SOURCE CATEGORIES:

Complaint information filed with the Department by or on behalf of the individual complainant, also data provided by the alleged discriminator and other parties.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None.

18-09-0001

SYSTEM NAME:

Administrative Claims, ED/OGC.

SECURITY CLASSIFICATION:

None.

SYSTEM LOCATION:

Office of General Counsel, Department of Education, 400 Maryland Avenue, S.W., Washington, D.C. 20202.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

ED employees, recipients of Federal assistance under ED funded programs, and members of the public who have a claim against ED or against whom ED has a claim—Federal Torts Claims Act, Military Personnel and Civilian Employees Claims Act, Federal Claims Collection Act, Act for Waiver of Overpayment of Pay.

CATEGORIES OF RECORDS IN THE SYSTEM:

Information that is pertinent to the particular claim being asserted, including accident reports, hospital records, charges for medical service; certifications of overpayments, audits of payroll accounts during period of overpayments, earning and leave statements; claims officers memorandum, final determinations made on claims, identity of debtors and information pertaining to how debts arose.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Federal Torts Claims Act (28 U.S.C. 2671–2680, 1346(b); Waiver of Overpayment of Pay Act (5 U.S.C. 5584; Military Personnel and Civilian Employees Claims Act, 31 U.S.C. 240 *et seq.*; Federal Claims Collection Act, 31 U.S.C. 951–953.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORES OF USERS AND THE PURPOSES OF SUCH USES:

Routine uses of these records are primarily for adjudicating claims between the U.S. and private parties. Records are used in communicating with, amoung other, Federal, State, and local law enforcement agencies, private individuals, private and public hospitals, allegedly negligent parties, private attorneys, insurance companies, the United States Attorney and other Federal officials and agencies, individual law enforcement officers, and tribal officials. These communications are all for the purpose of investigating, settling, or litigating claims. Disclosure may be made to a Congressional office from the record of an individual in response to an inquiry from the Congressional office made at the request of that individual. In the event of litigation where one of the parties is (a) the Department, any component of the Department, or any employee of the Department in his or her official capacity; (b) the United States where the Department determines that the claim, if successful, is likely to directly affect the operations of the Department or any of its components; or (c) any Department employee in his or her individual capacity where the Justice Department has agreeed to represent such employee, the Department may disclose such records as it deems desirable or necessary to the Department of Justice to enable that Department to effectively represent such party, provided such disclosure is compatible with the purpose for which the records were collected. Also, the Department may disclose a record for the purposes described in Departmental Regulations (34 CFR Part 5b, Appendix B, items: (1), (3), (4), (5), (8).

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Legal size files in filing cabinets.

RETRIEVABILITY:

Retrieved by name of the non-Government party, whether claimant, plaintiff, or alleged debtor. In some instances, these records are retrievable by cross reference to index cards, containing name of the party involved and the subject matter.

SAFEGUARDS:

Office buildings in which files are kept are locked after the close of the business day. These files are only accessible to General Counsel staff.

RETENTION AND DISPOSAL:

The records are maintained for an indefinite duration.

SYSTEM MANAGER(S) AND ADDRESS:

The agency official responsible for the system policies and practices outlined above is: The General Counsel, Department of Education, Office of the General Counsel, Room 4091, FOB No. 6, 400 Maryland Avenue, S.W., Washington, D.C. 20202.

NOTIFICATION PROCEDURE:

Any inquiries regarding these systems of records should be addressed to the system manager. (These notification and access procedures are in accordance with Department Regulations (34 CFR, Section 5b.5) **Federal Register**, May 9, 1980, page 30809.

RECORD ACCESS PROCEDURES:

Same as notification procedures. Requesters should also reasonably specify the record contents being sought. (These access procedures are in accordance with Department Regulations (34 CFR 5b.5(a)(2)), 45 FR 30809, May 9, 1980.

CONTESTING RECORD PROCEDURES:

Contact the official at the address specified under notification procedures above, and reasonably identify the record and specify the information to be contested. (These procedures are in accordance with Department Regulations (34 CFR 5b.7) 45 FR 30810, May 9, 1980.

RECORD SOURCE CATEGORIES:

The information in this system comes from a number of sources including private individuals, private and public hospitals, doctors, law enforcement agencies and officials, private attorneys, accident reports, third parties, claimants for beneficiaries and their relatives, other Federal agencies, State and local governments, agencies and instrumentalities.

SYSTEM EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None.

18-09-0002

SYSTEM NAME:

OGC-Attorney Applicant Files. ED/OGC.

SECURITY CLASSIFICATION:

None.

SYSTEM LOCATION:

See system location on the Administrative Claims System, 18–40–0062.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Current Attorney Applicants for positions in the Office of the General Counsel.

CATEGORIES OF RECORDS IN THE SYSTEM:

The Attorney Applicant system consists of a variety of records relating to persons applying for attorney positions. These records contain information about an individual's birth date; home address; telephone number; social security number; educational background (e.g., law schools attended and grades); past work experience; writing samples furnished on request; recommendations from past employers and academic officials.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

5 U.S.C. 3301 *et seq.*

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

Disclosure may be made to Congressional office from the record of an individual in response to an inquiry from the Congressional office made at the request of that individual. In the event of litigation where one of the parties is (a) the Department, any

component of the Department, or any employee of the Department in his or her official capacity; (b) the United States where the Department determines that the claim, if successful, is likely to directly affect the operations of the Department or any of its components; or (c) any Department employee in his or her individual capacity where the Justice Department has agreed to represent such employee, the Department may disclose such records as it deems desirable or necessary to the Department of Justice to enable that Department to effectively represent such party, provided such disclosure is compatible with the purpose for which the records were collected.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

These records are maintained in file folders, alphabetized by name, and in some cases the records are separated by individual law school affiliation and by the date the application is received. In some instances records are located in lockable conserva-file cabinets and in a locked secured room with access limited to those officials whose duties require access. In other instances records are maintained in file rooms or with other Office of General Counsel files.

RETRIEVABILITY:

These records are retrievable by name.

SAFEGUARDS:

Access is limited to those ED officials whose duties require access.

RETENTION AND DISPOSAL:

These records are retained in a current system for one year, and in some instances two years, after which time they are discarded.

SYSTEM MANAGER(S) AND ADDRESS:

The agency official responsible for the systems policies and practices outlined above is: The General Counsel, Department of Education, Office of the General Counsel, Room 4091, FOB No. 6, 400 Maryland Avenue, S.W., Washington, D.C. 20202.

NOTIFICATION PROCEDURE:

Any inquiries regarding these systems of records should be addressed to the system manager.

RECORD ACCESS PROCEDURES:

Same as notification procedures. Requesters should also reasonably specify the record contents being sought. (These access procedures are in accordance with Department Regulations (34 CFR 5b.5(a)(2)). 45 FR 30809, May 9, 1980).

CONTESTING RECORD PROCEDURES:

Contact the official at the address specified under notification procedures above, and reasonably identify the record and specify the information to be contested. (These procedures are in accordance with Department Regulations (34 CFR 5b,7), 45 FR 30810, May 9, 1980).

RECORD SOURCE CATEGORIES:

Information in this system of records comes from the individual to whom it applies, law school officials and past employers.

SYSTEM LOCATION:

See system location on the Administrative Claims System, 18–40–0062.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Information about current and past ED employees who are or have been the subject of conflict of interest or standards of conduct inquiries or determinations.

CATEGORIES OF RECORDS IN THE SYSTEM:

These records include information relating to acceptance or offer of gifts, entertainment and favors, outside employment; financial interests; use of government funds, property or official information; partisan political activity; or other matters relating to ethical standards of conduct.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

18 U.S.C. 202, 203, 205, 207, 208, 209; Excutive Order 11222; and 5 CFR Parts 735, 104; 34 CFR Part 73.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

Disclosure may be made to a Congressional office from the record of an individual in response to an inquiry from the Congressional office made at the request of that individual. In the event of litigation where one of the parties is (a) the Department, any component of the Department, or any employee of the Department in his or her official capacity; (b) the United States where the Department determines that the claim, if successful is likely to directly affect the operations of the Department or any of its components; or (c) any Department employee in his or her individual capacity where the Justice Department has agreed to represent such employee, the Department may disclose such records as it deems desirable or necessary to the Department of Justice to enable that Department to effectively represent such party, provided such disclosure is compatible with the purpose for which the records were collected. Also, the Department may disclose a record for the purposes described in Departmental Regulations (34 CFR Part 5b, Appendix B, items: (1), (3), (4), (5), (8).

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

These records are kept in legal size files in filing cabinets.

RETRIEVABILITY:

These records are retrievable by name in most cases. In some instances, these records are retrievable by cross-reference to index cards containing the name of the party involved and the subject matter.

SAFEGUARDS:

These records are only accessible to General Counsel staff. Office buildings in which these records are maintained are locked after the close of the business day.

RETENTION AND DISPOSAL:

The records are maintained for an indefinite duration.

SYSTEM MANAGER(S) AND ADDRESS:

NOTIFICATION PROCEDURE:

Any inquiries regarding these systems of records should be addressed to the system manager.

RECORD ACCESS PROCEDURES:

Same as notification procedures. Requesters should also reasonably specify the record contents being sought. (These access procedures are in accordance with Department

Regulations (34 CFR 5b.7) 45 FR 30810, May 9, 1980).

RECORD SOURCE CATEGORIES:

The information contained in this system comes from the individuals involved and from appropriate Department officials.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None.

18-09-0004

SYSTEM NAME:

Federal Private Relief Legislation. ED/OGC.

SECURITY CLASSIFICATION:

None.

SYSTEM LOCATION:

See system location on the Administration Claims System, 18-40-0062.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Private individuals, groups, or institutions for whom a United States Congressman or Senator has introduced a private relief bill.

CATEGORIES OF RECORDS IN THE SYSTEM:

Background which gives rise to the individual's, group's, or institution's claim for private relief legislation.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

5 U.S.C. 301; OMB Circular A-19.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

The information is used to prepare reports to the Congress, most commonly to the Judiciary Committees of the Senate and the House of Representatives, which reports are thereafter made available to the public under the provisions of 5 U.S.C. 552. In connection with the preparation of those reports, the information contained in this system of records will, as a routine use be disclosed to officers and employees of the Office of Management and Budget in connection with the review of private relief legislation contained in OMB Circular No. A-19 at various stages of the legislative coordination and clearance process as contained in that Circular, and may, as routine use, be disclosed to officers, or employees of agencies (as defined in 5 U.S.C. 551(i) and 552(e) other than the agency that maintains the record. Disclosure may be made to a Congressional office from the record of an individual in response to an inquiry from the Congressional office made at the request of that individual. In the event of litigation where one of the parties is (a) the Department, any component of the Department, or any employee of the Department in his or her official capacity; (b) the United States where the Department determines that the claim, if successful, is likely to directly affect the operations of the Department or any of its components; or (c) any Department employee in his or her individual capacity where the Justice Department has agreed to represent such employee, the Department may disclose such records as it deems desirable or necessary to the Department of Justice to enable that Department to effectively represent such party, provided such disclosure is compatible with the purpose for which the records were collected.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Paper records in file folders kept in legal size filing cabinets.

RETRIEVABILITY:

By bill number using card systems maintained by name and by subject.

SAFEGUARDS:

Immediate access to these records is only by authorized staff. Building is locked at close of business.

RETENTION AND DISPOSAL:

Retained indefinitely either at system location or at Federal Records Center where files are sent on a regular, predetermined schedule.

SYSTEM MANAGER(S) AND ADDRESS:

The General Counsel, Office of the General Counsel, Department of Education, Room 4091, FOB No. 6, 400 Maryland Avenue, S.W., Washington, D.C. 20202.

NOTIFICATION PROCEDURE:

Any inquiries regarding the records in question should be made to the system manager.

RECORD ACCESS PROCEDURES.

Same as notification procedures. Requester should also reasonably specify the record contents being sought. (These access procedures are in accordance with Department Regulations (34 CFR 5b.5(a)(2)), 45 FR 30809, May 9, 1980).

CONTESTING RECORD PROCEDURES:

Contact the official at the address specified under notification procedures, and reasonably identify the record and specify the information to be contested. (These procedures are in accordance with Department Regulations (34 CFR 5b.7, 45 FR 30810, May 9, 1980).

RECORD SOURCE CATEGORIES:

The information in this system comes from the principal operating components of the Department, the Office of the Secretary, Congressional Committees, individual Congressmen and Senators, and, in some cases, the subject individual, group or institution.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None.

18-09-0005

SYSTEM NAME:

Litigation Files, Administrative Complaints, and Adverse Personnel Actions. ED/OGC.

SECURITY CLASSIFICATION:

None.

SYSTEM LOCATION:

See system location on the Administrative Claims System, 18-09-0001.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

The individuals on whom records are maintained in this system are individuals who are involved in litigation with the Department or the United States (regarding matters within the jurisdiction of the Department) either as plaintiffs or as defendants in both civil and criminal matters, and individuals who either file administrative complaints initiated by the Department, except claims which are the subjects of records maintained in the Administrative Claims System, 18-40-0062.

CATEGORIES OF RECORDS IN THE SYSTEM:

These records contain information pertaining to the subject matter of the litigation, administrative complaint, or adverse personnel action. Such records would include complaints, litigation reports, administrative transcripts, various litigation documents, investigative materials, correspondence, briefs, court orders and judgments, and in cases where personal injury is involved, evaluations by physician specialists.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

The authority for maintaining this system are the various statutes, regulations, rules or orders pertaining to the subject matter of the litigation,

administrative complaint or adverse personnel action, (e.g., Civil Rights Act. Federal Torts Claim Act).

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

Disclosure may be made to a Congressional office from the record of an individual in response to an inquiry from the Congressional office made at the request of that individual. In the event of litigation where one of the parties is (a) the Department, any component of the Department, or any employee of the Department in his or her official capacity; (b) the United States where the Department determines that the claim, if successful, is likely to directly affect the operations of the Department or any of its components; or (c) any Department employee in his or her individual capacity where the Justice Department has agreed to represent such employee, the Department may disclose such records as it deems desirable or necessary to the Department of Justice to enable that Department to effectively represent such party, provided such disclosure is compatible with the purpose for which the records were collected. Also, the Department may disclose Department Regulations (34 CFR Part 5b, Appendix B, items: (1), (3), (4), (5), (8).

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

These records consist of legal size files stored in file cabinets.

RETRIEVABILITY:

These records are retrievable by name of the plaintiff or the first plaintiff if there is more than one, or by the name of the first defendant if the plaintiff is the United States. In the case of adverse personnel actions, records are retrievable by name of the individual involved.

SAFEGUARDS:

Office buildings in which these records are maintained are locked after the close of the business day. These records are only accessible by General Counsel staff.

RETENTION AND DISPOSAL:

These records are maintained for an indefinite duration.

SYSTEM MANAGER(S) AND ADDRESS:

The agency official responsible for the system policies and practices outlined above is: The General Counsel, Department of Education, Office of the General Counsel, Room 4091, FOB No. 6, 400 Maryland Avenue, S.W., Washington, D.C. 20202.

NOTIFICATION PROCEDURE:

Any inquiries regarding these systems of records should be addressed to the system manager. Any individual who requests notification of or access to a medical record shall, at the time the request is made, designate in writing a responsible representative who will be willing to review the record and inform the subject individual of its contents at the representative's discretion. (These notification and access procedures are in accordance with the Department Regulations (34 CFR 5b.5) 45 FR 30809, May 9, 1980).

RECORD ACCESS PROCEDURES:

Same as notification procedures. Requesters should also reasonably specify the record contents being sought. (These access procedures are in accordance with Department Regulations (34 CFR 5b.5(a)(2)). 45 FR 30809, May 9, 1980).

CONTESTING RECORD PROCEDURES:

Contact the official at the address specified under notification procedures, and reasonably identify the record and specify the information to be contested. (These procedures are in accordance with Department Regulations (34 CFR 5b.7) 45 FR 30810, May 9, 1980).

RECORD SOURCE CATEGORIES:

The information for this system is obtained through a number of sources including the exchange of legal pleadings, documents, formal and informal discovery, program offices and component agencies, private attorneys, State and local governments, their agencies and instrumentalities, and officers of other Federal agencies and the individuals involved.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None.

18–10–0001

SYSTEM NAME:

Investigative Files of the Inspector General ED/OIG

SECURITY CLASSIFICATION:

None.

SYSTEM LOCATION:

Office of the Inspector General, U.S. Department of Education, Room 4200–Switzer Building, 300 C Street, S.W., Washington, D.C. 20202.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Persons doing business with the Department, including but not limited to current and former employees, grantees, sub-grantees, contractors, subcontractors, State and local government employees, providers and recipients under ED programs; and providers and recipients under State programs funded by the Department.

CATEGORIES OF RECORDS IN THE SYSTEM:

Criminal investigation files.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Pub. L. 95–452, October 12, 1978, as amended (5 U.S.C. Appendix I) and 5 U.S.C. 301.

PURPOSE(S):

Pursuant to Pub. L. 95–452, the system is maintained for the purposes of conducting and documenting criminal investigations by the OIG or other investigative agencies regarding ED programs and operations, documenting the outcome of OIG investigations, maintaining a record of the activities which were the subject of investigations, reporting the results of investigations; to other Departmental components for their use in operating and evaluating their programs and in imposition of civil or administrative sanctions, and acting as a repository and source for information necessary to fulfill the reporting requirements of Pub. L. 95–452, Section 8 (5 U.S.C., Appendix I).

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

(a) In the event that this system of records, maintained by this Agency to carry out its functions, indicates a violation or potential violation of law, whether civil, criminal or regulatory in nature, whether arising by general statute or particular program statute, or by regulation, rule or order issued pursuant thereto, the relevant records in the system of records may be referred, as a routine use, to the appropriate agency, whether Federal, or foreign, charged with the responsibility of investigating or prosecuting such violation or charged with enforcing or implementing the statute, or rule, regulation or order issued pursuant thereto where such responsibility rests outside of OIG; (b) In the event the Department deems it desirable or necessary, in determining whether particular records are required to be disclosed under the Freedom of Information Act, disclosure may be made to the Department of Justice for

the purpose of obtaining its advice; (c) A record from this system of records may be disclosed as a "routine use" to a Federal, State, or local agency maintaining civil, criminal or other relevant enforcement records or other pertinent records, such as current licenses, if necessary to obtain a record concerning the hiring or retention of an employee, the issuance of a security clearance, the letting of a contract, or the issuance of a license, grant or other benefit; (d) A record from this system of records may be disclosed to a Federal agency, in response to its request, in connection with the hiring or retention of an employee, the issuance of a security clearance, the reporting of an investigation of an employee, the letting of a contract, or the issuance of a license, grant, or other benefit by the requesting agency, to the extent that the record is relevant and necessary to the requesting agency's decision on the matter; (e) In the event that this system of records, maintained by this agency to carryout its function, indicates a violation or potential violation of law, whether civil, criminal or regulatory in nature, and whether arising by general statute or particular program statute, or by regulation, rule or order issued pursuant thereto, the relevant records in the system of records may be referred, as a routine use to the appropriate agency, whether State or local, charged with the responsibility of investigating or prosecuting such violation or charged with enforcing or implementing the statute, or rule, regulation or order issued pursuant thereto where such responsibility rests outside of OIG; (f) Where Federal agencies having the power to subpoena other Federal agencies' records (such as the Internal Revenue Service or the Civil Rights Commission), issue a subpoena to the Department for records in this system of records, the Department will make such records available; (g) Where the appropriate official of the Department, pursuant to the Department's Freedom of Information Regulation, determines that it is in the public interest to disclose a record which is otherwise exempt from mandatory disclosure, disclosure may be made from this system of records; (h) When the Department contemplates that it will contract with a private firm for the purpose of collating, analyzing, aggregating or otherwise refining, records will be disclosed to such a contractor. The contractor shall be required to maintain Privacy Act safeguards with respect to such records; (i) Disclosures may be made to ED organizations deemed qualified by the Secretary to carry out quality assessment; (j) There may also be disclosures in the course of empoyee discipline or competence determination proceedings; (k) Disclosure may be made to a Congressional office from the record of an individual in response to an inquiry from the Congressional office made at the request of the individual. (l) In event of litigation where the defendant is (1) the Department, any component of the Department, or any employee of the Department in his or her official capacity; (2) the United States where the Department determines that the claim, if successful, is likely to directly affect the operations of the Department or any of its components or (3) any Department employee in his or her individual capacity where the Justice Department has agreed to represent such employee, the Department may disclose such records as it deems necessary to the Department of Justice to enable that Department to present an effective defense, provided such disclosure is compatible with the purpose for which the records were collected. (m) A record from this system of records may be disclosed as a "routine use" to a Federal, State, or local agency maintaining pertinent records, if necessary to obtain a record relevant to a Department decision concerning the hiring or retention of an employee, the issuance of a security clearance, the letting of a contract, or the issuance of a license, grant, or other benefit.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

The records, which take the form of index cards, investigative reports, computer disk files, and computer printed listings are maintained under secure conditions. Computer disk files are off-line and are stored in fireproof safes when not in use.

RETRIEVABILITY:

The records are retrieved by manual or computer search of alphabetical indices or cross-indices. Indices list names of individuals, companies and organizations.

SAFEGUARDS:

Access is restricted to authorized staff members of the Office of Inspector General and other officials and employees on a need-to-know basis.

RETENTION AND DISPOSAL:

Criminal investigative files are retained for 5 years after completion of the investigation and/or actions based thereon. Index and cross-reference cards are retained permanently. In instances of computer matching of files, only those records which meet predetermined criteria for investigation are maintained. Personnel security files will be maintained for 15 years after the subject terminates employment with the Department in accordance with OPM requirements. All records which do not meet these criteria are destroyed. All original source computer tapes are returned or destroyed once computer matching has been accomplished.

SYSTEM MANAGER(S) AND ADDRESS:

Inspector General/Assistant Inspector General for Policy, Planning and Management Services, U.S. Department of Education, Room 4200, Switzer Building, 330 C Street, S.W., Washington, D.C. 20202.

NOTIFICATION PROCEDURE:

Exempt, however consideration will be given requests addressed to the system manager. For general inquiries include the name and date of birth of the individual.

RECORD ACCESS PROCEDURES:

Same as notification procedures. Requesters should also reasonably specify the record contents being sought. (These access procedures are in accordance with Department Regulations (34 CFR 5b.5(a)(2)). 45 FR 30809, May 9, 1980).

CONTESTING RECORD PROCEDURES:

Contact the official at the address specified under system manager(s) and address above, and reasonably indentify the record and specify the information to be contested. (These procedures are in accordance with Department Regulation (34 CFR Section 5b.7). 45 FR 30810, May 9, 1980).

RECORD SOURCE CATEGORIES:

Departmental and other federal, state and local government records; interviewers of witnesses; documents and other material furnished by nongovernment sources. Sources may include confidential sources.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

General exemption (j)(2) under 34 CFR 5b.11, (b)(2)(i)(A), 45 FR 30808, May 9, 1980, criminal investigation files are exempt from the following subsections of the Act (c)(3), (d) (1)–(4), (e)(3) and (e)(4) (G) and (H). This system was formerly known as the Investigatory Materials compiled for Law Enforcement Purposes System.

18-11-0001

SYSTEM NAME:

Department of Education Motor Vehicle Operator Records, OASM.

SECURITY CLASSIFICATION:

None.

SYSTEM LOCATION:

Personnel offices of the Department shown in Applicants for Employment Records. Issuing Officers for Motor Vehicle Operator Identification Cards within the organizations serviced by the above personnel offices.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

All Department employees who are required to operate motor vehicles regularly or incidentally in carrying out their official duties.

CATEGORIES OF RECORDS IN THE SYSTEM:

The ED Motor Vehicle Operation Records System consists of a variety of records related to the issuance of a Government Motor Vehicle Operator's permit. In addition to the name of the employee, the system includes information about the employee's birthplace, SSN, employing organization, number of years driven, type of vehicles operated, current driver's license number, state issuing driver's license, date license expires, restrictions of state license, sex, date of birth, color of hair, color of eyes, weight, height, record of arrests, and record of accidents. These records also include expiration dates of Motor Vehicle Operator permit, any limitations imposed on its use and the results of the annual review of each driving record.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

40 U.S.C. 471.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

Information in this system of records may be used: In accordance with Departmental Regulations (34 CFR Part 5b), Appendix B, Items 01,3,4,5,6,7,8,9. By the Office of Personnel Management in carrying out its functions. Disclosure may be made to a Congressional office from the record of an individual in response to an inquiry from the Congressional office made at the request of that individual. In the event of litigation where one of the parties is (a) the Department, any component of the Department, or any employee of the Department in his or her official capacity; (b) the United States where the Department determines that the claim, if successful, is likely to directly affect the operations of the Department or any of its components; or (c) any Department employee in his or her individual capacity where the Justice Department has agreed to represent such employee, the Department may disclose such records as it deems desirable or necessary to the Department of Justice to enable that Department to effectively represent such party, provided such disclosure is compatible with the purpose for which the records were collected.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Stored in Official Personnel Folder in file folders and index cards.

RETRIEVABILITY:

Records are retrievable by name. Information is used as a basis for issuing a SF-46 "U.S. Government Motor Vehicle Operator's Identification Card" and evaluating its use. It may also be used for production of summary descriptive statistics and analytical studies in support of the functions for which the records are collected and maintained and for related personnel management functions.

SAFEGUARDS:

Access to and use of these records are limited to personnel whose official duties require such access. Personnel screening is employed to prevent unauthorized disclosure.

RETENTION AND DISPOSAL:

Records are retained for three years after the individual's government motor vehicle operator's permit expires, or the individual leaves the Department, and are then destroyed. (See DOE Personnel Instruction 293-1, Exhibit S293-1-1, item 24.)

SYSTEM MANAGER(S) AND ADDRESS:

Personnel Officers of the Department shown in Applicants for Employment Records, DOE System 09900006, Appendix 1.

NOTIFICATION PROCEDURE:

Issuing officers in organizational units in which employed or systems managers shown above. Individual should provide name and organization in which employed.

RECORD ACCESS PROCEDURES:

Same as notification procedures. Requesters should also reasonably specify the record contents being sought. (These access procedures are in accordance with Department Regulations 34 CFR 5b.5(a)(2)). 45 FR 30809, May 9, 1980).

CONTESTING RECORD PROCEDURES:

Contact the official at the address specified under notification procedures above, and reasonably identify the record and specify the information to be contested. (These procedures are in accordance with Department Regulations (34 CFR 5b.7), 45 FR 30810, May 9, 1980).

RECORD SOURCE CATEGORIES:

Information contained in this system of records is obtained: (1) from information supplied by the individual, or (2) derived from information supplied by the individual, or (3) from information supplied by officials of the Department.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None.

SYSTEM NAME:

Departmental Parking Control Policy. ED/OASM/PARM.

SECURITY CLASSIFICATION:

None.

SYSTEM LOCATION:

Director, Office of Administrative Resources Management, Room 1077, FOB No. 6, ED/OARM, 400 Maryland Avenue, S.W., Washington, D.C. 20202.

Offices of Manager for Parking Control at ED facilities where ED parking is provided.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

All ED employees as well as any carpool member utilizing parking facilities.

CATEGORIES OF RECORDS IN THE SYSTEM:

This system includes the following information on all persons applying for a parking permit: name, office room number, office phone number, agency, home address, and automobile license number.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

63 Stat. 377; 41 CFR 101-20.111.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

Disclosure may be made to a Congressional office from the record of an individual in response to an inquiry from the Congressional office made at the request of that individual. In the event of litigation where one of the

parties is (a) the Department, any component of the Department, or any employee of the Department in his or her official capacity; (b) the United States where the Department determines that the claim, if successful, is likely to directly affect the operations of the Department or any of its components; or (c) any Department employee in his or her individual capacity where the Justice Department has agreed to represent such employee, the Department may disclose such records as it deems desirable or necessary to the Department of Justice to enable that Department to effectively represent such party, provided such disclosure is compatible with the purpose for which the records were collected.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Records are stored in binders in file cabinets.

RETRIEVABILITY:

Records are filed alphabetically by location. The purpose of the Departmental Parking Policy is to provide standards for apportionment and assignment of parking spaces on Department-managed and Department-controlled property and on property assigned to the Department by GSA or any other Agency and to allocate and check parking spaces assigned to government vehicles, visitors, handicapped personnel, key personnel, car-pools, and others.

SAFEGUARDS:

Access to and use of these records are limited to personnel whose official duties require access.

RETENTION AND DISPOSAL:

Superseded policy materials are maintained by the Director, OARM for historical purposes. Records at other ED locations are maintained until the Parking Control purpose has been met, and the records are then destoryed.

SYSTEM MANAGER(S) AND ADDRESS:

Director, OARM, Room 1077, FOB No. 6, ED/Deputy Assistant Secretary Human Resources, 400 Maryland Avenue, S.W., Washington, D.C. 20202.

NOTIFICATION PROCEDURE:

Access to these records may be obtained by request in writing to: Office of Manager for Parking Control at ED facility where ED parking is provided.

RECORD ACCESS PROCEDURES:

Same as notification procedures. Requesters should also reasonably specify the record contents being sought. (These access procedures are in accordance with Department Regulations (34 CFR 5b.5(a)(2)), 45 FR 30809, May 9, 1980).

CONTESTING RECORD PROCEDURES:

Contact the official at the address specified under notification procedures above, and reasonably identify the record and specify the information to be contested. (These procedures are in accordance with Department Regulations (34 CFR 5b.7), 45 FR 30810, May 9, 1980).

RECORD SOURCE CATEGORIES:

Information in this system comes from reports from ED Staff, POC's and Regions, GSA-Federal Management circulars and Federal Property Management Regulations.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None.

18-11-0003

SYSTEM NAME:

Family Educational Rights and Privacy Act—School Recordkeeping Practices Correspondence and Complaint System. ED–OASM–EPM–DEDC–FERPA.

SECURITY CLASSIFICATION:

None.

SYSTEM LOCATION:

U.S. Department of Education, Room 4512 Switzer Building, Washington, D.C. 20202.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Individuals who have made inquiries or who have filed complaints alleging violations of the provisions of the Family Educational Rights and Privacy Act of 1974; and those who have commented to the Department on its proposed rules and practices.

CATEGORIES OF RECORDS IN THE SYSTEM:

Name and address of individuals submitting correspondence, responses and exchanges of materials associated with investigations of complaints.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

The Family Educational Rights and Privacy Act of 1974 (20 U.S.C. 1232g).

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

To Members of Congress who inquire on behalf of a constituent; to an educational agency or institution against which a complaint has been made. A disclosure may be made for the purposes described in Departmental Regulations (34 CFR Part 5b, Appendix B, Items: 1, 3, 8). Disclosure may be made to a Congressional office from the record of an individual in response to an inquiry from the Congressional office made at the request of that individual. In the event of litigation where one of the parties is (a) the Department, any component of the Department, or any employee of the Department in his or her official capacity; (b) the United States where the Department determines that the claim, if successful, is likely to directly affect the operations of the Department or any of its components; or (c) any Department employee in his or her individual capacity where the Justice Department has agreed to represent such employee, the Department may disclose such records as it deems desirable or necessary to the Department of Justice to enable that Department to effectively represent such party, provided such disclosure is compatible with the purpose for which the records were collected.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

The records are maintained in hard-copy filed in standard lockable file cabinets.

RETRIEVABILITY:

For the most part records are indexed by name of individual signing incoming correspondence; when indexed chronologially, or by organization, they are cross-indexed by name of individual signer. Records are available to FERPA staff involved in correspondence and investigative processes, including members of the Office of General Counsel. Occasionally, personnel with special expertise in other program areas may be given records for the purpose of assisting FERPA staff in resolution of issues.

SAFEGUARDS:

Direct access is restricted to authorized FERPA staff; access to rooms in which files are maintained is limited during non-working hours to those with keys to rooms and the main files are left in locked file cabinets when not in use.

RETENTION AND DISPOSAL:

Inquiry records are maintained a minimum of three years; complaint and investigative records are maintained a minimum of five years past date of case closing.

SYSTEM MANAGER(S) AND ADDRESS:

Director, FERPA Office, U.S. Department of Education, Room 4512 Switzer Building, Washington, D.C. 20202.

NOTIFICATION PROCEDURE:

System manager. For general inquiries, name and date of previous correspondence, if known; for complaint/investigative material, name and any I.D. number assigned. Address is same as above.

RECORD ACCESS PROCEDURES:

Same as notification procedures. Requesters should also reasonably specify the record contents being sought. (These access procedures are in accordance with Department Regulations (34 CFR 5b.5(a)(2)), 45 FR 30809, May 9, 1980).

CONTESTING RECORD PROCEDURES:

Contact the official at the address specified under notification procedures above, and reasonably identify the record and specify the information to be contested. (These procedures are in accordance with Department Regulations (34 CFR 5b.7, 45 FR 30810, May 9, 1980).

RECORD SOURCE CATEGORIES:

Incoming correspondence, responses and material obtained during course of any investigation.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None.

18-11-0005

SYSTEM NAME:

Safety Management Information System. (ED Accident, Injury and Illness Reporting System). ED/ASM.

SECURITY CLASSIFICATION:

None.

SYSTEM LOCATION:

At Departmental Regional and Headquarters facilities (see Appendix 1)

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

(1) ED employees who are involved in an accident which arises in the course of their employment whether occurring on ED premises or not and results in: (a) a fatality; (b) lost workdays beyond the day in which the accident occurred; (c) nonfatal injuries which result in transfer to another job, termination of employment, medical treatment other than first aid, loss of consciousness or restriction of work or motion; (d) a possible tort claim; (e) a claim for compensation; (f) property damage in excess of $50.00; (g) interrupts or interferes with the orderly progress of work of other employees; (h) radiation over-exposure; (i) biological exposure resulting in lost time or accidental release of biologicals where the public may be over-exposed. (2) Visiting educators, contractor personnel, employees of other Federal agencies, state or local governments or members of the public who suffer injury, illness or property damage on or in ED premises or as a result of ED activities.

CATEGORIES OF RECORDS IN THE SYSTEM:

This system consists of a variety of information and supporting documentation resulting from the reporting and investigation of accidents which have resulted in injury, illness, property damage or the interruption or interference with the orderly progress of work. The records contain information about individuals involved in or experiencing accidents including but not limited to the severity of the injury, whether consciousness was lost, the type of injury, culmination of any injury, days lost from work if any, the nature of the injury, illness or disease, the body part affected, causal factors, weather factors, agency of accident, whether unsafe mechanical, physical, or personal acts or factors were involved, the accident's area of origin and if fire was involved, the type and form of materials involved. Property damage (both public and private) is noted through the property sequence number, who owned the property involved, property damage and actual or estimated monetary loss, the ED installation number if appropriate and the year of manufacture or construction if appropriate. Identifiers related to a paticular accident include the organization, case number assigned, date and time of occurrence, state of territory, site, type and classification of accident, estimated amount of tort claims if appropriate, name of individual(s) involved, the social security number, sex, age, grade, series and level, CSC series, address, other Departments notified of accident, duty status, activity at time of accident and time on duty before accident. Management's evaluation and corrective action taken or proposed is also noted.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Section 19 of the Occupational Safety and Health Act of 1970 (Pub. L. 91-596); U.S.C. 7902; 29 CFR Part 1960, Executive Order No. 12196.

PURPOSE OF THE SYSTEM:

The purpose of the system is to comply with the reporting and statistical analyses requirements of section 19 of the Occupational Safety and Health Act of 1970 (Pub. L. 91-596) as amended (29 U.S.C. 668); U.S.C. 7902; 29 CFR 1960; Executive Order 12196 and such other purposes as are described under routine uses of this system notice. The Safety Management Information System is a Department-wide system utilized by all organizational components of the Department. Thus, in addition to the routine uses subsequently noted in this system notice, there may be other ad hoc disclosures within the Department on an official business "need to know" basis.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

The Department contemplates that it will contract with a private firm for the purpose of collating, analyzing, aggregating or otherwise refining records in this system. Relevant records will be disclosed to such a contractor. The contractor shall be required to maintain Privacy Act safeguards with respect to such records.

To the Department of Justice or other appropriate Federal agencies in defending claims against the United States when the claim is based upon an individual's mental or physical condition.

To individuals and organizations, deemed qualified by the Secretary to carry out specific research solely for the purpose of carrying out such research.

To organizations deemed qualified by the Secretary to carry out quality assessment, medical audits or utilization review.

Disclosures in the course of employee discipline or competence determination proceedings.

To request from a Federal, State, local agency or private sources information relevant to the investigation of an accident and/or corrective action.

To respond to an inquiry from a member of Congress made on behalf of a constituent.

In the event of litigation where (a) the Department, any component of the Department, or any employee of the Department in his or her official capacity; (b) the United States where the Department determines that the claim if successful, is likely to directly affect the operations of the Department or any of its components; or (c) any Department employee in his or her individual capacity were the Justice Department has agreed to represent

such employee, the Department may disclose such records as it deems desirable or necessary to the Department of Justice to enable that Department to present an effective defense, provided such disclosure is compatible with the purpose for which the records were collected.

In the event that a system of records maintained by this agency to carry out its functions indicates a violation or potential violation of law, whether civil, criminal or regulatory in nature, and whether arising by general statute or particular program statute, or by regulation, rule or order issued pursuant thereto, the relevant records in the system of records may be referred, as a routine use, to the appropriate agency, whether federal, or foreign, state or local, charged with the responsibility of investigating or prosecuting such violation or charged with enforcing or implementing the statute, or rule, regulation or order issued pursuant thereto.

In the event the Department deems it desirable or necessary, in determining whether particular records are required to be disclosed under the Freedom of Information Act, disclosure may be made to the Department of Justice for the purpose of obtaining its advice.

A record from this system of records may be disclosed as a "routine use" to a Federal, State or local agency maintaining civil, criminal or other relevant enforcement records or other pertinent records, such as current licenses, if necessary to obtain a record relevant to an agency decision concerning the hiring or retention of an employee, the issuance of a security clearance, the letting of a contract, or the issuance of a license, grant or other benefit.

A record from this system of records may be disclosed to a Federal agency in response to its request, in connection with the hiring or retention of an employee, the issuance of a security clearance, the reporting of an investigation of an employee, the letting of a contract, or the issuance of a license, grant, or other benefit by the requesting agency, to the extent that the record is relevant and necessary to the requesting agency's decision on the matter.

Where the Federal agencies having the power to subpoena other Federal agencies' records, such as the Internal Revenue Service or the Civil Rights Commission, issue a subpoena to the Department for records in this system of records, the Department will made such records available.

Where a contract between a component of the Department and a labor organization recognized under E.O. 12196 provides that the agency will disclose personal records relevant to the organization's mission, records in this system of records may be disclosed to such organization.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Records are or may be maintained on magnetic tapes, punchcards, lists, forms, disks, computer storage, in file folders, binders and index cards.

RETRIEVABILITY:

(1) At the Departmental level, the system is completely computerized with no other records normally maintained or retained in the Office of the Assistant Secretary for Management. While individual indentifiers such as name, case number, and social security number are within the computer storage banks, special programming would be required to extract individual records. Normal output consists of statistical reports and surveys based on case number including those required by the Department of Labor and Statistical Analysis in support of the Departmental occupational safety and health program for dissemination to the Principal Operating Components, Regions and Staff Offices.

(2) The Principal Operating Components of the Department, their sub-components, Regional Offices and Staff Offices may maintain original or copies of the accident reports and supporting documentation by name, social security number, case number or cross reference.

(3) Establish a written record of the causes of accidents.

(4) Provide information to initiate and support corrective or preventive action.

(5) Provide statistical information relating to accidents resulting in occupational injuries, illnesses, and/or property damage.

(6) Provide management with information with which to evaluate the effectiveness of safety management programs.

(7) Provide the means for complying with the reporting requirements of Section 19 of the Occupational Safety and Health Act of 1970 and such other reporting requirements as may be required by legislative or regulative requirements.

(8) Provide such other summary descriptive statistics and analytical studies as necessary in support of the function for which the records are collected and maintained including general requests for statistical information without personal identification of individuals.

(9) Information in these records is used by or may be disclosed to: (a) the Assistant Secretary for Management, Office of the Secretary, ED in the review of accident experience data to determine the adequacy of corrective actions, the effect of codes, standards and guides, the consolidation, summarization and dissemination of accident experience data throughout ED and other Government Departments and agencies as needed or required; (b) The supervisor, administrative officer or other official initiating an accident report, including each succeeding reviewing official in the chain of command through which the report passes to insure that corrective action, as needed and appropriate is taken; (c) Appropriately appointed Safety Directors, Officers, or others with safety responsibilities within the Department in the verifying, assembling, analyzing, summarizing and disseminating data concerning the accident experience in their areas of responsibility and the initiation of appropriate corrective action.

Note.—If this statement is published prior to the establishment of an ADP system within the Department to handle our SMIS reporting, the following should be inserted at this point.

(d) Employees of HHS responsible for the maintenance and retrieval of the above information pertinent to ED employees, as necessary to carry out this function.

SAFEGUARDS:

Access to and use of these records is made available to those personnel having a legitimate need for the information (those whose duties require review or access) including inspecting or evaluating personnel. Records, which under the law, may not be disclosed such as information pertinent to national security or trade secrets are maintained separately, adequately safeguarded and released only in accordance with the law. When there is doubt regarding the release of information, the matter will be referred, in advance to the Office of the General Counsel, ED.

RETENTION AND DISPOSAL:

All accident reports, records, logs, and other information relating to an accident are retained by the Principal Operating Components and their agencies, the Regional Offices and the Office of the Secretary for at least ten years following the end of the calendar year in which the accident occurred. Specific occupational safety and health standards (such as the standards

covering the handling of carcinogenic chemicals) may be required to be kept for up to twenty years. Records may be retained indefinitely.

SYSTEM MANAGER(S) AND ADDRESS:

The SMIS system at the present time is being maintained by the Department of HHS under an Inter-Agency Agreement.

NOTIFICATION PROCEDURE:

Individuals wishing to inquire whether this system of records contains information about them should address their inquiries to one of the following as appropriate: (1) If employed or formerly employed in HEW Region Office, the Regional Occupational Safety and Health Manager of the Regional involved (see list and addresses under appendix at the end of this system (18–11–0005)). (2) If employed or formerly employed in a HEW Principal Operating Component or sub-agency, a staff office or the Office of the Secretary, the Occupational Safety and Health Manager of the component where employed (see list and addresses under appendix for this system (18–11–0005)). Individuals requesting information in this system of records should provide their full name, social security number (on a purely voluntary basis), name and address of office and agency in which currently or formerly employed, the accident(s) case number if known, and the time and a brief description of the accident in which they were involved.

Record access procedures: Individuals wishing to gain access to or contest their records should contact the following in person, or by writing, as appropriate (See "notification procedures" above). Requesters should also reasonably specify the record contents being sought. (These access procedures are in accordance with Department Regulations (34 CFR 5b.5, 45 FR 30808, May 9, 1980.))

CONTESTING RECORD PROCEDURES:

Contact the official at the address specified under notification procedures above, and reasonably identify the record and specify the information to be contested. (These procedures are in accordance with Department Regulations (34 CFR 5(b)(7), 45 FR 30810, May 9, 1980)).

RECORD SOURCE CATEGORIES:

The information in this system is obtained from the following sources: (a) the individual to whom the record pertains; (b) witnesses to the accident; (c) investigation officials (Federal, State, local); (d) medical personnel seeing the individual as a result of the accident; (e) supervisory personnel; (f) reviewing officials; (g) personnel offices; (h) investigate material furnished by Federal, State, or local agencies; and (i) on-site observations.

SYSTEMS EXEMPTED FROM CERTIAN PROVISIONS OF THE ACT:

None.

Appendix for 18–11–0005

Regions, at the present time, are being serviced by the Department of HHS under an Inter-Agency Agreement.

Region I: HHS Regional Safety and Occupational Health Manager, John F. Kennedy Federal Building—Room 1503, Government Center, Boston, Massachusetts 02203

Region II: HHS Regional Safety and Occupational Health Manager, Federal Building—Room 3835, 26 Federal Plaza, New York, New York 10007

Region III: HHS Regional Safety and Occupational Health Manager, 3535 Market Street, Philadelphia, Pennsylvania 19101

Region IV: HHS Regional Safety and Occupational Health Manager, 101 Marietta Tower, Suite 1503, Atlanta, Georgia 30323

Region V: HHS Regional Safety and Occupational Health Manager, 300 South Wacker Drive—35th Floor, Chicago, Illinois 60606

Region VI: HHS Regional Safety and Occupational Health Manager, 1200 Main Tower Building, Dallas, Texas 75202

Region VII: HHS Regional Safety and Occupational Health Manager, 601 East 12th Street—Room 506, Kansas City, Missouri 64106

Region VIII: HHS Regional Safety and Occupational Health Manager, 1961 Stout Street—Room 11037, Denver, Colorado 80202

Region IX: HHS Regional Safety and Occupational Health Manager, Federal Office Building—Room 8, 50 United Nations Plaza, San Francisco, California 94102

Region X: HHS Regional Safety and Occupational Health Manager, Arcade Plaza—Room 6003, 1321 Second Avenue, Seattle, Washington 98101

Health Care Financing Administration: Safety Officer, A–1 Gwynn Oak Building, 1710 Gwynn Oak Avenue, Woodlawn, Maryland 21207

Social Security Administration: Director, Occupational Health Management, Room 8, Second Floor, Link Building, 6401 Security Boulevard, Baltimore, Maryland 21235

Office of the Secretary, HHS, Safety Officer, Room 1073, HHS North Building, Department of Health and Human Services, 300 Independence Avenue, SW., Washington, D.C. 20201

Public Health Service: Director, Division of Health Facilities Planning, Room 18–42—Parklawn Building, 5600 Fishers Lane, Rockville, Maryland 20852

Alcohol, Drug Abuse, and Mental Health Administration: Safety Officer, Room 12C26—Parklawn Building, 5600 Fishers Lane, Rockville, Maryland 20852

Center for Disease Control: Chief, Office of Biosafety, Building 4—Room 232, 1600 Clifton Road, NW., Atlanta, Georgia 30333

Food and Drug Administration: Privacy Act Coordinator, Rockville, Maryland 20852

Health Resources Administration: Safety Officer, Room 129, Federal Center Building 2, 3700 East/West Highway, Hyattsville, Maryland 20782

National Institutes of Health: Associate Director, Environmental Health and Safety, Division of Research Sciences, Room 4051—Building 12A, 9000 Rockville Pike, Bethesda, Maryland 20014

18–11–0006

SYSTEM NAME:

Telephone Directory/Locator System, ED–OASM.

SECURITY CLASSIFICATION:

None

SYSTEM LOCATION:

Operating offices and Facility Complexes of the Department—Employee Locators and Offices of Administrative or Management Services.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Current employees of the Department and vendor or other Federal employees located in Department operating offices and facility complexes.

CATEGORIES OF RECORDS IN THE SYSTEM:

Name, title, agency office address, agency mailing address, telephone number, standard administrative code, and social security number.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

5 U.S.C. 301, 40 U.S.C. 486(c).

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

Records are used to develop and maintain current employee locator and directory listings. The locator listings are used by the ED information centers, mail rooms, and others specifically for the purpose of locating employees and for routing of mail. The directory listings are used to produce departmental telephone directories on an as needed basis. Disclosure may be made to a Congressional office from the record of an individual in response to an inquiry from the Congressional office made at the request of that individual. In the event of litigation where one of the parties is (a) the Department, any component of the Department, or any employee of the Department in his or her official capacity; (b) the United States where the Department determines

that the claim, if successful, is likely to directly affect the operations of the Department or any of its components; or (c) any Department employee in his or her individual capacity where the Justice Department has agreed to represent such employee, the Department may disclose such records as it deems desirable or necessary to the Department of Justice to enable that Department to effectively represent such party, provided such disclosure is compatible with the purpose for which the records were collected.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Variously stored in card files, computer printouts, paper forms, magnetic tape.

RETRIEVABILITY:

Alphabetically by employee name, in certain instances also by agency and/or title. Some large systems use the SSN as control to update, change or delete information on individuals no longer within this system of records.

SAFEGUARDS:

Only authorized personnel have access to master lists which contain social security numbers.

RETENTION AND DISPOSAL:

Retained as long as individual is employed by or associated with the Department, then information deleted from files by appropriate method.

SYSTEM MANAGER(S) AND ADDRESS:

Chief, Department Information Center.

NOTIFICATION PROCEDURE:

Direct inquiries to the systems manager identified in Appendix.

RECORD ACCESS PROCEDURES:

Same as notification procedures. Requesters should also reasonably specify the record contents being sought. (These access procedures are in accordance with Department Regulations (34 CFR 5b.5(a)(2)), 45 FR 30809, May 9, 1980).

CONTESTING RECORD PROCEDURES:

Contact the official at the address specified under notification procedures above, and reasonably identify the record and specify the information to be contested. (These procedures are in accordance with Department Regulations (34 CFR, 5b.7 45 FR 30810, May 9, 1980).

RECORD SOURCE CATERGORIES:

Individual employee.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None.

18-11-0007

SYSTEM NAME:

Applicants for Employment Records, ED/ASM/RPB.

SECURITY CLASSIFICATION:

None.

SYSTEM LOCATION:

This system is located in ED's personnel office, 400 Maryland Avenue SW., Washington, D.C. 20202.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Persons who have applied for Federal employment or are employed in the Federal service.

CATEGORIES OF RECORDS IN THE SYSTEM:

These records contain information relating to the education and training; employment history and earnings; appraisal of past performance; convictions and offenses against the law; results of written tests; appraisal of potential; honors, awards or fellowships; military service, veteran preference, birthplace; birth date; social security number; and home address of persons who have applied for Federal employment or are employed in the Federal service and correspondence related thereto. These records may also include information concerning the date of application; qualification status, employment consideration, priority grouping, and other information relating to the consideration of the individual for employment.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

5 U.S.C. 1302, 3301, 3302; Executive Order 10577.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

These records may be used: (1) to respond to requests for information from the Office of Personnel Management, Members of Congress, or other inquiries from outside the Department, to the extent their request is compatible with the purpose for which the records are maintained; (2) Disclosure may be made to a Congressional office from the record of an individual in response to an inquiry from the Congressional office made at the request of that individual; (3) In the event of litigation where one of the parties is (a) the Department, any component of the Department, or any employee of the Department in his or her official capacity; (b) the United States where the Department determines that the claim, if successful, is likely to directly affect the operations of the Department or any of its components; or (c) any Department employee in his or her individual capacity where the Justice Department has agreed to represent such employee, the Department may disclose such records as it deems desirable or necessary to the Department of Justice to enable that Department to effectively represent such party, provided such disclosure is compatible with the purpose for which the records were collected. Also, the Department may disclose a record for the purposes described in Departmental Regulations (34 CFR Part 5b, Appendix B, items (1), (3), (4), (5), (6), (7), (8), (9)).

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Stored in file cabinets for 2 years.

RETRIEVABILITY:

Records are indexed by any combination of name, birth date, social security number and identification number. Records are used to refer applicants to officials of the Department for placement in positions for which applicant has applied and qualified.

SAFEGUARDS:

Access to and use of these records are limited to those persons whose official duties require such access. Personnel screening is employed to prevent unauthorized disclosure.

RETENTION AND DISPOSAL:

Records are retained until the applicant is selected for a position, or for two years. After the applicant is selected for a position, his/her records are filed in the Official Personnel Folder which is retained until the employee leaves the Department.

SYSTEM MANAGER(S) AND ADDRESS:

Personnel Officers of the Department, 400 Maryland Avenue SW., Washington, D.C. 20202.

NOTIFICATION PROCEDURE:

Individual should provide name, approximate date of record and title of position for which application was made.

RECORD ACCESS PROCEDURES:

Same as notification procedures. Requesters should also reasonably specify the record contents being sought.

CONTESTING RECORD PROCEDURES:

Contact the personnel official and reasonably identify the record. Specify the information to be contested.

RECORD SOURCE CATEGORIES:

Information in this system of records is provided by the individual to whom it applies, is derived from information he or she supplied; or is obtained from information supplied by others.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None.

SYSTEM NAME:

Discrimination Complaints Records System. ED/AS/EEOS.

SECURITY CLASSIFICATION:

None.

SYSTEM LOCATION:

Office of the Director, Equal Employment Opportunity Staff, 400 Maryland Avenue SW., Room 2117, Washington, D.C. 20202.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Individuals or organizations which have consulted an EEO Counselor regarding discrimination on the basis of race, color, religion, sex, national origin, age, or handicap because of a determination or decision made by a Department official or which have filed a class allegation of discrimination.

CATEGORIES OF RECORDS IN THE SYSTEM:

This system of records contains information or documents concerning pre-complaint processing and class allegations of discrimination. The records consist of counselors' reports, the initial allegations, letters or notices to the individual or organization, materials placed into the record to support or refute the decision or determination, statements to witnesses, investigative reports, instructions about action to be taken to comply with decisions, and related correspondence, opinions and recommendations.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Executive Order 11478; 42 U.S.C. 2000e and 29 U.S.C. 633a.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

These records and information in the records may be used:

(a) To respond to a request from a Member of Congress regarding the status of an appeal, complaint or grievance;

(b) To refer to Office of Personnel Management, Merit Systems Protection Board (including its Office of the Special Counsel), Equal Employment Opportunity Commission, and the Federal Labor Relations Authority (including the General Counsel of the Authority and the Federal Service Impasses Panel) in carrying out their functions;

(c) Disclosure may be made to a congressional office from the record of an individual in response to an inquiry from the congressional office made at the request of that individual;

(d) In the event of litigation where one of the parties is (a) the Department, any component of the Department, or any employee of the Department in his or her official capacity; (b) the United States where the Department determines that the claim, if successful, is likely to directly affect the operations of the Department or any of its components; (c) any Department employee in his or her individual capacity where the Justice Department has agreed to represent such employee, the Department may disclose such records as it deems desirable or necessary to the Department of Justice to enable that Department to effectively represent such party, provided such disclosure is compatible with the purpose for which the records were collected.

(e) The Department may disclose a record for the purposes described in Appendix B of the Departmental Regulations (34 CFR Part 5b, Appendix B, tiems (1), (3), (4), (5), (6), (7), (8), (9)).

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

These records are maintained in file folders, binders, and index cards.

RETRIEVABILITY:

These records are indexed by the names of the individuals or organizations on whom they are maintained. They may be used: to adjudicate an appeal, complaint, or grievance; to provide a basis for a corrective action related to the discrimination situation; as a data source for management information for production of summary descriptive statistics and analytical studies in support of the function for which the records are collected and maintained, or for related personnel management functions or manpower studies; and to locate specific individuals for personnel research or other personnel management functions.

SAFEGUARDS:

Access to and use of these records are limited to those persons whose official duties require access.

RETENTION AND DISPOSAL:

The records on class allegations of discrimination are retained after final disposition.

SYSTEM MANAGER AND ADDRESS:

Director, EEO Staff, 400 Maryland Avenue SW., Washington, D.C. 20202.

NOTIFICATION PROCEDURE:

Individuals and organizations which consulted an EEO counselor or filed a class allegation of discrimination are aware of that fact. They may write the system manager indicated above, regarding the existence of such records pertaining to them. The inquirers, as appropriate, should provide their name, date of birth, agency in which employed or agency in which the situation arose if different from employing agency, the approximate date, and the kind of action taken, when making inquiries about records.

RECORD ACCESS PROCEDURES:

Same as notification procedures. Requesters should also reasonably specify the record contents being sought.

CONTESTING RECORD PROCEDURES:

Contact the official at the address specified under notification procedures above, and reasonably indentify the record and specify the information to be contested.

RECORD SOURCE CATEGORIES:

(a) Individual to whom the record pertains;

(b) Department or other officials;

(c) Statements from employees or other witnesses;

(d) Official documents relating to the counseling or class allegation; and

(e) Correspondence from specific organizations or persons.

18-11-0011

SYSTEM NAME:

Employee Alcoholism, Drug Abuse and Emotional Problem Counseling and Referral Records. ED-ASM-DASHR-OPRM

SECURITY CLASSIFICATION:

None.

SYSTEM LOCATION:

ED personnel offices or designated offices performing counseling functions for employees in organizational units serviced by these personnel offices.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Department employees who have been counseled for work adjustment, personal or emotional health problems and/or the abuse of alcohol or drugs.

CATEGORIES OF RECORDS IN THE SYSTEM:

This system contains records of employees who have been referred but not counseled; records of employees who have been counseled for work adjustment, personal or emotional problems, and/or alcohol or drug abuse; and records of members of employees' families who have been counseled. Examples of information which may be found in this record system include the employee's name, SSN, date of birth, grade, job series, job title, leave record, service computation date, home address, home phone number, supervisor's name, name and address of the individual's personal physician, social history, educational background, and performance appraisals. Other documents which may also be found in the counselor's file are notes made by the counselor, copies of admonishments and reprimands received by the employee, and a record of the supervisor's referral (if the employee was referred by the supervisor).

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

44 U.S.C. 3101, 42 U.S.C. 4561, 21 U.S.C. 1180, and 5 U.S.C. 7901.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

In unusual circumstances, it may be appropriate to disclose information from this system of records. The Department of Justice or other appropriate Federal agencies in defending claims against the United States when the claim is based upon an individual's mental or physical condition and is alleged to have arisen because of activities of components of the Department in connection with such individual. In the event of litigation where one of the parties is (a) the Department, any component of the Department, or any employee of the Department in his or her official capacity; (b) the United States where the Department determines that the claim, if successful, is likely to directly affect the opperations of the Department or any of its components; or (c) any Department employee in his or her individual capacity where the Justice Department has agreed to represent such employee, the Department may disclose such records as it deems desirable or necessary to the Department of Justice to enable that Department to effectively represent such party, provided such disclosure is compatible with the purpose for which the records were collected. Such disclosure will be restrictively made; in particular, disclosures of information pertaining to an individual with a history of alcohol or drug abuse will be limited in compliance with the restrictions of the Confidentiality of Alcohol and Drug Abuse Patient Records regulations, 42 CFR Part 2. Also, the Department may disclose a record for the purposes described in item 7 of Appendix B of the Departmental Regulations (34 CFR Part 5b).

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Employee records are maintained in file folders and on index cards.

RETRIEVABILITY:

Records are filed by name or by case number cross indexed with the employee's name. The records are used to document the nature of the induvidual's problem and progress and when necessary to refer individuals to appropriate community or private resources for treatment or rahabilitation. Anonymous information from these records may also be used to produce summary descriptive statistics and analytical studies in support of the funtions for which the records are collected and maintained.

SAFEGUARDS:

During the employment of the individual, records are maintained in condifential files separate from the Official Personnel Folder and are located in lockable metal containers or in secured rooms with access limited to those whose official duties require access. Disclosure of the contents of records which pertain to an individual's alcohol or drug abuse is restricted under the provisions of the Confidentiality of Alcohol and Drug Abuse Patient Records regulations, 42 CFR Part 2, as authorized by 21 U.S.C. 1175 and 42 U.S.C. 4582, as amended by Pub. L. 93–282.

RETENTION AND DISPOSAL:

Records are retained until 3 years after the individual has ceased contact with the counselor, or until the individual leaves the Department, and are then destroyed.

SYSTEM MANAGER(S) AND ADDRESS:

The Personnel Officer servicing the installation in which counseling was provided.

NOTIFICATION PROCEDURE:

Inquires should be addressed to the system manager at the office where counseling was provided. Individual should provide name, grade, organization in which employed, date of birth, and location and approximate date of counseling. When applicable, the special procedures for access to medical records will be followed. An individual who requests notification of or access to a medical/dental record shall, at the time the request is made, designated in writing a responsible representative who will be willing to review the record and inform the subject individual of its contents at the representative's discretion. When the records pertain to an individual's alcohol or drug use, the procedures in 42 CFR 2.40 will also be followed.

RECORD ACCESS PROCEDURES:

Same as notification procedures. Requesters should also reasonably specify the record contents being sought.

CONTESTING RECORD PROCEDURES:

Contact the official at the address specified under notification procedures above, and reasonably identify the record and specify the information to be contested.

RECORD SOURCE CATEGORIES:

Information in this system of records is: (1) supplied directly by the individual, or (2) supplied by a member of the individual's family, or (3) derived from information supplied by the individual, or (4) supplied by sources to whom the employee has been referred for assistance, or (5) supplied by Department officials, or (6) supplied by program counselors.

18–11–0011

SYSTEM NAME:

Employee Appraisal Program Records, ED/ASM/DASHR/DPRM

SECURITY CLASSIFICATION:

None.

SYSTEM LOCATION:

Personnel offices shown in Applicants for Employment Records, ED System 09900006, and operating offices in organizational units serviced by those personnel offices.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Current Federal employees of the Department.

CATEGORIES OF RECORDS IN THE SYSTEM:

This system contains information which includes employee's name, SSN,

employing organization, grade, title, series, and materials relating to the evaluations of employee's performance.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

5 U.S.C. 4302, 5 U.S.C. 3301, 5 U.S.C. 3302; Executive Order 10577.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

Information in these records may be used:

(1). By the Office of Personnel Management, Merit Systems Protection Board (including its Office of the Special Counsel), Equal Employment Opportunity Commission, and the Federal Labor Relations Authority (including the General Counsel of the Authority and the Federal Service Impasses Panel) in carrying out their functions;

(2). Disclosure may be made to a congressional office from the record of an individual in response to an inquiry from the congressional office made at the request of that individual.

(3). In the event of litigation where one of the parties is (a) the Department, any component of the Department, or any employee of the Department in his or her official capacity; (b) the United States where the Department determines that the claim, if successful, is likely to directly affect the operations of the Department or any of its components; or (c) any Department employee in his or her individual capacity where the Justice Department has agreed to represent such employee, the Department may disclose such records as it deems desirable or necessary to the Department of Justice to enable that Department to effectively represent such party, provided such disclosure is compatible with the purpose for which the records were collected.

(4). The Department may disclose a record for the purposes described in Appendix B of the Departmental Regulations, 34 CFR Part 5b, Appendix B items (1), (3), (4), (5), (6), (7), (8), (9).

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Records are maintained in file folders, on magnetic tape, and on punch cards.

RETRIEVABILITY:

Records are retrievable by name or social security number. They may be used as a basis for reduction-in-force, adverse actions, decisions regarding retention of employees during probationary period, recognition, promotions, reassignments and other personnel actions compatible with the purpose for which the record was collected.

SAFEGUARDS:

Access to and use of these records are limited to those persons who official duties require such access.

RETENTION AND DISPOSAL:

Appraisals and satisfactory rating are retained until a new appraisal or rating is issued, 2 years have elapsed, or the individual leaves the Department, and are then destroyed. Unsatisfactory and outstanding rating are filed in the Official Personnel Folder which is retained until the individual leaves the Department.

SYSTEM MANAGER(S) AND ADDRESS:

Personnel Officers.

NOTIFICATION PROCEDURE:

Personnel officers. Employee should provide name, social security number and organization in which employed.

RECORD ACCESS PROCEDURES:

Same as notification procedures. Requesters should also reasonably specify the record contents being sought.

CONTESTING RECORD PROCEDURES:

Contact the official at the address specified under notification procedures above, and reasonably identify the record and specify the information to be contested.

RECORD SOURCE CATEGORIES:

Information in this system of records is provided by the individual, derived from information supplied by the individual or supplied by Department officials.

18-11-0012

SYSTEM NAME:

Executive Development Records System. ED/ASM/OPRM

SECURITY CLASSIFICATION:

None.

SYSTEM LOCATION:

Office of Personnel Resource Management, Division of Executive Resources, Department of Education, Washington, D.C. 20202.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

All Senior Executive Service, supergrade employees (GS–16–18) and equivalents, and participants in SES Candidate Program.

CATEGORIES OF RECORDS IN THE SYSTEM:

The Executive Development Records System consists of a variety of records relating to an employee's applications for, and participation in, the executive development program. In addition to the employee's name, the system contains the employee's title, grade and salary, Social Security Account Number, organization in which employed, date of entry into the Executive Development Program, training needs while participating in the program, individual's development plan, basis for participation in the Executive Development Program.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

5 U.S.C. 4101 *et. seq.*

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

Information in this system of records is used: (a) By the Office of Personnel Management, Merit Systems Protection Board (including its Office of the Special Counsel), Equal Employment Opportunity Commission, and the Federal Labor Relations Authority (including the General Counsel of the Authority and the Federal Service Impasses Panel) in carrying out their functions. (b) Disclosure may be made to a Congressional office from the record of an individual in response to an inquiry from the Congressional office made at the request of that individual. In the event of litigation where one of the parties is (a) the Department, any component of the Department, or any employee of the Department in his or her official capacity; (b) the United States where the Department determines that the claim, if successful, is likely to directly affect the operations of the Department or any of its components; or (c) any Department employee in his or her individual capacity where the Justice Department has agreed to represent such employee, the Department may disclose such records as it deems desirable or necessary to the Department of Justice to enable that Department to effectively represent such party, provided such disclosure is compatible with the purpose for which the records were collected. Also, the Department may disclose a record for the purposes described in Appendix B of the Departmental Regulations (34 CFR Part 5b, Appendix B, items 1, 3, 4, 5, 6, 7, 8, 9).

V 4 6 / 1 0 5 J E 2 8 1 UMI

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Information in this system of records is maintained in file folders, magnetic tape, punch cards, and forms.

RETRIEVABILITY:

Records are indexed by name and Social Security Account Number. Records are use by operating officials in carrying out their personnel management responsibilities. They may be used by those officials in connection with promotions, transfer or reassignment of the individual and as base for preparing management, budgetary or statistical reports to support organizational planning or manpower utilization studies.

SAFEGUARDS:

Access to and use of these records are limited to those persons whose official duties require such access. Personnel screening is employed to prevent unauthorized disclosure.

RETENTION AND DISPOSAL:

Records of an unsuccessful applicant are retained for 60 days after notification that he or she was not selected for participation, and are then destroyed. Records of a participant are retained for 5 years after the individual has ceased to participate in the program, and are then destroyed.

SYSTEM MANAGER(S) AND ADDRESS:

Office of Personnel Resource Management, Division of Executive Resources, Department of Education, Washington, D.C. 20202.

NOTIFICATION PROCEDURE:

Contact system manager. Individuals should include their name, grade, title, and organization when contacting the system manager.

RECORD ACCESS PROCEDURES:

Same as notification procedures. Requesters should also reasonably specify the record contents being sought.

CONTESTING RECORD PROCEDURES:

Contact the official at the address specified under notification procedures above, and reasonably identify the record and specify the information to be contested.

RECORD SOURCE CATEGORIES:

Information in this system of records is: (1) supplied directly by the individual, or (2) derived from information supplied by the individual, or (3) supplied by Department officials.

18-11-0014

SYSTEM NAME:

Grievances Filed Under the Informal Grievance Procedures. ED/ASM/OPRM/Support Service Division.

SECURITY CLASSIFICATION:

None.

SYSTEM LOCATION:

Personnel offices, or office of the immediate supervisors and the first officials within the Department excluding the immediate supervisor, with line authority to decide on the matter grieved.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Department employees individually or as a group who have requested personal relief in a matter of concern or dissatisfaction which is subject to the control of Department management.

CATEGORIES OF RECORDS IN THE SYSTEM:

Information or documents relating to the grievance and personal relief sought, documented materials used in consideration of the grievance, and correspondence related to disposition of the grievance.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

5 U.S.C. 1302, 3301, 3302; Executive Order 10577.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

Information in this system of records may be used: (a) By the Office of Personnel Management, Merit Systems Protection Board (including its Office of the Special Counsel), Equal Employment Opportunity Commission, and the Federal Labor Relations Authority (including the General Counsel of the Authority and the Federal Service (Impasses Panel)) in carrying out their functions. Disclosure may be made to a Congressional office from the record of an individual in response to an inquiry from the Congressional office made at the request of that individual. In the event of litigation where one of the parties is (a) the Department, any component of the Department, or any employee of the Department in his or her official capacity; (b) the United States where the Department determined that the claim, if successful, is likely to directly affect the operations of the Department or any of its components; or (c) any Department employee is his or her individual capacity where the Justice Department has agreed to represent such employee, the Department may disclose such records as it deems desirable or necessary to the Department of Justice to enable that Departmnt to effectively represent such party, provided such disclosure is compatible with the purpose for which the records were collected. Also, the Department may disclose a record for the purposes described in the Departmental Regulations (34 CFR Part 5b, Appendix B, items 1, 3, 4, 5, 6, 7, 8, 9).

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

The records are maintained in file folders, binders and index cards for supervisors.

RETRIEVABILITY:

For supervisors, records are indexed by name of individual filing the grievance. For personnel office, records are indexed by order of receipt and organization. Records are used to consider and resolve informal grievances and to provide background data to further consideration of grievances if later pursued through formal grievance procedures.

SAFEGUARDS:

Access to and use of these records are limited to those persons whose official duties require such access. Personnel screening is employed to prevent unauthorized disclosure.

RETENTION AND DISPOSAL:

Records are retained for 3 years after the grievance case is closed, and are then destroyed.

SYSTEM MANAGER(S) AND ADDRESS:

Heads of personnel offices which service organizational units in which employees who submit informal grievances are located.

NOTIFICATION PROCEDURE:

Individuals who have filed grievances are aware of that fact and have been provided information in writing concerning the disposition of the grievance. They may contact the official who signed the written notice, or the System Manager indicated above. They should provide their name, organization in which employed and date of birth and approximate date of the filing of the informal grievance.

RECORD ACCESS PROCEDURES:

Same as notification procedures. Requesters should also reasonably specify the record contents being sought.

CONTESTING RECORD PROCEDURES:

Contact the official at the address specified under notification procedures above, and reasonably identify the record and specify the information to be contested.

RECORD SOURCE CATEGORIES:

Information in this system of records is: (1) supplied directly by the individual, or (2) derived from information supplied by the individual, or (3) supplied by testimony of witnesses, or (4) supplied by union officials, or (5) supplied by Department officials.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None.

18-11-0015

SYSTEM NAME:

Grievance Records Filed Under Procedures Established by Labor-Management Negotiations.

SECURITY CLASSIFICATION:

None

SYSTEM LOCATION:

ED personnel offices and offices of operating officials in organizational units serviced by those personnel offices.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Current Federal employees of the Department covered by a collective bargaining agreement.

CATEGORIES OF RECORDS IN THE SYSTEM:

This system of records consists of a variety of records relating to an employee's grievance filed under procedures established by labor-management negotiations. Examples of information which may be included in this system of records are the employee's name, SSN, grade, job title, testimony of witnesses, material placed into the record to support the decision, the arbitrator's decision, the arbitrator's report, and a record of an appeal to the Field Labor Relations Authority.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Title 5, United States Code, Chapter 71.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

Information in this system may be released to:

(1) The Office of Personnel Management, Merit Systems Protection Board (including its Office of the Special Counsel), and the Equal Employment Opportunity Commission in carrying out their functions.

(2) In accordance with Departmental Regulations, (34 CFR Part 5b, Appendix B. See Items 01, 3, 4, 5, 6, 7, 8, 9.).

(3) The Department of Labor.

(4) The Federal Labor Relations Authority including the General Counsel of the Authority and the Federal Service Impasses Panel.

(5) Disclosure may be made to a Congressional office from the record of an individual in response to an inquiry from the Congressional office made at the request of that individual.

(6) In the event of litigation where one of the parties is (a) the Department, any component of the Department, or any employee of the Department in his or her official capacity; (b) the United States where the Department determines that the claim, if successful, is likely to directly affect the operations of the Department or any of its components; or (c) any Department employee in his or her individual capacity where the Justice Department has agreed to represent such employee, the Department may disclose such records as it deems desirable or necessary to the Department of Justice to enable that Department to effectively represent such party, provided such disclosure is compatible with the purpose for which the records were collected.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Records are maintained in file folders.

RETRIEVABILITY:

Records are retrievable by file number. They are used to make a determination on and to document a decision made on a grievance filed by an employee under the negotiated grievance procedures. Information from this system may be used by Department officials for preparing statistical summary or management reports.

SAFEGUARDS:

Records maintained by management are stored in secured rooms with access limited to those whose official duties required access.

RETENTION AND DISPOSAL:

As negotiated by the local parties to the contract.

SYSTEM MANAGER(S) AND ADDRESS:

ED Personnel Offices who service the organizational unit in which the individual is employed.

NOTIFICATION PROCEDURE:

Contact system manager. Individuals should include their name, grade, title and organizational unit when contacting the system manager.

RECORD ACCESS PROCEDURES:

Same as notification procedures. Requesters should also reasonably specify the record contents being sought.

CONTESTING RECORD PROCEDURES:

Contact the official at the address specified under notification procedures above, and reasonably identify the record and specify the information to be contested.

RECORD SOURCE CATEGORIES:

Information in this system of records is: (1) supplied directly by the individual, or (2) derived from information supplied by the individual, or (3) supplied by testimony of witnesses, or (4) supplied by union officials, or (5) supplied by Depatment officials.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None.

18-11-0018

SYSTEM NAME:

Personnel Records in Operating Offices. ED/ASM/OPRM

SECURITY CLASSIFICATION:

None.

SYSTEM LOCATION:

Operating Offices of the Department at the organizational level of the individual's employment. Such offices are located within organizational components serviced by ED personnel offices.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Current employees of the Department.

CATEGORIES OF RECORDS IN THE SYSTEM:

This system consists of a variety of records relating to personnel actions and determinations made about an individual while employed. These records may contain information about an individual relating to name, birth date, home address; telephone number, emergency address; social security number, veterans preference; tenure; work connected injuries; handicapped code; employment history; qualifications background; past and present salaries, grades and position titles; training; awards and other recognition; counseling; performance appraisal; conduct; pay and leave; and data

documenting reasons for personnel actions, decisions or recommendations made about an employee; and background data and documentation leading to an adverse action being taken against an employee.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

5 U.S.C. 1302, 2951, 4118, 4308, 4506, 7501, 7511, 7521 and Executive Order 10561.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

Information in these records may be used: (1) By the Office of Personnel Management Merit Systems Protection Board (including its Office of the Special Counsel), Equal Employment Opportunity Commission, and the Federal Labor Relations Authority (including the General Counsel of the Authority and the Federal Services Impasses Panel) in carrying out their functions; (2) In the event an appeal is made outside the Department, records which are relevant may be referred to the appropriate agency charged with rendering a decision on the appeal. (3) Disclosure may be made to a Congressional office from the record of an individual in response to an inquiry from the Congressional office made at the request of that individual. In the event of litigation where one of the parties is (a) the Department, any component of the Department, or any employee of the Department in his or her official capacity; (b) the United States where the Department determines that the claim, if successful, is likely to directly affect the operations of the Department or any of its components; or (c) any Department employee in his or her individual capacity where the Justice Department has agreed to represent such employee, the Department may disclose such records as it deems desirable or necessary to the Department of Justice to enagble that Department to effectively represent such party, provided such disclosure is compatible with the purpose for which the records were collected. In addition, the Departmental may disclose a record for the purposes described in the Departmental Regulations (34 CFR Part 5b, Appendix B, items 1, 3, 4, 5, 6, 7, 8, 9).

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Records are maintained in file folders, magnetic tape, and index cards.

RETRIEVABILITY:

Records are indexed by any combination of name, birth date, social security number, or identification number. Records are used by operating officials in carrying out their personnel management responsibilities. They may be used in this connection in recommending or taking personnel actions such as are related to appointments, transfers, promotions, reassignments, adverse actions as a base for employee development, training, recognition, reprimands, and disciplinary actions; for making decisions on employee complaints; and as a base for staffing and budgetary planning and control, organizational planning, and for manpower utilization purposes, and for preparing statistical or summary reports. They may be used by appropriate officials in making decisions on grievance appeals and adverse actions.

SAFEGUARDS:

Access to and use of these records are limited to those persons whose official duties require access.

RETENTION AND DISPOSAL:

Records are retained until there is no further administrative need to retain them, or the individual leaves the Department, and are then either destroyed, or, if appropriate, are combined with the Official Personnel Folder, which is fowarded to the National Personnel Records Center.

SYSTEM MANAGER(S) AND ADDRESS:

Personnel Officers of the Department: 400 Maryland Avenue, SW., Washington, D.C. 20202.

NOTIFICATION PROCEDURE:

Immediate supervisors of individuals or the administrative offices of the organizational units in which employed. The system manager shown above may also provide further information concerning the existence of this system of records. Individuals should provide their name, social security number, and organization in which employed.

RECORD ACCESS PROCEDURES:

Same as notification procedures. Requesters should also reasonably specify the record contents being sought.

CONTESTING RECORD PROCEDURES:

Contact the official at the address specified under notification procedures, and reasonably identify the record and specify the information to be contested.

RECORD SOURCE CATEGORIES:

Information in this system of records either comes from the individual to whom it applies, is derived from information supplied by the individual, or is provided by Department officials.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None.

18-11-0019

SYSTEM NAME:

Special Employment Programs. ED/ASM/OHRI

SECURITY CLASSIFICATION:

None.

SYSTEM LOCATION:

ED Personnel Offices and operating offices in organization units serviced by those personnel offices in which employees are employed.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Current Federal employees of the Department and outside applicants eligible for participation in special employment programs.

CATEGORIES OF RECORDS IN THE SYSTEM:

This system consists of a variety of records relating to an employee's participation in special employment programs such as the Upward Mobility College, Career Advancement Program (Upward Mobility), Cooperative Education, Veterans Readjustment Appts., Student Volunteers, HEW Fellows,[1] Management Intern,[1] PMI, Education Policy Fellows, White House Fellows, President's Executive Exchange Program, FEORP, and Selective Placement for handicapped and Disabled Veterans. Examples of information which this records system may contain include the employee's name, SSN, program enrolled in, employing agency, grade, job title, job series, sex, date of birth, status, education background, handicap code, application for employment, position description, assignment evaluations, Veterans preference, job counseling records, letters of reference and recommendations, medical documentation, and training documentation, IDP ethnic background.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

5 U.S.C. 1301, 3301, 7151 *et. seq.*; Executive Order 11813.

[1] Currently have people in these programs who transferred into the Department even though these are not Department of Education programs.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF USES:

Information in this system may be used: (1) By the Office of Personnel Management, Merit Systems Protection Board (including the General Counsel of the Authority and the Federal Service Impasses Panel) in carrying out their functions. (2) Disclosure may be made to a Congressional office from the record of an individual in response to an inquiry from the Congressional office made at the request of that individual. In the event of litigation where one of the parties is (a) the Department, any component of the Department, or any employee of the Department in his or her official capacity; (b) the United States where the Department determines that the claim, if successful, is likely to directly affect the operations of the Department or any of its components; or (c) any Department employee in his or her individual capacity where the Justice Department has agreed to represent such employee, the Department may disclose such records as it deems desirable or necessary to the Department of Justice to enable that Department to effectively represent such party, provided such disclosure is compatible with the purpose for which the records were collected. Also, disclosures may be made for the routine uses contained in Departmental Regulations (CFR 34 Part 5b, Appendix B, items 1, 3, 4, 5, 6, 7, 8, 9).

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Information in this system of records is maintained in file folders, data tape, and punch cards.

RETRIEVABILITY:

Records are retrievable by name and SSN. Records are used by personnel offices and operating officials to monitor the progress of the individual in the special program, for career planning, and for taking personnel actions.

SAFEGUARDS:

Access and use of these records are limited to those persons whose official duties require access.

RETENTION AND DISPOSAL:

Records are retained for two years after the individual's participation in a special placement program ends, and are then destroyed.

SYSTEM MANAGER(S) AND ADDRESS:

ED Personnel Offices who service organizational units in which the participant is employed: 400 Maryland Avenue SW., Washington, D.C. 20202.

NOTIFICATION PROCEDURE:

Contact system manager. Individuals should include their name, SSN, grade, title, and organization when contacting the system manager.

RECORD ACCESS PROCEDURES:

Same as notification procedures. Requesters should also reasonably specify the record contents being sought.

CONTESTING RECORD PROCEDURES:

Contact the system manager and reasonably identify the record and specify the information to be contested.

RECORD SOURCE CATEGORIES:

Information in this system of records is: (1) supplied directly by the individual, or (2) derived from information supplied by the individual, or (3) supplied by Department officials.

SYSTEM NAME:

Suitability for Employment Records. ED/ASM/DASHR/OPRM/DPIA

SECURITY CLASSIFICATION:

None.

SYSTEM LOCATION:

ED Personnel offices and operating offers in organizational units serviced by those personnel offices in which employees are employed.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Federal employees of the Department and applicants for employment.

CATEGORIES OF RECORDS IN THE SYSTEM:

This system consists of a variety of records relating to an individual's suitability for employment in terms of character, reputation and fitness, including letters of reference, responses to pre-employment inquiries; National Agency Checks and Inquiries material received from the Office of Personnel Management and Merit Systems Protection Board including the Office of the Special Counsel relating to non-sensitive position qualifications and character investigations, and other information which may relate to the suitability of the individual for the position.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

5 U.S.C. 3301, 3302, 7301; Executive Order 10577; Executive Order 11222.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSE OF SUCH USES:

Information in the records may be used: (a) By the Office of Personnel Management, Merit Systems Protection Board (including its Office of the Special Counsel), Equal Employment Opportunity Commission, and the Federal Labor Relations Authority (including the General Counsel of the Authority and the Federal Service Impasses Panel) in carrying out their functions. (b) Disclosure may be made to a Congressional office from the record of an individual in response to an inquiry from the Congressional office made at the request of that individual. In the event of litigation where one of the parties is (a) the Department, any component of the Department, or any employee of the Department in his or her official capacity; (b) the United States where the Department determines that the claim, if successful, is likely to directly affect the operations of the Department or any of its components; or (c) any Department employee in his or her individual capacity where the Justice Department has agreed to represent such employee, the Department may disclose such records as it deems desirable or necessary to the Department of Justice to enable that Department to effectively represent such party, provided such disclosure is compatible with the purpose for which the records were collected. Also, disclosures may be made for purposes in Appendix B of the Departmental Regulations (34 CFR Part 5b, Appendix B, items 1, 3, 4, 5, 6, 7, 8, 9).

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Records are maintained in file folders.

RETRIEVABILITY:

Records are indexed by any combination of name, date of birth, Social Security Number, or identification number. Information in these records is used by designated appointing and selecting authorities to determine an individual's suitability for employment by consideration of factors present in such records.

SAFEGUARDS:

Records are maintained in confidential files and are located in lockable metal file cabinets or in metal file cabinets in secured rooms with access limited to those whose official duties require access.

RETENTION AND DISPOSAL:

Records from the Office of Personnel Management and Merit Systems Protection Board including its Office of the Special Counsel concerning applicants for or incumbents of non-sensitive positions, are retained until a decision is reached on whether to hire or retain the applicant or incumbent, and are then destroyed. Other records in this system are retained until there is no further administrative need for them, the individual leaves the Department, or one year has elapsed, and are then destroyed.

SYSTEM MANAGER(S) AND ADDRESS:

Heads of personnel offices which service organizational units in which individual is employed or in which he/she applied for employment.

NOTIFICATION PROCEDURE:

Same as above. Individuals should indicate name, social security number, date of birth, and organization in which employed, or to which they applied for employment.

RECORD ACCESS PROCEDURES:

Current Department employees or applicants should contact the appropriate system manager. Former Department employees who are employed by the Federal Government who wish to gain access or contest the records maintained on them while employed by the Department should contact the appropriate official of their current employing agency in accordance with the appropriate records system notice of that agency. Former Department employees who have separated from Federal service should direct a request to: National Personnel Records Center, General Services Administration, 111 Winnebago Street, St. Louis, Missouri 63118.

Requesters should also reasonably specify the record contents being sought.

CONTESTING RECORD PROCEDURES:

Contact the official at the address specified under notification procedures, and reasonably identify the record and specify the information to be contested.

RECORD SOURCE CATEGORIES:

Information contained in the system is obtained from these sources:

Applications and other personnel and security forms furnished by the individual.

Information furnished by other Federal agencies.

Information provided by sources such as employers, schools, references, former employers.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

Individuals will be provided with information from the above record system except when in accordance with the provisions of 5 U.S.C. 552a(k)(5): (1) disclosure of such information would reveal the identity of a source who furnished information to the Government under an express promise that the identity of the source would be held in confidence, or (2) if the information was obtained prior to the effective date of Section 3, Pub. L. 93-579, disclosure of such information would reveal the identity of a source who provided information under an implied promise that the identity of the source would be held in confidence. (34 CFR 5b.11)

18-11-0022

SYSTEM NAME:

Volunteer EEO Support Personnel Records. ED/ASM/EEOS

SECURITY CLASSIFICATION:

None.

SYSTEM LOCATION:

Office of the Director, Equal Employment Opportunity Staff, 400 Maryland Avenue SW., Room 2117, Washington, D.C. 20202.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Individuals who have volunteered or have been proposed for duty as EEO counselors and discrimination complaint investigators on a part-time basis.

CATEGORIES OF RECORDS IN THE SYSTEM:

This system of records contains information or documents concerning personal characterstics of EEO counselors and investigators. The records consist of the name and other identifying data, title, location, training received, information concerning qualifying background, case assignments, and evaluations of EEO counselors and investigators serving on a part-time basis, and related information.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Executive Order 11478, Pub. L. 92-261, Pub. L. 93-259.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

These records and information in the records may be used: (a) to provide resource to another Federal agency, in response to its request for loan of investigators or counselors, (b) By the Office of Personnnel Management, Merit Systems Protection Board (including its office of the Special Counsel), Equal Employment Opportunity Commission, and the Federal Labor Relations Authority (including the General Counsel of the Authority and the Federal Service Impasses Panel) in carrying out their functions. (c) Disclosure may be made to a Congressional office from the record of an individual in response to an inquiry from the Congressional office made at the request of that individual. In the event of litigation where one of the parties is (a) the Department, any component of the Department, or any employee of the Department in his or her official capacity; (b) the United States where the Department determines that the claim, if successful, is likely to directly affect the operations of the Department or any of its components; or (c) any Department employee in his or her individual capacity where the Justice Department has agreed to represent such employee, the Department may disclose such records as it deems desirable or necessary to the Department of Justice to enable that Department to effectively represent such party, provided such disclosure is compatible with the purpose for which the records were collected. Also, disclosure may be made for purposes found in the Departmental Regulations (34 CFR part 5b, Appendix B, items 1, 3, 4, 5, 6, 7, 8, 9).

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

These records are maintained in file folders, binders and index cards.

RETRIEVABILITY:

These records are indexed by the names of the individuals on whom they are maintained. They may be used: for identification, location and determination of availability of volunteer counselors and investigators for assignment to counsel complainants and to investigate complaints; to respond to inquiries regarding availability of counselor resources or determination regarding location and the jurisdictional propriety of an investigator resource; for determining training needs of EEO counselors and investigators; to provide information for production of summary descriptive statistics and analytical studies in support of the function for which the records are collected and maintained, or related personnel management functions or manpower studies; and to locate specific individuals for personnel

research or other personnel management functions.

SAFEGUARDS:

Access to and use of these records are limited to those persons whose official duties require access.

RETENTION AND DISPOSAL:

The records are maintained up to one year after volunteer has terminated his services, at which time they are destroyed.

SYSTEM MANAGERS(S) ADDRESS:

Director, EEO Staff, 400 Maryland Avenue SW., Room 2117, Washington, D.C. 20202.

NOTIFICATION PROCEDURE:

Individuals who have volunteered or been proposed as counselors or investigators are aware of that fact and the information contained in the record. They may, however, write the Director, EEO Staff indicated regarding the existence of records pertaining to them. The inquirers, as appropriate, should provide their name, agency in which they were proposed or served when making inquiries about records.

RECORD ACCESS PROCEDURES:

Same as notification procedures. Requesters should also reasonably specify the record contents being sought.

CONTESTING RECORD PROCEDURES:

Contact the official at the address specified under notification procedures, and reasonably identify the record and specify the information to be contested.

RECORD SOURCE CATEGORIES:

(a) Individuals to whom the record pertains.

(b) Department or other officials.

(c) Official documents relating to appointments and case assignments as counselors and investigators.

(d) Correspondence for specific persons or organizations.

(e) Formal reports submitted by the individual in the performance of official volunteer work.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None.

18–11–0023

SYSTEM NAME:

Unfair Labor Practice Records/ED/ASM/OHR/OPRM/LRS.

SECURITY CLASSIFICATION:

None.

SYSTEM LOCATION:

Personnel Offices of the Department, and offices of operating officials in organizational units serviced by those personnel offices.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Current ED employees and union officials.

CATEGORIES OF RECORDS IN THE SYSTEM:

This system of records consists of a variety of records relating to an unfair labor practice charge. Examples of information which may be included in this system are the employee's name, social security number, grade, job title, employment history and a variety of work and personnel records associated with the charges and required under proceedings established by 5 U.S.C. 71 and Department of Labor Regulations.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Title VII, Pub. L. 98–491.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF USES:

Information may be released to: (1) Office of Personnel Management, Merit Systems Protection Board (including its Office of the Special Counsel), Equal Employment Opportunity Commission, and the Federal Labor Relations Authority (including the General Counsel of the Authority and the Federal Service Impasses panel) in carrying out their functions. (2) Disclosure may be made to a Congressional office from the record of an individual in response to an inquiry from the Congressional office made at the request of that individual. (3) In the event of litigation where one of the parties is (a) the Department, any component of the Department, or any employee of the Department in his or her official capacity; (b) the United States where the Department determines that the claim, if successful, is likely to directly affect the operations of the Department or any of its components; or (c) any Department employee in his or her individual capacity where the Justice Department has agreed to represent such employee, the Department may disclose such records as it deems desirable or necessary to the Department of Justice to enable that Department to effectively represent such party, provided such disclosure is compatible with the purpose for which the records were collected.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Records are maintained in file folders.

RETRIEVABILITY:

Records are retrievable by file number. They are used to make a determination on and to document a decision made on an unfair labor practice charge filed by an employee or union official. Information from this system may be used by Department officials for preparing statistical summary or management reports.

SAFEGUARDS:

When not in use by authorized persons, these records are stored in lockable metal file cabinets. Access to and use of these records are limited to personnel who have a need for the records in performance of official duties.

RETENTION AND DISPOSAL:

The case files are maintained as long as they may be pertinent for purpose of percedent or as management information devices. When no longer useful for these purposes, they are destroyed.

SYSTEM MANAGER(S) AND ADDRESS:

ED Personnel Officers who service the organizational unit in which the individual is employed.

NOTIFICATION PROCEDURE:

Contact the systems manager and provide name, approximate date of record, the unfair labor practice charges as specified by the complainant, and management component in which the charge was filed.

RECORD ACCESS PROCEDURES:

Same as notification procedures. Requesters should also reasonably specify the record contents being sought.

CONTESTING RECORD PROCEDURES:

Contact the official at the address specified under notification procedures, and reasonably identify the record and specify the information to be contested.

RECORD SOURCE CATEGORIES:

Information in this system of records is:

(1) Supplied directly by the individual; or

(2) Derived from information supplied by the individual; or

(3) Supplied by testimony of witnesses; or

(4) Supplied by union officials; or

(5) Supplied by Department officials.

SUSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None.

SYSTEM NAME:

Law Enforcement Education System. ED–OPE–OSFA

SECURITY CLASSIFICATION:

None.

SYSTEM LOCATION:

Law Enforcement Assistance Administration, 633 Indiana Avenue NW., Washington, D.C. 20531.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Recipients of LEAA Law Enforcement Education Loans and Grants.

CATEGORIES OF RECORDS IN THE SYSTEM:

LEEP Master Computer File; LEEP Promissory Note File; LEAA Form 03.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

The system is established and maintained under 42 U.S.C. 3775.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF USES:

To contracts for categories and statistical analysis, educational institutions for record reconciliation, IRS and references listed on application for address verification, references in bankruptcy for claim action, State and local agencies to verify eligibility.

Release of information to the news media: information permitted to be released to the news media and the public under 28 CFR 50.2 may be made available from systems of records maintained by the Department of Justice unless it is determined that release of the specific information in the context of a particular case would constitute an unwarranted invasion of personal privacy.

Release of Information to Members of Congress. Information contained in systems of records maintained by the Department of Justice not otherwise required to be released under the authority of 5 U.S.C. 552, may be made available to a Member of Congress or staff acting upon the Member's behalf when the Members or staff requests the information on behalf of, and at the requests of, the individual who is the subject of the record.

Release of information to the National Archives and Records Service: A record from a system of records may be disclosed as a routine use to the National Archives and Records Service (NARS) in records management inspections conducted under the authority of 44 U.S.C. 2984 and 2996.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Information maintained in the system is stored on computer magnetic tape and folders.

RETRIEVABILITY:

Information is retrievable by name of recipient and social security number.

SAFEGUARDS:

Computerized information is safeguarded and protected by computer password key and limited access. Noncomputerized data is safeguarded in file room which is locked after business hours. Access is limited to authorized personnel.

RETENTION AND DISPOSAL:

Computerized records are kept indefinitely. Uncollected loans/grants are transferred to GAO as soon as determined uncollectable. Cancelled or

repaid loans/grants are closed at end of fiscal year, held three years, then sent to Federal Records Center and destroyed in accordance with instructions from GAO.

SYSTEM MANAGER(S) AND ADDRESS:

Director, Division of Program Operations, Room 4636, ROB–3, 7th and D Streets SW., Washington, D.C. 20202.

NOTIFICATION PROCEDURE:

Contact system manager.

RECORD ACCESS PROCEDURES:

A request for access to a record from this system shall be made in writing, with the envelope and the letter clearly marked "Privacy Access Request." Include in the request the name and personal identifier number. Access requests will be directed to the system manager.

CONTESTING RECORD PROCEDURES:

Individuals desiring to contest or amend information maintained in the system should direct their request to the system manager, stating clearly and concisely what information is being contested, the reasons for contesting it, and the proposed amendment to the information sought.

RECORD SOURCE CATEGORIES:

Sources of information are the recipient of loans/grants and their educational institutions.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

18-40-0002

SYSTEM NAME:

Registry of Deaf-Blind Children—Regional-National. ED/OSERS

SECURITY CLASSIFICATION:

None.

SYSTEM LOCATION:

(See Appendix I—System 18-40-0004)

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Deaf-blind children enrolled in programs supported by Pub. L. 94-142, Part C or for whom services are being planned by each State under the 16 regional deaf-blind centers are indicated in the registry by name, or code as determined by State and local regulations. The registry contains information on children by sex, demographic data, and service status of child.

CATEGORIES OF RECORDS IN THE SYSTEM:

Name, address, service category, i.e., service being provided to the child, fiscal data such as state, local, or Federal funding received by each program under the regional deaf-blind center.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

20 U.S.C. 1422

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

Authorized staff of regional deaf-blind centers, State and local educational agencies, and participating agencies for the purpose of planning and developing appropriate programs to meet short and long term needs of deaf-blind children have access to statistical aggregate data only through authorized center staff. Registry data will be coordinated with a joint national registry in cooperation with the Helen Keller National Center for Deaf-Blind Youths and Adults. Disclosure may be made to a Congressional office from the record of an individual in response to an inquiry from the Congressional office made at the request of that individual. In the event of litigation where one of the parties is (a) the Department, any component of the Department, or any employee of the Department in his or her official capacity; (b) the United States where the Department determines that the claim, if successful, is likely to directly affect the operations of the Department or any of its components; or (c) any Department employee in his or her invididual capacity where the Justice Department has agreed to represent such employee, the Department may disclose such records as it deems desirable or necessary to the Department of Justice to enable that Department to effectively represent such party, provided such disclosure is compatible with the purpose for which the records were collected.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Card index, paper files in metal file cabinets in each regional center office, computer disks and magnetic tapes under management of one regional center and the National Deaf-Blind Center.

RETRIEVABILITY:

Registries are indexed by name, or code, for each child reported by programs serving deaf-blind children and maintained only by the regional center staff. Statistical aggregate data is available for planning purposes to center staff, regional advisory committee members, state and local educational agencies, participating agencies and Helen Keller National Center for Deaf-Blind Youth and Adults.

SAFEGUARDS:

Direct access to regional registries is controlled by each regional center and statistical data are made available only to authorized officials as indicated under "Retrievability". Regional and national registries maintained under lock and key, and code for data on computer tapes known only to authorized staff responsible for their management. Exception: Subject to disclosure requirements of the Privacy Act.

RETENTION AND DISPOSAL:

Regional and national registries are maintained throughout educational and rehabilitation lifetime of the individual, or removed upon request by parents or the client.

SYSTEM MANAGER(S) AND ADDRESS:

Chief, Deaf-Blind Section/OSERS, Room 4046, Donohoe Building, 400 Maryland Avenue SW., Washington, D.C. 20202.

NOTIFICATION PROCEDURE:

System manager for general inquiries; for specific information contact regional center serving State in which child resides. See Appendix I of System 18-40-0004. Provide child's name and/or any I.D. number or code assigned to regional center.

RECORD ACCESS PROCEDURE:

If an individual wishes to gain access to a record in this system, he or she should contact the system manager and provide information as described in the notification procedure.

CONTESTING RECORD PROCEDURES:

If an individual wishes to change the content of a record in the system of records, he or she should contact the system manager with the information described in the notification procedure, identify the specific items to be changed, and provide a written justification for the change.

RECORD SOURCE CATEGORIES:

Parents, referrals by States and participating agencies serving deaf-blind children, to the regional deaf-blind center. All data are provided on a voluntary basis.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None.

SYSTEM LOCATION:

(See Appendix I—System 18–40–0004)

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

General intake data including name and address of child, medical, sociological and educational data relevent to the child in order to determine child's needs.

CATEGORIES OF RECORDS IN THE SYSTEM:

Name, address, general intake data as described in preceding paragraph, and maintained in file record of program in which child is enrolled. All information is provided by consent and knowledge of parents of child.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

20 U.S.C. 1422.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PROPOSES OF USES:

Authorized officials and staff of immediate program in which child is enrolled, Regional Center staff for planning short and long term program alternatives for the child. Disclosure may be made to a Congressional office from the record of an individual in response to an inquiry from the Congressional office made at the request of that individual. In the event of litigation where one of the parties is (a) the Department, any component of the Department, or any employee of the Department in his or her official capacity; (b) the United States where the Department determines that the claim, if successful, is likely to directly effect the operations of the Department or any of its components; or (c) any Department employee in his or her individual capacity where the Justice Department has agreed to represent such employee, the Department may disclose such records as it deems desirable or necessary to the Department of Justice to enable that Department to effectively represent such party, provided such disclosure is compatible with the purpose for which the records were collected.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Paper files stored in file cabinets of individual programs in which child is enrolled. Only authorized staff have access to records with approval of administrative official of said program.

RETRIEVABILITY:

Files are indexed by child's name and are retrievable only by authorized staff of program in which child is enrolled, and by parent of child

SAFEGUARDS:

Files are maintained under lock and key and cannot be removed without approval of authorized official of program in which child is enrolled. Exception: Subject to disclosure requirements of the Privacy Act.

RETENTION AND DISPOSAL:

Files are maintained as long as child is enrolled in program. File may follow child as child moves to another program or State.

SYSTEM MANAGER(S) AND ADDRESS:

Chief, Deaf-Blind Section/OSERS, Room 4046, Donohoe Building, 400 Maryland Avenue, S.W., Washington, D.C. 20202.

NOTIFICATION PROCEDURE:

System manager for general inquiries; for specific information see Appendix I of 18–04–0004. Provide child's name and/or code number for information regarding specific program child is enrolled in. Regional Center will provide name and address from which parent can request specific information.

RECORD ACCESS PROCEDURE:

If an individual wishes to gain access to a record in this system, he or she should contact the system manager and provide information as described in the notification procedure.

CONTESTING RECORD PROCEDURES:

If an individual wishes to change the content of a record in the system of records, he or she should contact the system manager with the information described in the notification procedure, identify the specific items to be changed, and provide a written justification for the change.

RECORD SOURCE CATEGORIES:

Parents of child enrolled in program; all data are provided on a voluntary basis.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None.

18–40–0004

SYSTEM NAME:

Parent Participants in Deaf-Blind Programs provided by Regional Centers for Deaf-Blind Children. ED.

SECURITY CLASSIFICATION:

None.

SYSTEM LOCATION:

(See Appendix I of this system 18–40–0004).

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Parents of deaf-blind children enrolled in programs provided by Regional Centers for Deaf-Blind Children.

CATEGORIES OF RECORDS IN THE SYSTEM:

Name, address, general intake data as determined by administrative officials of programs in which child is enrolled. All information requested is provided with knowledge and consent of the parent.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

20 U.S.C. 1422.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF USES:

Authorized officials and staff of immediate program in which child is enrolled to communicate with parents regarding child's progress. Disclosure may be made to a Congressional office from the record of an individual in response to an inquiry from the Congressional office made at the request of that individual. In the event of litigation where one of the parties is (a) the Department, any component of the Department, or any employee of the Department in his or her official capacity; (b) the United States where the Department determines that the claim, if successful, is likely to directly affect the operations of the Department or any of its components; or (c) any Department employee in his or her individual capacity where the Justice Department has agreed to represent such employee, the Department may disclose such records as it deems desirable or necessary to the Department of Justice to enable that Department to effectively represent such party, provided such disclosure is compatible with the purpose for which the records were collected.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Paper files stored in file cabinets of individual program in which child is enrolled. Only authorized staff have access to records with approval of administrative official of said program.

RETRIEVABILITY:

Files are indexed by child's name and are retrievable only by authorized staff of program in which child is enrolled; and, by parent of child.

SAFEGUARDS:

Files are maintained under lock and key and cannot be removed without approval of authorized official of program in which child is enrolled. Exception: Subject to disclosure requirements of the Privacy Act.

RETENTION AND DISPOSAL:

Files are maintained as long as child is enrolled in program. File may follow child, as child moves to another program or State.

SYSTEM MANAGER(S) AND ADDRESS:

Chief, Deaf-Blind Section/OSERS, Room 4046, Donohoe Building, 400 Maryland Avenue, S.W., Washington, D.C. 20202.

NOTIFICATION PROCEDURE:

System manager for general inquiries; for specific information see Appendix I of this system (18–40–0004). Provide child's name and/or code number for information regarding specific program child is enrolled in. Regional Center will provide name and address from which parent can request specific information.

RECORD ACCESS PROCEDURE:

If an individual wishes to gain access to a record in ths system, he or she should contact the system manager and provide information as described in the notification procedure.

CONTESTING RECORD PROCEDURES:

If an individual wishes to change the content of a record in the system of records, he or she should contact the system manager with the information described in the notification procedure, identify the specific items to be changed, and provide a written justification for the change.

RECORD SOURCE CATEGORIES:

Parents of child enrolled in program; all data are provided in a voluntary basis.

18–40–0005

SYSTEM NAME:

Participant Waiting List for Projects Serving Severely Handicapped Children and Youth. ED/OSERS.

SECURITY CLASSIFICATION:

None.

SYSTEM LOCATION:

(See Appendix II—18–40–0006.)

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Severely handicapped children and youth waiting to be included in services provided by project.

CATEGORIES OF RECORDS IN THE SYSTEM:

Name, address, and telephone numbers of children and youth; student educational, social, psychological, and relevant medical information.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Education of the Handicapped Act.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

To State and local educational agencies for coordinating services to potential participants; to other relevant State and local public and private agencies providing services to such potential participants, for coordination of services; to members of the project advisory boards and parent-teacher type organizations for coordinating and augmenting services to potential participants. Disclosure may be made to a Congressional office from the record of an individual in response to an inquiry from the Congressional office made at the request of that individual. In the event of litigation where one of the parties is (a) the Department, any component of the Department, or any employee of the Department in his or her official capacity; (b) the United States where the Department determines that the claim, if successful, is likely to directly affect the operations of the Department or any of its components; or (c) any Department employee in his or her individual capacity where the Justice Department has agreed to represent such employee, the Department may disclose such records as it deems desirable or necessary to the Department of Justice to enable that Department to effectively represent such party, provided such disclosure is compatible with the purpose for which the records were collected.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Information is in folders and stored in file cabinets.

RETRIEVABILITY:

File alphabetically by potential student surname. Records are cross indexed with listings of students by county/district. Records are available to project staff involved in planning for services to be provided.

SAFEGUARDS:

Direct access is restricted to authorized project staff; access to room in which file cabinets are maintained is limited during nonworking hours to

those with keys to room. Exception: Subject to disclosure requirements of the Privacy Act.

RETENTION AND DISPOSAL:

Student files are maintained in potential student category until the enrollment of a student, or for two years following possible enrollment age of student. Disposal—records put into trash.

SYSTEM MANAGER(S) AND ADDRESS:

Chief, Special Needs Section/OSERS, Room 3135, Donohoe Building, 400 Maryland Avenue, S.W., Washington, D.C. 20202.

NOTIFICATION PROCEDURE:

System manager; for general inquiries, provide name and possible matriculation date of student. Address is project director as cited in Appendix II (18–40–0006).

RECORD ACCESS PROCEDURES:

If an individual wishes to gain access to a record in this system, he or she should contact the system manager and provide information as described in the notification procedure.

CONTESTING RECORD PROCEDURES:

If an individual wishes to change the content of a record in the system of records, he or she should contact the system manager with the information described in the notification procedure, identify the specific items to be changed, and provide a written justification for the change.

RECORD SOURCE CATEGORIES:

Names and addresses referred from public and private educational and health agencies. Student information provided through review of records available on potential students from other public and private agencies.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None.

18–40–0006

SYSTEM NAME:

Participants of Projects Serving Severely Handicapped Children and Youth. ED/OSERS.

SECURITY CLASSIFICATION:

None.

SYSTEM LOCATION:

(See Appendix II of this system (18–40–0006.)

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Severely handicapped children and youth participating in Special Services Branch-funded projects, and the parents of these children and youth.

CATEGORIES OF RECORDS IN THE SYSTEM:

Name, address, and telephone numbers of children, youth and their parents; student educational, social, psychological and relevant medical information; student attendance, progress and testing records.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

44 U.S.C. 3701.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

To State and local educational agencies for coordinating services to participants; to other relevant State and local public agencies providing services to such participants; for coordination of services to them; to members of project advisory boards and parent-teacher type organizations for coordinating and augmenting services to participants. Disclosure may be made to a Congressional office from the record of an individual in response to an inquiry from the Congressional office made at the request of that individual. In the event of litigation where one of the parties is (a) the Department, any component of the Department, or any employee of the Department in his or her official capacity; (b) the United States where the Department determines that the claim, if successful, is likely to directly affect the operations of the Department or any of its components; or (c) any Department employee in his or her individual capacity where the Justice Department has agreed to represent such employee, the Department may disclose such records as it deems desirable or necessary to the Department of Justice to enable that Department to effectively represent such party, provided such disclosure is compatible with the purpose for which the records were collected.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Paper files maintained in standard file cabinets.

RETRIEVABILITY:

Filed alphabetically by student/parent surname. Records are cross-indexed with listings of students by county/school district. Records are available to project staff involved in the provision of services to the students/parents. Occasionally, personnel in State and local educational departments may be given some information from the files for the purpose of coordinating and strengthening services to the students/parents.

SAFEGUARDS:

Direct access is restricted to authorized project staff; access to room in which file cabinets are maintained is limited during non-working hours to those with keys to room. Exception: Subject to disclosure requirements of the Privacy Act.

RETENTION AND DISPOSAL:

Student and parent files are maintained for two years following the participation of a student. Disposal—records put into trash.

SYSTEM MANAGER(S) AND ADDRESS:

Chief, Special Needs Section/OSERS, Room 3135, Donohoe Building, 400 Maryland Avenue, S.W., Washington, D.C. 20202.

NOTIFICATION PROCEDURE:

System manager; for general inquiries, name and matriculation dates of students. Address is project director as cited in Appendix II of this system (18–40–0006).

RECORD ACCESS PROCEDURE:

If an individual wishes to gain access to a record in this system, he or she should contact the system manager and provide information as described in the notification procedure.

CONTESTING RECORD PROCEDURES:

If an individual wishes to change the content of a record in the system of records, he or she should contact the system manager with the information described in the notification procedure, identify the specific items to be changed, and provide a written justification for the change.

RECORD SOURCE CATEGORIES:

Names and addresses referred from public and private educational and health agencies. Student information provided through review of records of students previously receiving services from other agencies.

SYSTEM NAME:

Participants in Workshops Concerning Severely Handicapped Children and Youth, ED/OSERS/BEH.

SECURITY CLASSIFICATION:

None.

SYSTEM LOCATION:

Room 3135, Donohoe Building, 400 Maryland Avenue, S.W., Washington, D.C. 20202.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Professionals and non-professionals attending BEH sponsored or supported national and regional workshops which deal with severely handicapped children and youth.

CATEGORIES OF RECORDS IN THE SYSTEM:

Name and address of workshop participants.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

44 U.S.C. 3101.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

To national organizations of professionals working with severely handicapped children and youth for sharing of information and coordination of activities; to State and local educational agencies directing attention to this special field of services. Disclosure may be made to a Congressional office from the record of an individual in response to an inquiry from the Congressional office made at the request of that individual. In the event of litigation where one of the parties is (a) the Department, any component of the Department, or any employee of the Department in his or her official capacity; (b) the United States where the Department determines that the claim, if successful, is likely to directly affect the operations of the Department of any of its components; or (c) any Department employee in his or her individual capacity where the Justice Department has agree to represent such employee, the Department may disclose such records as it deems desirable or necessary to the Department of Justice to enable that Department to effectively represent such party, provided such disclosure is compatible with the purpose for which the records were collected.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

File Cabinet storage, paper files.

RETRIEVABILITY:

Indexed and filed by name of conference-workshop location of conference, and topic(s) discussed. Cross-indexed by name of participant in alphabetical listings.

SAFEGUARDS:

Direct access is restricted to authorized program staff; access to room in which file cabinets are maintained is limited during non-working hours to those with passes to building. Exception: Subject to the disclosure requirements of the Privacy Act.

RETENTION AND DISPOSAL:

Workshop Participants files are maintained for two years following the completion of a conference/workshop. Disposal—records put into trash.

SYSTEM MANAGER(S) AND ADDRESS:

Chief, Special Needs Section/BEH, Room 3135, Donohoe Building, 400 Maryland Avenue, Washington, D.C. 20202.

NOTIFICATION PROCEDURE:

System manager; for general inquiries, name and address of participant. Address is Program Officer, in preceding paragraph.

RECORD ACCESS PROCEDURES:

If an individual wishes to gain access to a record in this system, he or she should contact the system manager and provide information as described in the notification procedure.

CONTESTING RECORD PROCEDURES:

If an individual wishes to change the content of a record in the system of records, he or she should contact the system manager with the information described in the notification procedure, identify the specific items to be changed, and provide a written justification for the change.

RECORD SOURCE CATEGORIES:

Names and addresses obtained from the participants attending national or regional meetings concerning severely handicapped children and youth.

V 46 / 105 JE 2 81 UMI

18-40-0011

SYSTEM NAME:

Upward Bound Information System. ED-ASDE-HE.

SECURITY CLASSIFICATION:

None.

SYSTEM LOCATION:

Room 3319-C, ROB No. 3, 7th and D Streets SW., Washington, D.C. 20202.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Current and former participants in the Upward Bound Program.

CATEGORIES OF RECORDS IN THE SYSTEM:

The student's: name, system identifier number, social security number, sex, date of birth, ethnoracial background, home address, dates of entry into and departure from Upward Bound, income eligibility data, need for program services, veteran's status, current enrollment status and grade level, high school and expected date of graduation, high school academic program and grade point average at time of entrance into the program, Scholastic Aptitude Test and American College Test Score data (if applicable), reason for leaving program, and postsecondary school enrollment data or reason for not pursuing a postsecondary education.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Title IV-A of the Higher Education Act of 1965, as amended.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

For the routine uses contained in 34 CFR Part 5b, Appendix B. Disclosure may be made to a Congressional office from the record of an indivdual in response to an inquiry from the Congrssional office made at the request of that indivudual. In the event of litigation where one of the parties is (a) the Department, any component of the Department, or any employee of the Department in his or her official Department in his or ner official capacity; (b) the United States where the Department determines that the claim, if successful, is likely to directly affect the operations of the Department or any of its components; or (c) any Department employee in his or her individual capacity where the Justice Department has agreed to represent such employee, the Department may disclose such records as it deems desirable or necessary to the Department of Justice to enable that Department to effectively represent such party, provided such disclosure is compatible with the purpose for which the records were collected.

POLICIES AND PRACTICES FOR STORING, ACCESSING, RETAINING, AND DISPOSING OF RECORD IN THE SYSTEM:

STORAGE:

Records are stored on magnetic tape files at ED's contractor site, 5185 MacArthur Blvd., NW., Washington, D.C. 20016.

RETRIEVABILITY:

Records are accessed primarily by a student number assigned by the Upward Bound Computer system.

SAFEGUARDS:

Only designated personnel are authorized to have access to the files.

RETENTION AND DISPOSAL:

Current records are maintained indefinitely.

SYSTEM MANAGER(S) AND ADDRESS:

Chief, Information Systems and Program Support Branch, Division of Student Services, OHCE, Room 3514, ROB No. 3, 400 Maryland Avenue SW., Washington, D.C. 20202.

NOTIFICATION PROCEDURE:

If an individual wishes to determine whether a record exists for him or her in the system of records, the individual should provide to the system manager his or her name and student number.

RECORD ACCESS PROCEDURES:

If an individual wishes to gain access to a record in this system he or she should contact the system manager with the information described in the notification procedure.

CONTESTING RECORD PROCEDURES:

If an individual wishes to change the content of a record in the system of records, he or she should contact the system manager with the information described in the notification procedure, identify the specific items to be changed, and provide a written justification for the change.

RECORD SOURCE CATEGORIES:

Information submitted by the institution's program director who obtains it directly from the individual students. Information regarding the enrollement and graduation of former participants is also obtained from college registrars.

18-40-0012

SYSTEM NAME:

Migration and Refugee Assistance Act of 1962—United States Loan Program for Cuban Students. ED/OPSE/OSFA.

SECURITY CLASSIFICATION:

None.

SYSTEM LOCATION:

Office of Student Financial Assistance, 1200 Main Tower Building, Dallas, TX 75202.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Cuban refugees who have borrowed money under the program to finance their education at eligible institutions of higher education.

CATEGORIES OF RECORDS IN THE SYSTEM:

(1) All individual student files contain the following personal data: name, address, institution, ED ID No.; sex, date of birth, marital status, dependents; place of birth, immigration status, social security number; name and address of parents and relatives; employment record for past five years; educational pursuits, career objective; financial information (relatives); date of separation, total amount borrowed; repayment schedule, collections, deferments, cancellations; (2) Additional information on those who request a postponement of repayment on ground of hardship; place of employment, income; regular expenses, list of debts giving name and address of creditor, nature of indebtedness, total cost, balance owed, frequency of payment and amount of each payment; (3) Additional information on those who request cancellation of loan on ground of permanent and total disability; nature of disability, date symptoms first appeared; name, address of doctor or hospital providing examination(s) and treatment; history of disability, present condition, diagnosis, treatment, progress, prognosis.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Migration and Refugee Assistance Act of 1962, Section 2, Pub. L. 87-510 (22 U.S.C. 2601).

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

To contractor providing billing and collection services for purposes of maintaining accurate and current records of participating students; to students who request a record of their account; to Internal Revenue Service and Immigration and Naturalization Service for purposes of skip-tracing lost borrowers; and to the General Accounting Office or the Department of Justice for legal action against delinquent borrowers and for the routine uses contained in 34 CFR Part 5b

Appendix B. Disclosure may be made to a Congressional office from the record of an individual in response to an inquiry from the Congressional office made at the request of that individual. In the event of litigation where one of the parties is (a) the Department, any compenent of the Department, or any employee of the Department in his or her official capacity; (b) the United States where the Department determines that the claim, if successful, is likely to directly affect the operations of the Department or any of its components; or (c) any Department employee in his or her individual capacity where the Justice Department has agreed to represent such employee, the Department may disclose such records as it deems desirable or necessary to the Department of Justice to enable that Department to effectively represent such party, provided such disclosure is compatible with the puropose for which the records were collected.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OR RECORDS IN THE SYSTEM:

STORAGE:

Records are maintained in hard-copy, filed in a standard (locked) file cabinets.

RETRIEVABILITY:

Records are indexed by indexed by individual name and ED identification number. Records are available to DPO staff involved in correspondence with Cuban refugee borrowers, contractor personnel if necessary, and members of the Office of General Counsel. Records are available to Public Health Service for determinations on requests for medical postponement of repayment of loan or permanent and total disability.

SAFEGUARD:

Direct access is restricted to authorized program officials and contractor personnel. Physically safeguard by use of standard file cabinets which are locked during non-working hours. Exception: Subject to disclosure requirements of the Privacy Act.

RETENTION AND DISPOSAL:

Records maintained indefinitely.

SYSTEM MANAGER(S) AND ADDRESS:

Regional Administrator, Office of Student Financial Assistance, 1200 Main Tower Building, Dallas, TX 75202.

NOTIFICATION PROCEDURE:

System manager will respond to inquiries. Inquiries must contain system identification number and system name: name and address of borrower concerned; and date of previous correspondence, if any.

RECORD ACCESS PROCEDURES:

If an individual wishes to gain access to a record in this system, he or she should contact the system manager and provide information as described in the notification procedure.

CONTESTING RECORD PROCEDURES:

If an individual wishes to change the content of a record in the system of records, he or she should contact the system manager with the information described in the notification procedure, identify the specific items to be changed, and provide a written justification for the change.

RECORD SOURCE CATEGORIES:

Original information is submitted by the institution's program director who obtains it directly from the individual students; additional information in the case of requests for hardship postponements or cancellations on the gounds of total and permanent disability is obtained from the student, a doctor and/or a hospital; and if a borrower dies before completion of repayment, proof of death is obtained from appropriate source.

18-40-0013

SYSTEM NAME:

National Defense Direct Student Loan Program—Request for Cancellation of Loan on Ground Permanent and Total Disability. ED/OPSE/OSFA.

SECURITY CLASSIFICATION:

None.

SYSTEM LOCATION:

Room 4636, ROB No. 3, 7th and D Streets SW., Washington, D.C. 20202.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Student borrowers under the National Defense Direct Student Loan Program requesting loan cancellation because of permanent and total disability.

CATEGORIES OF RECORDS IN THE SYSTEM:

Information on borrowers requesting disability cancellation of loans includes name, address, social security number, medical records, name and address of lending institution, and other information needed to process such cancellation requests

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Title IV–E of the Higher Education Act of 1965, as amended.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

For the routine uses contained in 34 CFR Part 5b, Appendix B. Disclosure may be made to a Congressional office from the record of an individual in resonse to an inquiry from the Congressional office made at the request of that individual. In the event of litigation where one of the parties is (a) the Department, any component of the Department, or any employee of the Department in his or her official capacity; (b) the United States where the Department determines that the claim, if successful, is likely to directly affect the operations of the Department or any of its components; or (c) any Department employee in his or her individual capacity where the Justice Department has agreed to represent such employee, the Department may disclose such records as it deems desirable or necessary to the Department of Justice to enable that Department to effectively represent such party, provided such disclosure is compatible with the purpose for which the records were collected.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Records in hard copy form are maintained in standard file cabinets.

RETRIEVABILITY:

Records are accessed by individual's name only. Program officials use the records to secure appropriate information on which the Secretary of Education may make a determination to cancel a National Defense Direct Student Loan for reasons of permanent and total disability.

SAFEGUARDS:

Only program officials are authorized to have access to the files. Exception: Subject to disclosure requirements of the Privacy Act.

RETENTION AND DISPOSAL:

The file is a cumulative one. To date, all individual case records are maintained as initially filed; none have been deleted, removed, or stored elsewhere.

SYSTEM MANAGER(S) AND ADDRESS:

Director, Division of Program Operations, Room 4636, ROB No. 3, 7th and D Streets SW., Washington, D.C. 20202.

NOTIFICATION PROCEDURE:

System manager will respond to inquiries as to whether the system contains an individual's record. Inquiries must contain system identification number and system; name and address of borrower concerned; and date of previous correspondence if any.

RECORD ACCESS PROCEDURES:

If an individual wishes to gain access to a record in this system, he or she should contact the system manager and provide information as described in the notification procedure.

CONTESTING RECORD PROCEDURES:

If an individual wishes to change the content of a record in the system of records, he or she should contact the system manager with the information described in the notification procedure, idenity the specific items to be changed, and provide a written justification for the change.

RECORD SOURCE CATEGORIES:

Information is submitted by the borrower requesting cancellation and by his physician(s), through the lending institution.

18-40-0014

SYSTEM NAME:

Pell Grant Application File. ED/OPSE/OSFA.

SECURITY CLASSIFICATION:

None.

SYSTEM LOCATION:

Room 4920, ROB No. 3, 7th and D Streets SW., Washington, D.C. 20202; Pell Grant Processing Center, Iowa City IA 52240; Pell Grant Processing Center, Los Angeles, CA 90009.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Students applying for and receiving Basic Grant assistance.

CATEGORIES OF RECORDS IN THE SYSTEM:

Name, address, birthdate, social security number, and financial data necessary to identify applicants and calculate their eligibility index for Pell Grants.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Title IV-A of the Higher Education Act of 1965.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF USES:

Identifying information and eligibility index of applicants is provided to those institutions of postsecondary education in which the applicants plan to enroll or are enrolled. The same data are provided to State scholarship agencies having agreements with the Secretary for purposes of coordinating State aid with the Pell Grant Program. On request, information is provided to parents and spouses who provide information on the application form. Disclosure may be made to a Congressional office from the record of an individual in response to an inquiry from the Congressional office made at the request of that individual. In the event of litigation where one of the parties is (a) the Department, any component of the Department, or any employee of the Department in his or her official capacity; (b) the United States where the Department determines that the claim, if successful, is likely to directly affect the operations of the Department or any of its components; or (c) any Department employee in his or her individual capacity where the Justice Department has agreed to represent such employee, the Department may disclose such records as it deems desirable or necessary to the Department of Justice to enable that Department to effectively represent such party, provided such disclosure is compatible with the purpose for which the records were collected. The information may be released for the routine uses in 34 CFR Part 5b, Appendix B, including contractors.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Original applications are maintained in standard file cabinets in Pell Grant processing center. Micro-fiche records are maintained in Washington office in standard file cabinets.

RETRIEVABILITY:

Records are indexed by name of applicant with a cross-index file by social security number. Records are available to all Division of Pell and State Student Grant staff (including appropriate contract support).

SAFEGUARDS:

Only designated program officials and contract staff have access to file. Exception: Subject to disclosure requirements of the Privacy Act.

RETENTION AND DISPOSAL:

Original records are maintained until end of academic year and then stored in Federal Records Center.

SYSTEM MANAGER(S) AND ADDRESS:

Director, Division of Program Operations, Room 4636, ROB No. 3, 7th and D Street SW., Washington, D.C. 20202.

NOTIFICATION PROCEDURE:

In an individual wishes to determine whether a record exists for him or her in the system of records, the individual should provide to the system manager his or her name and social security number.

RECORD ACCESS PROCEDURES:

If an individual wishes to gain access to a record in this system, he or she should contact the system manager and provide information as described in the notification procedure.

CONTESTING RECORD PROCEDURES:

If an individual wishes to change the content of a record in the system of records, he or she should contact the system manager with the information described in the notification procedure, identify the specific items to be changed, and provide a written justification for the change.

RECORD SOURCE CATEGORIES:

Information may be provided directly to the Department of Education by applicants, or, at the request of an applicant, may be provided by the following agenicies: American College Testing Program, Iowa City, IA 52240; Pennsylvania Higher Education Assistance Agency, Harrisburg, PA 17102; College Scholarship Service, Princeton, NJ 08541; and College Scholarship Service, Berkeley, CA 94701.

The purpose of this approach is to permit students to apply for Pell Grant Assistance without being required to submit a Pell Grant Application, but instead to provide data needed by the Pell Grant Program on other forms by which they apply for State and/or institutional aid.

18-40-0015

SYSTEM NAME:

Pell Grant Student Eligibility Report Sub-system. ED/OPSE/OSFA.

SECURITY CLASSIFICATION:

None.

SYSTEM LOCATION:

Room 4712, ROB No. 3, 7th and D Streets SW., Washington, D.C. 20202.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Pell Grant Recipients.

CATEGORIES OF RECORDS IN THE SYSTEM:

Name, address, birthdate, social security number, financial data, and status of award for Pell Grant recipients.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Title IV–A of the Higher Education Act of 1965.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

To prepare annual student validation roster for submission to schools in order to verify payments made to students. Disclosure may be made to a Congressional office from the record of an individual in response to an inquiry from the Congressional office made at the request of that individual. In the event of litigation where one of the parties is (a) the Department, any component of the Department, or any employee of the Department in his or her official capacity; (b) the United States where the Department determines that the claim, if successful, is likely to directly affect the operations of the Department or any of its components; or (c) any Department employee in his or her individual capacity where the Justice Department has agreed to represent such employee, the Department may disclose such records as it deems desirable or necessary to the Department of Justice to enable that Department to effectively represent such party, provided such disclosure is compatible with the purpose for which the records were collected.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Original Student Eligibility Reports and hard copy are maintained in standard file cabinet.

RETRIEVABILITY:

Records are indexed by institution and by name and social security number within school. Records are used to verify and reconcile institutional expenditures.

SAFEGUARDS:

Direct access is restricted to authorized staff. Exception: Subject to disclosure requirements of the Privacy Act.

RETENTION AND DISPOSAL:

Original copies are maintained until fiscal year funds are closed out, and then stored at Federal Records Center.

SYSTEM MANAGER(S) AND ADDRESS:

Director, Division of Program Operations, Room 4651, ROB No. 3, 7th and D Streets SW., Washington, D.C. 20202.

NOTIFICATION PROCEDURE:

If an individual wishes to determine whether a record exists for him or her in the system of records, the individual should provide to the system manager his or her name and social security number.

RECORD ACCESS PROCEDURES:

If an individual wishes to gain access to a record in this system, he or she should contact the system manager and provide information as described in the notification procedure.

CONTESTING RECORD PROCEDURES:

If an individual wishes to change the content of a record in the system of records, he or she should contact the system manager with the information described in the notification procedure, identify the specific items to be changed, and provide a written justification for the change.

RECORD SOURCE CATEGORIES:

Student Eligibility Report.

SYSTEM NAME:

Student Financial Assistance—Compliance Files. ED/OPSE/OSFA.

SECURITY CLASSIFICATION:

None.

SYSTEM LOCATION:

Room 4069, ROB No. 3, 7th and D Streets SW., Washington, D.C. 20202.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Applicants for, and recipients of, Title IV student financial assistance; personnel of OSFA; officials, employees or agents of regional offices, participating schools, and lenders, who are involved in complaints or allegations of program irregularities, noncompliance with regulations, misconduct, fraud or abuse.

CATEGORIES OF RECORDS IN THE SYSTEM:

Contains written documentation of the alleged or proven act(s) of misconduct including name, address, social security and claim numbers (if appropriate) of the complainant, name of the student borrower, school or lender, and the results of investigative action, prosecution or non-prosecution intent, and results.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Higher Education Act of 1965, Title IV, as amended (20 U.S.C. 1070 *et seq.*).

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF USES:

The information may be furnished to Federal, State, or local agencies, to private parties such as relatives, present and former employers, business and personal associates, to guarantee agencies, to educational and financial institutions, and to agency contractors, in order to verify the identity of the applicant, to determine program eligibility and benefits, to permit servicing or collecting of the loan, to counsel the borrower in repayment efforts, to investigate possible fraud and verify compliance with program regulations, or to locate a delinquent or defaulted borrower. To schools and lenders for investigative activities. In 34 CFR Part 5b, Appendix B, items 1, 3, 4, 5, 6, 8, and 11. Disclosure may be made to a Congressional office from the record of an individual in response to an inquiry from the Congressional office made at the request of that individual. In the event of litigation where one of the parties is (a) the Department, any component of the Department, or any employee of the Department in his or her official capacity; (b) the United States where the Department determines that the claim, if successful, is likely to directly affect the operations of the Department or any of its components; or (c) any Department employee in his or her individual capacity where the Justice Department has agreed to represent such employee, the Department may disclose such records as it deems desirable or necessary to the Department of Justice to enable that Department to effectively represent such party, provided such disclosure is compatible with the purpose for which the records were collected.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

The records are maintained in hard-copy filed in standard file cabinets.

RETRIEVABILITY:

The records are filed and indexed alphabetically by name and address. Intradepartmental users of these records are the Office of General Counsel (OGC), Office of Inspector General (OIG), and the ED Regional Offices (RO). OGC usage is for the purpose of providing background data in obtaining legal rulings and opinions. OIG usage is for the purpose of obtaining documentation necessary for the investigation. RO usage is for the purpose of coordinating actions between various regional offices.

SAFEGUARDS:

Direct access is restricted to authorized staff; file cabinets are locked. Exception: Subject to disclosure requirements of the Privacy Act.

RETENTION AND DISPOSAL:

Records are maintained three years; compliance and investigative records are maintained five years past date of case closing. Destroyed by maceration.

SYSTEM MANAGER(S) AND ADDRESS:

Director, Division of Certification and Program Review, Room 4069, ROB No. 3, 7th and D Streets SW., Washington, D.C. 20202.

NOTIFICATION PROCEDURE:

System manager; for general inquiries, name and date of previous correspondence, if known; for compliance/investigative material, name and an I.D. number assigned. Address is listed in preceding paragraph.

RECORD ACCESS PROCEDURES:

If an individual wishes to gain access to a record in this system, he or she should contact the system manager and provide information as described in the notification procedure.

CONTESTING RECORD PROCEDURES:

If an individual wishes to change the content of a record in the system of

records, he or she should contact the system manager with the information described in the notification procedure, identify the specific items to be changed, and provide a written justification for the change.

RECORD SOURCE CATEGORIES:

Incoming correspondence, responses, and material obtained during course of any investigation.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None.

SYSTEM NAME:

Student Financial Assistance—Student Complaint Files. ED/OPSE/OSFA.

SECURITY CLASSIFICATION:

None.

SYSTEM LOCATION:

Room 4069, ROB No. 3, 7th and D Streets, S.W., Washington, D.C. 20202.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Applicant for, recipients of, Title IV student financial assistance who have made complaints or allegations of irregularities by schools or lenders, or their officials, employees, or agents.

CATEGORIES OF RECORDS IN THE SYSTEM:

Contains written documentation of student complaints including name, address, social security and claim number (if appropriate) of the complainant, name of school and lender.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Higher Education Act of 1965, Title IV.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSE OF USES:

The information may be furnished to Federal, State, or local agencies, to private parties such as relatives, present and former employers, business and personal associates, to guarantee agencies, to educational and financial institutions, and to agency contractors, in order to verify the identity of the applicant, to determine program eligibility and benefits, to permit servicing or collecting of the loan, to counsel the borrower in repayment efforts, to investigate possible fraud and verify compliance with program regulations, or to relocate a delinquent or defaulted borrower. To schools and lenders for investigative activities. In Departmental regulations (34 CFR Part 5b, Appendix B, items 1, 3, 5, 6, 8, and 11). Disclosure may be made to a Congressional office from the record of an individual in response to an inquiry from the Congressional office made at the request of that individual. In the event of litigation where one of the parties is (a) the Department, any component of the Department, or any employee of the Department in his or her official capacity; (b) the United States where the Department determines that the claim, if successful, is likely to directly affect the operations of the Department or any of its components; or (c) any Department employee in his or her individual capacity where the Justice Department has agreed to represent such employee, the Department may disclose such records as it deems desirable or necessary to the Department of Justice to enable that Department to effectively represent such party, provided such dislosure is compatible with the purpose for which the records were collected.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

The records are maintained in hard-copy, filed in standard file cabinets.

RETRIEVABILITY:

The records are filed and indexed alphabetically by name and address. Authorized intradepartmental employees review action taken.

SAFEGUARDS:

Direct access is restricted to authorized OSFA staff; file cabinets are locked. Exception: Subject to disclosure requirements of the Privacy Act.

RETENTION AND DISPOSAL:

Records are maintained three years; complaint and investigative records are maintained five years past date of case closing. Destroyed by maceration.

SYSTEM MANAGER(S) AND ADDRESS:

Director, Division of Certification and Program Review, Room 4069, ROB No. 3, 7th and D Streets, S.W., Washington, D.C. 20202.

NOTIFICATION PROCEDURE:

System manager; for general inquiries, name and date of previous correspondence, if known; for complaint/investigative material, name and any I.D. number assigned. Address is listed in preceding paragraph.

RECORD ACCESS PROCEDURES:

If an individual wishes to gain access to a record in this system, he or she should contact the system manager and provide information as described in the notification procedure.

CONTESTING RECORD PROCEDURES:

If an individual wishes to change the content of a record in the system of records, he or she should contact the system manager with the information described in the notification procedure, identify the specific items to be changed, and provide a written justification for the change.

RECORD SOURCE CATEGORIES:

Incoming correspondence, responses, and material obtained during course of any investigation.

18-11-0002

SYSTEM NAME:

Defaulted Guaranteed Loans Submitted to Department of Justice. ED.

SECURITY CLASSIFICATION:

None.

SYSTEM LOCATION:

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Borrowers for whom defaulted claims have been paid and subsequently submitted to Department of Justice (DOJ) for further action.

CATEGORIES OF RECORDS IN THE SYSTEM:

Contains borrower's name, demographic background, educational and lender information, family financial information, credit data, and collection history.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Higher Education Act of 1965, Title IV–B, as amended (20 U.S.C. 1071–1087–4).

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF USES:

The information may be furnished to Federal, State, or local agencies, to private parties such as relatives, present and former employers, business and personal associates, to guarantee agencies, to educational and financial institutions, and to agency contractors, in order to verify the identity of the applicant, to determine program eligibility and benefits, to permit servicing or collecting of the loan, to enforce the conditions or terms of the loan, to counsel the borrower in repayment efforts, to investigate

possible fraud and verfiy compliance with program regulations, or to locate a delinquent or defaulted borrower. For uses contained in the Departmental Regulations (34 CFR Part 5b, Appendix B). Disclosure may be made to a Congressional office from the record of an individual in response to an inquiry from the Congressional office made at the request of that individual. In the event of litigation where one of the parties is (a) the Department, any component of the Department, or any employee of the Department in his or her official capacity; (b) the United States where the Department determines that the claim, if successful, is likely to directly affect the operations of the Department or any of its components; or (c) any Department employee in his or her individual capacity where the Justice Department has agreed to represent such employee, the Department may disclose such records as it deems desirable or necessary to the Department of Justice to enable that Department to effectively represent such party, provided such disclosure is compatible with the purpose for which the records were collected.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

The records are maintained on microfilm filed in standard file cabinets.

RETRIEVABILITY:

Data indexed by name and date. Data utilized by collection staff to compile OSFA statistics and management reports; to implement write-off of files transferred to DOJ to provide additional information in response to GAO/Justice Department inquiries.

SAFEGUARDS:

Direct access is restricted to authorized OSFA staff; file cabinets are locked. Exception: subject to disclosure requirements of the Privacy Act.

RETENTION AND DISPOSAL:

Held indefinitely.

SYSTEM MANAGER(S) AND ADDRESS:

Director, Division of Program Operations, Room 4636, ROB No. 3, 7th and D Streets, S.W., Washington, D.C. 20202.

NOTIFICATION PROCEDURES:

System manager; for general inquiries, name and date of previous correspondence if known; for defaulted loans submitted to Department of Justice, name, social security number, and any I.D. number assigned. Address is listed in preceding paragraph.

RECORD ACCESS PROCEDURES:

If an individual wishes to gain access to a record in this system, he or she should contact the system manager and provide information as described in the notification procedure.

CONTESTING RECORD PROCEDURES:

If an individual wishes to change the content of a record in the system of records, he or she should contact the system manager with the information described in the notification procedure, identify the specific items to be changed, and provide a written justification for the change.

RECORD SOURCE CATEGORIES:

Information is obtained from applications, correspondence and reports from borrowers and their families, lenders, schools, employers, credit agencies, and government agencies.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None.

SYSTEM NAME:

Guaranteed Loan Program—Loan Application File. ED/OPSE/OSFA

SECURITY CLASSIFICATION:

None.

SYSTEM LOCATION:

Room 4636, ROB No. 3, 7th and D Streets, S.W., Washington, D.C. 20202; 5700 Thurston Avenue, Virginia Beach, VA 23455.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Borrowers who have applied for educational loans under Title IV–B of the Higher Educationa Act of 1965.

CATEGORIES OF RECORDS IN THE SYSTEM:

Contains written documentation of application including demographic background, loan and educational status, name of guarantor and lender, and data on credit and family.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Higher Education Act of 1965, as amended (20 U.S.C. 1071–1087–4).

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF USES:

The information may be furnished to Federal, State or local agencies, to private parties such as relatives, present and former employers, business and personal associates, to guarantee agencies, to educational and financial institutions, to credit bureaus and collection agencies, and to agency contractors, in order to verify the indentity of the applicant, to determine program eligibility and benefits, to permit servicing or collecting of the loan, to enforce the conditions or terms of the loan, to counsel the borrower in repayment efforts, to investigate possible fraud and verify compliance with program regulations, or to locate a delinquent or defaulted borrower. To contractors for updating computer records and correction of errors. In uses in the Departmental Regulations (34 CFR, Part 5b, Appendix B, items 1, 3, 5, 6, 8, and 9). Disclosure may be made to a Congressional office from the record of an individual in response to an inquiry from the Congressional office made at the request of that individual. In the event of litigation where one of the parties is (a) the Department, any component of the Department, or any employee of the Department in his or her official capacity; (b) the United States where the Department determines that the claim, if successful, is likely to directly affect the operations of the Department or any of its components; or (c) any Department employee in his or her individual capacity where the Justice Department has agreed to represent such employee, the Department may disclose such records as it deems desirable or necessary to the Department of Justice to enable that Department to effectively represent such party, provided such disclosure is compatible with the purpose for which the records were collected.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

The records are maintained in hard-copy or microfilm and are filed in standard records cartons.

RETRIEVABILITY:

Records are indexed by borrower's name. Used by OSFA personnel either to retrieve needed information on an individual, a school, a lender, or as part of a random statistical sampling or review.

SAFEGUARDS:

Direct access is restricted to authorized OSFA staff and contract employees; stored in records cartons in rooms locked during nonbusiness hours. Exception: Subject to disclosure requirements of the Privacy Act.

RETENTION AND DISPOSAL:

Records of individual loans are destroyed three years after final repayment of loan. Destroyed by maceration.

SYSTEM MANAGER(S) AND ADDRESS:

Director, Division of Program Operations, Room 4636, ROB No. 3, 7th and D Streets, S.W., Washington, D.C. 20202.

NOTIFICATION PROCEDURE:

If an individual wishes to determine whether a record exists for him or her in the system of records, the individual should provide to the system manager his or her name and social security number.

RECORD ACCESS PROCEDURES:

If an individual wishes to gain access to a record in this system, he or she should contact the system manager and provide information as described in the notification procedue.

CONTESTING RECORD PROCEDURES:

If an individual wishes to change the content of a record in the system of records, he or she should contact the system manager with the information described in the notification procedure, identify the specific items to be changed, and provide a written justification of the change.

RECORD SOURCE CATEGORIES:

Incoming application forms from guarantee agencies and private non-profit agencies approved by the Secretary. Information supplied by student, student's family, and lender.

Guaranteed Loan Program—Paid Claims File. ED/OPSE/OSFA

SECURITY CLASSIFICATION:

None.

SYSTEM LOCATION:

Room 4636, ROB No. 3, 7th and D Streets, S.W., Washington, D.C. 20202.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Borrowers for whom claims have been paid on loans insured under Title IV-B of HEA.

CATEGORIES OF RECORDS IN THE SYSTEM:

Contains borrower's name, demographic background, educational and lender information, family financial information, credit data, loan data, legal documents, medical reports, and collection history.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Higher Education Act of 1965, Title IV-B, as amended (20 U.S.C. 1071-1087-4).

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

The information may be furnished to Federal, State, or local agencies, to private parties such as relatives, present and former employers, business and personal associates, to guarantee agencies, to educational and financial institutions, to credit bureaus and collection agencies, and to agency contractors, in order to verify the identity of the applicant, to determine program eligibility and benefits, to

V 4 6 / 1 0 5 J E 2 8 1 UMI

enforce the conditions or terms of the loan, to permit servicing or collecting of the loan, to counsel the borrower in repayment efforts, to investigate possible fraud and verify complainace with program regulations, or to locate a deliquent or defaulted borrower. To contractors for issuance of collection letters; to credit company contractors for skip tracing, in-file history information, assets and ability to pay; to Internal Revenue Service for last known address; to Postal Service for last known address; to General Accounting Office for possible pre-litigation collection service and audit; to Department of Justice for possible legal action; to Federal Bureau of Investigation in performance of investigation into possible fraud cases; to State Department of Motor Vehicles for last known address; to State Bureau of Vital Statistics for verification of death; to mortgage companies for credit checks; to educational agencies or institutions against which a complaint has been made; to other lenders in the program making inquiries about the defaulted students who may have been denied additional loans; to other Federal agencies requesting information as to the repayment history of the defaulted account; to the State Department for last known address abroad; to contractors to update records and correct errors; to state guarantee agencies requesting student borrower information; and for uses in (34 CFR Part 5b, Appendix B, items 1, 3, 4, 5, 6, 8, and 9). Disclosure may be made to a Congressional office from the record of an individual in response to an inquiry from the Congressional office made at the request of that individual. In the event of litigation where one of the parties is (a) the Department, any component of the Department, or any employee of the Department in his or her official capacity; (b) the United States where the Department determines that the claim, if successful, is likely to directly affect the operations of the Department or any of its components; or (c) any Department employee in his or her individual capacity where the Justice Department has agreed to represent such employee, the Department may disclose such records as it deems desirable or necessary to the Department of Justice to enable that Department to effectively represent such party, provided such disclosure is compatible with the purpose for which the records were collected.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

The records are maintained in hard-copy filed in standard file cabinets and lektriever.

RETRIEVABILITY:

Data indexed by name. Claims classified into special categories: bankruptcies; death, disabilities; repurchases by lenders; paid-in-full; and defaulted claims. Defaulted claims are separated into sub-categories: skip files, suspension files, foreign files, forbearance files, and prison files. Data utilized to compile OSFA statistics and management reports for system manager; used by collection staff to collect monies owed to U.S. Government and to perform post-audits on paid claims; to provide data to the Office of Inspector General in cases of possible fraud and irregularities; and to provide data to compliance staff associated with violation of the laws.

SAFEGUARDS:

Direct access is restricted to authorized OSFA staff; file cabinets and lektriever are locked. Exception: Subject to disclosure requirements of the Privacy Act.

RETENTION AND DISPOSAL:

Records destroyed by maceration after microfilming; microfilm maintained three years after repayment or cancellation of loan, and destroyed by chemical processing.

SYSTEM MANAGER(S) AND ADDRESS:

Director, Division of Program Operations, Room 4636, GSA Building, 7th and D Streets, SW., Washington, D.C. 20202.

NOTIFICATION PROCEDURE:

System manager: for general inquiries, name and date of previous correspondence, if known; for paid claim: name, social security number, and and I.D. number assigned. Address is listed in preceding paragraph.

RECORD ACCESS PROCEDURES:

If an individual wishes to change the content of a record in the system of records, he or she should contact the system manager and provide information as described in the notification procedure above.

CONTESTING RECORD PROCEDURES:

If an individual wishes to change the content of a record in the system of records, he or she should contact the system manager with the information described in the notification procedure, identify the specific items to be changed, and provide a written justification for the change.

RECORD SOURCE CATEGORIES:

Information is obtained from applications, correspondence and reports from borrowers and their families, acquaintances, lenders, schools, employers, credit agencies, and governmental agencies.

The file is maintained on magnetic tape/disk packs in a library room area at the above named location.

RETRIEVABILITY:

The file is indexed by social security number. Data utilized to provide Office of General Counsel and the Office of Inspector General with data in possible cases of fraud or irregularities. Other uses by OSFA staff are to identify student borrowers indebted to the U.S. Government who have defaulted on their student loan; reimburse lending institution for claim against a guaranteed loan; generate and maintain financial records for ED Finance Division; maintain accounting records of collection activity for borrowers repaying loans to U.S. Government; generate managerial and statistical reports; determine a borrower's default status; verify payments applied toward defaulted student loans; update file and correct errors.

SAFEGUARDS:

Direct access is restricted to authorized OSFA staff or contracted personnel.

RETENTION AND DISPOSAL:

Retained indefinitely.

SYSTEM MANAGER(S) AND ADDRESS:

Director, Division of Program Operations, Room 4636, ROB No. 3, 7th and D Streets, S.W., Washington, D.C. 20202.

NOTIFICATION PROCEDURE:

Contact system manager for general inquiries supplying name, social security number and date of birth at address in preceding paragraph.

RECORD ACCESS PROCEDURES:

If an individual wishes to gain access to a record in this system, he or she should contact the system manager and provide information as described in the notification procedure.

CONTESTING RECORD PROCEDURES:

If an individual wishes to change the content of a record in the system of records, he or she should contact the system manager with the information described in the notification procedure, identify the specific items to be changed, and provide a written justification for the change.

RECORD SOURCE CATEGORIES:

Information is obtained from applications, correspondence, medical records, necessary legal documentation, and reports from borrowers and their families, lenders, schools, medical reports, employers, credit agencies, and Federal and State governmental agencies.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None.

SYSTEM NAME:

Guaranteed Loan Program—Pre Claims Assistance. ED/OPSE/OSFA.

SECURITY CLASSIFICATION:

None.

SYSTEM LOCATION:

903 S. Hyland Street, Arlington, VA 11104; 7980 Gallows Court, Vienna, VA 22180.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Borrowers under Title IV-B of the Higher Education Act of 1965 whose lending institutions have reported them to be delinquent in their repayments, or of unknown present addresses.

CATEGORIES OF RECORDS IN THE SYSTEM:

Contains name of borrower, social security number, address, amount of outstanding loans including interest, name and address of parent or nearest relative, record actions taken.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Higher Education Act of 1965, Title IV-B, as amended (20 U.S.C. 1071-1087-4).

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES FOR USES:

The information may be furnished to Federal, State, or local agencies, to private parties such as relatives, present and former employers, business and personal associates, to guarantee agencies, to educational and financial institutions, to credit bureaus and collection agencies, and to agency contractors, in order to verify the identity of the applicant, to determine program eligibility and benefits, to enforce the conditions or terms of the loan, to permit servicing or collecting of the loan, to counsel the borrower in repayment efforts, to investigate possible fraud and verify compliance with program regulations, or to locate a delinquent or defaulted borrower. To contractors for issuance of collection letters; to credit company contractors for skip tracing, in-file history information, assets and ability to pay; to Internal Revenue Service for last Known address; to Postal Service for last known address; to General Accounting Office of possible pre-litigation collection service and audit; to Department of Justice for possible legal action; to Federal Bureau of Investigation in performance of investigation into possible fraud cases; to State Department of Motor Vehicles for last known address; to State Bureau of Vital Statistics for verification of death; to mortgage companies for credit checks; to educational agencies or institutions against which a complaint has been made; to other lenders in the program making inquiries about the defaulted students who may have been denied additonal loans; to other Federal agencies requesting information as to the repayment history of the defaulted account; to the State Department for last known address abroad; to contractors to update records and correct errors; to State Guarantee Agencies requesting borrower information; and for uses in the Departmental Regulations (34 CFR Part 5b, Appendix B, items 1, 3, 4, 5, 6, 8, and 9). Disclosure may be made to a Congressional office from the record of an individual in response to an inquiry from the Congressional office made at the request of that individual. In the event of litigation where one of the parties is (a) the Department, any component of the Department, or any employee of the Department in his or her official capacity; (b) the United States where the Department determines that the claim, if successful, is likely to directly affect the operations of the Department or any of its components; or (c) any Department employee in his or her individual capacity where the Justice Department has agreed to represent such employee, the Department may disclose such records as it deems desirable or necessary to the Department of Justice to enable that Department to effectively represent such party, provided such disclosure is compatible with purpose for which the records were collected.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

The file is maintained on magnetic tape/disk packs in a library room area at the location at the beginning of this system (18-40-0031).

RETRIEVABILITY:

The file is indexed by social security or other I.D. number. Data are utilized to provide OSFA staff with statistical and managerial reports; to provide the Office of Inspector General with data in possible cases of fraud or irregularities. Other uses by OSFA staff are to identify delinquent borrowers; locate and contact delinquent borrowers; maintain current address of delinquent borrowers; assist lending institutions in

having delinquent borrowers commence repayment of educational loan; update records and correct errors.

SAFEGUARDS:

Direct access is restricted to authorized OSFA staff or contracted personnel.

RETENTION AND DISPOSAL:

Retained indefinitely.

18-40-0034

SYSTEM NAME:

Teacher Corps Application For Intern Teacher Position. ED/OERI/EPDD.

SECURITY CLASSIFICATION:

None.

SYSTEM LOCATION:

Records previously contracted out, and maintained in four locations, have been transferred to Washington and are located at: Department of Education, Room 1725, Donohoe, 400 Maryland Avenue, SW., Washington, D.C. 20202.

Inquiries concerning Teachers Corps intern positions should be sent to: Intern Recruitment Unit, Teacher Corps, Department of Education, 400 Maryland Avenue, SW., Washington, D.C. 20202.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

People who submit applications to be members (interns) of Teacher Corps projects.

CATEGORIES OF RECORDS IN THE SYSTEM:

An application form containing basic demographic data, education and employment histories and motivation statements, and any other information provided by the applicant is filed alphabetically by name in the Center to which it is sent by the applicant.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

20 U.S. Code, Sections 1101 through 1107a.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF USES:

To Teacher Corps project grantees who are considering the applicants for selection as interns. To State departments of education for verification of eligibility of the applicant for teacher certification programs. When requested by applicant, to potential employers or managers of other teachers training or social service programs. Disclosure may be made to a Congressional office from the record of an individual in response to an inquiry from the Congressional office made at the request of that individual. In the event of litigation where one of the parties is (a) the Department, any component of the Department, or any employee of the Department in his or her official capacity; (b) the United States where the Department determines that the claim, if successful, is likely to directly affect the operations of the Department or any of its components; or (c) any Department employee in his or her individual capacity where the Justice Department has agreed to represent such employee, the Department may disclose such records as it deems desirable or necessary to the Department of Justice to enable that Department to effectively represent such party, provided such disclosure is compatible with the purpose for which the records were collected.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

The profile sheets are kept in a file cabinet.

RETRIEVABILITY:

Files are established when each application is received and placed alphabetically in file cabinets. Recruitment Center staff analyze the data on the application forms, prepare a summary sheet, and either notify applicant of ineligibility for Teachers Corps membership, or refer them to the local selection panels for which they would qualify. These Center staff refer to these files in answering subsequent inquiries concerning application status from Teacher Corps projects and from applicants.

SAFEGUARDS:

Direct access is limited to Recruitment and Technical Resources Center staff and to national office Teacher Corps staff. Access to room in which file cabinet is maintained is limited during non-working hours to those with keys to the room. Exception: Subject to disclosure requirements of the Privacy Act.

RETENTION AND DISPOSAL:

Applications are held for one year, being disposed of when selections are completed annually by all new Teacher Corps projects. Disposal is through regular refuse services.

SYSTEM MANAGER(S) AND ADDRESS:

Associate Director, Development, Department of Education, Teacher Corps, 400 Maryland Avenue SW., Washington, D.C. 20202.

NOTIFICATION PROCEDURE:

System manager (address in preceding paragraph) will respond to inquires, or

applicants can write directly to the Center to which the application was originally sent. Requesters should list their name and address and the date of their application for membership in Teacher Corps.

RECORD ACCESS PROCEDURE:

See information under "Retrievability."

CONTESTING RECORD PROCEDURE:

See information under "Notification Procedures."

RECORD SOURCE CATEGORIES:

All information on the application form is provided by the applicant.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

SYSTEM NAME:

Oral History of the Office of Education as dictated by former Commissioners of Education. ED/OL

SECURITY CLASSIFICATION:

None.

SYSTEM LOCATION:

400 Maryland Avenue SW., Washington, D.C. 20202.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Living former U.S. Commissioners of Education.

CATEGORIES OF RECORDS IN THE SYSTEM:

Information about the individual's life as Commissioner and about OE during his term of office.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

44 U.S.C. 3101.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

To those involved in publishing (including the Government Printing Office) for production of final document; to the Department of Justice for Freedom of Information Act consultation; under subpoena by any administrative agency. To answer inquiries from the National Archives, and from government libraries. For uses in the Departmental Regulations (34 CFR Part 5b, Appendix B, items 1, 2, 3, 5, 6, 8, 9, 10). Disclosure may be made to organizations deemed qualified by the Secretary to carry out quality assessment, medical audits or utilization review. Disclosure may be made to a Congressional office from the record of an individual in response to an inquiry from the Congressional office made at the request of that individual. In the event of litigation where one of the parties is (a) the Department, any component of the Department, or any employee of the Department in his or her official capacity; (b) the United States where the Department determines that the claim, if successful, is likely to directly affect the operations of the Department or any of its components; or (c) any Department employee in his or her individual capacity where the Justice Department has agreed to represent such employee, the Department may disclose such records as it deems desirable or necessary to the Department of Justice to enable that Department to effectively represent such party, provided such disclosure is compatible with the purpose for which the records were collected.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

The records are maintained on paper and on magnetic tape and are filed in a standard file cabinet.

RETRIEVABILITY:

By name by the system manager or staff for the purpose of obtaining the approval of former Commissioners; after approval and release by former Commissioners the records may be retrieved as historical documents by system manager or staff.

SAFEGUARDS:

Records may be placed in the National Archives under seal upon threat of disclosure. Exceptions: Subject to disclosure requirements of the Privacy Act.

RETENTION AND DISPOSAL:

All background material will be disposed of 5 years after publication of the final document. There records may be destroyed by maceration, burning, or other appropriate means.

SYSTEM MANAGER(S) AND ADDRESS:

Office of Legislation, Room 4119, FOB No. 6, 400 Maryland Avenue SW., Washington, D.C. 20202.

SYSTEM NAME:

Guaranteed Loan Program—Insurance Claim File. ED/OPSE/OSFA

SECURTIY CLASSIFICATION:

None.

SYSTEM LOCATION:

See Appendix EOE 2 of this system (18-40-0044).

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Borrowers under Higher Education Act of 1965, Title IV-B on whose accounts the Federal Government has been requested to pay a claim by lenders, because of default, bankruptcy, death or disability.

CATEGORIES OF RECORDS IN THE SYSTEM:

Loan history, including name, social security number, and last known address of borrower, date borrower ceased at least half-time study, reason for claim, date first payment due, date and amount of loan, and amount of claim. Loan documents, including promissory notes, disclosures statement, repayment agreements, payment history, loan application and copies of correspondence between lender and borrower.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Higher Education Act of 1965, Title IV-B, as amended (20 USC 1071-1087-4).

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES FOR USES:

The informaion may be furnished to Federal, State, or local agencies, to private parties such as relatives, present and former employers, business and personal associates, to guarantee agencies, to educational and financial institutions, to credit bureaus and collection agencies, and to agency contractors, in order to verify the identity of the applicant, to determine program eligibility and benefits, to enforce the conditions or terms of the loan, to counsel the borrower in repayment efforts, to investigate

V 46 / 105 JE 2 81 UMI

possible fraud and verify compliance with program regulations, or to locate a delinquent or defaulted borrower. To the Department of Justice for possible legal action, to the Department of Justice for Freedom of Information Act consultation; and to General Accounting Office auditors checking program operation. Disclosure may be made to a Congressional office from the record of an individual in response to an inquiry from the Congressional office made at the request of that individual. In the event of litigation where one of the parties is (a) the Department, any component of the Department, or any employee of the Department in his or her official capacity; (b) the United States where the Department determines that the claim, if successful, is likely to directly affect the operations of the Department or any of its compounts; or (c) any Department employee in his or her individual capacity where the Justice Department has agreed to represent such employee, the Department may disclose such records as it deems desirable or necessary to the Department of Justice to enable that Department to effectively represent such party, provided such disclosure is compatible with the purpose for which the records were collected.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

RETRIEVABILITY:

By name and batch number. The files are used by the Claims Examiners to provide documentation on insurance claims by lenders of the Federal Government. The copies are retained for recordkeeping and cross-referencing purposes. Records are available to regional collection staff to aid them in locating borrowers and setting up repayment schedules. They are also available to ED auditors checking program operation.

SAFEGUARDS:

Records are stored in locked file cabinets or in locked rooms after working hours with access by authorized agency personnel. Exception: Subject to disclosure requirements of the Privacy Act.

RETENTION AND DISPOSAL:

Claim files are retained pending payment of claims which usually takes 60 to 90 days. When paid, the files are transferred to the collection staff in the appropriate regional office, depending on the present location of the borrower. The alphabetical and batch files are retained for five (5) years beyond payment of claim. Disposal by maceration.

SYSTEM MANAGER(S) AND ADDRESS:

See Appendix EOE 2 of this system (18–40–0044).

NOTIFICATION PROCEDURE:

To Commission on Presidential Scholars for historical archives and current data to be used for annual selection of scholars; to authorized agency officials and employees as well as contracting officers which change yearly for arrangements for Presidential Scholars activities during their visit to Washington, D.C. to authorized agency officials and employees for public affairs, press releases, etc. Disclosure may be made to a Congressional office from the record of an individual in response to an inquiry from the Congressional office made at the request of that individual. In the event of litigation where one of the parties is (a) the Department, any component of the Department, or any employee of the Department in his or her official capacity; (b) the United States where the Department determines that the claim, if successful, is likely to directly affect the operations of the Department or any of its components; or (c) any

Department employee in his or her individual capacity where the Justice Department has agreed to represent such employee, the Department may disclose such records as it seems desirable or necessary to the Department of Justice to enable that Department to effectively represent such party, provided such disclosure is compatible with the purpose for which the records were collected.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Records are kept in file cabinets in paper files.

RETRIEVABILITY:

By name, State, and year of selection.

SAFEGUARDS:

Used only by authorized personnel for specific purposes with permission of individual whose name is on file.

RETENTION AND DISPOSAL:

Records are maintained indefinitely.

SYSTEM MANAGER(S) AND ADDRESS:

Deputy Director, Office of Gifted and Talented, Education Department, Room 3831, Donohoe Building, 400 Maryland Avenue SW., Washington, D.C. 20202

NOTIFICATION PROCEDURES:

Contact system manager. Requester should provide name, address, system ID, and system name.

RECORD ACCESS PROCEDURES:

Contact system manager.

CONTESTING RECORD PROCEDURES:

Contact system manager.

RECORD SOURCE CATEGORIES:

Individuals submit information by answering a questionnaire. College Entrance Examination Board supplies test scores and answers to questionnaires. Recommendations from school principal submitted with permission of applicant. References are submitted on approved forms.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None.

18-40-0078

SYSTEM NAME:

Fellowships for Indian Students—Applications and Awards. ED/OESE/OIE

SECURITY CLASSIFICATION:

None.

SYSTEM LOCATION:

Office of Indian Education, Room 2177, FOB No. 6, 400 Maryland Avenue SW., Washington, D.C. 20202.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

American Indians who are citizens of the United States or residents of the United States for other than a temporary purpose, who have been accepted by institutions of higher education in a program leading to an undergraduate or graduate degree in the fields of Business Administration, Engineering and Natural Resources or related fields, and graduate degree in the fields of education, law and medicine or related fields, and who have applied to ED's Office of Indian Education for a fellowship.

CATEGORIES OF RECORDS IN THE SYSTEM:

Name, address, phone number, date and place of birth, tribal affiliation, tribal roll number, social security number, sex, marital status, citizenship, names of dependents, educational background, employment background, educational transcripts, references, income information, admission test scores.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Indian Education Act of 1972, as amended, Pub. L. 92-318, Part B, Section 423.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

Information may be released to members of the National Advisory Council on Indian Education. For routine uses contained in the Departmental Regulations (34 CFR Part 5b, Appendix B, items 1 through 9); for Field Readers for the purpose of determining eligibility and recommending awardees; selected data for developing brochures describing the Fellows and their career goals for public information purposes; and to Congressional officers in response to inquiries from those offices made at the request of individuals on whom records are kept. In the event of litigation where one of the parties is (a) the Department, any component of the Department, or any employee of the Department in his or her official capacity; (b) the United States where the Department determines that the claim, if successful, is likely to directly affect the operations of the Department or any of its components; or (c) any Department employee in his or her individual capacity where the Justice Department has agreed to represent such employee, the Department may disclose such records as it deems desirable or necessary to the Department of Justice to enable that Department to effectively represent such party, provided such disclosure is compatible with the purpose for which the records were collected.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

The records are maintained in hard-copy, filed in locked standard file cabinets.

RETRIEVABILITY:

Records are accessed by individual names only by ED authorized staff and Field Readers for the purposes of determining eligibility; selecting Fellows; establishing allowances for stipends, dependents, tuition, and other expenses; determining continued eligibility; and developing profile information regarding recipients of fellowships for program evaluation, planning, reporting and publicity purposes.

RETENTION AND DISPOSAL:

Records on fellowship holders are sent to the Federal Records Center six months after final payment. They are destroyed by the Federal Records Center three years after final payment. Records on alternates are maintained for one year. They are then sent to the Federal Records Center where they are destroyed one year later. Application forms from applicants not selected as Fellows or alternates are returned to the applicant. Other records on these applicants, containing information on the selection procedure, are maintained for one year and then sent to the Federal Records Center where they are destroyed three years later.

SYSTEM MANAGER(S) AND ADDRESS:

Deputy Assistant Secretary, Office of Indian Education, ATTN: Education Program Specialist for Fellowships, Room 2177, FOB No. 6, 400 Maryland Avenue SW., Washington, D.C. 20202.

NOTIFICATION PROCEDURE:

Contact Education Program Specialist for Fellowships.

RECORD ACCESS PROCEDURES:

Contact Education Program Specialist for Fellowships.

CONTESTING RECORD PROCEDURES:

Contact Education Program Specialist for Fellowships.

RECORD SOURCE CATEGORIES:

Information is submitted by the individual applicant on approved forms. References are submitted on approved forms.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None.

18-40-0079

SYSTEM NAME:

Potential and Actual Consultant, Field Reader, and Site Visitor Files, Indexes, and Lists. ED.

SECURITY CLASSIFICATION:

None.

SYSTEM LOCATION:

See Appendix I of this system (18-40-0079).

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Actual and prospective consultants, field readers, or site visitors used by the Department of Education to evaluate grant proposals, performance of grantees or contractors.

CATEGORIES OF RECORDS IN THE SYSTEM:

Names of consultant, field reader, and site visitor addresses, position, institutional affiliation (if any), curriculum vitae (where necessary), social security number for reimbursement purposes, reimbursement information, areas of individual expertise, tracking of assignments and appraisal of effort.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

(20 U.S.C. 1221e-3). Information is provided by persons interested in participating on a voluntary basis.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

To general public, on request, list of names and business addresses of potential and/or actual consultants, field readers, or site visitors. For uses as stated in 34 CFR Part 5b, Appendix B, items 1, 3, 4, 5, 6, 7, 8, and 9. Disclosure may be made to a Congressional office from the record of an individual in response to an inquiry from the Congressional office made at the request of that individual. In the event of litigation where one of the parties is (a) the Department, any component of the Department, or any employee of the Department in his or her official capacity; (b) the United States where the Department determines that the claim, if successful, is likely to directly affect the operations of the Department or any of its components; or (c) any Department employee in his or her individual capacity where the Justice Department has agreed to represent such employee, the Department may disclose such records as it deems desirable or necessary to the Department of Justice to enable that Department to effectively represent such party, provided such disclosure is compatible with the purpose for which the records were collected.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

File folders in file cabinets or card files with pertinent data, and (in limited locations) computer data based tapes and disks.

RETRIEVABILITY:

By name, expertise, or social security number of potential or actual consultant, reader, or site visitor. Records are used to ensure that a fair, equal, and qualified group of consultants, readers, or site visitors is selected to review proposals or evaluate performances.

SAFEGUARDS:

Direct access is restricted to persons designated by systems managers to be responsible for maintenance of file or selection of panels of consultants, readers, or site visitors. Automated locations are protected by requiring a password as well as a key lock on the terminal.

RETENTION AND DISPOSAL:

Destroy after five years (Item 25 OE Records Control Schedule).

SYSTEM MANAGER(S) AND ADDRESS:

See Appendix I.

NOTIFICATION PROCEDURE:

Contact system manager of pertinent organizational component(s). Provide name and approximate date of previous correspondence. Additional verifying data (such as birthdate, home address) may be requested.

RECORD ACCESS PROCEDURES:

Contact system manager as above.

CONTESTING RECORD PROCEDURES:

Contact system manager as above.

RECORD SOURCE CATEGORIES:

Information forwarded voluntarily by individuals interested in serving as consultants, readers, or site visitors, obtained by contacting individuals with specific expertise in the pertinent discipline of each system manager.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None.

18–40–0080

SYSTEM NAME:

Training and Development Awards for Vocational Education Personnel—Applications and Awards. ED/OVAE.

SECURITY CLASSIFICATION:

None.

SYSTEM LOCATION:

ROB No. 3, Room 5636, 7th and D Streets SW., Washington, D.C. 20202

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Persons who wish to participate in Federal vocational education fellowship programs and who voluntarily submit personal information.

CATEGORIES OF RECORDS IN THE SYSTEM:

Name, address, phone number, date of birth, sex, educational background, employment background, educational transcript, references, test scores, minority group membership, State board recommendations, communication skills; for Leadership Development Awards, special leadership qualifications, management skills, leadersip potential; for Teacher Certification Awards, certification requirements, certification status, human relation skills, and vocational skills.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Vocational Education Act of 1963, Title I, Part B, Subpart 2, Section 172, as amended by the Education Amendments of 1976, Pub. L. 94–482, Title II.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF USES:

For routine uses contained in 34 CFR Part 5b, Appendix B, items 1 through 9; for Field Readers for the purposes of determining eligibility and recommending awardees; selected data for developing brochures describing the Fellows and their career goals for public information purposes; and to Congressional offices in response to inquiries from those offices made at the request of individuals on whom records are kept. A copy of the application is forwarded for review purposes to the institution of higher education to which the awardee is assigned and to the State Board of the State in which the applicant resides. In the event of litigation where one of the parties is (a) the Department, any component of the Department, or any employee of the Department in his or her official capacity; (b) the United States where the Department determines that the claim, if successful, is likely to affect directly the operations of the Department or any of its components; or (c) any Department employee in his or her individual capacity where the Justice Department has agreed to represent the employee, the Department may disclose the records as it deems desirable or necessary to the Department of Justice to enable that Department to effectively represent the party, provided the disclosure is compatible with the purpose for which the records were collected.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

The records are mintained in hard-copy, filed in locked standard file cabinets.

RETRIEVABILITY:

Records are accessed by individual names only by authorized ED staff and Field Readers for the purposes of: determining eligibility; selecting Fellows; establishing allowances for stipends, dependents, tuition, and other expenses; determining continued eligibility; and the developing profile information regarding recipients of fellowships for program evaluation, planning, reporting and publicity purposes.

SAFEGUARDS:

Direct access is restricted to authorized ED staff.

RETENTION AND DISPOSAL:

Records on fellowship holders are sent to the Federal Records Center six months after final payment. They are destroyed by the Federal Records Center three years after final payment. Records on alternates are maintained for two years for Teacher Certification Awards and three years for Leadership Development Awards. They are then sent to the Federal Records Center where they are destroyed one year later. Application forms from applicants not selected as Fellows or alternates are returned to the applicant. Other records on these applications, containing information on the selection procedures, are maintained for one year and then destroyed.

SYSTEM MANAGER(S) AND ADDRESS:

Chief, Personnel Development Branch, Office of Vocational and Adult Education, ROB–3, Room 5636, 400 Maryland Avenue SW., Washington, D.C. 20202.

NOTIFICATION PROCEDURE:

An individual should provide his or her name to the system manager in order to verify whether his or her application is in the system.

RECORD ACCESS PROCEDURE:

An individual who is interested in seeing his or her application should contact the system manager, and be prepared to verfiy his or her identify to the system manager.

CONTESTING RECORD PROCEDURE:

An individual who wishes to contest the contents of an application file in his

or her system should contact the system manager, identify the portion of the application to be changed, and provide written justification and authorization for the change.

RECORD SOURCE CATEGORIES:

Information is submitted by the individual applicant on approved forms. References are attached to applications.

SYSTEMS EXEMPTED FROM CERTAIN PROVISONS OF THE ACT:

None.

18-40-0081

SYSTEM NAME:

Women Administrators in Vocational Education. ED/OVAE.

SECURITY CLASSIFICATION:

None.

SYSTEM LOCATION:

The National Center for Research in Vocational Education, The Ohio State University, 1960 Kenny Road, Columbus, Ohio 43210.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Women administrators of vocational education programs who voluntarily submit personal information to be published in a Directory of Women Administrators in Vocational Education. A panel of six vocational education administrators representing two State educational agencies, two local educational agencies, universities/colleges, and junior/community colleges/technial institutes will choose which individuals to invite to submit information for publication in the directory.

CATEGORIES OF RECORDS IN THE SYSTEM:

Name, job title; employing organization; size of budget administered; number of vocational programs, students, and teachers supervised; school district serving; percentage of time devoted to administering a vocational-technical education program; number of years in present position; highest level of education; specialized training in administration; area of expertise; experience in policymaking and decisionmaking; and membership in professional administration associations. All information in this system will become public information.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Section 171(a)(1) and (2) of the Vocational Education Act of 1963 as amended by Section 202(a) of Pub. L. 94-482. Information is provided voluntarily. Failure to provide the information would result in the individual not being included in the directory.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF USES:

As all information in this system will be public, and not subject to disclosure accounting (34 CFR 5b.9(c)), there are no routine use disclosures.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

The directory will be printed and distributed to the Department of Education, members of the Directory Selection Criteria Panel, ERIC, and staff of the National Center for Research in Vocational Education. The directory will also be made available to the vocational education community and other interested persons on a cost-recovery basis through the National Center for Research in Vocational Education Publication Department. Survey forms will be stored in standard file cabinets and on magnetic tape.

RETRIEVABILITY:

ED, its contractor, and other users retrieve information by name of an individual. The users will utilize information to identify and contact respondents whose skills and experience might qualify them for job opportunities, or to participate in meetings on vocational education.

SAFEGUARDS:

Only authorized contractor employees, or employees of ED, will have access to individual data in the system. The contractor will maintain information in accordance with NBS and departmental ADP security standards. This limited access will serve to protect the integrity of individual data in the system.

RETENTION AND DISPOSAL:

ED will maintain hard copy until the information is obsolete. ED will maintain magnetic tapes until the contractor updates the directory. Then, the tapes are destroyed.

SYSTEM MANAGER(S) AND ADDRESS:

Project Director for Director of Women Administrators, Research Branch, Office of Vocational and Adult Education, Room 5018, ROB No. 3, 7th and D Streets, SW., Washington, D.C. 20202.

NOTIFICATION PROCEDURE:

In order to determine whether a record exists in the system of records under her name an individual should either consult the directory or contact the system manager at the above address, and provide her name.

RECORD ACCESS PROCEDURES:

An individual interested in seeing her record should contact the system manager, provide her name, and reasonably specify the record contents being sought.

CONTESTING RECORD PROCEDURES:

An individual who wishes to contest the content of a record in the system should contact the system manager, identify herself, and state, in writing, which portion of the record should be changed. The individual should also provide a justification and authorization for the change.

RECORD SOURCE CATEGORIES:

Individuals will provide necessary information directly to the Department of Education and its contractor on a voluntary basis.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None.

18-40-0082

SYSTEM NAME:

Health Education Assistance Loan Program (HEAL) Loan Control Master File. ED/OPSE/OSFA

SECURITY CLASSIFICATION:

None.

SYSTEM LOCATION:

Room 3674, ROB No. 3, 7th and D Streets, SW., Washington, D.C. 20202.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Students applying for health education assistance loans or borrowers having received educational loans under the provisions of the HEAL Program.

CATEGORIES OF RECORDS IN THE SYSTEM:

Contains name, social security number or other identifying number, birthdate, demographic background, educational status, loan location and status, financial information about the individual for whom the record is maintained. Contains lender and school identification.

AUTHORITY FOR MAINTENANCE OF THE SYTEM:

Title VII, Part C, Subpart I of the Public Health Service Act (42 U.S.C. 294-2941).

V 46 / 105 JUN 2 1981 UMI

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF USES:

The information may be provided by ED to Federal, State, or local agencies, to private parties such as relatives, present and former employers business and personal associates, to guarantee agencies, to educational and financial institutions, to credit bureaus and collection agencies, and to agency contractors, in order to verify the identity of the applicant, to determine program eligibility and benefits, to enforce the conditions or terms of the loan, to permit servicing or collecting of the loan, to counsel the borrower in repayment efforts, to investigate possible fraud and abuse and to verify compliance with program regulations, or to locate a delinquent or defaulted borrower. The information may be provided by ED to an educational agency or lending institution against which a complaint has been made; and for uses in the Departmental Regulations (34 CFR Part 5b, Appendix B, items 1, 3, 4, 5, 6, 8, and 9). Disclosure may be made by ED to a Congressional office from the record of an individual in response to an inquiry from the Congressional office made at the request of that individual. In the event of litigation where one of the parties is (a) the Department, any component of the Department, or any employee of the Department in his or her official capacity; (b) the United States where the Department determines that the claim, if successful, is likely to directly affect the operations of the Department or any of its components; or (c) any Department employee in his or her individual capacity where the Justice Department has agreed to represent such employee, the Department may disclose such records as it deems desirable or necessary to the Department of Justice to enable that Department to effectively represent such party, provided such disclosure is compatible with the purpose for which the records were collected.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

ED maintains the file on magnetic tape and disk packs in a library room at the location noted at the beginning of this system (18–40–0082). A microfilm file will be kept in the same location and stored in a file cabinet.

RETRIEVABILITY:

ED retrieves information by social security number or other identifying number. Data are utilized to provide HEAL Program staff with statistical and managerial reports. Other uses by HEAL staff include: to identify students participating in the HEAL Program; to determine eligibility of loan applicants; to determine loan status of borrower; to compute insurance premium for Federal insurance; to compile and generate managerial and statistical reports; to update file and correct errors.

SAFEGUARDS:

HEAL screens authorized contractor personnel. Contractor will maintain automated data in accordance with provisions of departmental ADP systems security standards. Direct access is restricted to authorized staff in performance of official duties. Maintained in locked cabinets.

RETENTION AND DISPOSAL:

ED retains information as long as the loan is unpaid. At the time of full payment ED will erase computer tapes and destroy all paperwork.

SYSTEM MANAGER(S) AND ADDRESS:

Director, Division of Policy and Program Development, Room 4100, ROB No. 3, 7th and D Streets, SW., Washington, D.C. 20202.

NOTIFICATION PROCEDURE:

An individual should contact the system manager to determine whether a record exists for him or her. The individual should supply name, date of birth, and social security number or other identifying number whichever is appropriate.

RECORD ACCESS PROCEDURES:

An individual who is interested in seeing his or her record should contact the system manager, provide the information listed in notification procedure, and reasonably specify the record contents being sought.

CONTESTING RECORD PROCEDURES:

An individual who wishes to contest the content of his or her record in this system should contact the system manager, identify himself or herself and state, in writing, which portion of the record should be changed and provide a justification and authorization for the change.

RECORD SOURCE CATERGORIES:

ED obtains information from applications, correspondence, medical records, necessary legal documentation, and reports from borrowers and their families, lenders, schools, medical reports, employers, credit agencies, and Federal and State government agencies.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None.

18–42–0016

SYSTEM NAME:

Northwest Regional Educational Laboratory, Experienced Based Career Education Record System. ED/NIE.

SECURITY CLASSIFICATION:

None.

SYSTEM LOCATION:

333 Oak Street, Portland, Oregon 97204.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Students, parents, employers, adopters, potential adopters involved with the EBCE program.

CATEGORIES OF RECORDS IN THE SYSTEM:

System includes information on aptitude, achievement, student background, family background, attitudinal, interest, opinion, descriptive data on employer businesses, descriptive data on school districts, activity records.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Section 405(e)(1) of the General Education Provisions Act.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF USES:

For transfer to cooperating school districts and to program participants (individually identifiable information for themselves only). To contractors for services and analysis of records by authorized personnel. In the event of litigation where one of the parties is (a) the Department, any component of the Department, or any employee of the Department in his or her official capacity; (b) the United States where the Department determines that the claim, if successful, is likely to directly affect the operations of the Department or any of its components; or (c) any Department employee in his or her individual capacity where the Justice Department has agreed to represent such employee, the Department may disclose such records as it deems desirable or necessary to the Department of Justice to enable that Department to effectively represent such party, provided such disclosure is compatible with the purpose for which the records were collected. Disclosure may be made to a Congressional office from the record of an individual in

response to an inquiry from the Congressional office made at the request of that individual.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Records can be retrieved by name (hard copy files) or assigned ID number (computer files) and are for monitoring progress of project-product development and for research, development, evaluation, and analysis of educational materials, projects, programs, including study of medium and long-term program effects.

SAFEGUARDS:

Access is limited to authorized personnel; locked file cabinets and building security are procedures used. Exception: Subject to disclosure requirements of the Privacy Act.

RETENTION AND DISPOSAL:

Not yet determined how long records will be kept in individually identifiable format.

SYSTEM MANAGER(S) AND ADDRESS:

Assistant Director, Home, Work, and Community, T and L, National Institute of Education, Washington, D.C. 20208.

NOTIFICATION PROCEDURE:

Written inquiries must be made to the system manager, address in preceding paragraph, and must include inquirer's name, address, dates of previous correspondence, the assigned system I.D. number and system name.

RECORD ACCESS PROCEDURES:

Same as notification procedures. Requesters should also reasonably specify the record contents being sought. (These access procedures are in accordance with Department regulations (34 CFR 5b.5(a)(2)) 45 FR 30808, May 9, 1980.

CONTESTING RECORD PROCEDURES:

Contact the official at the address specified under notification procedures, and reasonably identify the record and specify the information to be contested. (These procedures are in accordance with Department Regulations (34 CFR 5b.7), 45 FR 30810, May 9, 1980.)

RECORD SOURCE CATEGORIES:

Students, parents, school district, employers, adopters and potential adopters of EBCE program.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None.

Students, parents, employers, potential adopters, adopters.

CATEGORIES OF RECORDS IN THE SYSTEM:

Aptitude, achievement, student background, family background, attitudinal, interest, opinion, descriptive data on employer businesses, descriptive data on school districts, activity records.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Section 405(e)(1) of the General Education Provisions Act.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSE OF USES:

For transfer to cooperating school districts and to program participants (individually identifiable information for themselves only). To contractors for services and analysis of records by authorized personnel. In the event of litigation where one of the parties is (a) the Department, any component of the Department, or any employee of the Department in his or her official capacity; (b) the United States where the Department determines that the claim, if successful, is likely to directly affect the operations of the Department or any of its components; or (c) any Department employee in his or her individual capacity where the Justice Department has agreed to represent such employee, the Department may disclose such records as it deems desirable or necessary to the Department of Justice to enable that Department to effectively represent such party, provided such disclosure is compatible with the purpose for which the records were collected. Disclosure may be made to a Congressional office from the record of an individual in response to an inquiry from the Congressional office made at the request of that individual.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSITION OF RECORDS IN THE SYSTEM:

STORAGE:

Records are kept in standard file containers (hard copy), and on punch cards and magnetic tape.

RETRIEVABILITY:

Records can be retrieved by name (hard copy file) or assigned ID number (computer files) and are for monitoring progress of project/product development and for research, development, evaluation and analysis of educational materials, projects, programs, including study of medium and long term program effects.

SAFEGUARDS:

Access limited to authorized personnel; records kept in locked cabinets and buildings with controlled access 24 hours a day. Exception: Subject to disclosure requirements of the Privacy Act.

RETENTION AND DISPOSAL:

Not yet determined how long records will be kept in individually identifiable format.

SYSTEM MANAGER(S) AND ADDRESS:

Assistant Director, Home, Work, and Community, T and L, National Institute of Education, Washington, D.C. 20208.

NOTIFICATION PROCEDURES:

Written inquiries must be made to the system manager, address in preceding paragraph, and must include inquirer's name, address, dates of previous correspondence, the assigned system I.D. number, and system name.

RECORD ACCESS PROCEDURES:

Same as notification procedures. Requesters should also reasonably specify the record contents being sought. (These access procedures are in accordance with Department Regulations (34 CFR 5b.5(a)(2)), 45 FR 30808; May 9, 1980).

CONTESTING RECORD PROCEDURES:

Contact the official at the address specified under notification procedure, and reasonably identify the record and specify the information to be contested. (These procedures are in accordance with Department Regulations (34 CFR, 5b.7) 45 FR 30810, May 9, 1980).

RECORD SOURCE CATEGORIES:

Students, parents, school districts, employers, adopters and potential adopters of EBCE Porgram.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None.

18-42-0056

SYSTEM NAME:

National Institute of Education, Sources and Effects of Teacher Expectations. ED/OERI/NIE.

SECURITY CLASSIFICATION:

None.

SYSTEM LOCATION:

1200 19th Street, NW., Washington, D.C. 20208.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Seven first grade teachers and their 196 students in the Washington, D.C. area.

CATEGORIES OF RECORDS IN THE SYSTEM:

Cross sectional and longitudinal records on teachers' expectations, background, behaviors, and students' interactions, grades. SES, parental involvement. For use in determing the effects of teachers expectations on student achievement gains.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Section 405(e)(1) of the General Education Provisions Act.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF USES:

To contractors for services and analysis of the records to authorized personnel. In the event of litigation where one of the parties is (a) the Department, any component of the Department, or any employee of the Department in his or her official capacity; (b) the United States where the Department determines that the claim, if successful, is likely to directly affect the operations of the Department or any of its components; or (c) any Department employee in his or her individual capacity where the Justice Department has agreed to represent such employee, the Department may disclose such records as it deems desirable or necessary to the Department of Justice to enable that Department to effectively represent such party, provided such disclosure is compatible with the purpose for which the records were collected. Disclosure may be made to a Congressional office from the record of an individual in response to an inquiry from the Congressional office made at the request of that individual.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

The data are stored on magnetic tape which is stored in a locked filing cabinet.

RETRIEVABILITY:

The data are indexed by teachers', students' and principals' names. Identifiers are coded, and kept separate in a locked file from the master tapes. The data are used by members of the program staff to identify effective teacher behaviors. They are collected for statistical purposes only, and not for the determination of any individual's benefits or entitlements.

SAFEGUARDS:

Tapes are coded and kept in locked room. Access is to authorized personnel only. Exception: Subject to disclosure requirements of the Privacy Act.

RETENTION AND DISPOSAL:

NIE will maintain the list of names until June 1981, at which time NIE will archieve the data without personally identifiable information, and will destroy the list of names.

SYSTEM MANAGER(S) AND ADDRESS:

Associate Director, Teaching and Learning, Room 819, 1200 19th Street, NW., Washington, D.C. 20208.

NOTIFICATION PROCEDURE:

Written inquiries must be made to the system manager at the address in the preceding paragraph and must include the inquirer's name and address, dates of previous correspondence, and the system ID number and name.

RECORD ACCESS PROCEDURES:

Same as notification procedures. Requesters should also reasonably specify the record contents being sought. (These access procedures are in accordance with Department Regulations (34 CFR 5b.5(a)(2)). 45 FR 30808, May 9, 1980).

CONTESTING RECORD PROCEDURES:

Contact the offical at the address specified under notification procedures, and resonably identify the record and specify the information to be contested. (These procedures are in accordance with Department Regulations (34 CFR, 5b.7) 45 FR 30810, May 9, 1980).

RECORD SOURCE CATEGORIES:

Interviews, questionaires of participants in the sample, and observations during testing. All data were furnished voluntarily.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None.

18-42-0065

SYSTEM NAME:

NIE Outside Experts. ED/NIE.

SECURITY CLASSIFICATION:

None.

SYSTEM LOCATION:

Room 722, Brown Building, 1200 19th Street, NW., Washington, D.C. 20208.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Individuals who have been used as outside experts.

CATEGORIES OF RECORDS IN THE SYSTEM:

Name, department or title, institution, address, institutional category, academic discipline, type of work, year of birth, academic degrees and experience of individuals who have been used as outside experts, together with task(s) performed.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Section 405(e)(1) of the General Education Provisions Act.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF USES:

The data are used to prepare periodic lists of outside experts and the tasks they have performed and aggregate figures on categories of persons used. These lists and figures are used internally to monitor and improve NIE efforts to involve men and women covering a wide variety of institutions, disciplines, type of work, ethnic background, geographical location, and ages, in development and evaluation of its programs. In the event of litigation where one of the parties is (a) the Department, any component of the Department, or any employee of the Department in his or her official capacity; (b) the United States where the Department determines that the claim, if successful, is likely to directly affect the operations of the Department or any of its components; or (c) any Department employee in his or her individual capacity where the Justice Department has agreed to represent such employee, the Department may disclose such records as it deems desirable or necessary to the Department of Justice to enable that Department to effectively represent such party, provided such disclosure is compatible with the purpose for which the records were collected. Disclosure

may be made to a Congressional office from the record of an individual in response to an inquiry from the Congressional office made at the request of that individual.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

The records are maintained in computer disk files, with printouts as appropriate.

RETRIEVABILITY:

These lists and figures may be released as a matter of public interest; lists of names that may be made public do not indicate sex or ethnicity of individuals.

SAFEGUARDS:

Code number keys protect access to sensitive data. Exception: Subject to disclosure requirements of the Privacy Act.

RETENTION AND DISPOSAL:

Retained indefinitely.

SYSTEM MANAGER(S) AND ADDRESS:

Deputy Director for Management, Room 722, Brown Building, 1200 19th Street, N.W., Washington, D.C. 20208.

NOTIFICATION PROCEDURES:

System manager; for general inquiries, name, system name and I.D. number and date of previous correspondence is applicable. Address is in preceding paragraph.

RECORD ACCESS PROCEDURES:

Same as notification procedures. Requesters should also reasonably specify the record contents being sought. (These access procedures are in accordance with Department Regulations (34 CFR 5b.5(a)(2)), 45 FR 30809, May 9, 1980).

CONTESTING RECORD PROCEDURES:

Contact the official at the address specified under notification procedures, and reasonably identify the record and specify the information to be contested. (These procedures are in accordance with Department Regulations (34 CFR, 5b.7) 45 FR 30810, May 9, 1980).

RECORD SOURCE CATEGORIES:

Data compiled from published biographies or curriculum vitae provided voluntarily or as a condition for obtaining a contract or temporary personnel appointment. Sex and ethnicity are included when known.

SYSTEM NAME:

NIE Controlled Correspondence. ED/OERI/NIE.

SECURITY CLASSIFICATION:

None.

SYSTEM LOCATION:

Room 722, 1200 19th Street, N.W., Washington, D.C. 20208.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Members of the general public, members of Congress, members of the educational community and others who correspond on a variety of matters with the Institute.

CATEGORIES OF RECORDS IN THE SYSTEM:

Correspondence on a variety of matters including general inquiries, Congressional inquiries on behalf of constituents, unsolicited proposals, requests for program information, requests for staff assistance, inquiries on employment opportunities, and other matters.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Section 405(e)(1) of the General Education Provisions Act.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF USES:

For uses in the Departmental Regulations (34 CFR Part 5b, Appendix B, items 1 through 9). In the event of litigation where one of the parties is (a) the Department, any component of the Department, or any employee of the Department in his or her official capacity; (b) the United States where the Department determines that the claim, if successful, is likely to directly affect the operations of the Department or any of its components; or (c) any Department employee in his or her individual capacity where the Justice Department has agreed to represent such employee, the Department may disclose such records as it deems desirable or necessary to the Department of Justice to enable that Department to effectively represent such party, provided such disclosure is compatible with the purpose for which the records were collected. Disclosure may be made to a Congressional office from the record of an individual in response to an inquiry from the Congressional office made at the request of that individual.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Data are stored in cardex form and in folders in file cabinets.

RETRIEVABILITY:

Indexed by name, by State, and by subject matter. Data are utilized by authorized staff within the Institute in the performance of their duties.

SAFEGUARDS:

Access is limited to authorized personnel. Exception:

Subject to disclosure requirements of the Privacy Act.

RETENTION AND DISPOSAL:

All files are retained for two years and then boxed and forwarded to the Federal Records Center.

SYSTEM MANAGER(S) AND ADDRESS:

Executive Secretariat, Room 722, Brown Building, 1200 19th Street, N.W., Washington, D.C. 20208.

NOTIFICATION PROCEDURE:

Written inquiries must be made to the system manager, and must include inquirer's name, address, dates of previous correspondence, the system name, and I.D. number.

RECORD ACCESS PROCEDURES:

Same as notification procedures. Requesters should also reasonably specify the record contents being sought. (These access procedures are in accordance with Department Regulations (34 CFR 5b.5(a)(2)), 45 FR 30810, May 9, 1980).

RECORD SOURCE CATEGORIES:

Data are obtained from correspondence addressed to the Institute from a variety of sources including the general public, prospective contractors, members of Congress, and others.

SECURITY CLASSIFICATION:

None.

SYSTEM LOCATION:

Room 729, Brown Building, 1200 19th Street, N.W., Washington, D.C. 20208.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Members of various governmental agencies and the public.

CATEGORIES OF RECORDS IN THE SYSTEM:

Names and addresses of individuals receiving: minutes of Council meetings, resolutions adopted by the Council, lists of names and addresses of Council members (current), annual report of the Council, miscellaneous materials available for dissemination.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Section 405(b) of the General Education Provisions Act (20 U.S.C. 1221e(b)).

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

Dissemination of information resulting from the meetings of the National Council on Educational Research. In the event of litigation where one of the parties is (a) the Department, any component of the Department, or any employee of the Department in his or her official capacity; (b) the United States where the Department determines that the claim, if successful, is likely to directly affect the operations of the Department or any of its components; or (c) any Department employee in his or her individual capacity where the Justice Department has agreed to represent such employee, the Department may disclose such records as it deems desirable or necessary to the Department of Justice to enable that Department to effectively represent such party, provided such disclosure is compatible with the purpose for which the records were collected. Disclosure may be made to a Congressional office from the record of an individual in response to an inquiry from the Congressional office made at the request of that individual.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Correspondence files and the mailing lists are maintained in file folders in unlocked area.

RETRIEVABILITY:

Records are filed by name of correspondent and are used by authorized staff to disseminate information on Council activities.

SAFEGUARDS:

Access to mailing lists available only to authorized personnel. Exception: Subject to disclosure requirements of the Privacy Act.

RETENTION AND DISPOSAL:

Records maintained as long as mailing lists are active.

SYSTEM MANAGER(S) AND ADDRESS:

Chief, National Council on Educational Research Staff, Room 729, Brown Building, 1200 19th Street, N.W., Washington, D.C. 20208.

NOTIFICATION PROCEDURE:

Written inquiries must be made to the system manager, address in preceding paragraph, and must include inquirer's name, address, dates of previous correspondence, the assigned system I.D. number and system name.

RECORD ACCESS PROCEDURES:

Same as notification procedures. Requesters should also reasonably specify the record contents being sought. (These access procedures are in

accordance with Department Regulations (34 CFR 5b.5(a)(2)), 45 FR 30808, May 9, 1980).

CONTESTING RECORD PROCEDURES:

Contact the official at the address specified under notification procedures, and reasonably identify the record and specify the information to be contested. (These procedures are in accordance with Department Regulations (34 CFR 5b.7), 45 FR 30810, May 9, 1980).

RECORD SOURCE CATEGORIES:

From the correspondents themselves.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

Part III

Department of Commerce

International Trade Administration

Defense Priorities and Allocations System and Superseding the Existing Defense Materials System and Defense Priorities System

DEPARTMENT OF COMMERCE

International Trade Administration

15 CFR Parts 330–332, 340–343, 350, 351–354

Proposed Regulation Establishing the Defense Priorities and Allocations System and Superseding the Existing Defense Materials System and Defense Priorities System Regulations

AGENCY: Office of Industrial Mobilization, International Trade Administration, U.S. Department of Commerce.

ACTION: Proposed rulemaking and request for comments.

SUMMARY: The Defense Materials System (DMS) and the Defense Priorities System (DPS) have not been reviewed comprehensively since 1974.

The goal of this current review is to ensure that the priorities and allocations system is effective, efficient, easy to understand, and, most important, properly designed to meet the challenges likely to be faced in the future.

This notice provides proposed regulatory language which will supersede the existing DMS/DPS regulations and will establish in their place a new Defense Priorities and Allocations System regulation. This notice also sets forth procedures which the Office of Industrial Mobilization will follow in reviewing comments and in developing and promulgating the final regulation.

DATE: Comments by August 31, 1981.

ADDRESS: Iain S. Baird, Director, Priorities and Allocations Division, Room 4104, Office of Industrial Mobilization, U.S. Department of Commerce, Washington, D.C. 20230. Public record of this proposed regulation will be available at: ITA Freedom of Information Records Inspection Facility, Room 3012, U.S. Department of Commerce, 14th and Constitution Avenue, NW, Washington, D.C. 20230.

FOR FURTHER INFORMATION CONTACT: Iain S. Baird, Director, Priorities and Allocations Division, Room 4104, Office of Industrial Mobilization, U.S. Department of Commerce, Washington, D.C. 20230, (202) 377–2233.

SUPPLEMENTARY INFORMATION: The proposed regulation would establish a new Defense Priorities and Allocations System and would consolidate and supersede the regulations of the Defense Materials System (DMS) and the Defense Priorities System (DPS). Specifically, the following regulations, directions, orders, and notices of the DMS/DPS would be superseded by this proposed regulation:

DMS Reg. 1, Basic Rules of the Defense Materials System.
DMS Reg. 1, Direction 1, Self-Authorization Procedures for MRO Needed to Fill Mandatory Acceptance Orders.
DMS Reg. 1, Direction 2, Controlled Materials Producers and Distributors.
DMS Order 1, Iron and Nickel.
DMS Order 2, Nickel Alloys.
DMS Order 3, Aluminum.
DMS Order 4, Copper and Copper-Base Alloys.
DPS Reg. 1, Basic Rules of the Defense Priorities System.
DPS Reg. 2, Operation of the Priorities and Allocations System between Canada and the United States.
DPS Reg. 3, Compliance and Enforcement Procedures.
DPS Order 1, Metal Working Machines.
DPS Order 2, Nickel.
BDC Notice 1, Ratification of Bureau of Competitive Assessment and Business Policy Actions.
BDC Notice 2, Signature of Official DIBA/BDC Actions.
BDC Notice 3, Designation of BDC Action to be Taken Under the Authority of the Defense Production Act of 1950, as amended.

These regulations were published in Parts 621–662 of Title 32A of the Code of Federal Regulations. On July 1, 1980, Title 32A was abolished (45 FR 44574) and the DMS/DPS regulations were transferred into Title 15, Chapter III, Subchapter B, of the CFR, Parts 330–354.

On November 21, 1979, the Office of Industrial Mobilization published a notice in the **Federal Register** (44 FR 66846) announcing that a review of the DMS/DPS regulations was being undertaken. In response to that notice, several comments from both the government and private sectors were received and were considered in formulating this proposed regulation.

The basic purposes for the review and for the proposed revisions are: (1) to ensure that the regulation is clearly written, organized, and presented: (2) to provide for an efficient and effective priorities and allocations system; and (3) to implement responsibilities assigned to the Office of Industrial Mobilization. The existing regulations have been consolidated into one regulation in order to eliminate duplication.

Changes that are being proposed to the existing DMS/DPS regulations include the following:

1. The proposed regulation focuses on one audience, that is, the business community. Those responsibilities of government agencies currently contained in the DMS/DPS will be handled through separate delegations to those agencies rather than in the body of the regulation. Copies of such delegations (including the interagency agreements), now in draft form, will be appended to the final rules. As a result of this change in emphasis, the following provisions do not appear in the proposed regulation:

(a) Controlled materials allotments,

(b) Class A and Class B products,

(c) Delegate Agency responsibilities for developing controlled materials requirements data, and

(d) Many details on the relationship between the U.S. and Canadian Government priorities systems.

2. An introduction section is provided which sets forth an overview of the priorities and allocations system. This section is designed to provide a simple explanation of how the system works and to highlight the most important features of the regulation.

3. The provisions of the Controlled Materials Program, the DMS, are incorporated into this regulation. In this regard:

(a) Generally, uniform rules for all controlled materials producers and distributors are provided.

(b) The concept of Authorized Controlled Material (ACM) Orders is deleted and controlled materials will be acquired through the use of DO and DX rated orders,

(c) The requirement to indicate in the rating symbol the quarter in which delivery of controlled materials is needed is deleted (instead that information will be obtained from the required delivery date of the rated order), and

(d) Some lead times, such as for aluminum controlled materials, are modified.

4. Procedures are established by which ratings will be authorized for material and equipment needed to maximize domestic energy supplies.

5. The information provided in the BDC (Bureau of Domestic Commerce) Notices is not included in the regulation as that information is now a part of the administrative orders of the Department of Commerce and the International Trade Administration.

6. The regulation makes clear that certain items which are critical to the national defense may require special handling in the future and that special rules for designated materials under the priorities and allocations system may be required at a later date.

7. The special rules for nickel are discontinued.

8. The regulation makes clear that the priorities and allocations system is designed to keep authorized programs on schedule, and it is not to be used to enforce other provisions of other

regulations or contracts, to gain competitive advantage, to disrupt an industry apportionment or quota program needlessly, or for similar purposes.

9. Revised appeals, adjustment and exception procedures are provided.

10. The certification requirement for use on rated orders is revised.

11. The penalities provided for under the Defense Production Act for violation of the provisions of the regulation and the Defense Production Act are explicitly stated.

12. Numerous technical changes are proposed to make the regulation clearer.

13. In addition to these proposals, particular attention and comment is sought for three areas where changes are being considered. These entail significant modifications to the manner in which the priorities and allocations system is currently administered and concern new and untried procedures. It is important to ensure that all possible consequences are carefully weighed. These provisions would:

(a) Permit persons, in certain cases, to combine rated orders, not only with other rated orders, but also with unrated orders as long as the rated portion is clearly identified;

(b) Permit persons, in very specific instances, to request authority to rate contracts and orders for needed items in anticipation of receipt of a rated order; and,

(c) Permit a person to reject a rated order if the order is for an item which has not been supplied to the person tendering the order within the past two years: *unless* the person tendering the rated order certifies that the item has not been ordered or acquired from another domestic source during the past two years or certifies that the item cannot be obtained from regular suppliers in a timely fashion using a rated order.

Though the provisions of the metalworking machines order (DPS Order 1) are retained in this proposed revision (See section 350.41), they are being reviewed towards their possible discontinuance. Comments are particularly sought on their applicability to current industry practices and structure, their benefit for current authorized programs, and their pertinence for future mobilizations.

While comments on all the provisions of the proposed regulation are solicited, the Office of Industrial Mobilization is particularly interested in views on the sufficiency and completeness of the definitions provided, the reasonableness of the regulatory approaches set forth, and the adequacy of the controlled materials program as proposed. Controlled material producers are asked to give specific attention to Schedule II of the regulation.

Section 709 of the Defense Production Act exempts the promulgation of rules and regulations from the rulemaking procedures of the Administrative Procedures Act (5 U.S.C. 553). However, because of the importance and complexity of the regulation involved, the Department is inviting public participation in this review. All persons who desire to comment are encouraged to do so at the earliest possible time so as to insure the fullest consideration of their views.

Comments may take the form of proposed regulatory language, narrative discussion, hypothetical case situations, or any other appropriate format. Comments received on or before August 31, 1981, will be considerd in the review of this regulation.

Written comments accompanied by a request that part or all of the material contained be treated confidentially will not be accepted. Such comments and materials will be returned to the submitter and will not be considered in developing the final regulation. All comments considered in the review of the proposed regulation will be a matter of public record and will be available for public inspection and copying.

In the interest of accuracy and completeness, comments in written form are preferred. If oral comments are received, the Department of Commerce official receiving such comments will prepare a memorandum summarizing the substance of the comments and identifying the individual making the comments, as well as the person on whose behalf they purport to be made. All such memoranda will also be a matter of public record and will be available for public review and copying.

Written comments (3 copies, if possible) concerning the proposed regulation should be addressed to: Iain S. Baird, Director, Priorities and Allocations Division, Room 4104, Office of Industrial Mobilization, U.S. Department of Commerce, Washington, D.C. 20230.

Oral comments should be directed to: Iain S. Baird, Director, Priorities and Allocations Division, (202) 377–2233.

The public record concerning this proposed regulation will be maintained in the International Trade Administration's Freedom of Information Records Inspection Facility, Room 3012, U.S. Department of Commerce, 14th & Constitution Avenue, NW, Washington, D.C. 20230.

Records in this facility may be inspected and copied in accordance with regulations published in Part 4 of Title 15 of the Code of Federal Regulations. Information pertaining to the inspection and copying of records at the facility may be obtained from Ms. Patricia L. Mann, International Trade Administration's Freedom of Information Officer at the above address, or by calling (202) 377–3031.

Section 3(b) of Executive Order 12291 (46 FR 13193, February 19, 1981), "Federal Regulation", requires an initial determination by each agency whether a regulation it intends to propose or issue is considered a "major rule". If so, the agency must prepare a "Regulatory Impact Analysis". "Major Rule" is defined in section 1(b) of the Executive Order as any regulation that is likely to result in:

1. An annual effect on the economy of $100 million or more;

2. A major increase in costs or prices for consumers, individual industries, Federal, State, or local government agencies, or geographic region; or

3. Significant adverse effects on competition, employment, investment, productivity, innovation, or on the ability of United States based enterprises to compete with foreign based enterprises in domestic or export markets.

This proposed regulation is not a "major rule" and, therefore, a "Regulatory Impact Analysis" is not required as there will be: (1): no major monetary effect on the economy; (2) no major increase in costs or prices; and (3) no significant adverse effects on competition (domestic or foreign), employment, investment, productivity or innovation.

This proposed regulation is consistent with the purpose of the "Paperwork Reduction Act of 1980," 44 U.S.C. 3501. It does not impose any additional reporting or record keeping burdens. It mandates certain records retention for three years; provides for the submission of data to accompany a voluntary request for assistance; and provides for additional data to be collected by independent surveys. These data submission and collection activities are existing activities which have OMB approval and which are provided for in the Department of Commerce FY 81 Information Collection Budget allowance. Further, this proposed regulation provides some reduction in paperwork by eliminating the need for four reporting forms. OMB Nos. 0625–0014, 0625–0013, 0625–0030, and 0625–0028.

In addition, it has been determined that a regulatory analysis, as set forth by 5 U.S.C. 601, *et seq.* ("The Analysis of Regulatory Functions") and by Section 5

of Department of Commerce Administrative Order 218–7 and International Trade Administration Administrative Order 1–6, is not required. 5 U.S.C. 601, *et seq.* is a new statute (effective date: January 1, 1981), which concerns the impact of a proposed rule on small business entities (as defined in the statute) and requires the issuing agency to describe such impact. It has been determined that this regulation will not have a significant economic impact on a substantial number of small entities.

Accordingly, the Department of Commerce proposes to amend 15 CFR Chapter III, Subchapter B, by removing Parts 330–332, 340–343, and 351–354, and revising Part 350 to read as follows:

PART 330—BASIC RULES OF DEFENSE MATERIALS SYSTEM. (DMS Reg. 1) [Removed]

PART 331—SELF-AUTHORIZATION PROCEDURE FOR MRO NEEDED TO FILL MANDATORY ACCEPTANCE ORDERS. (DMS Reg. 1, Dir. 1) [Removed]

PART 332—CONTROLLED MATERIALS PRODUCERS AND DISTRIBUTORS. (DMS Reg. 1, Dir. 2) [Removed]

PART 340—IRON AND STEEL. (DMS Order 1) [Removed]

PART 341—NICKEL ALLOYS. (DMS Order 2) [Removed]

PART 342—ALUMINUM. (DMS Order 3) [Removed]

PART 343—COPPER AND COPPER-BASE ALLOYS. (DMS Order 3) [Removed]

PART 351—OPERATIONS OF THE PRIORITIES AND ALLOCATION SYSTEM BETWEEN CANADA AND THE UNITED STATES. (DPS Reg. 2) [Removed]

PART 352—COMPLIANCE AND ENFORCEMENT PROCEDURES. (DPS Reg. 3) [Removed]

PART 353—METALWORKING MACHINES. (DPS Order 1) [Removed]

PART 354—NICKEL. (DPS Order 2) [Removed]

PART 350—DEFENSE PRIORITIES AND ALLOCATIONS SYSTEM

Subpart A—Introduction

Sec.
350.1 Purpose.
350.2 General provisions.
350.3 Use of priority ratings.
350.4 Controlled materials.
350.5 Special priorities assistance.
350.6 Official actions.
350.7 Compliance.

Subpart B—Definitions

350.9 Definitions.

Subpart C—Industrial Priorities

350.10 Delegation of authority.
350.11 Levels of priority and rating symbols.
350.12 Elements of a rated order.
350.13 Acceptance and rejection of rated orders.
350.14 Preferential scheduling.
350.15 Extension of priority ratings.
350.16 Changes in rated orders.
350.17 Ratable items.
350.18 Limitations on placing rated orders.

Subpart D—Industrial Priorities for Energy Programs

350.20 Use of priority ratings.
350.21 Application for priority rating authorization.

Subpart E—The Controlled Materials

350.30 General provisions.
350.31 Controlled materials technical definitions.
350.32 Special rules applicable to controlled materials producers and distributors.

Subpart F—Critical Items

350.40 General provisions.
350.41 Metalworking machines.

Subpart G—Special Priorities Assistance

350.50 General provisions.
350.51 Requests for special priorities assistance or rating authorization.
350.52 Types of assistance.
350.53 Rating authorization.
350.54 Criteria for assistance.
350.55 Assistance programs with Canada and other nations.
350.56 Instances where assistance will not be provided.

Subpart H—Official Actions

350.60 General provisions.
350.61 Authorizations.
350.62 Directives.
350.63 Letters of understanding.

Subpart I—Compliance

350.70 General provisions.
350.71 Audits and investigations.
350.72 Notification of failure to comply.
350.73 Violations, penalties, and remedies.

Subpart J—Adjustments and Appeals

350.80 Adjustments.
350.81 Appeals.

Subpart K—Miscellaneous Provisions

350.90 Protection against claims.
Sec.
350.91 Records and reports.
350.92 Applicability of this regulation and official actions.
350.93 Communications.

Schedules

Schedule I to Part 350: Authorized Program Identifications and Delegate Agencies
Schedule II to Part 350: Controlled Materials
Schedule III to Part 350: Copper and Nickel Alloys Controlled Materials Producers' Set-Aside Base and Percentages

Appendices

Appendix I to Part 350: Delegations (To be provided with final rules)
Appendix II to Part 350: Interagency Agreements (To be provided with final rules)
Appendix III to Part 350: Form ITA–999 (To be provided with final rules)

Authority: Defense Production Act of 1950, as amended (64 Stat. 816; 50 U.S.C. App. 2061, *et seq.*); Executive Order 10480, as amended, 18 FR 4939, 6201, 19 FR 3807, 7249, 21 FR 1673, 23 FR 5061, 6971, 24 FR 3779, 27 FR 9683, 11447, 3 CFR 1949–1953 Comp., p. 919; Executive Order 11725, 38 FR 17175; Executive Order 11912, 41 FR 15825; DMO–3, 44 CFR 322 (formerly 32A CFR 103), DMO–13, 44 CFR 330 (formerly 32A CFR 113); Department of Commerce Organization Order 10–3 (45 FR 6141); International Trade Administration Organization and Function Orders No. 41–1 (45 FR 11862, January 22, 1980) and No. 41–4 (45 FR 65003, October 1, 1980).

Subpart A—Introduction

§ 350.1 Purpose.

(a) Title I of the Defense Production Act of 1950, as amended, (50 U.S.C. App. 2061, *et seq.*) (Defense Production Act), authorizes the President (or his delegate) to require the priority performance of contracts and orders necessary or appropriate to the national defense over other contracts or orders; and permits the President (or his delegate) to allocate materials and facilities as necessary or appropriate to promote the national defense.

(b) In order to carry out the priorities and allocations provisions with respect to industrial resources, a Defense Priorities and Allocations System is established. This system keeps current national defense programs on schedule by ensuring that they receive preferential scheduling. In addition, the system can be rapidly expanded during an emergency to assure the availability of industrial resources needed for a mobilization or other crisis.

§ 350.2 General provisions.

(a) The Federal Emergency Management Agency authorizes certain defense and energy programs as qualifying for priorities support. For example, military aircraft production, civil defense activities, nuclear defense projects, and certain programs which maximize domestic energy supplies are "authorized programs." A complete list of currently authorized programs is provided at Schedule I.
